CHAPTER 319—S.F.No. 131

An act relating to transportation; authorizing commissioner of transportation and local road authorities to reduce speed limits in work zones; amending Minnesota Statutes 1986, section 169.14, by adding a subdivision.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 1986, section 169.14, is amended by adding a subdivision to read:

Subd. 5d. SPEED ZONING IN WORK ZONES. The commissioner, on trunk highways and temporary trunk highways, and local authorities, on streets and highways under their jurisdiction, may authorize the use of reduced maximum speed limits in highway work zones. The commissioner or local authority is not required to conduct an engineering and traffic investigation before authorizing a reduced speed limit in a highway work zone.

The minimum highway work zone speed limit is 20 miles per hour. The work zone speed limit must not reduce the established speed limit on the affected street or highway by more than 15 miles per hour, except that the highway work zone speed limit shall not exceed 40 miles per hour. Highway work zone speed limits are effective on erection of appropriate regulatory speed limit signs designating the beginning and end of the affected work zone. The signs must be removed or covered when they are not required. A speed greater than the posted highway work zone speed limit is unlawful.

For purposes of this subdivision, "highway work zone" means a segment of highway or street where a road authority or its agent is constructing, reconstructing, or maintaining the physical structure of the roadway, its shoulders, or features adjacent to the roadway, including underground and overhead utilities and highway appurtenances.
