20.14 **EFFECTIVE DATE.** This section is effective January 1, 2025.

20.15 Sec. 19. Minnesota Statutes 2022, section 424A.02, subdivision 1, is amended to read:

20.16 Subdivision 1. **Authorization.** (a) A defined benefit relief association, when its articles  
 20.17 of incorporation or bylaws so provide, may pay out of the assets of its special fund a defined  
 20.18 benefit service pension to each of its members who: (1) separates from active service with  
 20.19 the fire department; (2) reaches age 50; (3) completes at least five years of active service  
 20.20 as an active member of the fire department to which the relief association is associated; (4)  
 20.21 completes at least five years of active membership with the relief association before  
 20.22 separation from active service; and (5) complies with any additional conditions as to age,  
 20.23 service, and membership that are prescribed by the bylaws of the relief association. A service  
 20.24 pension computed under this section may be prorated monthly for fractional years of service  
 20.25 as the bylaws or articles of incorporation of the relief association so provide. The bylaws  
 20.26 or articles of incorporation may define a "month," but the definition must require a calendar  
 20.27 month to have at least 16 days of active service. If the bylaws or articles of incorporation  
 20.28 do not define a "month," a "month" is a completed calendar month of active service measured  
 20.29 from the member's date of entry to the same date in the subsequent month. The service  
 20.30 pension earned by a ~~volunteer~~ firefighter under this chapter and the articles of incorporation  
 20.31 and bylaws of the ~~volunteer~~ firefighters relief association may be paid whether or not the  
 20.32 municipality or independent nonprofit firefighting corporation to which the relief association  
 20.33 is associated qualifies for the receipt of fire state aid under chapter 477B.

21.1 (b) In the case of a member who has completed at least five years of active service as  
 21.2 an active member of the fire department to which the relief association is associated on the  
 21.3 date that the relief association is established and incorporated, the requirement that the  
 21.4 member complete at least five years of active membership with the relief association before  
 21.5 separation from active service may be waived by the board of trustees of the relief association  
 21.6 if the member completes at least five years of inactive membership with the relief association  
 21.7 before the date of the payment of the service pension. During the period of inactive  
 21.8 membership, the member is not entitled to receive disability benefit coverage, is not entitled  
 21.9 to receive additional service credit ~~towards~~ toward computation of a service pension, and  
 21.10 is considered to have the status of a person entitled to a deferred service pension under  
 21.11 subdivision 7.

21.12 (c) No municipality, independent nonprofit firefighting corporation, or joint powers  
 21.13 entity may delegate the power to take final action in setting a service pension or ancillary  
 21.14 benefit amount or level to the board of trustees of the relief association or to approve in  
 21.15 advance a service pension or ancillary benefit amount or level equal to the maximum amount  
 21.16 or level that this chapter would allow rather than a specific dollar amount or level.

21.17 **EFFECTIVE DATE.** This section is effective January 1, 2025.

21.18 Sec. 20. Minnesota Statutes 2022, section 424A.02, subdivision 3, is amended to read:

21.19 Subd. 3. **Determining maximum pension benefit.** (a) Except as provided in paragraph  
 21.20 (b) and section 424B.22, subdivision 4, a defined benefit relief association may not set in  
 21.21 its bylaws a service pension amount above the following maximum amounts:

21.22 (1) for a defined benefit relief association in which the governing bylaws provide for a  
 21.23 monthly service pension, the maximum monthly service pension amount per month for each  
 21.24 year of service credited is the lesser of \$100 or the maximum monthly service pension  
 21.25 amount that could be adopted by the relief association as a bylaws amendment that satisfies  
 21.26 section 424A.093, subdivision 6, paragraph (d); and

21.27 (2) for a defined benefit relief association in which the governing bylaws provide for a  
 21.28 lump-sum service pension, the maximum lump-sum service pension amount for each year  
 21.29 of service credited is the lesser of \$15,000 or the maximum lump-sum service pension  
 21.30 amount that could be adopted by the relief association as a bylaws amendment that satisfies  
 21.31 section 424A.092, subdivision 6, paragraph (e).

22.1 (b) A defined benefit relief association may set in its bylaws a service pension amount  
 22.2 that is not greater than the maximum amounts in clause (1) or (2), as applicable, but only  
 22.3 if the service pension amount has been ratified by the municipality.

22.4 (1) For a defined benefit relief association that pays a monthly service pension, the  
 22.5 maximum monthly service pension amount per month for each year of service credited is  
 22.6 \$100.

22.7 (2) For a defined benefit relief association that pays a lump-sum service pension, the  
 22.8 maximum lump-sum service pension amount for each year of service credited is \$15,000.

22.9 (c) The method of calculating service pensions must be applied uniformly for all years  
 22.10 of active service. Credit must be given for all years of active service, unless the bylaws of  
 22.11 the relief association provide that service credit is not given for:

22.12 (1) years of active service in excess of caps on service credit; or

22.13 (2) years of active service earned by a former member who:

22.14 (i) has ceased duties as a volunteer firefighter and paid on-call firefighter with the fire  
 22.15 department before becoming vested under subdivision 2; and

22.16 (ii) has not resumed active service with the fire department and active membership in  
 22.17 the relief association for a period as defined in the relief association's bylaws, of not less  
 22.18 than five years.

22.19 **EFFECTIVE DATE.** This section is effective January 1, 2025.

22.20 Sec. 21. Minnesota Statutes 2022, section 424A.02, subdivision 7, is amended to read:

22.21 Subd. 7. **Deferred service pensions.** (a) A member of a defined benefit relief association  
 22.22 is entitled to a deferred service pension if the member separates from active service and  
 22.23 membership and has completed the minimum service and membership requirements in  
 22.24 subdivision 1. The requirement that a member separate from active service and membership  
 22.25 is waived for persons who have discontinued their volunteer firefighter and paid on-call  
 22.26 firefighter duties and who are employed on a part-time or full-time basis under section  
 22.27 424A.015, subdivision 1.

22.28 (b) The deferred service pension is payable when the former member reaches at least  
 22.29 age 50, or at least the minimum age specified in the bylaws governing the relief association  
 22.30 if that age is greater than age 50, and when the former member makes a valid written  
 22.31 application.

23.1 (c) A defined benefit relief association that provides a lump-sum service pension governed  
23.2 by subdivision 2c may, when its governing bylaws so provide, credit interest on the deferred  
23.3 lump-sum service pension during the period of deferral. If provided for in the bylaws, interest  
23.4 must be credited in one of the following manners:

23.5 (1) at the investment performance rate actually earned on that portion of the assets if the  
23.6 deferred benefit amount is invested by the relief association in a separate account established  
23.7 and maintained by the relief association;

23.8 (2) at the investment performance rate actually earned on that portion of the assets if the  
23.9 deferred benefit amount is invested in a separate investment vehicle held by the relief  
23.10 association; or

23.11 (3) at an interest rate of up to five percent, compounded annually, as set by the board of  
23.12 trustees.

23.13 (d) Any change in the interest rate set by the board of trustees under paragraph (c), clause  
23.14 (3), must be ratified by the governing body of the municipality or joint powers entity served  
23.15 by the fire department to which the relief association is directly associated, or by the  
23.16 independent nonprofit firefighting corporation, as applicable.

23.17 (e) Interest under paragraph (c), clause (3), is credited beginning on the January 1 next  
23.18 following the date on which the deferred service pension interest rate as set by the board of  
23.19 trustees was ratified by the governing body of the municipality or joint powers entity served  
23.20 by the fire department to which the relief association is directly associated, or by the  
23.21 independent nonprofit firefighting corporation, as applicable.

23.22 (f) Unless the bylaws of a relief association that has elected to credit interest or additional  
23.23 investment performance on deferred lump-sum service pensions under paragraph (c) specifies  
23.24 a different interest or additional investment performance method, including the interest or  
23.25 additional investment performance period starting date and ending date, the interest or  
23.26 additional investment performance on a deferred service pension is creditable as follows:

23.27 (1) for a relief association that has elected to credit interest or additional investment  
23.28 performance under paragraph (c), clause (1) or (3), beginning on the first day of the month  
23.29 next following the date on which the member separates from active service and membership  
23.30 and ending on the last day of the month immediately before the month in which the deferred  
23.31 member commences receipt of the deferred service pension; or

23.32 (2) for a relief association that has elected to credit interest or additional investment  
23.33 performance under paragraph (c), clause (2), beginning on the date that the member separates

24.1 from active service and membership and ending on the date that the separate investment  
 24.2 vehicle is valued immediately before the date on which the deferred member commences  
 24.3 receipt of the deferred service pension.

24.4 (g) For a deferred service pension that is transferred to a separate account established  
 24.5 and maintained by the relief association or separate investment vehicle held by the relief  
 24.6 association, the deferred member bears the full investment risk subsequent to transfer and  
 24.7 in calculating the accrued liability of the ~~volunteer~~ firefighters relief association that pays  
 24.8 a lump-sum service pension, the accrued liability for deferred service pensions is equal to  
 24.9 the separate relief association account balance or the fair market value of the separate  
 24.10 investment vehicle held by the relief association.

24.11 **EFFECTIVE DATE.** This section is effective January 1, 2025.

24.12 Sec. 22. Minnesota Statutes 2022, section 424A.02, subdivision 9, is amended to read:

24.13 Subd. 9. **Limitation on ancillary benefits.** A defined benefit relief association, ~~including~~  
 24.14 ~~any volunteer firefighters relief association governed by Laws 2013, chapter 111, article 5,~~  
 24.15 ~~sections 31 to 42, or any volunteer firefighters division of a relief association governed by~~  
 24.16 ~~chapter 424, and the Bloomington Fire Department Relief Association~~ may only pay ancillary  
 24.17 benefits ~~which~~ that would constitute an authorized disbursement as specified in section  
 24.18 424A.05 subject to the following requirements or limitations:

24.19 (1) with respect to a defined benefit relief association in which governing bylaws provide  
 24.20 solely for a lump-sum service pension to a retiring member, or provide a retiring member  
 24.21 the choice of either a lump-sum service pension or a monthly service pension and the  
 24.22 lump-sum service pension was chosen, no ancillary benefit may be paid to any former  
 24.23 member or paid to any person on behalf of any former member after the former member (i)  
 24.24 terminates active service with the fire department and active membership in the relief  
 24.25 association; and (ii) commences receipt of a service pension as authorized under this section;  
 24.26 and

24.27 (2) with respect to any defined benefit relief association, no ancillary benefit paid or  
 24.28 payable to any member, to any former member, or to any person on behalf of any member  
 24.29 or former member, may exceed in amount the total earned service pension of the member  
 24.30 or former member. The total earned service pension must be calculated by multiplying the  
 24.31 service pension amount specified in the bylaws of the relief association at the time of death  
 24.32 or disability, whichever applies, by the years of service credited to the member or former  
 24.33 member. The years of service must be determined as of (i) the date the member or former  
 24.34 member became entitled to the ancillary benefit; or (ii) the date the member or former

25.1 member died entitling a survivor or the estate of the member or former member to an  
25.2 ancillary benefit. The ancillary benefit must be calculated without regard to whether the  
25.3 member had attained the minimum amount of service and membership credit specified in  
25.4 the governing bylaws. For active members, the amount of a permanent disability benefit or  
25.5 a survivor benefit must be equal to the member's total earned service pension except that  
25.6 the bylaws of a defined benefit relief association may provide for the payment of a survivor  
25.7 benefit in an amount not to exceed five times the yearly service pension amount specified  
25.8 in the bylaws on behalf of any member who dies before having performed five years of  
25.9 active service in the fire department with which the relief association is affiliated. For  
25.10 deferred members, the amount of a permanent disability benefit or a survivor benefit must  
25.11 be calculated using the service pension amount in effect on the date specified in section  
25.12 424A.015, subdivision 6, unless the bylaws of the relief association specify a different  
25.13 service pension amount to be used for the calculation.

25.14 (3)(i) If a lump sum survivor or death benefit is payable under the articles of incorporation  
25.15 or bylaws, the benefit must be paid:

25.16 (A) as a survivor benefit to the surviving spouse of the deceased firefighter;

25.17 (B) as a survivor benefit to the surviving children of the deceased firefighter if no  
25.18 surviving spouse;

25.19 (C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no  
25.20 surviving spouse or surviving children; or

25.21 (D) as a death benefit to the estate of the deceased active or deferred firefighter if no  
25.22 surviving children and no beneficiary designated.

25.23 (ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly  
25.24 or partially, the spouse's entitlement to a survivor benefit.

25.25 (4)(i) If a monthly benefit survivor or death benefit is payable under the articles of  
25.26 incorporation or bylaws, the benefit must be paid:

25.27 (A) as a survivor benefit to the surviving spouse of the deceased firefighter;

25.28 (B) as a survivor benefit to the surviving children of the deceased firefighter if no  
25.29 surviving spouse;

25.30 (C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no  
25.31 surviving spouse or surviving children; or

26.1 (D) as a death benefit to the estate of the deceased active or deferred firefighter if no  
 26.2 surviving spouse, no surviving children, and no beneficiary designated.

26.3 (ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly  
 26.4 or partially, the spouse's entitlement to a survivor benefit.

26.5 (iii) For purposes of this clause, if the relief association bylaws authorize a monthly  
 26.6 survivor benefit payable to a designated beneficiary, the relief association bylaws may limit  
 26.7 the total survivor benefit amount payable.

26.8 (5) For purposes of this section, for a monthly benefit ~~volunteer fire~~ firefighters relief  
 26.9 association or for a combination lump-sum and monthly benefit ~~volunteer fire~~ firefighters  
 26.10 relief association where a monthly benefit service pension has been elected by or a monthly  
 26.11 benefit is payable with respect to a firefighter, a designated beneficiary must be a natural  
 26.12 person. For purposes of this section, for a lump-sum ~~volunteer fire~~ firefighters relief  
 26.13 association or for a combination lump-sum and monthly benefit ~~volunteer fire~~ firefighters  
 26.14 relief association where a lump-sum service pension has been elected by or a lump-sum  
 26.15 benefit is payable with respect to a firefighter, a trust created under chapter 501C may be  
 26.16 a designated beneficiary. If a trust is payable to the surviving children organized under  
 26.17 chapter 501C as authorized by this section and there is no surviving spouse, the survivor  
 26.18 benefit may be paid to the trust, notwithstanding a requirement of this section to the contrary.

26.19 **EFFECTIVE DATE.** This section is effective January 1, 2025.

26.20 Sec. 23. Minnesota Statutes 2022, section 424A.021, is amended to read:

26.21 **424A.021 CREDIT FOR BREAK IN SERVICE TO PROVIDE UNIFORMED**  
 26.22 **SERVICE.**

 26.24 firefighter or paid on-call firefighter who is absent from firefighting service due to service  
 26.25 in the uniformed services, as defined in United States Code, title 38, section 4303(13), may  
 26.26 obtain service credit if the relief association is a defined benefit plan or an allocation by the  
 26.27 relief association as though the person was an active member if the relief association is a  
 26.28 defined contribution plan for the period of the uniformed service, not to exceed five years,  
 26.29 unless a longer period is required under United States Code, title 38, section 4312.

26.30 Subd. 2. **Limitations.** (a) To be eligible for service credit or an allocation as though an  
 26.31 active member under this section, the ~~volunteer~~ firefighter must return to firefighting service  
 26.32 with coverage by the same relief association or by the successor to that relief association

27.1 upon discharge from service in the uniformed service within the time frame required in  
 27.2 United States Code, title 38, section 4312(e).

27.3 (b) Service credit or an allocation as though an active member is not authorized if the  
 27.4 firefighter separates from uniformed service with a dishonorable or bad conduct discharge  
 27.5 or under other than honorable conditions.

27.6 (c) Service credit or an allocation as though an active member is not authorized if the  
 27.7 firefighter fails to provide notice to the fire department that the individual is leaving to

 27.15 association only after preparing an estimate of the expected ~~increase in the financial~~

 27.17 special fund resulting from the amendment.

27.18 (b) For purposes of this subdivision, "~~financial requirements~~" "overall funding balance"  
 27.19 means the amount of the surplus or deficit calculated under subdivision 3, paragraph (e).  
 27.20 (b). "Accrued liability" means the amount calculated under subdivision 2 or 2a, as applicable.

 50.4 any decrement assumptions. The ~~funding requirements~~ executive director must be certified  
 50.5 provide written notice of the funding requirements to the entity or entities associated with  
 50.6 the fire department whose active firefighters are covered by the plan.

50.7 (b) The overall funding balance of each ~~lump-sum~~ fire department account for the current  
 50.8 calendar year must be determined in the following manner:

50.9 (1) The total accrued liability for all active and deferred members of the ~~account~~ fire  
 50.10 department as of December 31 of the current year must be calculated based on the service  
 50.11 credit of active and deferred members as of that date.

50.12 (2) The ~~total-present~~ assets of the fire department account projected to December 31 of  
 50.13 the current year, including receipts by and disbursements from the account anticipated to  
 50.14 occur on or before December 31, must be calculated. ~~To the extent possible,~~ The ~~market~~  
 50.15 executive director must begin phasing in the use of actuarial value of assets ~~must be utilized~~  
 50.16 in making this calculation beginning with the funding reports for 2026.

50.17 (3) The amount of the ~~total-present~~ assets calculated under clause (2) must be subtracted  
 50.18 from the amount of the total accrued liability calculated under clause (1). If the amount of  
 50.19 ~~total-present~~ the assets exceeds the amount of the total accrued liability, then the account  
 50.20 is considered to have a surplus over full funding. If the amount of the ~~total-present~~ assets  
 50.21 is less than the amount of the total accrued liability, then the account is considered to have  
 50.22 a deficit from full funding. If the amount of ~~total-present~~ assets is equal to the amount of  
 50.23 the total accrued liability, then the ~~special fund~~ account is considered to be fully funded.

50.24 (c) The financial requirements of each ~~lump-sum account~~ fire department for the following  
 50.25 calendar year must be determined in the following manner:

50.26 (1) The total accrued liability for all active and deferred members of the ~~account~~ fire  
 50.27 department as of December 31 of the calendar year next following the current calendar year  
 50.28 must be calculated based on the service used in the calculation under paragraph (b), clause  
 50.29 (1), increased by one year.

50.30 (2) The increase in the total accrued liability of the account for the following calendar  
 50.31 year over the total accrued liability of the account for the current year must be calculated.

50.32 (3) The amount of administrative expenses of the account must be calculated by  
 50.33 multiplying the per-person dollar amount of the administrative expenses for the most recent

51.1 prior calendar year by the number of active and deferred firefighters reported to ~~PERA~~ the  
 51.2 association on the most recent service credit certification form for ~~each~~ the account.

51.3 (4) If the account is fully funded, the financial requirement of the account for the  
 51.4 following calendar year is the total of the amounts calculated under clauses (2) and (3).

51.5 (5) If the account has a deficit from full funding, the financial requirement of the account  
 51.6 for the following calendar year is the total of the amounts calculated under clauses (2) and  
 51.7 (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the  
 51.8 account.

51.9 (6) If the account has a surplus over full funding, the financial requirement of the account  
 51.10 for the following calendar year is the financial requirement of the account calculated as  
 51.11 though the account was fully funded under clause (4) and, if the account has also had a  
 51.12 surplus over full funding during the prior two years, additionally reduced by an amount  
 51.13 equal to one-tenth of the amount of the surplus over full funding of the account.

51.14 (d) The required contribution of the entity or entities associated with the fire department  
 51.15 whose active firefighters are covered by the lump-sum division is the annual financial  
 51.16 requirements of the ~~lump-sum~~ fire department account ~~of the plan~~ under paragraph (c)  
 51.17 reduced by the amount of any fire state aid payable under chapter 477B or police and  
 51.18 firefighter retirement supplemental state aid payable under section 423A.022 that is  
 51.19 reasonably anticipated to be received by the retirement plan attributable to the entity or  
 51.20 entities during the following calendar year, and an amount of ~~interest~~ investment earnings  
 51.21 on the assets projected to be received during the following calendar year calculated at the  
 51.22 rate of six percent per annum. The required contribution must be allocated between the  
 51.23 entities if more than one entity is involved. A reasonable amount of anticipated fire state  
 51.24 aid is an amount that does not exceed the fire state aid ~~actually~~ received in the prior year  
 51.25 multiplied by the factor 1.035.

51.26 (e) The financial requirement for each fire department account in the lump-sum division  
 51.27 for the second year of the biennial valuation period must be in the amount determined in  
 51.28 paragraph (d) increased by six percent, but no more than the excess, if any, of the amount  
 51.29 determined under paragraph (c), clause (1), less the actual market value of assets in the fire  
 51.30 department account as of that date.

51.31 ~~(e)~~ (f) The required contribution calculated in paragraph (d) must be paid to the retirement  
 51.32 plan on or before December 31 of the year for which it was calculated. If the contribution  
 51.33 is not received by the plan by December 31, it is payable with interest at an annual compound  
 51.34 rate of six percent from the date due until the date payment is received by the plan. If the

52.1 entity does not pay the full amount of the required contribution, the executive director shall  
 52.2 collect the unpaid amount under section 353.28, subdivision 6.

52.3 **EFFECTIVE DATE.** This section is effective January 1, 2025.

52.4 Sec. 30. Minnesota Statutes 2022, section 353G.08, subdivision 2, is amended to read:

 52.6 fire department account in the lump-sum retirement division or a the monthly benefit  
 52.7 retirement account in the statewide volunteer firefighter plan division has insufficient assets  
 52.8 to meet the service pensions expected to be payable from the account over the succeeding  
 52.9 two years, the executive director shall certify the amount of the potential service pension  
 52.10 shortfall to the ~~municipality or municipalities and the municipality or municipalities shall~~

 52.13 is associated with the account, unless the ~~municipalities~~ participating employers agree to  
 52.14 and implement a different allocation, the ~~municipalities shall~~ participating employers must  
 52.15 allocate the additional employer contribution one-half in proportion to the population of  
 52.16 each ~~municipality~~ participating employer and one-half in proportion to the estimated market  
 52.17 value of the property of each ~~municipality~~ participating employer.

 85.19 longer has an occupational disability, or because the employee has reached either age 55  
 85.20 or the five-year anniversary of the effective date of the disability benefit, whichever is later,

101.2 **ARTICLE 8**

101.3 **APPLICABLE TO ALL PLANS:**  
101.4 **AMORTIZATION; INTERNAL REVENUE CODE COMPLIANCE**

101.5 Section 1. Minnesota Statutes 2023 Supplement, section 356.215, subdivision 11, is  
101.6 amended to read:

101.7 Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level  
101.8 normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial  
101.9 reporting purposes indicating the additional annual contribution sufficient to amortize the  
101.10 unfunded actuarial accrued liability and must contain an exhibit indicating the additional  
101.11 contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement  
101.12 plans listed in subdivision 8, paragraph (a), but excluding the legislators retirement plan,  
101.13 the Bloomington Fire Department Relief Association, and the local monthly benefit volunteer  
101.14 firefighter relief associations, the additional contribution must be calculated on a level  
101.15 percentage of covered payroll basis by the established date for full funding in effect when  
101.16 the valuation is prepared, assuming annual payroll growth at the applicable percentage rate  
101.17 set forth in the appendix described in subdivision 8, paragraph (c). For the legislators  
101.18 retirement plan, the additional annual contribution must be calculated on a level annual  
101.19 dollar amount basis.

101.20 ~~(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e),~~  
101.21 ~~(f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for~~  
101.22 ~~calculating the actuarial accrued liability of the fund, a change in the benefit plan governing~~  
101.23 ~~annuities and benefits payable from the fund, a change in the actuarial cost method used in~~  
101.24 ~~calculating the actuarial accrued liability of all or a portion of the fund, or a combination~~  
101.25 ~~of the three, which change or changes by itself or by themselves without inclusion of any~~  
101.26 ~~other items of increase or decrease produce a net increase in the unfunded actuarial accrued~~  
101.27 ~~liability of the fund, the established date for full funding is the first actuarial valuation date~~  
101.28 ~~occurring after June 1, 2020.~~

101.29 (e) (b) This paragraph applies only if the calculation under this paragraph for a retirement  
101.30 plan results in an established date for full funding that is earlier than the established date  
101.31 for full funding applicable to the retirement plan under paragraph (c). For any retirement  
101.32 plan, if there has been a change in any or all of the actuarial assumptions used for calculating  
101.33 the actuarial accrued liability of the fund, a change in the benefit plan governing annuities  
101.34 and benefits payable from the fund, a change in the actuarial cost method used in calculating

102.1 the actuarial accrued liability of all or a portion of the fund, or a combination of the three,  
102.2 and the change or changes, by itself or by themselves and without inclusion of any other  
102.3 items of increase or decrease, produce a net increase in the unfunded actuarial accrued  
102.4 liability in the fund, the established date for full funding must be determined using the  
102.5 following procedure:

102.6 (i) the unfunded actuarial accrued liability of the fund must be determined in accordance  
102.7 with the plan provisions governing annuities and retirement benefits and the actuarial  
102.8 assumptions in effect before an applicable change;

102.9 (ii) the level annual dollar contribution or level percentage, whichever is applicable,  
102.10 needed to amortize the unfunded actuarial accrued liability amount determined under item  
102.11 (i) by the established date for full funding in effect before the change must be calculated  
102.12 using the investment return assumption specified in subdivision 8 in effect before the change;

102.13 (iii) the unfunded actuarial accrued liability of the fund must be determined in accordance  
102.14 with any new plan provisions governing annuities and benefits payable from the fund and  
102.15 any new actuarial assumptions and the remaining plan provisions governing annuities and  
102.16 benefits payable from the fund and actuarial assumptions in effect before the change;

102.17 (iv) the level annual dollar contribution or level percentage, whichever is applicable,  
102.18 needed to amortize the difference between the unfunded actuarial accrued liability amount  
102.19 calculated under item (i) and the unfunded actuarial accrued liability amount calculated  
102.20 under item (iii) over a period of 30 years from the end of the plan year in which the applicable  
102.21 change is effective must be calculated using the applicable investment return assumption  
102.22 specified in subdivision 8 in effect after any applicable change;

102.23 (v) the level annual dollar or level percentage amortization contribution under item (iv)  
102.24 must be added to the level annual dollar amortization contribution or level percentage  
102.25 calculated under item (ii);

102.26 (vi) the period in which the unfunded actuarial accrued liability amount determined in  
102.27 item (iii) is amortized by the total level annual dollar or level percentage amortization  
102.28 contribution computed under item (v) must be calculated using the investment return  
102.29 assumption specified in subdivision 8 in effect after any applicable change, rounded to the  
102.30 nearest integral number of years, but not to exceed 30 years from the end of the plan year  
102.31 in which the determination of the established date for full funding using the procedure set  
102.32 forth in this clause is made and not to be less than the period of years beginning in the plan  
102.33 year in which the determination of the established date for full funding using the procedure

103.1 set forth in this clause is made and ending by the date for full funding in effect before the  
103.2 change; and

103.3 (vii) the period determined under item (vi) must be added to the date as of which the  
103.4 actuarial valuation was prepared and the date obtained is the new established date for full  
103.5 funding.

103.6 (c) The established date for full funding is the date provided for each of the following  
103.7 plans:

103.8 ~~(d)~~ (i) for the general employees retirement plan of the Public Employees Retirement  
103.9 Association, the established date for full funding is June 30, 2048;

103.10 ~~(e)~~ (ii) for the Teachers Retirement Association, the established date for full funding is  
103.11 June 30, 2048, ~~through June 30, 2025. Beginning July 1, 2025, the established date for full~~  
103.12 ~~funding is June 30, 2053.~~

103.13 ~~(f)~~ (iii) for the correctional state employees retirement plan and the State Patrol retirement  
103.14 plan of the Minnesota State Retirement System, the established date for full funding is June  
103.15 30, 2048;

103.16 ~~(g)~~ (iv) for the judges retirement plan, the established date for full funding is June 30,  
103.17 2048;

103.18 ~~(h)~~ (v) for the local government correctional service retirement plan and the public  
103.19 employees police and fire retirement plan, the established date for full funding is June 30,  
103.20 2048;

103.21 ~~(i)~~ (vi) for the St. Paul Teachers Retirement Fund Association, the established date for  
103.22 full funding is June 30, 2048; and

103.23 ~~(j)~~ (vii) for the general state employees retirement plan of the Minnesota State Retirement  
103.24 System, the established date for full funding is June 30, 2048.

103.25 ~~(k)~~ (d) For the retirement plans for which the annual actuarial valuation indicates an  
103.26 excess of valuation assets over the actuarial accrued liability, the valuation assets in excess  
103.27 of the actuarial accrued liability must be recognized as a reduction in the current contribution  
103.28 requirements by an amount equal to the amortization of the excess expressed as a level  
103.29 percentage of pay over a 30-year period beginning anew with each annual actuarial valuation  
103.30 of the plan.

103.31 **EFFECTIVE DATE.** This section is effective June 30, 2024.

104.8 (b) Notwithstanding paragraph (a), for members or participants specified in paragraph

105.18 **EFFECTIVE DATE.** This section is effective the day following final enactment.

105.19 **Sec. 4. [356.612] LIMITATION ON BENEFITS AND CONTRIBUTIONS.**

105.20 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have  
 105.21 the meanings given.

105.22 (b) "Annual addition" means the sum for the limitation year of all pretax and after-tax  
 105.23 contributions made by the member or the member's employer and credited to an account in  
 105.24 the name of the member in any defined contribution plan maintained by the employer.

105.25 (c) "Annuity starting date" means the first day of the first period for which an amount  
 105.26 is payable as an annuity or, in the case of a benefit not payable in the form of an annuity,  
 105.27 the first day on which all events have occurred which entitle the member to the benefit.

105.28 (d) "Compensation" means the compensation actually paid or made available to a member  
 105.29 or participant for any limitation year, including all items of remuneration described in Code  
 105.30 of Federal Regulations, title 26, section 1.415(c)-2(b), and excluding all items of remuneration

106.1 described in Code of Federal Regulations, title 26, section 1.415(c)-2(c). Compensation for  
106.2 pension plan purposes for any limitation year shall not exceed the applicable federal  
106.3 compensation limit described in section 356.611, subdivision 2.

106.4 (e) "Limitation year" means the calendar year or fiscal year, whichever is applicable to  
106.5 the particular pension plan.

106.6 (f) "Maximum permissible benefit" means an annual benefit of \$160,000, automatically  
106.7 adjusted under section 415(d) of the Internal Revenue Code for each limitation year ending  
106.8 after December 31, 2001, payable in the form of a single life annuity. The new limitation  
106.9 shall apply to limitation years ending with or within the calendar year of the date of the  
106.10 adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of  
106.11 that calendar year. The maximum permissible benefit amount shall be further adjusted as  
106.12 follows:

106.13 (1) if the member has less than ten years of participation, the maximum permissible  
106.14 benefit shall be multiplied by a fraction, the numerator of which is the number of years, or  
106.15 part thereof, but not less than one year, of participation in the plan, and the denominator of  
106.16 which is ten;

106.17 (2) for a member who is not a qualified participant, if the annual benefit begins before  
106.18 the member has attained 62 years of age, the determination as to whether the maximum  
106.19 permissible benefit limit has been satisfied shall be made, in accordance with regulations  
106.20 prescribed by the United States secretary of the treasury, by reducing the limit so that the  
106.21 limit, as so reduced, equals an annual benefit, beginning when the annual benefit actually  
106.22 begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at 62 years  
106.23 of age; and

106.24 (3) if the annual benefit begins after the member has attained 65 years of age, the  
106.25 determination as to whether the maximum permissible benefit limit has been satisfied shall  
106.26 be made, in accordance with regulations prescribed by the United States secretary of the  
106.27 treasury, by increasing the limit so that the limit, as so increased, equals an annual benefit,  
106.28 beginning when the annual benefit actually begins, which is equivalent to a \$160,000, as  
106.29 adjusted, annual benefit beginning at 65 years of age.

106.30 (g) "Qualified participant" means a member of a defined benefit plan listed in section  
106.31 356.611, subdivision 6, with respect to whom the period of service taken into account in  
106.32 determining the amount of the benefit under such defined benefit plan includes at least 15  
106.33 years of service of the member:

107.1 (1) as a full-time employee of any police department or fire department which is organized  
107.2 and operated by the state, Indian Tribal government, or any political subdivision maintaining  
107.3 such defined benefit plan to provide police protection, firefighting services, or medical  
107.4 services for any area within the jurisdiction of the state, Indian Tribal government, or political  
107.5 subdivision; or

107.6 (2) as a member of the Armed Forces of the United States.

107.7 **Subd. 2. Annual benefit limitations; defined benefit plans.** (a) For a defined benefit  
107.8 plan listed in section 356.611, subdivision 6, the annual benefit payable to a member shall  
107.9 not exceed the maximum permissible benefit. If the benefit the member would otherwise  
107.10 receive for a limitation year would result in the payment of an annual benefit in excess of  
107.11 the maximum permissible benefit, the benefit shall be reduced to the extent necessary so  
107.12 the benefit does not exceed the maximum permissible benefit.

107.13 (b) For purposes of applying the limitation in paragraph (a), an annual benefit that is  
107.14 payable in any form other than a single life annuity shall be adjusted to an actuarially  
107.15 equivalent single life annuity that equals, if the annuity starting date is in a plan year  
107.16 beginning after 2005, the annual amount of the single life annuity commencing at the same  
107.17 annuity starting date that has the same actuarial present value as the member's form of  
107.18 benefit, using whichever of the following produces the greatest annual amount:

107.19 (1) the interest rate and the mortality table or other tabular factor specified in the plan  
107.20 for adjusting benefits in the same form;

107.21 (2) a 5.5 percent interest rate assumption and the applicable mortality table; or

107.22 (3) the applicable interest rate under section 417(e)(3) of the Internal Revenue Code and  
107.23 the applicable mortality table, divided by 1.05.

107.24 (c) If a member participated in more than one pension plan in which the employer  
107.25 participates, the benefits under each plan must be reduced proportionately to satisfy the  
107.26 limitation in paragraph (a).

107.27 **Subd. 3. Annual addition limitation; defined contribution plans.** For any limitation  
107.28 year, the annual additions by or on behalf of a member to a defined contribution plan listed  
107.29 in section 356.611, subdivision 6, shall not exceed the lesser of:

107.30 (1) 100 percent of the member's compensation for the limitation year; or

107.31 (2) the dollar limit in effect for the limitation year under section 415(c)(1)(A) of the  
107.32 Internal Revenue Code, as adjusted by the United States secretary of the treasury under  
107.33 section 415(d)(1)(C) of the Internal Revenue Code.

108.1 Subd. 4. **Incorporation by reference.** Any requirements of section 415(b) and (c) of  
 108.2 the Internal Revenue Code and related regulations and agency guidance not addressed by  
 108.3 this section shall be considered incorporated by reference, including provisions applicable  
 108.4 to a qualified participant and to survivor and disability benefits. This section shall be  
 108.5 interpreted in a manner that is consistent with the requirements of sections 415(b) and (c)  
 108.6 of the Internal Revenue Code and the related regulations.

108.7 **EFFECTIVE DATE.** This section is effective the day following final enactment.

108.8 Sec. 5. **[356.614] LIMITATION ON USE OF FORFEITURES.**

108.9 This section applies to any defined benefit plan listed in section 356.611, subdivision  
 108.10 6. Unless otherwise permitted by section 401(a)(8) of the Internal Revenue Code, forfeitures  
 108.11 must not be applied to increase the benefits any participant would otherwise receive under  
 108.12 the plan at any time prior to the termination of the plan or the complete discontinuance of  
 108.13 employer contributions.

108.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

108.15 Sec. 6. Minnesota Statutes 2022, section 356.62, is amended to read:

108.26 Subd. 2. **Pick up of employee contributions.** (a) For purposes of any public pension  
 108.27 or retirement plan, as defined in section 356.63, paragraph (b), each employer shall pick up  
 108.28 the employee contributions required under law or under the pension plan document for all  
 108.29 salaries. If the United States Treasury Department rules that under section 414(h) of the  
 108.30 Internal Revenue Code of 1986, as amended through December 31, 1992, that these picked  
 108.31 up contributions are not includable in the employee's adjusted gross income until they are

109.7 (b) Employee contributions that are picked up must be treated for all purposes of the  
 109.8 public pension or retirement plan in the same manner and to the same extent as employee

 109.10 began. The amount of the employee contributions that are picked up must be included in  
 109.11 the salary upon which retirement coverage is credited and upon which retirement and  
 109.12 survivor's benefits are determined. ~~For purposes of this section, "employee" means any~~

 109.16 ~~pension plan.~~

109.17 (c) The employing unit shall supply each employee and the commissioner of revenue  
 109.18 with an information return indicating the amount of the employer's picked-up contributions  
 109.19 for the calendar year that were not subject to withholding. This return must be provided to  
 109.20 the employee not later than January 31 of the succeeding calendar year. The commissioner  
 109.21 of revenue shall prescribe the form of the return and the provisions of section 289A.12 must

(3) if the annual benefit begins after the member has attained age 65, the determination as to whether the maximum permissible benefit limit has been satisfied shall be made, in accordance with regulations prescribed by the United States secretary of the treasury, by increasing the limit so that the limit, as so increased, equals an annual benefit, beginning when the annual benefit actually begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at age 65.

**Subd. 10. Annual benefit limitations; defined benefit plans.** (a) The annual benefit payable to a member shall not exceed the maximum permissible benefit. If the benefit the member would otherwise receive for a limitation year would result in the payment of an annual benefit in excess of the maximum permissible benefit, the benefit shall be reduced to the extent necessary so the benefit does not exceed the maximum permissible benefit.

(b) For purposes of applying the limitation in paragraph (a), an annual benefit that is payable in any form other than a single life annuity shall be adjusted to an actuarially equivalent single life annuity that equals, if the annuity starting date is in a plan year beginning after 2005, the annual amount of the single life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greatest annual amount:

(1) the interest rate and the mortality table or other tabular factor specified in the plan for adjusting benefits in the same form;

(2) a 5.5 percent interest rate assumption and the applicable mortality table; or

(3) the applicable interest rate under section 417(e)(3) of the Internal Revenue Code and the applicable mortality table, divided by 1.05.

(c) If a member participated in more than one pension plan in which the employer participates, the benefits under each plan must be reduced proportionately to satisfy the limitation in paragraph (a).

**Subd. 11. Annual addition limitation; defined contribution plans.** The annual additions by or on behalf of a member to a defined contribution plan for any limitation year shall not exceed the lesser of (1) 100 percent of the member's compensation for the limitation year or (2) the dollar limit in effect for the limitation year under section 415(c)(1)(A) of the Internal Revenue Code, as adjusted by the United States secretary of the treasury under section 415(d)(1)(C) of the Internal Revenue Code.

**Subd. 12. Incorporation by reference.** Any requirements of section 415(b) and (c) of the Internal Revenue Code and related regulations and agency guidance not addressed by subdivisions 10 and 11 shall be considered incorporated by reference, including provisions applicable to qualified police and firefighters and to survivor and disability benefits. Subdivisions 10 to 12 shall be interpreted in a manner that is consistent with the requirements of section 415(b) and (c) of the Internal Revenue Code and the related regulations.

**Subd. 13. Correction of errors.** The executive director of each plan may correct an operational, demographic, employer eligibility, or plan document error as the executive director deems necessary or appropriate to preserve and protect the plan's tax qualification under section 401(a) of the Internal Revenue Code, including as provided in the Internal Revenue Service's Employee Plans Compliance Resolution System (EPCRS) or any successor thereto. To the extent deemed necessary by the executive director to implement correction, the executive director may:

(1) make distributions;

(2) transfer assets; or

(3) recover an overpayment by reducing future benefit payments or designating appropriate revenue or source of funding that will restore to the plan the amount of the overpayment.

**424A.01 MEMBERSHIP IN A VOLUNTEER FIREFIGHTERS RELIEF ASSOCIATION.**

Subd. 5a. **Volunteer emergency medical personnel.** Volunteer emergency medical personnel are eligible to be members of the applicable volunteer firefighters relief association and to qualify for service pension or other benefit coverage of the relief association on the same basis as fire department personnel who perform or supervise fire suppression or fire prevention duties if:

(1) the fire department employs or otherwise uses the services of persons solely as volunteer emergency medical personnel to perform emergency medical response duties or supervise emergency medical response activities;

(2) the bylaws of the relief association authorize the eligibility; and

(3) the eligibility is approved by:

(i) the municipality, if the fire department is a municipal department;

(ii) the joint powers board, if the fire department is a joint powers entity; or

(iii) the contracting municipality or municipalities, if the fire department is an independent nonprofit firefighting corporation.
