38.2 accounts are created, one in the general fund and one in the bond proceeds fund. Money
38.3 in these accounts may only be used for capital costs of fiber optic infrastructure for

38.5 Subd. 2. **Program purpose.** The fiber optic infrastructure grant program is
38.6 established to provide the capital investment needed to bridge the gap between the federal

38.8 "E-Rate," and the total cost of fiber optic infrastructure that will better public school
38.9 buildings to support 21st century learning capacity at each district school.

38.10 Subd. 3. **General eligibility; state general obligation bond funds.** Minnesota
38.11 Constitution, article XI, section 5, clause (a), requires that state general obligation bonds
38.12 be issued to finance only the acquisition or betterment of public land, buildings, and other
38.13 public improvements of a capital nature. The legislature has determined that many fiber
38.14 optic infrastructure projects will constitute betterments and capital improvements within
38.15 the meaning of the Minnesota Constitution and capital expenditures under generally
38.16 accepted accounting principles, and will be financed more efficiently and economically
38.17 under this section than by direct appropriations for specific projects.

38.18 Subd. 4. **Definitions.** For the purposes of this section:

38.19 (1) "Fiber optic infrastructure" means the land, buildings, fiber optic connection
38.20 cable, and end point hardware, including routers and switches. It does not include
38.21 computers, telephones, or cameras.

38.22 (2) "School district" means an independent, common, special, or intermediate school
38.23 district or a charter school.

38.24 Subd. 5. **Grant program established.** The commissioner shall make grants to
38.25 school districts for fiber optic infrastructure projects.

38.26 Subd. 6. **Eligible costs for grants.** (a) "Eligible cost" for use of state general
38.27 obligation bond fund money means the acquisition of land or permanent easements;
38.28 preparation of land on which the fiber optic infrastructure will be located, including
38.29 demolition of structures and remediation of any hazardous conditions on the land; and
38.30 predesign, design, acquisition, and installation of publicly owned fiber optic infrastructure
38.31 in this state with a useful life of at least ten years that supports public school district
38.32 facility operation, administration, and instruction; the unpaid principal on debt issued by
38.33 the school district for a fiber optic infrastructure project, or the amount necessary to pay in
38.34 a lump sum all lease payments due if payment results in the school district owning the fiber
38.35 optic infrastructure. All uses under this paragraph must be for publicly owned property.

39.1 (b) "Eligible cost" for use of any other source of money will be determined by
39.2 limitations imposed on that source, but may include the costs of leases and reimbursement
39.3 of the costs of purchase and installation of fiber optic infrastructure.

39.4 Subd. 7. **Application.** The commissioner must develop forms and procedures for
39.5 soliciting and reviewing applications for grants under this section. At a minimum, a school
39.6 district must include the following information in its application:

39.7 (1) a resolution adopted by its school board certifying that the money required to be
39.8 supplied by the school district to complete the project is available and committed;

39.9 (2) a detailed and specific description of the project and an estimate, along with
39.10 necessary supporting evidence, of the total costs for the project;

39.11 (3) an assessment of the need for and benefits of the project;

39.12 (4) a timeline indicating the major milestones of the project and their anticipated
39.13 completion dates; and

39.14 (5) any additional information or material the commissioner prescribes.

39.15 Subd. 8. **Criteria for grants.** The commissioner must develop the criteria that will
39.16 be used to award grants if grant applications exceed available resources.

39.17 Subd. 9. **Cancellation of grant.** If, five years after execution of a grant agreement,
39.18 the commissioner determines that the grantee has not proceeded in a timely manner with
39.19 implementation of the project funded, the commissioner must cancel the grant and the
39.20 grantee must repay to the commissioner all grant money paid to the grantee. Section
39.21 16A.642 applies to any appropriations made to the commissioner under this section that
39.22 have not been awarded to grantees.

39.23 Subd. 10. **Report.** By January 15 of each year, the commissioner must submit to
39.24 the commissioner of management and budget and the chairs of the legislative committees
39.25 with jurisdiction over education policy, education finance, and capital investment, a list of
39.26 the projects that have been funded with money under this program during the preceding
39.27 calendar year, as well as a list of those priority projects for which state bond proceeds fund
39.28 appropriations will be sought during that year's legislative session.

39.29 Sec. 27. **BOND SALE SCHEDULE.**

39.30 The commissioner of management and budget shall schedule the sale of state general
39.31 obligation bonds so that, during the biennium ending June 30, 2013, no more than \$.....
39.32 will need to be transferred from the general fund to the state bond fund to pay principal
39.33 and interest due and to become due on outstanding state general obligation bonds. During
39.34 the biennium, before each sale of state general obligation bonds, the commissioner of
39.35 management and budget shall calculate the amount of debt service payments needed on

S.F. No. 476, as introduced - 87th Legislative Session (2011-2012) [11-0566]

40.1 bonds previously issued and shall estimate the amount of debt service payments that will
40.2 be needed on the bonds scheduled to be sold. The commissioner shall adjust the amount
40.3 of bonds scheduled to be sold so as to remain within the limit set by this section. The
40.4 amount needed to make the debt service payments is appropriated from the general fund
40.5 as provided in Minnesota Statutes, section 16A.641.

40.6 Sec. 28. **EFFECTIVE DATE.**

40.7 This act is effective the day following final enactment.
