 14.4 with this subdivision than when calculated under subdivision 4, paragraph (c), or subdivision
 14.5 4a, paragraph (c), in conjunction with subdivision 6. An employee who retires under the

 14.7 as described in paragraph (b) if the person retires on or after July 1, 2018, or in paragraph

 14.18 into account augmentation as if the employee had deferred receipt of the annuity until normal
 14.19 retirement age and the annuity were augmented at the applicable annual rate, compounded
 14.20 annually, from the day the annuity begins to accrue until normal retirement age. The
 14.21 applicable annual rate is the rate in effect on the employee's effective date of retirement and
 14.22 shall be considered as fixed for the employee. The applicable annual rates are the following:

14.23 (i) until June 30, 2018, 2.5 percent;

 14.31 years of service, the member is entitled to receive a retirement annuity calculated using the
 14.32 retirement annuity formula percentage in subdivision 4, paragraph (d), or subdivision 4a,

15.1 specified for members "Age 62 or older with 30 years of service" in the table in paragraph
 15.2 (c).

15.3 (c) A coordinated member who retires before the normal retirement age and before July

15.21	65	1.0000	0.9533	1.0000
15.22	66		1.0000	1.0000

15.23 For normal retirement ages between ages 65 and 66, the early retirement factors must

18.36 covered retirement plans listed in section 356.415, subdivision 2, must use a take into account
18.37 the postretirement adjustment rate actuarial assumption equal to the postretirement adjustment

19.1 ~~rate or rates applicable to the plan as specified in section 354A.27, subdivision 7; 354A.29,~~
 19.2 ~~subdivision 9 7; or 356.415, subdivision 1, whichever applies.~~

19.3 ~~(2) If funding stability has not been attained, the valuation must use a select postretirement~~
 19.4 ~~adjustment rate actuarial assumption equal to the postretirement adjustment rate specified~~
 19.5 ~~in section 354A.27, subdivision 6a; 354A.29, subdivision 8; or 356.415, subdivision 1a,~~
 19.6 ~~1b, 1e, 1d, 1e, or 1f, whichever applies, for a period ending when the approved actuary~~
 19.7 ~~estimates that the plan will attain the defined funding stability measure, and thereafter an~~
 19.8 ~~ultimate postretirement adjustment rate actuarial assumption equal to the postretirement~~
 19.9 ~~adjustment rate under section 354A.27, subdivision 7; 354A.29, subdivision 9; or 356.415,~~
 19.10 ~~subdivision 1, for the applicable period or periods beginning when funding stability is~~
 19.11 ~~projected to be attained.~~

19.12 (c) The actuarial valuation must use the applicable following single rate future salary
 19.13 increase assumption, the applicable following modified single rate future salary increase
 19.14 assumption, or the applicable following graded rate future salary increase assumption:

19.15 (1) single rate future salary increase assumption

19.25 For plans other than the St. Paul teachers
 19.26 retirement plan and the local government
 19.27 correctional service retirement plan, the select
 19.28 calculation is: during the designated select
 19.29 period, a designated percentage rate is
 19.30 multiplied by the result of the designated
 19.31 integer minus T, where T is the number of
 19.32 completed years of service, and is added to
 19.33 the applicable future salary increase
 19.34 assumption. The designated select period is

20.1 ten years and the designated integer is ten for
 20.2 the local government correctional service
 20.3 retirement plan and 15 for the St. Paul
 20.4 Teachers Retirement Fund Association. The
 20.5 designated percentage rate is 0.2 percent for
 20.6 the St. Paul Teachers Retirement Fund
 20.7 Association.

20.8 The ultimate future salary increase assumption is:

22.36	plan	payroll growth assumption

- 23.7 local government correctional service retirement plan 3.5
- 23.8 teachers retirement plan 3.75
- 23.9 St. Paul teachers retirement plan 4
- 23.10 (e) The assumptions set forth in paragraphs (c) and (d) continue to apply, unless a
- 23.11 different salary assumption or a different payroll increase assumption:
- 23.12 (1) has been proposed by the governing board of the applicable retirement plan;
- 23.13 (2) is accompanied by the concurring recommendation of the actuary retained under
- 23.14 section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most
- 23.15 recent actuarial valuation report if section 356.214 does not apply; and
- 23.16 (3) has been approved or deemed approved under subdivision 18.
- 23.17 **EFFECTIVE DATE.** This section is effective July 1, 2017.
- 23.18 Sec. 2. Minnesota Statutes 2016, section 356.215, subdivision 9, is amended to read:
- 23.19 Subd. 9. **Other assumptions.** ~~The~~ (a) Each plan's actuarial valuation must use
- 23.20 assumptions concerning base mortality rates, disability, retirement, withdrawal, retirement
- 23.21 age, and any other relevant demographic or economic factor. These assumptions must be
- 23.22 set at levels consistent with those determined in the most recent quadrennial experience
- 23.23 study completed under subdivision 16, if required, or ~~representative of the best estimate of~~
- 23.24 ~~future experience~~ as recommended by the plan's approved actuary, if a quadrennial experience
- 23.25 study is not required.
- 23.26 (b) The actuarial valuation may use an assumption concerning future mortality
- 23.27 improvement. This assumption may be set at levels consistent with those determined in the
- 23.28 most recent mortality improvement scale published by the Society of Actuaries or as
- 23.29 otherwise recommended by the plan's approved actuary.
- 23.30 (c) The actuarial valuation must contain an exhibit indicating ~~any~~ the actuarial
- 23.31 assumptions used in preparing the valuation report.
- 23.32 **EFFECTIVE DATE.** This section is effective July 1, 2017.

24.1 Sec. 3. Minnesota Statutes 2016, section 356.215, subdivision 11, is amended to read:

24.2 Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level
24.3 normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial
24.4 reporting purposes indicating the additional annual contribution sufficient to amortize the
24.5 unfunded actuarial accrued liability and must contain an exhibit for contribution
24.6 determination purposes indicating the additional contribution sufficient to amortize the
24.7 unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph
24.8 (c), but excluding the legislators retirement plan, the additional contribution must be
24.9 calculated on a level percentage of covered payroll basis by the established date for full
24.10 funding in effect when the valuation is prepared, assuming annual payroll growth at the
24.11 applicable percentage rate set forth in subdivision 8, paragraph (d). For all other retirement
24.12 plans and for the legislators retirement plan, the additional annual contribution must be
24.13 calculated on a level annual dollar amount basis.

24.14 (b) For any retirement plan other than a retirement plan governed by paragraph (d), (e),
24.15 (f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for
24.16 calculating the actuarial accrued liability of the fund, a change in the benefit plan governing
24.17 annuities and benefits payable from the fund, a change in the actuarial cost method used in
24.18 calculating the actuarial accrued liability of all or a portion of the fund, or a combination
24.19 of the three, which change or changes by itself or by themselves without inclusion of any
24.20 other items of increase or decrease produce a net increase in the unfunded actuarial accrued
24.21 liability of the fund, the established date for full funding is the first actuarial valuation date
24.22 occurring after June 1, 2020.

24.23 (c) For any retirement plan, if there has been a change in any or all of the actuarial
24.24 assumptions used for calculating the actuarial accrued liability of the fund, a change in the
24.25 benefit plan governing annuities and benefits payable from the fund, a change in the actuarial
24.26 cost method used in calculating the actuarial accrued liability of all or a portion of the fund,
24.27 or a combination of the three, and the change or changes, by itself or by themselves and
24.28 without inclusion of any other items of increase or decrease, produce a net increase in the
24.29 unfunded actuarial accrued liability in the fund, the established date for full funding must
24.30 be determined using the following procedure:

24.31 (i) the unfunded actuarial accrued liability of the fund must be determined in accordance
24.32 with the plan provisions governing annuities and retirement benefits and the actuarial
24.33 assumptions in effect before an applicable change;

25.1 (ii) the level annual dollar contribution or level percentage, whichever is applicable,
25.2 needed to amortize the unfunded actuarial accrued liability amount determined under item
25.3 (i) by the established date for full funding in effect before the change must be calculated
25.4 using the interest assumption specified in subdivision 8 in effect before the change;

25.5 (iii) the unfunded actuarial accrued liability of the fund must be determined in accordance
25.6 with any new plan provisions governing annuities and benefits payable from the fund and
25.7 any new actuarial assumptions and the remaining plan provisions governing annuities and
25.8 benefits payable from the fund and actuarial assumptions in effect before the change;

25.9 (iv) the level annual dollar contribution or level percentage, whichever is applicable,
25.10 needed to amortize the difference between the unfunded actuarial accrued liability amount
25.11 calculated under item (i) and the unfunded actuarial accrued liability amount calculated
25.12 under item (iii) over a period of 30 years from the end of the plan year in which the applicable
25.13 change is effective must be calculated using the applicable interest assumption specified in
25.14 subdivision 8 in effect after any applicable change;

25.15 (v) the level annual dollar or level percentage amortization contribution under item (iv)
25.16 must be added to the level annual dollar amortization contribution or level percentage
25.17 calculated under item (ii);

25.18 (vi) the period in which the unfunded actuarial accrued liability amount determined in
25.19 item (iii) is amortized by the total level annual dollar or level percentage amortization
25.20 contribution computed under item (v) must be calculated using the interest assumption
25.21 specified in subdivision 8 in effect after any applicable change, rounded to the nearest
25.22 integral number of years, but not to exceed 30 years from the end of the plan year in which
25.23 the determination of the established date for full funding using the procedure set forth in
25.24 this clause is made and not to be less than the period of years beginning in the plan year in
25.25 which the determination of the established date for full funding using the procedure set forth
25.26 in this clause is made and ending by the date for full funding in effect before the change;
25.27 and

25.28 (vii) the period determined under item (vi) must be added to the date as of which the
25.29 actuarial valuation was prepared and the date obtained is the new established date for full
25.30 funding.

25.31 (d) For the general employees retirement plan of the Public Employees Retirement
25.32 Association, the established date for full funding is June 30, ~~2031~~ 2047.

25.33 (e) For the Teachers Retirement Association, the established date for full funding is June
25.34 30, 2037.

26.1 (f) For the correctional state employees retirement plan and the State Patrol retirement
 26.2 plan of the Minnesota State Retirement System, the established date for full funding is June
 26.3 30, ~~2038~~ 2047.

26.4 (g) For the judges retirement plan, the established date for full funding is June 30, ~~2038~~
 26.5 2047.

26.6 (h) For the local government correctional service retirement plan and the public employees
 26.7 police and fire retirement plan, the established date for full funding is June 30, ~~2038~~ 2047.

26.8 (i) For the St. Paul Teachers Retirement Fund Association, the established date for full
 26.9 funding is June 30, 2042. ~~In addition to other requirements of this chapter, the annual~~
 26.10 ~~actuarial valuation must contain an exhibit indicating the funded ratio and the deficiency~~
 26.11 ~~or sufficiency in annual contributions when comparing liabilities to the market value of the~~
 26.12 ~~assets of the fund as of the close of the most recent fiscal year~~ 2047.

26.13 (j) For the general state employees retirement plan of the Minnesota State Retirement
 26.14 System, the established date for full funding is June 30, ~~2040~~ 2047.

26.15 (k) For the retirement plans for which the annual actuarial valuation indicates an excess
 26.16 of valuation assets over the actuarial accrued liability, the valuation assets in excess of the
 26.17 actuarial accrued liability must be recognized as a reduction in the current contribution
 26.18 requirements by an amount equal to the amortization of the excess expressed as a level
 26.19 percentage of pay over a 30-year period beginning anew with each annual actuarial valuation
 26.20 of the plan.

26.21 **EFFECTIVE DATE.** This section is effective July 1, 2017.

26.22 Sec. 4. Minnesota Statutes 2016, section 356.30, subdivision 1, is amended to read:

26.23 Subdivision 1. **Eligibility; computation of annuity.** (a) Notwithstanding any provisions
 26.24 of the laws governing the covered retirement plans ~~enumerated~~ listed in subdivision 3, a
 26.25 ~~person who has met the qualifications of paragraph (b)~~ person who has met the qualifications of paragraph (b) may elect to receive, upon retirement,
 26.26 a retirement annuity from each ~~enumerated~~ covered retirement plan ~~in which the person has~~
 26.27 ~~at least one-half year of allowable service, based on the allowable service in each plan,~~
 26.28 subject to the provisions of paragraph (e) (b), if the person has:

26.29 (1) allowable service in any two or more of the covered plans;

26.30 (2) at least one-half year of allowable service in each covered plan, based on the allowable
 26.31 service in each plan;

27.1 (3) total allowable service that equals or exceeds the longest service credit vesting
 27.2 requirement of the applicable retirement plan; and

27.3 (4) not begun to receive an annuity from any covered plan or has made application for
 27.4 benefits from each applicable plan and the retirement annuity effective dates of each plan
 27.5 are within a one-year period.

27.6 ~~(b) A person may receive, upon retirement, a retirement annuity from each enumerated~~
 27.7 ~~retirement plan in which the person has at least one-half year of allowable service, and~~
 27.8 ~~augmentation of a deferred annuity calculated at the appropriate rate under the laws governing~~
 27.9 ~~each public pension plan or fund named in subdivision 3, based on the date of the person's~~
 27.10 ~~initial entry into public employment from the date the person terminated all public service~~
 27.11 ~~if:~~

27.12 ~~(1) the person has allowable service in any two or more of the enumerated plans;~~

27.13 ~~(2) the person has sufficient allowable service in total that equals or exceeds the applicable~~
 27.14 ~~service credit vesting requirement of the retirement plan with the longest applicable service~~
 27.15 ~~credit vesting requirement; and~~

27.16 ~~(3) the person has not begun to receive an annuity from any enumerated plan or the~~
 27.17 ~~person has made application for benefits from each applicable plan and the effective dates~~
 27.18 ~~of the retirement annuity with each plan under which the person chooses to receive an~~
 27.19 ~~annuity are within a one-year period.~~

27.20 ~~(e)~~ (b) If all requirements in paragraph (a) have been satisfied, the retirement annuity
 27.21 from each plan must be based upon the allowable service, accrual rates, and average salary
 27.22 in the applicable plan except as further specified or modified in the following clauses:

27.23 (1) the laws governing annuities must be the law in effect on the date of termination
 27.24 from the last period of public service under a covered retirement plan with which the person
 27.25 earned a minimum of one-half year of allowable service credit during that employment;

27.26 (2) the "average salary" ~~on which the annuity from each covered plan in which the~~
 27.27 ~~employee has credit in a~~ used to calculate the annuity for each formula plan must be based
 27.28 on the employee's highest five successive years of covered salary during the entire service
 27.29 in covered plans;

27.30 (3) the accrual rates ~~to be used by~~ under each plan must be ~~those~~ the percentages
 27.31 prescribed by each plan's formula ~~as continued~~ in effect for the respective years of allowable
 27.32 service from one plan to the next, recognizing all previous allowable service with the other
 27.33 covered plans;

28.1 (4) the allowable service in all the covered plans must be combined in determining
 28.2 eligibility for and the application of each plan's provisions ~~in~~ with respect to reduction in
 28.3 the annuity amount for retirement prior to normal retirement age; and

28.4 (5) the annuity amount payable for any allowable service under a nonformula plan ~~of~~
 28.5 that is a covered plan must not be affected, but such service and covered salary must be
 28.6 used in the above calculation.

28.7 (c) If a person eligible for an annuity under paragraph (a) from each covered plan, except
 28.8 the Teachers Retirement Association, terminates all public service, the deferred annuity
 28.9 must be augmented from the date of termination until the earlier of:

28.10 (1) the effective date of retirement; or

28.11 (2) December 31, 2017, for the Minnesota State Retirement System and the Public
 28.12 Employees Retirement Association or June 30, 2018, for the St. Paul Teachers Retirement
 28.13 Association.

28.14 A deferred annuity for all applicable plans, except the Teachers Retirement Association,
 28.15 must not be augmented after the applicable dates under clause (2). The appropriate rate of
 28.16 augmentation is the rate in effect on the date on which the person entered into public
 28.17 employment and subsequently adjusted according to the laws governing each covered plan,
 28.18 as applicable. The Teachers Retirement Association must augment a deferred annuity under
 28.19 section 354.55, subdivision 11.

28.20 (d) This section does not apply to any person whose final termination from the last public
 28.21 service under a covered plan was before May 1, 1975.

28.22 ~~(e) For the purpose of computing annuities under this section, the accrual rates used by~~
 28.23 ~~any covered plan, except the public employees police and fire plan, the judges retirement~~
 28.24 ~~fund, and the State Patrol retirement plan, must not exceed 2.7 percent per year of service~~
 28.25 ~~for any year of service or fraction thereof. The formula percentage used by:~~

28.26 (1) the judges retirement fund accrual rate must not exceed 3.2 percent per year of service
 28.27 for any year of service or fraction thereof. ~~The accrual rate used by;~~

28.28 (2) the public employees police and fire plan and the State Patrol retirement plan accrual
 28.29 rate must not exceed 3.0 percent per year of service for any year of service or fraction
 28.30 thereof. ~~The accrual rate or rates used by;~~

28.31 (3) the legislators retirement plan accrual rate must not exceed 2.5 percent, but this limit
 28.32 does not apply to the adjustment provided under section 3A.02, subdivision 1, paragraph
 28.33 (c); and

43.19 Section 1. Minnesota Statutes 2016, section 3A.03, subdivision 2, is amended to read:

43.20 Subd. 2. **Refund.** (a) A former member who has made contributions under subdivision
 43.21 1 and who is no longer a member of the legislature is entitled to receive, upon written
 43.22 application to the executive director on a form prescribed by the executive director, a refund
 43.23 from the general fund of all contributions credited to the member's account with interest
 43.24 computed as provided in section 352.22, subdivision 2.

43.25 (b) The refund of contributions as provided in paragraph (a) terminates all rights of a
 43.26 former member of the legislature and the survivors of the former member under this chapter.

43.27 (c) If the former member of the legislature again becomes a member of the legislature
 43.28 after having taken a refund as provided in paragraph (a), the member is a member of the
 43.29 unclassified employees retirement program of the Minnesota State Retirement System.

43.30 (d) However, the member may reinstate the rights and credit for service previously
 43.31 forfeited under this chapter if the member repays all refunds taken, plus interest at the rate

44.1 ~~of 8.5 percent until June 30, 2015, and eight percent thereafter~~ applicable annual rate or
 44.2 rates specified in section 356.59, subdivision 2, compounded annually, from the date on
 44.3 which the refund was taken to the date on which the refund is repaid.

44.4 (e) A member of the legislature who has received a refund from any of the retirement
 44.5 plans specified in section 356.311, paragraph (b), may repay the refund to the respective
 44.6 plan under such terms and conditions consistent with the law governing the retirement plan
 44.7 if the law governing the plan permits the repayment of refunds. If the total amount to be
 44.8 repaid, including principal and interest exceeds \$2,000, repayment may be made in three
 44.9 equal installments over a period of 18 months, with the interest accrued during the period
 44.10 of the repayment added to the final installment.

44.11 ~~(e)~~ (f) No person may be required to apply for or to accept a refund.

44.12 **EFFECTIVE DATE.** This section is effective July 1, 2017.

44.13 Sec. 2. Minnesota Statutes 2016, section 352.01, subdivision 13a, is amended to read:

44.14 Subd. 13a. **Reduced salary during period of workers' compensation.** An employee
 44.15 on leave of absence receiving temporary workers' compensation payments and a reduced
 44.16 salary or no salary from the employer who is entitled to allowable service credit for the
 44.17 period of absence, may make payment to the fund for the difference between salary received,
 44.18 if any, and the salary the employee would normally receive if not on leave of absence during
 44.19 the period. The employee shall pay an amount equal to the employee and employer
 44.20 contribution rate under section 352.04, subdivisions 2 and 3, on the differential salary amount
 44.21 for the period of the leave of absence.

44.22 The employing department, at its option, may pay the employer amount on behalf of its
 44.23 employees. Payment made under this subdivision must include interest at the ~~rate of 8.5~~
 44.24 ~~percent until June 30, 2015, and eight percent thereafter per year~~ applicable annual rate or
 44.25 rates specified in section 356.59, subdivision 2, and must be completed within one year of
 44.26 the return from leave of absence.

44.27 **EFFECTIVE DATE.** This section is effective July 1, 2017.

44.28 Sec. 3. Minnesota Statutes 2016, section 352.017, subdivision 2, is amended to read:

44.29 Subd. 2. **Purchase procedure.** (a) An employee covered by a plan specified in this
 44.30 chapter may purchase credit for allowable service in that plan for a period specified in
 44.31 subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever

45.1 applies. The employing unit, at its option, may pay the employer portion of the amount
45.2 specified in paragraph (b) on behalf of its employees.

45.3 (b) If payment is received by the executive director within one year from the date the
45.4 employee returned to work following the authorized leave, the payment amount is equal to
45.5 the employee and employer contribution rates specified in law for the applicable plan at the
45.6 end of the leave period multiplied by the employee's hourly rate of salary on the date of
45.7 return from the leave of absence and by the days and months of the leave of absence for
45.8 which the employee is eligible for allowable service credit. The payment must include
45.9 compound interest at the ~~monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent~~
45.10 ~~per month thereafter~~ applicable monthly rate or rates specified in section 356.59, subdivision
45.11 2, from the last day of the leave period until the last day of the month in which payment is
45.12 received. If payment is received by the executive director after one year, the payment amount
45.13 is the amount determined under section 356.551. Payment under this paragraph must be
45.14 made before the date of termination from public employment covered under this chapter.

45.15 (c) If the employee terminates employment covered by this chapter during the leave or
45.16 following the leave rather than returning to covered employment, payment must be received
45.17 by the executive director within 30 days after the termination date. The payment amount is
45.18 equal to the employee and employer contribution rates specified in law for the applicable
45.19 plan on the day prior to the termination date, multiplied by the employee's hourly rate of
45.20 salary on that date and by the days and months of the leave of absence prior to termination.

45.21 **EFFECTIVE DATE.** This section is effective July 1, 2017.

45.22 Sec. 4. Minnesota Statutes 2016, section 352.04, subdivision 8, is amended to read:

45.23 Subd. 8. **Department required to pay omitted salary deductions.** (a) If a department
45.24 fails to take deductions past due for a period of 60 days or less from an employee's salary
45.25 as provided in this section, those deductions must be taken on later payroll abstracts.

45.26 (b) If a department fails to take deductions past due for a period in excess of 60 days
45.27 from an employee's salary as provided in this section, the department, and not the employee,
45.28 must pay on later payroll abstracts the employee and employer contributions and ~~an amount~~
45.29 ~~equivalent to 8.5 percent until June 30, 2015, and eight percent thereafter of the total amount~~
45.30 ~~due in lieu of interest, or if the delay in payment exceeds one year, 8.5 percent until June~~
45.31 ~~30, 2015, and eight percent thereafter compound annual interest~~ at the applicable annual
45.32 rate or rates specified in section 356.59, subdivision 2, compounded annually, from the date
45.33 the employee and employer contributions should have been deducted to the date payment
45.34 of the total amount due is paid by the department.

46.1 (c) If a department fails to take deductions past due for a period of 60 days or less and
46.2 the employee is no longer in state service so that the required deductions cannot be taken
46.3 from the salary of the employee, the department must nevertheless pay the required employer
46.4 contributions. If any department fails to take deductions past due for a period in excess of
46.5 60 days and the employee is no longer in state service, the omitted contributions must be
46.6 recovered under paragraph (b).

46.7 (d) If an employee from whose salary required deductions were past due for a period of
46.8 60 days or less leaves state service before the payment of the omitted deductions and
46.9 subsequently returns to state service, the unpaid amount is considered the equivalent of a
46.10 refund. The employee accrues no right by reason of the unpaid amount, except that the
46.11 employee may pay the amount of omitted deductions as provided in section 352.23.

46.12 **EFFECTIVE DATE.** This section is effective July 1, 2017.

46.13 Sec. 5. Minnesota Statutes 2016, section 352.04, subdivision 9, is amended to read:

46.14 Subd. 9. **Erroneous deductions, canceled warrants.** (a) Deductions taken from the
46.15 salary of an employee for the retirement fund in excess of required amounts must, upon
46.16 discovery and verification by the department making the deduction, be refunded to the
46.17 employee.

46.18 (b) If a deduction for the retirement fund is taken from a salary warrant or check, and
46.19 the check is canceled or the amount of the warrant or check returned to the funds of the
46.20 department making the payment, the sum deducted, or the part of it required to adjust the
46.21 deductions, must be refunded to the department or institution if the department applies for
46.22 the refund on a form furnished by the director. The department's payments must likewise
46.23 be refunded to the department.

46.24 (c) If erroneous employee deductions and employer contributions are caused by an error
46.25 in plan coverage involving the plan and any other plans specified in section 356.99, that
46.26 section applies. If the employee should have been covered by the plan governed by chapter
46.27 352D, 353D, 354B, or 354D, the employee deductions and employer contributions taken
46.28 in error must be directly transferred to the applicable employee's account in the correct
46.29 retirement plan, with interest at the ~~rate of 0.71 percent per month until June 30, 2015, and~~
46.30 ~~0.667 percent per month thereafter~~ applicable monthly rate or rates specified in section
46.31 356.59, subdivision 2, compounded annually, from the first day of the month following the
46.32 month in which coverage should have commenced in the correct defined contribution plan
46.33 until the end of the month in which the transfer occurs.

47.1 **EFFECTIVE DATE.** This section is effective July 1, 2017.

47.2 Sec. 6. Minnesota Statutes 2016, section 352.23, is amended to read:

47.3 **352.23 TERMINATION OF RIGHTS; REPAYMENT OF REFUND.**

47.4 (a) When any employee accepts a refund as provided in section 352.22, all existing
47.5 allowable service credits and all rights and benefits to which the employee was entitled
47.6 before accepting the refund terminate.

47.7 (b) Terminated service credits and rights must not again be restored until the former
47.8 employee acquires at least six months of allowable service credit after taking the last refund.
47.9 In that event, the employee may repay all refunds previously taken from the retirement fund.

47.10 (c) Repayment of refunds entitles the employee only to credit for service covered by (1)
47.11 salary deductions; (2) payments previously made in lieu of salary deductions as permitted
47.12 under law in effect when the payment in lieu of deductions was made; (3) payments made
47.13 to obtain credit for service as permitted by laws in effect when payment was made; and (4)
47.14 allowable service previously credited while receiving temporary workers' compensation as
47.15 provided in section 352.01, subdivision 11, paragraph (a), clause (3).

47.16 (d) Payments under this section for repayment of refunds are to be paid with interest at
47.17 ~~the rate of 8.5 percent until June 30, 2015, and eight percent thereafter~~ applicable annual
47.18 rate or rates specified in section 356.59, subdivision 2, compounded annually, from the date
47.19 the refund was taken until the date the refund is repaid. They may be paid in a lump sum
47.20 or by payroll deduction in the manner provided in section 352.04. Payment may be made
47.21 in a lump sum up to six months after termination from service.

47.22 **EFFECTIVE DATE.** This section is effective July 1, 2017.

47.23 Sec. 7. Minnesota Statutes 2016, section 352.27, is amended to read:

47.24 **352.27 CREDIT FOR BREAK IN SERVICE TO PROVIDE UNIFORMED**
47.25 **SERVICE.**

47.26 (a) An employee who is absent from employment by reason of service in the uniformed
47.27 services, as defined in United States Code, title 38, section 4303(13), and who returns to
47.28 state service upon discharge from service in the uniformed service within the time frames
47.29 required in United States Code, title 38, section 4312(e), may obtain service credit for the
47.30 period of the uniformed service as further specified in this section, provided that the employee
47.31 did not separate from uniformed service with a dishonorable or bad conduct discharge or
47.32 under other than honorable conditions.

48.1 (b) The employee may obtain credit by paying into the fund an equivalent employee
48.2 contribution based upon the contribution rate or rates in effect at the time that the uniformed
48.3 service was performed multiplied by the full and fractional years being purchased and
48.4 applied to the annual salary rate. The annual salary rate is the average annual salary during
48.5 the purchase period that the employee would have received if the employee had continued
48.6 to be employed in covered employment rather than to provide uniformed service, or, if the
48.7 determination of that rate is not reasonably certain, the annual salary rate is the employee's
48.8 average salary rate during the 12-month period of covered employment rendered immediately
48.9 preceding the period of the uniformed service.

48.10 (c) The equivalent employer contribution and, if applicable, the equivalent additional
48.11 employer contribution provided in this chapter must be paid by the department employing
48.12 the employee from funds available to the department at the time and in the manner provided
48.13 in this chapter, using the employer and additional employer contribution rate or rates in
48.14 effect at the time that the uniformed service was performed, applied to the same annual
48.15 salary rate or rates used to compute the equivalent employee contribution.

48.16 (d) If the employee equivalent contributions provided in this section are not paid in full,
48.17 the employee's allowable service credit must be prorated by multiplying the full and fractional
48.18 number of years of uniformed service eligible for purchase by the ratio obtained by dividing
48.19 the total employee contribution received by the total employee contribution otherwise
48.20 required under this section.

48.21 (e) To receive service credit under this section, the contributions specified in this section
48.22 must be transmitted to the Minnesota State Retirement System during the period which
48.23 begins with the date on which the individual returns to state service and which has a duration
48.24 of three times the length of the uniformed service period, but not to exceed five years. If
48.25 the determined payment period is less than one year, the contributions required under this
48.26 section to receive service credit may be made within one year of the discharge date.

48.27 (f) The amount of service credit obtainable under this section may not exceed five years
48.28 unless a longer purchase period is required under United States Code, title 38, section 4312.

48.29 (g) The employing unit shall pay interest on all equivalent employee and employer
48.30 contribution amounts payable under this section. Interest must be ~~computed at the rate of~~
48.31 ~~8.5 percent until June 30, 2015, and eight percent thereafter~~ at the applicable annual rate or
48.32 rates specified in section 356.59, subdivision 2, compounded annually, from the end of each
48.33 fiscal year of the leave or the break in service to the end of the month in which the payment
48.34 is received.

49.1 **EFFECTIVE DATE.** This section is effective July 1, 2017.

49.2 Sec. 8. Minnesota Statutes 2016, section 352.955, subdivision 3, is amended to read:

49.3 Subd. 3. **Payment of additional equivalent contributions.** (a) An eligible employee
49.4 who is transferred to plan coverage and who elects to transfer past service credit under this
49.5 section must pay an additional member contribution for that prior service period. The
49.6 additional member contribution is the amount computed under paragraph (b), plus the greater
49.7 of the amount computed under paragraph (c), or 40 percent of the unfunded actuarial accrued
49.8 liability attributable to the past service credit transfer.

49.9 (b) The executive director shall compute, for the most recent 12 months of service credit
49.10 eligible for transfer, or for the entire period eligible for transfer if less than 12 months, the
49.11 difference between the employee contribution rate or rates for the general state employees
49.12 retirement plan and the employee contribution rate or rates for the correctional state
49.13 employees retirement plan applied to the eligible employee's salary during that transfer
49.14 period, plus compound interest at the applicable monthly rate of ~~0.71 percent until June 30,~~
49.15 ~~2015, and 0.667 percent per month thereafter~~ or rates specified in section 356.59, subdivision
49.16 2.

49.17 (c) The executive director shall compute, for any service credit being transferred on
49.18 behalf of the eligible employee and not included under paragraph (b), the difference between
49.19 the employee contribution rate or rates for the general state employees retirement plan and
49.20 the employee contribution rate or rates for the correctional state employees retirement plan
49.21 applied to the eligible employee's salary during that transfer period, plus compound interest
49.22 at the ~~monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month~~
49.23 ~~thereafter~~ applicable monthly rate or rates specified in section 356.59, subdivision 2.

49.24 (d) The executive director shall compute an amount using the process specified in
49.25 paragraph (b), but based on differences in employer contribution rates between the general
49.26 state employees retirement plan and the correctional state employees retirement plan rather
49.27 than employee contribution rates.

49.28 (e) The executive director shall compute an amount using the process specified in
49.29 paragraph (c), but based on differences in employer contribution rates between the general
49.30 state employees retirement plan and the correctional state employees retirement plan rather
49.31 than employee contribution rates.

49.32 (f) The additional equivalent member contribution under this subdivision must be paid
49.33 in a lump sum. Payment must accompany the election to transfer the prior service credit.

50.1 No transfer election or additional equivalent member contribution payment may be made
 50.2 by a person or accepted by the executive director after the one year anniversary date of the
 50.3 effective date of the retirement coverage transfer, or the date on which the eligible employee
 50.4 terminates state employment, whichever is earlier.

50.5 (g) If an eligible employee elects to transfer past service credit under this section and
 50.6 pays the additional equivalent member contribution amount under paragraph (a), the
 50.7 applicable department shall pay an additional equivalent employer contribution amount.
 50.8 The additional employer contribution is the amount computed under paragraph (d), plus the
 50.9 greater of the amount computed under paragraph (e), or 60 percent of the unfunded actuarial
 50.10 accrued liability attributable to the past service credit transfer.

50.11 (h) The unfunded actuarial accrued liability attributable to the past service credit transfer
 50.12 is the present value of the benefit obtained by the transfer of the service credit to the
 50.13 correctional state employees retirement plan reduced by the amount of the asset transfer
 50.14 under subdivision 4, by the amount of the member contribution equivalent payment computed
 50.15 under paragraph (b), and by the amount of the employer contribution equivalent payment
 50.16 computed under paragraph (d).

50.17 (i) The additional equivalent employer contribution under this subdivision must be paid
 50.18 in a lump sum and must be paid within 30 days of the date on which the executive director
 50.19 of the Minnesota State Retirement System certifies to the applicable department that the
 50.20 employee paid the additional equivalent member contribution.

50.21 **EFFECTIVE DATE.** This section is effective July 1, 2017.

50.22 Sec. 9. Minnesota Statutes 2016, section 352B.013, subdivision 2, is amended to read:

50.23 Subd. 2. **Purchase procedure.** (a) An employee covered by the plan specified in this
 50.24 chapter may purchase credit for allowable service in the plan for a period specified in
 50.25 subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever
 50.26 applies. The employing unit, at its option, may pay the employer portion of the amount
 50.27 specified in paragraph (b) on behalf of its employees.

50.28 (b) If payment is received by the executive director within one year from the date the
 50.29 employee returned to work following the authorized leave, the payment amount is equal to
 50.30 the employee and employer contribution rates specified in section 352B.02 at the end of
 50.31 the leave period multiplied by the employee's hourly rate of salary on the date of return
 50.32 from the leave of absence and by the days and months of the leave of absence for which
 50.33 the employee is eligible for allowable service credit. The payment must include compound

51.1 interest at the ~~monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month~~
 51.2 ~~thereafter~~ applicable monthly rate or rates specified in section 356.59, subdivision 2, from
 51.3 the last day of the leave period until the last day of the month in which payment is received.
 51.4 If payment is received by the executive director after one year from the date the employee
 51.5 returned to work following the authorized leave, the payment amount is the amount
 51.6 determined under section 356.551. Payment under this paragraph must be made before the
 51.7 date of termination from public employment covered under this chapter.

51.8 (c) If the employee terminates employment covered by this chapter during the leave or
 51.9 following the leave rather than returning to covered employment, payment must be received
 51.10 by the executive director within 30 days after the termination date. The payment amount is
 51.11 equal to the employee and employer contribution rates specified in section 352B.02 on the
 51.12 day prior to the termination date, multiplied by the employee's hourly rate of salary on that
 51.13 date and by the days and months of the leave of absence prior to termination.

51.14 **EFFECTIVE DATE.** This section is effective July 1, 2017.

51.15 Sec. 10. Minnesota Statutes 2016, section 352B.085, is amended to read:

51.16 **352B.085 SERVICE CREDIT FOR CERTAIN DISABILITY LEAVES OF**
 51.17 **ABSENCE.**

51.18 A member on leave of absence receiving temporary workers' compensation payments
 51.19 and a reduced salary or no salary from the employer who is entitled to allowable service
 51.20 credit for the period of absence under section 352B.011, subdivision 3, paragraph (b), may
 51.21 make payment to the fund for the difference between salary received, if any, and the salary
 51.22 that the member would normally receive if the member was not on leave of absence during
 51.23 the period. The member shall pay an amount equal to the member and employer contribution
 51.24 rate under section 352B.02, subdivisions 1b and 1c, on the differential salary amount for
 51.25 the period of the leave of absence. The employing department, at its option, may pay the
 51.26 employer amount on behalf of the member. Payment made under this subdivision must
 51.27 include interest at the ~~rate of 8.5 percent until June 30, 2015, and eight percent thereafter~~
 51.28 ~~per year~~ applicable annual rate or rates specified in section 356.59, subdivision 2, and must
 51.29 be completed within one year of the member's return from the leave of absence.

51.30 **EFFECTIVE DATE.** This section is effective July 1, 2017.

51.31 Sec. 11. Minnesota Statutes 2016, section 352B.086, is amended to read:

51.32 **352B.086 SERVICE CREDIT FOR UNIFORMED SERVICE.**

52.1 (a) A member who is absent from employment by reason of service in the uniformed
52.2 services, as defined in United States Code, title 38, section 4303(13), and who returns to
52.3 state employment in a position covered by the plan upon discharge from service in the
52.4 uniformed services within the time frame required in United States Code, title 38, section
52.5 4312(e), may obtain service credit for the period of the uniformed service, provided that
52.6 the member did not separate from uniformed service with a dishonorable or bad conduct
52.7 discharge or under other than honorable conditions.

52.8 (b) The member may obtain credit by paying into the fund an equivalent member
52.9 contribution based on the member contribution rate or rates in effect at the time that the
52.10 uniformed service was performed multiplied by the full and fractional years being purchased
52.11 and applied to the annual salary rate. The annual salary rate is the average annual salary
52.12 during the purchase period that the member would have received if the member had continued
52.13 to provide employment services to the state rather than to provide uniformed service, or if
52.14 the determination of that rate is not reasonably certain, the annual salary rate is the member's
52.15 average salary rate during the 12-month period of covered employment rendered immediately
52.16 preceding the purchase period.

52.17 (c) The equivalent employer contribution and, if applicable, the equivalent employer
52.18 additional contribution, must be paid by the employing unit, using the employer and employer
52.19 additional contribution rate or rates in effect at the time that the uniformed service was
52.20 performed, applied to the same annual salary rate or rates used to compute the equivalent
52.21 member contribution.

52.22 (d) If the member equivalent contributions provided for in this section are not paid in
52.23 full, the member's allowable service credit must be prorated by multiplying the full and
52.24 fractional number of years of uniformed service eligible for purchase by the ratio obtained
52.25 by dividing the total member contributions received by the total member contributions
52.26 otherwise required under this section.

52.27 (e) To receive allowable service credit under this section, the contributions specified in
52.28 this section must be transmitted to the fund during the period which begins with the date
52.29 on which the individual returns to state employment covered by the plan and which has a
52.30 duration of three times the length of the uniformed service period, but not to exceed five
52.31 years. If the determined payment period is calculated to be less than one year, the
52.32 contributions required under this section to receive service credit must be transmitted to the
52.33 fund within one year from the discharge date.

53.1 (f) The amount of allowable service credit obtainable under this section may not exceed
 53.2 five years, unless a longer purchase period is required under United States Code, title 38,
 53.3 section 4312.

53.4 (g) The employing unit shall pay interest on all equivalent member and employer
 53.5 contribution amounts payable under this section. Interest must be computed at the ~~rate of~~
 53.6 ~~8.5 percent until June 30, 2015, and eight percent thereafter~~ applicable annual rate or rates
 53.7 specified in section 356.59, subdivision 2, compounded annually₂ from the end of each
 53.8 fiscal year of the leave or break in service to the end of the month in which payment is
 53.9 received.

53.10 **EFFECTIVE DATE.** This section is effective July 1, 2017.

53.11 Sec. 12. Minnesota Statutes 2016, section 352B.11, subdivision 4, is amended to read:

53.12 Subd. 4. **Reentry into state service; refund repayment.** (a) When a former member,
 53.13 who has become separated from state service that entitled the member to membership and
 53.14 has received a refund of retirement payments, reenters the state service in a position that
 53.15 entitles the member to membership, that member shall receive credit for the period of prior
 53.16 allowable state service if the member repays into the fund the amount of the refund, plus
 53.17 ~~interest on it at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter~~ at
 53.18 the applicable annual rate or rates specified in section 356.59, subdivision 2, compounded
 53.19 annually, at any time before subsequent retirement. Repayment may be made in installments
 53.20 or in a lump sum.

53.21 (b) A person who has received a refund from the State Patrol retirement fund who is a
 53.22 member of a public retirement system included in section 356.311 may repay the refund
 53.23 with interest to the State Patrol retirement fund as provided in paragraph (a).

53.24 **EFFECTIVE DATE.** This section is effective July 1, 2017.

53.25 Sec. 13. Minnesota Statutes 2016, section 352D.05, subdivision 4, is amended to read:

53.26 Subd. 4. **Repayment of refund.** (a) A participant in the unclassified program may repay
 53.27 regular refunds taken under section 352.22, as provided in section 352.23.

53.28 (b) A participant in the unclassified program or an employee covered by the general
 53.29 employees retirement plan who has withdrawn the value of the total shares may repay the
 53.30 refund taken and thereupon restore the service credit, rights and benefits forfeited by paying
 53.31 into the fund the amount refunded plus interest at the ~~rate of 8.5 percent until June 30, 2015,~~
 53.32 ~~and eight percent thereafter~~ applicable annual rate or rates specified in section 356.59,

54.1 subdivision 2, compounded annually, from the date that the refund was taken until the date
 54.2 that the refund is repaid. If the participant had withdrawn only the employee shares as
 54.3 permitted under prior laws, repayment must be pro rata.

54.4 (c) Except as provided in section 356.441, the repayment of a refund under this section
 54.5 must be made in a lump sum.

54.6 **EFFECTIVE DATE.** This section is effective July 1, 2017.

54.7 Sec. 14. Minnesota Statutes 2016, section 352D.11, subdivision 2, is amended to read:

54.8 Subd. 2. **Payments by employee.** An employee entitled to purchase service credit may
 54.9 make the purchase by paying to the state retirement system an amount equal to the current
 54.10 employee contribution rate in effect for the state retirement system applied to the current
 54.11 or final salary rate multiplied by the months and days of prior temporary, intermittent, or
 54.12 contract legislative service. Payment shall be made in one lump sum unless the executive
 54.13 director of the state retirement system agrees to accept payment in installments over a period
 54.14 of not more than three years from the date of the agreement. Installment payments shall be
 54.15 charged interest at the ~~rate of 8.5 percent until June 30, 2015, and eight percent thereafter~~
 54.16 applicable annual rate or rates specified in section 356.59, subdivision 2, compounded
 54.17 annually.

54.18 **EFFECTIVE DATE.** This section is effective July 1, 2017.

54.19 Sec. 15. Minnesota Statutes 2016, section 352D.12, is amended to read:

54.20 **352D.12 TRANSFER OF PRIOR SERVICE CONTRIBUTIONS.**

54.21 (a) An employee who is a participant in the unclassified program and who has prior
 54.22 service credit in a covered plan under chapter 352, 353, 354, 354A, or 422A may, within
 54.23 the time limits specified in this section, elect to transfer to the unclassified program prior
 54.24 service contributions to one or more of those plans.

54.25 (b) For participants with prior service credit in a plan governed by chapter 352, 353,
 54.26 354, 354A, or 422A, "prior service contributions" means the accumulated employee and
 54.27 equal employer contributions with interest at the ~~rate of 8.5 percent until June 30, 2015,~~
 54.28 ~~and eight percent thereafter~~ applicable annual rate or rates specified in section 356.59,
 54.29 subdivision 2, compounded annually, based on fiscal year balances.

54.30 (c) If a participant has taken a refund from a retirement plan listed in this section, the
 54.31 participant may repay the refund to that plan, notwithstanding any restrictions on repayment
 54.32 to that plan, ~~plus 8.5 percent interest until June 30, 2015, and eight percent interest thereafter~~

55.1 with interest at the applicable annual rate or rates specified in section 356.59, subdivision
 55.2 2, compounded annually, and have the accumulated employee and equal employer
 55.3 contributions transferred to the unclassified program with interest at the rate of 8.5 percent
 55.4 until June 30, 2015, and eight percent thereafter compounded annually based on fiscal year
 55.5 balances. If a person repays a refund and subsequently elects to have the money transferred
 55.6 to the unclassified program, the repayment amount, including interest, is added to the fiscal
 55.7 year balance in the year which the repayment was made.

55.8 (d) A participant electing to transfer prior service contributions credited to a retirement
 55.9 plan governed by chapter 352, 353, 354, 354A, or 422A as provided under this section must
 55.10 complete a written application for the transfer and repay any refund within one year of the
 55.11 commencement of the employee's participation in the unclassified program.

55.12 **EFFECTIVE DATE.** This section is effective July 1, 2017.

55.13 Sec. 16. Minnesota Statutes 2016, section 353.01, subdivision 16, is amended to read:

55.14 Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

55.15 (1) service during years of actual membership in the course of which employee deductions
 55.16 were withheld from salary and contributions were made at the applicable rates under section
 55.17 353.27, 353.65, or 353E.03;

55.18 (2) periods of service covered by payments in lieu of salary deductions under sections
 55.19 353.27, subdivisions 12 and 12a, and 353.35;

55.20 (3) service in years during which the public employee was not a member but for which
 55.21 the member later elected, while a member, to obtain credit by making payments to the fund
 55.22 as permitted by any law then in effect;

55.23 (4) a period of authorized leave of absence during which the employee receives pay as
 55.24 specified in subdivision 10, paragraph (a), clause (4) or (5), from which deductions for
 55.25 employee contributions are made, deposited, and credited to the fund;

55.26 (5) a period of authorized leave of absence without pay, or with pay that is not included
 55.27 in the definition of salary under subdivision 10, paragraph (a), clause (4) or (5), for which
 55.28 salary deductions are not authorized, and for which a member obtained service credit for
 55.29 up to 12 months of the authorized leave period by payment under section 353.0161 or
 55.30 353.0162, to the fund made in place of salary deductions;

55.31 (6) a periodic, repetitive leave that is offered to all employees of a governmental
 55.32 subdivision. The leave program may not exceed 208 hours per annual normal work cycle

56.1 as certified to the association by the employer. A participating member obtains service credit
56.2 by making employee contributions in an amount or amounts based on the member's average
56.3 salary, excluding overtime pay, that would have been paid if the leave had not been taken.
56.4 The employer shall pay the employer and additional employer contributions on behalf of
56.5 the participating member. The employee and the employer are responsible to pay interest
56.6 on their respective shares at the ~~rate of 8.5 percent until June 30, 2015, and eight percent~~
56.7 ~~thereafter~~ applicable rate or rates specified in section 356.59, subdivision 3, compounded
56.8 annually, from the end of the normal cycle until full payment is made. An employer shall
56.9 also make the employer and additional employer contributions, plus ~~8.5 percent interest~~
56.10 ~~until June 30, 2015, and eight percent interest thereafter~~ at the applicable rate or rates
56.11 specified in section 356.59, subdivision 3, compounded annually, on behalf of an employee
56.12 who makes employee contributions but terminates public service. The employee contributions
56.13 must be made within one year after the end of the annual normal working cycle or within
56.14 30 days after termination of public service, whichever is sooner. The executive director
56.15 shall prescribe the manner and forms to be used by a governmental subdivision in
56.16 administering a periodic, repetitive leave. Upon payment, the member must be granted
56.17 allowable service credit for the purchased period;

56.18 (7) an authorized temporary or seasonal layoff under subdivision 12, limited to three
56.19 months allowable service per authorized temporary or seasonal layoff in one calendar year.
56.20 An employee who has received the maximum service credit allowed for an authorized
56.21 temporary or seasonal layoff must return to public service and must obtain a minimum of
56.22 three months of allowable service subsequent to the layoff in order to receive allowable
56.23 service for a subsequent authorized temporary or seasonal layoff;

56.24 (8) a period during which a member is absent from employment by a governmental
56.25 subdivision by reason of service in the uniformed services, as defined in United States Code,
56.26 title 38, section 4303(13), if the member returns to public service with the same governmental
56.27 subdivision upon discharge from service in the uniformed service within the time frames
56.28 required under United States Code, title 38, section 4312(e), provided that the member did
56.29 not separate from uniformed service with a dishonorable or bad conduct discharge or under
56.30 other than honorable conditions. The service must be credited if the member pays into the
56.31 fund equivalent employee contributions based upon the contribution rate or rates in effect
56.32 at the time that the uniformed service was performed multiplied by the full and fractional
56.33 years being purchased and applied to the annual salary rate. The annual salary rate is the
56.34 average annual salary during the purchase period that the member would have received if
56.35 the member had continued to be employed in covered employment rather than to provide

57.1 uniformed service, or, if the determination of that rate is not reasonably certain, the annual
57.2 salary rate is the member's average salary rate during the 12-month period of covered
57.3 employment rendered immediately preceding the period of the uniformed service. Payment
57.4 of the member equivalent contributions must be made during a period that begins with the
57.5 date on which the individual returns to public employment and that is three times the length
57.6 of the military leave period, or within five years of the date of discharge from the military
57.7 service, whichever is less. If the determined payment period is less than one year, the
57.8 contributions required under this clause to receive service credit may be made within one
57.9 year of the discharge date. Payment may not be accepted following 30 days after termination
57.10 of public service under subdivision 11a. If the member equivalent contributions provided
57.11 for in this clause are not paid in full, the member's allowable service credit must be prorated
57.12 by multiplying the full and fractional number of years of uniformed service eligible for
57.13 purchase by the ratio obtained by dividing the total member contributions received by the
57.14 total member contributions otherwise required under this clause. The equivalent employer
57.15 contribution, and, if applicable, the equivalent additional employer contribution must be
57.16 paid by the governmental subdivision employing the member if the member makes the
57.17 equivalent employee contributions. The employer payments must be made from funds
57.18 available to the employing unit, using the employer and additional employer contribution
57.19 rate or rates in effect at the time that the uniformed service was performed, applied to the
57.20 same annual salary rate or rates used to compute the equivalent member contribution. The
57.21 governmental subdivision involved may appropriate money for those payments. The amount
57.22 of service credit obtainable under this section may not exceed five years unless a longer
57.23 purchase period is required under United States Code, title 38, section 4312. The employing
57.24 unit shall pay interest on all equivalent member and employer contribution amounts payable
57.25 under this clause. Interest must be computed at the ~~rate of 8.5 percent until June 30, 2015,~~
57.26 ~~and eight percent thereafter~~ applicable rate or rates specified in section 356.59, subdivision
57.27 3, compounded annually, from the end of each fiscal year of the leave or the break in service
57.28 to the end of the month in which the payment is received. Upon payment, the employee
57.29 must be granted allowable service credit for the purchased period; or

57.30 (9) a period specified under section 353.0162.

57.31 (b) No member may receive more than 12 months of allowable service credit in a year
57.32 either for vesting purposes or for benefit calculation purposes.

57.33 (c) For an active member who was an active member of the former Minneapolis
57.34 Firefighters Relief Association on December 29, 2011, "allowable service" is the period of
57.35 service credited by the Minneapolis Firefighters Relief Association as reflected in the

58.1 transferred records of the association up to December 30, 2011, and the period of service
 58.2 credited under paragraph (a), clause (1), after December 30, 2011. For an active member
 58.3 who was an active member of the former Minneapolis Police Relief Association on December
 58.4 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police
 58.5 Relief Association as reflected in the transferred records of the association up to December
 58.6 30, 2011, and the period of service credited under paragraph (a), clause (1), after December
 58.7 30, 2011.

58.8 **EFFECTIVE DATE.** This section is effective July 1, 2017.

58.9 Sec. 17. Minnesota Statutes 2016, section 353.0162, is amended to read:

58.10 **353.0162 REDUCED SALARY PERIODS SALARY CREDIT PURCHASE.**

58.11 (a) A member may purchase additional salary credit for a period specified in this section.

60.27 Sec. 19. Minnesota Statutes 2016, section 353.27, subdivision 7a, is amended to read:

60.28 Subd. 7a. **Deductions or contributions transmitted by error.** (a) If employee deductions
 60.29 and employer contributions under this section, section 353.50, 353.65, or 353E.03 were

 60.31 by chapter 352D, 353D, 354B, or 354D, the executive director shall transfer the erroneous
 60.32 employee deductions and employer contributions to the appropriate retirement fund or
 60.33 individual account, as applicable. The time limitations specified in subdivisions 7 and 12

61.1 do not apply. The transfer to the applicable defined contribution plan account must include
61.2 interest at the ~~rate of 0.71 percent per month until June 30, 2015, and 0.667 percent~~ applicable

61.8 plan to fail to be a qualified plan under section 401(a) of the federal Internal Revenue Code,
61.9 as amended, must not be made by the executive director of the association. Within 30 days
61.10 after being notified by the Public Employees Retirement Association of an unmade potential
61.11 transfer under this paragraph, the employer of the affected person must transmit an amount
61.12 representing the applicable salary deductions and employer contributions, without interest,
61.13 to the retirement fund of the appropriate Minnesota public pension plan, or to the applicable
61.14 individual account if the proper coverage is by a defined contribution plan. The association
61.15 must provide the employing unit a credit for the amount of the erroneous salary deductions
61.16 and employer contributions against future contributions from the employer. If the employing
61.17 unit receives a credit under this paragraph, the employing unit is responsible for refunding
61.18 to the applicable employee any amount that had been erroneously deducted from the person's
61.19 salary.

61.20 (c) If erroneous employee deductions and employer contributions reflect a plan coverage
61.21 error involving any Public Employees Retirement Association plan specified in section
61.22 356.99 and any other plan specified in that section, section 356.99 applies.

61.23 **EFFECTIVE DATE.** This section is effective July 1, 2017.

61.31 the discovery of the omission. Payment for the omitted obligations may only be made in
61.32 accordance with reporting procedures and methods established by the executive director.

61.33 (b) When the entire omission period of an employee does not exceed 60 days, the
61.34 governmental subdivision may report and submit payment of the omitted employee

62.6 omitted employee deductions must be deducted from the employee's subsequent salary
62.7 payment or payments and remitted to the association for deposit in the applicable retirement
62.8 fund. The employee shall pay omitted employee deductions due for the 60 days prior to the

62.15 beyond the pay period dates under paragraph (c), nor attempt to recover from the employee
62.16 those employee deductions paid by the employer on behalf of the employee. Omitted
62.17 deductions due under paragraph (c) which are not paid by the employee constitute a liability
62.18 of the employer that failed to deduct the omitted deductions from the employee's salary.
62.19 The employer shall make payment with interest at the ~~annual rate of 8.5 percent until June~~
62.20 ~~30, 2015, and eight percent thereafter~~ applicable rate or rates specified in section 356.59,
62.21 subdivision 3, compounded annually. Omitted employee deductions are no longer due if an
62.22 employee terminates public service before making payment of omitted employee deductions
62.23 to the association, but the employer remains liable to pay omitted employer contributions
62.24 plus interest at the ~~annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter~~
62.25 applicable rate or rates specified in section 356.59, subdivision 3, compounded annually,
62.26 from the date the contributions were first payable.

62.27 (e) The association may not commence action for the recovery of omitted employee
62.28 deductions and employer contributions after the expiration of three calendar years after the
62.29 calendar year in which the contributions and deductions were omitted. Except as provided
62.30 under paragraph (b), no payment may be made or accepted unless the association has already
62.31 commenced action for recovery of omitted deductions. An action for recovery commences
62.32 on the date of the mailing of any written correspondence from the association requesting
62.33 information from the governmental subdivision upon which to determine whether or not
62.34 omitted deductions occurred.

 68.3 ~~retirement fund as specified in section 356.215, subdivision 8, stated as a monthly rate~~
 68.4 applicable annual rate or rates specified in section 356.59, subdivision 5, from the date due
 68.5 until the date payment is received in the office of the association, compounded annually,
 68.6 with a minimum interest charge of \$10. If the shortage payment and interest is not paid by
 68.7 the employing unit within 60 days of notification, the executive director shall certify the
 68.8 amount of the shortage payment and interest to the commissioner of management and budget,
 68.9 who shall deduct the amount from any state aid or appropriation amount applicable to the
 68.10 employing unit.

68.11 **EFFECTIVE DATE.** This section is effective July 1, 2017.

68.12 Sec. 32. Minnesota Statutes 2016, section 354A.12, subdivision 7, is amended to read:

68.13 Subd. 7. **Recovery of benefit overpayments.** (a) If the executive director discovers,
 68.14 within the time period specified in subdivision 8 following the payment of a refund or the
 68.15 accrual date of any retirement annuity, survivor benefit, or disability benefit, that benefit
 68.16 overpayment has occurred due to using invalid service or salary, or due to any erroneous
 68.17 calculation procedure, the executive director must recalculate the annuity or benefit payable
 68.18 and recover any overpayment. The executive director shall recover the overpayment by
 68.19 requiring direct repayment or by suspending or reducing the payment of a retirement annuity
 68.20 or other benefit payable under this chapter to the applicable person or the person's estate,
 68.21 whichever applies, until all outstanding amounts have been recovered. If a benefit
 68.22 overpayment or improper payment of benefits occurred caused by a failure of the person
 68.23 to satisfy length of separation requirements for retirement under section 354A.011,
 68.24 subdivision 21, the executive director shall recover the improper payments by requiring
 68.25 direct repayment. The repayment must include interest at the ~~rate of 0.71 percent per month~~
 68.26 applicable annual rate or rates specified in section 356.59, subdivision 5, from the first of
 68.27 the month in which a monthly benefit amount was paid to the first of the month in which
 68.28 the amount is repaid, with annual compounding.

68.29 (b) In the event the executive director determines that an overpaid annuity or benefit
 68.30 that is the result of invalid salary included in the average salary used to calculate the payment
 68.31 amount must be recovered, the executive director must determine the amount of the employee
 68.32 deductions taken in error on the invalid salary, with interest as determined under 354A.37,
 68.33 subdivision 3, and must subtract that amount from the total annuity or benefit overpayment,
 68.34 and the remaining balance of the overpaid annuity or benefit, if any, must be recovered.

69.1 (c) If the invalid employee deductions plus interest exceed the amount of the overpaid
 69.2 benefits, the balance must be refunded to the person to whom the benefit or annuity is being
 69.3 paid.

69.4 (d) Any invalid employer contributions reported on the invalid salary must be credited
 69.5 against future contributions payable by the employer.

69.6 (e) If a member or former member, who is receiving a retirement annuity or disability
 69.7 benefit for which an overpayment is being recovered, dies before recovery of the overpayment
 69.8 is completed and an optional annuity or refund is payable, the remaining balance of the
 69.9 overpaid annuity or benefit must continue to be recovered from the payment to the optional
 69.10 annuity beneficiary or refund recipient.

69.11 (f) The board of trustees shall adopt policies directing the period of time and manner
 69.12 for the collection of any overpaid retirement or optional annuity, and survivor or disability
 69.13 benefit, or a refund that the executive director determines must be recovered as provided
 69.14 under this section.

69.15 **EFFECTIVE DATE.** This section is effective July 1, 2017.

69.16 Sec. 33. Minnesota Statutes 2016, section 354A.34, is amended to read:

69.17 **354A.34 DISPOSITION OF UNPAID PERIOD CERTAIN FOR LIFE OR**
 69.18 **GUARANTEED REFUND OPTIONAL ANNUITIES.**

69.19 If a retiree from a coordinated program who has elected a period certain and for life
 69.20 thereafter or a guaranteed refund optional annuity form dies without having a designated
 69.21 beneficiary who has survived the retiree, any remaining unpaid guaranteed annuity payments
 69.22 shall be computed at the rate of interest specified in section 356.215, subdivision 8, and
 69.23 paid in one lump sum to the estate of the retiree. If a retiree from a coordinated program
 69.24 who has elected a period certain and for life or a guaranteed refund optional annuity form
 69.25 dies with a designated beneficiary who has survived the retiree but the designated beneficiary
 69.26 dies without there existing another designated beneficiary, any remaining unpaid guaranteed
 69.27 annuity payments shall be computed ~~at the rate of~~ with interest at the applicable annual rate
 69.28 or rates specified in section ~~356.215, subdivision 8~~ 356.59, subdivision 5, and paid in one
 69.29 lump sum to the estate of the designated beneficiary.

69.30 **EFFECTIVE DATE.** This section is effective July 1, 2017.

70.1 Sec. 34. Minnesota Statutes 2016, section 356.195, subdivision 2, is amended to read:

70.2 Subd. 2. **Purchase procedure for strike periods.** (a) An employee covered by a plan
70.3 specified in subdivision 1 may purchase allowable service credit in the applicable plan for
70.4 any period of time during which the employee was on a public employee strike without
70.5 pay, not to exceed a period of one year, if the employee makes a payment in lieu of salary
70.6 deductions as specified in paragraph (b) or (c), whichever applies. The employing unit, at
70.7 its option, may pay the employer portion of the amount specified in paragraph (b) on behalf
70.8 of its employees.

70.9 (b) If payment is received by the applicable pension plan executive director within one
70.10 year from the end of the strike, the payment amount is equal to the applicable employee
70.11 and employer contribution rates specified in law for the applicable plan during the strike
70.12 period, applied to the employee's rate of salary in effect at the conclusion of the strike for
70.13 the period of the strike without pay, plus compound interest at the ~~monthly rate of 0.71~~
70.14 ~~percent for any period for the Teachers Retirement Association and at the monthly rate of~~
70.15 ~~0.71 percent until June 30, 2015, and 0.667 percent thereafter for any other retirement plan~~
70.16 ~~listed in section 356.30, subdivision 3~~ applicable monthly rate or rates specified in section
70.17 356.59, subdivision 2, 3, 4, or 5, whichever applies, from the last day of the strike period
70.18 until the date payment is received.

70.19 (c) If payment is received by the applicable pension fund director after one year and
70.20 before five years from the end of the strike, the payment amount is the amount determined
70.21 under section 356.551.

70.22 (d) Payments may not be made more than five years after the end of the strike.

70.23 **EFFECTIVE DATE.** This section is effective July 1, 2017.

70.24 Sec. 35. Minnesota Statutes 2016, section 356.44, is amended to read:

70.25 **356.44 PARTIAL PAYMENT OF PENSION PLAN REFUND.**

70.26 (a) Notwithstanding any provision of law to the contrary, a member of a pension plan
70.27 listed in section 356.30, subdivision 3, with at least two years of forfeited service taken
70.28 from a single pension plan, may repay a portion of all refunds. A partial refund repayment
70.29 must comply with this section.

70.30 (b) The minimum portion of a refund repayment is one-third of the total service credit
70.31 period of all refunds taken from a single plan.

71.1 (c) The cost of the partial refund repayment is the product of the cost of the total
 71.2 repayment multiplied by the ratio of the restored service credit to the total forfeited service
 71.3 credit. The total repayment amount includes interest at the ~~annual rate of 8.5 percent for~~
 71.4 ~~any period for the Teachers Retirement Association and is 8.5 percent until June 30, 2015,~~
 71.5 ~~and eight percent thereafter for any other retirement plan listed in section 356.30, subdivision~~
 71.6 ~~3 at the applicable annual rate or rates specified in section 356.59, subdivision 2, 3, 4, or 5,~~
 71.7 whichever applies, compounded annually, from the refund date to the date repayment is
 71.8 received.

71.9 (d) The restored service credit must be allocated based on the relationship the restored
 71.10 service bears to the total service credit period for all refunds taken from a single pension
 71.11 plan.

71.12 (e) This section does not authorize a public pension plan member to repay a refund if
 71.13 the law governing the plan does not authorize the repayment of a refund of member
 71.14 contributions.

71.15 **EFFECTIVE DATE.** This section is effective July 1, 2017.

71.16 Sec. 36. Minnesota Statutes 2016, section 356.50, subdivision 2, is amended to read:

71.17 Subd. 2. **Service credit procedure.** (a) To obtain the public pension plan allowable
 71.18 service credit, the eligible person under subdivision 1 shall pay the required member
 71.19 contribution amount. The required member contribution amount is the member contribution
 71.20 rate or rates in effect for the pension plan during the period of service covered by the back
 71.21 pay award, applied to the unpaid gross salary amounts of the back pay award including
 71.22 unemployment insurance, workers' compensation, or wages from other sources which
 71.23 reduced the back award. No contributions may be made under this clause for compensation
 71.24 covered by a public pension plan listed in section 356.30, subdivision 3, for employment
 71.25 during the removal period. The person shall pay the required member contribution amount
 71.26 within 60 days of the date of receipt of the back pay award or within 60 days of a billing
 71.27 from the retirement fund, whichever is later.

71.28 (b) The public employer who wrongfully discharged the public employee must pay an
 71.29 employer contribution on the back pay award. The employer contribution must be based
 71.30 on the employer contribution rate or rates in effect for the pension plan during the period
 71.31 of service covered by the back pay award, applied to the salary amount on which the member
 71.32 contribution amount was determined under paragraph (a). ~~Interest on both the required~~
 71.33 ~~member and employer contribution amount must be paid by the employer at the annual~~
 71.34 ~~compound rate of 8.5 percent for any period for the Teachers Retirement Association and~~

72.1 ~~8.5 percent until June 30, 2015, and eight percent thereafter, for any other retirement plan~~
 72.2 ~~listed in section 356.30, subdivision 3, per year, expressed monthly~~ The employer must pay
 72.3 compound interest on both the required member and employer contribution amounts at the
 72.4 applicable monthly rate or rates specified in section 356.59, subdivision 2, 3, 4, or 5,
 72.5 whichever applies, between the date the contribution amount would have been paid to the
 72.6 date of actual payment. The employer payment must be made within 30 days of the payment
 72.7 under paragraph (a).

72.8 **EFFECTIVE DATE.** This section is effective July 1, 2017.

72.9 Sec. 37. Minnesota Statutes 2016, section 356.551, subdivision 2, is amended to read:

72.10 Subd. 2. **Determination.** (a) Unless the minimum purchase amount set forth in paragraph
 72.11 (c) applies, the prior service credit purchase amount is an amount equal to the actuarial
 72.12 present value, on the date of payment, as calculated by the chief administrative officer of
 72.13 the pension plan and reviewed by the actuary retained under section 356.214, of the amount
 72.14 of the additional retirement annuity obtained by the acquisition of the additional service
 72.15 credit in this section.

72.16 (b) Calculation of this amount must be made using the preretirement interest rate
 72.17 applicable to the public pension plan specified in section 356.215, subdivision 8, and the
 72.18 mortality table adopted for the public pension plan. The calculation must assume continuous
 72.19 future service in the public pension plan until, and retirement at, the age at which the
 72.20 minimum requirements of the fund for normal retirement or retirement with an annuity
 72.21 unreduced for retirement at an early age, including section 356.30, are met with the additional
 72.22 service credit purchased. The calculation must also assume a full-time equivalent salary, or
 72.23 actual salary, whichever is greater, and a future salary history that includes annual salary
 72.24 increases at the applicable salary increase rate for the plan specified in section 356.215,
 72.25 subdivision ~~4~~ 8.

72.26 (c) The prior service credit purchase amount may not be less than the amount determined
 72.27 by applying, for each year or fraction of a year being purchased, the sum of the employee
 72.28 contribution rate, the employer contribution rate, and the additional employer contribution
 72.29 rate, if any, applicable during that period, to the person's annual salary during that period,
 72.30 or fractional portion of a year's salary, if applicable, plus interest at the ~~annual rate of 8.5~~
 72.31 ~~percent until June 30, 2015, and eight percent thereafter~~ applicable annual rate or rates
 72.32 specified in section 356.59, subdivision 2, 3, 4, or 5, whichever applies, compounded
 72.33 annually, from the end of the year in which contributions would otherwise have been made
 72.34 to the date on which the payment is received.

73.1 (d) Unless otherwise provided by statutes governing a specific plan, payment must be
 73.2 made in one lump sum within one year of the prior service credit authorization or prior to
 73.3 the member's effective date of retirement, whichever is earlier. Payment of the amount
 73.4 calculated under this section must be made by the applicable eligible person.

73.5 (e) However, the current employer or the prior employer may, at its discretion, pay all
 73.6 or any portion of the payment amount that exceeds an amount equal to the employee
 73.7 contribution rates in effect during the period or periods of prior service applied to the actual
 73.8 salary rates in effect during the period or periods of prior service, plus interest at the
 73.9 applicable annual rate of 8.5 percent a year or rates specified in section 356.59, subdivision
 73.10 2, 3, 4, or 5, whichever applies, compounded annually, from the date on which the
 73.11 contributions would otherwise have been made to the date on which the payment is made.
 73.12 If the employer agrees to payments under this subdivision, the purchaser must make the
 73.13 employee payments required under this subdivision within 90 days of the prior service credit
 73.14 authorization. If that employee payment is made, the employer payment under this
 73.15 subdivision must be remitted to the chief administrative officer of the public pension plan
 73.16 within 60 days of receipt by the chief administrative officer of the employee payments
 73.17 specified under this subdivision.

73.18 **EFFECTIVE DATE.** This section is effective July 1, 2017.

73.19 Sec. 38. **[356.59] INTEREST RATES.**

73.20 **Subdivision 1. Applicable interest rates.** Whenever the payment of interest is required
 73.21 with respect to any payment, including refunds, remittances, shortages, contributions, or
 73.22 repayments, the rate of interest is the rate or rates specified in subdivisions 2 to 5 for each
 73.23 public retirement plan.

73.24 **Subd. 2. Minnesota State Retirement System.** The interest rates for all retirement plans
 73.25 administered by the Minnesota State Retirement System are as follows:

74.12	<u>after June 30, 2017</u>	<u>7.5 percent</u>	<u>0.625 percent</u>

74.13 **EFFECTIVE DATE.** This section is effective July 1, 2017.

74.14 Sec. 39. Minnesota Statutes 2016, section 490.121, subdivision 4, is amended to read:

74.15 Subd. 4. **Allowable service.** (a) "Allowable service" means any calendar month, subject
 74.16 to the service credit limit in subdivision 22, served as a judge at any time, during which the
 74.17 judge received compensation for that service from the state, municipality, or county,
 74.18 whichever applies, and for which the judge made any required member contribution. It also
 74.19 includes any month served as a referee in probate for all referees in probate who were in
 74.20 office before January 1, 1974.

74.21 (b) "Allowable service" also means a period of authorized leave of absence for which
 74.22 the judge has made a payment in lieu of contributions, not in an amount in excess of the
 74.23 service credit limit under subdivision 22. To obtain the service credit, the judge shall pay
 74.24 an amount equal to the normal cost of the judges retirement plan on the date of return from
 74.25 the leave of absence, as determined in the most recent actuarial report for the plan filed with
 74.26 the Legislative Commission on Pensions and Retirement, multiplied by the judge's average
 74.27 monthly salary rate during the authorized leave of absence and multiplied by the number
 74.28 of months of the authorized leave of absence, plus ~~annual compound interest at the rate of~~
 74.29 ~~8.5 percent until June 30, 2015, and eight percent thereafter~~ interest at the applicable annual
 74.30 rate or rates specified in section 356.59, subdivision 2, compounded annually, from the date
 74.31 of the termination of the leave to the date on which payment is made. The payment must
 74.32 be made within one year of the date on which the authorized leave of absence terminated.
 74.33 Service credit for an authorized leave of absence is in addition to a uniformed service leave
 74.34 under section 490.1211.

75.1 (c) "Allowable service" does not mean service as a retired judge.

75.2 **EFFECTIVE DATE.** This section is effective July 1, 2017.

75.3 Sec. 40. Minnesota Statutes 2016, section 490.1211, is amended to read:

75.4 **490.1211 UNIFORMED SERVICE.**

75.5 (a) A judge who is absent from employment by reason of service in the uniformed
75.6 services, as defined in United States Code, title 38, section 4303(13), and who returns to
75.7 state employment as a judge upon discharge from service in the uniformed service within
75.8 the time frame required in United States Code, title 38, section 4312(e), may obtain service
75.9 credit for the period of the uniformed service, provided that the judge did not separate from
75.10 uniformed service with a dishonorable or bad conduct discharge or under other than honorable
75.11 conditions.

75.12 (b) The judge may obtain credit by paying into the fund equivalent member contribution
75.13 based on the contribution rate or rates in effect at the time that the uniformed service was
75.14 performed multiplied by the full and fractional years being purchased and applied to the
75.15 annual salary rate. The annual salary rate is the average annual salary during the purchase
75.16 period that the judge would have received if the judge had continued to provide employment
75.17 services to the state rather than to provide uniformed service, or if the determination of that
75.18 rate is not reasonably certain, the annual salary rate is the judge's average salary rate during
75.19 the 12-month period of judicial employment rendered immediately preceding the purchase
75.20 period.

75.21 (c) The equivalent employer contribution and, if applicable, the equivalent employer
75.22 additional contribution, must be paid by the employing unit, using the employer and employer
75.23 additional contribution rate or rates in effect at the time that the uniformed service was
75.24 performed, applied to the same annual salary rate or rates used to compute the equivalent
75.25 member contribution.

75.26 (d) If the member equivalent contributions provided for in this section are not paid in
75.27 full, the judge's allowable service credit must be prorated by multiplying the full and
75.28 fractional number of years of uniformed service eligible for purchase by the ratio obtained
75.29 by dividing the total member contributions received by the total member contributions
75.30 otherwise required under this section.

75.31 (e) To receive allowable service credit under this section, the contributions specified in
75.32 this section and section 490.121 must be transmitted to the fund during the period which
75.33 begins with the date on which the individual returns to judicial employment and which has

76.1 a duration of three times the length of the uniformed service period, but not to exceed five
 76.2 years. If the determined payment period is calculated to be less than one year, the
 76.3 contributions required under this section to receive service credit may be within one year
 76.4 from the discharge date.

76.5 (f) The amount of allowable service credit obtainable under this section and section
 76.6 490.121 may not exceed five years, unless a longer purchase period is required under United
 76.7 States Code, title 38, section 4312.

76.8 (g) The state court administrator shall pay interest on all equivalent member and employer
 76.9 contribution amounts payable under this section. Interest must be ~~computed at the rate of~~
 76.10 ~~8.5 percent until June 30, 2015, and eight percent thereafter~~ at the applicable annual rate or
 76.11 rates specified in section 356.59, subdivision 2, compounded annually, from the end of each
 76.12 fiscal year of the leave or break in service to the end of the month in which payment is
 76.13 received.

76.14 **EFFECTIVE DATE.** This section is effective July 1, 2017.

76.15 Sec. 41. Minnesota Statutes 2016, section 490.124, subdivision 12, is amended to read:

76.16 Subd. 12. **Refund.** (a) A person who ceases to be a judge is entitled to a refund in an
 76.17 amount that is equal to all of the member's employee contributions to the judges' retirement
 76.18 fund plus interest computed under section 352.22, subdivision 2.

76.19 (b) A refund of contributions under paragraph (a) terminates all service credits and all
 76.20 rights and benefits of the judge and the judge's survivors under this chapter.

76.21 (c) A person who becomes a judge again after taking a refund under paragraph (a) may
 76.22 reinstate the previously terminated allowable service credit, rights, and benefits by repaying
 76.23 the total amount of the previously received refund. The refund repayment must include
 76.24 interest ~~on the total amount previously received at the annual rate of 8.5 percent until June~~
 76.25 ~~30, 2015, and eight percent thereafter~~ at the applicable annual rate or rates specified in
 76.26 section 356.59, subdivision 2, compounded annually, from the date on which the refund
 76.27 was received until the date on which the refund is repaid.

76.28 **EFFECTIVE DATE.** This section is effective July 1, 2017.

90.17 **EFFECTIVE DATE.** This section is effective July 1, 2017.

90.18 Sec. 7. Minnesota Statutes 2016, section 352.113, subdivision 4, is amended to read:

90.19 Subd. 4. **Medical or psychological examinations; authorization for payment of**
 90.20 **benefit.** (a) Any physician, psychologist, chiropractor, ~~or~~ physician assistant, or nurse
 90.21 practitioner providing any service specified in this section must be licensed.

90.22 (b) An applicant shall provide a detailed report signed by a physician, and at least one
 90.23 additional report signed by a physician, ~~chiropractor~~, psychologist, ~~or~~ chiropractor, physician
 90.24 assistant, or nurse practitioner with evidence to support an application for total and permanent
 90.25 disability. The reports must include an expert opinion regarding whether the employee is
 90.26 permanently and totally disabled within the meaning of section 352.01, subdivision 17, and
 90.27 that the disability arose before the employee was placed on any paid or unpaid leave of
 90.28 absence or terminated public service.

90.29 (c) If there is medical evidence that supports the expectation that at some point the person
 90.30 applying for the disability benefit will no longer be disabled, the decision granting the
 90.31 disability benefit may provide for a termination date upon which the total and permanent
 90.32 disability can be expected to no longer exist. When a termination date is part of the decision

91.1 granting benefits, prior to the benefit termination the executive director shall review any
91.2 evidence provided by the disabled employee to show that the disabling condition for which
91.3 benefits were initially granted continues. If the benefits cease, the disabled employee may
91.4 follow the appeal procedures described in section 356.96 or may reapply for disability
91.5 benefits using the process described in this subdivision.

91.6 (d) Any claim to disability must be supported by a report from the employer indicating
91.7 that there is no available work that the employee can perform with the disabling condition
91.8 and that all reasonable accommodations have been considered. Upon request of the executive
91.9 director, an employer shall provide evidence of the steps the employer has taken to attempt
91.10 to provide reasonable accommodations and continued employment to the claimant.

91.11 (e) The director shall also obtain written certification from the employer stating whether
91.12 the employment has ceased or whether the employee is on sick leave of absence because
91.13 of a disability that will prevent further service to the employer and that the employee is not
91.14 entitled to compensation from the employer.

91.15 (f) The medical adviser shall consider the reports of the ~~physicians, physician assistants,~~
91.16 ~~psychologists, and chiropractors~~ physician, psychologist, chiropractor, physician assistant,
91.17 or nurse practitioner and any other evidence supplied by the employee or other interested
91.18 parties. If the medical adviser finds the employee totally and permanently disabled, the
91.19 adviser shall make appropriate recommendation to the director in writing together with the
91.20 date from which the employee has been totally disabled. The director shall then determine
91.21 if the disability occurred ~~within 18 months of filing the application,~~ while still in the
91.22 employment of the state, ~~and the propriety of authorizing payment of a disability benefit as~~
91.23 ~~provided in this section~~ and constitutes a total and permanent disability as defined in section
91.24 352.01, subdivision 17.

91.25 (g) A terminated employee may apply for a disability benefit within 18 months of
91.26 termination as long as the disability occurred while in the employment of the state. The fact
91.27 that an employee is placed on leave of absence without compensation because of disability
91.28 does not bar that employee from receiving a disability benefit.

91.29 (h) Upon appeal, the board of directors may extend the disability benefit application
91.30 deadline in paragraph (g) by an additional 18 months if the terminated employee is
91.31 determined by the board of directors to have a cognitive impairment that made it unlikely
91.32 that the terminated employee understood that there was an application deadline or that the
91.33 terminated employee was able to meet the application deadline.

92.1 ~~(h)~~ (i) Unless the payment of a disability benefit has terminated because the employee
 92.2 is no longer totally disabled, or because the employee has reached normal retirement age
 92.3 as provided in this section, the disability benefit must cease with the last payment received
 92.4 by the disabled employee or which had accrued during the lifetime of the employee unless
 92.5 there is a spouse surviving. In that event, the surviving spouse is entitled to the disability
 92.6 benefit for the calendar month in which the disabled employee died.

92.7 **EFFECTIVE DATE.** This section is effective July 1, 2017.

92.8 Sec. 8. Minnesota Statutes 2016, section 352.113, subdivision 14, is amended to read:

 92.10 earnings from reemployment and income from workers' compensation to the system annually
 92.11 by May 15 in a format prescribed by the executive director. The executive director may
 92.12 waive the earnings report requirement for any disabled employee who is not required to
 92.13 undergo regular medical or psychological examinations under subdivision 6. If the form is
 92.14 not submitted by June 15, benefits must be suspended effective July 1. If the form deemed
 92.15 acceptable by the executive director is received after the June 15 deadline, benefits shall be
 92.16 reinstated retroactive to July 1.

 92.21 allowable service credits and all rights and benefits to which the employee was entitled
 92.22 before accepting the refund terminate.

92.23 (b) Terminated service credits and rights must not again be restored until the former

 92.25 ~~In that event, the employee may repay and repays~~ all refunds previously taken from the
 92.26 retirement fund with interest as provided in paragraph (d).

 93.12 membership, that member shall receive credit for the period of prior allowable state service
 93.13 if the member repays into the fund the amount of the refund, plus interest on it at the rate
 93.14 of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually, ~~at~~
 93.15 ~~any time before subsequent retirement. Repayment may be made in installments or in a~~

158.6 Sec. 12. Minnesota Statutes 2016, section 424A.01, subdivision 6, is amended to read:

158.7 Subd. 6. **Return to active firefighting after break in service.** (a) This subdivision
158.8 governs the service pension calculation requirements of a firefighter who returns to active
158.9 service after a break in service and applies to all breaks in service, except that the resumption
158.10 service requirements of this subdivision do not apply to leaves of absence made available
158.11 by federal statute, such as the Family Medical Leave Act, United States Code, title 29,
158.12 section 2691, and the Uniformed Services Employment and Reemployment Rights Act,
158.13 United States Code, title 38, section 4301, and do not apply to leaves of absence made
158.14 available by state statute, such as the Parental Leave Act, section 181.941; the Leave for
158.15 Organ Donation Act, section 181.9456; the Leave for Civil Air Patrol Service Act, section
158.16 181.946; the Leave for Immediate Family Members of Military Personnel Injured or Killed
158.17 in Active Service Act, section 181.947; or the Protection of Jurors' Employment Act, section
158.18 593.50.

158.19 (b)(1) If a firefighter who has ceased to perform or supervise fire suppression and fire
158.20 prevention duties for at least 60 days resumes performing active firefighting with the fire
158.21 department associated with the relief association, if the bylaws of the relief association so
158.22 permit, the firefighter may again become an active member of the relief association. A
158.23 firefighter who returns to active service and membership is subject to the service pension
158.24 calculation requirements under this section.

158.25 (2) A firefighter who has been granted an approved leave of absence not exceeding one
158.26 year by the fire department or by the relief association is exempt from the minimum period
158.27 of resumption service requirement of this section.

158.28 (3) A person who has a break in service not exceeding one year but has not been granted
158.29 an approved leave of absence and who has not received a service pension or disability benefit
158.30 may be made exempt from the minimum period of resumption service requirement of this
158.31 section by the relief association bylaws.

159.1 (4) If the bylaws so provide, a firefighter who returns to active relief association
159.2 membership under this paragraph may continue to collect a monthly service pension,
159.3 notwithstanding the service pension eligibility requirements under chapter 424A.

159.4 (c) If a former firefighter who has received a service pension or disability benefit returns
159.5 to active relief association membership under paragraph (b), the firefighter may qualify for
159.6 the receipt of a service pension from the relief association for the resumption service period
159.7 if the firefighter meets the service requirements of section 424A.016, subdivision 3, or
159.8 424A.02, subdivision 2. No firefighter may be paid a service pension more than once for
159.9 the same period of service.

159.10 (d) If a former firefighter who has not received a service pension or disability benefit
159.11 returns to active relief association membership under paragraph (b), the firefighter may
159.12 qualify for the receipt of a service pension from the relief association for the original and
159.13 resumption service periods if the firefighter meets the service requirements of section
159.14 424A.016, subdivision 3, or 424A.02, subdivision 2, based on the original and resumption
159.15 years of service credit.

159.16 (e) A firefighter who returns to active lump-sum relief association membership under
159.17 paragraph (b) and who qualifies for a service pension under paragraph (c) must have, upon
159.18 a subsequent cessation of duties, any service pension for the resumption service period
159.19 calculated as a separate benefit. If a lump-sum service pension had been paid to the firefighter
159.20 upon the firefighter's previous cessation of duties, a second lump-sum service pension for
159.21 the resumption service period must be calculated by applying the service pension amount
159.22 in effect on the date of the firefighter's termination of the resumption service for all years
159.23 of the resumption service.

159.24 (f) A firefighter who had not been paid a lump-sum service pension returns to active
159.25 relief association membership under paragraph (b), who did not meet the minimum period
159.26 of resumption service requirement specified in the relief association's bylaws, but who does
159.27 meet the minimum service requirement of section 424A.02, subdivision 2, based on the
159.28 firefighter's original and resumption years of active service, must have, upon a subsequent
159.29 cessation of duties, a service pension for the original and resumption service periods
159.30 calculated by applying the service pension amount in effect on the date of the firefighter's
159.31 termination of the resumption service, or, if the bylaws so provide, based on the service
159.32 pension amount in effect on the date of the firefighter's previous cessation of duties. The
159.33 service pension for a firefighter who returns to active lump-sum relief association membership
159.34 under this paragraph, but who had met the minimum period of resumption service requirement

160.1 specified in the relief association's bylaws, must be calculated by applying the service
160.2 pension amount in effect on the date of the firefighter's termination of the resumption service.

160.3 (g) If a firefighter receiving a monthly benefit service pension returns to active monthly
160.4 benefit relief association membership under paragraph (b), and if the relief association
160.5 bylaws do not allow for the firefighter to continue collecting a monthly service pension,
160.6 any monthly benefit service pension payable to the firefighter is suspended as of the first
160.7 day of the month next following the date on which the firefighter returns to active
160.8 membership. If the firefighter was receiving a monthly benefit service pension, and qualifies
160.9 for a service pension under paragraph (c), the firefighter is entitled to an additional monthly
160.10 benefit service pension upon a subsequent cessation of duties calculated based on the
160.11 resumption service credit and the service pension accrual amount in effect on the date of
160.12 the termination of the resumption service. A suspended initial service pension resumes as
160.13 of the first of the month next following the termination of the resumption service. If the
160.14 firefighter was not receiving a monthly benefit service pension and meets the minimum
160.15 service requirement of section 424A.02, subdivision 2, a service pension must be calculated
160.16 by applying the service pension amount in effect on the date of the firefighter's termination
160.17 of the resumption service for all years of service credit.

160.18 (h) A firefighter who was not receiving a monthly benefit service pension returns to
160.19 active relief association membership under paragraph (b), who did not meet the minimum
160.20 period of resumption service requirement specified in the relief association's bylaws, but
160.21 who does meet the minimum service requirement of section 424A.02, subdivision 2, based
160.22 on the firefighter's original and resumption years of active service, must have, upon a
160.23 subsequent cessation of duties, a service pension for the original and resumption service
160.24 periods calculated by applying the service pension amount in effect on the date of the
160.25 firefighter's termination of the resumption service, or, if the bylaws so provide, based on
160.26 the service pension amount in effect on the date of the firefighter's previous cessation of
160.27 duties. The service pension for a firefighter who returns to active relief association
160.28 membership under this paragraph, but who had met the minimum period of resumption
160.29 service requirement specified in the relief association's bylaws, must be calculated by
160.30 applying the service pension amount in effect on the date of the firefighter's termination of
160.31 the resumption service.

160.32 (i) For defined contribution plans, a firefighter who returns to active relief association
160.33 membership under paragraph (b) and who qualifies for a service pension under paragraph
160.34 (c) or (d) must have, upon a subsequent cessation of duties, any service pension for the
160.35 resumption service period calculated as a separate benefit. If a service pension had been

161.1 paid to the firefighter upon the firefighter's previous cessation of duties, and if the firefighter
 161.2 meets the minimum service requirement of section 424A.016, subdivision 3, based on the
 161.3 resumption years of service, a second service pension for the resumption service period
 161.4 must be calculated to include allocations credited to the firefighter's individual account
 161.5 during the resumption period of service and deductions for administrative expenses, if
 161.6 applicable.

161.7 (j) For defined contribution plans, if a firefighter who had not been paid a service pension
 161.8 returns to active relief association membership under paragraph (b), and who meets the
 161.9 minimum service requirement of section 424A.016, subdivision 3, based on the firefighter's
 161.10 original and resumption years of service, must have, upon a subsequent cessation of duties,
 161.11 a service pension for the original and resumption service periods calculated to include
 161.12 allocations credited to the firefighter's individual account during the original and resumption
 161.13 periods of service and deductions for administrative expenses, if applicable, less any amounts
 161.14 previously forfeited under section 424A.016, subdivision 4.

161.15 **EFFECTIVE DATE.** This section is effective the day following final enactment.

161.16 Sec. 13. Minnesota Statutes 2016, section 424A.015, subdivision 1, is amended to read:

161.17 Subdivision 1. **Separation from active service; exception.** (a) No service pension is
 161.18 payable to a person while the person remains an active member of the respective fire
 161.19 department, and a person who is receiving a service pension is not entitled to receive any
 161.20 other benefits from the special fund of the relief association.

161.21 (b) No relief association as defined in section 424A.001, subdivision 4, may pay a service
 161.22 pension or disability benefit to a former member of the relief association if that person has
 161.23 not separated from active service with the fire department to which the relief association is
 161.24 directly associated, unless:

161.25 (1) the person discontinues volunteer firefighter duties with the ~~municipality or the~~
 161.26 ~~independent nonprofit firefighting corporation, whichever applies,~~ fire department and
 161.27 performs duties within the ~~municipal fire department or corporation~~ on a full-time basis;

161.28 (2) the governing body of the municipality ~~or~~ of the independent nonprofit firefighting
 161.29 corporation, or of the joint powers entity has filed its determination with the board of trustees
 161.30 of the relief association that the person's experience with and service to the fire department
 161.31 in that person's full-time capacity would be difficult to replace; and

161.32 (3) the bylaws of the relief association were amended to provide for the payment of a
 161.33 service pension or disability benefit for such full-time employees.

162.1 **EFFECTIVE DATE.** This section is effective January 1, 2018.

162.2 Sec. 14. Minnesota Statutes 2016, section 424A.015, is amended by adding a subdivision
162.3 to read:

162.4 Subd. 7. **Combined service pensions.** (a) A volunteer firefighter with credit for service
162.5 as an active firefighter in more than one volunteer firefighters relief association is entitled
162.6 to a prorated service pension from each relief association if:

162.7 (1) the articles of incorporation or bylaws of the relief associations provide;

162.8 (2) the applicable requirements of paragraphs (b) and (c) are met; and

162.9 (3) the volunteer firefighter otherwise qualifies.

162.10 (b) A volunteer firefighter receiving a prorated service pension under this subdivision
162.11 must have a total combined amount of service credit from the two or more relief associations
162.12 of ten years or more, unless the bylaws of every affected relief association specify less than
162.13 a ten-year service vesting requirement, in which case, the total amount of required service
162.14 credit is the longest service vesting requirement of the relief associations. The member must
162.15 have one year or more of service credit in each relief association. The prorated service
162.16 pension must be based on:

162.17 (1) for defined benefit relief associations, the service pension amount in effect for the
162.18 relief association on the date on which active volunteer firefighting services covered by that
162.19 relief association terminate; and

162.20 (2) for defined contribution relief associations, the member's individual account balance
162.21 on the date on which active volunteer firefighting services covered by that relief association
162.22 terminate.

162.23 (c) To receive a prorated service pension under this subdivision, the firefighter must
162.24 become a member of the second or succeeding association and must give notice of
162.25 membership to the prior association within two years of the date of termination of active
162.26 service with the prior association. The second or subsequent relief association secretary
162.27 must certify the notice.

162.28 **EFFECTIVE DATE.** This section is effective January 1, 2018.

163.1 Sec. 15. Minnesota Statutes 2016, section 424A.016, subdivision 2, is amended to read:

163.2 Subd. 2. **Defined contribution service pension eligibility.** (a) A relief association,
163.3 when its articles of incorporation or bylaws so provide, may pay out of the assets of its
163.4 special fund a defined contribution service pension to each of its members who:

163.5 (1) separates from active service with the fire department;

163.6 (2) reaches age 50;

163.7 (3) completes at least five years of active service as an active member of the ~~municipal~~
163.8 fire department to which the relief association is associated;

163.9 (4) completes at least five years of active membership with the relief association before
163.10 separation from active service; and

163.11 (5) complies with any additional conditions as to age, service, and membership that are
163.12 prescribed by the bylaws of the relief association.

163.13 (b) In the case of a member who has completed at least five years of active service as
163.14 an active member of the fire department to which the relief association is associated on the
163.15 date that the relief association is established and incorporated, the requirement that the
163.16 member complete at least five years of active membership with the relief association before
163.17 separation from active service may be waived by the board of trustees of the relief association
163.18 if the member completes at least five years of inactive membership with the relief association
163.19 before the date of the payment of the service pension. During the period of inactive
163.20 membership, the member is not entitled to receive any disability benefit coverage, is not
163.21 entitled to receive additional individual account allocation of fire state aid or municipal
163.22 contribution towards a service pension, and is considered to have the status of a person
163.23 entitled to a deferred service pension.

163.24 (c) The service pension earned by a volunteer under this chapter and the articles of
163.25 incorporation and bylaws of the relief association may be paid whether or not the municipality
163.26 or independent nonprofit firefighting corporation to which the relief association is associated
163.27 qualifies for the receipt of fire state aid under chapter 69.

163.28 **EFFECTIVE DATE.** This section is effective January 1, 2018.

163.29 Sec. 16. Minnesota Statutes 2016, section 424A.02, subdivision 1, is amended to read:

163.30 Subdivision 1. **Authorization.** (a) A defined benefit relief association, when its articles
163.31 of incorporation or bylaws so provide, may pay out of the assets of its special fund a defined
163.32 benefit service pension to each of its members who: (1) separates from active service with

164.1 the fire department; (2) reaches age 50; (3) completes at least five years of active service
164.2 as an active member of the ~~municipal~~ fire department to which the relief association is
164.3 associated; (4) completes at least five years of active membership with the relief association
164.4 before separation from active service; and (5) complies with any additional conditions as
164.5 to age, service, and membership that are prescribed by the bylaws of the relief association.
164.6 A service pension computed under this section may be prorated monthly for fractional years
164.7 of service as the bylaws or articles of incorporation of the relief association so provide. The
164.8 bylaws or articles of incorporation may define a "month," but the definition must require a
164.9 calendar month to have at least 16 days of active service. If the bylaws or articles of
164.10 incorporation do not define a "month," a "month" is a completed calendar month of active
164.11 service measured from the member's date of entry to the same date in the subsequent month.
164.12 The service pension earned by a volunteer firefighter under this chapter and the articles of
164.13 incorporation and bylaws of the volunteer firefighters relief association may be paid whether
164.14 or not the municipality or independent nonprofit firefighting corporation to which the relief
164.15 association is associated qualifies for the receipt of fire state aid under chapter 69.

164.16 (b) In the case of a member who has completed at least five years of active service as
164.17 an active member of the fire department to which the relief association is associated on the
164.18 date that the relief association is established and incorporated, the requirement that the
164.19 member complete at least five years of active membership with the relief association before
164.20 separation from active service may be waived by the board of trustees of the relief association
164.21 if the member completes at least five years of inactive membership with the relief association
164.22 before the date of the payment of the service pension. During the period of inactive
164.23 membership, the member is not entitled to receive disability benefit coverage, is not entitled
164.24 to receive additional service credit towards computation of a service pension, and is
164.25 considered to have the status of a person entitled to a deferred service pension under
164.26 subdivision 7.

164.27 (c) No municipality ~~or~~, independent nonprofit firefighting corporation, or joint powers
164.28 entity may delegate the power to take final action in setting a service pension or ancillary
164.29 benefit amount or level to the board of trustees of the relief association or to approve in
164.30 advance a service pension or ancillary benefit amount or level equal to the maximum amount
164.31 or level that this chapter would allow rather than a specific dollar amount or level.

164.32 **EFFECTIVE DATE.** This section is effective January 1, 2018.

165.1 Sec. 17. Minnesota Statutes 2016, section 424A.02, subdivision 3, is amended to read:

165.2 Subd. 3. **Flexible service pension maximums.** (a) Annually on or before August 1 as
 165.3 part of the certification of the financial requirements and minimum municipal obligation
 165.4 determined under section 424A.092, subdivision 4, or 424A.093, subdivision 5, as applicable,
 165.5 the secretary or some other official of the relief association designated in the bylaws of each
 165.6 defined benefit relief association shall calculate and certify to the governing body of the
 165.7 applicable municipality the average amount of available financing per active covered
 165.8 firefighter for the most recent three-year period. The amount of available financing includes
 165.9 any amounts of fire state aid and police and firefighter retirement supplemental state aid
 165.10 received or receivable by the relief association, any amounts of municipal contributions to
 165.11 the relief association raised from levies on real estate or from other available revenue sources
 165.12 exclusive of fire state aid, and one-tenth of the amount of assets in excess of the accrued
 165.13 liabilities of the relief association calculated under section 424A.092, subdivision 2;
 165.14 424A.093, subdivisions 2 and 4; or 424A.094, subdivision 2, if any.

165.15 (b) The maximum service pension which the defined benefit relief association has
 165.16 authority to provide for in its bylaws for payment to a member retiring after the calculation
 165.17 date when the minimum age and service requirements specified in subdivision 1 are met
 165.18 must be determined using the table in paragraph (c) or (d), whichever applies.

165.19 (c) For a defined benefit relief association where the governing bylaws provide for a
 165.20 monthly service pension to a retiring member, the maximum monthly service pension amount
 165.21 per month for each year of service credited that may be provided for in the bylaws is the
 165.22 greater of the service pension amount provided for in the bylaws on the date of the calculation
 165.23 of the average amount of the available financing per active covered firefighter or the
 165.24 maximum service pension figure corresponding to the average amount of available financing
 165.25 per active covered firefighter:

173.22 (e) For a defined benefit relief association in which the governing bylaws provide for a
 173.23 monthly benefit service pension as an alternative form of service pension payment to a
 173.24 lump-sum service pension, the maximum service pension amount for each pension payment
 173.25 type must be determined using the applicable table contained in this subdivision.

173.26 (f) If a defined benefit relief association establishes a service pension in compliance
 173.27 with the applicable maximum contained in paragraph (c) or (d) and the minimum average
 173.28 amount of available financing per active covered firefighter is subsequently reduced because
 173.29 of a reduction in fire state aid or because of an increase in the number of active firefighters,
 173.30 the relief association may continue to provide the prior service pension amount specified
 173.31 in its bylaws, but may not increase the service pension amount until the minimum average
 173.32 amount of available financing per firefighter under the table in paragraph (c) or (d), whichever
 173.33 applies, permits.

173.34 (g) No defined benefit relief association is authorized to provide a service pension in an
 173.35 amount greater than the largest applicable flexible service pension maximum amount even

174.1 if the amount of available financing per firefighter is greater than the financing amount
174.2 associated with the largest applicable flexible service pension maximum.

174.3 (h) The method of calculating service pensions must be applied uniformly for all years
174.4 of active service. Credit must be given for all years of active service except for caps on
174.5 service credit if so provided in the bylaws of the relief association.

174.6 **EFFECTIVE DATE; LOCAL APPROVAL.** (a) For relief associations other than the
174.7 Eden Prairie volunteer firefighters relief association, this section is effective January 1,
174.8 2018.

174.9 (b) For the Eden Prairie volunteer firefighters relief association, this section is effective
174.10 the day after the city council of Eden Prairie and its chief clerical officer timely complete
174.11 their compliance with Minnesota Statutes, section 645.021, subdivisions 2 and 3, or January
174.12 1, 2018, whichever is earlier.

174.13 Sec. 18. Minnesota Statutes 2016, section 424A.02, subdivision 3a, is amended to read:

174.14 Subd. 3a. **Penalty for paying pension greater than applicable maximum.** (a) If a
174.15 defined benefit relief association pays a service pension greater than the maximum service
174.16 pension associated with the applicable average amount of available financing per active
174.17 covered firefighter under the table in subdivision 3, paragraph (c) or (d), whichever applies,
174.18 the maximum service pension under subdivision 3, paragraph (f), or the applicable maximum
174.19 service pension amount specified in subdivision 3, paragraph (g), whichever is less, the
174.20 state auditor shall:

174.21 (1) disqualify the municipality or the independent nonprofit firefighting corporation
174.22 associated with the relief association from receiving fire state aid by making the appropriate
174.23 notification to the municipality and the commissioner of revenue, with the disqualification
174.24 applicable for the next apportionment and payment of fire state aid; and

174.25 (2) order the treasurer of the applicable relief association to recover the amount of the
174.26 overpaid service pension or pensions from any retired firefighter who received an
174.27 overpayment.

174.28 (b) Fire state aid amounts from disqualified municipalities for the period of
174.29 disqualifications under paragraph (a), clause (1), must be credited to the amount of fire
174.30 insurance premium tax proceeds available for the next subsequent fire state aid
174.31 apportionment.

175.1 (c) The amount of any overpaid service pension recovered under paragraph (a), clause
175.2 (2), must be credited to the amount of fire insurance premium tax proceeds available for
175.3 the next subsequent fire state aid apportionment.

175.4 (d) The determination of the state auditor that a relief association has paid a service
175.5 pension greater than the applicable maximum must be made on the basis of the information
175.6 filed by the relief association and the municipality with the state auditor under sections
175.7 69.011, subdivision 2, and 69.051, subdivision 1 or 1a, whichever applies, and any other
175.8 relevant information that comes to the attention of the state auditor. The determination of
175.9 the state auditor is final. An aggrieved municipality, relief association, or person may appeal
175.10 the determination under section 480A.06.

175.11 (e) The state auditor may certify, upon learning that a relief association overpaid a service
175.12 pension based on an error in the maximum service pension calculation, the municipality or
175.13 independent nonprofit firefighting corporation associated with the relief association for fire
175.14 state aid if (1) there is evidence that the error occurred in good faith, and (2) the relief
175.15 association has initiated recovery of any overpayment amount. Notwithstanding paragraph
175.16 (c), all overpayments recovered under this paragraph must be credited to the relief
175.17 association's special fund.

175.18 **EFFECTIVE DATE.** This section is effective January 1, 2018.

175.19 Sec. 19. Minnesota Statutes 2016, section 424A.02, subdivision 7, is amended to read:

175.20 Subd. 7. **Deferred service pensions.** (a) A member of a defined benefit relief association
175.21 is entitled to a deferred service pension if the member separates from active service and
175.22 membership and has completed the minimum service and membership requirements in
175.23 subdivision 1. The requirement that a member separate from active service and membership
175.24 is waived for persons who have discontinued their volunteer firefighter duties and who are
175.25 employed on a full-time basis under section 424A.015, subdivision 1.

175.26 (b) The deferred service pension is payable when the former member reaches at least
175.27 age 50, or at least the minimum age specified in the bylaws governing the relief association
175.28 if that age is greater than age 50, and when the former member makes a valid written
175.29 application.

175.30 (c) A defined benefit relief association that provides a lump-sum service pension governed
175.31 by subdivision 3 may, when its governing bylaws so provide, pay interest on the deferred
175.32 lump-sum service pension during the period of deferral. If provided for in the bylaws, interest
175.33 must be paid in one of the following manners:

176.1 (1) at the investment performance rate actually earned on that portion of the assets if the
176.2 deferred benefit amount is invested by the relief association in a separate account established
176.3 and maintained by the relief association;

176.4 (2) at the investment performance rate actually earned on that portion of the assets if the
176.5 deferred benefit amount is invested in a separate investment vehicle held by the relief
176.6 association; or

176.7 (3) at an interest rate of up to five percent, compounded annually, as set by the board of
176.8 trustees.

176.9 (d) Any change in the interest rate set by the board of trustees under paragraph (c), clause
176.10 (3), must be ratified by the governing body of the municipality or joint powers entity served
176.11 by the fire department to which the relief association is directly associated, or by the
176.12 independent nonprofit firefighting corporation, as applicable.

176.13 (e) Interest under paragraph (c), clause (3), is payable beginning on the January 1 next
176.14 following the date on which the deferred service pension interest rate as set by the board of
176.15 trustees was ratified by the governing body of the municipality or joint powers entity served
176.16 by the fire department to which the relief association is directly associated, or by the
176.17 independent nonprofit firefighting corporation, as applicable.

176.18 (f) Unless the bylaws of a relief association that has elected to pay interest or additional
176.19 investment performance on deferred lump-sum service pensions under paragraph (c) specifies
176.20 a different interest or additional investment performance method, including the interest or
176.21 additional investment performance period starting date and ending date, the interest or
176.22 additional investment performance on a deferred service pension is creditable as follows:

176.23 (1) for a relief association that has elected to pay interest or additional investment
176.24 performance under paragraph (c), clause (1) or (3), beginning on the first day of the month
176.25 next following the date on which the member separates from active service and membership
176.26 and ending on the last day of the month immediately before the month in which the deferred
176.27 member commences receipt of the deferred service pension; or

176.28 (2) for a relief association that has elected to pay interest or additional investment
176.29 performance under paragraph (c), clause (2), beginning on the date that the member separates
176.30 from active service and membership and ending on the date that the separate investment
176.31 vehicle is valued immediately before the date on which the deferred member commences
176.32 receipt of the deferred service pension.

177.1 (g) For a deferred service pension that is transferred to a separate account established
177.2 and maintained by the relief association or separate investment vehicle held by the relief
177.3 association, the deferred member bears the full investment risk subsequent to transfer and
177.4 in calculating the accrued liability of the volunteer firefighters relief association that pays
177.5 a lump-sum service pension, the accrued liability for deferred service pensions is equal to
177.6 the separate relief association account balance or the fair market value of the separate
177.7 investment vehicle held by the relief association.

177.8 **EFFECTIVE DATE.** This section is effective January 1, 2018.

177.9 Sec. 20. Minnesota Statutes 2016, section 424A.04, subdivision 1, is amended to read:

177.10 Subdivision 1. **Membership.** (a) A relief association that is directly associated with a
177.11 municipal fire department must be managed by a board of trustees consisting of nine
177.12 members. Six trustees must be elected from the membership of the relief association and
177.13 three trustees must be drawn from the officials of the municipalities served by the fire
177.14 department to which the relief association is directly associated. The bylaws of a relief
177.15 association which provides a monthly benefit service pension may provide that one of the
177.16 six trustees elected from the relief association membership may be a retired member receiving
177.17 a monthly pension who is elected by the membership of the relief association. The three
177.18 municipal trustees must be one elected municipal official and one elected or appointed
177.19 municipal official who are designated as municipal representatives by the municipal
177.20 governing board annually and the chief of the municipal fire department.

177.21 (b) A relief association that is a subsidiary of an independent nonprofit firefighting
177.22 corporation must be managed by a board of trustees consisting of nine members. Six trustees
177.23 must be elected from the membership of the relief association, two trustees must be drawn
177.24 from the officials of the municipalities served by the fire department to which the relief
177.25 association is directly associated, and one trustee must be the fire chief serving with the
177.26 independent nonprofit firefighting corporation. The bylaws of a relief association may
177.27 provide that one of the six trustees elected from the relief association membership may be
177.28 a retired member receiving a monthly pension who is elected by the membership of the
177.29 relief association. The two municipal trustees must be elected or appointed municipal
177.30 officials, selected as follows:

177.31 (1) if only one municipality contracts with the independent nonprofit firefighting
177.32 corporation, the municipal trustees must be two officials of the contracting municipality
177.33 who are designated annually by the governing body of the municipality; or

178.1 (2) if two or more municipalities contract with the independent nonprofit corporation,
 178.2 the municipal trustees must be one official from each of the two largest municipalities in
 178.3 population who are designated annually by the governing bodies of the applicable
 178.4 municipalities.

178.5 (c) The municipal trustees for a relief association that is directly associated with a fire
 178.6 department operated as or by a joint powers entity must be the fire chief of the fire department
 178.7 and two trustees designated annually by the joint powers board. The municipal trustees for
 178.8 a relief association that is directly associated with a fire department service area township
 178.9 must be the fire chief of the fire department and two trustees designated by the township
 178.10 board.

178.11 (d) If a relief association lacks the municipal board members provided for in paragraph
 178.12 (a), (b), or (c) because the fire department is not located in or associated with ~~an organized~~
 178.13 a municipality, or joint powers entity, or township, the municipal board members must be
 178.14 the fire chief of the fire department and two board members appointed from the fire
 178.15 department service area by the board of commissioners of the applicable county.

178.16 (e) The term of the appointed municipal board members is one year or until the person's
 178.17 successor is qualified, whichever is later.

178.18 (f) A municipal trustee under paragraph (a), (b), (c), or (d) has all the rights and duties
 178.19 accorded to any other trustee, except the right to be an officer of the relief association board
 178.20 of trustees.

178.21 (g) A board must have at least three officers, who are a president, a secretary and a
 178.22 treasurer. These officers must be elected from among the elected trustees by either the full
 178.23 board of trustees or by the relief association membership, as specified in the bylaws. In no
 178.24 event may any trustee hold more than one officer position at any one time. The terms of the
 178.25 elected trustees and of the officers of the board must be specified in the bylaws of the relief
 178.26 association, but may not exceed three years. If the term of the elected trustees exceeds one
 178.27 year, the election of the various trustees elected from the membership must be staggered
 178.28 on as equal a basis as is practicable.

178.29 **EFFECTIVE DATE.** This section is effective January 1, 2018.

210.19 September 15, 2000, whichever is applicable, rather than the individual retirement account
210.20 plan. These additional contribution amounts shall include 8.5 percent annual compound
210.21 interest computed from the date the contribution would have been made if deducted from
210.22 salary until paid. The total amount to be paid under this paragraph shall be determined by
210.23 the executive director of the Teachers Retirement Association and written notification of
210.24 the amount required under this paragraph must be transmitted to the eligible person.

210.25 (e) If payment is made under paragraph (d), the value of the applicable eligible person's
210.26 higher education individual retirement account plan account shall be transferred to the
210.27 Teachers Retirement Association.

210.28 (f) The Teachers Retirement Association shall determine the required purchase payment
210.29 amount calculated under Minnesota Statutes, section 356.551, imposed upon the Teachers
210.30 Retirement Association under this section due to the salary and service credit purchase.

210.31 (g) From the total amount computed under paragraph (f), the executive director of the
210.32 Teachers Retirement Association shall subtract the amounts received under paragraphs (d)
210.33 and (e). The Minnesota State Colleges and Universities system must transmit the remaining

211.1 amount, if any, to the executive director of the Teachers Retirement Association within 60
 211.2 days following the receipt of the payments under paragraphs (d) and (e).

211.3 (h) The authority to make a retirement coverage election under this section expires one
 211.4 year from the effective date of this section.

211.5 **EFFECTIVE DATE.** This section is effective the day following final enactment.

211.6 **Sec. 5. TEACHERS RETIREMENT ASSOCIATION COVERAGE ELECTION**
 211.7 **AND MINNESOTA STATE RETIREMENT SYSTEM REFUND REPAYMENT**
 211.8 **AUTHORITY FOR CERTAIN WINONA STATE UNIVERSITY EMPLOYEE.**

211.9 (a) Notwithstanding any provision of Minnesota Statutes, chapter 352 or 354B, to the
 211.10 contrary, an eligible person described in paragraph (b) is eligible to become a coordinated
 211.11 member of the Teachers Retirement Association and to purchase service and salary credit
 211.12 in the Teachers Retirement Association coordinated plan retroactively from January 1, 1995,
 211.13 upon repaying a member contribution refund taken from the general employees retirement
 211.14 plan of the Minnesota State Retirement System under paragraph (c), upon making an election
 211.15 under paragraph (e), and upon making all required payments under paragraphs (f), (g), and
 211.16 (h).

211.17 (b) An eligible person is a person who:

211.18 (1) was born November 11, 1957;

211.19 (2) began state employment in 1981, with retirement coverage in the general employees
 211.20 retirement plan of the Minnesota State Retirement System for which a refund of member
 211.21 contributions and interest was taken;

211.22 (3) was employed by Winona State University on September 11, 1989, with retirement
 211.23 coverage in the higher education individual retirement account plan; and

211.24 (4) was not informed of the option to elect Teachers Retirement Association coverage
 211.25 in the coverage election authorized under Laws 1994, chapter 508, article 1, section 10, so
 211.26 remained in the higher education individual retirement account plan.

211.27 (c) The refund repayment required by Minnesota Statutes, section 356.551, subdivision
 211.28 1, paragraph (c), must be calculated under Minnesota Statutes, section 352.23.

211.29 (d) Authority to repay a refund under this section expires one year from the effective
 211.30 date of this section.

211.31 (e) To be eligible for coverage by the Teachers Retirement Association, an eligible
 211.32 person must submit a written application to the executive director of the Teachers Retirement

212.1 Association on a form provided by the Teachers Retirement Association. The application
212.2 must include all relevant documentation and information that the executive director may
212.3 require. Teachers Retirement Association plan membership commences after the date of
212.4 the retirement coverage election under this section and past salary and service credit is
212.5 granted for past Minnesota State Colleges and Universities system employment from January
212.6 1, 1995, until the executive director receives the written application specified in this
212.7 paragraph and receipts of the payments specified in paragraphs (c), (f), (g), and (h). Coverage
212.8 by the Teachers Retirement Association is in lieu of coverage by the individual retirement
212.9 account plan.

212.10 (f) If the eligible person makes the retirement coverage election under paragraph (e),
212.11 the eligible person's member contributions to the higher education individual retirement
212.12 account plan account from January 1, 1995, to the date of the retirement coverage election
212.13 must be transferred to the Teachers Retirement Association, with any earned investment
212.14 returns on those contributions. If the transferred member contributions and investment
212.15 earnings are less than the calculated amount of the member contributions that the eligible
212.16 person would have made to the Teachers Retirement Association on the eligible person's
212.17 compensation from the Minnesota State Colleges and Universities system for the period
212.18 from January 1, 1995, to the date of the retirement coverage election, if the person had been
212.19 covered by the Teachers Retirement Association during the period, plus annual compound
212.20 interest at the rate of 8.5 percent, then the eligible person shall pay the balance of that
212.21 calculated member contribution obligation within 30 days of the retirement coverage election.

212.22 (g) Upon the transfer of the equivalent member contribution amount and any additional
212.23 payment under paragraph (f), the employer contributions made on behalf of the eligible
212.24 member to the higher education individual retirement account plan account from January
212.25 1, 1995, to the date of the retirement coverage election must be transferred to the Teachers
212.26 Retirement Association, with any earned investment returns on those contributions.

212.27 (h) If the amounts under paragraphs (f) and (g) are less than the prior service credit
212.28 purchase payment amount under Minnesota Statutes, section 356.551, the Minnesota State
212.29 Colleges and Universities system shall pay the difference within 60 days following receipt
212.30 of the amounts transmitted under paragraphs (f) and (g).

212.31 (i) The authority to make a retirement coverage election under this section expires one
212.32 year from the effective date of this section.

212.33 **EFFECTIVE DATE.** This section is effective the day following final enactment.

213.1 Sec. 6. **PERA COVERAGE ELECTION AND SERVICE CREDIT PURCHASE;**
213.2 **DULUTH TOWNSHIP CLERK.**

213.3 (a) Notwithstanding any provision of Minnesota Statutes, chapter 353 or 353D, to the
213.4 contrary, an eligible person described in paragraph (b) is eligible to purchase from the
213.5 general employees retirement plan of the Public Employees Retirement Association allowable
213.6 service credit under section 353.01, subdivision 16, for the period of service described in
213.7 paragraph (c).

213.8 (b) An eligible person is a person who:

213.9 (1) was born on July 19, 1953;

213.10 (2) became a member of the public employees defined contribution plan of the Public
213.11 Employees Retirement Association on January 7, 1997, as the elected clerk for Duluth
213.12 township;

213.13 (3) should have become a member of the public employees general plan of the Public
213.14 Employees Retirement Association on April 12, 2001, when the elected clerk position
213.15 became an appointed position;

213.16 (4) erroneously remained in the public employees defined contribution plan until February
213.17 2017; and

213.18 (5) retroactively joined the public employees general plan to January 1, 2014, pursuant
213.19 to section 353.27, subdivision 12.

213.20 (c) The period of uncredited service authorized for purchase is the period of April 12,
213.21 2001, until December 31, 2013.

213.22 (d) Any member contributions made to the public employees defined contribution plan,
213.23 plus any earned investments returns on those contributions, remaining after the transfer
213.24 associated with the cost of omitted salary deductions pursuant to section 353.27, subdivision
213.25 12, may be transferred to the public employees general plan of the Public Employees
213.26 Retirement Association upon request from the eligible person. The transfer must occur
213.27 within 60 days of the request. Authority to request a transfer under this section expires
213.28 December 31, 2017.

213.29 (e) Any employer contributions made to the public employees defined contribution plan,
213.30 plus any earned investment returns on those contributions, remaining after the transfer
213.31 associated with the cost of omitted salary deductions pursuant to section 353.27, subdivision
213.32 12, must be transferred to the public employees general plan of the Public Employees
213.33 Retirement Association at the same time as the transfer that occurs under paragraph (d).

214.1 (f) If the eligible person requests a transfer under paragraph (d), the eligible person must
 214.2 pay the member contributions that the eligible person would have made to the Public
 214.3 Employees Retirement Association on the eligible person's compensation from the Duluth
 214.4 township for the period of service described in paragraph (c) as if the person had been
 214.5 covered by the public employees general plan, plus annual compound interest on that amount
 214.6 at the rate of 8.5 percent from April 12, 2001, until June 30, 2015, and eight percent from
 214.7 July 1, 2015, until the date payment is made to the Public Employees Retirement Association,
 214.8 less the transferred member contributions and investment earnings.

214.9 (g) Upon the transfer of the amounts under paragraphs (d), (e), and (f), Duluth township
 214.10 shall pay the prior service credit purchase payment amount calculated under Minnesota
 214.11 Statutes, section 356.551, less any amounts received under paragraphs (d), (e), and (f),
 214.12 within 60 days following the receipt of the eligible person's payment under paragraph (f).

214.13 (h) Upon the transfer and payment under paragraph (g), the eligible person must be
 214.14 credited by the Public Employees Retirement Association with allowable service credit for
 214.15 Duluth township employment from April 12, 2001, until December 31, 2013.

214.16 (h) Authority to make a service credit purchase under this section expires one year from
 214.17 the effective date of this section.

214.18 **EFFECTIVE DATE.** This section is effective the day following final enactment.

214.19 **ARTICLE 20**

214.20 **TECHNICAL CORRECTIONS**

214.21 Section 1. Minnesota Statutes 2016, section 353.01, subdivision 16, is amended to read:

214.22 Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

214.23 (1) service during years of actual membership in the course of which employee deductions
 214.24 were withheld from salary and contributions were made at the applicable rates under section
 214.25 353.27, 353.65, or 353E.03;

214.26 (2) periods of service covered by payments in lieu of salary deductions under sections
 214.27 353.27, subdivisions 12 and 12a, and 353.35;

214.28 (3) service in years during which the public employee was not a member but for which
 214.29 the member later elected, while a member, to obtain credit by making payments to the fund
 214.30 as permitted by any law then in effect;

215.1 (4) a period of authorized leave of absence during which the employee receives pay as
215.2 specified in subdivision 10, paragraph (a), clause (4) or (5), from which deductions for
215.3 employee contributions are made, deposited, and credited to the fund;

215.4 (5) a period of authorized leave of absence without pay, or with pay that is not included
215.5 in the definition of salary under subdivision 10, paragraph (a), clause (4) or (5), for which
215.6 salary deductions are not authorized, and for which a member obtained service credit for
215.7 up to 12 months of the authorized leave period by payment under section ~~353.0161~~ or
215.8 353.0162, to the fund made in place of salary deductions;

215.9 (6) a periodic, repetitive leave that is offered to all employees of a governmental
215.10 subdivision. The leave program may not exceed 208 hours per annual normal work cycle
215.11 as certified to the association by the employer. A participating member obtains service credit
215.12 by making employee contributions in an amount or amounts based on the member's average
215.13 salary, excluding overtime pay, that would have been paid if the leave had not been taken.
215.14 The employer shall pay the employer and additional employer contributions on behalf of
215.15 the participating member. The employee and the employer are responsible to pay interest
215.16 on their respective shares at the rate of 8.5 percent until June 30, 2015, and eight percent
215.17 thereafter, compounded annually, from the end of the normal cycle until full payment is
215.18 made. An employer shall also make the employer and additional employer contributions,
215.19 plus 8.5 percent interest until June 30, 2015, and eight percent interest thereafter, compounded
215.20 annually, on behalf of an employee who makes employee contributions but terminates public
215.21 service. The employee contributions must be made within one year after the end of the
215.22 annual normal working cycle or within 30 days after termination of public service, whichever
215.23 is sooner. The executive director shall prescribe the manner and forms to be used by a
215.24 governmental subdivision in administering a periodic, repetitive leave. Upon payment, the
215.25 member must be granted allowable service credit for the purchased period;

215.26 (7) an authorized temporary or seasonal layoff under subdivision 12, limited to three
215.27 months allowable service per authorized temporary or seasonal layoff in one calendar year.
215.28 An employee who has received the maximum service credit allowed for an authorized
215.29 temporary or seasonal layoff must return to public service and must obtain a minimum of
215.30 three months of allowable service subsequent to the layoff in order to receive allowable
215.31 service for a subsequent authorized temporary or seasonal layoff;

215.32 (8) a period during which a member is absent from employment by a governmental
215.33 subdivision by reason of service in the uniformed services, as defined in United States Code,
215.34 title 38, section 4303(13), if the member returns to public service with the same governmental
215.35 subdivision upon discharge from service in the uniformed service within the time frames

216.1 required under United States Code, title 38, section 4312(e), provided that the member did
216.2 not separate from uniformed service with a dishonorable or bad conduct discharge or under
216.3 other than honorable conditions. The service must be credited if the member pays into the
216.4 fund equivalent employee contributions based upon the contribution rate or rates in effect
216.5 at the time that the uniformed service was performed multiplied by the full and fractional
216.6 years being purchased and applied to the annual salary rate. The annual salary rate is the
216.7 average annual salary during the purchase period that the member would have received if
216.8 the member had continued to be employed in covered employment rather than to provide
216.9 uniformed service, or, if the determination of that rate is not reasonably certain, the annual
216.10 salary rate is the member's average salary rate during the 12-month period of covered
216.11 employment rendered immediately preceding the period of the uniformed service. Payment
216.12 of the member equivalent contributions must be made during a period that begins with the
216.13 date on which the individual returns to public employment and that is three times the length
216.14 of the military leave period, or within five years of the date of discharge from the military
216.15 service, whichever is less. If the determined payment period is less than one year, the
216.16 contributions required under this clause to receive service credit may be made within one
216.17 year of the discharge date. Payment may not be accepted following 30 days after termination
216.18 of public service under subdivision 11a. If the member equivalent contributions provided
216.19 for in this clause are not paid in full, the member's allowable service credit must be prorated
216.20 by multiplying the full and fractional number of years of uniformed service eligible for
216.21 purchase by the ratio obtained by dividing the total member contributions received by the
216.22 total member contributions otherwise required under this clause. The equivalent employer
216.23 contribution, and, if applicable, the equivalent additional employer contribution must be
216.24 paid by the governmental subdivision employing the member if the member makes the
216.25 equivalent employee contributions. The employer payments must be made from funds
216.26 available to the employing unit, using the employer and additional employer contribution
216.27 rate or rates in effect at the time that the uniformed service was performed, applied to the
216.28 same annual salary rate or rates used to compute the equivalent member contribution. The
216.29 governmental subdivision involved may appropriate money for those payments. The amount
216.30 of service credit obtainable under this section may not exceed five years unless a longer
216.31 purchase period is required under United States Code, title 38, section 4312. The employing
216.32 unit shall pay interest on all equivalent member and employer contribution amounts payable
216.33 under this clause. Interest must be computed at the rate of 8.5 percent until June 30, 2015,
216.34 and eight percent thereafter, compounded annually, from the end of each fiscal year of the
216.35 leave or the break in service to the end of the month in which the payment is received. Upon

217.1 payment, the employee must be granted allowable service credit for the purchased period;
217.2 or

217.3 (9) a period specified under section 353.0162.

217.4 (b) No member may receive more than 12 months of allowable service credit in a year
217.5 either for vesting purposes or for benefit calculation purposes.

217.6 (c) For an active member who was an active member of the former Minneapolis
217.7 Firefighters Relief Association on December 29, 2011, "allowable service" is the period of
217.8 service credited by the Minneapolis Firefighters Relief Association as reflected in the
217.9 transferred records of the association up to December 30, 2011, and the period of service
217.10 credited under paragraph (a), clause (1), after December 30, 2011. For an active member
217.11 who was an active member of the former Minneapolis Police Relief Association on December
217.12 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police
217.13 Relief Association as reflected in the transferred records of the association up to December
217.14 30, 2011, and the period of service credited under paragraph (a), clause (1), after December
217.15 30, 2011.

217.19 **AND SALARY CREDIT.**

217.20 A furloughed employee of the University of Minnesota who is a member of the public
217.21 employees police and fire plan may obtain allowable service and salary credit for the furlough
217.22 period. The allowable service and salary credit authorization is a leave of absence
217.23 authorization for purposes of section ~~353.0161~~ and the purchase payment procedure of

217.30 or former member does not apply for refund within five years from the date of death of the
217.31 member or former member, the accumulated deductions to the member or former member's

219.23 the provisions of sections 354A.31 to 354A.41 or any person receiving a basic program

219.26 fund association exists is entitled to continue to receive retirement annuity payments, except
219.27 that all or a portion of the annuity payments must be deferred during the calendar year
219.28 immediately following the calendar year in which the person's salary from the teaching
219.29 service is in an amount greater than \$46,000. The amount of the annuity deferral is one-third
219.30 the salary amount in excess of \$46,000 and must be deducted from the annuity payable for

 220.16 must instead be forfeited to the St. Paul Teachers Retirement Fund Association fund.

220.17 ~~(g)~~ (f) For the purpose of this subdivision, salary from teaching service includes: (i) all
 220.18 income for services performed as a consultant or independent contractor; or income resulting
 220.19 from working with the school district in any capacity; and (ii) the greater of either the income
 220.20 received or an amount based on the rate paid with respect to an administrative position,
 220.21 consultant, or independent contractor in the school district in which the teachers retirement
 220.22 fund association exists and at the same level as the position occupied by the person who
 220.23 resumes teaching service.

220.24 ~~(h)~~ (g) On or before February 15 of each year, each applicable employing unit shall
 220.25 report to the teachers retirement fund association the amount of postretirement salary as
 220.26 defined in this subdivision, earned as a teacher, consultant, or independent contractor during
 220.27 the previous calendar year by each retiree of the teachers retirement fund association for
 220.28 teaching service performed after retirement. The report must be in a format approved by
 220.29 the executive secretary or director.

220.30 **EFFECTIVE DATE.** This section is effective the day following final enactment.

220.31 Sec. 8. Minnesota Statutes 2016, section 354A.35, subdivision 2, is amended to read:

220.32 Subd. 2. **Death while eligible to retire; surviving spouse optional annuity.** (a) The
 220.33 surviving spouse of a vested coordinated member who dies prior to retirement may elect to

221.1 receive, instead of a refund with interest under subdivision 1, an annuity equal to the 100
 221.2 percent joint and survivor annuity the member could have qualified for had the member
 221.3 terminated service on the date of death. The surviving spouse eligible for a surviving spouse
 221.4 benefit under this paragraph may apply for the annuity at any time after the date on which
 221.5 the deceased employee would have attained the required age for retirement based on the
 221.6 employee's allowable service. A surviving spouse eligible for surviving spouse benefits
 221.7 under paragraph (b) or (c) may apply for an annuity at any time after the member's death.
 221.8 The member's surviving spouse shall be paid a joint and survivor annuity under section
 221.9 354A.32 and computed under section 354A.31.

221.10 (b) If the member was under age 55 and has credit for at least 30 years of allowable
 221.11 service on the date of death, the surviving spouse may elect to receive a 100 percent joint
 221.12 and survivor annuity based on the age of the member and surviving spouse on the date of
 221.13 death. The annuity is payable using the full early retirement reduction under section 354A.31,
 221.14 subdivision 6, paragraph (a), to age 55 and one-half of the early retirement reduction from
 221.15 age 55 to the age payment begins.

221.16 ~~(e) If a vested member of the Duluth Teachers Retirement Fund Association was under~~
 221.17 ~~age 55 on the date of death but did not yet qualify for retirement, the surviving spouse may~~
 221.18 ~~elect to receive the 100 percent joint and survivor annuity based on the age of the member~~
 221.19 ~~and the survivor at the time of death. The annuity is payable using the full early retirement~~
 221.20 ~~reduction under section 354A.31, subdivision 6 or 7, to age 55 and one-half of the early~~
 221.21 ~~retirement reduction from age 55 to the date payment begins.~~

221.22 ~~(d)~~ (c) If a vested member of the St. Paul Teachers Retirement Fund Association was
 221.23 under age 55 on the date of death but did not yet qualify for retirement, the surviving spouse
 221.24 may elect to receive the 100 percent joint and survivor annuity based on the age of the
 221.25 member and the survivor at the time of death. The annuity is payable using the full early
 221.26 retirement reduction under section 354A.31, subdivision 6 or 7, to age 55 and one-half of
 221.27 the actuarial equivalent reduction from age 55 to the date payment begins. The actuarial
 221.28 equivalent reduction is calculated so that the reduced annuity is the actuarial equivalent of
 221.29 the annuity that would be payable to the member if the member deferred receipt of the
 221.30 annuity and the annuity amount were augmented at an annual rate of 2.5 percent compounded
 221.31 annually from the day the annuity begins to accrue until the normal retirement age.

221.32 ~~(e)~~ (d) Sections 354A.37, subdivision 2, and 354A.39 apply to a deferred annuity or
 221.33 surviving spouse benefit payable under this section. The benefits are payable for the life of
 221.34 the surviving spouse, or upon expiration of the term certain benefit payment under subdivision
 221.35 2b.

222.1 **EFFECTIVE DATE.** This section is effective the day following final enactment.

222.2 Sec. 9. Minnesota Statutes 2016, section 356.47, subdivision 1, is amended to read:

222.3 Subdivision 1. **Application.** (a) This section applies to the balance of annual retirement
222.4 annuities on the amount of retirement annuity reductions after reemployed annuitant earnings

222.9 ~~Duluth Teachers Retirement Fund Association whose effective date of retirement is before~~
222.10 ~~July 1, 2013.~~

222.11 ~~(e)~~ (b) This section also applies to the balance of annual retirement annuities on the
222.12 amount of retirement annuity reductions under section 354A.31, subdivision 3, for members
222.13 of the St. Paul Teachers Retirement Fund Association whose effective date of retirement is
222.14 before July 1, 2013.

222.15 **EFFECTIVE DATE.** This section is effective the day following final enactment.

222.16 Sec. 10. Minnesota Statutes 2016, section 423A.02, subdivision 5, is amended to read:

222.17 Subd. 5. **Termination of state aid programs.** The amortization state aid and additional
222.18 amortization state aid programs terminate as of the December 31, next following the date
222.19 of the actuarial valuation when the assets of the St. Paul Teachers Retirement Fund
222.20 Association equal the actuarial accrued liability of that plan ~~or when the assets of the Duluth~~

3A.12 COVERAGE BY MORE THAN ONE RETIREMENT SYSTEM OR ASSOCIATION.

Subdivision 1. **Entitlement to annuity.** (a) Any legislator who has been a member of a retirement plan listed in paragraph (b) is entitled, when otherwise qualified, to a retirement allowance or annuity from each plan if the total allowable service in all plans or in any two of these plans totals ten or more years.

(b) This section applies to any retirement plan or program administered by the Minnesota State Retirement System, or any retirement plan administered by the Public Employees Retirement Association, including the Public Employees Retirement Association police and fire fund, or the Teachers Retirement Association, or the Minneapolis employees retirement plan, or the State Patrol retirement plan, or any other public employee retirement system in the state of Minnesota having a like provision.

(c) This section does not apply to other retirement plans providing benefits for police or firefighters.

(d) No portion of the allowable service upon which the retirement annuity from one plan is based is again used in the computation for benefits from another plan. The annuity from each plan must be determined by the appropriate provisions of the law, except that the requirement that a person must have a minimum number of years of allowable service in the respective system or association does not apply for the purposes of this section if the combined service in two or more of these plans equals ten or more years. The augmentation of deferred annuities provided in section 3A.02, subdivision 4, applies to the annuities accruing under this section.

Subd. 2. **Refund repayment.** A former legislator who has received a refund as provided in section 3A.03, subdivision 2, who is a currently contributing member of a retirement plan specified in subdivision 1, paragraph (b), may repay the refund as provided in section 3A.03, subdivision 2. A member of the legislature who has received a refund from any of the retirement plans specified in subdivision 1 may repay the refund to the respective plan under such terms and conditions consistent with the law governing the retirement plan if the law governing the plan permits the repayment of refunds. If the total amount to be repaid, including principal and interest exceeds \$2,000, repayment maybe made in three equal installments over a period of 18 months, with the interest accrued during the period of the repayment added to the final installment.

352.04 STATE EMPLOYEES RETIREMENT FUND, CONTRIBUTIONS BY EMPLOYEE AND EMPLOYER.

Subd. 11. **Gifts and bequests.** The director may credit to the retirement fund any money received in the form of donations, gifts, appropriations, bequests, or otherwise, or derived from it.

352.045 PROCEDURE FOR REVISING EMPLOYEE AND EMPLOYER CONTRIBUTIONS IN CERTAIN INSTANCES.

Subdivision 1. **Application.** This section applies to the general state employees retirement plan established under this chapter, the correctional state employees retirement plan established under this chapter, and the state patrol retirement plan established under chapter 352B.

Subd. 2. **Determination.** For purposes of this section, a contribution sufficiency exists if, for the applicable plan, the total of the employee contributions, the employer contributions, and any additional employer contributions, if applicable, exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement. For purposes of this section, a contribution deficiency exists if, for the applicable plan, the total employee contributions, employer contributions, and any additional employer contributions are less than the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

Subd. 3a. **Contribution rate revision; general state employees retirement plan.** (a) Notwithstanding the contribution rates as specified in law governing the applicable retirement plan, the board of directors of the Minnesota State Retirement System may adjust the employee and employer contribution rates for the general state employees retirement plan if the regular actuarial valuation of the plan prepared under section 356.215 indicates that there is a contribution

APPENDIX

Repealed Minnesota Statutes: S0545-2

sufficiency greater than one percent of covered payroll or that there is a contribution deficiency under subdivision 2 equal to or greater than one-half of one percent of covered payroll.

(b) If the actuarially determined contribution of the plan is less than the total support provided by the combined employee and employer contribution rates by more than one percent of covered payroll, the plan employee and employer contribution rates may be decreased incrementally over one or more years to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. Any decrease in employee and employer contribution rates must not result in total contributions that are less than the sum of the normal cost and administrative expenses of the retirement plan.

(c) If the actuarially required contribution exceeds the total support provided by the employee and employer contribution rates, the board of directors may increase the employee and employer contribution rates equally to eliminate that contribution deficiency.

(d) To determine if an adjustment is to be made, the board of directors shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors that include, but are not limited to, the contribution rates calculated based on the actuarial value of assets and calculated based on the market value of assets; the funded ratio calculated based on the actuarial value of assets; the funded ratio calculated based on the market value of assets; the remaining number of years to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contribution projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

(e) Any adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following receipt of the most recent annual actuarial valuation prepared under section 356.215. The report must include draft legislation to revise the employee and employer contributions stated in plan law. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the adjustment becomes effective on the first day of the first full payroll period in the fiscal year following receipt of the most recent actuarial valuation that gave rise to the adjustment.

(f) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially determined contributions that are more than the total combined employee and employer contributions.

(g) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be made, the executive director must review any need for a change in actuarial assumptions, as recommended by the approved actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially determined contribution and must report to the Legislative Commission on Pensions and Retirement any decision by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(h) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an adjustment to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the approved actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

Subd. 3b. Contribution rate revision; correctional state employees retirement plan and State Patrol retirement plan. (a) Subdivision 3a applies to the correctional state employees retirement plan under this chapter and to the State Patrol retirement plan established under chapter 352B, except as specified in paragraph (b) or (c).

(b) Any limitations on the amount of contribution rate changes stated in subdivision 3a apply only to the amount of the employee contribution revision. The employer contribution for the correctional state employees retirement plan or the State Patrol retirement plan, whichever is applicable, must be adjusted so that the employer contribution is equal to 60 percent of the sum of employee plus employer contributions.

APPENDIX

Repealed Minnesota Statutes: S0545-2

(c) For the State Patrol retirement plan, a contribution sufficiency of up to two percent of covered payroll, rather than one percent, may be held in reserves without taking action to reduce employee and employer contributions.

352.72 COVERAGE BY MORE THAN ONE RETIREMENT SYSTEM.

Subdivision 1. **Entitlement to annuity.** (a) Any person who has been an employee covered by a retirement system listed in paragraph (b) is entitled when qualified to an annuity from each fund if total allowable service in all funds or in any two of these funds totals three or more years if employed before July 1, 2010, or totals five or more years if employed after June 30, 2010.

(b) This section applies to the Minnesota State Retirement System, the Public Employees Retirement Association including the Public Employees Retirement Association police and fire fund, the Teachers Retirement Association, the State Patrol Retirement Association, or any other public employee retirement system in the state with a similar provision, except as noted in paragraph (c).

(c) This section does not apply to other funds providing benefits for police officers or firefighters.

(d) No portion of the allowable service upon which the retirement annuity from one fund is based shall be again used in the computation for benefits from another fund. No refund may have been taken from any one of these funds since service entitling the employee to coverage under the system or the employee's membership in any of the associations last terminated. The annuity from each fund must be determined by the appropriate provisions of the law except that the requirement that a person must have at least a specific number of years of allowable service in the respective system or association does not apply for the purposes of this section if the combined service in two or more of these funds equals at least the longest period of allowable service of any of the applicable retirement plans.

Subd. 2. **Computation of deferred annuity.** (a) The deferred annuity, if any, accruing under subdivision 1, or section 352.22, subdivision 3, must be computed as provided in section 352.22, subdivision 3, on the basis of allowable service before termination of state service and augmented as provided herein. The required reserves applicable to a deferred annuity or to an annuity for which a former employee was eligible but had not applied or to any deferred segment of an annuity must be determined as of the date the benefit begins to accrue and augmented by interest compounded annually from the first day of the month following the month in which the employee ceased to be a state employee, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose must be five percent compounded annually until January 1, 1981, and three percent compounded annually thereafter until January 1 of the year following the year in which the former employee attains age 55 or until January 1, 2012, whichever is earlier, and from the January 1 next following the attainment of age 55 to the effective date of retirement or until January 1, 2012, whichever is earlier, five percent compounded annually if the employee became an employee before July 1, 2006, 2.5 percent compounded annually until January 1, 2012, if the employee becomes an employee after June 30, 2006, and two percent compounded annually after December 31, 2011, irrespective of when the employee became a state employee. If a person has more than one period of uninterrupted service, the required reserves related to each period must be augmented by interest under this subdivision. The sum of the augmented required reserves so determined is the present value of the annuity. "Uninterrupted service" for the purpose of this subdivision means periods of covered employment during which the employee has not been separated from state service for more than two years. If a person repays a refund, the service restored by the repayment must be considered continuous with the next period of service for which the employee has credit with this system. The formula percentages used for each period of uninterrupted service must be those applicable to a new employee. The mortality table and interest assumption used to compute the annuity must be those in effect when the employee files application for annuity. This section does not reduce the annuity otherwise payable under this chapter.

(b) The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former state employee who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and the tables adopted by the board and approved by the actuary retained under section 356.214.

Subd. 4. **Refund repayment.** Any person who has received a refund from the state employees retirement fund, and who is a member of a public retirement system included in subdivision 1, may repay the refund with interest to the state employees retirement fund. If a

APPENDIX

Repealed Minnesota Statutes: S0545-2

refund is repaid to the fund and more than one refund has been received from the fund, all refunds must be repaid. Repayment must be made as provided in section 352.23, and under terms and conditions consistent with that section as agreed upon with the director.

Subd. 5. **Early retirement.** The requirements and provisions for retirement before normal retirement age in sections 352.115, subdivision 1, and 352.116 also apply to an employee fulfilling the requirements with a combination of service as provided in subdivision 1.

352B.30 COVERAGE BY MORE THAN ONE RETIREMENT SYSTEM OR ASSOCIATION.

Subdivision 1. **Entitlement to annuity.** Any person who has been an employee covered by the Minnesota State Retirement System, or a member of the Public Employees Retirement Association including the Public Employees Retirement Association Police and Fire Fund, or the Teachers Retirement Association, or the State Patrol retirement fund, or any other public employee retirement system in Minnesota having a like provision but excluding all other funds providing benefits for police or firefighters is entitled when qualified to an annuity from each fund if total allowable service in all funds or in any two of these funds totals the number of years of allowable service required by the applicable retirement plan with the longest vesting period for the person. No part of the allowable service upon which the retirement annuity from one fund is based may again be used in the computation for benefits from another fund. The member must not have taken a refund from any one of these funds since service entitling the member to coverage under the system or membership in any of the associations last terminated. The annuity from each fund must be determined by the appropriate law except that the requirement that a person must have at least a specific number of years allowable service in the respective system or association does not apply for the purposes of this section if the combined service in two or more of these funds equals the number of years of allowable service required by the applicable retirement plan with the longest vesting period for the person.

Subd. 2. **Computation of deferred annuity.** Deferred annuities must be computed according to this chapter on the basis of allowable service before termination of service and augmented as provided in this chapter. The required reserves applicable to a deferred annuity must be augmented by interest compounded annually from the first day of the month following the month in which the member terminated service, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose must be five percent per year compounded annually until January 1, 1981, three percent per year compounded annually after January 1, 1981, until January 1, 2012, if the employee became an employee before July 1, 2006, 2.5 percent compounded annually if the employee becomes an employee after June 30, 2006, and two percent per year compounded annually after December 31, 2011, irrespective of when the employee was first employed. The mortality table and interest assumption used to compute the annuity must be those in effect when the member files application for annuity.

Subd. 3. **Refund repayment.** A person who has received a refund from the State Patrol retirement fund who is a member of a public retirement system included in subdivision 1, may repay the refund with interest to the State Patrol retirement fund as provided in section 352B.11, subdivision 4.

Subd. 4. **1997 postretirement fund interest changes.** The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former member who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board and approved by the actuary retained under section 356.214.

353.0161 AUTHORIZED LEAVE OF ABSENCE SERVICE CREDIT PURCHASE PROCEDURE.

Subdivision 1. **Application.** This section applies to employees covered by any plan specified in this chapter or chapter 353E for any period of authorized leave of absence specified in section 353.01, subdivision 16, paragraph (a), clause (5), for which the employee obtains credit for allowable service by making payment as specified in this section to the applicable fund.

Subd. 2. **Purchase procedure.** (a) An employee covered by a plan specified in subdivision 1 may purchase credit for allowable service in that plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The

APPENDIX

Repealed Minnesota Statutes: S0545-2

employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the executive director within one year from the date the member returned to work following the authorized leave, or within 30 days after the date of termination of public service if the member did not return to work, the payment amount is equal to the employee and employer contribution rates specified in law for the applicable plan at the end of the leave period, or at termination of public service, whichever is earlier, multiplied by the employee's average monthly salary, excluding overtime, upon which deductions were paid during the six months, or portion thereof, before the commencement of the leave of absence and by the number of months of the leave of absence for which the employee wants allowable service credit. Payments made under this paragraph must include compound interest at the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter from the last day of the leave period until the last day of the month in which payment is received.

(c) If payment is received by the executive director after one year, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date the person terminates public service under section 353.01, subdivision 11a.

Subd. 3. **Restriction on subsequent purchases.** To purchase salary credit or service credit for a subsequent authorized leave of absence period, the member must return to public service and render a minimum of three months of allowable service credit.

353.27 GENERAL EMPLOYEES RETIREMENT FUND.

Subd. 3b. **Change in employee and employer contributions in certain instances.** (a) For purposes of this section:

(1) a contribution sufficiency exists if the total of the employee contribution under subdivision 2, the employer contribution under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement; and

(2) a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Notwithstanding the contribution rate provision specified under subdivisions 2, 3, and 3a, the board of trustees of the Public Employees Retirement Association may adjust the employee and employer contributions to the general employees retirement plan under subdivisions 2 and 3 if the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association prepared under section 356.215 indicates that there is a contribution sufficiency under paragraph (a) greater than one percent of covered payroll or that there is a contribution deficiency under paragraph (a) equal to or greater than one-half of one percent of covered payroll.

(c) If the actuarially determined contribution of the general employees retirement plan is less than the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, by more than one percent of covered payroll, the general employees retirement plan coordinated program employee and employer contribution rates under subdivisions 2 and 3 may be decreased over one or more years to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. Any decrease in employee and employer contribution rates must not result in total contributions that are less than the total of the normal cost of the retirement plan and the administrative expenses of the retirement plan.

(d) If the actuarially determined contribution exceeds the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, the board of trustees may increase the employee and matching employer contribution rates to eliminate that contribution deficiency.

(e) To determine if an adjustment is to be made, the board of trustees shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors

that include, but are not limited to, the contribution rates based on actuarial value of assets and contribution rates based on the market value of assets; the funded ratio based on the actuarial value of assets and based on the market value of assets; the number of years remaining to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contributions projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

(f) Any adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following the receipt of the most recent annual actuarial valuation prepared under section 356.215. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective for any salary paid on or after the January 1 next following the legislative session in which the Legislative Commission on Pensions and Retirement did not take any action to disapprove or modify the Public Employees Retirement Association Board of Trustees' adjustment to the employee and employer rates.

(g) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially determined contributions that are more than the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

(h) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be made, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially determined contribution and must report to the Legislative Commission on Pensions and Retirement any decision by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(i) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an adjustment to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the approved actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

353.34 RIGHTS UPON TERMINATION OF MEMBERSHIP.

Subd. 6. **Additions to fund.** The board of trustees may credit to the general employees retirement fund any money received in the form of contributions, donations, gifts, appropriations, bequests, or otherwise.

353.71 COVERAGE BY MORE THAN ONE RETIREMENT SYSTEM; DEFERRED ANNUITY; AUGMENTATION.

Subdivision 1. **Eligibility.** Any person who has been a member of a defined benefit retirement plan administered by the Public Employees Retirement Association, or a retirement plan administered by the Minnesota State Retirement System, or the Teachers Retirement Association, or any other public retirement system in the state of Minnesota having a like provision, except a retirement plan providing benefits for police officers or firefighters governed by sections 424A.091 to 424A.096, or by Laws 2013, chapter 111, article 5, sections 31 to 42, is entitled, when qualified, to an annuity from each retirement plan if the total allowable service in all retirement plans or in any two of these retirement plans totals the number of years of allowable service required to receive a normal retirement annuity for that retirement plan, provided that no portion of the allowable service upon which the retirement annuity from one retirement plan is based is again used in the computation for benefits from another retirement plan and provided further that the person has not taken a refund from any one of these retirement plans since the person's membership in that association or system last terminated. The annuity from each fund must be determined by the appropriate provisions of the law except that the requirement that a person must have at least a specific minimum period of allowable service in the respective association or system does not apply for the purposes of this section if the combined service in

APPENDIX

Repealed Minnesota Statutes: S0545-2

two or more of these retirement plans equals the number of years of allowable service required to receive a normal retirement annuity for that retirement plan.

Subd. 2. Deferred annuity computation; augmentation. (a) The deferred annuity accruing under subdivision 1, or under sections 353.34, subdivision 3, and 353.68, subdivision 4, must be computed on the basis of allowable service prior to the termination of public service and augmented as provided in this subdivision. The required reserves applicable to a deferred annuity, or to any deferred segment of an annuity must be determined as of the first day of the month following the month in which the former member ceased to be a public employee, or July 1, 1971, whichever is later.

(b) For a person who became a public employee before July 1, 2006, whose period of deferral began after June 30, 1971, and who terminated public employment before January 1, 2012, the required reserves of the deferred annuity must be augmented at the following applicable rate or rates:

(1) five percent annual compound interest until January 1, 1981;

(2) three percent annual compound interest after January 1, 1981, or until the earlier of December 31, 2011, or after the date of the termination of public service or the termination of membership, whichever is later, until January 1 of the year following the year in which the former member attains age 55;

(3) five percent annual compound interest from January 1 of the year following the year in which the former member attains age 55, or until December 31, 2011, whichever is earlier; and

(4) one percent annual compound interest from January 1, 2012.

(c) For a person who became a public employee after June 30, 2006, and who terminated public employment before January 1, 2012, the required reserves of the deferred annuity must be augmented at 2.5 percent annual compound interest from the date of termination of public service or termination of membership, whichever is earlier, until December 31, 2011, and one percent annual compound interest after December 31, 2011.

(d) For a person who terminates public employment after December 31, 2011, the required reserves of the deferred annuity must not be augmented.

(e) If a person has more than one period of uninterrupted service, the required reserves related to each period must be augmented as specified in this paragraph. The sum of the augmented required reserves is the present value of the annuity. Uninterrupted service for the purpose of this subdivision means periods of covered employment during which the employee has not been separated from public service for more than two years. If a person repays a refund, the restored service must be considered as continuous with the next period of service for which the employee has credit with this association. This section must not reduce the annuity otherwise payable under this chapter. This paragraph applies to individuals who become deferred annuitants on or after July 1, 1971. For a member who became a deferred annuitant before July 1, 1971, the paragraph applies from July 1, 1971, if the former active member applies for an annuity after July 1, 1973.

(f) The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former member who terminated service before July 1, 1997, or the survivor benefit payable on behalf of a basic or police and fire member who was receiving disability benefits before July 1, 1997, which is first payable after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board and approved by the actuary retained under section 356.214.

Subd. 4. Repayment of refund. Any person who has received a refund from the Public Employees Retirement Association and who is a member of any public retirement system referred to in subdivision 1, may repay such refund to the Public Employees Retirement Association as provided in section 353.35.

Subd. 5. Early retirement. The requirements and provisions for retirement prior to normal retirement age contained in section 353.30, shall also apply to a person fulfilling such requirements with a combination of service as provided in subdivision 1.

354.42 CONTRIBUTIONS BY EMPLOYER AND EMPLOYEE.

Subd. 4a. Determination. (a) For purposes of this section, a contribution sufficiency exists if the total of the employee contributions, the employer contributions, and any additional employer contributions, if applicable, exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

APPENDIX

Repealed Minnesota Statutes: S0545-2

(b) For purposes of this section, a contribution deficiency exists if the total of the employee contributions, the employer contributions, and any additional employer contributions are less than the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

Subd. 4b. **Contribution rate revision.** (a) Notwithstanding the contribution rate provisions under subdivisions 2 and 3, the Board of Trustees of the Teachers Retirement Association may adjust the employee and employer contribution rates if the regular actuarial valuation of the plan under section 356.215 indicates that there is a contribution sufficiency under subdivision 4a equal to or greater than one percent of covered payroll or if the regular valuation of the plan under section 356.215 indicates that there is a deficiency equal to or greater than one-half of one percent of covered payroll. Any decrease in employee and employer contribution rates must not result in the total of contribution rates that is less than the total of normal cost and administrative expenses.

(b) To determine if an adjustment is to be made, the board of trustees shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors that include, but are not limited to, the contribution rates based on actuarial value of assets and contribution rates based on the market value of assets; the funded ratio based on the actuarial value of assets and based on the market value of assets; the number of years remaining to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contributions projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

Subd. 4c. **Contribution sufficiency measures.** (a) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required contributions that are more than the total combined employee and employer contributions being collected.

(b) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the retirement plan, that may result in an increase in the actuarially required contribution and must report to the Legislative Commission on Pensions and Retirement any recommendation by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(c) A contribution sufficiency in excess of one percent of covered pay must not be used to increase benefits, and a benefit increase must not be proposed that would initiate an automatic adjustment under this section to increase contributions. A proposed benefit improvement must include a recommendation, prepared by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement, as provided under section 356.214, subdivision 4, on the manner in which the benefit modification is to be funded.

Subd. 4d. **Reporting; commission review.** A contribution rate increase or decrease made under subdivision 4b must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement on or before the next February 1 and, if the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, is effective on the next July 1 following the determination that a contribution deficiency or sufficiency exists based on the most recent actuarial valuation under section 356.215.

354.60 SERVICE IN OTHER PUBLIC RETIREMENT FUNDS; ANNUITY.

Any person who has been a member of the Minnesota state retirement system or the Public Employees Retirement Association including the Public Employees Retirement Association police and fire fund or the Teachers Retirement Association or the Minnesota State Patrol Retirement Association, or any other public employee retirement system in the state of Minnesota having a like provision but excluding all other funds providing benefits for police officers or firefighters shall be entitled when qualified to an annuity from each fund if the person's total allowable service in all three funds or in any two of these funds totals three or more years, provided no portion of the allowable service upon which the retirement annuity from one fund is based is again used in the computation for benefits from another fund and provided further that the person has not taken

APPENDIX

Repealed Minnesota Statutes: S0545-2

a refund from any one of these three funds since the person's membership in that association has terminated. The annuity from each fund shall be determined by the appropriate provisions of the law except that the requirement that an annuitant have at least three years' membership service or three years of allowable service in the respective association shall not apply for the purposes of this section provided the combined service in two or more of these funds equals three or more years.

354A.12 CONTRIBUTIONS BY EMPLOYEE AND EMPLOYER.

Subd. 2c. **Duluth Teachers Retirement Fund Association; employer contributions for reemployed annuitants.** The school district shall make the regular employer contributions and additional employer contributions specified in subdivision 2a on behalf of any retired member of the Duluth Teachers Retirement Fund Association who is reemployed by Independent School District No. 709, including providing service to the school district as an independent contractor or as an employee of an independent contractor.

354A.29 ST. PAUL TEACHERS RETIREMENT FUND ASSOCIATION POSTRETIREMENT ADJUSTMENT.

Subd. 8. **Calculation of postretirement adjustments; percentage based.** (a) For purposes of computing postretirement adjustments for eligible benefit recipients of the St. Paul Teachers Retirement Fund Association, the accrued liability funding ratio based on the actuarial value of assets of the plan as determined by the two most recent actuarial valuations prepared under sections 356.214 and 356.215 determines the postretirement increase, as follows:

Funding ratio	Postretirement increase
Less than 80 percent	1 percent
At least 80 percent but less than 90 percent	2 percent

(b) The amount determined under paragraph (a) is the full postretirement increase to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred after January 1 of the calendar year immediately before the postretirement increase is applied, the amount determined under paragraph (a) must be reduced by 50 percent.

(c) If the accrued liability funding ratio based on the actuarial value of assets is at least 90 percent in two consecutive actuarial valuations, subsequent postretirement increases must be paid as specified in subdivision 9.

(d) If, following a postretirement increase under paragraph (a), the accrued liability funding ratio, based on the actuarial value of assets, falls below 80 percent for two consecutive actuarial valuations, the applicable postretirement increase must be reduced to one percent until January 1 of the calendar year next following the date on which the requirements for an increase under paragraph (a) are again satisfied.

Subd. 9. **Calculation of postretirement adjustments.** (a) This subdivision applies if the requirements of subdivision 8, paragraph (c), have been satisfied.

(b) A percentage adjustment must be paid under this subdivision to eligible persons under subdivision 7.

(c) The amount of 2.5 percent is the full postretirement adjustment to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred after January 1 of the calendar year immediately before the postretirement adjustment is applied, the postretirement adjustment amount must be reduced by 50 percent.

(d) In the event the accrued liability funding ratio based on the actuarial value of assets falls below 90 percent for two consecutive actuarial valuations, the applicable postretirement increase must be determined under subdivision 8 until January 1 of the calendar year next following the date on which the requirements of subdivision 8, paragraph (c), are again satisfied.

354A.39 SERVICE IN OTHER PUBLIC RETIREMENT FUNDS; ANNUITY.

Any person who has been a member of the Minnesota State Retirement System, the Public Employees Retirement Association including the Public Employees Retirement Association Police and Fire Fund, the Teachers Retirement Association, the Minnesota State Patrol Retirement Association, the legislators retirement plan, the constitutional officers retirement plan, the St. Paul Teachers Retirement Fund Association coordinated program, or any other public employee

retirement system in the state of Minnesota having a like provision, but excluding all other funds providing retirement benefits for police officers or firefighters, is entitled, when qualified, to an annuity from each fund if the person's total allowable service in all of the funds or in any two or more of the funds totals three or more years, provided that no portion of the allowable service upon which the retirement annuity from one fund is based is used again in the computation for a retirement annuity from another fund and provided further that the person has not taken a refund from any of funds or associations since the person's membership in the fund or association has terminated. The annuity from each fund or association must be determined by the appropriate provisions of the law governing each fund or association, except that the requirement that a person must have at least three years of allowable service in the respective fund or association does not apply for the purposes of this section, provided that the aggregate service in two or more of these funds equals three or more years.

356.611 LIMITATION ON PUBLIC EMPLOYEE SALARIES FOR PENSION PURPOSES.

Subd. 3. **Maximum benefit limitations.** An annuitant's annual benefit, if necessary, must be reduced to the extent required by section 415(b) of the federal Internal Revenue Code, as adjusted by the United States secretary of the treasury under section 415(d) of the federal Internal Revenue Code for any applicable increases in the cost of living, including applicable increases in the cost of living after the member's termination of employment. If an annuitant participated in more than one pension plan in which the employer participates, the benefits under each plan must be reduced proportionately, if necessary, to satisfy the applicable limitation.

Subd. 3a. **Maximum annual addition limitation, defined contribution plans.** The annual additions on behalf of a member to a defined contribution plan for any limitation year shall not exceed the applicable limitation on annual additions under section 415(c) of the federal Internal Revenue Code, as adjusted by the United States secretary of the treasury under section 415(d) of the federal Internal Revenue Code.

Subd. 4. **Compensation.** For purposes of this section, compensation means a member's compensation actually paid or made available for any limitation year including all items of remuneration described in federal treasury regulation section 1.415 (c)-2(b) and excluding all items of remuneration described in federal treasury regulation section 1.415 (c)-2(c). Compensation for pension plan purposes for any limitation year shall not exceed the applicable federal compensation limit described in subdivision 2.

Subd. 5. **Limitation year.** Unless otherwise specifically provided, for purposes of section 415 of the federal Internal Revenue Code, the limitation year of a pension plan covered by this section is the calendar year or fiscal year, whichever is applicable.

356.96 PENSION PLAN APPEAL PROCEDURES.

Subd. 14. **Petitions without notice.** Notwithstanding the petition notice and requirements under this section, a person who believes that the person's rights have been affected by a decision made by the administration of a covered pension plan may request a review under this section by the appropriate governing board. The petition under this subdivision must be made within 45 days of the time that the person knew or should have known of the disputed decision.

Subd. 15. **Governing board review panel.** Any covered pension plan subject to this section, by motion duly made and adopted, may appoint a panel of governing board members to hear and determine any or all petitions brought under this section. The governing board review panel must contain a minimum number of board members that would otherwise constitute a quorum of board members under the governing body's rules and procedures.

424A.02 DEFINED BENEFIT RELIEF ASSOCIATIONS; SERVICE PENSIONS.

Subd. 13. **Combined service pensions.** (a) If the articles of incorporation or bylaws of the defined benefit relief associations so provide, a volunteer firefighter with credit for service as an active firefighter in more than one defined benefit volunteer firefighters relief association is entitled, when the applicable requirements of paragraph (b) are met and when otherwise qualified, to a prorated service credit from each relief association.

(b) A volunteer firefighter receiving a prorated service pension under this subdivision must have a total amount of service credit of ten years or more, if the bylaws of every affected relief association do not specify only a five-year service vesting requirement, or five years or more, if the bylaws of every affected relief association require only a five-year service vesting requirement, as a member of two or more relief associations otherwise qualified. The member

APPENDIX

Repealed Minnesota Statutes: S0545-2

must have one year or more of service credit in each relief association. The prorated service pension must be based on the service pension amount in effect for the relief association on the date on which active volunteer firefighting services covered by that relief association terminate. To receive a service pension under this subdivision, the firefighter must become a member of the second or succeeding association and must give notice of membership to the prior association within two years of the date of termination of active service with the prior association. The notice must be attested to by the second or subsequent relief association secretary.
