At the time of initial written communication with the health care provider, health care clearinghouse, or group purchaser about the complaint, the commissioner of health shall describe the acts or omissions that are the basis of the complaint. The commissioner may conduct compliance reviews to determine whether health care providers, health care clearinghouses, and group purchasers are complying with this section.

- (v) whether the violation was intentional;
- (vi) whether the violation was beyond the direct control of the health care provider, health care clearinghouse, or group purchaser;
- (vii) any history of prior compliance with the provisions of this section, including violations;
- (viii) whether and to what extent the provider, health care clearinghouse, or group purchaser has attempted to correct previous violations;

- (x) the financial condition of the health care provider, health care clearinghouse, or group purchaser including, but not limited to, whether the health care provider, health care clearinghouse, or group purchaser had financial difficulties that affected its ability to comply or whether the imposition of a civil money penalty would jeopardize the ability of the health care provider, health care clearinghouse, or group purchaser to continue to provide, or to pay for, health care.

(i) If a penalty is proposed according to this section, the commissioner of health must deliver, or send by certified mail with return receipt requested, to the respondent written notice of the commissioner of health's intent to impose a penalty. This notice of proposed determination must include:

- (1) a reference to the statutory basis for the penalty;
  - (2) a description of the findings of fact regarding the violations with respect to which the penalty is proposed;
  - (3) the amount of the proposed penalty;
  - (4) any circumstances described in paragraph (i) that were considered in determining the amount of the proposed penalty;
  - (5) instructions for responding to the notice, including a statement of the respondent's right to a contested case proceeding and a statement that failure to request a contested case proceeding within 30 calendar days permits the imposition of the proposed penalty; and
  - (6) the address to which the contested case proceeding request must be sent.
- (j) A health care provider, health care clearinghouse, or group purchaser may contest whether the finding of facts constitute a violation of this section, according to a contested case proceeding as set forth in sections 14.57 to 14.62, subject to appeal according to sections 14.63 to 14.68.
- (k) Any data collected by the commissioner of health as part of an active investigation or active compliance review under this section are classified as protected nonpublic data pursuant to section 13.02, subdivision 13, in the case of data not on individuals and confidential pursuant to section 13.02, subdivision 3, in the case of data on individuals. Data describing the final disposition of an investigation or compliance review are classified as public.
- (l) Civil money penalties imposed and collected under this subdivision shall be deposited into a revolving fund and are appropriated to the commissioner of health for the purposes of this subdivision, including the provision of technical assistance.

**Subd. 4. Health care clearinghouses.** (a) Beginning January 1, 2012, health care clearinghouses must use and make available suitable tracking mechanisms to allow health care providers and group purchasers to determine in a timely fashion that health care claims or equivalent encounter information transactions and health care payment and remittance advice transactions were delivered to their intended final destination. Clearinghouses must provide clear, understandable, accurate information and instructions for tracking claims and remittance advice transactions to all clients, potential clients, or interested parties. (b) Health care clearinghouses must make or provide electronic connections with other clearinghouses or trading partners requesting such a connection to meet the requirements of this section. A health care clearinghouse must connect electronically in a timely manner with any entity willing and capable of meeting the standard business terms and conditions of the clearinghouse, as well as any applicable laws and regulations. Any connectivity sought or established under this subdivision must be consistent with

(c) Acceptance of a compliant standard transaction may not be contingent on purchase of additional services. A health care clearinghouse may not condition acceptance of a compliant standard transaction from a provider, provider's agent, group purchaser, or group purchaser's agent on the provider's or group purchaser's agreement to pay for an additional service such as transmitting attachments electronically.

(d) The commissioner may:

(1) require information and data from health care clearinghouses, including information regarding clearinghouse operations and performance, to ensure that requirements of this section and related rules are fulfilled;

(2) require that clearinghouses with Web sites post, maintain, and regularly update on their Web sites point-of-contact information and other information needed by clients, potential clients, and others to obtain answers to questions or to conduct business;

(3) require that all clearinghouses provide timely, clear, accurate, reliable information to their clients, potential clients, or any interested parties regarding their products or services, pricing, and other business and service information; and

(4) post information from clearinghouses on a Department of Health Web site and make the information broadly available through other means.

The commissioner shall determine the manner, content, timing, frequency, and other specifications for information to be posted or submitted by health care clearinghouses.
