CHAPTER 524—H.F.No. 1921

An act relating to retirement; increasing employee contribution rates and benefit computation formulas for the teachers retirement fund; amending Minnesota Statutes 1992, sections 354.42, subdivision 2; and 354.44, subdivision 6.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 1992, section 354.42, subdivision 2, is amended to read:

Subd. 2. The employee contribution to the fund shall be an amount equal to ~~4-1/2~~ 6.5 percent of the salary of every coordinated member and ~~8-1/2~~ 10.5 percent of the salary of every basic member. This contribution shall be made by deduction from salary. Where any portion of a member's salary is paid from other than public funds, such member's employee contribution shall be based on the entire salary received.

Sec. 2. Minnesota Statutes 1992, section 354.44, subdivision 6, is amended to read:

New language is indicated by underline, deletions by ~~strikeout~~.

Subd. 6. **COMPUTATION OF FORMULA PROGRAM RETIREMENT ANNUITY.** (1) The formula retirement annuity hereunder shall be computed in accordance with the applicable provisions of the formulas stated in clause (2) or (4) on the basis of each member's average salary for the period of the member's formula service credit.

For all years of formula service credit, "average salary," for the purpose of determining the member's retirement annuity, means the average salary upon which contributions were made and upon which payments were made to increase the salary limitation provided in Minnesota Statutes 1971, section 354.511, for the highest five successive years of formula service credit provided, however, that such "average salary" shall not include any more than the equivalent of 60 monthly salary payments. Average salary must be based upon all years of formula service credit if this service credit is less than five years.

(2) This clause, in conjunction with clause (3), applies to a person who first became a member of the fund or a member of a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless clause (4), in conjunction with clause (5), produces a higher annuity amount, in which case clause (4) applies. The average salary as defined in clause (1), multiplied by the following percentages per year of formula service credit shall determine the amount of the annuity to which the member qualifying therefor is entitled:

	Coordinated Member	Basic Member
Each year of service during first ten	4.0 <u>1.13</u> percent per year	2.0 <u>2.13</u> percent per year
Each year of service thereafter	4.5 <u>1.63</u> percent per year	2.5 <u>2.63</u> percent per year

(3)(i) This clause applies only to a person who first became a member of the fund or a member of a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, and whose annuity is higher when calculated under clause (2), in conjunction with this clause than when calculated under clause (4), in conjunction with clause (5).

(ii) Where any member retires prior to normal retirement age under a formula annuity, the member shall be paid a retirement annuity in an amount equal to the normal annuity provided in clause (2) reduced by one-quarter of one percent for each month that the member is under normal retirement age at the time of retirement except that for any member who has 30 or more years of allowable service credit, the reduction shall be applied only for each month that the member is under age 62.

(iii) Any member whose attained age plus credited allowable service totals 90 years is entitled, upon application, to a retirement annuity in an amount equal to the normal annuity provided in clause (2), without any reduction by reason of early retirement.

(4) This clause applies to a member who has become at least 55 years old

and first became a member of the fund after June 30, 1989, and to any other member who has become at least 55 years old and whose annuity amount when calculated under this clause and in conjunction with clause (5), is higher than it is when calculated under clause (2), in conjunction with clause (3). The average salary, as defined in clause (1) multiplied by ~~2.5~~ 2.63 percent for each year of service for a basic member and by ~~1.5~~ 1.63 percent for each year of service for a coordinated member shall determine the amount of the retirement annuity to which the member is entitled.

(5) This clause applies to a person who has become at least 55 years old and first becomes a member of the fund after June 30, 1989, and to any other member who has become at least 55 years old and whose annuity is higher when calculated under clause (4) in conjunction with this clause than when calculated under clause (2), in conjunction with clause (3). An employee who retires under the formula annuity before the normal retirement age shall be paid the normal annuity provided in clause (4) reduced so that the reduced annuity is the actuarial equivalent of the annuity that would be payable to the employee if the employee deferred receipt of the annuity and the annuity amount were augmented at an annual rate of three percent compounded annually from the day the annuity begins to accrue until the normal retirement age.

Sec. 3. EFFECTIVE DATE.

Section 1 is effective the first payroll period beginning after July 1, 1994.
Section 2 is effective on May 15, 1994.
