POLLUTION CONTROL

26.12 Section 1. Minnesota Statutes 2023 Supplement, section 115.03, subdivision 1, is amended
26.13 to read:

26.14 Subdivision 1. **Generally.** (a) The commissioner is given and charged with the following
26.15 powers and duties:

26.16 (1) to administer and enforce all laws relating to the pollution of any of the waters of
26.17 the state;

26.18 (2) to investigate the extent, character, and effect of the pollution of the waters of this
26.19 state and to gather data and information necessary or desirable in the administration or
26.20 enforcement of pollution laws, and to make such classification of the waters of the state as
26.21 it may deem advisable;

26.22 (3) to establish and alter such reasonable pollution standards for any waters of the state
26.23 in relation to the public use to which they are or may be put as it shall deem necessary for
26.24 the purposes of this chapter and, with respect to the pollution of waters of the state, chapter
26.25 116;

26.26 (4) to encourage waste treatment, including advanced waste treatment, instead of stream
26.27 low-flow augmentation for dilution purposes to control and prevent pollution;

26.28 (5) to adopt, issue, reissue, modify, deny, ~~or~~ revoke, reopen, enter into, or enforce
26.29 reasonable orders, permits, variances, standards, rules, schedules of compliance, and
26.30 stipulation agreements, under such conditions as it may prescribe, in order to prevent, control
26.31 or abate water pollution, or for the installation or operation of disposal systems or parts
26.32 thereof, or for other equipment and facilities:

27.1 (i) requiring the discontinuance of the discharge of sewage, industrial waste or other
27.2 wastes into any waters of the state resulting in pollution in excess of the applicable pollution
27.3 standard established under this chapter;

27.4 (ii) prohibiting or directing the abatement of any discharge of sewage, industrial waste,
27.5 or other wastes, into any waters of the state or the deposit thereof or the discharge into any
27.6 municipal disposal system where the same is likely to get into any waters of the state in
27.7 violation of this chapter and, with respect to the pollution of waters of the state, chapter
27.8 116, or standards or rules promulgated or permits issued pursuant thereto, and specifying
27.9 the schedule of compliance within which such prohibition or abatement must be
27.10 accomplished;

27.11 (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a manner
27.12 which does not reasonably assure proper retention against entry into any waters of the state
27.13 that would be likely to pollute any waters of the state;

27.14 (iv) requiring the construction, installation, maintenance, and operation by any person
27.15 of any disposal system or any part thereof, or other equipment and facilities, or the
27.16 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,
27.17 or the adoption of other remedial measures to prevent, control or abate any discharge or
27.18 deposit of sewage, industrial waste or other wastes by any person;

27.19 (v) establishing, and from time to time revising, standards of performance for new sources
27.20 taking into consideration, among other things, classes, types, sizes, and categories of sources,
27.21 processes, pollution control technology, cost of achieving such effluent reduction, and any
27.22 nonwater quality environmental impact and energy requirements. Said standards of
27.23 performance for new sources shall encompass those standards for the control of the discharge
27.24 of pollutants which reflect the greatest degree of effluent reduction which the agency
27.25 determines to be achievable through application of the best available demonstrated control
27.26 technology, processes, operating methods, or other alternatives, including, where practicable,
27.27 a standard permitting no discharge of pollutants. New sources shall encompass buildings,
27.28 structures, facilities, or installations from which there is or may be the discharge of pollutants,
27.29 the construction of which is commenced after the publication by the agency of proposed
27.30 rules prescribing a standard of performance which will be applicable to such source.
27.31 Notwithstanding any other provision of the law of this state, any point source the construction
27.32 of which is commenced after May 20, 1973, and which is so constructed as to meet all
27.33 applicable standards of performance for new sources shall, consistent with and subject to
27.34 the provisions of section 306(d) of the Amendments of 1972 to the Federal Water Pollution
27.35 Control Act, not be subject to any more stringent standard of performance for new sources

28.1 during a ten-year period beginning on the date of completion of such construction or during
28.2 the period of depreciation or amortization of such facility for the purposes of section 167
28.3 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period ends first.
28.4 Construction shall encompass any placement, assembly, or installation of facilities or
28.5 equipment, including contractual obligations to purchase such facilities or equipment, at
28.6 the premises where such equipment will be used, including preparation work at such
28.7 premises;

28.8 (vi) establishing and revising pretreatment standards to prevent or abate the discharge
28.9 of any pollutant into any publicly owned disposal system, which pollutant interferes with,
28.10 passes through, or otherwise is incompatible with such disposal system;

28.11 (vii) requiring the owner or operator of any disposal system or any point source to
28.12 establish and maintain such records, make such reports, install, use, and maintain such
28.13 monitoring equipment or methods, including where appropriate biological monitoring
28.14 methods, sample such effluents in accordance with such methods, at such locations, at such
28.15 intervals, and in such a manner as the agency shall prescribe, and providing such other
28.16 information as the agency may reasonably require;

28.17 (viii) notwithstanding any other provision of this chapter, and with respect to the pollution
28.18 of waters of the state, chapter 116, requiring the achievement of more stringent limitations
28.19 than otherwise imposed by effluent limitations in order to meet any applicable water quality
28.20 standard by establishing new effluent limitations, based upon section 115.01, subdivision
28.21 13, clause (b), including alternative effluent control strategies for any point source or group
28.22 of point sources to insure the integrity of water quality classifications, whenever the agency
28.23 determines that discharges of pollutants from such point source or sources, with the
28.24 application of effluent limitations required to comply with any standard of best available
28.25 technology, would interfere with the attainment or maintenance of the water quality
28.26 classification in a specific portion of the waters of the state. Prior to establishment of any
28.27 such effluent limitation, the agency shall hold a public hearing to determine the relationship
28.28 of the economic and social costs of achieving such limitation or limitations, including any
28.29 economic or social dislocation in the affected community or communities, to the social and
28.30 economic benefits to be obtained and to determine whether or not such effluent limitation
28.31 can be implemented with available technology or other alternative control strategies. If a
28.32 person affected by such limitation demonstrates at such hearing that, whether or not such
28.33 technology or other alternative control strategies are available, there is no reasonable
28.34 relationship between the economic and social costs and the benefits to be obtained, such
28.35 limitation shall not become effective and shall be adjusted as it applies to such person;

29.1 (ix) modifying, in its discretion, any requirement or limitation based upon best available
29.2 technology with respect to any point source for which a permit application is filed after July
29.3 1, 1977, upon a showing by the owner or operator of such point source satisfactory to the
29.4 agency that such modified requirements will represent the maximum use of technology
29.5 within the economic capability of the owner or operator and will result in reasonable further
29.6 progress toward the elimination of the discharge of pollutants; ~~and~~

29.7 (x) requiring that applicants for wastewater discharge permits evaluate in their
29.8 applications the potential reuses of the discharged wastewater; and

29.9 (xi) when appropriate, requiring parties who enter into a negotiated agreement to settle
29.10 an enforcement matter with the agency to reimburse the agency for oversight costs. The
29.11 agency may recover oversight costs only if the agency's costs exceed \$25,000. If oversight
29.12 costs exceed \$25,000, the agency may recover all the oversight costs incurred by the agency
29.13 that are associated with implementing the negotiated agreement. Oversight costs may include
29.14 but are not limited to any costs associated with inspections, sampling, monitoring, modeling,

29.23 or point sources, or any part thereof and to inspect the construction thereof for compliance
29.24 with the approved plans and specifications thereof;

39.31 date the boat wrap was ordered from a producer or wholesaler, the producer was listed as
39.32 compliant on the agency website.

40.1 (c) A retailer may elect to participate as a designated point where boat wrap is collected
40.2 as part of a product stewardship program approved under this section and in accordance
40.3 with applicable law.

40.4 Subd. 12. **Agency responsibilities.** (a) The commissioner must maintain on the agency
40.5 website a list of all compliant producers and brands participating in a stewardship plan that
40.6 the commissioner has approved and a list of all producers and brands the commissioner has
40.7 identified as noncompliant with this section.

40.8 (b) The commissioner must, in consultation with the stewardship organization, establish
40.9 annual performance goals regarding the percentage and weight of boat wrap collected and
40.10 recycled that the stewardship organization must incorporate into its stewardship plan and
40.11 meet annually. The performance goals must increase each year and be based on:

40.12 (1) the most recent collection data available for the state;

40.13 (2) the estimated weight of boat wrap sold and discarded annually;

40.14 (3) actual collection data from boat wrap recycling or stewardship programs operating
40.15 in other states; and

40.16 (4) continuous progress necessary to meet the requirements in paragraph (c).

40.17 (c) By June 1, 2030, no less than 50 percent of the total weight of boat wrap sold in this
40.18 state must be collected and recycled. By June 1, 2035, no less than 80 percent of the total
40.19 weight of boat wrap sold in this state must be collected and recycled.

40.20 (d) After June 1, 2035, the commissioner may establish additional requirements for the
40.21 percentage of boat wrap sold in the state that must be collected and recycled. The
40.22 requirements must not be less than those listed in this subdivision and must be based on the
40.23 factors in paragraph (b), clauses (1) to (3).

40.24 Subd. 13. **Administrative fee.** (a) A stewardship organization must pay an annual
40.25 administrative fee to the commissioner. Before June 1, 2025, and before each June 1
40.26 thereafter, the commissioner must identify the costs the agency incurs to administer and
40.27 enforce this section. The commissioner must set the fee at an amount that, when paid by
40.28 the stewardship organization, is sufficient to reimburse the agency's full costs of administering
40.29 and enforcing this section but does not exceed those costs.

40.30 (b) A stewardship organization must pay the administrative fee required under this
40.31 subdivision on or before July 1, 2025, and annually thereafter, on a schedule and in a manner
40.32 prescribed by the commissioner.

41.1 (c) The commissioner must deposit all fees received under this subdivision in the account
41.2 established in subdivision 15.

41.3 Subd. 14. **User fees prohibited.** The stewardship program must be fully paid for by
41.4 producers, without any fee, charge, surcharge, or any other cost to members of the public,
41.5 businesses other than a producer, persons managing boat wrap, the state or any political
41.6 subdivision, or any other person who is not a producer.

41.7 Subd. 15. **Account established.** (a) A boat wrap stewardship account is established in
41.8 the special revenue fund in the state treasury. The account consists of money received from
41.9 the administrative fee established in subdivision 13. The commissioner must manage the
41.10 account.

41.11 (b) Money in the account is appropriated annually to the commissioner for administering
41.12 and enforcing this section.

41.13 Subd. 16. **Stewardship reports.** Beginning March 1, 2026, and each March 1 thereafter,
41.14 a stewardship organization operating under this section must submit an annual report to the
41.15 commissioner describing the program operations of the stewardship plan during the previous
41.16 calendar year. At a minimum, the report must contain:

41.17 (1) a description of the methods used to collect, transport, reuse, and recycle discarded
41.18 boat wrap in all regions of the state;

41.19 (2) the weight of all boat wrap collected and recycled in each separate region of the
41.20 state;

41.21 (3) the weight of all boat wrap sold in the state;

41.22 (4) the weight of discarded boat wrap collected in the state by method of disposition,
41.23 including recycling, reuse, disposal of residuals, and other methods of processing;

41.24 (5) a comparison of the amount of boat wrap collected and recycled with the performance
41.25 goals established according to subdivision 12 and, if the goals have not been met, a discussion
41.26 of why the performance goals were not met and proposed modifications to the collection
41.27 program the stewardship organization will implement to ensure that future performance
41.28 goals will be met;

41.29 (6) samples of educational materials provided to boat wrap consumers, marinas, and
41.30 boat storage establishments and an evaluation of the effectiveness of the materials and the
41.31 methods used to disseminate the materials; and

42.1 (7) an independent financial audit of stewardship organization activities performed by
42.2 an independent auditor. The independent auditor must be selected by the stewardship
42.3 organization and approved or rejected by the commissioner. If the commissioner rejects an
42.4 independent auditor, the operator must select a different independent auditor for approval
42.5 or rejection by the commissioner. The independent audit must meet the requirements of
42.6 Accounting Standards Update 2018-08, Not-for-Profit Entities (Topic 958), Financial
42.7 Accounting Standards Board, as amended.

42.8 Subd. 17. **Data classification.** Trade secret and sales information, as defined under
42.9 section 13.37, submitted to the commissioner under this section are private or nonpublic
42.10 data under section 13.37.

42.11 Subd. 18. **Duty to provide information.** Upon request of the commissioner for purposes
42.12 of determining compliance with this section, a person must furnish to the commissioner
42.13 any information that the person has or may reasonably obtain.

42.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

42.15 Sec. 10. **[115A.412] WASTE COMPOSITION; INFORMATION REQUIRED.**

42.16 Subdivision 1. **Study required.** (a) Every three years, beginning in 2029, the
42.17 commissioner must direct the owners and operators at 20 percent of each of the following
42.18 facility types to perform a waste composition study:

42.19 (1) mixed municipal solid waste land disposal facilities;

42.20 (2) industrial solid waste land disposal facilities;

42.21 (3) demolition debris land disposal facilities;

42.22 (4) transfer stations that annually transfer more than 5,000 tons of waste to a facility
42.23 outside Minnesota; and

42.24 (5) other facilities identified by the commissioner.

42.25 (b) The waste composition study must be performed at the sole expense of each owner
42.26 or operator as directed by the commissioner.

42.27 (c) When selecting facilities for waste composition studies, the commissioner must rotate
42.28 the participants so that, over time, the studies cover the entirety of the facilities identified
42.29 under paragraph (a). The commissioner must determine the time frame for each study in
42.30 the three-year cycle. The owner or operator of each selected facility must complete the study
42.31 within one year of being notified by the commissioner of selection to perform a waste
42.32 composition study.

43.1 Subd. 2. **Study requirements.** (a) The commissioner must:

43.2 (1) determine the sampling methods to be used and the categories of materials to be
43.3 sampled for waste composition studies; and

43.4 (2) provide the sampling methods and any additional requirements identified by the
43.5 commissioner to each owner or operator directed to perform a study.

43.6 (b) The sampling methods must include the number of samples to be taken, the size or
43.7 weight of each sample, the duration of a sampling event, the sampling interval, and any
43.8 additional methods identified by the commissioner. The categories of materials to be sampled
43.9 must include categories and subcategories identified by the commissioner to represent the
43.10 materials present at each facility.

43.11 (c) Resource recovery facilities required to do waste sorts required under air rules adopted
43.12 under section 116.07 must use the study requirements developed under this section when
43.13 conducting waste composition analysis to meet the rule requirements.

43.14 (d) The commissioner must obtain input from counties, cities, and owners or operators
43.15 of waste facilities before finalizing the sampling methods and requirements. The
43.16 commissioner must consider cost effectiveness and data quality when determining the
43.17 sampling methods.

43.18 Subd. 3. **Report.** Within six months after completing a waste composition study required
43.19 under this section, the owner or operator of a facility must submit the raw data and results
43.20 of the study to the commissioner in a form and manner prescribed by the commissioner.

43.21 Subd. 4. **Compilation.** After each three-year cycle, the commissioner must compile and
43.22 summarize the waste composition data received under subdivision 3. The commissioner
43.23 must make the summary information available to the public.

43.24 Subd. 5. **Additional studies; information.** (a) The commissioner may conduct additional
43.25 waste composition studies at facilities described in subdivision 1.

43.26 (b) Upon request of the commissioner for purposes of determining compliance with this
43.27 section, a person must furnish to the commissioner any information that the person has or
43.28 may reasonably obtain.

43.29 (c) The owner or operator of a facility shall allow access upon reasonable notice to
43.30 authorized agency staff for the purpose of conducting waste composition studies.

44.1 Sec. 11. Minnesota Statutes 2022, section 115A.5502, is amended to read:

44.2 **115A.5502 PACKAGING PRACTICES; PREFERENCES; GOALS.**

44.3 Packaging forms a substantial portion of solid waste and contributes to environmental
44.4 degradation and the costs of managing solid waste. It is imperative to reduce the amount
44.5 and toxicity of packaging that must be managed as solid waste. In order to achieve significant
44.6 reduction of packaging in solid waste ~~and to assist packagers and others to meet the packaging~~
44.7 ~~reduction goal in section 115A.5501~~, the goal of the state is that items be distributed without
44.8 any packaging where feasible and, only when necessary to protect health and safety or
44.9 product integrity, with the minimal amount of packaging possible. The following categories
44.10 of packaging are listed in order of preference for use by all persons who find it necessary
44.11 to package items for distribution or use in the state:

44.12 (1) minimal packaging that contains no intentionally introduced toxic materials and that
44.13 is designed to be and actually is reused for its original purpose at least five times;

44.14 (2) minimal packaging that contains no intentionally introduced toxic materials and
44.15 consists of a significant percentage of postconsumer material;

44.16 (3) minimal packaging that contains no intentionally introduced toxic materials, that is
44.17 recyclable, and is regularly collected through recycling collection programs available to at
44.18 least 75 percent of the residents of the state;

44.19 (4) minimal packaging that does not comply with clause (1), (2), or (3) because it is
44.20 required under federal or state law and for which there does not exist a commercially feasible
44.21 alternative that does comply with clause (1), (2), or (3);

44.22 (5) packaging that contains no intentionally introduced toxic materials but does not
44.23 comply with clauses (1) to (4); and

44.24 (6) all other packaging.

44.25 Sec. 12. Minnesota Statutes 2022, section 115B.421, is amended to read:

44.26 **115B.421 CLOSED LANDFILL INVESTMENT FUND.**

44.27 Subdivision 1. Establishment. (a) The closed landfill investment fund is established in
44.28 the state treasury. The fund consists of money credited to the fund and interest and other
44.29 earnings on money in the fund. Funds must be deposited as described in section 115B.445.
44.30 The fund must be managed to maximize long-term gain through the State Board of
44.31 Investment.

45.1 (b) Each fiscal year, up to \$4,500,000 is appropriated from the closed landfill investment
45.2 fund to the commissioner for the purposes of sections 115B.39 to 115B.444.

45.3 (c) If the commissioner determines that a release or threatened release from a qualified
45.4 facility for which the commissioner has assumed obligations for environmental response
45.5 actions under section 115B.40 or 115B.406 constitutes an emergency requiring immediate
45.6 action to prevent, minimize, or mitigate damage either to the public health or welfare or the
45.7 environment or to a system designed to protect the public health or welfare or the
45.8 environment, up to \$9,000,000 in addition to the amount appropriated under paragraph (b)
45.9 is appropriated to the commissioner in the first year of the biennium and may be spent by
45.10 the commissioner to take reasonable and necessary emergency response actions. Money
45.11 not spent in the first year of the biennium may be spent in the second year. If money is
45.12 appropriated under this paragraph, the commissioner must notify the chairs of the senate
45.13 and house of representatives committees having jurisdiction over environment policy and
45.14 finance as soon as possible. The commissioner must maintain the fund balance to ensure
45.15 long-term viability of the fund and reflect the responsibility of the landfill cleanup program
45.16 in perpetuity.

45.17 (d) Paragraphs (b) and (c) expire June 30, 2025.

45.18 Subd. 2. Local notification. If money in the closed landfill investment fund is spent or
45.19 transferred for purposes other than the purposes provided under sections 115B.39 to
45.20 115B.444, the commissioner must provide written notification to each county with a qualified
45.21 facility within 30 days of the transfer or expenditure that includes the amount, purpose, and
45.22 authority used to spend or transfer the money.

45.23 Sec. 13. Minnesota Statutes 2022, section 116.07, is amended by adding a subdivision to
45.24 read:

45.25 Subd. 4n. Compliance protocols. (a) The commissioner must develop a compliance
45.26 protocol for use under this subdivision, consisting of:

45.27 (1) methods the agency requires a facility to employ to physically measure the actual
45.28 emissions of each air toxic emitted by the facility; and

45.29 (2) the frequency with which the facility must employ each method.

45.30 (b) Methods of physical measurement the agency may require include but are not limited
45.31 to:

45.32 (1) continuous emission monitoring systems;

- 46.1 (2) performance tests;
- 46.2 (3) ambient monitoring near the facility;
- 46.3 (4) portable monitoring units that have been calibrated with performance tests or
46.4 continuous emission monitors; and
- 46.5 (5) any other physical method of measuring actual emissions that the commissioner
46.6 determines is accurate and technically and physically feasible.
- 46.7 (c) For violations of state and federal air pollution laws involving emissions of hazardous
46.8 air pollutants, the commissioner may require a compliance protocol as part of a state
46.9 individual air quality permit issued in response to an enforcement action.
- 46.10 (d) The commissioner may require a facility to employ quality control measures and
46.11 procedures to ensure that pollution control equipment and emissions monitoring equipment
46.12 are properly calibrated, operated, and maintained to ensure accuracy.
- 46.13 (e) For the purposes of this subdivision, "state individual air quality permit" means an
46.14 air quality permit that:
- 46.15 (1) is issued to an individual facility that is required to obtain a permit under Minnesota
46.16 Rules, part 7007.0250, subparts 2 to 6; and
- 46.17 (2) is not a general permit issued under Minnesota Rules, part 7007.1100.
- 46.18 (f) Beginning January 15, 2025, the commissioner must annually submit a report to the
46.19 chairs and ranking minority members of the environment and natural resources finance and
46.20 policy committees on the use of compliance protocols over the preceding year.

46.21 Sec. 14. Minnesota Statutes 2022, section 116.07, subdivision 9, is amended to read:

46.22 Subd. 9. **Orders; investigations.** ~~The agency shall have~~ commissioner has the following
46.23 powers and duties for ~~the enforcement of~~ enforcing any provision of this chapter and chapter
46.24 114C, relating to air contamination or waste:

46.25 (1) to adopt, issue, reissue, modify, deny, revoke, reopen, enter into or enforce reasonable
46.26 orders, schedules of compliance and stipulation agreements;

46.27 (2) to require the owner or operator of any emission facility, air contaminant treatment
46.28 facility, potential air contaminant storage facility, or any system or facility related to the
46.29 storage, collection, transportation, processing, or disposal of waste to establish and maintain
46.30 records; to make reports; to install, use, and maintain monitoring equipment or methods;
46.31 and to make tests, including testing for odor where a nuisance may exist, in accordance with

47.1 methods, at locations, at intervals, and in a manner as the agency shall prescribe; and to
47.2 provide other information as the agency may reasonably require;

47.3 (3) to conduct investigations, issue notices, public and otherwise, and order hearings as
47.4 it may deem necessary or advisable for the discharge of its duties under this chapter and
47.5 chapter 114C, including but not limited to the issuance of permits; and to authorize any
47.6 member, employee, or agent appointed by it to conduct the investigations and issue the
47.7 notices; and

47.8 (4) when appropriate, requiring parties who enter into a negotiated agreement to settle
47.9 an enforcement matter with the agency to reimburse the agency for oversight costs. The
47.10 agency may recover oversight costs only if the agency's costs exceed \$25,000. If oversight
47.11 costs exceed \$25,000, the agency may recover all the oversight costs incurred by the agency
47.12 that are associated with implementing the negotiated agreement. Oversight costs may include
47.13 but are not limited to any costs associated with inspections, sampling, monitoring, modeling,
47.14 risk assessment, permit writing, engineering review, economic analysis and review, and
47.15 other record or document review. Estimates of anticipated oversight costs must be disclosed
47.16 in the negotiated agreement, and estimates must be periodically updated and disclosed to
47.17 the parties to the negotiated agreement. The agency's legal and litigation costs are not
47.18 recoverable under this clause. In addition to settlement agreements, the commissioner has
47.19 discretion as to whether to apply this clause in cases where the agency is using schedules
47.20 of compliance to bring a class of regulated parties into compliance.

47.21 Sec. 15. Minnesota Statutes 2022, section 116.07, is amended by adding a subdivision to
47.22 read:

47.23 Subd. 9a. **Stipulation agreements.** If a party to a stipulation agreement asserts a good
47.24 cause or force majeure claim for an extension of time to comply with a stipulated term, the
47.25 commissioner may deny the extension if the assertion is based solely on increased costs of
47.26 compliance.

47.27 Sec. 16. Minnesota Statutes 2022, section 116.072, subdivision 2, is amended to read:

47.28 Subd. 2. **Amount of penalty; considerations.** (a) The commissioner or county board
47.29 may issue orders assessing penalties up to ~~\$20,000~~ \$25,000 for violations identified during
47.30 an inspection or other compliance review.

47.31 (b) In determining the amount of a penalty, the commissioner or county board ~~may~~ must
47.32 consider:

48.1 (1) the willfulness of the violation;

48.2 (2) the gravity of the violation, including damage to humans, animals, air, water, land,
48.3 or other natural resources of the state;

48.4 (3) the history of past violations;

48.5 (4) the number of violations;

48.6 (5) the economic benefit gained by the person by allowing or committing the violation;

48.7 and

48.8 (6) other factors as justice may require, if the commissioner or county board specifically
48.9 identifies the additional factors in the commissioner's or county board's order.

48.10 (c) For a violation after an initial violation, the commissioner or county board ~~shall~~ must,
48.11 in determining the amount of a penalty, consider the factors in paragraph (b) and the:

48.12 (1) similarity of the most recent previous violation and the violation to be penalized;

48.13 (2) time elapsed since the last violation;

48.14 (3) number of previous violations; and

48.15 (4) response of the person to the most recent previous violation identified.

48.16 Sec. 17. Minnesota Statutes 2022, section 116.072, subdivision 5, is amended to read:

48.17 Subd. 5. **Penalty.** (a) Except as provided in paragraph (b), if the commissioner or county
48.18 board determines that the violation has been corrected or appropriate steps have been taken
48.19 to correct the action, the penalty must be forgiven. Unless the person requests review of the
48.20 order under subdivision 6 or 7 before the penalty is due, the penalty in the order is due and
48.21 payable:

48.22 (1) on the 31st day after the order was received, if the person subject to the order fails
48.23 to provide information to the commissioner or county board showing that the violation has
48.24 been corrected or that appropriate steps have been taken toward correcting the violation; or

48.25 (2) on the 20th day after the person receives the commissioner's or county board's
48.26 determination under subdivision 4, paragraph (b), if the person subject to the order has
48.27 provided information to the commissioner or county board that the commissioner or county
48.28 board determines is not sufficient to show the violation has been corrected or that appropriate
48.29 steps have been taken toward correcting the violation.

48.30 (b) For a repeated or serious violation, the commissioner or county board may issue an
48.31 order with a penalty that will not be forgiven after the corrective action is taken. A penalty

49.1 for a repeated violation that occurs within 36 months after one or more previous violations
49.2 must be at least ten percent higher than the penalty imposed for the most recent violation,
49.3 except the amount must not exceed the maximum penalty established in subdivision 2. The
49.4 penalty is due by 31 days after the order was received unless review of the order under
49.5 subdivision 6, 7, or 8 has been sought.

49.6 (c) Interest at the rate established in section 549.09 begins to accrue on penalties under
49.7 this subdivision on the 31st day after the order with the penalty was received.

49.8 Sec. 18. Minnesota Statutes 2022, section 116.11, is amended to read:

49.9 **116.11 EMERGENCY POWERS.**

49.10 Subdivision 1. Imminent and substantial danger. If there is imminent and substantial
49.11 danger to the health and welfare of the people of the state, or of any of them, as a result of
49.12 the pollution of air, land, or water, the agency commissioner may by emergency order direct
49.13 the immediate discontinuance or abatement of the pollution without notice and without a
49.14 hearing or at the request of the agency commissioner, the attorney general may bring an
49.15 action in the name of the state in the appropriate district court for a temporary restraining
49.16 order to immediately abate or prevent the pollution. The agency commissioner's order or
49.17 temporary restraining order ~~shall remain~~ is effective until notice, hearing, and determination
49.18 pursuant to other provisions of law, or, in the interim, as otherwise ordered. A final order
49.19 of the agency commissioner in these cases ~~shall be~~ is appealable in accordance with chapter
49.20 14.

49.21 Subd. 2. Other acts of concern. (a) The commissioner may exercise the authority under

49.28 or welfare of the people of the state or evidence of environmental harm.

49.29 (b) When the commissioner has evidence of behavior specified in paragraph (a),
49.30 regardless of the presence of imminent and substantial danger, the commissioner may
49.31 investigate and may:

49.32 (1) suspend or revoke a permit;

 72.28 by the state, along with other lands acquired by the National Park Service for the park, were
 72.29 made subject to concurrent jurisdiction by the state and the United States under section

73.11 the state's ownership of and jurisdiction over these waters and their beds and related natural
73.12 resources, together with associated rights of the state and its citizens arising from the state's
73.13 ownership and jurisdiction. In discharging their duties, the governor, attorney general, other

76.9 not engage in or carry out production of gas or oil from consolidated or unconsolidated
76.10 formations in the state unless the person has first obtained a permit for the production of
76.11 gas or oil from the commissioner of natural resources. Any permit under this section must
76.12 be protective of natural resources and require a demonstration of control of the extraction
76.13 area through ownership, lease, or agreement. For purposes of this section, "gas" includes

77.4 and

77.5 (5) the commissioner of labor and industry may adopt or amend rules to protect workers
77.6 from exposure and other potential hazards from gas and oil production.

77.7 (b) An agency adopting rules under this section must use the expedited procedure in
77.8 section 14.389. Rules adopted or amended under this authority are exempt from the 18-month

79.20 may consider the economic circumstances of the person and, in lieu of monetary restitution,
79.21 order the person to perform conservation work representing the amount of restitution that
79.22 will aid the propagation of wild animals. If the court does not order a person to pay restitution,

116.21 The producer responsibility organization must register by January 1, 2025, with the
116.22 commissioner by submitting the following:

116.23 (1) contact information for a person responsible for implementing an approved
116.24 stewardship plan;

116.25 (2) a list of current member producers that have entered into written agreements to
116.26 operate under an approved stewardship plan administered by the producer responsibility
116.27 organization;

116.28 (3) a plan for recruiting additional member producers and executing written agreements
116.29 confirming producers will operate under an approved stewardship plan administered by the
116.30 producer responsibility organization;

116.31 (4) a list of current board members and the executive director if different than the person
116.32 responsible for implementing approved stewardship plans; and

117.1 (5) documentation demonstrating adequate financial responsibility and financial controls
117.2 to ensure proper management of funds and payment of the implementation fee required
117.3 under paragraph (c).

117.4 (b) Notwithstanding the other provisions of this section, the commissioner may not allow
117.5 registration of more than one producer responsibility organization under this section before
117.6 the first stewardship plan approved by the commissioner expires. If more than one producer
117.7 responsibility organization applies to register under this section before the first stewardship
117.8 plan is approved by the commissioner, the commissioner must select the producer
117.9 responsibility organization that will represent producers until the first stewardship plan
117.10 expires and, if applicable, must return the fee paid by applicants who are not selected. When
117.11 selecting a producer responsibility organization, the commissioner must consider whether
117.12 the producer responsibility organization:

117.13 (1) has a governing board consisting of producers that represent a diversity of covered
117.14 materials introduced; and

117.15 (2) demonstrates adequate financial responsibility and financial controls to ensure proper
117.16 management of funds.

117.17 (c) By February 15, 2025, and annually until February 15, 2028, the commissioner must
117.18 provide written notice to the producer responsibility organization of the commissioner's
117.19 estimates of the cost required to perform the commissioner's duties as described in section
117.20 115A.1445. The producer responsibility organization must remit payment in full for these
117.21 costs to the commissioner within 45 days of receipt of this notice. The producer responsibility
117.22 organization may charge each member producer a fee according to each producer's unit-,
117.23 weight-, volume-, or sales-based market share or by another method it determines to be an
117.24 equitable determination of each producer's payment obligation, so that the aggregate fees
117.25 charged to member producers is sufficient to pay the commissioner's estimated costs in full.

117.26 Subd. 4. **Requirement for additional producer responsibility organizations.** After
117.27 the first stewardship plan approved by the commissioner expires, the commissioner may
117.28 allow registration of more than one producer responsibility organization if:

117.29 (1) producers of a covered materials type or a specific covered material appoint a producer
117.30 responsibility organization; or

117.31 (2) producers organize under additional producer responsibility organizations.

117.32 Subd. 5. **Registration of service providers.** By January 1, 2025, and annually thereafter,
117.33 a service provider seeking reimbursement for services provided under an approved

118.1 stewardship plan according to section 115A.1451 must register with the commissioner by
118.2 submitting the following information:

118.3 (1) the contact information for a person representing the service provider;

118.4 (2) the address of the service provider; and

118.5 (3) if applicable to services provided, a report of the total amount billed for collection
118.6 for covered entities, processing services, and transfer station operations provided during
118.7 the preceding calendar year and, when possible, values must be separated for collection,
118.8 transfer, and processing.

118.9 Subd. 6. **Disposition of fees.** All fees received under this section must be deposited in
118.10 the state treasury and credited to the product stewardship account under section 115A.1463.

118.11 Sec. 5. **[115A.1444] ESTABLISHMENT OF PRODUCER RESPONSIBILITY**

118.12 **ADVISORY BOARD.**

118.13 Subdivision 1. **Establishment.** The Producer Responsibility Advisory Board is established
118.14 to review all activities conducted by producer responsibility organizations under this act
118.15 and to advise the commissioner and producer responsibility organizations regarding the
118.16 implementation of this act.

118.17 Subd. 2. **Membership.** (a) By January 1, 2025, the commissioner must establish and
118.18 appoint the initial membership of the advisory board. The membership of the board must

119.2 composting or a statewide trade association that represents such facilities;

119.3 (9) two members representing an entity that develops or offers for sale covered materials
119.4 that are designed for reuse or refill and maintained through a reuse or refill system or
119.5 infrastructure or a statewide or national trade association that represents such entities;

119.7 one member representing a political subdivision outside the metropolitan area;

119.8 (11) two members representing other interested parties or additional members of interests
119.9 represented under clauses (1) to (10) as determined by the commissioner; and

119.12 (1) may not appoint members who are state legislators or registered lobbyists;

119.13 (2) may not appoint members who are employees of a producer required to be members
119.14 of a producer responsibility organization in this state under this act; and

119.15 (3) must endeavor to appoint members from all regions of the state.

119.16 Subd. 3. **Terms; removal.** A member of the advisory board appointed under subdivision
119.17 2, paragraph (a), clause (12), serves at the pleasure of the commissioner. All other members
119.18 serve for a term of four years, except that the initial term for nine of the initial appointees
119.19 must be two years so that membership terms are staggered. Members may be reappointed
119.20 but may not serve more than eight consecutive years. The removal of members and filling
119.21 of vacancies is governed by section 15.059, subdivision 4. Except as otherwise provided,
119.22 chapter 15 does not apply to the board.

119.23 Subd. 4. **Compensation.** Members of the board must be compensated according to
119.24 section 15.059, subdivision 3.

119.25 Subd. 5. **Quorum.** A majority of the voting board members constitutes a quorum. If
119.26 there is a vacancy in the membership of the board, a majority of the remaining voting
119.27 members of the board constitutes a quorum.

119.28 Subd. 6. **Voting.** Action by the advisory board requires a quorum and a majority of those
119.29 present and voting. All members of the advisory board, except the member appointed under
119.30 subdivision 2, paragraph (a), clause (12), are voting members of the board.

120.1 Subd. 7. **Meetings.** The advisory board must meet at least two times per year and may

120.8 administrative and operating support to the advisory board, including compensation in
120.9 accordance with subdivision 4, and may contract with a third-party facilitator to assist in
120.10 administering the activities of the advisory board, including establishing a website or landing
120.11 page on the agency website.

120.12 Subd. 11. **Conflict of interest policies.** The commissioner must assist the advisory board
120.13 in developing policies and procedures governing the disclosure of actual or perceived
120.14 conflicts of interest that advisory board members may have as a result of their employment

120.16 member is responsible for reviewing the conflict of interest policies and procedures. An
120.17 advisory board member must disclose any instance of actual or perceived conflicts of interest
120.18 at each meeting of the advisory board at which recommendations regarding stewardship
120.19 plans, programs, operations, or activities are made by the advisory board.

123.17 (b) After January 1, 2029, no producer may introduce covered materials, either separately

129.31 profits, service rates, fees, or business expenses; or

130.1 (3) the data or information is otherwise nonpublic data with regard to data not on
130.2 individuals, pursuant to section 13.02, subdivision 9, or private data on individuals, pursuant
130.3 to section 13.02, subdivision 12.

130.4 (c) The contractor conducting the needs assessment must aggregate and anonymize the
130.5 not public data or information, excluding location data necessary to assess needs, received
130.6 from all parties under this subdivision and must then include the aggregated anonymized
130.7 data in the needs assessment.

130.8 (d) The commissioner, any employee of the agency, or any agent thereof, when authorized
130.9 by the commissioner, may enter upon any property, public or private, for the purpose of
130.10 obtaining information necessary for completing the evaluation in subdivision 4, clause (2),
130.11 provided that the entrance and activity is undertaken after reasonable notice and during
130.12 normal business hours and provided that compensation is made for any damage to the
130.13 property caused by the entrance and activity.

130.14 **Sec. 12. [115A.1451] STEWARDSHIP PLAN.**

130.15 Subdivision 1. **Stewardship plan required.** By October 1, 2028, and every five years

134.7 (19) strategies to incorporate findings from any relevant studies required by the
134.8 legislature.

134.9 Subd. 4. **Plan and amendment review and approval procedure.** (a) The commissioner
134.10 must review and approve, deny, or request additional information for a draft stewardship
134.11 plan or a draft plan amendment no later than 120 days after the date the commissioner
134.12 receives it from a producer responsibility organization. The commissioner must post the
134.13 draft plan or draft amendment on the agency's website and allow public comment for no
134.14 less than 45 days before approving, denying, or requesting additional information on the
134.15 draft plan or draft amendment.

134.16 (b) If the commissioner denies or requests additional information for a draft plan or draft
134.17 amendment, the commissioner must provide the producer responsibility organization with
134.18 the reasons, in writing, that the plan or plan amendment does not meet the plan requirements
134.19 of subdivision 3. The producer responsibility organization has 60 days from the date that
134.20 the rejection or request for additional information is received to submit to the commissioner
134.21 any additional information necessary for the approval of the draft plan or draft amendment.
134.22 The commissioner must review and approve or disapprove the revised draft plan or draft
134.23 amendment no later than 60 days after the date the commissioner receives it.

134.24 (c) A producer responsibility organization may resubmit a draft plan or draft amendment
134.25 to the commissioner on not more than two occasions. If after the second resubmission, the
134.26 commissioner determines that the draft plan or draft amendment does not meet the plan
134.27 requirements of this act, the commissioner must modify the draft plan or draft amendment
134.28 as necessary for it to meet the requirements of this act and approve it.

134.29 (d) Upon recommendation by the advisory board, or upon the commissioner's own
134.30 initiative, the commissioner may require an amendment to a stewardship plan if the
134.31 commissioner determines that an amendment is necessary to ensure that the producer
134.32 responsibility organization maintains compliance with the requirements of this act.

134.33 Subd. 5. **Performance targets.** (a) The producer responsibility organization must propose
134.34 performance targets based on the needs assessment that meet the statewide requirements in

135.1 subdivision 7 that must be included in a stewardship plan approved under this section.

135.2 Performance targets must include reuse rates, return rates, recycling rates, and composting
135.3 rates and targets for waste reduction and postconsumer recycled content by covered materials
135.4 type, as applicable, that are to be achieved by the end of the stewardship plan's term. The
135.5 producer responsibility organization must select the unit that is most appropriate to measure
135.6 each performance target as informed by the needs assessment.

135.7 (b) The commissioner, in consultation with the advisory board, may require that a
135.8 producer responsibility organization obtain third-party certification of any activity or
135.9 achievement of any standard required by this act if a third-party certification is readily
135.10 available, deemed applicable, and of reasonable cost. The commissioner must provide a
135.11 producer responsibility organization with notice of at least one year prior to requiring use
135.12 of third-party certification under this paragraph.

135.13 (c) Proposed performance targets must demonstrate continuous improvement in reducing
135.14 environmental impacts and human health impacts of covered materials over time.

135.15 Subd. 6. **Measurement criteria for performance targets.** (a) For purposes of
135.16 determining whether recycling performance targets are being met, except as modified by
135.17 the commissioner, a stewardship plan must provide a methodology for measuring the amount
135.18 of recycled material at the point at which material leaves a recycling facility and must
135.19 account for:

135.20 (1) levels of estimated contamination documented by the facility;

135.21 (2) any exclusions for fuel or energy capture; and

135.22 (3) compliance with sections 115A.965, 116.943, 325F.075, and 325F.172 to 325F.179,
135.23 and all other laws pertaining to toxic substances in covered materials.

135.24 (b) For purposes of determining whether waste reduction performance targets are being
135.25 met, a stewardship plan must provide a methodology for measuring the amount of waste
135.26 reduction of covered materials in a manner that can be used to determine the extent to which
135.27 the amount of material used for a covered material can be reduced to what is necessary to
135.28 efficiently deliver a product without damage or spoilage, or other means of covered material
135.29 redesign to reduce overall use and environmental impacts and maintain recyclability,
135.30 compostability, or reusability.

135.31 (c) For purposes of determining whether reuse performance targets are being met, a
135.32 stewardship plan must provide a methodology for measuring the amount of reusable covered

136.1 materials at the point at which reusable covered materials meet the following criteria as
136.2 demonstrated by the producer and approved by the commissioner:

136.3 (1) whether the average minimum number of cycles of reuses within a recognized reuse
136.4 system has been met based on the number of times an item must be reused for it to have
136.5 lower environmental impacts than the single-use versions of those items; and

136.6 (2) whether the demonstrated or research-based anticipated return rate of the covered
136.7 material to the reuse system has been met.

136.8 (d) For purposes of determining whether postconsumer recycled content performance
136.9 targets are being met, a stewardship plan must provide a methodology for measuring
136.10 postconsumer recycled content across all producers for a covered materials type where
136.11 producers may determine their postconsumer recycled content based on their United States
136.12 market territory if state-specific postconsumer recycled content is impractical to determine.
136.13 Producers must demonstrate that the postconsumer recycled content reported to meet the
136.14 performance targets is additional to amounts utilized to meet mandates in other states.

136.15 (e) For other performance targets, the producer responsibility organization must propose
136.16 methodologies for review and approval as part of the stewardship plan based on findings
136.17 from the needs assessment.

136.18 Subd. 7. **Statewide requirements.** (a) The commissioner must establish statewide
136.19 requirements and the date by which they must be met for the following categories:

136.20 (1) recycling rate;

136.21 (2) composting rate;

136.22 (3) reuse rate;

136.23 (4) return rate;

136.24 (5) the percentage of covered materials introduced that must be waste reduced; and

136.25 (6) the percentage of postconsumer recycled content that covered materials must contain,
136.26 including an overall percentage for all covered materials, as applicable, excluding
136.27 compostable materials that cannot include postconsumer recycled content due to unique
136.28 chemical or physical properties or health and safety requirements that prohibit introduction
136.29 of postconsumer recycled content.

136.30 (b) The commissioner may use the following information and criteria when establishing
136.31 statewide requirements under paragraph (a):

136.32 (1) needs assessments under section 115A.1450;

- 137.1 (2) goals and requirements of the Waste Management Act;
- 137.2 (3) statewide goals for greenhouse gas emission reductions under section 216H.02;
- 137.3 (4) the need for continuous progress toward overall reduction in the generation of covered
- 137.4 materials waste and the complete reuse, recycling, or composting of covered materials to
- 137.5 reduce environmental impacts and human health impacts;
- 137.6 (5) a preference for statewide requirements that accomplish and further the goals and
- 137.7 requirements in clauses (2) to (4) as soon as practicable and to the maximum extent
- 137.8 achievable; and
- 137.9 (6) information from packaging and paper product producer responsibility programs
- 137.10 operating in other jurisdictions.
- 137.11 (c) The commissioner must consult with the producer responsibility organization on
- 137.12 establishing statewide requirements, submit proposed statewide requirements for review
- 137.13 by the board, and consider the board's recommendations before finalizing the statewide
- 137.14 requirements.
- 137.15 (d) Every five years, the commissioner must review the statewide requirements established
- 137.16 under paragraph (a). If the commissioner decides an update is not warranted at that time,
- 137.17 the commissioner must submit the reasoning to the advisory board and consider the board's
- 137.18 recommendations before making a final decision. If the commissioner decides an update is
- 137.19 warranted, the process in paragraphs (b) and (c) must be utilized.
- 137.20 (e) The producer responsibility organization must ensure the statewide requirements are
- 137.21 met.
- 137.22 **Subd. 8. Alternative collection programs.** (a) A producer responsibility organization
- 137.23 must implement an alternative collection program for covered materials included on an
- 137.24 alternative collection list established under section 115A.1453, subdivision 2, that:
- 137.25 (1) provides year-round, convenient, statewide collection opportunities, including at
- 137.26 least one drop-off collection site located in each county;
- 137.27 (2) provides tiers of service for collection, convenience, number of drop-off collection
- 137.28 sites, and additional collection systems based on:
- 137.29 (i) county population size;
- 137.30 (ii) county population density; and
- 137.31 (iii) each class of city according to section 410.01;

- 138.1 (3) ensures materials are sent to responsible markets;
- 138.2 (4) uses education and outreach strategies that can be expected to significantly increase
138.3 consumer awareness of the program throughout the state; and
- 138.4 (5) accurately measures the amount of each covered material collected and the applicable
138.5 performance target and statewide requirement.
- 138.6 (b) A proposal for an alternative collection program must include:
- 138.7 (1) the type, number, and location of each collection opportunity;
- 138.8 (2) a description of how each of the program requirements established in paragraph (a)
138.9 will be met; and
- 138.10 (3) performance targets for each covered material, as applicable, to be managed through
138.11 an alternative collection program.
- 138.12 (c) Every subsequent needs assessment after the initial needs assessment must include
138.13 a review of existing alternative collection programs for each covered material listed under
138.14 section 115A.1453, subdivision 2, to determine if the program is meeting the criteria
138.15 established in paragraph (a).

138.16 **Sec. 13. [115A.1453] RECYCLABLE OR COMPOSTABLE COVERED**
138.17 **MATERIALS LISTS; EXEMPT MATERIALS LIST.**

138.18 Subdivision 1. **List required.** By July 1, 2028, the commissioner must develop a list of
138.19 covered materials determined to be recyclable or compostable statewide through systems
138.20 where covered materials are commingled into a recyclables stream and a separate
138.21 compostables stream. These covered materials must be collected at an optimal level of
138.22 service and convenience for covered entities, at a minimum, wherever collection services
138.23 for mixed municipal solid waste are available.

138.24 Subd. 2. **Alternative collection list required.** By July 1, 2028, the commissioner must
138.25 complete a list of covered materials determined to be recyclable or compostable and collected
138.26 statewide through systems other than the system required for covered materials on the list
138.27 established in subdivision 1.

138.28 Subd. 3. **Input from interested parties.** The commissioner must consult with the
138.29 advisory board, producer responsibility organizations, service providers, political
138.30 subdivisions, and other interested parties to develop or amend the recyclable or compostable
138.31 covered materials lists and must review any requests by interested parties for addition or
138.32 removal of covered materials from the lists created under this section.

139.1 Subd. 4. **Criteria.** In developing the lists under subdivisions 1 and 2, the commissioner
139.2 may consider the following criteria:

139.3 (1) current availability of recycling and composting collection services;

139.4 (2) recycling and composting processing infrastructure;

139.5 (3) capacity and technology for sorting covered materials;

139.6 (4) whether a covered material is of a type and form that is regularly sorted and aggregated
139.7 into defined streams for recycling processes or is included in a relevant Institute of Scrap
139.8 Recycling Industries specification or its successors;

139.9 (5) availability of responsible markets;

139.10 (6) presence and amount of processing residuals, contamination, and toxic substances;

139.11 (7) quantity of covered material estimated to be available and recoverable;

139.12 (8) projected future conditions for the criteria in clauses (1) to (7); and

139.13 (9) other criteria or factors, as determined by the commissioner.

139.14 Subd. 5. **Amendment.** The commissioner may amend a list completed under this section
139.15 at any time and must provide amended lists to producer responsibility organizations within
139.16 a reasonable amount of time after adopting an amendment. Producer responsibility
139.17 organizations must provide amended lists to service providers as soon as possible after
139.18 receiving the amendment and work to incorporate changes in relevant service provider
139.19 reimbursement rates within a year.

139.20 Subd. 6. **Exempt materials list.** (a) A producer may request the commissioner, on a
139.21 form prescribed by the commissioner, to classify as an exempt material one or more types
139.22 of packaging. The commissioner must submit the request to the advisory board for review
139.23 and comment before approving or denying the request.

139.24 (b) The commissioner may approve the request only if the commissioner determines
139.25 that a specific federal or state health and safety requirement prevents the packaging from
139.26 being waste reduced or made reusable, recyclable, or compostable.

139.27 (c) The commissioner must review and approve, deny, or request additional information
139.28 for a request to classify packaging as an exempt material no later than 120 days after the
139.29 date the commissioner receives the request.

139.30 (d) The commissioner must post on the agency website a list of materials exempted
139.31 under this subdivision.

140.1 (e) An exemption granted under this subdivision expires two years after the date a request
140.2 was approved by the commissioner. A material classified as exempt under this subdivision
140.3 becomes a covered material immediately upon expiration of the exemption. A producer
140.4 may reapply according to this subdivision.

140.5 Sec. 14. [115A.1454] PRODUCER FEES.

140.6 Subdivision 1. Annual fee. A producer responsibility organization must annually collect
140.7 a fee from each member producer that must:

140.8 (1) vary based on the total amount of covered materials each producer introduces in the
140.9 prior year calculated on a per-unit basis, such as per ton, per item, or another unit of
140.10 measurement;

140.11 (2) reflect the program costs for each covered materials type, net of commodity value
140.12 for that covered materials type, as well as allocated fixed costs that do not vary based on
140.13 covered materials type;

140.14 (3) incentivize using materials and design attributes that reduce the environmental impacts
140.15 and human health impacts of covered materials by:

140.16 (i) eliminating intentionally added toxic substances in covered materials;

140.17 (ii) reducing the amount of:

140.18 (A) packaging per individual covered material that is necessary to efficiently deliver a
140.19 product without damage or spoilage and without reducing its ability to be recycled; and

140.20 (B) paper used to manufacture individual paper products;

140.21 (iii) increasing the amount of covered materials managed in a reuse system;

140.22 (iv) increasing the proportion of postconsumer material in covered materials;

140.23 (v) enhancing the recyclability or compostability of a covered material; and

140.24 (vi) increasing the amount of inputs derived from renewable and sustainable sources;

140.25 (4) discourage using materials and design attributes in covered materials whose
140.26 environmental impacts and human health impacts can be reduced by the methods listed
140.27 under clause (3);

140.28 (5) prioritize reuse by charging covered materials that are managed through a reuse
140.29 system only once, upon initial entry into the marketplace; and

140.30 (6) generate revenue sufficient to pay in full:

- 141.1 (i) the fee required under section 115A.1443;
141.2 (ii) financial obligations to complete activities described in an approved stewardship
141.3 plan and to reimburse service providers under section 115A.1455;
141.4 (iii) the operating costs of the producer responsibility organization; and
141.5 (iv) for establishment and maintenance of a financial reserve that is sufficient to operate
141.6 the program in a fiscally prudent and responsible manner.

141.7 Subd. 2. **Overcollections.** Revenue collected under this section that exceeds the amount
141.8 needed to pay the costs described in subdivision 1, clause (6), must be used to improve or
141.9 enhance program outcomes or to reduce producer fees according to provisions of an approved
141.10 stewardship plan.

141.11 Subd. 3. **Prohibited conduct.** Fees collected under this section may not be used for
141.12 lobbying, as defined in section 3.084, subdivision 1.

141.13 Sec. 15. **[115A.1455] SERVICE PROVIDER; REIMBURSEMENT.**

141.14 Subdivision 1. **Service provider reimbursement required.** The reimbursements
141.15 provided for covered services to covered entities, at a minimum, under an approved
141.16 stewardship plan must only be provided to service providers that meet the performance
141.17 standards established under an approved stewardship plan.

141.18 Subd. 2. **Collection of recyclables.** If a covered entity does not have access to collection
141.19 services for covered materials on the list established under section 115A.1453, subdivision
141.20 1, where collection services for mixed municipal solid waste are being provided, the producer
141.21 responsibility organization must ensure that collection services are available to the covered
141.22 entity through a service provider at an optimal level of service and convenience.

141.23 Subd. 3. **Bidding processes.** (a) For infrastructure investments included in an approved
141.24 stewardship plan, a producer responsibility organization must use the competitive bidding
141.25 processes established in section 16C.28, subdivision 1, and publicly post bid opportunities,
141.26 except that preference must be given to existing facilities, providers of services, and holders
141.27 of service accounts in the state for waste reduction, reuse, collection, recycling, and
141.28 composting of covered materials.

141.29 (b) No producer or producer responsibility organization may own or partially own
141.30 infrastructure that is used to fulfill obligations under this act, except in the following
141.31 circumstances:

142.1 (1) a producer may hold an ownership stake in infrastructure used to fulfill obligations
142.2 under this act so long as the stake was held before enactment of this act and the ownership
142.3 stake is fully disclosed by the producer to the producer responsibility organization; or

142.4 (2) after a bidding process described in paragraph (a) under which no service provider
142.5 bids on the contract, the producer responsibility organization may make infrastructure
142.6 investments identified under an approved stewardship plan to implement the requirements
142.7 in this act.

142.8 Subd. 4. **Reimbursement rates.** (a) An approved stewardship plan must provide a
142.9 methodology for reimbursement rates for covered services for covered materials, exclusive
142.10 of exempt materials. The methodology for reimbursement rates must consider estimated
142.11 revenue received by service providers from the sale of covered materials based upon relevant
142.12 material indices and incorporate relevant cost information identified by the needs assessment.
142.13 Reimbursement rates must be annually updated and reflect the net costs for covered services
142.14 for covered materials from covered entities, at a minimum. Reimbursement rates must be
142.15 established equivalent to net costs as established by a methodology in an approved plan as
142.16 follows:

142.17 (1) no less than 50 percent of the net cost by February 1, 2029;

142.18 (2) no less than 75 percent of the net cost by February 1, 2030; and

142.19 (3) no less than 90 percent of the net cost by February 1, 2031, and each year thereafter.

142.20 (b) Reimbursement rates must be based on the following, as applicable by the service
142.21 provided:

142.22 (1) the cost to collect covered material for recycling, a proportional share of composting,
142.23 or reuse adjusted to reflect conditions that affect those costs, varied by region or jurisdiction
142.24 in which the covered services are provided, including but not limited to:

142.25 (i) the number and type of covered entities;

142.26 (ii) population density;

142.27 (iii) collections methods employed;

142.28 (iv) distance traveled by collection vehicles to consolidation or transfer facilities; to
142.29 reuse, recycling, or composting facilities; and to responsible markets;

142.30 (v) other factors that may contribute to regional or jurisdictional cost differences;

142.31 (vi) the proportion of covered compostable materials within all source-separated
142.32 compostable materials collected or managed through composting; and

- 143.1 (vii) the general quality of covered materials collected by service providers;
- 143.2 (2) the cost to transfer collected covered materials from consolidation or transfer facilities
143.3 to reuse, processing, recycling, or composting facilities or to responsible markets;
- 143.4 (3) the cost to:
- 143.5 (i) sort and process covered materials for sale or use and remove contamination from
143.6 covered materials by a recycling or composting facility, less the average fair market value
143.7 for that covered material based on market indices for the region; and
- 143.8 (ii) manage contamination removed from collected covered material;
- 143.9 (4) administrative costs of service providers, including education, public awareness
143.10 campaigns, and outreach program costs as applicable; and
- 143.11 (5) the costs of covered services for a refill system or covered services provided for
143.12 reusable covered materials and management of contamination.
- 143.13 (c) A service provider retains all revenue from the sale of covered materials. Nothing
143.14 in this act may restrict a service provider from charging a fee for covered services of covered
143.15 materials to the extent that reimbursement from a producer responsibility organization does
143.16 not cover all costs of services, including continued investment and innovation in operations,
143.17 operating profits, and returns on investments required by a service provider to provide
143.18 sustainability of the services.
- 143.19 (d) Reimbursement rates may be calculated per ton, by household, or by another unit of
143.20 measurement under an approved stewardship plan.
- 143.21 **Subd. 5. Local government authority.** (a) Nothing in this section shall be construed to
143.22 require a political subdivision to agree to operate under a stewardship plan, nor does it
143.23 restrict the authority of a political subdivision to provide waste management services to
143.24 residents or to contract with any entity to provide waste management services. Any political
143.25 subdivision that is also a service provider is eligible to be registered with the commissioner
143.26 and reimbursed per the rates and schedule established in accordance with subdivision 4.
- 143.27 (b) Nothing in this act restricts the authority of a political subdivision to provide waste
143.28 management services to residents, to contract with any entity to provide waste management
143.29 services, or to exercise its authority granted under section 115A.94. A producer responsibility
143.30 organization may not restrict or otherwise interfere with a political subdivision exercising
143.31 its authority under section 115A.94 to organize collection of solid waste, including materials
143.32 collected for recycling or composting, or to extend, renew, or otherwise manage any contracts

144.1 entered into as a result of exercising such authority or otherwise resulting from a competitive
144.2 procurement process.

144.3 Subd. 6. **Dispute resolution.** A producer responsibility organization must establish a
144.4 dispute resolution process utilizing third-party mediators for disputes related to
144.5 reimbursements.

144.6 Sec. 16. [115A.1456] REPORTING.

144.7 Subdivision 1. **Producer responsibility organization annual report.** (a) By April 1,
144.8 2029, and annually thereafter, a producer responsibility organization must submit a written
144.9 report to the commissioner that contains, at a minimum, the following information for the
144.10 previous calendar year:

144.11 (1) the amount of covered materials introduced, by each covered materials type, reported
144.12 in the same units used to establish fees under section 115A.1454, subdivision 1, clause (1);

144.13 (2) progress made toward the performance targets reported in the same units used to
144.14 establish producer fees under section 115A.1454, subdivision 1, clause (1), and reported
144.15 statewide and for each county, including:

144.16 (i) the amount of covered materials successfully waste reduced, reused, recycled, and
144.17 composted by covered materials type and the strategies or collection method used; and

144.18 (ii) information about third-party certifications obtained;

144.19 (3) the total cost to implement the program and a detailed description of program
144.20 expenditures by category, including:

144.21 (i) the total amount of producer fees collected;

144.22 (ii) a description of infrastructure investments made; and

144.23 (iii) a breakdown of reimbursements by covered services, covered entities, and regions
144.24 of the state;

144.25 (4) a copy of a financial audit of program operations conducted by an independent auditor
144.26 approved by the commissioner that meets the requirements of the Financial Accounting
144.27 Standards Board's Accounting Standards Update 2016-14, Not-for-Profit Entities (Topic
144.28 958), as amended;

144.29 (5) a description of program performance problems that emerged in specific locations
144.30 and efforts taken or proposed by the producer responsibility organization to address them;

145.1 (6) a discussion of technical assistance provided to producers regarding toxic substances
145.2 in covered materials and actions taken by producers to reduce intentionally added toxic
145.3 substances in covered materials beyond compliance with prohibitions already established
145.4 in law;

145.5 (7) a description of public awareness, education, and outreach activities undertaken,
145.6 including any evaluations conducted of their efficacy, plans for next calendar year's activities,
145.7 and an evaluation of the process established by the producer responsibility organization to
145.8 answer questions from consumers regarding collection, recycling, composting, waste
145.9 reduction, and reuse activities;

145.10 (8) a summary of consultations held with the advisory board and how any feedback was
145.11 incorporated into the report as a result, together with a list of rejected recommendations and
145.12 the reasons for rejection;

145.13 (9) a list of producers found to be out of compliance with this act and actions taken by
145.14 the producer responsibility organization to return producers to compliance, and notification
145.15 of any producers that are no longer participating in the producer responsibility organization
145.16 or have been expelled due to their lack of compliance;

145.17 (10) proposed amendments to the stewardship plan to improve program performance or
145.18 reduce costs, including changes to producer fees, infrastructure investments, or
145.19 reimbursement rates;

145.20 (11) recommendations for additions or removal of covered materials to or from the
145.21 recyclable or compostable covered materials lists developed under section 115A.1453; and

145.22 (12) information requested by the commissioner to evaluate the effectiveness of the
145.23 program as it is described in the stewardship plan and to assist with determining compliance
145.24 with this act.

145.25 (b) Every fourth year after a stewardship plan is approved by the commissioner, a
145.26 performance audit of the program must be completed by the producer responsibility
145.27 organization. The performance audit must conform to audit standards established by the
145.28 United States Government Accountability Office; the National Association of State Auditors,
145.29 Comptrollers, and Treasurers; or another nationally recognized organization approved by
145.30 the commissioner.

145.31 Subd. 2. **Report following unmet target.** A producer responsibility organization that
145.32 fails to meet a performance target approved in a stewardship plan must, within 90 days of
145.33 filing an annual report under this section, file with the commissioner an explanation of the

146.1 factors contributing to the failure and propose an amendment to the stewardship plan
146.2 specifying changes in operations that the producer responsibility organization will make
146.3 that are designed to achieve the performance targets. If a performance target is unmet due
146.4 to lack of political subdivision participation in the program, the commissioner may revise
146.5 the statewide requirements developed under section 115A.1451, subdivision 7. If a revision
146.6 to the statewide requirements is completed by the commissioner, the producer responsibility
146.7 organization may revise the performance targets at the same time. An amendment filed
146.8 under this subdivision must be reviewed by the advisory board and reviewed and approved
146.9 by the commissioner in the manner specified in section 115A.1451, subdivisions 2 and 4.

146.10 Subd. 3. **Commissioner's report.** By October 15, 2031, and every two years thereafter,
146.11 the commissioner must submit a report to the governor and to the chairs and ranking minority
146.12 members of the legislative committees with jurisdiction over solid waste. The report must
146.13 contain:

146.14 (1) a summary of the operations of this act during the previous years;

146.15 (2) a summary of the needs assessment;

146.16 (3) a link to reports filed under subdivisions 1 and 2;

146.17 (4) recommendations for policy, statutory, or regulatory changes to the program;

146.18 (5) an analysis of the impacts of exempting certain materials from the definition of
146.19 covered materials and of exempting certain persons from the definition of producer;

146.20 (6) a list of efforts undertaken by the commissioner to enforce and secure compliance
146.21 with this act; and

146.22 (7) any other information the commissioner deems to be relevant.

146.23 Subd. 4. **Duty to cooperate.** Service providers must provide producer responsibility
146.24 organizations with data necessary to complete the reports required by this section upon
146.25 request.

146.26 Sec. 17. **[115A.1457] PRODUCER RESPONSIBILITY ORGANIZATION**
146.27 **WEBSITES.**

146.28 A producer responsibility organization must maintain a website that uses best practices
146.29 for accessibility and contains, at a minimum:

146.30 (1) information regarding a process that members of the public can use to contact the
146.31 producer responsibility organization with questions;

- 147.1 (2) a directory of all service providers operating under the stewardship plan administered
147.2 by the producer responsibility organization, grouped by location or political subdivision,
147.3 and information about how to request service;
- 147.4 (3) registration materials submitted to the commissioner under section 115A.1443;
- 147.5 (4) the draft and approved stewardship plan and any draft and approved amendments;
- 147.6 (5) information on how to manage materials included in lists established under section
147.7 115A.1453;
- 147.8 (6) the list of exempt materials as defined in this act and covered materials exempt from
147.9 performance targets and statewide requirements as approved in the stewardship plan;
- 147.10 (7) current and all past needs assessments;
- 147.11 (8) annual reports submitted to the commissioner by the producer responsibility
147.12 organization;
- 147.13 (9) a link to administrative rules implementing this act;
- 147.14 (10) comments of the advisory board on the documents listed in clauses (4) and (7) and
147.15 the responses of the producer responsibility organization to those comments;
- 147.16 (11) the names of producers and brands that are not in compliance with section
147.17 115A.1448;
- 147.18 (12) a list, updated at least monthly, of all member producers that will operate under the
147.19 stewardship plan administered by the producer responsibility organization and, for each
147.20 producer, a list of all brands of the producer's covered materials; and
- 147.21 (13) education materials on waste reduction, reuse, recycling, and composting for
147.22 producers and the general public.

147.23 **Sec. 18. [115A.1458] ANTICOMPETITIVE CONDUCT.**

147.24 A producer responsibility organization that arranges collection, recycling, composting,
147.25 waste reduction, or reuse services under this act may engage in anticompetitive conduct to
147.26 the extent necessary to plan and implement collection, recycling, composting, waste
147.27 reduction, or reuse systems to meet the obligations under this act, and is immune from
147.28 liability under state laws relating to antitrust, restraint of trade, and unfair trade practices.

148.1 Sec. 19. [115A.1459] RULEMAKING.

148.2 The commissioner may adopt rules to implement this act. The 18-month time limit under
148.3 section 14.125 does not apply to the commissioner's rulemaking authority under this section.

148.4 Sec. 20. [115A.1460] PROVIDING INFORMATION.

148.5 Upon request of the commissioner for purposes of determining compliance with this
148.6 act, or for purposes of implementing this act, a person must furnish to the commissioner
148.7 any information that the person has or may reasonably obtain.

148.8 Sec. 21. [115A.1461] DEPOSIT RETURN SYSTEM.

148.9 (a) It is the intent of the legislature that if a bottle deposit return system is enacted in the
148.10 future, it will be harmonized with this act in a manner that ensures that:

148.11 (1) materials covered in that system are exempt from this act or related financial
148.12 obligations are reduced;

148.13 (2) colocation of drop-off collection sites is maximized;

148.14 (3) education and outreach is integrated between the two programs; and

148.15 (4) waste reduction and reuse strategies are prioritized between the two programs.

148.16 (b) Any implementation of a deposit return system must include a two-year transition
148.17 period before the expiration of the currently approved stewardship plan and be conducted
148.18 in a manner that does not create sudden and significant operational or financial disruption
148.19 to the implementation of a stewardship plan under section 115A.1451, including provisions
148.20 of recycling or reuse services contained in the plan.

148.21 Sec. 22. [115A.1462] ENFORCEMENT.

148.22 (a) The commissioner must enforce this act as provided under this section and sections
148.23 115.071 and 116.072. The commissioner may revoke a registration of a producer
148.24 responsibility organization or service provider found to have violated this act.

148.25 (b) Notwithstanding the penalty limits contained in section 115.071, subdivision 3, and
148.26 except as otherwise provided in paragraph (c), a person that violates or fails to perform a
148.27 duty imposed by this act or any rule adopted thereunder is liable for a civil penalty not to
148.28 exceed \$25,000 per day of violation.

148.29 (c) Notwithstanding the penalty limits contained in section 115.071, subdivision 3, a
148.30 producer responsibility organization or producer that violates a provision of or fails to

149.1 perform a duty imposed by this act, a rule adopted thereunder, or requirements of a
149.2 stewardship plan approved by the commissioner, is liable for a civil penalty not to exceed
149.3 \$25,000 per day of violation. For a second violation occurring within five years after the
149.4 approval of a stewardship plan, a producer responsibility organization or producer is liable
149.5 for a civil penalty not to exceed \$50,000 per day of violation. For a third or subsequent
149.6 violation occurring within five years after the approval of a stewardship plan, a producer
149.7 responsibility organization or producer is liable for a civil penalty not to exceed \$100,000
149.8 per day of violation.

149.9 Sec. 23. **[115A.1463] PACKAGING PRODUCT STEWARDSHIP ACCOUNT.**

149.10 (a) The packaging product stewardship account is established as a separate account in
149.11 the special revenue fund in the state treasury. Appropriations and transfers to the account
149.12 and fees collected under section 115A.1443 must be credited to the account. Earnings, such
149.13 as interest, dividends, and any other earnings arising from assets of the account, must be
149.14 credited to the account. Money remaining in the account at the end of a fiscal year does not
149.15 cancel to the general fund but remains in the account until expended.

149.16 (b) Money from the account is appropriated to the commissioner to pay the reasonable
149.17 costs of the agency to administer sections 115A.144 to 115A.1462.

149.18 Sec. 24. **WORKPLACE CONDITIONS AND EQUITY STUDY.**

149.19 (a) By January 1, 2032, the commissioner of the Pollution Control Agency must contract
149.20 with a third party that is not a producer or a producer responsibility organization to conduct
149.21 a study of the recycling, composting, and reuse facilities operating in the state. The study
149.22 must analyze, at a minimum, information about:

149.23 (1) working conditions, wage and benefit levels, and employment levels of minorities
149.24 and women at those facilities;

149.25 (2) barriers to ownership of recycling, composting, and reuse operations faced by women
149.26 and minorities;

149.27 (3) the degree to which residents of multifamily buildings have less convenient access
149.28 to recycling, composting, and reuse opportunities than those living in single-family homes;

149.29 (4) the degree to which individuals living in environmental justice areas have access to
149.30 fewer recycling, composting, and reuse opportunities compared to other parts of the state;

150.1 (5) the degree to which programs to increase access, convenience, and education are
150.2 successful in raising reuse, recycling, and composting rates in areas where participation in
150.3 these activities is low;

150.4 (6) strategies to increase participation in reuse, recycling, and composting; and

150.5 (7) the degree to which residents and workers in environmental justice areas are impacted
150.6 by emissions, toxic substances, and other pollutants from solid waste facilities in comparison
150.7 to other areas of the state and recommendations to mitigate those impacts.

150.8 (b) The producer responsibility organization registered by the commissioner under
150.9 Minnesota Statutes, sections 115A.144 to 115A.1463, must cover the cost of conducting
150.10 the study through a fee according to Minnesota Statutes, section 115A.1443, and
150.11 recommended actions identified in the study must be considered for inclusion as part of
150.12 future stewardship plans as required under Minnesota Statutes, section 115A.1451, including
150.13 adjustments to service provider reimbursements as established under Minnesota Statutes,
150.14 section 115A.1455.

150.15 **Sec. 25. COVERED MATERIALS POLLUTION AND CLEANUP STUDY.**

150.16 (a) By January 1, 2032, the commissioner of the Pollution Control Agency, in consultation
150.17 with the commissioners of health and natural resources, must contract with a third party
150.18 that is not a producer or a producer responsibility organization to conduct a study to identify
150.19 the contribution of covered products to litter and water pollution in Minnesota. The report
150.20 must at a minimum:

150.21 (1) analyze historical and current environmental impacts and human health impacts of
150.22 littered covered materials and their associated toxic substances in the environment;

150.23 (2) estimate the cost of cleanup and prevention; and

150.24 (3) provide recommendations for how to reduce and mitigate the impacts of litter in the
150.25 state.

150.26 (b) The contracted third party must consult with local governmental units, the
150.27 commissioners of health and natural resources, and environmental justice organizations.

150.28 (c) The producer responsibility organization registered by the commissioner under

151.13 ~~(d)~~ (e) "Release" means an intentional introduction or persistent accidental escape of a
151.14 restricted species or domestic hog from the control of the owner or responsible party. Release
151.15 does not mean an accidental escape of restricted species or domestic hogs due to a
151.16 transportation accident or an act of God.

151.17 Subd. 2. ~~Importation; possession; release of~~ **Restricted species permit required.** It

151.21 for a person to release restricted species or domestic hogs.

151.22 (b) In addition to the penalties in subdivision 6, a person who violates paragraph (a)

152.5 release of a restricted species or domestic hog, the owner must notify within 24 hours a
152.6 conservation officer and the Board of Animal Health and is responsible for the recovery of
152.7 the species. ~~The commissioner may capture or destroy the released animal at the owner's~~

152.9 hours of providing notification, the released animal is considered feral swine under section
152.10 97A.56, is no longer the personal property of the owner, and may be captured or destroyed
152.11 at the former owner's expense by a peace officer or by the commissioner of natural resources

152.18 administrative penalty of no more than \$1,500. For a third or succeeding violation, the

152.28 be marked as soon as practicable after birth or purchase.

152.29 Subd. 8. **Containment.** The commissioner, in consultation with the commissioner of
152.30 natural resources, shall develop criteria for approved containment measures for restricted
152.31 species.

152.32 Subd. 9. **Bond; security.** A person who possesses restricted species must provide proof
152.33 of insurance or file a security bond with the commissioner in an amount determined by the

153.11 licensed game farms. "Privately owned or leased land" includes waters that are shallow or
153.12 marshy, are not actually navigable, and are not of substantial beneficial public use. Before
153.13 an application for a license is considered, the applicant must enclose the area to sufficiently
153.14 confine the animals to be raised in a manner approved by the commissioner. A license may
153.15 be granted only if the commissioner finds the application is made in good faith with intention
153.16 to actually carry on the business described in the application and the commissioner determines
153.17 that the facilities are adequate for the business.

153.18 (b) A person may purchase live game birds or their eggs without a license if the birds
153.19 or eggs, or birds hatched from the eggs, are released into the wild, consumed, or processed

153.26 (1) the land transferred complies with the license requirements;

153.27 (2) the land is used for the purposes of the license; and

153.28 (3) a verified written report of the existing and intended land use is made to the
153.29 commissioner, accompanied by a copy of deed, assignment, lease, or other instrument
153.30 transferring the corresponding title or leasehold in the enclosed land.

154.1 (b) A transfer of less than the whole interest in the license is not valid. Each bona fide
154.2 partner or associate in the ownership or operation of a game ~~or fur~~ farm must obtain a
154.3 separate license.

154.4 Subd. 3. **Ownership of wild animals.** All wild animals and their offspring, of the species
154.5 identified in the license, that are within the enclosure are the property of the game ~~and fur~~
154.6 farm licensee.

154.7 Subd. 4. **Sale of live animals.** (a) A sale of live animals from a licensed ~~fur or~~ game
154.8 farm is not valid unless the animals are delivered to the purchaser or they are identified and
154.9 kept separately.

154.10 (b) Live animals sold through auction or through a broker are considered to be sold by
154.11 the game farm licensee.

154.12 (c) The sale agreement or contract must be in writing. The licensee must notify a
154.13 purchaser of the death of an animal within 30 days and of the number of increase before
154.14 July 20 of each year.

154.15 Subd. 5. **Sale of ~~pelts~~ products.** The commissioner shall prescribe:

154.16 (1) the manner that ~~pelts and~~ products of wild animals raised on ~~fur or~~ game farms may
154.17 be sold or transported; and

154.18 (2) the tags or seals to be affixed to the ~~pelts and~~ products.

154.19 ~~Subd. 6. **Fox and mink.** Fox and mink may not be bought or sold for breeding or~~
154.20 ~~propagating unless they have been pen-bred for at least two generations.~~

154.21 ~~Subd. 7. **Transporting live beaver.** Live beaver may not be transported without a permit~~
154.22 ~~from the commissioner.~~

154.23 Subd. 8. **Penalty.** A licensee that does not comply with a provision of this section subjects
154.24 all wild animals on the game ~~or fur~~ farm to confiscation.

155.5 or leased land" includes waters that are shallow or marshy, are not actually navigable, and
155.6 are not of substantial beneficial public use. Before an application for a license is considered,
155.7 the applicant must enclose the area to sufficiently confine the animals to be raised in a
155.8 manner approved by the commissioner. A license may be granted only if the commissioner
155.9 finds the application is made in good faith with intention to actually carry on the business
155.10 described in the application and the commissioner determines that the facilities are adequate
155.11 for the business.

155.12 Subd. 2. Transfer of license. (a) A fur farm license is transferable with the transfer of
155.13 all or a portion of the title or leasehold of the land if:

155.14 (1) the land transferred complies with the license requirements;

155.15 (2) the land is used for the purposes of the license; and

155.16 (3) a verified written report of the existing and intended land use is made to the

155.18 transferring the corresponding title or leasehold in the enclosed land.

155.19 (b) A transfer of less than the whole interest in the license is not valid. Each bona fide
155.20 partner or associate in the ownership or operation of a fur farm must obtain a separate
155.21 license.

155.22 Subd. 3. License fee. For each fur farm, the owner must, on or before January 1, pay to
155.23 the commissioner an annual fee of \$250.

155.24 Subd. 4. Fur farm account. The fur farm account is established in the game and fish
155.25 fund. Fees collected under this section and interest attributable to money in the account
155.26 must be deposited in the account. Money in the account, including interest earned, is
155.27 appropriated to the commissioner for administration and enforcement of this section.

155.28 Subd. 5. Ownership of wild animals. All wild animals and their offspring, of the species
155.29 identified in the license, that are within the enclosure are the property of the fur farm licensee.

155.30 Subd. 6. Containment and disease control. The commissioner, in consultation with
155.31 the Board of Animal Health and the commissioners of agriculture and health, must develop:

155.32 (1) containment and disposal requirements for farmed fur-bearers; and

156.1 (2) farmed fur-bearer disease testing and reporting requirements.

156.2 Subd. 7. **Sale of live animals.** (a) A sale of live animals from a licensed fur farm is not
156.3 valid unless the animals are delivered to the purchaser or they are identified and kept
156.4 separately.

156.5 (b) Live animals sold through auction or through a broker are considered to be sold by
156.6 the fur farm licensee.

156.7 (c) The sale agreement or contract must be in writing. The licensee must notify a
156.8 purchaser of the death of an animal within 30 days and of the number of increase before
156.9 July 20 of each year.

156.10 Subd. 8. **Sale of pelts and products.** The commissioner must prescribe:

156.11 (1) the manner that pelts and products of wild animals raised on fur farms may be sold
156.12 or transported; and

156.21 (1) issuing fur farm licenses;

156.22 (2) inspecting fur farm facilities;

156.23 (3) acquiring fur farm animals; and

156.24 (4) record keeping and reporting by fur farm licensees, including transactions handled
156.25 by auction or broker.

157.1 (b) A person may not hunt or trap feral swine, except as authorized by the commissioner
157.2 for feral swine control or eradication. It is not a violation of this section if a person shoots
157.3 a feral swine and reports the taking to the commissioner within 24 hours. All feral swine
157.4 taken in this manner must be surrendered to the commissioner.

157.5 (c) A person who violates this subdivision is guilty of a misdemeanor.

157.6 (d) A person who violates this subdivision is liable for the actual costs incurred by the
157.7 state for the possession or release of the feral swine.

157.8 (e) A person who violates this subdivision is liable for the damages caused by the
157.9 possession or release of the feral swine.

157.10 Sec. 5. Minnesota Statutes 2022, section 97A.56, is amended by adding a subdivision to
157.11 read:

157.12 Subd. 4. **Domestic hogs and feral swine response protocols.** The commissioner, in
157.13 cooperation with the commissioner of agriculture and the Board of Animal Health, must
157.14 develop protocols for responding to the release of domestic hogs and feral swine, including
157.15 reporting requirements, interagency communications, and other actions necessary to resolve
157.16 the release.

157.17 Sec. 6. **OUTREACH REQUIRED.**

157.18 The commissioners of agriculture and natural resources and the Board of Animal Health

ARTICLE 7

ENVIRONMENTAL REVIEW AND PERMITTING

Section 1. [84.0265] ENVIRONMENTAL REVIEW AND PERMITTING;
COORDINATED PROJECT PLANS.

Subdivision 1. Definitions. In this section, the following terms have the meanings given:

(1) "commissioner" means the commissioner of natural resources;

(2) "coordinated project plan" or "plan" means a plan to ensure that any required environmental review and associated required state agency actions are completed efficiently by coordinating and establishing deadlines for all necessary state agency actions;

(3) "eligible project" means a project that requires the commissioner to prepare an environmental assessment worksheet or an environmental impact statement under chapter 116D and associated permits, unless the project is sponsored by the Department of Natural Resources; and

(4) "state agency" means the department or any other office, board, commission, authority, department, or other agency of the executive branch of state government.

Subd. 2. State policy. It is the goal of the state to maximize the coordination, effectiveness, transparency, and accountability of environmental review, associated environmental permitting, and other regulatory actions for facilities in Minnesota.

Subd. 3. Early communication; identifying issues. To the extent practicable, the commissioner must establish and provide an expeditious process for a person that requests to confer with the department and other state agencies about an eligible project. The department must provide information about any identified challenging issues regarding the potential environmental impacts related to an eligible project, including any issues that could substantially delay a state agency from completing agency decisions; and issues that must be addressed before an environmental assessment worksheet, environmental impact statement, final scoping decision, permit action, or other required action by a state agency can be started.

Subd. 4. Plan preparation; participating agencies. (a) A person who submits an application for an eligible project to the commissioner may request that the commissioner prepare a coordinated project plan to complete any required environmental review and associated agency actions for the eligible project.

(b) Within 60 days of receiving a request under paragraph (a), the commissioner must prepare a coordinated project plan in consultation with the requestor and other state agencies

159.1 identified under paragraph (c). If an eligible project requires or otherwise includes the
159.2 preparation of an environmental impact statement, the commissioner is required to prepare
159.3 a coordinated project plan that first covers the period through a final scoping decision.
159.4 Within 60 days of completion of the final scoping decision, the commissioner must update
159.5 the coordinated project plan to include the remainder of the environmental review process
159.6 as well as applicable state permits and other state regulatory decisions. The coordinated
159.7 project plan is subject to modification in accordance with subdivision 7.

159.8 (c) Any state agency that must make permitting or other regulatory decisions over the
159.9 eligible project must participate in developing a coordinated project plan.

159.10 (d) If an eligible project requires environmental review and the Department of Natural
159.11 Resources is the responsible governmental unit, then the Department of Natural Resources
159.12 is the lead agency responsible for preparation of a coordinated project plan under this section.
159.13 If an eligible project requires environmental review and the Pollution Control Agency is
159.14 the responsible governmental unit, then the Pollution Control Agency is the lead agency
159.15 responsible for preparation of a coordinated project under section 116.035.

159.16 Subd. 5. **Plan contents; synchronization; updates.** (a) A coordinated project plan must
159.17 include:

159.18 (1) a list of all state agencies known to have environmental review, permitting, or other
159.19 regulatory authority over the eligible project and an explanation of each agency's specific
159.20 role and responsibilities for actions under the coordinated project plan;

159.21 (2) a schedule for any formal public meetings; and

159.22 (3) a comprehensive schedule of deadlines by which all environmental reviews, permits,
159.23 and other state agency actions must be completed. The deadlines established under this
159.24 clause must include intermediate and final completion deadlines for actions by each state
159.25 agency and must be consistent with subdivision 6, subject to modification in accordance
159.26 with subdivision 7.

159.27 (b) The commissioner must update a coordinated project plan quarterly.

159.28 Subd. 6. **Required deadlines.** (a) Deadlines established in a coordinated project plan
159.29 must comply with this subdivision, unless an alternative time period is agreed upon by the
159.30 commissioner and proposer.

159.31 (b) When an environmental assessment worksheet is prepared for an eligible project for
159.32 which an environmental impact statement is not mandatory under Minnesota Rules, chapter
159.33 4410, the decision on the need for an environmental impact statement must be made as

160.1 expeditiously as possible but no later than 18 months after the environmental assessment
160.2 worksheet is deemed complete by the commissioner.

160.3 (c) When an environmental impact statement is prepared for an eligible project, the
160.4 decision on the adequacy of the final environmental impact statement must be made as
160.5 expeditiously as possible but no later than four years after the data submitted for the
160.6 environmental assessment worksheet is deemed complete.

160.7 (d) If the commissioner includes plan deadlines that are inconsistent with paragraphs
160.8 (b) and (c), then within 30 days of finalizing the plan, the commissioner must report to the
160.9 chairs and ranking minority members of the legislative committees and divisions with
160.10 jurisdiction over natural resources policy to explain how deadlines were established and
160.11 why the deadlines under paragraphs (b) and (c) are not attainable.

160.12 Subd. 7. **Deadline compliance; modification.** (a) A state agency that participates in the
160.13 commissioner's development coordinated project plan must comply with deadlines established
160.14 in the plan. If a participating state agency fails to meet a deadline established in the
160.15 coordinated project plan or anticipates failing to meet a deadline, the state agency must
160.16 immediately notify the commissioner to explain the reason for the failure or anticipated
160.17 failure and to propose a date for a modified deadline.

160.18 (b) The commissioner may modify a deadline established in the coordinated project plan
160.19 if the project proposer fails to meet a deadline established in the coordinated project plan
160.20 or provides inadequate information to meet that deadline, or if:

160.21 (1) the commissioner provides the person that requested the plan with a written
160.22 justification for the modification; and

160.23 (2) the commissioner and the state agency, after consultation with the person that
160.24 requested the plan, mutually agree on a different deadline.

160.25 (c) If the combined modifications to one or more deadlines established in a coordinated
160.26 project plan extend the initially anticipated final decision date for an eligible project
160.27 application by more than 20 percent, the commissioner must report to the chairs and ranking
160.28 minority members of the legislative committees and divisions with jurisdiction over natural
160.29 resources policy within 30 days to explain the reason the modifications are necessary. The
160.30 commissioner must also notify the chairs and ranking minority members within 30 days of
160.31 any subsequent extensions to the final decision date. The notification must include the reason
160.32 for the extension and the history of any prior extensions. For purposes of calculating the
160.33 percentage of time that modifications have extended the anticipated final decision date,

161.1 modifications made necessary by reasons wholly outside the control of state agencies must
161.2 not be considered.

161.3 Subd. 8. **Annual report.** As part of the annual permitting efficiency report required
161.4 under section 84.027, the commissioner must report on progress toward required actions
161.5 described in this section.

161.6 Subd. 9. **Relation to other law.** Nothing in this section is to be construed to require an
161.7 act that conflicts with applicable state or federal law. Nothing in this section affects the
161.8 specific statutory obligations of a state agency to comply with criteria or standards of
161.9 environmental quality, water resource management, pollutant management, environmental
161.10 justice, and public health.

161.11 Sec. 2. **[116.035] ENVIRONMENTAL REVIEW AND PERMITTING;**
161.12 **COORDINATED PROJECT PLANS.**

161.13 Subdivision 1. **Definitions.** In this section, the following terms have the meanings given:

161.14 (1) "commissioner" means the commissioner of the Pollution Control Agency;

161.15 (2) "coordinated project plan" or "plan" means a plan to ensure that any required
161.16 environmental review and associated required state agency actions are completed efficiently
161.17 by coordinating and establishing deadlines for all necessary state agency actions;

161.18 (3) "eligible project" means a project that requires the commissioner to prepare an
161.19 environmental assessment worksheet or an environmental impact statement under chapter
161.20 116D and associated permits; and

161.21 (4) "state agency" means the agency or any other office, board, commission, authority,
161.22 department, or other agency of the executive branch of state government.

161.23 Subd. 2. **State policy.** It is the goal of the state to maximize the coordination,
161.24 effectiveness, transparency, and accountability of environmental review, associated
161.25 environmental permitting, and other regulatory actions for facilities in Minnesota.

161.26 Subd. 3. **Early communication; identifying issues.** To the extent practicable, the
161.27 commissioner must establish and provide an expeditious process for a person that requests
161.28 to confer with the agency and other state agencies about an eligible project. The agency
161.29 must provide information about any identified challenging issues regarding the potential
161.30 environmental impacts related to an eligible project, including any issues that could
161.31 substantially delay a state agency from completing agency decisions and issues that must
161.32 be addressed before an environmental assessment worksheet, environmental impact statement,

162.1 final scoping decision, permit action, or other required action by a state agency can be
162.2 started.

162.3 Subd. 4. **Plan preparation; participating agencies.** (a) A person who submits an
162.4 application for an eligible project to the commissioner may request that the commissioner
162.5 prepare a coordinated project plan to complete any required environmental review and
162.6 associated agency actions for the eligible project.

162.7 (b) Within 60 days of receiving a request under paragraph (a), the commissioner must
162.8 prepare a coordinated project plan in consultation with the requestor and other state agencies
162.9 identified under paragraph (c). If an eligible project requires or otherwise includes the
162.10 preparation of an environmental impact statement, the commissioner is required to prepare
162.11 a coordinated project plan that first covers the period through a final scoping decision.
162.12 Within 60 days of completion of the final scoping decision, the commissioner must update
162.13 the coordinated project plan to include the remainder of the environmental review process
162.14 as well as applicable state permits and other state regulatory decisions. The coordinated
162.15 project plan is subject to modification in accordance with subdivision 7.

162.16 (c) Any state agency that must make permitting or other regulatory decisions over the
162.17 eligible project must participate in developing a coordinated project plan.

162.18 (d) If an eligible project requires environmental review and the Department of Natural
162.19 Resources is the responsible governmental unit, then the Department of Natural Resources
162.20 is the lead agency responsible for preparation of a coordinated project plan under section
162.21 84.0265. If an eligible project requires environmental review and the Pollution Control
162.22 Agency is the responsible governmental unit, then the Pollution Control Agency is the lead
162.23 agency responsible for preparation of a coordinated project under this section.

162.24 Subd. 5. **Plan contents; synchronization; updates.** (a) A coordinated project plan must
162.25 include:

162.26 (1) a list of all state agencies known to have environmental review, permitting, or other
162.27 regulatory authority over the eligible project and an explanation of each agency's specific
162.28 role and responsibilities for actions under the coordinated project plan;

162.29 (2) a schedule for any formal public meetings; and

162.30 (3) a comprehensive schedule of deadlines by which all environmental reviews, permits,
162.31 and other state agency actions must be completed. The deadlines established under this
162.32 clause must include intermediate and final completion deadlines for actions by each state

163.1 agency and must be consistent with subdivision 6, subject to modification in accordance
163.2 with subdivision 7.

163.3 (b) The commissioner must update a coordinated project plan quarterly.

163.4 Subd. 6. **Required deadlines.** (a) Deadlines established in a coordinated project plan
163.5 must comply with this subdivision unless an alternative time period is agreed upon by the
163.6 commissioner and proposer.

163.7 (b) When an environmental assessment worksheet is prepared for an eligible project for
163.8 which an environmental impact statement is not mandatory under Minnesota Rules, chapter
163.9 4410, the decision on the need for an environmental impact statement must be made as
163.10 expeditiously as possible but no later than 18 months after the environmental assessment
163.11 worksheet is deemed complete by the commissioner.

163.12 (c) When an environmental impact statement is prepared for an eligible project, the
163.13 decision on the adequacy of the final environmental impact statement must be made as
163.14 expeditiously as possible but no later than four years after the submitted data for the
163.15 environmental assessment worksheet is deemed complete.

163.16 (d) If the commissioner includes plan deadlines that are inconsistent with paragraphs
163.17 (b) and (c), then within 30 days of finalizing the plan, the commissioner must report to the
163.18 chairs and ranking minority members of the legislative committees and divisions with
163.19 jurisdiction over natural resources policy to explain how deadlines were established and
163.20 why the deadlines under paragraphs (b) and (c) are not attainable.

163.21 Subd. 7. **Deadline compliance; modification.** (a) A state agency that participates in the
163.22 commissioner's development coordinated project plan must comply with deadlines established
163.23 in the plan. If a participating state agency fails to meet a deadline established in the
163.24 coordinated project plan or anticipates failing to meet a deadline, the state agency must
163.25 immediately notify the commissioner to explain the reason for the failure or anticipated
163.26 failure and to propose a date for a modified deadline.

163.27 (b) The commissioner may modify a deadline established in the coordinated project plan
163.28 if the project proposer fails to meet a deadline established in the coordinated project plan
163.29 or provides inadequate information to meet that deadline, or if:

163.30 (1) the commissioner provides the person that requested the plan with a written
163.31 justification for the modification; and

163.32 (2) the commissioner and the state agency, after consultation with the person that
163.33 requested the plan, mutually agree on a different deadline.

164.1 (c) If the combined modifications to one or more deadlines established in a coordinated
164.2 project plan extend the initially anticipated final decision date for an eligible project
164.3 application by more than 20 percent, the commissioner must report to the chairs and ranking
164.4 minority members of the legislative committees and divisions with jurisdiction over natural
164.5 resources policy within 30 days to explain the reason the modifications are necessary. The
164.6 commissioner must also notify the chairs and ranking minority members within 30 days of
164.7 any subsequent extensions to the final decision date. The notification must include the reason
164.8 for the extension and the history of any prior extensions. For purposes of calculating the
164.9 percentage of time that modifications have extended the anticipated final decision date,
164.10 modifications made necessary by reasons wholly outside the control of state agencies must
164.11 not be considered.

164.12 Subd. 8. **Annual report.** As part of the annual permitting efficiency report required
164.13 under section 116.03, the commissioner must report on progress toward required actions
164.14 described in this section.

164.15 Subd. 9. **Relation to other law.** Nothing in this section is to be construed to require an
164.16 act that conflicts with applicable state or federal law. Nothing in this section affects the
164.17 specific statutory obligations of a state agency to comply with criteria or standards of
164.18 environmental quality, water resource management, pollutant management, environmental
164.19 justice, and public health.

115A.5501 REDUCING PACKAGING IN WASTE.

Subdivision 1. **Statewide reduction goal.** It is the goal of the state that there be a minimum 25 percent statewide per capita reduction in the amount of discarded packaging delivered to facilities by December 31, 1995, based on a reasonable estimate of the amount of packaging that was delivered to facilities in calendar year 1992.

Subd. 2. **Measurement; procedures.** (a) To measure the overall percentage of packaging in the statewide solid waste stream, the commissioner shall conduct annual solid waste composition studies in the nonmetropolitan and metropolitan areas or shall develop an alternative method that is as statistically reliable as a waste composition study to measure the percentage of packaging in the waste stream.

(b) The commissioner shall average the nonmetropolitan and metropolitan results and submit the statewide percentage, along with a statistically reliable margin of error, to the senate and house of representatives committees having jurisdiction over environment and natural resources and environment and natural resources finance by July 1 of each year. The 1994 report must include a discussion of the reliability of data gathered under this subdivision and the methodology used to determine a statistically reliable margin of error.

Subd. 3. **Access; waste composition studies.** The owner or operator of a facility shall allow access upon reasonable notice to authorized agency staff for the purpose of conducting waste composition studies or otherwise assessing the amount of total packaging in the waste delivered to the facility under this section.

Subd. 4. **Report.** The commissioner shall apply the statewide percentage determined under subdivision 2 to the aggregate amount of solid waste determined under subdivision 3 to determine the amount of packaging in the waste stream. By July 1, 1996, the commissioner shall submit to the Legislative Commission on Waste Management an analysis of the extent to which the waste packaging reduction goal in subdivision 1 has been met. In determining whether the goal has been met, the margin of error must be applied in favor of meeting the goal. The commissioner shall use the statistical mean for the data collected in determining whether the goal has been met and shall include in the analysis a discussion of the margin of error and statistical reliability for the data collected.
