6.18 Subd. 3a. **Contribution rate revision; general state employees retirement plan.**

6.19 (a) Notwithstanding the contribution rates stated in plan law, the employee and employer
6.20 contribution rates for the general state employees retirement plan must be adjusted:

6.21 (1) if the regular actuarial valuation of the plan under section 356.215 indicates that
6.22 there is a contribution sufficiency greater than one percent of covered payroll and that the
6.23 sufficiency has existed for at least two consecutive years, the employee and employer
6.24 contribution rates must be decreased as determined under paragraph (b) to a level such
6.25 that the sufficiency is no greater than one percent of covered payroll based on the most
6.26 recent actuarial valuation; or

6.27 (2) if the regular actuarial valuation of the plan under section 356.215 indicates that
6.28 there is a contribution deficiency equal to or greater than 0.5 percent of covered payroll
6.29 and that the deficiency has existed for at least two consecutive years, the employee and
6.30 employer contribution rates must be increased as determined under paragraph (c) to a level
6.31 such that no deficiency exists based on the most recent actuarial valuation.

7.1 (b) If the actuarially required contribution of the plan is less than the total support
7.2 provided by the combined employee and employer contribution rates by more than one
7.3 percent of covered payroll, the plan employee and employer contribution rates must be
7.4 decreased incrementally over one or more years by no more than 0.25 percent of pay
7.5 each for employee and employer contribution rates to a level such that there remains a
7.6 contribution sufficiency of at least one percent of covered payroll. No contribution rate
7.7 decrease may be made until at least two years have elapsed since any adjustment under
7.8 this paragraph has been fully implemented.

7.9 (c) If the actuarially required contribution exceeds the total support provided by the
7.10 employee and employer contribution rates, the employee and employer contribution rates
7.11 must be increased equally to eliminate that contribution deficiency. If the contribution
7.12 deficiency is:

7.13 (1) less than two percent, the incremental increase may be up to 0.25 percent each
7.14 for the employee and employer contribution rates;

7.15 (2) greater than 1.99 percent and less than 4.01 percent, the incremental increase
7.16 may be up to 0.5 percent each for the employee and employer contribution rates; or

7.17 (3) greater than four percent, the incremental increase may be up to 0.75 percent
7.18 each for the employee and employer contribution.

7.19 (d) Any recommended adjustment to the contribution rates must be reported to
7.20 the chair and the executive director of the Legislative Commission on Pensions and
7.21 Retirement by January 15 following receipt of the most recent annual actuarial valuation
7.22 prepared under section 356.215. The report must include draft legislation to revise the
7.23 employee and employer contributions stated in plan law. If the Legislative Commission
7.24 on Pensions and Retirement does not recommend against the rate change or does not
7.25 recommend a modification in the rate change, the recommended adjustment becomes
7.26 effective on the first day of the first full payroll period in the fiscal year following receipt
7.27 of the most recent actuarial valuation that gave rise to the adjustment.

7.28 (e) A contribution sufficiency of up to one percent of covered payroll must be held
7.29 in reserve to be used to offset any future actuarially required contributions that are more
7.30 than the total combined employee and employer contributions.

7.31 (f) Before any reduction in contributions to eliminate a sufficiency in excess of one
7.32 percent of covered pay may be recommended, the executive director must review any
7.33 need for a change in actuarial assumptions, as recommended by the actuary retained under
7.34 section 356.214 in the most recent experience study of the general employees retirement
7.35 plan prepared under section 356.215 and the standards for actuarial work promulgated by
7.36 the Legislative Commission on Pensions and Retirement that may result in an increase

8.1 in the actuarially required contribution and must report to the Legislative Commission
8.2 on Pensions and Retirement any recommendation by the board to use the sufficiency
8.3 exceeding one percent of covered payroll to offset the impact of an actuarial assumption
8.4 change recommended by the actuary retained under section 356.214, subdivision 1, and
8.5 reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

8.6 (g) No contribution sufficiency in excess of one percent of covered pay may be
8.7 proposed to be used to increase benefits, and no benefit increase may be proposed that
8.8 would initiate an automatic adjustment to increase contributions under this subdivision.
8.9 Any proposed benefit improvement must include a recommendation, prepared by the
8.10 actuary retained under section 356.214, subdivision 1, and reviewed by the actuary
8.11 retained by the Legislative Commission on Pensions and Retirement as provided under
8.12 section 356.214, subdivision 4, on how the benefit modification will be funded.

8.13 **EFFECTIVE DATE.** This section is effective the day following final enactment.

8.14 Sec. 12. Minnesota Statutes 2012, section 352.045, is amended by adding a subdivision
8.15 to read:

8.16 Subd. 3b. **Contribution rate revision; correctional state employees retirement**

8.18 state employees retirement plan under this chapter and to the State Patrol retirement plan
8.19 established under chapter 352B, except as stated in this subdivision.

8.20 (b) Any limitations on the amount of contribution rate changes stated in subdivision
8.21 3a apply only to the amount of the employee contribution revision. The employer
8.22 contribution for the correctional state employees retirement plan or the State Patrol
8.23 retirement plan, whichever is applicable, must be adjusted so that the employer
8.24 contribution is equal to 60 percent of the sum of employee plus employer contributions.

8.25 (c) For the State Patrol retirement plan, a contribution sufficiency of up to two
8.26 percent of covered payroll, rather than one percent, may be held in reserves without taking
8.27 action to reduce employee and employer contributions.

8.28 **EFFECTIVE DATE.** This section is effective the day following final enactment.

8.29 Sec. 13. Minnesota Statutes 2012, section 352.113, subdivision 4, is amended to read:

9.11 employee was placed on any paid or unpaid leave of absence or terminated public service.

9.12 (c) If there is medical evidence that supports the expectation that at some point
9.13 the person applying for the disability benefit will no longer be disabled, the decision
9.14 granting the disability benefit may provide for a termination date upon which the total and
9.15 permanent disability can be expected to no longer exist. When a termination date is part
9.16 of the decision granting benefits, prior to the benefit termination the executive director
9.17 shall review any evidence provided by the disabled employee to show that the disabling
9.18 condition for which benefits were initially granted continues. If the benefits cease, the
9.19 disabled employee may follow the appeal procedures described in section 356.96 or may
9.20 reapply for disability benefits using the process described in this subdivision.

9.21 (d) Any claim to disability must be supported by a report from the employer
9.22 indicating that there is no available work that the employee can perform with the disabling
9.23 condition and that all reasonable accommodations have been considered. Upon request of
9.24 the executive director, an employer shall provide evidence of the steps the employer has
9.25 taken to attempt to provide reasonable accommodations and continued employment to
9.26 the claimant.

9.27 ~~(e)~~ (e) The director shall also obtain written certification from the employer
9.28 stating whether the employment has ceased or whether the employee is on sick leave of
9.29 absence because of a disability that will prevent further service to the employer and ~~as a~~
9.30 ~~consequence~~ that the employee is not entitled to compensation from the employer.

9.31 ~~(f)~~ (f) The medical adviser shall consider the reports of the physicians, physician
9.32 assistants, psychologists, and chiropractors and any other evidence supplied by the
9.33 employee or other interested parties. If the medical adviser finds the employee totally and
9.34 permanently disabled, the adviser shall make appropriate recommendation to the director
9.35 in writing together with the date from which the employee has been totally disabled. The
9.36 director shall then determine if the disability occurred within 18 months of filing the

10.1 application, while still in the employment of the state, and the propriety of authorizing
 10.2 payment of a disability benefit as provided in this section.

10.3 (e) (g) A terminated employee may apply for a disability benefit within 18 months of
 10.4 termination as long as the disability occurred while in the employment of the state. The
 10.5 fact that an employee is placed on leave of absence without compensation because of
 10.6 disability does not bar that employee from receiving a disability benefit.

10.7 (f) (h) Unless the payment of a disability benefit has terminated because the
 10.8 employee is no longer totally disabled, or because the employee has reached normal
 10.9 retirement age as provided in this section, the disability benefit must cease with the last
 10.10 payment received by the disabled employee or which had accrued during the lifetime of the
 10.11 employee unless there is a spouse surviving. In that event, the surviving spouse is entitled
 10.12 to the disability benefit for the calendar month in which the disabled employee died.

10.13 **EFFECTIVE DATE.** This section is effective the day following final enactment.

10.14 Sec. 14. Minnesota Statutes 2012, section 352.113, is amended by adding a subdivision

 10.24 year during the first five years following the allowance of a disability benefit to any

 10.26 any disabled employee to ~~undergo a~~ provide medical, chiropractic, or psychological
 10.27 examination evidence to support the continuation of the total and permanent disability.
 10.28 ~~The examination must be made at the place of residence of the employee, or at any place~~
 10.29 ~~mutually agreed upon,~~ evidence must be in a form and manner prescribed by the executive
 10.30 director for review by an expert or experts designated by the medical adviser and engaged
 10.31 by the director. ~~If any examination indicates~~ the medical information provided to the
 10.32 medical adviser indicates that the employee is no longer permanently and totally disabled,
 10.33 or is engaged in or can engage in a gainful occupation, payments of the disability benefit

11.1 by the fund must be discontinued. The payments must be discontinued as soon as the
11.2 employee is reinstated to the payroll following a sick leave of absence, but in no case may

21.33 Except for the legislators retirement plan and the ~~elective state~~ constitutional officers
 21.34 ~~retirement plan~~ calculation of total plan liabilities, the select postretirement interest rate
 21.35 assumption for the period after June 30, 2012, through June 30, 2017, is 5.5 percent,
 21.36 except for the Duluth teachers retirement plan and the St. Paul teachers retirement plan,
 21.37 each with a select postretirement interest rate assumption for the period after June 30,
 21.38 2012, through June 30, 2017, of 8.0 percent.

 22.25 the result of the designated integer minus T,
 22.26 where T is the number of completed years
 22.27 of service, and is added to the applicable
 22.28 future salary increase assumption. The
 22.29 designated select period is ten years and the
 22.30 designated integer is ten for all retirement
 22.31 plans covered by this clause. The designated
 22.32 percentage rate is 0.3 percent for the St. Paul

33.16 **EFFECTIVE DATE.** This section is effective the day following final enactment.

33.17 Sec. 2. Minnesota Statutes 2012, section 353.01, subdivision 16, is amended to read:

33.18 Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service"
33.19 means:

33.20 (1) service during years of actual membership in the course of which employee
33.21 deductions were withheld from salary and contributions were made at the applicable rates
33.22 under section 353.27, 353.65, or 353E.03;

33.23 (2) periods of service covered by payments in lieu of salary deductions under
33.24 sections 353.27, subdivision 12, and 353.35;

33.25 (3) service in years during which the public employee was not a member but for
33.26 which the member later elected, while a member, to obtain credit by making payments to
33.27 the fund as permitted by any law then in effect;

33.28 (4) a period of authorized leave of absence with pay from which deductions for
33.29 employee contributions are made, deposited, and credited to the fund;

33.30 (5) a period of authorized personal, parental, or medical leave of absence without
33.31 pay, including a leave of absence covered under the federal Family Medical Leave Act,
33.32 that does not exceed one year, and for which a member obtained service credit for each
33.33 month in the leave period by payment under section 353.0161 to the fund made in place of
33.34 salary deductions. An employee must return to public service and render a minimum of
33.35 three months of allowable service in order to be eligible to make payment under section

34.1 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the
34.2 employee must be granted allowable service credit for the purchased period;

34.3 (6) a periodic, repetitive leave that is offered to all employees of a governmental
34.4 subdivision. The leave program may not exceed 208 hours per annual normal work cycle
34.5 as certified to the association by the employer. A participating member obtains service
34.6 credit by making employee contributions in an amount or amounts based on the member's
34.7 average salary, excluding overtime pay, that would have been paid if the leave had not been
34.8 taken. The employer shall pay the employer and additional employer contributions on
34.9 behalf of the participating member. The employee and the employer are responsible to pay
34.10 interest on their respective shares at the rate of 8.5 percent a year, compounded annually,
34.11 from the end of the normal cycle until full payment is made. An employer shall also make
34.12 the employer and additional employer contributions, plus 8.5 percent interest, compounded
34.13 annually, on behalf of an employee who makes employee contributions but terminates
34.14 public service. The employee contributions must be made within one year after the end of
34.15 the annual normal working cycle or within 30 days after termination of public service,
34.16 whichever is sooner. The executive director shall prescribe the manner and forms to be
34.17 used by a governmental subdivision in administering a periodic, repetitive leave. Upon
34.18 payment, the member must be granted allowable service credit for the purchased period;

34.19 (7) an authorized temporary or seasonal layoff under subdivision 12, limited to three
34.20 months allowable service per authorized temporary or seasonal layoff in one calendar year.
34.21 An employee who has received the maximum service credit allowed for an authorized
34.22 temporary or seasonal layoff must return to public service and must obtain a minimum of
34.23 three months of allowable service subsequent to the layoff in order to receive allowable
34.24 service for a subsequent authorized temporary or seasonal layoff;

34.25 (8) a period during which a member is absent from employment by a governmental
34.26 subdivision by reason of service in the uniformed services, as defined in United States
34.27 Code, title 38, section 4303(13), if the member returns to public service with the same
34.28 governmental subdivision upon discharge from service in the uniformed service within the
34.29 time frames required under United States Code, title 38, section 4312(e), provided that
34.30 the member did not separate from uniformed service with a dishonorable or bad conduct
34.31 discharge or under other than honorable conditions. The service must be credited if the
34.32 member pays into the fund equivalent employee contributions based upon the contribution
34.33 rate or rates in effect at the time that the uniformed service was performed multiplied
34.34 by the full and fractional years being purchased and applied to the annual salary rate.
34.35 The annual salary rate is the average annual salary, ~~excluding overtime pay~~, during the
34.36 purchase period that the member would have received if the member had continued to

35.1 be employed in covered employment rather than to provide uniformed service, or, if
35.2 the determination of that rate is not reasonably certain, the annual salary rate is the
35.3 member's average salary rate, ~~excluding overtime pay~~, during the 12-month period of
35.4 covered employment rendered immediately preceding the period of the uniformed service.
35.5 Payment of the member equivalent contributions must be made during a period that begins
35.6 with the date on which the individual returns to public employment and that is three times
35.7 the length of the military leave period, or within five years of the date of discharge from
35.8 the military service, whichever is less. If the determined payment period is less than
35.9 one year, the contributions required under this clause to receive service credit may be
35.10 made within one year of the discharge date. Payment may not be accepted following 30
35.11 days after termination of public service under subdivision 11a. If the member equivalent
35.12 contributions provided for in this clause are not paid in full, the member's allowable
35.13 service credit must be prorated by multiplying the full and fractional number of years of
35.14 uniformed service eligible for purchase by the ratio obtained by dividing the total member
35.15 contributions received by the total member contributions otherwise required under this
35.16 clause. The equivalent employer contribution, and, if applicable, the equivalent additional
35.17 employer contribution must be paid by the governmental subdivision employing the
35.18 member if the member makes the equivalent employee contributions. The employer
35.19 payments must be made from funds available to the employing unit, using the employer
35.20 and additional employer contribution rate or rates in effect at the time that the uniformed
35.21 service was performed, applied to the same annual salary rate or rates used to compute the
35.22 equivalent member contribution. The governmental subdivision involved may appropriate
35.23 money for those payments. The amount of service credit obtainable under this section may
35.24 not exceed five years unless a longer purchase period is required under United States Code,
35.25 title 38, section 4312. The employing unit shall pay interest on all equivalent member and
35.26 employer contribution amounts payable under this clause. Interest must be computed at a
35.27 rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the
35.28 break in service to the end of the month in which the payment is received. Upon payment,
35.29 the employee must be granted allowable service credit for the purchased period; or

35.30 (9) a period specified under section 353.0162.

35.31 (b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for
35.32 state officers and employees displaced by the Community Corrections Act, chapter 401,
35.33 and transferred into county service under section 401.04, "allowable service" means the
35.34 combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and
35.35 section 352.01, subdivision 11.

36.1 (c) For a public employee who has prior service covered by a local police or
36.2 firefighters relief association that has consolidated with the Public Employees Retirement
36.3 Association under chapter 353A or to which section 353.665 applies, and who has
36.4 elected the type of benefit coverage provided by the public employees police and fire
36.5 fund either under section 353A.08 following the consolidation or under section 353.665,
36.6 subdivision 4, "allowable service" is a period of service credited by the local police or
36.7 firefighters relief association as of the effective date of the consolidation based on law
36.8 and on bylaw provisions governing the relief association on the date of the initiation
36.9 of the consolidation procedure.

36.10 (d) No member may receive more than 12 months of allowable service credit in a
36.11 year either for vesting purposes or for benefit calculation purposes. For an active member
36.12 who was an active member of the former Minneapolis Firefighters Relief Association
36.13 on December 29, 2011, "allowable service" is the period of service credited by the
36.14 Minneapolis Firefighters Relief Association as reflected in the transferred records of the
36.15 association up to December 30, 2011, and the period of service credited under paragraph
36.16 (a), clause (1), after December 30, 2011. For an active member who was an active member
36.17 of the former Minneapolis Police Relief Association on December 29, 2011, "allowable
36.18 service" is the period of service credited by the Minneapolis Police Relief Association as
36.19 reflected in the transferred records of the association up to December 30, 2011, and the
36.20 period of service credited under paragraph (a), clause (1), after December 30, 2011.

36.22 **EFFECTIVE DATE.** This section is effective the day following final enactment.

36.23 Sec. 3. Minnesota Statutes 2012, section 353.01, subdivision 17a, is amended to read:

36.24 Subd. 17a. **Average salary.** (a) "Average salary," ~~for purposes of calculating a~~
36.25 ~~retirement annuity under section 353.29, subdivision 3~~ unless otherwise specified, means
36.26 an amount equivalent to the average of the highest salary of the member, police officer,
36.27 or firefighter, whichever applies, upon which employee contributions were paid for any
36.28 five successive years of allowable service, based on dates of salary periods as listed on
36.29 salary deduction reports. Average salary must be based upon all allowable service if
36.30 this service is less than five years.

36.31 (b) "Average salary" may not include any reduced salary paid during a period
36.32 in which the employee is entitled to benefit payments from workers' compensation for
36.33 temporary disability, unless the average salary is higher, including this period.

36.34 (c) "Average salary," for purposes of calculating benefits for a surviving spouse or
36.35 dependent children under section 353.657, subdivision 2 or 3, means the average of the

37.1 full-time monthly base salary rate in effect during the last six months of allowable service.
 37.2 If the employment during the last six months of allowable service was part-time, the
 37.3 average salary must be prorated based on the actual number of hours worked.

37.4 **EFFECTIVE DATE.** This section is effective the day following final enactment.

37.5 Sec. 4. Minnesota Statutes 2012, section 353.01, subdivision 29, is amended to read:

37.6 Subd. 29. **Designated beneficiary.** "Designated beneficiary" means the person or₂
 37.7 organization, trust, or estate designated by a member, former member, ~~disabiltant, or~~
 37.8 ~~retired member in writing, signed and filed with the association before the death of the~~
 37.9 ~~member, former member, disabiltant, or retired member,~~ or a person legally authorized
 37.10 to act on behalf of the member or former member to receive a refund of the balance of
 37.11 the member's or former member's accumulated deductions after death. A beneficiary
 37.12 designation is valid if it is made in the form prescribed by the executive director and
 37.13 is received by the association on or before the date of death of the member or former
 37.14 member. If a beneficiary designation is deemed to be invalid for any reason, any remaining
 37.15 balance of the member's or former member's accumulated deductions are subject to the
 37.16 provisions of section 353.32, subdivisions 4 and 5.

37.17 **EFFECTIVE DATE.** This section is effective the day following final enactment.

37.18 Sec. 5. Minnesota Statutes 2012, section 353.27, subdivision 7, is amended to read:

 37.22 plan of the Public Employees Retirement Association or to the public employees police

 37.26 determination of the error by the association, the person may continue membership in the
 37.27 association while employed in the same position for which erroneous deductions were
 37.28 taken, or file a written election to terminate membership and apply for a refund upon
 37.29 termination of public service or defer an annuity under section 353.34; or

56.27 Subd. 3. **Retirement annuity formula.** (a) This paragraph, in conjunction with
56.28 section 353.30, subdivisions 1a, 1b, and 1c, applies to any member who first became a
56.29 public employee or a member of a pension fund listed in section 356.30, subdivision 3,
56.30 before July 1, 1989, unless paragraph (b), in conjunction with section 353.30, subdivision
56.31 5, produces a higher annuity amount, in which case paragraph (b) ~~will apply~~ applies. The
56.32 average salary as defined in section 353.01, subdivision 17a, multiplied by the 2.2 percent

57.1 specified in ~~section 356.315, subdivision 3~~, for each year of allowable service for the
 57.2 first ten years and thereafter by the 2.7 percent ~~specified in section 356.315, subdivision~~
 57.3 ~~4~~, per year of allowable service and completed months less than a full year for a basic
 57.4 member, and the 1.2 percent ~~specified in section 356.315, subdivision 1~~, for each year
 57.5 of allowable service for the first ten years and thereafter by the 1.7 percent ~~specified in~~
 57.6 ~~section 356.315, subdivision 2~~, per year of allowable service and completed months less
 57.7 than a full year for a coordinated member ~~shall determine~~ determines the amount of the
 57.8 normal retirement annuity.

57.9 (b) This paragraph applies to a member who has become at least 55 years old and first
 57.10 became a public employee after June 30, 1989, and to any other member whose annuity
 57.11 amount, when calculated under this paragraph and in conjunction with section 353.30,
 57.12 subdivision 5, is higher than it is when calculated under paragraph (a), in conjunction with
 57.13 section 353.30, subdivisions 1a, 1b, and 1c. The average salary, as defined in section
 57.14 353.01, subdivision 17a, multiplied by the 2.7 percent ~~specified in section 356.315,~~
 57.15 ~~subdivision 4~~, for each year of allowable service and completed months less than a full
 57.16 year for a basic member and the 1.7 percent ~~specified in section 356.315, subdivision 2~~,
 57.17 per year of allowable service and completed months less than a full year for a coordinated
 57.18 member, ~~shall determine~~ determines the amount of the normal retirement annuity.

57.19 Sec. 8. Minnesota Statutes 2012, section 353.651, subdivision 3, is amended to read:

57.20 Subd. 3. **Retirement annuity formula.** The average salary as defined in section
 57.21 353.01, subdivision 17a, multiplied by the 3.0 percent ~~specified in section 356.315,~~
 57.22 ~~subdivision 6~~, per year of allowable service determines the amount of the normal
 57.23 retirement annuity. If the member has earned allowable service for performing services
 57.24 other than those of a police officer or firefighter, the annuity representing that service must
 57.25 be computed under sections 353.29 and 353.30.

57.26 Sec. 9. Minnesota Statutes 2012, section 353.656, subdivision 1, is amended to read:

57.27 Subdivision 1. **Duty disability; computation of benefits.** (a) A member of the
 57.28 police and fire plan, other than a firefighter covered by section 353.6511, or a police
 57.29 officer covered by section 353.6512, who is determined to qualify for duty disability as
 57.30 defined in section 353.01, subdivision 41, ~~shall~~ is entitled to receive disability benefits
 57.31 during the period of such disability in an amount equal to 60 percent of the average salary
 57.32 as defined in section 353.01, subdivision 17a, plus an additional ~~percentage specified~~
 57.33 ~~under section 356.315, subdivision 6~~, 3.0 percent of that average salary for each year
 57.34 of service in excess of 20 years.

58.1 (b) To be eligible for a benefit under paragraph (a), the member must have:

58.2 (1) not met the requirements for a retirement annuity under section 353.651,
58.3 subdivision 1; or

58.4 (2) met the requirements under that subdivision, but does not have at least 20 years
58.5 of allowable service credit.

58.6 (c) If paragraph (b), clause (2), applies, the disability benefit must be paid for a
58.7 period of 60 months from the disability benefit accrual date and at the end of that period
58.8 is subject to provisions of subdivision 5a.

58.9 (d) If the disability under this subdivision occurs before the member has at least five
58.10 years of allowable service credit in the police and fire plan, the disability benefit must be
58.11 computed on the average salary from which deductions were made for contribution to
58.12 the police and fire fund.

58.13 Sec. 10. Minnesota Statutes 2012, section 353.656, subdivision 1a, is amended to read:

58.14 Subd. 1a. **Total and permanent duty disability; computation of benefits.** (a) A
58.15 member of the police and fire plan, other than a firefighter covered by section 353.6511, or
58.16 a police officer covered by section 353.6512, whose disabling condition is determined
58.17 to be a duty disability that is also a permanent and total disability as defined in section
58.18 353.01, subdivision 19, is entitled to receive, for life, disability benefits in an amount
58.19 equal to 60 percent of the average salary as defined in section 353.01, subdivision 17a,
58.20 plus an additional 3.0 percent ~~specified in section 356.315, subdivision 6,~~ of that average
58.21 salary for each year of service in excess of 20 years.

58.22 (b) A disability benefit payable under paragraph (a) is subject to eligibility review
58.23 under section 353.33, subdivision 6, but the review may be waived if the executive
58.24 director receives a written statement from the association's medical advisor that no
58.25 improvement can be expected in the member's disabling condition that was the basis for
58.26 payment of the benefit under paragraph (a). A member receiving a disability benefit
58.27 under this subdivision who is found to no longer be permanently and totally disabled as
58.28 defined under section 353.01, subdivision 19, but continues to meet the definition for
58.29 receipt of a duty disability under section 353.01, subdivision 41, is subject to subdivision
58.30 1 upon written notice from the association's medical advisor that the person is no longer
58.31 considered permanently and totally disabled.

58.32 (c) If a member approved for disability benefits under this subdivision dies before
58.33 attaining normal retirement age as defined in section 353.01, subdivision 37, paragraph
58.34 (b), or within 60 months of the effective date of the disability, whichever is later,
58.35 the surviving spouse is entitled to receive a survivor benefit under section 353.657,

59.1 subdivision 2, paragraph (a), clause (1), if the death is the direct result of the disabling
59.2 condition for which disability benefits were approved, or section 353.657, subdivision
59.3 2, paragraph (a), clause (2), if the death is not directly related to the disabling condition
59.4 for which benefits were approved under this subdivision.

59.5 (d) If the election of an actuarial equivalent optional annuity is not made at the time
59.6 the permanent and total disability benefit accrues, an election must be made within 90
59.7 days before the member attains normal retirement age as defined under section 353.01,
59.8 subdivision 37, paragraph (b), or having collected total and permanent disability benefits
59.9 for 60 months, whichever is later. If a member receiving disability benefits who has
59.10 dependent children dies, subdivision 6a, paragraph (c), applies.

59.11 Sec. 11. Minnesota Statutes 2012, section 353.656, subdivision 3a, is amended to read:

59.12 Subd. 3a. **Total and permanent regular disability; computation of benefits.** (a)
59.13 A member of the police and fire plan, other than a firefighter covered by section 353.6511,
59.14 or a police officer covered by section 353.6512, whose disabling condition is determined
59.15 to be a regular disability under section 353.01, subdivision 46, that is also a permanent
59.16 and total disability as defined in section 353.01, subdivision 19, is entitled to receive, for
59.17 life, a disability benefit in an amount equal to 45 percent of the average salary as defined
59.18 in section 353.01, subdivision 17a, plus an additional 3.0 percent ~~specified in section~~
59.19 ~~356.315, subdivision 6~~, of that average salary for each year of service in excess of 15 years.

59.20 (b) A disability benefit payable under paragraph (a) is subject to eligibility review
59.21 under section 353.33, subdivision 6, but the review may be waived if the executive
59.22 director receives a written statement from the association's medical advisor that no
59.23 improvement can be expected in the member's disabling condition that was the basis for
59.24 payment of the benefit under paragraph (a). A member receiving a disability benefit under
59.25 this subdivision who is found to no longer be permanently and totally disabled as defined
59.26 under section 353.01, subdivision 19, but continues to meet the definition for receipt
59.27 of a regular disability under section 353.01, subdivision 46, is subject to subdivision 3
59.28 upon written notice from the association's medical advisor that the person is no longer
59.29 considered permanently and totally disabled.

59.30 (c) A member approved for disability benefits under this subdivision may elect
59.31 to receive a normal disability benefit or an actuarial equivalent optional annuity. If the
59.32 election of an actuarial equivalent optional annuity is not made at the time the total and
59.33 permanent disability benefit accrues, an election must be made within 90 days before
59.34 the member attains normal retirement age as defined in section 353.01, subdivision 37,
59.35 paragraph (b), or having collected disability benefits for 60 months, whichever is later.

60.1 No surviving spouse benefits are payable if the member dies during the period in which
60.2 a normal total and permanent disability benefit is being paid. If a member receiving
60.3 disability benefits who has dependent children dies, subdivision 6a, paragraph (c), applies.

60.4 Sec. 12. Minnesota Statutes 2012, section 353E.04, subdivision 3, is amended to read:

60.5 Subd. 3. **Annuity amount.** (a) The average salary as defined in subdivision 2,
60.6 multiplied by the 1.9 percent specified in section 356.315, subdivision 5a, for each year of
60.7 allowable service, determines the amount of the normal retirement annuity.

60.8 (b) If a person has earned allowable service in the general employees retirement plan
60.9 of the Public Employees Retirement Association or the public employees police and fire
60.10 fund prior to retirement plan before participation under this chapter, the retirement annuity
60.11 representing such service must be computed in accordance with the formula specified in
60.12 sections 353.29 and 353.30 or 353.651, whichever applies.

60.13 Sec. 13. Minnesota Statutes 2012, section 353E.06, subdivision 1, is amended to read:

60.14 Subdivision 1. **Duty disability qualification requirements.** A local government
60.15 correctional employee who is determined to qualify for a duty disability as defined in
60.16 section 353E.001, subdivision 1, is entitled to a disability benefit. The disability benefit
60.17 must be based on covered service under this chapter only and is an amount equal to 47.5
60.18 percent of the average salary defined in section 353E.04, subdivision 2, plus an additional
60.19 1.9 percent equal to that specified in section 356.315, subdivision 5a, for each year of
60.20 covered service under this chapter in excess of 25 years.

60.21 Sec. 14. Minnesota Statutes 2012, section 354.44, subdivision 6, is amended to read:

60.22 Subd. 6. **Computation of formula program retirement annuity.** (a) The formula
60.23 retirement annuity must be computed in accordance with the applicable provisions of the
60.24 formulas stated in paragraph (b) or (d) on the basis of each member's average salary under
60.25 section 354.05, subdivision 13a, for the period of the member's formula service credit.

60.26 (b) This paragraph, in conjunction with paragraph (c), applies to a person who first
60.27 became a member of the association or a member of a pension fund listed in section
60.28 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with
60.29 paragraph (e), produces a higher annuity amount, in which case paragraph (d) applies. The
60.30 average salary as defined in section 354.05, subdivision 13a, multiplied by the following
60.31 percentages per year of formula service credit shall determine the amount of the annuity to
60.32 which the member qualifying therefor is entitled for service rendered before July 1, 2006:

61.1		Coordinated Member	Basic Member
61.2	Each year of	the <u>1.2</u> percent specified	the <u>2.2</u> percent specified
61.3	service during	in section 356.315,	in section 356.315,
61.4	first ten	subdivision 1, per year	subdivision 3, per year
61.5	Each year of service	the <u>1.7</u> percent specified	the <u>2.7</u> percent specified
61.6	thereafter	in section 356.315,	in section 356.315,
61.7		subdivision 2, per year	subdivision 4, per year

61.8 For service rendered on or after July 1, 2006, the average salary as defined in section
 61.9 354.05, subdivision 13a, multiplied by the following percentages per year of service credit,
 61.10 determines the amount the annuity to which the member qualifying therefor is entitled:

61.11		Coordinated Member	Basic Member
61.12	Each year of	the <u>1.4</u> percent specified	the <u>2.2</u> percent specified
61.13	service during	in section 356.315,	in section 356.315,
61.14	first ten	subdivision 1a, per year	subdivision 3, per year
61.15	Each year of service after	the <u>1.9</u> percent specified	the <u>2.7</u> percent specified
61.16	ten years of service	in section 356.315,	in section 356.315,
61.17		subdivision 2b, per year	subdivision 4, per year

61.18 (c)(i) This paragraph applies only to a person who first became a member of the
 61.19 association or a member of a pension fund listed in section 356.30, subdivision 3, before
 61.20 July 1, 1989, and whose annuity is higher when calculated under paragraph (b), in
 61.21 conjunction with this paragraph than when calculated under paragraph (d), in conjunction
 61.22 with paragraph (e).

61.23 (ii) Where any member retires prior to normal retirement age under a formula
 61.24 annuity, the member shall be paid a retirement annuity in an amount equal to the normal
 61.25 annuity provided in paragraph (b) reduced by one-quarter of one percent for each month
 61.26 that the member is under normal retirement age at the time of retirement except that for
 61.27 any member who has 30 or more years of allowable service credit, the reduction shall be
 61.28 applied only for each month that the member is under age 62.

61.29 (iii) Any member whose attained age plus credited allowable service totals 90 years
 61.30 is entitled, upon application, to a retirement annuity in an amount equal to the normal
 61.31 annuity provided in paragraph (b), without any reduction by reason of early retirement.

61.32 (d) This paragraph applies to a member who has become at least 55 years old and
 61.33 first became a member of the association after June 30, 1989, and to any other member
 61.34 who has become at least 55 years old and whose annuity amount when calculated
 61.35 under this paragraph and in conjunction with paragraph (e), is higher than it is when
 61.36 calculated under paragraph (b), in conjunction with paragraph (c). For a basic member,
 61.37 the average salary, as defined in section 354.05, subdivision 13a, multiplied by the 2.7
 61.38 percent specified by ~~section 356.315, subdivision 4,~~ for each year of service for a basic
 61.39 member shall ~~determine~~ determines the amount of the retirement annuity to which the

62.1 basic member is entitled. The annuity of a basic member who was a member of the
62.2 former Minneapolis Teachers Retirement Fund Association as of June 30, 2006, must be
62.3 determined according to the annuity formula under the articles of incorporation of the
62.4 former Minneapolis Teachers Retirement Fund Association in effect as of that date. For a
62.5 coordinated member, the average salary, as defined in section 354.05, subdivision 13a,
62.6 multiplied by the 1.7 percent ~~specified in section 356.315, subdivision 2~~, for each year of
62.7 service rendered before July 1, 2006, and by the 1.9 percent ~~specified in section 356.315,~~
62.8 ~~subdivision 2b~~, for each year of service rendered on or after July 1, 2006, determines the
62.9 amount of the retirement annuity to which the coordinated member is entitled.

62.10 (e) This paragraph applies to a person who has become at least 55 years old and first
62.11 becomes a member of the association after June 30, 1989, and to any other member who
62.12 has become at least 55 years old and whose annuity is higher when calculated under
62.13 paragraph (d) in conjunction with this paragraph than when calculated under paragraph
62.14 (b), in conjunction with paragraph (c). An employee who retires under the formula annuity
62.15 before the normal retirement age shall be paid the normal annuity provided in paragraph
62.16 (d) reduced so that the reduced annuity is the actuarial equivalent of the annuity that would
62.17 be payable to the employee if the employee deferred receipt of the annuity and the annuity
62.18 amount were augmented at an annual rate of three percent compounded annually from the
62.19 day the annuity begins to accrue until the normal retirement age if the employee became
62.20 an employee before July 1, 2006, and at 2.5 percent compounded annually if the employee
62.21 becomes an employee after June 30, 2006.

62.22 (f) No retirement annuity is payable to a former employee with a salary that exceeds
62.23 95 percent of the governor's salary unless and until the salary figures used in computing
62.24 the highest five successive years average salary under paragraph (a) have been audited by
62.25 the Teachers Retirement Association and determined by the executive director to comply
62.26 with the requirements and limitations of section 354.05, subdivisions 35 and 35a.

62.27 Sec. 15. Minnesota Statutes 2012, section 354A.31, subdivision 4, is amended to read:

62.28 Subd. 4. **Computation of normal coordinated retirement annuity; St. Paul**
62.29 **fund.** (a) This subdivision applies to the coordinated program of the St. Paul Teachers
62.30 Retirement Fund Association.

62.31 (b) The normal coordinated retirement annuity is an amount equal to a retiring
62.32 coordinated member's average salary under section 354A.011, subdivision 7a, multiplied
62.33 by the retirement annuity formula percentage.

62.34 (c) This paragraph, in conjunction with subdivision 6, applies to a person who first
62.35 became a member or a member in a pension fund listed in section 356.30, subdivision 3,

63.1 before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a
63.2 higher annuity amount, in which case paragraph (d) will apply. The retirement annuity
63.3 formula percentage for purposes of this paragraph is the 1.2 percent specified in section
63.4 ~~356.315, subdivision 1~~, per year for each year of coordinated service for the first ten
63.5 years and the 1.7 percent specified in section ~~356.315, subdivision 2~~, for each year of
63.6 coordinated service thereafter.

63.7 (d) This paragraph applies to a person who has become at least 55 years old and who
63.8 first becomes a member after June 30, 1989, and to any other member who has become
63.9 at least 55 years old and whose annuity amount, when calculated under this paragraph
63.10 and in conjunction with subdivision 7 is higher than it is when calculated under paragraph
63.11 (c), in conjunction with the provisions of subdivision 6. The retirement annuity formula
63.12 percentage for purposes of this paragraph is the 1.7 percent specified in section ~~356.315,~~
63.13 ~~subdivision 2~~, for each year of coordinated service.

63.14 Sec. 16. Minnesota Statutes 2012, section 354A.31, subdivision 4a, is amended to read:

63.15 Subd. 4a. **Computation of normal coordinated retirement annuity; Duluth**
63.16 **fund.** (a) This subdivision applies to the new law coordinated program of the Duluth
63.17 Teachers Retirement Fund Association.

63.18 (b) The normal coordinated retirement annuity is an amount equal to a retiring
63.19 coordinated member's average salary under section 354A.011, subdivision 7a, multiplied
63.20 by the retirement annuity formula percentage.

63.21 (c) This paragraph, in conjunction with subdivision 6, applies to a person who first
63.22 became a member or a member in a pension fund listed in section 356.30, subdivision 3,
63.23 before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a
63.24 higher annuity amount, in which case paragraph (d) applies. The retirement annuity
63.25 formula percentage for purposes of this paragraph is the 1.2 percent specified in section
63.26 ~~356.315, subdivision 1~~, per year for each year of coordinated service for the first ten
63.27 years and the 1.7 percent specified in section ~~356.315, subdivision 2~~, for each subsequent
63.28 year of coordinated service.

63.29 (d) This paragraph applies to a person who is at least 55 years old and who first
63.30 becomes a member after June 30, 1989, and to any other member who is at least 55 years
63.31 old and whose annuity amount, when calculated under this paragraph and in conjunction
63.32 with subdivision 7, is higher than it is when calculated under paragraph (c) in conjunction
63.33 with subdivision 6. The retirement annuity formula percentage for purposes of this
63.34 paragraph is the 1.7 percent specified in section ~~356.315, subdivision 2~~, for each year of
63.35 coordinated service.

64.1 Sec. 17. Minnesota Statutes 2012, section 356.30, subdivision 1, is amended to read:

64.2 Subdivision 1. **Eligibility; computation of annuity.** (a) Notwithstanding any
64.3 provisions of the laws governing the retirement plans enumerated in subdivision 3, a
64.4 person who has met the qualifications of paragraph (b) may elect to receive a retirement
64.5 annuity from each enumerated retirement plan in which the person has at least one-half
64.6 year of allowable service, based on the allowable service in each plan, subject to the
64.7 provisions of paragraph (c).

64.8 (b) A person may receive, upon retirement, a retirement annuity from each
64.9 enumerated retirement plan in which the person has at least one-half year of allowable
64.10 service, and augmentation of a deferred annuity calculated at the appropriate rate under
64.11 the laws governing each public pension plan or fund named in subdivision 3, based on
64.12 the date of the person's initial entry into public employment from the date the person
64.13 terminated all public service if:

64.14 (1) the person has allowable service in any two or more of the enumerated plans;

64.15 (2) the person has sufficient allowable service in total that equals or exceeds the
64.16 applicable service credit vesting requirement of the retirement plan with the longest
64.17 applicable service credit vesting requirement; and

64.18 (3) the person has not begun to receive an annuity from any enumerated plan or the
64.19 person has made application for benefits from each applicable plan and the effective
64.20 dates of the retirement annuity with each plan under which the person chooses to receive
64.21 an annuity are within a one-year period.

64.22 (c) The retirement annuity from each plan must be based upon the allowable service,
64.23 accrual rates, and average salary in the applicable plan except as further specified or
64.24 modified in the following clauses:

64.25 (1) the laws governing annuities must be the law in effect on the date of termination
64.26 from the last period of public service under a covered retirement plan with which the person
64.27 earned a minimum of one-half year of allowable service credit during that employment;

64.28 (2) the "average salary" on which the annuity from each covered plan in which
64.29 the employee has credit in a formula plan must be based on the employee's highest five
64.30 successive years of covered salary during the entire service in covered plans;

64.31 (3) the accrual rates to be used by each plan must be those percentages prescribed by
64.32 each plan's formula as continued for the respective years of allowable service from one
64.33 plan to the next, recognizing all previous allowable service with the other covered plans;

64.34 (4) the allowable service in all the plans must be combined in determining eligibility
64.35 for and the application of each plan's provisions in respect to reduction in the annuity
64.36 amount for retirement prior to normal retirement age; and

65.1 (5) the annuity amount payable for any allowable service under a nonformula plan
 65.2 of a covered plan must not be affected, but such service and covered salary must be used
 65.3 in the above calculation.

65.4 (d) This section does not apply to any person whose final termination from the last
 65.5 public service under a covered plan was before May 1, 1975.

65.6 (e) For the purpose of computing annuities under this section, the accrual rates
 65.7 used by any covered plan, except the public employees police and fire plan, the judges
 65.8 retirement fund, and the State Patrol retirement plan, must not exceed the 2.7 percent
 65.9 ~~specified in section 356.315, subdivision 4,~~ per year of service for any year of service or
 65.10 fraction thereof. The formula percentage used by the judges retirement fund must not
 65.11 exceed ~~the percentage rate specified in section 356.315, subdivision 8,~~ 3.2 percent per
 65.12 year of service for any year of service or fraction thereof. The accrual rate used by the
 65.13 public employees police and fire plan and the State Patrol retirement plan must not exceed
 65.14 ~~the percentage rate specified in section 356.315, subdivision 6,~~ 3.0 percent per year of
 65.15 service for any year of service or fraction thereof. The accrual rate or rates used by the
 65.16 legislators retirement plan must not exceed 2.5 percent, but this limit does not apply to the

75.13 Sec. 12. Minnesota Statutes 2012, section 69.021, subdivision 4, is amended to read:

75.14 Subd. 4. **Determination of qualified state aid recipients; certification to**
 75.15 **commissioner of management and budget.** (a) The commissioner shall determine
 75.16 which municipalities and independent nonprofit firefighting corporations are qualified to
 75.17 receive fire state aid directly or are qualified to receive the benefit of fire state aid paid
 75.18 to the voluntary statewide lump-sum volunteer firefighter retirement plan and which
 75.19 municipalities and counties are qualified to receive police state aid.

75.20 (b) The commissioner shall determine qualification for state aid upon receipt of:

75.21 (1) the fire department personnel and equipment certification or the police department
 75.22 and qualified peace officers certificate, whichever applies, required under section 69.011;

75.23 (2) the financial compliance report required under section 6.495, subdivision 3, if
 75.24 applicable; and

75.25 (3) any other relevant information which comes to the attention of the commissioner.

75.26 (c) Upon completion of the determination, on or before October 1, the commissioner
 75.27 shall calculate the amount of:

75.28 (1) the police state aid which each county or municipality is to receive under
 75.29 subdivisions 5, 6, 7a, and 10; and

75.30 (2) the fire state aid which each municipality or nonprofit firefighting corporation
 75.31 is to receive under subdivisions 5 and 7.

75.32 (d) The commissioner shall certify to the commissioner of management and budget
 75.33 the name of each county or municipality, and the amount of state aid which each county or
 75.34 municipality is to receive, in the case of police state aid. The commissioner shall certify to
 75.35 the commissioner of management and budget the name of each municipality or independent

76.1 nonprofit firefighting corporation and the amount of state aid which each municipality
76.2 or independent nonprofit firefighting corporation is to receive directly or the amount of
76.3 state aid which the voluntary statewide lump-sum volunteer firefighter retirement plan is
76.4 qualified to receive on behalf of the municipality or corporation, in the case of fire state aid.

76.5 Sec. 13. Minnesota Statutes 2012, section 69.021, subdivision 5, is amended to read:

76.6 Subd. 5. **Calculation of state aid.** (a) The amount of fire state aid available for
76.7 apportionment, before the addition of the minimum fire state aid allocation amount under
76.8 subdivision 7, is equal to 107 percent of the amount of premium taxes paid to the state
76.9 upon the fire, lightning, sprinkler leakage, and extended coverage premiums reported to
76.10 the commissioner by insurers on the Minnesota Firetown Premium Report. This amount
76.11 must be reduced by the amount required to pay the state auditor's costs and expenses of
76.12 the audits or exams of the firefighters relief associations.

76.13 The total amount for apportionment in respect to fire state aid must not be less than
76.14 two percent of the premiums reported to the commissioner by insurers on the Minnesota
76.15 Firetown Premium Report after subtracting the following amounts:

76.16 (1) the amount required to pay the state auditor's costs and expenses of the audits or
76.17 exams of the firefighters relief associations; and

76.18 (2) one percent of the premiums reported by town and farmers' mutual insurance
76.19 companies and mutual property and casualty companies with total assets of \$5,000,000 or
76.20 less.

76.21 (b) The total amount for apportionment as police state aid is equal to 104 percent
76.22 of the amount of premium taxes paid to the state on the premiums reported to the
76.23 commissioner by insurers on the Minnesota Aid to Police Premium Report, ~~reduced by~~
76.24 ~~the amount required to pay the costs and expenses of the state auditor for audits or exams~~
76.25 ~~of police relief associations~~. The total amount for apportionment in respect to the police
76.26 state aid program must not be less than two percent of the amount of premiums reported
76.27 to the commissioner by insurers on the Minnesota Aid to Police Premium Report after
76.28 ~~subtracting the amount required to pay the state auditor's cost and expenses of the audits~~
76.29 ~~or exams of the police relief associations~~.

76.30 (c) The commissioner shall calculate the percentage of increase or decrease reflected
76.31 in the apportionment over or under the previous year's available state aid using the same
76.32 premiums as a basis for comparison.

76.33 (d) In addition to the amount for apportionment of police state aid under paragraph
76.34 (b), each year \$100,000 must be apportioned for police state aid. An amount sufficient to
76.35 pay this increase is annually appropriated from the general fund.

77.1 Sec. 14. Minnesota Statutes 2012, section 69.021, subdivision 7, is amended to read:

77.2 Subd. 7. **Apportionment of fire state aid to municipalities and relief associations.**

77.3 (a) The commissioner shall apportion the fire state aid relative to the premiums reported
77.4 on the Minnesota Firetown Premium Reports filed under this chapter to each municipality
77.5 and/or firefighters relief association qualified under section 69.011, subdivision 4.

77.6 (b) The commissioner shall calculate an initial fire state aid allocation amount for each
77.7 municipality or fire department under paragraph (c) and, if applicable, a minimum fire state
77.8 aid allocation amount for each municipality or fire department under paragraph (d). The
77.9 municipality or fire department must ~~receive~~ be apportioned the larger fire state aid amount.

77.10 (c) The initial fire state aid allocation amount is the amount available for
77.11 apportionment as fire state aid under subdivision 5, without the inclusion of any additional
77.12 funding amount to support a minimum fire state aid amount under section 423A.02,
77.13 subdivision 3, allocated one-half in proportion to the population as shown in the last
77.14 official statewide federal census for each fire town and one-half in proportion to the market
77.15 value of each fire town, including (1) the market value of tax-exempt property and (2) the
77.16 market value of natural resources lands receiving in lieu payments under sections 477A.11
77.17 to 477A.14, but excluding the market value of minerals. In the case of incorporated or
77.18 municipal fire departments furnishing fire protection to other cities, towns, or townships
77.19 as evidenced by valid fire service contracts filed with the commissioner, the distribution
77.20 must be adjusted proportionately to take into consideration the crossover fire protection
77.21 service. Necessary adjustments must be made to subsequent apportionments. In the case
77.22 of municipalities or independent fire departments qualifying for the aid, the commissioner
77.23 shall calculate the state aid for the municipality or relief association on the basis of the
77.24 population and the market value of the area furnished fire protection service by the fire
77.25 department as evidenced by duly executed and valid fire service agreements filed with the
77.26 commissioner. If one or more fire departments are furnishing contracted fire service to a
77.27 city, town, or township, only the population and market value of the area served by each
77.28 fire department may be considered in calculating the state aid and the fire departments
77.29 furnishing service shall enter into an agreement apportioning among themselves the
77.30 percent of the population and the percent of the market value of each shared service area.
77.31 The agreement must be in writing and must be filed with the commissioner.

77.32 (d) The minimum fire state aid allocation amount is the amount in addition to the
77.33 initial fire state allocation amount that is derived from any additional funding amount
77.34 to support a minimum fire state aid amount under section 423A.02, subdivision 3, and
77.35 allocated to municipalities with volunteer firefighters relief associations or covered by the
77.36 voluntary statewide lump-sum volunteer firefighter retirement plan based on the number

78.1 of active volunteer firefighters who are members of the relief association as reported
78.2 in the annual financial reporting for the calendar year 1993 to the Office of the State
78.3 Auditor, but not to exceed 30 active volunteer firefighters, so that all municipalities or
78.4 fire departments with volunteer firefighters relief associations receive in total at least a
78.5 minimum fire state aid amount per 1993 active volunteer firefighter to a maximum of
78.6 30 firefighters. If a relief association is established after calendar year 1993 and before
78.7 calendar year 2000, the number of active volunteer firefighters who are members of the
78.8 relief association as reported in the annual financial reporting for calendar year 1998
78.9 to the Office of the State Auditor, but not to exceed 30 active volunteer firefighters,
78.10 shall be used in this determination. If a relief association is established after calendar
78.11 year 1999, the number of active volunteer firefighters who are members of the relief
78.12 association as reported in the first annual financial reporting submitted to the Office of
78.13 the State Auditor, but not to exceed 20 active volunteer firefighters, must be used in this
78.14 determination. If a relief association is terminated as a result of providing retirement
78.15 coverage for volunteer firefighters by the voluntary statewide lump-sum volunteer
78.16 firefighter retirement plan under chapter 353G, the number of active volunteer firefighters
78.17 of the municipality covered by the statewide plan as certified by the executive director of
78.18 the Public Employees Retirement Association to the commissioner and the state auditor,
78.19 but not to exceed 30 active firefighters, must be used in this determination.

78.20 (e) Unless the firefighters of the applicable fire department are members of the
78.21 voluntary statewide lump-sum volunteer firefighter retirement plan, the fire state aid must
78.22 be paid to the treasurer of the municipality where the fire department is located and the
78.23 treasurer of the municipality shall, within 30 days of receipt of the fire state aid, transmit
78.24 the aid to the relief association if the relief association has filed a financial report with the
78.25 treasurer of the municipality and has met all other statutory provisions pertaining to the
78.26 aid apportionment. If the firefighters of the applicable fire department are members of
78.27 the voluntary statewide lump-sum volunteer firefighter retirement plan, the fire state aid
78.28 must be paid to the executive director of the Public Employees Retirement Association
78.29 and deposited in the voluntary statewide lump-sum volunteer firefighter retirement fund.

78.30 (f) The commissioner may make rules to permit the administration of the provisions
78.31 of this section.

78.32 (g) Any adjustments needed to correct prior misallocations must be made to
78.33 subsequent fire state aid apportionments.

78.34 Sec. 15. Minnesota Statutes 2012, section 69.021, subdivision 7a, is amended to read:

79.1 Subd. 7a. **Apportionment of police state aid.** (a) Subject to the reduction provided
 79.2 for under subdivision 10, the commissioner shall apportion the police state aid to each

 79.8 determined under section 69.011, subdivision 1, ~~clause paragraph~~ (g), and subdivision 2,
 79.9 ~~clause paragraph~~ (b), employed by that employing unit for 12 calendar months and the
 79.10 proportional or fractional number who were employed less than 12 months bears to the total
 79.11 number of peace officers employed by all municipalities ~~and~~, counties, the Departments of
 79.12 Natural Resources and Public Safety, subject to any reduction under subdivision 10;

79.13 (2) for each municipality which contracts with the county for police service, a
 79.14 proportionate amount of the state aid distributed to the county based on the full-time
 79.15 equivalent number of peace officers providing contract service to that municipality must
 79.16 be credited against the municipality's contract obligation; and

79.17 (3) for each municipality which contracts with another municipality for police
 79.18 service, a proportionate amount of the state aid distributed to the municipality providing
 79.19 contract service based on the full-time equivalent number of peace officers providing
 79.20 contract service to that municipality on a full-time equivalent basis must be credited

 79.23 aid apportionments.

79.24 Sec. 16. Minnesota Statutes 2012, section 69.021, subdivision 8, is amended to read:

 79.26 requiring the use of population figures, only official statewide federal census figures ~~are~~

 79.28 census must not be taken into consideration.

79.29 (b) In calculations relating to fire state aid requiring the use of market value property
 79.30 figures, only the latest available market value property figures may be used.

79.31 Sec. 17. Minnesota Statutes 2012, section 69.021, subdivision 9, is amended to read:

79.32 Subd. 9. **Appeal.** (a) In the event that a municipality, a county, a fire relief
 79.33 association, ~~a police relief association,~~ the Department of Natural Resources, the
 79.34 Department of Public Safety, or the voluntary statewide lump-sum volunteer firefighter

80.1 retirement plan, feels itself to be aggrieved, it may request the commissioner to review
 80.2 and adjust the apportionment of funds within the county in the case of police state aid, or
 80.3 within the state in the case of fire state aid.

80.4 (b) The decision of the commissioner is subject to appeal, review, and adjustment by
 80.5 the district court in the county in which the applicable municipality, or fire department,

108.31 executive director to be ineligible;

108.32 (3) the amount equal to that which the employing governmental subdivision would
108.33 otherwise pay toward single or family insurance coverage for a covered employee when,

109.19 Sec. 52. Minnesota Statutes 2012, section 353.01, subdivision 16, is amended to read:

109.20 Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service"
109.21 means:

109.22 (1) service during years of actual membership in the course of which employee
109.23 deductions were withheld from salary and contributions were made at the applicable rates
109.24 under section 353.27, 353.65, or 353E.03;

109.25 (2) periods of service covered by payments in lieu of salary deductions under
109.26 sections 353.27, subdivision 12, and 353.35;

109.27 (3) service in years during which the public employee was not a member but for
109.28 which the member later elected, while a member, to obtain credit by making payments to
109.29 the fund as permitted by any law then in effect;

109.30 (4) a period of authorized leave of absence with pay from which deductions for
109.31 employee contributions are made, deposited, and credited to the fund;

109.32 (5) a period of authorized personal, parental, or medical leave of absence without
109.33 pay, including a leave of absence covered under the federal Family Medical Leave Act,
109.34 that does not exceed one year, and for which a member obtained service credit for each
109.35 month in the leave period by payment under section 353.0161 to the fund made in place of

110.1 salary deductions. An employee must return to public service and render a minimum of
110.2 three months of allowable service in order to be eligible to make payment under section
110.3 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the
110.4 employee must be granted allowable service credit for the purchased period;

110.5 (6) a periodic, repetitive leave that is offered to all employees of a governmental
110.6 subdivision. The leave program may not exceed 208 hours per annual normal work cycle
110.7 as certified to the association by the employer. A participating member obtains service
110.8 credit by making employee contributions in an amount or amounts based on the member's
110.9 average salary, excluding overtime pay, that would have been paid if the leave had not been
110.10 taken. The employer shall pay the employer and additional employer contributions on
110.11 behalf of the participating member. The employee and the employer are responsible to pay
110.12 interest on their respective shares at the rate of 8.5 percent a year, compounded annually,
110.13 from the end of the normal cycle until full payment is made. An employer shall also make
110.14 the employer and additional employer contributions, plus 8.5 percent interest, compounded
110.15 annually, on behalf of an employee who makes employee contributions but terminates
110.16 public service. The employee contributions must be made within one year after the end of
110.17 the annual normal working cycle or within 30 days after termination of public service,
110.18 whichever is sooner. The executive director shall prescribe the manner and forms to be
110.19 used by a governmental subdivision in administering a periodic, repetitive leave. Upon
110.20 payment, the member must be granted allowable service credit for the purchased period;

110.21 (7) an authorized temporary or seasonal layoff under subdivision 12, limited to three
110.22 months allowable service per authorized temporary or seasonal layoff in one calendar year.
110.23 An employee who has received the maximum service credit allowed for an authorized
110.24 temporary or seasonal layoff must return to public service and must obtain a minimum of
110.25 three months of allowable service subsequent to the layoff in order to receive allowable
110.26 service for a subsequent authorized temporary or seasonal layoff;

110.27 (8) a period during which a member is absent from employment by a governmental
110.28 subdivision by reason of service in the uniformed services, as defined in United States
110.29 Code, title 38, section 4303(13), if the member returns to public service with the same
110.30 governmental subdivision upon discharge from service in the uniformed service within the
110.31 time frames required under United States Code, title 38, section 4312(e), provided that
110.32 the member did not separate from uniformed service with a dishonorable or bad conduct
110.33 discharge or under other than honorable conditions. The service must be credited if the
110.34 member pays into the fund equivalent employee contributions based upon the contribution
110.35 rate or rates in effect at the time that the uniformed service was performed multiplied by
110.36 the full and fractional years being purchased and applied to the annual salary rate. The

111.1 annual salary rate is the average annual salary, excluding overtime pay, during the purchase
111.2 period that the member would have received if the member had continued to be employed
111.3 in covered employment rather than to provide uniformed service, or, if the determination
111.4 of that rate is not reasonably certain, the annual salary rate is the member's average salary
111.5 rate, excluding overtime pay, during the 12-month period of covered employment rendered
111.6 immediately preceding the period of the uniformed service. Payment of the member
111.7 equivalent contributions must be made during a period that begins with the date on which
111.8 the individual returns to public employment and that is three times the length of the
111.9 military leave period, or within five years of the date of discharge from the military service,
111.10 whichever is less. If the determined payment period is less than one year, the contributions
111.11 required under this clause to receive service credit may be made within one year of the
111.12 discharge date. Payment may not be accepted following 30 days after termination of
111.13 public service under subdivision 11a. If the member equivalent contributions provided for
111.14 in this clause are not paid in full, the member's allowable service credit must be prorated
111.15 by multiplying the full and fractional number of years of uniformed service eligible for
111.16 purchase by the ratio obtained by dividing the total member contributions received by the
111.17 total member contributions otherwise required under this clause. The equivalent employer
111.18 contribution, and, if applicable, the equivalent additional employer contribution must be
111.19 paid by the governmental subdivision employing the member if the member makes the
111.20 equivalent employee contributions. The employer payments must be made from funds
111.21 available to the employing unit, using the employer and additional employer contribution
111.22 rate or rates in effect at the time that the uniformed service was performed, applied to the
111.23 same annual salary rate or rates used to compute the equivalent member contribution. The
111.24 governmental subdivision involved may appropriate money for those payments. The
111.25 amount of service credit obtainable under this section may not exceed five years unless a
111.26 longer purchase period is required under United States Code, title 38, section 4312. The
111.27 employing unit shall pay interest on all equivalent member and employer contribution
111.28 amounts payable under this clause. Interest must be computed at a rate of 8.5 percent
111.29 compounded annually from the end of each fiscal year of the leave or the break in service
111.30 to the end of the month in which the payment is received. Upon payment, the employee
111.31 must be granted allowable service credit for the purchased period; or
111.32 (9) a period specified under section 353.0162.
111.33 (b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for
111.34 state officers and employees displaced by the Community Corrections Act, chapter 401,
111.35 and transferred into county service under section 401.04, "allowable service" means the

112.1 combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and
 112.2 section 352.01, subdivision 11.

112.3 ~~(e) For a public employee who has prior service covered by a local police or~~
 112.4 ~~firefighters relief association that has consolidated with the Public Employees Retirement~~
 112.5 ~~Association under chapter 353A or to which section 353.665 applies, and who has~~
 112.6 ~~elected the type of benefit coverage provided by the public employees police and fire~~
 112.7 ~~fund either under section 353A.08 following the consolidation or under section 353.665,~~
 112.8 ~~subdivision 4, "allowable service" is a period of service credited by the local police or~~
 112.9 ~~firefighters relief association as of the effective date of the consolidation based on law~~
 112.10 ~~and on bylaw provisions governing the relief association on the date of the initiation~~
 112.11 ~~of the consolidation procedure.~~

112.12 ~~(d)~~ (c) No member may receive more than 12 months of allowable service credit in a
 112.13 year either for vesting purposes or for benefit calculation purposes. For an active member
 112.14 who was an active member of the former Minneapolis Firefighters Relief Association
 112.15 on December 29, 2011, "allowable service" is the period of service credited by the
 112.16 Minneapolis Firefighters Relief Association as reflected in the transferred records of the
 112.17 association up to December 30, 2011, and the period of service credited under paragraph
 112.18 (a), clause (1), after December 30, 2011. For an active member who was an active member
 112.19 of the former Minneapolis Police Relief Association on December 29, 2011, "allowable
 112.20 service" is the period of service credited by the Minneapolis Police Relief Association as
 112.21 reflected in the transferred records of the association up to December 30, 2011, and the
 112.22 period of service credited under paragraph (a), clause (1), after December 30, 2011.

132.32 (1) with respect to a defined benefit relief association in which governing bylaws
 132.33 provide solely for a lump-sum service pension to a retiring member, or provide a retiring
 132.34 member the choice of either a lump-sum service pension or a monthly service pension

133.1 and the lump-sum service pension was chosen, no ancillary benefit may be paid to any
133.2 former member or paid to any person on behalf of any former member after the former

133.33 wholly or partially, the spouse's entitlement to a survivor benefit.

133.34 (4)(i) If a monthly benefit survivor or death benefit is payable under the articles of
133.35 incorporation or bylaws, the benefit must be paid:

133.36 (A) as a survivor benefit to the surviving spouse of the deceased firefighter;

134.1 (B) as a survivor benefit to the surviving children of the deceased firefighter if
 134.2 no surviving spouse;

 134.4 surviving spouse or surviving children; or

134.5 (D) as a death benefit to the estate of the deceased active or deferred firefighter if no
 134.6 surviving spouse, no surviving children, and no beneficiary designated.

 134.11 limit the total survivor benefit amount payable.

134.12 (5) For purposes of this section, for a monthly benefit volunteer fire relief association
 134.13 or for a combination lump-sum and monthly benefit volunteer fire relief association where
 134.14 a monthly benefit service pension has been elected by or a monthly benefit is payable with
 134.15 respect to a firefighter, a designated beneficiary must be a natural person. For purposes
 134.16 of this section, for a lump-sum volunteer fire relief association or for a combination
 134.17 lump-sum and monthly benefit volunteer fire relief association where a lump-sum service
 134.18 pension has been elected by or a lump-sum benefit is payable with respect to a firefighter,

138.26 Subd. 6. **Return to active firefighting after break in service.** (a) The requirements
 138.27 of This section apply subdivision applies to all breaks in service, except ~~breaks in~~ that the
 138.28 resumption service ~~mandated by~~ requirements of this subdivision do not apply to leaves
 138.29 of absence made available by ~~federal or~~ statute, such as the Family Medical Leave Act,
 138.30 United States Code, title 29, section 2691, and the Uniformed Services Employment and
 138.31 Reemployment Rights Act, United States Code, title 38, section 4301, and do not apply
 138.32 to leaves of absence made available by ~~state law~~ statute, such as the Parental Leave Act,
 138.33 section 181.941; the Leave for Organ Donations Act, section 181.9456; the Leave for

139.1 Civil Air Patrol Service Act, section 181.946; the Leave for Immediate Family Members
139.2 of Military Personnel Injured or Killed in Active Service Act, section 181.947; or the
139.3 Protection of Jurors' Employment Act, section 593.50.

139.4 (b)(1) If a firefighter who has ceased to perform or supervise fire suppression and
139.5 fire prevention duties for at least 60 days resumes performing active firefighting with the
139.6 fire department associated with the relief association, if the bylaws of the relief association
139.7 so permit, the firefighter may again become an active member of the relief association. A
139.8 firefighter who returns to active service and membership is subject to the service pension
139.9 calculation requirements under this section.

139.10 (2) A firefighter who has been granted an approved leave of absence not exceeding
139.11 one year by the fire department or by the relief association is exempt from the minimum
139.12 period of resumption service requirement of this section.

139.13 (3) A person who has a break in service not exceeding one year but has not been
139.14 granted an approved leave of absence and who has not received a service pension or
139.15 disability benefit may be made exempt from the minimum period of resumption service
139.16 requirement of this section by the relief association bylaws.

139.17 (4) If the bylaws so provide, a firefighter who returns to active relief association
139.18 membership under this paragraph may continue to collect a monthly service pension,
139.19 notwithstanding the service pension eligibility requirements under chapter 424A.

139.20 (c) If a former firefighter who has received a service pension or disability benefit
139.21 returns to active relief association membership under paragraph (b), the firefighter may
139.22 qualify for the receipt of a service pension from the relief association for the resumption
139.23 service period if the firefighter meets the service requirements of section 424A.016,
139.24 subdivision 3, or 424A.02, subdivision 2. No firefighter may be paid a service pension
139.25 more than once for the same period of service.

139.26 (d) If a former firefighter who has not received a service pension or disability benefit
139.27 returns to active relief association membership under paragraph (b), the firefighter may
139.28 qualify for the receipt of a service pension from the relief association for the original and
139.29 resumption service periods if the firefighter meets the service requirements of section
139.30 424A.016, subdivision 3, or 424A.02, subdivision 2, based on the original and resumption
139.31 years of service credit.

139.32 (e) A firefighter who returns to active lump-sum relief association membership under
139.33 paragraph (b) and who qualifies for a service pension under paragraph (c) must have,
139.34 upon a subsequent cessation of duties, any service pension for the resumption service
139.35 period calculated as a separate benefit. If a lump-sum service pension had been paid to the
139.36 firefighter upon the firefighter's previous cessation of duties, a second lump-sum service

140.1 pension for the resumption service period must be calculated by applying the service
140.2 pension amount in effect on the date of the firefighter's termination of the resumption
140.3 service for all years of the resumption service.

140.4 (f) A firefighter who had not been paid a lump-sum service pension returns to active
140.5 relief association membership under paragraph (b), who did not meet the minimum period
140.6 of resumption service requirement specified in the relief association's bylaws, but who
140.7 does meet the minimum service requirement of section 424A.02, subdivision 2, based
140.8 on the firefighter's original and resumption years of active service, must have, upon a
140.9 subsequent cessation of duties, a service pension for the original and resumption service
140.10 periods calculated by applying the service pension amount in effect on the date of the
140.11 firefighter's termination of the resumption service, or, if the bylaws so provide, based on
140.12 the service pension amount in effect on the date of the firefighter's previous cessation
140.13 of duties. The service pension for a firefighter who returns to active lump-sum relief
140.14 association membership under this paragraph, but who had met the minimum period
140.15 of resumption service requirement specified in the relief association's bylaws, must be
140.16 calculated by applying the service pension amount in effect on the date of the firefighter's
140.17 termination of the resumption service.

140.18 (g) If a firefighter receiving a monthly benefit service pension returns to active
140.19 monthly benefit relief association membership under paragraph (b), and if the relief
140.20 association bylaws do not allow for the firefighter to continue collecting a monthly service
140.21 pension, any monthly benefit service pension payable to the firefighter is suspended as
140.22 of the first day of the month next following the date on which the firefighter returns to
140.23 active membership. If the firefighter was receiving a monthly benefit service pension,
140.24 and qualifies for a service pension under paragraph (c), the firefighter is entitled to
140.25 an additional monthly benefit service pension upon a subsequent cessation of duties
140.26 calculated based on the resumption service credit and the service pension accrual amount
140.27 in effect on the date of the termination of the resumption service. A suspended initial
140.28 service pension resumes as of the first of the month next following the termination of the
140.29 resumption service. If the firefighter was not receiving a monthly benefit service pension
140.30 and meets the minimum service requirement of section 424A.02, subdivision 2, a service
140.31 pension must be calculated by applying the service pension amount in effect on the date of
140.32 the firefighter's termination of the resumption service for all years of service credit.

140.33 (h) A firefighter who was not receiving a monthly benefit service pension returns to
140.34 active relief association membership under paragraph (b), who did not meet the minimum
140.35 period of resumption service requirement specified in the relief association's bylaws, but
140.36 who does meet the minimum service requirement of section 424A.02, subdivision 2,

141.1 based on the firefighter's original and resumption years of active service, must have,
 141.2 upon a subsequent cessation of duties, a service pension for the original and resumption
 141.3 service periods calculated by applying the service pension amount in effect on the date of
 141.4 the firefighter's termination of the resumption service, or, if the bylaws so provide, based
 141.5 on the service pension amount in effect on the date of the firefighter's previous cessation
 141.6 of duties. The service pension for a firefighter who returns to active relief association
 141.7 membership under this paragraph, but who had met the minimum period of resumption
 141.8 service requirement specified in the relief association's bylaws, must be calculated by
 141.9 applying the service pension amount in effect on the date of the firefighter's termination of
 141.10 the resumption service.

141.11 (i) For defined contribution plans, a firefighter who returns to active relief
 141.12 association membership under paragraph (b) and who qualifies for a service pension
 141.13 under paragraph (c) or (d) must have, upon a subsequent cessation of duties, any service
 141.14 pension for the resumption service period calculated as a separate benefit. If a service
 141.15 pension had been paid to the firefighter upon the firefighter's previous cessation of duties,
 141.16 and if the firefighter meets the minimum service requirement of section 424A.016,
 141.17 subdivision 3, based on the resumption years of service, a second service pension for
 141.18 the resumption service period must be calculated to include allocations credited to the
 141.19 firefighter's individual account during the resumption period of service and deductions
 141.20 for administrative expenses, if applicable.

141.21 (j) For defined contribution plans, if a firefighter who had not been paid a service
 141.22 pension returns to active relief association membership under paragraph (b), and who
 141.23 meets the minimum service requirement of section 424A.016, subdivision 3, based on
 141.24 the firefighter's original and resumption years of service, must have, upon a subsequent
 141.25 cessation of duties, a service pension for the original and resumption service periods
 141.26 calculated to include allocations credited to the firefighter's individual account during
 141.27 the original and resumption period periods of service and deductions for administrative
 141.28 expenses, if applicable, less any amounts previously forfeited under section 424A.016,
 141.29 subdivision 4.

141.31 Sec. 6. Minnesota Statutes 2012, section 424A.015, subdivision 1, is amended to read:

141.32 Subdivision 1. **Separation from active service; exception.** (a) No service pension
 141.33 is payable to a person while the person remains an active member of the respective fire
 141.34 department, and a person who is receiving a service pension is not entitled to receive any
 141.35 other benefits from the special fund of the relief association.

142.1 (b) No relief association as defined in section 424A.001, subdivision 4, may pay a
 142.2 service pension or disability benefit to a former member of the relief association if that
 142.3 person has not separated from active service with the fire department to which the relief
 142.4 association is directly associated, unless:

142.9 (2) the governing body of the municipality or of the corporation has filed its
 142.10 determination with the board of trustees of the relief association that the person's
 142.11 experience with and service to the fire department in that person's full-time capacity
 142.12 would be difficult to replace; and

142.13 (3) the bylaws of the relief association were amended to provide for the payment of
 142.14 a service pension or disability benefit for such full-time employees.

142.15 **EFFECTIVE DATE.** This section is effective the day following final enactment.

142.16 Sec. 7. Minnesota Statutes 2012, section 424A.015, subdivision 4, is amended to read:

142.27 Subd. 6. **Deferred service pensions.** (a) A member of a relief association is entitled

143.13 if the deferred benefit amount is invested by the relief association in a separate account
143.14 established and maintained by the relief association;

143.26 date, the interest or additional investment performance on a deferred service pension
143.27 is creditable as follows:

143.28 (1) for a relief association that has elected to pay interest or additional investment

145.24 separates from active service and membership and ending on the date that the separate
145.25 investment vehicle is valued immediately before the date on which the deferred member
145.26 commences receipt of the deferred service pension.

145.27 ~~(f)~~ (g) For a deferred service pension that is transferred to a separate account
145.28 established and maintained by the relief association or separate investment vehicle held
145.29 by the relief association, the deferred member bears the full investment risk subsequent

158.8 the schedule for implementation of the approved factors; and notify the Legislative
158.9 Commission on Pensions and Retirement of the implementation schedule.

158.10 (b) In passing upon all applications and claims, the board may summon, swear, hear,
158.11 and examine witnesses and, in the case of claims for disability benefits, may require the
158.12 claimant to submit to a medical examination by a physician of the board's choice, at the
158.13 expense of the fund, as a condition precedent to the passing on the claim, and, in the
158.14 case of all applications and claims, may conduct investigations necessary to determine
158.15 their validity and merit.

158.16 (c) The board may continue to authorize the sale of life insurance to members under
158.17 the insurance program in effect on January 1, 1985, but must not change that program
158.18 without the approval of the commissioner of management and budget. The association
158.19 shall not receive any financial benefit from the life insurance program beyond the amount
158.20 necessary to reimburse the association for costs incurred in administering the program.
158.21 The association shall not engage directly or indirectly in any other activity involving the
158.22 sale or promotion of goods or services, or both, whether to members or nonmembers.

158.23 (d) The board shall establish procedures governing reimbursement of expenses
158.24 to board members. These procedures must define the types of activities and expenses
158.25 that qualify for reimbursement, must provide that all out-of-state travel be authorized
158.26 by the board, and must provide for the independent verification of claims for expense
158.27 reimbursement. The procedures must comply with the applicable rules and policies of the
158.28 Department of Management and Budget and the Department of Administration.

158.29 (e) The board may purchase fiduciary liability insurance and official bonds for the
158.30 officers and members of the board of trustees and employees of the association and may
158.31 purchase property insurance or may establish a self-insurance risk reserve including, but
158.32 not limited to, data processing insurance and "extra-expense" coverage.

158.33 Sec. 4. Minnesota Statutes 2012, section 354.07, subdivision 1, is amended to read:

158.34 Subdivision 1. **General powers of board.** The board has the power to frame bylaws
158.35 for its own government and for the management of the association not inconsistent with

159.1 the laws of the state and to modify them at its pleasure; to adopt, alter, and enforce
159.2 reasonable rules not inconsistent with the laws of the state for the administration and
159.3 management of the association, for the payment and collection of payments from
159.4 members, and for the payment of withdrawals and benefits; to pass upon and allow or
159.5 disallow applications for membership in the association and for credit for teaching service;
159.6 to pass upon and allow or disallow claims for withdrawals, pensions, or benefits payable

159.9 postretirement interest assumption specified in section 356.215, subdivision 8; to approve
159.10 early retirement and optional annuity factors, subject to review by the actuary retained by
159.11 the Legislative Commission on Pensions and Retirement; to establish the schedule for
159.12 implementation of the approved factors; to notify the Legislative Commission on Pensions
159.13 and Retirement of the implementation schedule; and to provide for the payment out of
159.14 the fund of necessary expenses for the administration by the association and of claims for
159.15 withdrawals, pensions, or benefits allowed.

159.16 Sec. 5. Minnesota Statutes 2012, section 354A.021, subdivision 2, is amended to read:

159.17 Subd. 2. **Organization; board duties.** (a) Each teachers retirement fund association
159.18 shall be organized and governed pursuant to this chapter and chapter 317A, except that
159.19 each association shall be deemed to be a nonprofit corporation without coming within
159.20 the definition in section 317A.011, subdivision 6. Any corporate action of any teachers
159.21 retirement fund association taken prior to April 9, 1976, shall be deemed to be valid if it
159.22 conformed with Minnesota Statutes 1976, chapter 317 or 354A, or Revised Laws 1905,
159.23 chapter 58, as amended through April 9, 1976.

The retirement allowance is payable monthly to the recipients entitled to those retirement allowances.

69.021 REPORTING PREMIUMS; CALCULATION OF AID.

Subd. 6. **Calculation of apportionment of police state aid to counties.** The police state aid available must be distributed to the counties in proportion to the relationship that the total number of active peace officers, as defined in section 69.011, subdivision 1, clause (g), in each county who are employed either by municipalities maintaining police departments or by the county, bears to the total number of peace officers employed by all municipalities and counties, subject to any reduction under subdivision 10. Any necessary additional adjustments shall be made to subsequent apportionments.

69.77 BLOOMINGTON FIREFIGHTERS RELIEF ASSOCIATION.

Subd. 3. **Minimum member contribution.** Each active member of the relief association must pay into the special fund of the association during a year of covered service, a contribution for retirement coverage, including survivorship benefits, of not less than eight percent of the maximum rate of salary upon which retirement coverage is credited and service pension and retirement benefit amounts are determined. The member contributions must be made by payroll deduction from the salary of the member by the municipality, and must be transmitted by the municipality to the relief association as soon as practical. The relief association shall deposit the member contribution to the credit of the special fund of the relief association. The member contribution requirement specified in this subdivision does not apply to any members who are volunteer firefighters.

352.955 TRANSFER OF PRIOR MSRS-GENERAL SERVICE CREDIT.

Subd. 2. **Payment of additional equivalent contributions; pre-July 1, 2007, coverage transfers.** (a) An eligible employee who was transferred to plan coverage before July 1, 2007, and who elects to transfer past service credit under this section must pay an additional member contribution for that prior service period. The additional member contribution is the difference between the member contribution rate or rates for the general state employees retirement plan of the Minnesota State Retirement System for the period of employment covered by the service credit to be transferred and the member contribution rate or rates for the correctional state employees retirement plan for the period of employment covered by the service credit to be transferred, plus annual compound interest at the rate of 8.5 percent.

(b) The additional equivalent member contribution under this subdivision must be paid in a lump sum. Payment must accompany the election to transfer the prior service credit. No transfer election or additional equivalent member contribution payment may be made by a person or accepted by the executive director after January 1, 2008, or the date on which the eligible employee terminates state employment, whichever is earlier.

(c) If an eligible employee elects to transfer past service credit under this section and pays the additional equivalent member contribution amount under paragraphs (a) and (b), the applicable department shall pay an additional equivalent employer contribution amount. The additional employer contribution is the difference between the employer contribution rate or rates for the general state employees retirement plan for the period of employment covered by the service credit to be transferred and the employer contribution rate or rates for the correctional state employees retirement plan for the period of employment covered by the service credit to be transferred, plus annual compound interest at the rate of 8.5 percent.

(d) The additional equivalent employer contribution under this subdivision must be paid in a lump sum and must be paid within 30 days of the date on which the executive director of the Minnesota State Retirement System certifies to the applicable department that the employee paid the additional equivalent member contribution.

352C.001 RETIREMENT PLAN; APPLICATION.

APPENDIX

Repealed Minnesota Statutes: H0629-1

(a) The retirement plan applicable to a former constitutional officer who was first elected to a constitutional office after July 1, 1967, and before July 1, 1997, is the applicable portions of this chapter and chapter 356 in effect on the date on which the person terminated active service as a constitutional officer.

(b) Nothing in this section, section 352C.091, subdivision 1, or Laws 2006, chapter 271, article 10, section 33, subdivision 2, is intended to reduce the benefits of former constitutional officers or to adversely modify their eligibility for benefits in effect as of June 30, 2006.

352C.091 ADMINISTRATION.

Subdivision 1. **Administrative agency and standards.** (a) The elected officers retirement plan must be administered by the board of directors and the executive director of the Minnesota State Retirement System.

(b) The elected state officers retirement plan must be administered consistent with the applicable statutory provisions governing the plan and chapters 356 and 356A.

352C.10 BENEFIT ADJUSTMENTS.

Retirement allowances payable to retired constitutional officers and surviving spouse benefits payable must be adjusted under section 356.415.

353.29 RETIREMENT ANNUITY UPON TERMINATION OF MEMBERSHIP.

Subd. 6. **Retirement before eligibility for Social Security benefits.** A member or former member who retires before becoming eligible for Social Security retirement benefits may elect to receive an optional retirement annuity from the association that provides for different annuity amounts over different periods of retirement. The election of this optional retirement annuity must be exercised by making application to the board of trustees. The optional annuity must take the form of an annuity payable for the period before the annuitant becomes eligible for Social Security old age retirement benefits in a greater amount than the amount of the annuity calculated under subdivisions 2 and 3 on the basis of the age of the annuitant at retirement. The optional annuity must be the actuarial equivalent of the normal retirement annuity computed on the basis of age at retirement. This greater amount must be paid until the annuitant reaches age 62, at which time the payment from the association must be reduced. The board of trustees shall establish the method of computing the optional retirement annuity under this subdivision. In establishing the method of computing the optional retirement annuity, the board of trustees shall obtain the written approval of the actuary retained under section 356.214. The recommendations must be a part of the permanent records of the board of trustees.

353.64 MEMBERSHIP; QUALIFICATIONS; POLICE OFFICER, FIREFIGHTER.

Subd. 3. **Police and fire fund membership; exclusion.** A police officer or firefighter employed by a governmental subdivision who by virtue of that employment is required by law to be a member of and to contribute to any police or firefighter relief association governed by section 69.77 which has not consolidated with the public employees police and fire plan is not eligible to become a member of the public employees police and fire plan.

353.665 MERGER OF CERTAIN CONSOLIDATION ACCOUNTS INTO PERA-P&F.

Subd. 2. **Transfer of liabilities.** Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), all current and future liabilities of a former local police or fire consolidation account are the liabilities of the public employees police and fire fund as of July 1, 1999, and the accrued benefits of the members are the obligation of the public employees police and fire fund.

Subd. 3. **Transfer of assets.** Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), the assets of the former local police or fire consolidation account must be transferred and upon transfer, the actuarial value of the assets of a former local police or fire consolidation account less an amount equal to the residual assets as determined under subdivision 7, paragraph (f), are the assets of the public employees police and fire fund as of July 1, 1999. The assets, excluding the amounts for distribution under subdivision 7, paragraph (f), become an asset of the public employees police and fire fund. The public

APPENDIX

Repealed Minnesota Statutes: H0629-1

employees police and fire fund also must be credited as an asset with the amount of receivable assets under subdivision 7, paragraph (e).

Subd. 4. Benefit coverage for active members. (a) A person who is a police officer or a firefighter who, as such, is an active member of a merging local police or fire consolidation account on June 30, 1999, and who has not previously elected benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan under section 353A.08, subdivision 3, may elect benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan. This election must be made in writing on a form prescribed by the executive director before September 1, 1999, and is irrevocable.

(b) If an eligible person makes no affirmative election of benefit coverage before September 1, 1999, the person retains the benefit coverage provided by the relief association benefit plan as reflected in the applicable provisions of chapter 353B and may elect benefit coverage under the relevant provisions of the public employees police and fire fund benefit plan when the person terminates active employment for purposes of receiving a service pension, disability benefit, or within 90 days of the date the member terminates active employment and defers receipt of a service pension, whichever applies.

(c) Notwithstanding any provision of section 353A.083 and any municipal action under authority of that statute to the contrary, the provisions of the public employees police and fire fund benefit plan applicable to active members of the merging local police or fire consolidation accounts who elect the public employees police and fire fund benefit plan under section 353A.08, subdivision 3, or paragraph (a), are the applicable provisions of sections 353.63 to 353.659.

Subd. 6. Benefit coverage for deferred members. A person who terminated before July 1, 1999, active employment as a police officer or a firefighter that gave rise to membership in a local relief association that has consolidated with the public employees police and fire plan under chapter 353A and is merging under this section and who had sufficient service credit to entitle the person to an eventual service pension retains the benefit plan as reflected in the applicable provisions of chapter 353B, except that the deferred member may elect before September 1, 1999, to participate, upon retirement, in the Minnesota postretirement investment fund. Any election to participate in the Minnesota postretirement investment fund is applicable to any survivor benefit attributable to a deferred member covered by this subdivision.

Subd. 7. Calculation of final funded status. (a) As of June 30, 1999, the actuary retained under section 356.214 shall determine the final funded status of local police and fire consolidation accounts under chapter 353A that the applicable municipality has not elected to retain under subdivision 1, paragraph (b), as provided in this subdivision.

(b) The final funded status calculation must be made using the benefit plan provisions applicable to the consolidation account and the actuarial assumptions used for the June 30, 1998, actuarial valuation of the account.

(c) The actuary must calculate the total actuarial accrued liability of the consolidation account, which is the sum of the actuarial accrued liability for all consolidation account members who are not included in the participation of the account in the Minnesota postretirement investment fund calculated using the entry age normal actuarial cost method. If local legislation enacted during the 1999 regular session or any special session occurring before October 1, 1999, provides a benefit increase for one consolidation account member or more, whether the applicable municipality has given final approval to the local legislation yet or not, the total actuarial accrued liability calculation must include that benefit increase. The actuary also must calculate any account unfunded accrued liability or any account funding surplus. An account unfunded accrued liability is the actuarial accrued liability reduced by the amount of the current value of assets, if the resulting number is positive. An account funding surplus is the actuarial accrued liability reduced by the amount of the current value of assets, if the resulting number is negative. If a municipality is associated with two consolidation accounts and one has an account funding surplus and one has an account unfunded accrued liability in the preliminary calculation under this paragraph, the actuary must make a second calculation for the account with a preliminary account unfunded accrued liability, after crediting to that account an amount up to 75 percent of the one-half of the market value of the assets of the account with an account funding surplus that are in excess of 100 percent of the account actuarial accrued liability and that are less than that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio as of June 30, 1999, but not to exceed the account's unfunded actuarial accrued liability.

(d) The actuary also must calculate the amortizable base for every consolidation account. The amortizable base is the present value of future benefits for all account members who are not included in the participation of the account in the Minnesota postretirement investment fund reduced by the present value of 19 percent of future covered salary and further reduced by the current value of account assets other than its participation in the Minnesota postretirement

APPENDIX

Repealed Minnesota Statutes: H0629-1

investment fund, after adjustment for fiscal year 1999 net mortality gains and losses and for the net actuarial affect of the election of postretirement adjustment coverage under subdivision 5.

(e) If the amortizable base under paragraph (d) is a positive number, the receivable assets are an amount equal to the amortizable base number.

(f) If the amortizable base under paragraph (d) is a negative number, the actuary must calculate the residual asset amount. The residual asset amount is:

(1) one-half of the amount by which the current assets of the account exceed 100 percent of the total actuarial accrued liability up to that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio on June 30, 1999; and

(2) the amount by which the current assets of the account exceed that percentage of the total actuarial accrued liability that equals the public employees police and fire fund funded ratio on June 30, 1999. Following the calculation of the residual asset amount for each applicable municipality and the verification of the amount by the legislative auditor, the executive director of the public employees retirement association shall pay the applicable residual asset amount with interest equal to the average yield on the invested treasurer's cash fund from July 1, 1999, to the first of the month in which the payment is issued to each qualifying municipality. The residual asset amount must be used by the municipality to defray fire department expenditure items if the residual asset amount was derived from a fire consolidation account or to defray police department expenditure items if the residual asset amount was derived from a police consolidation account. Before the residual asset amount payment is made by the Public Employees Retirement Association, the governing body of the applicable municipality, following a public hearing on the issue, must formulate and adopt a plan for the expenditure of the residual amount and must file that plan in the form of a municipal resolution with the state auditor. The residual asset amount must be deposited in a special fund or account in the municipal treasury established for that purpose. The special fund or account must be invested and any investment return attributable to the residual asset amount must be credited to that special fund or account and its disbursement similarly restricted. The special fund or account must be audited periodically by the state auditor.

Subd. 9. Benefit plan coverage. Unless modified by an election authorized under subdivision 4, 5, or 6, the benefit plan election by any person or on behalf of any person under section 353A.08 remains binding. Merging former consolidation account members who elected the entirety of the public employees police and fire benefit plan are entitled to an applicable annuity or benefit under the provisions of sections 353.63 to 353.68 in effect on the day that the merging former consolidation account member terminated active service as a police officer or firefighter, whichever applies.

Subd. 10. Consolidation account termination. Unless the municipality has elected to retain the consolidation account under subdivision 1, paragraph (b), upon the payment of all residual asset amounts under subdivision 7 and the transfer of all liabilities and remaining assets under subdivisions 2 and 3, the local consolidation accounts under chapter 353A in existence on March 1, 1999, are terminated, and all benefits accrued up to the date of termination are the obligation of the public employees police and fire fund.

353.667 CONSOLIDATION OF THE MINNEAPOLIS FIREFIGHTERS RELIEF ASSOCIATION.

Subdivision 1. Membership transfer. On December 30, 2011, the active, inactive, and retired members, including surviving spouses, of the Minneapolis Firefighters Relief Association are transferred to the public employees police and fire retirement plan, are no longer members of the Minneapolis Firefighters Relief Association, and are members of the public employees police and fire retirement plan.

Subd. 2. Service credit and benefit liability transfer. (a) Allowable service credit and base salary credit of the active members of the Minneapolis Firefighters Relief Association, as contained in the records of the Minneapolis Firefighters Relief Association through December 29, 2011, are transferred to the public employees police and fire retirement plan and are credited as provided in section 353.01, subdivisions 10a and 16, paragraph (c), on December 30, 2011.

(b) The liability for the payment of retirement annuities, service pensions, and retirement and surviving spouse benefits of the Minneapolis Firefighters Relief Association retired members, service pensioners, disabilitants, surviving spouses, and other retirement benefit recipients as specified in the records of the Minneapolis Firefighters Relief Association is transferred to the public employees police and fire retirement plan on December 30, 2011.

Subd. 3. Transfer of records. On December 30, 2011, the chief administrative officer of the Minneapolis Firefighters Relief Association shall transfer all records and documents relating to the special fund of the Minneapolis Firefighters Relief Association to the executive director

APPENDIX

Repealed Minnesota Statutes: H0629-1

of the Public Employees Retirement Association. To the extent possible, original copies of all records and documents must be transferred.

Subd. 4. **Transfer of assets; transfer of title to assets.** (a) On December 30, 2011, the chief administrative officer of the Minneapolis Firefighters Relief Association shall transfer the entire assets of the special fund of the Minneapolis Firefighters Relief Association other than the health insurance account to the public employees police and fire retirement fund at market value. Unless ineligible or inappropriate, the transfer must be in the form of investment securities and must include any accounts receivable that are determined by the State Board of Investment as being capable of being collected. An amount, in cash, must be transferred by the city of Minneapolis equal to the market value recognized by the relief association of investment securities that are determined by the executive director of the State Board of Investment not to be in compliance with the requirements and limitations set forth in sections 11A.09, 11A.14, 11A.23, and 11A.24 or not to be appropriate for retention in light of the established investment objectives of the State Board of Investment or of accounts receivable determined as being incapable of being collected by the executive director of the State Board of Investment. Legal and beneficial title to assets that are determined noncompliant or inappropriate securities or that are uncollectible accounts receivable are transferred to the city of Minneapolis on December 30, 2011. Any accounts payable on December 30, 2011, are an obligation of the public employees police and fire retirement fund and reduce the asset value for purposes of subdivision 6. The transferred assets must be deposited in the public employees police and fire retirement fund. The amount of the transferred health insurance account must remain deposited in the financial institution retained by the former Minneapolis Firefighters Relief Association on May 1, 2011, and that financial institution must act as the custodian of the account. The financial institution shall perform all trustee and fiduciary duties with respect to the account as a condition to the retention of the account. The executive director of the Minneapolis Firefighters Relief Association, prior to December 30, 2011, shall estimate three calendar years of the administrative expenses related to the operation of the account and shall prepay those expenses from the account to the financial institution before December 30, 2011. After the three-year prepayment period, the beneficiaries of the account are responsible for the payment of the administrative expenses related to the operation of the account.

(b) Upon the transfer of assets to the State Board of Investment under paragraph (a), legal title to those transferred assets vests with the State Board of Investment on behalf of the public employees police and fire retirement plan, and beneficial title to the transferred assets remains with the former membership of the former Minneapolis Firefighters Relief Association.

(c) The public employees police and fire retirement plan and fund is the successor in interest to all claims for or against the Minneapolis Firefighters Relief Association. The public employees police and fire retirement plan and fund is not liable for any claim against the Minneapolis Firefighters Relief Association, its governing board, or its administrative staff acting in a fiduciary capacity, under chapter 356A or common law, which is founded upon a claim of a breach of fiduciary duty if the act or acts constituting the claimed breach were not undertaken in good faith. The public employees police and fire retirement plan may assert any applicable defense to any claim in any judicial or administrative proceeding that the Minneapolis Firefighters Relief Association, its board, or its administrative staff would otherwise have been entitled to assert, and the public employees police and fire retirement plan may assert any applicable defense that it has in its capacity as a statewide agency.

(d) The Public Employees Retirement Association shall indemnify any former fiduciary of the Minneapolis Firefighters Relief Association consistent with the provisions of section 356A.11. The indemnification may be effected by the purchase by the Public Employees Retirement Association of reasonable fiduciary liability tail insurance for the officers and directors of the former Minneapolis Firefighters Relief Association. Consistent with section 69.80, the relief association may purchase reasonable fiduciary liability tail insurance for its officers and directors prior to December 30, 2011.

(e) Office equipment and other physical assets of the special fund of the Minneapolis Firefighters Relief Association that are not needed by the Public Employees Retirement Association may be sold by the special fund of the Minneapolis Firefighters Relief Association to the general fund of the Minneapolis Firefighters Relief Association or to any successor fraternal organization of the Minneapolis Firefighters Relief Association at fair market value, with the proceeds of that sale deposited in the public employees police and fire retirement fund and included in the transferred asset value under subdivision 6.

Subd. 5. **Benefits.** The annuities, service pensions, and other retirement benefits of or attributable to retired, disabled, deferred, surviving spouse, or inactive Minneapolis Firefighters Relief Association members who had that status as of December 29, 2011, continue after consolidation in the same amount and under the same terms as provided in chapter 423C except

APPENDIX

that the unit value is governed by section 353.01, subdivision 10a, and the postretirement adjustments after December 31, 2015, must be calculated solely under section 353.6511, subdivision 8.

Subd. 6. **Additional employer contributions.** (a) As of December 30, 2011, the approved actuary retained by the Public Employees Retirement Association shall calculate the present value of future benefits of the former Minneapolis Firefighters Relief Association, and, after subtracting the market value of the transferred assets of the former Minneapolis Firefighters Relief Association and the present value of the employer contribution under section 353.65, subdivision 3, paragraph (b), shall calculate the remainder present value of future benefits amount. Annually, following December 30, 2011, the city of Minneapolis shall pay an amount sufficient to amortize on a level annual dollar basis the remainder present value of future benefits amount by December 31, 2031. The amortization payment is payable annually on July 15, beginning in 2012. The 2012 payment should be estimated based on the provisions of Laws 2011, First Special Session chapter 8. The July 2013 payment shall be adjusted based on the final actuarial valuation.

(b) If the postretirement or preretirement interest rate actuarial assumption applicable to the public employees police and fire retirement plan under section 356.215, subdivision 8, is modified from the rates specified in section 356.215, subdivision 8, the remainder present value of future benefits amount calculation under paragraph (a), updated for the passage of time, must be revised and the amortization contribution by the city of Minneapolis for the balance of the amortization period must be redetermined and certified to the city of Minneapolis.

Subd. 7. **Health and dental insurance program deductions.** The executive director shall withhold any health insurance or dental insurance premiums designated by the annuitant or benefit recipient and shall transfer them to the city of Minneapolis. The Public Employees Retirement Association may charge a necessary and reasonable monthly administrative fee to the city of Minneapolis for this function and bill it in addition to the employer contribution under section 353.65, subdivision 3, paragraph (b). Notwithstanding any provision of chapter 13 to the contrary, the executive director shall provide the city of Minneapolis with the current addresses of former members of the Minneapolis Firefighters Relief Association.

Subd. 8. **Cooperation with fraternal organization.** (a) This subdivision applies if the membership of the former Minneapolis Firefighters Relief Association approves the continuation of the relief association as a fraternal organization under Laws 2011, First Special Session chapter 8, article 6, section 17.

(b) The executive director shall cooperate with the Minneapolis firefighters fraternal association to ensure adequate communication with the former members of the former Minneapolis Firefighters Relief Association consistent with Public Employees Retirement Association policy.

Subd. 9. **Fire insurance surcharge.** Notwithstanding any provision of section 297L.10 to the contrary, the proceeds of the first class city fire insurance premium tax surcharge with respect to Minneapolis must be paid to the city of Minneapolis to defray a portion of the employer retirement cost under section 353.65, subdivision 3, with respect to Minneapolis firefighters.

353.668 CONSOLIDATION OF THE MINNEAPOLIS POLICE RELIEF ASSOCIATION.

Subdivision 1. **Membership transfer.** On December 30, 2011, the active, inactive, and retired members, including surviving spouses, of the Minneapolis Police Relief Association are transferred to the public employees police and fire retirement plan, are no longer members of the Minneapolis Police Relief Association, and are members of the public employees police and fire retirement plan.

Subd. 2. **Service credit and benefit liability transfer.** (a) Allowable service credit and base salary credit of the active members of the Minneapolis Police Relief Association, as contained in the records of the Minneapolis Police Relief Association through December 29, 2011, are transferred to the public employees police and fire retirement plan and are credited as provided in section 353.01, subdivisions 10b and 16, paragraph (c), on December 30, 2011.

(b) The liability for the payment of retirement annuities, service pensions, and retirement and surviving spouse benefits of the Minneapolis Police Relief Association retired members, service pensioners, disabilitants, surviving spouses, and other retirement benefit recipients as specified in the records of the Minneapolis Police Relief Association is transferred to the public employees police and fire retirement plan on December 30, 2011.

If a consolidation action is disapproved by action of the governing body of the municipality or by majority referendum vote of the membership of the relief association, no consolidation action may be initiated until after January 1 of the year next following the date of disapproval.

Subd. 7. Certification of approval. If a consolidation action is approved, the chief administrative officer of the municipality shall notify the executive director of the Public Employees Retirement Association, the executive director of the state board, the executive director of the commission, the commissioner of management and budget, the secretary of state, and the state auditor of the approval. The notification to the state auditor shall also contain a certification by the chief administrative officer of the municipality and by the secretary of the relief association that there was compliance with the procedures set forth in this section in approving that consolidation action and shall include a copy of any relevant documentation.

Subd. 8. Final municipal approval. If a consolidation action is approved, the remaining actions preliminary to the finalization of the consolidation provided for in section 353A.05 shall take place and consolidation shall occur pending final approval of the consolidation by the governing body of the municipality. Final action on the question of the approval of the consolidation by the governing body of the municipality shall occur at a public hearing held for that purpose and shall occur within one month of the conclusion of the remaining actions preliminary to the finalization of the consolidation. If the governing body of the municipality upon its final action on the consolidation disapproves the consolidation, or the deadline for the municipality to take final action upon the question of consolidation expires, the approvals by the relief association and the municipality to initiate the consolidation shall no longer be effective.

Subd. 9. Division of salaried and volunteer firefighter relief association. If the relief association includes in its membership both volunteer firefighters and salaried firefighters, the board of trustees of the relief association shall, before the effective date of the consolidation, undertake the necessary steps to separate the volunteer firefighters portion of the relief association from the salaried firefighters portion of the relief association and to establish the volunteer firefighters portion of the relief association as a distinct relief association governed by chapter 424A. Any special fund assets of the original relief association shall be valued at their fair market value and divided between the new volunteer firefighters relief association and the existing relief association on the basis of their relative actuarial accrued liabilities as determined by an approved actuary as provided in section 356.215. The municipality shall adopt a resolution specifying how any fire state aid received by the municipality under sections 69.011 to 69.051 shall be allocated between the newly established volunteer firefighters relief association and the existing relief association or the fund, whichever applies, as of the date of allocation.

353A.05 ACTIONS PRELIMINARY TO CONSOLIDATION FINALIZATION.

Subdivision 1. Commission actions. (a) Upon initiation of consolidation as provided in section 353A.04, the executive director of the commission shall direct the actuary retained under section 356.214 to undertake the preparation of the actuarial calculations necessary to complete the consolidation.

(b) These actuarial calculations shall include for each active member, each deferred former member, each retired member, and each current beneficiary the computation of the present value of future benefits, the future normal costs, if any, and the actuarial accrued liability on the basis of the existing relief association benefit plan and on the basis of the public employees police and fire fund benefit plan. These actuarial calculations shall also include for the total active, deferred,

retired, and benefit recipient membership the sum of the present value of future benefits, the future normal costs, if any, and the actuarial accrued liability on the basis of the existing relief association benefit plan, on the basis of the public employees police and fire fund benefit plan, and on the basis of the benefit plan which produced the largest present value of future benefits for each person. The actuarial calculations shall be prepared using the entry age actuarial cost method for all components of the benefit plan and using the actuarial assumptions applicable to the fund for the most recent actuarial valuation prepared under section 356.215, except that the actuarial calculations on the basis of the existing relief association benefit plan shall be prepared using an interest rate actuarial assumption during the postretirement period which is in the same amount as the interest rate actuarial assumption applicable to the preretirement period. The actuarial calculations shall include the computation of the present value of the initial postretirement adjustment anticipated by the executive director of the state board as payable after the effective date of the consolidation under section 356.415.

(c) The chief administrative officer of the relief association shall, upon request, provide in a timely manner to the executive director of the commission and to the actuary retained under section 356.214 the most current available information or documents, whichever applies, regarding the demographics of the active, deferred, retired, and benefit recipient membership of the relief association, the financial condition of the relief association, and the existing benefit plan of the relief association.

(d) Upon completion of the actuarial calculations required by this subdivision, the actuary retained under section 356.214 shall issue a report in the form of an appropriate summary of the actuarial calculations and shall provide a copy of that report to the executive director of the commission, the executive director of the Public Employees Retirement Association, the chief administrative officer of the relief association, the chief administrative officer of the municipality in which the relief association is located, and the state auditor.

Subd. 2. State board actions. (a) Upon approval of consolidation by the membership as provided in section 353A.04, the executive director of the state board shall review the existing investment portfolio of the relief association for compliance with the requirements and limitations set forth in sections 11A.09, 11A.14, 11A.23, and 11A.24 and for appropriateness for retention in the light of the established investment objectives of the state board. The executive director of the state board, using any reporting service retained by the state board, shall determine the approximate market value of the existing assets of the relief association upon the effective date of consolidation and the transfer of assets from the relief association to the individual relief association consolidation accounts at market value.

(b) The state board may require that the relief association liquidate any investment security or other item of value which is determined to be ineligible or inappropriate for retention by the state board. The liquidation shall occur before the effective date of consolidation and transfer of assets.

(c) If requested to do so by the chief administrative officer of the relief association or of the municipality, the state board shall provide advice on the means and procedures available to liquidate investment securities and other assets determined to be ineligible or inappropriate.

Subd. 3. Association actions. Upon receipt of the report of actuarial calculations under subdivision 1 and notice from the state board of the completion of the preliminary actions under subdivision 2, the association shall notify the chief administrative officer of the municipality and the chief administrative officer of the relief association of the completion of the preliminary actions.

353A.06 FINALIZATION OF CONSOLIDATION.

Subdivision 1. Notice of final approval. Upon final approval by the governing body of the municipality, the chief administrative officer of the municipality shall provide notice of the local action to the chief administrative officer of the relief association, the executive director of the state board, the executive director of the commission, the executive director of the Public Employees Retirement Association, the commissioner of management and budget, the secretary of state, and the state auditor. The board of trustees of the Public Employees Retirement Association, at its next regularly scheduled meeting, shall set the effective date for the consolidation and notify the persons under this subdivision who are to receive notice from the municipality.

Subd. 2. Information required. Upon final approval of consolidation by the municipality under section 353A.04, the executive director of the public employees retirement association shall request from the relief association and the municipality the information necessary to allow the association to complete the consolidation. The information, at a minimum, must include all data required to be provided by the executive director of the commission and the actuary retained

by the commission under section 353A.05, subdivision 1. The chief administrative officer of the relief association and the chief administrative officer of the municipality shall provide the requested information in a timely manner. The data must be reported on forms or in a manner prescribed by the executive director of the association. The data must be current as of the effective date of the consolidation with the association. The chief administrative officer of the municipality and the chief administrative officer of the relief association shall certify the accuracy of the data reported to the association. The executive director may rely on that data without undertaking any affirmative duty to verify the data.

353A.07 EFFECT ON ADMINISTRATION.

Subdivision 1. **Transfer of administration.** On the effective date of consolidation, the administration of the special fund and the benefit plan of the relief association is transferred to the executive director and the board of trustees of the Public Employees Retirement Association.

Subd. 2. **Transfer of records.** On the effective date of consolidation, the chief administrative officer of the relief association shall transfer all records and documents relating to the special fund of the relief association to the fund. To the extent possible, original copies of all records and documents shall be transferred. For any records and documents which apply to both the general fund and the special fund of the relief association, the chief administrative officer may transfer a photostatic copy of the applicable original record or document if the copy is accompanied by a certification by the chief administrative officer that the copy is a true and exact copy of the original. Any photostatic copy of any document so certified may be treated by the fund for all purposes as an original copy.

Subd. 3. **Transfer of assets.** (a) On the effective date of consolidation, the chief administrative officer of the relief association shall transfer the entire assets of the special fund of the relief association to the Public Employees Retirement Association. The transfer must include any investment securities of the consolidation account which are not determined to be ineligible or inappropriate by the executive director of the state board under section 353A.05, subdivision 2, at the market value of the investment security as of the effective date of the consolidation. The transfer must include any accounts receivable determined by the executive director of the state board as capable of being collected. The transfer must also include an amount, in cash, representing any remaining investment security or other asset of the consolidation account which was liquidated, after defraying any accounts payable.

(b) As of the effective date of consolidation, subject to the authority of the state board, the board of trustees of the Public Employee Retirement Association has legal title to and management responsibility for any transferred assets as trustees for any person having a beneficial interest arising out of benefit coverage provided by the relief association. The Public Employees Retirement Association is the successor in interest for all claims for and against the consolidation account or the municipality with respect to the consolidation account of the relief association, except a claim against the relief association or the municipality or any person connected with the relief association or the municipality in a fiduciary capacity, based on any act or acts by that person which were not done in good faith and which constituted a breach of the obligation of the person as a fiduciary. As a successor in interest, the Public Employees Retirement Association may assert any applicable defense in any judicial proceeding which the board of the relief association or the municipality would have otherwise been entitled to assert.

Subd. 4. **Termination of special fund.** (a) As of the effective date of consolidation and the transfer of administration, records, assets, and liabilities from the relief association to the separate consolidation fund, the special fund of the relief association shall cease to exist as a legal entity. If the relief association has a general fund as of the effective date of consolidation, the general fund may continue to exist as a legal entity at the discretion of the board of the relief association. If the relief association does not have a general fund as of the effective date of consolidation, the board of the relief association may establish a general fund, which may conduct business on behalf of the relief association as the board of the relief association may direct. Following consolidation, the general fund may retain the name of the relief association, shall be the only fund of the relief association, and shall continue to be governed by any applicable general or special law provision other than any provisions governing the benefits previously payable from the special fund of the relief association. Any relief association continuing in the form of the general fund shall function as a fraternal organization.

(b) The municipality shall maintain the service previously provided to assist the relief association through making the appropriate payroll deduction of relief association membership dues from relief association members.

Subd. 5. **Costs of consolidation.** The reasonable and necessary costs arising from the actions of the commission, the state board, and the fund preliminary to consolidation as provided in section 353A.05 shall be paid by the relief association from the special fund as those costs are incurred before the effective date of the consolidation and shall be considered to be authorized administrative expenses of the relief association for section 69.80.

Subd. 6. **Postconsolidation bylaw amendments.** Following the effective date of consolidation, if the relief association continues in the form of the general fund, the board of the relief association shall adopt the appropriate amendments to its bylaws and articles of incorporation to reflect its change in status and operation. The amendments shall be effective upon filing the applicable amendments with the executive director of the commission and with the state auditor and shall not require municipal ratification as provided in section 69.77, subdivision 3.

353A.08 EFFECT ON BENEFIT COVERAGE.

Subdivision 1. **Election of coverage by current retirees.** (a) A person who is receiving a service pension, disability benefit, or survivor benefit is eligible to elect benefit coverage provided under the relevant provisions of the public employees police and fire fund benefit plan or to retain benefit coverage provided under the relief association benefit plan in effect on the effective date of the consolidation. The relevant provisions of the public employees police and fire fund benefit plan for the person electing that benefit coverage are limited to any future postretirement adjustments under section 356.415 based on the amount of the benefit or pension payable on December 31, if December 31 is the effective date of consolidation, or on the December 1 following the effective date of the consolidation, if other than December 31. The survivor benefit payable on behalf of any service pension or disability benefit recipient who elects benefit coverage under the public employees police and fire fund benefit plan must be calculated under the relief association benefit plan and is subject to future postretirement adjustments under section 356.415 based on the amount of the survivor benefit payable.

(b) A survivor benefit calculated under the relief association benefit plan which is first payable after June 30, 1997, to the surviving spouse of a retired member of a consolidation account who, before July 1, 1997, chose postretirement adjustments as provided under section 356.415 must be increased on the effective date of the survivor benefit on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board and approved by the actuary retained under section 356.214.

(c) By electing the public employees police and fire fund benefit plan, a current service pension or disability benefit recipient who, as of the first January 1 occurring after the effective date of consolidation, has been receiving the pension or benefit for at least seven months, or any survivor benefit recipient who, as of the first January 1 occurring after the effective date of consolidation, has been receiving the benefit on the person's own behalf or in combination with a prior applicable service pension or disability benefit for at least seven months is eligible to receive a partial adjustment payable under section 356.415.

(d) The election by any pension or benefit recipient must be made on or before the deadline established by the board of the Public Employees Retirement Association in a manner that recognizes the number of persons eligible to make the election and the anticipated time required to conduct any required benefit counseling.

Subd. 2. **Election of coverage by current deferred retirees.** (a) Any person who has terminated active employment as a police officer or firefighter, whichever applies, with the municipality, has sufficient credit for service to entitle the person to an eventual service pension and has not taken a refund of accumulated member contributions, if applicable, shall have the option to elect to have benefit coverage provided under the relevant provisions of the public employees police and fire fund benefit plan or to retain benefit coverage provided by the relief association benefit plan in effect on the effective date of consolidation. The relevant provisions of the public employees police and fire fund benefit plan for the person electing that benefit coverage shall be the provisions specified in subdivision 1.

The election shall be made when the person files an application for receipt of the deferred service pension and shall accompany that application.

(b) The retirement annuity for a deferred member of a consolidated local relief association which consolidated before July 1, 1997, who elected the relevant provisions of the public employees police and fire fund benefit plan under subdivision 1 must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure

and tables adopted by the board of trustees of the Public Employees Retirement Association and approved by the actuary retained under section 356.214.

Subd. 3. **Election of coverage by active members.** (a) A person who is an active member of a police or fire relief association, other than a volunteer firefighter, has the option to elect benefit coverage under the relevant provisions of the public employees police and fire fund or to retain benefit coverage provided by the relief association benefit plan in effect on the effective date of consolidation. The relevant provisions of the public employee police and fire fund benefit plan for the person electing that benefit coverage are the relevant provisions of the public employee police and fire fund benefit plan applicable to retirement annuities, disability benefits, and survivor benefits, including postretirement adjustments under section 356.415, but excluding any provisions governing the purchase of credit for prior service or making payments in lieu of member contribution deductions applicable to any period which occurred before the effective date of consolidation.

(b) An active member is eligible to make an election at one of the following times:

(1) within six months of the effective date of consolidation;

(2) between the date on which the active member attains the age of 49 years and six months and the date on which the active member attains the age of 50 years; or

(3) on the date on which the active member terminates active employment for purposes of receiving a service pension or disability benefits, or within 90 days of the date the member terminates active employment and defers receipt of a service pension, whichever applies.

Subd. 4. **Irrevocable election.** (a) Any election made under this section shall be irrevocable once it has been filed. Each election shall be made on a form prescribed by the executive director of the public employees retirement association and shall be filed with the executive director. If the current retiree, current benefit recipient, current deferred retiree, or current active member has, as of the effective date of consolidation or the election of benefit coverage, whichever applies, a spouse or other person who has reached the age of majority who under the benefit plan of the relief association would be entitled to receive a survivor benefit upon the death of the person making the election, the election made as provided in this section shall not be considered valid without a statement signed by the potential survivor and accompanying the election form which indicates that the potential survivor has been informed of the election and understands the consequences of the election.

(b) The election form, if validly executed and accompanied by any required statement or statements, shall be effective on the first day of the month next following its filing with the executive director of the public employees retirement association or the date of retirement, whichever is earlier. If the person making the election becomes disabled or dies before the effective date of the election, any disability or survivor benefits which are payable shall be governed by the existing benefit plan of the relief association.

(c) If the person entitled to make the election elects to retain coverage by the benefit plan of the relief association or fails to make the election in a timely fashion, the person shall have future pension or benefit payments governed by the provisions of the existing benefit plan of the relief association in effect on the effective date of consolidation.

Subd. 5. **Returning disabilitants; reemployed annuitants.** (a) A person who is receiving a disability benefit from a consolidating local relief association as of the effective date of the consolidation and who recovers sufficiently from that disability following the effective date of the consolidation to allow for a return to active employment as a police officer or firefighter, whichever applies, with the municipality in which the consolidating relief association was located retains eligibility to the local relief association benefit plan only and is not entitled to elect the public employees police and fire fund benefit plan as an active member, even if the public employees police and fire fund benefit plan was elected as a benefit recipient.

(b) A person who becomes disabled following the effective date of the consolidation is entitled to make a benefit plan coverage election as an active member upon the termination of active employment and commencement of the disability benefit and, upon any return to active service, retains benefit plan coverage by the previously selected benefit plan coverage election.

(c) A person who retired from a consolidating local relief association after the effective date of the consolidation, who has elected coverage by the public employees police and fire fund benefit plan and who returns to active employment with an employing unit covered by the public employees retirement association following the effective date of consolidation is subject to the provisions of section 353.37.

Subd. 6. **Special benefit coverage.** (a) A person who would have otherwise been entitled to special benefit coverage under section 353A.02, subdivision 28, retains entitlement upon consolidation to that special benefit coverage notwithstanding the election which the person makes regarding other aspects of the benefit coverage under subdivision 1, 2, or 3. The special

benefit coverage continues to be provided by the municipality and, if not provided through a contract with an insurance carrier authorized to do business in this state, must be funded on an actuarial basis using the relevant provisions of section 69.77, with the establishment by the municipality of a special account within the general fund of the municipality for this special benefit coverage. The chief administrative officer of the municipality shall manage the special benefit coverage. Disbursements must be limited to payments of the special benefit or benefits based on the relevant portion of the benefit plan of the relief association that existed as of the date on which consolidation is initiated.

(b) A special account in the general fund of a municipality established to provide special preexisting benefit plan coverage under this subdivision is not a supplemental pension plan under section 356.24 or a local governmental pension plan or fund under section 356.25.

Subd. 6a. **Military service contribution and refund.** A person who was an active member of a local police or firefighters relief association upon its consolidation with the public employees retirement association, and who was otherwise eligible for automatic service credit for military service under Minnesota Statutes 2000, section 423.57, and who has not elected the type of benefit coverage provided by the public employees police and fire fund at the time of consolidation, must make employee contributions under section 353.01, subdivision 16, paragraph (a), clause (8), to receive allowable service credit from the association for a military service leave after the effective date of the consolidation. A person who later elects, under subdivision 3, to retain benefit coverage under the bylaws of the local relief association is eligible for a refund from the association at the time of retirement. The association shall refund the employee contributions plus interest at the rate of six percent, compounded quarterly, from the date on which contributions were made until the first day of the month in which the refund is paid. The employer shall receive a refund of the employer contributions. The association shall not pay a refund to a person who later elects, under subdivision 3, the type of benefit coverage provided by the public employees police and fire fund or to the person's employer.

Subd. 7. **Effect of coverage by local plan.** A person who, under this section, elects benefit coverage under the relief association benefit plan, or who fails to make a timely election of coverage under the public employees retirement association police and fire fund benefit plan, is a member of the relief association as administered by the Public Employees Retirement Association and has a right to benefits under the relief association benefit plan in effect on the effective date of the consolidation.

Subd. 8. **Counseling.** The executive director of the Public Employees Retirement Association shall undertake all reasonable efforts to provide any necessary benefit counseling to persons who are entitled to make or who are affected by an election, if benefit counseling is requested by the person.

Subdivision 1. **Entitlement.** In addition to coverage selection periods in section 353A.08, subdivisions 3 and 4, the surviving spouse of a member of a public employee retirement association consolidation account who is killed in the line of duty is eligible to make an election of coverage indicated in subdivision 2. If there is no surviving spouse, the legal guardian of the oldest dependent child under the age of 18 is eligible to make an election of coverage under subdivision 2. If there are no surviving dependent children under age 18, then the oldest dependent child who is age 18 to 23 and who is enrolled full time in an accredited postsecondary educational institution is eligible to make the election. A refund may be paid to a designated beneficiary only if:

- (1) there are no survivors entitled to benefits under this subdivision; or
- (2) the surviving spouse and dependent children, who are between age 18 to 23, permanently waive their rights to benefits in writing and the benefits of dependent children under 18 are waived under a district court order.

Subd. 2. **Election of coverage.** (a) Individuals eligible under subdivision 1 may elect, on a form prescribed by the executive director of the Public Employees Retirement Association, to have survivor benefits calculated under the relevant provisions of the public employees police and fire fund benefit plan or to have survivor benefits calculated under the relief association benefit plan. The relevant provisions of the public employee police and fire fund benefit plan for the person electing that benefit coverage are the relevant provisions of the public employee police and fire fund benefit plan applicable to survivor benefits, including postretirement adjustments under section 356.415.

(b) If the election results in an increased benefit amount to the surviving spouse eligible under subdivision 1, or to eligible children if there is no surviving spouse, the increased

Subdivision 1. **Establishment of consolidation accounts.** (a) The board of trustees of the Public Employees Retirement Association shall establish a separate consolidation account for each local relief association of a municipality that consolidates with the Public Employees Retirement Association. The association shall credit to the consolidation account the assets of the individual consolidating local relief association upon transfer, member contributions received after consolidation under subdivision 4, municipal contributions received after consolidation under subdivision 5, and a proportionate share of any investment income earned after consolidation. From the consolidation account, the association shall pay the pension and benefit amounts on account of persons electing coverage by the relief association benefit plan under section 353A.08, the benefit amounts payable on account of persons electing the type of benefit coverage provided by the public employees police and fire fund under section 353A.08, and any direct administrative expenses related to the consolidation account, and the proportional share of the general administrative expenses of the association.

The consolidation account must be subject to separate accounting, a separate actuarial valuation, and must be reported as a separate exhibit in any annual financial report or actuarial valuation report of the public employees police and fire consolidation fund, whichever applies. The executive director of the public employees retirement association shall maintain separate accounting records and balances for each consolidation account.

Subd. 4. **Member contributions.** (a) Following the effective date of consolidation, the applicable member contribution rate and applicable salary rate to which the member contribution rate applies for persons who were formerly members of the relief association shall be determined as follows:

423A.01 POLICE AND SALARIED FIREFIGHTERS RELIEF ASSOCIATIONS.

Subdivision 1. **Membership of new police and salaried firefighters in the public employees police and fire fund.** Notwithstanding any law to the contrary, all persons first employed by any municipality as police officers or police officer trainees, salaried firefighters or firefighter trainees or public safety officers or public safety officer trainees after June 15, 1980 shall be members of the public employees police and fire fund established by sections 353.63 to 353.68, and shall not be members of any local police or paid firefighters' relief association established or maintained by the municipality, unless the municipality elects to retain the local relief association by the adoption of a municipal resolution approved by a majority of the governing body of the municipality following the holding of a public meeting at which the views of the public are considered and a copy of the municipal resolution is filed with the secretary of state, the commissioner of management and budget, the commissioner of commerce and the executive director of the Legislative Commission on Pensions and Retirement on or before August 15, 1980.

Subd. 2. **Operation of local relief association upon modification of retirement coverage for newly hired police officers and firefighters.** (a) The following provisions shall govern the operation of a local relief association upon the modification of retirement coverage for newly hired police officers or firefighters:

(1) The minimum obligation of a municipality in which the retirement coverage for newly hired police officers or salaried firefighters has been modified pursuant to subdivision 1 with respect to the local relief association shall be determined and governed in accordance with the provisions of sections 69.77, 356.215, and 356.216, except that the normal cost calculation for the relief association shall be computed as a percentage of the compensation paid to the active members of the relief association. The compensation paid to persons with retirement coverage modified pursuant to subdivision 1 shall not be included in any of the computations made in determining the obligation of the municipality with respect to the local relief association.

(2) The contribution rate of members of the local relief association shall be governed by section 69.77, unless a special law establishing a greater member contribution rate is applicable whereupon it shall continue to govern. The member contribution rate of persons with retirement coverage modified pursuant to subdivision 1 shall be governed by section 353.65.

(3) Unless otherwise provided for by law, when every active member of the local relief association retires or terminates from active duty, the local relief association shall cease to exist as a legal entity and the assets of the special fund of the relief association shall be transferred to a trust fund to be established by the appropriate municipality for the purpose of paying service pensions and retirement benefits to recipient beneficiaries. Recipient beneficiaries who are competent to act on their own behalf shall be entitled to select the prescribed number of trustees of the trust fund as provided in this clause, subject to the approval of the governing body of the municipality. If there are at least five recipient beneficiaries, the trust fund shall be managed by a board of trustees composed of five persons selected by the recipient beneficiaries of the fund. When there are fewer than five recipient beneficiaries, the number of trustees selected by the recipient beneficiaries shall be equal to the number of the remaining recipient beneficiaries. The governing body of the municipality shall select the additional trustees. The term of the elected members of the board of trustees shall be indefinite and shall continue until a vacancy occurs in one of the board of trustee member positions. Board of trustee members shall not be compensated for their services, but shall be reimbursed for any expenses actually and necessarily incurred as a result of the performance of their duties in their capacity as board of trustee members. The municipality shall perform whatever services are necessary to administer the trust fund. When all obligations of the trust fund are paid, the balance of the assets remaining in the trust fund shall revert to the municipality for expenditure for law enforcement or firefighting purposes, whichever is applicable.

(4) The financial requirements of the trust fund and the minimum obligation of the municipality with respect to the trust fund shall be determined in accordance with sections 69.77, 356.215, and 356.216 until the unfunded accrued liability of the trust fund is fully amortized in accordance with section 69.77, subdivision 4. The municipality shall provide in its annual budget for at least the aggregate amount of service pensions, disability benefits, survivorship benefits, and refunds which are projected as payable for the following calendar year, as determined by the board of trustees of the trust fund, less the amount of assets in the trust fund as of the end of the

APPENDIX

Repealed Minnesota Statutes: H0629-1

most current calendar year for which figures are available, valued pursuant to section 356.20, subdivision 4, if the difference between those two figures is a positive number.

(5) In calculating the amount of service pensions and other retirement benefits payable from the local relief association and in calculating the amount of any automatic postretirement increases in those service pensions and retirement benefits based on the salary paid or payable to active members or escalated in any fashion, the salary for use as the base for the service pension or retirement benefit calculation and the postretirement increase calculation for the local relief association shall be the salary for the applicable position as specified in the articles of incorporation or bylaws of the relief association as of the date immediately prior to the effective date of the modification of retirement coverage for newly hired personnel pursuant to subdivision 1, as the applicable salary is reset by the municipality periodically, irrespective of whether retirement coverage for persons holding the applicable position used in calculations is provided by the relief association or by the public employees police and fire fund. If for a local salaried firefighters relief association, the specified position no longer exists because of a reorganization of the fire department as a volunteer fire department, the percentage increase in the salary of the position of a top grade patrol officer in the police department of the municipality must be the basis for service pension and retirement benefit postretirement increase calculations.

(6) If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local police relief association, the police state aid received by the municipality shall be disbursed pursuant to section 69.031, subdivision 5, clause (2)(c). If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local firefighters' relief association, the fire state aid received by the applicable municipality other than a city of the first class with a population of more than 300,000 shall be disbursed as the municipality at its option may elect. The municipality may elect: (a) to transmit the total fire state aid to the treasurer of the local relief association for immediate deposit in the special fund of the relief association; or (b) to apply the total fire state aid toward the employer contribution of the municipality to the public employees police and fire fund pursuant to section 353.65, subdivision 3; or (c) to allocate the total fire state aid proportionately between the special fund of the local relief association and employer contribution of the municipality to the public employees police and fire fund on the basis of the respective number of active full-time salaried firefighters receiving retirement coverage from each.

(b) For a city of the first class with a population of more than 300,000, in addition, the city may elect to allot the appropriate portion of the total fire state aid to apply toward the employer contribution of the city to the public employees police and fire fund based on the covered salary of firefighters covered by the fund each payroll period and to transmit the balance to the firefighters relief association.

Subd. 3. Benefit increase for certain relief association members. Notwithstanding any law to the contrary, any member of a local police or salaried firefighters relief association located in a municipality which has not adopted a municipal resolution retaining the local relief association under subdivision 1 shall be entitled to receive, after the effective date for the modification of pension coverage for newly employed personnel, a retirement annuity in addition to the service pension to which the member may be eligible upon retirement. The additional retirement annuity is payable for the life of the retired member. The additional retirement annuity is equal to one-half of one percent of the salary upon which the service pension is calculated payable on the date of termination of active service per year of service credit acquired in excess of 25 years of service credit. The retirement annuity under this subdivision is not subject to any postretirement increases granted under increases in the salary payable to a certain employment category or in the salaries payable to active members or be in any other manner escalated or increased after retirement.

Subd. 4. Automatic postretirement adjustments for certain newly employed, active and retired members. (a) Notwithstanding any provision of law, municipal charter, municipal ordinance or resolution, or relief association articles of incorporation or bylaws to the contrary, any person who meets one of the following requirements for entitlement shall be entitled to an annual automatic postretirement adjustment in the amount of the service pension calculated pursuant to paragraph (b). A person meets the requirements for entitlement if:

(1) the person is a member of a covered local police or salaried firefighters relief association enumerated in paragraph (c), commences receiving a service pension at an age no earlier than attaining the age of 55 years, and has met all applicable requirements for entitlement to a service pension specified in the applicable laws and relief association articles of incorporation or bylaws governing the local relief association;

(2) the person is a retired member of a covered local police or salaried firefighters relief association enumerated in paragraph (c), retired on a service pension after June 15, 1980, after

APPENDIX

Repealed Minnesota Statutes: H0629-1

attaining the age of at least 50 years but prior to attaining the age of 55 years, and attains the age of 55 years subsequent to retirement; or

(3) the person was a retired member on June 15, 1980, of a covered local police or salaried firefighters' relief association or retirement trust fund enumerated in paragraph (c), is receiving a service pension, and has attained the age of at least 55 years.

(b) Any person who meets the requirements specified in paragraph (a), clause (1) or (2), shall be entitled to receive the annual automatic postretirement adjustment on the January 1 next following the date upon which the requirements for entitlement are met but in no event prior to the date upon which the person attains the age of 55 years. Any person who meets the requirements specified in paragraph (a), clause (3), shall be entitled to receive the adjustment on the January 1 next following the date upon which the person attains the age of 55 years. The amount of the adjustment shall be determined by the board of trustees of the local relief association on or before December 1 annually and the adjustment shall accrue each year as of January 1 next following the determination date. The adjustment shall be first payable with the service pension payment made for January. Each adjustment in the amount of the service pension shall be based on the percentage increase in the salary upon which retirement coverage is credited during the prior year subject to the limitation provided for in this paragraph.

The percentage increase in the salary shall be applied to the amount of service pension payable to the person for the month immediately prior to the month in which the determination is made. The maximum percentage increase shall not exceed 3-1/2 percent in any year and any increase in the salary level of the applicable position used to govern the determination of adjustments in excess of 3-1/2 percent in any year shall not carry over to or be used to calculate the rate of salary increase for any succeeding year in which the increase in the salary of the applicable position does not exceed 3-1/2 percent.

(c) The provisions of this subdivision shall apply to the active members and retired members of a local police or salaried firefighters relief association or to the retired members of a retirement trust fund contained in the following enumeration of covered relief associations:

- (1) Buhl Police Relief Association;
- (2) Eveleth joint retired police and firefighters retirement trust fund;
- (3) Moorhead Firefighters Relief Association;
- (4) Moorhead Police Relief Association;
- (5) Thief River Falls police retirement trust fund;
- (6) Virginia Firefighters Relief Association;
- (7) West St. Paul Police Relief Association.

423A.02 LOCAL POLICE AND FIREFIGHTERS RELIEF ASSOCIATION AMORTIZATION STATE AID.

Subd. 1a. **Supplementary amortization state aid.** In addition to the amortization state aid under subdivision 1, there is a distribution of supplementary amortization state aid among those municipalities that receive amortization state aid under subdivision 1. The amount of the distribution is that proportion of the appropriation that the unfunded actuarial accrued liability of each relief association bears to the total unfunded actuarial accrued liabilities of all relief associations as reported in the December 31, 1983, actuarial valuations of the relief associations receiving amortization state aid under subdivision 1. Money under this subdivision must be distributed at the same time that fire and police state aid is distributed under section 69.021.

423A.04 ALTERNATIVE BENEFIT INCREASE.

Notwithstanding any provision of law to the contrary, and in lieu of the benefit increase provided for in section 423A.01, subdivision 3, the governing body of a participating municipality, except the city of Minneapolis, is authorized by resolution approved by a majority of the members of the governing body, following consideration of an actuarial analysis of the effect of any change, to increase the service pension or retirement benefits provided by or modify any provision of the benefit plan of either a police relief association or a salaried firefighters' relief association unless the municipality elects to retain the local relief association by the adoption of a municipal resolution pursuant to section 423A.01, subdivision 1. The total cost of any increase or modification, including amortization by December 31, 2010, shall not exceed 1.26 percent of covered payroll.

423A.05 CLARIFICATION OF INTERPRETATION ON AUTHORITY TO APPROVE ALTERNATIVE BENEFIT INCREASE.

APPENDIX

Repealed Minnesota Statutes: H0629-1

No provision of section 645.021, or Laws 1980, chapter 607, article XV, section 7 or 25, shall be construed as authorizing any municipality which approved an alternative benefit increase for a local police or salaried firefighters' relief association located in the municipality and which complied with section 645.021, subdivision 3, to amend, modify, or revoke that approval or substitute a different alternative benefit increase for the alternative benefit increase which was previously approved.

423A.07 ADDITIONS TO BOARD.

(a) Notwithstanding any other law, each local police and salaried firefighters' relief association may amend its bylaws and its articles of incorporation, as necessary, to provide for the inclusion of retirees on its board.

(b) Upon adoption of the amendments, the relief association must file a copy of the amended bylaws with the executive director of the Legislative Commission on Pensions and Retirement. A relief association amending its articles of incorporation must comply with any statutory requirements pertaining to the filing of amended articles of incorporation.

423A.10 POWERS OF CITY OFFICIALS LIMITED.

When the governing board of a firefighters or police relief association in any city shall determine what is necessary to adequately protect, maintain and administer the firefighters or police relief association, neither the governing body of the city nor any official of the city may thereafter deny adequate representation therefor. Any duties performed by any member of the association pursuant to the determination under this section are deemed to be fire or police duties.

423A.11 RECOMPUTATION OF A DISABILITY BENEFIT AS A SERVICE PENSION.

Subdivision 1. **Termination of disability benefit.** The disability benefit of any disabled member of a local police or salaried firefighters relief association, whichever is applicable, shall terminate when the disabled member attains:

(1) the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association, if the disabled member has credit for at least the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit; or

(2) the age attained by the disabled member when the total number of years of service credited for active duty and of years of receipt of a disability benefit equals the number of years of service credit which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit, if the disabled member has credit for less than the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit when the disabled member attains the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association.

Subd. 2. **Amount of disability benefit recomputed as a service pension.** After the disability benefit terminates, the disabled member shall be deemed to be a service pensioner and shall be entitled to receive a service pension in an amount equal to the disability benefit without any benefit offset required pursuant to any applicable provision of law, articles of incorporation or bylaws which was payable by the relief association immediately prior to the date when the disability benefit terminated pursuant to this section or the service pension otherwise payable based on the service credit for active duty of the person, whichever amount is greater. The disability benefit recomputed as a service pension shall be subject to any annual automatic postretirement adjustments or escalation applicable to any other service pension payable by the relief association.

Subd. 3. **Limitation on disability benefit coverage.** No relief association member who has attained the age and acquired the service credit for termination of a disability benefit specified in subdivision 1 shall be eligible for a disability benefit after that date. If a relief association member who is ineligible for a disability benefit solely pursuant to the limitation set forth in this subdivision becomes permanently unable to perform the duties of a police officer or a firefighter, whichever is applicable, by virtue of a medically determinable illness or injury, the member shall be eligible to a service pension in an amount equal to the amount of the disability benefit which would have

APPENDIX

Repealed Minnesota Statutes: H0629-1

been paid had the person been entitled to a disability benefit, or the amount of the service pension otherwise payable based on the service credit for active duty of the person, whichever is greater.

423A.12 SERVICE CREDIT FOR PERIODS OF DISABILITY.

(a) If the articles of incorporation or bylaws of a local police or salaried firefighters' relief association, whichever is applicable, so provide, any relief association member who received a disability benefit from the relief association on account of a medically determinable illness or injury which was at the time of the determination of the disability expected to be of permanent duration and who returned to active employment as a police officer or firefighter, whichever is applicable, shall be entitled to receive service credit toward the calculation of a service pension for the period or periods of the receipt of a disability benefit.

(b) The maximum service credit which a relief association member may obtain pursuant to this subdivision shall be that amount of service credit which, when added to the service credit of the member for active duty, equals the amount of service credit which would entitle the member to a service pension in an amount equal to the amount of the disability benefit provided by the relief association.

423A.13 LESS HAZARDOUS DUTY EMPLOYMENT FOR marginally DISABLED POLICE OFFICERS OR FIREFIGHTERS.

Every city in which a local police or salaried firefighters' relief association is located shall make every reasonable attempt to provide less hazardous duty employment positions for marginally or less severely disabled police officers or firefighters, which is applicable, in the police department or in the fire department, whichever is applicable, with the same compensation, fringe benefits and other terms and conditions of employment as the person would have otherwise received currently as a regularly employed police officer or firefighter, which is applicable, of the same rank and experience.

423A.14 OFFSETS FROM DISABILITY BENEFITS.

Subdivision 1. **Occurrence of offsets.** If a police officer or firefighter, whichever is applicable, who is a member of a local police or salaried firefighters' relief association becomes disabled and is entitled to receive a disability benefit from the relief association and the disabled person is also entitled to receive benefits pursuant to the workers' compensation law by virtue of that disability, and the total of the disability benefit and the workers' compensation benefits exceeds the salary which the disabled person received as of the date of the disability or the salary currently payable to the same employment position or an employment position which is substantially similar to the employment position which the person held as of the date of the disability, whichever is greater, then the disability benefit of that person which is otherwise payable shall be reduced to that amount which, when added to the workers' compensation benefits, after deducting any amounts payable as attorney fees, medical benefits or rehabilitation benefits, does not exceed the salary which the person received as of the date of the disability or the salary currently payable to the same employment position or an employment position which is substantially similar to the employment position which the person held as of the date of the disability, whichever is greater.

Subd. 2. **Limitation.** In no event shall the reduced disability benefit payable pursuant to the requirements of subdivision 1 exceed the amount of the disability benefit otherwise payable by the relief association without reference to subdivision 1 pursuant to the applicable statutes, special laws, articles of incorporation and bylaws.

Subd. 3. **No offset for recomputed disability benefit.** No offset pursuant to this section shall be required after a disability benefit is recomputed as a service pension pursuant to section 423A.11.

Subd. 4. **Reporting requirement.** Monthly, each city in which a local police or salaried firefighters relief association is located shall notify the secretary of the relief association of the amounts payable to disabled police officers or firefighters, whichever is applicable, during the month pursuant to the workers' compensation law.

Subd. 5. **Offset inapplicable in certain instances.** If any reduction of benefits payable pursuant to the workers' compensation law by virtue of the receipt of a disability benefit from a local police or salaried firefighters relief association is required pursuant to legislation enacted by the 1982 regular session or by a subsequent regular or special session, the provisions of this

section shall not be applicable to any disability benefit recipient or any local police or salaried firefighters relief association.

423A.15 EFFECT OF PROVISIONS FOR EXISTING DISABILITY BENEFIT RECIPIENTS.

The provisions of section 423A.06 shall apply to any member of any applicable local relief association in active service on or after March 24, 1982. 423A.16 EXEMPTION FROM ASSIGNMENTS; PROCESS.

Nothing in this section authorizes the payment of a benefit amount to an estate.

(d) The change must be made by a municipal resolution adopted by a majority vote of the municipality. (a) Notwithstanding any law to the contrary, for a local police or salaried firefighters relief association that implements the provision with municipal approval as provided in paragraph (c), if an active, deferred, or retired member of the relief association dies and no survivor benefit is payable, the designated beneficiary of the decedent or, if none, the legal representative of the estate of the decedent is entitled, upon application, to a refund.

(b) The refund under paragraph (a) is an amount equal to the member contributions to the credit of the decedent, plus interest on those contributions at an annual compound rate of five percent from the first day of the month following the date of the contribution to the first day of the month following the date of death of the decedent, reduced by the sum of any service pension or disability benefit previously paid by the fund to the decedent.

(c) The benefit under this section must be implemented by an amendment to the bylaws of the relief association, with municipal approval as provided in section 69.77, subdivision 11. 423A.19 REDUCED VESTING REQUIREMENT.

Subdivision 1. **Reduced vesting.** Notwithstanding any law to the contrary, for a police or salaried firefighters relief association that implements the provision with municipal approval as provided in subdivision 4, a person with at least five years of service credited by the relief association is entitled, upon termination of active service and reaching at least the required normal retirement age, to receive a pro rata monthly service pension. The pro rata monthly service pension must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of the service pension payable upon meeting the minimum age and years of service requirements that bears the same relationship that the person's actual years and portions of years of service bear to the minimum service requirement.

Subd. 2. **Survivor benefit coverage.** A person entitled to or receiving a reduced vesting service pension as provided in subdivision 1 is entitled to surviving spouse benefit coverage, surviving child benefit coverage, or both, if all other qualification requirements are met. The survivor benefit must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of survivor benefit payable to a survivor of a deceased retired member who had met the minimum years of service requirement that bears the same relationship that the actual years and portions of years of service of the person bear to the minimum service requirement for a service pension.

Subd. 3. **Postretirement adjustments.** A reduced vesting service pension as provided in subdivision 1 or a survivor benefit payable on behalf of a deceased person entitled to or receiving a reduced vesting service pension as provided in subdivision 2 is entitled to postretirement adjustments if the comparable pension or benefit payable when the full minimum service requirement has been met is subject to postretirement adjustments. The postretirement adjustment must be the same percentage increase as the postretirement adjustment for the comparable pension or benefit payable when the full minimum service requirement has been met.

Subd. 4. **Implementation.** The reduced vesting requirement must be implemented by a local relief association through an amendment to the bylaws of the relief association with approval by the governing body of the municipality as required by section 69.77, subdivision 11. The bylaw amendment may not be effective until a certified copy of it and the municipal approval has been filed by the municipal clerk with the executive director of the Legislative Commission on Pensions and Retirement, the state auditor, and the secretary of state.

For purposes of this section, "laid off" means terminated from employment with the fire department because of a shortage of funds or curtailment of service or for any other reason not reflecting discredit on the member beyond the member's control.

(b) The retirement benefit is to commence at the later of either the minimum age for retirement or the date at which the member would have accumulated the minimum number of years of service for retirement if the member had remained on duty.

(c) The pro rata benefit shall be calculated by multiplying the amount of the benefit payable to a member who met the minimum age and years of service requirements for a normal pension by the ratio of the laid off member's actual years of service to the minimum years of service required for retirement. The initial benefit payable shall be subject to the same postretirement adjustments as other benefits payable from the relief association.

Subd. 2. **Municipal representation.** (a) Notwithstanding any other law, the membership of the board of trustees shall include at least two members appointed by the municipality. The members appointed by the municipality shall have all the rights and privileges of board membership including full voting powers. No relief association shall reduce the number of municipal representatives on its board by reason of this subdivision.

(b) Notwithstanding any law which designates certain officials as ex officio members of a board of trustees, the municipality may appoint the same number of members as it is authorized to have on the board in the laws governing the relief association as of March 20, 1986, but the municipality may appoint to those positions any individuals it so chooses.

(c) Whenever the board of trustees appoints an investment subcommittee at least one of the municipal representatives must be a member of that investment subcommittee.

Subd. 3. **Public officers.** The officers and trustees of a local relief association are public officers for purposes of sections 471.87 and 609.43.

Subd. 4. **Fiduciary responsibility.** (a) In the discharge of their respective duties, the officers and trustees shall be held to the standard of care enumerated in section 11A.09. In addition, the trustees must act in accordance with chapter 356A.

(b) Each member of the board is a fiduciary and shall undertake all fiduciary activities in accordance with the standard of care of section 11A.09, and in a manner consistent with chapter 356A. No fiduciary of a relief association shall cause a relief association to engage in a transaction if the fiduciary knows or should know that a transaction constitutes one of the following direct or indirect transactions:

(2) lending of money or other extension of credit between the relief association and a board member or member of the relief association;

(3) furnishing of goods, services, or facilities between the relief association and a board member; or

(4) transfer to a board member, or use by or for the benefit of a board member, of any assets of the relief association. Transfer of assets does not mean the payment of relief association benefits or administrative expenses permitted by law.
