ARTICLE 1

INTEREST, SALARY, AND PAYROLL GROWTH ASSUMPTION CHANGES

Section 1. Minnesota Statutes 2014, section 356.215, subdivision 8, is amended to read:

Subd. 8. **Interest and salary assumptions.** (a) The actuarial valuation must use the applicable following interest assumption:

(1) select and ultimate interest rate assumption

plan	ultimate interest rate assumption
general state employees retirement plan	8.5%
correctional state employees retirement plan	8.5
State Patrol retirement plan	8.5
legislators retirement plan, and for the constitutional officers calculation of total plan liabilities	0
judges retirement plan	8.5
general public employees retirement plan	8.5
public employees police and fire retirement plan	8.5
local government correctional service retirement plan	8.5
teachers retirement plan	8.5%
St. Paul teachers retirement plan	8.5

~~Except for the legislators retirement plan and the constitutional officers calculation of total plan liabilities, The select preretirement interest rate assumption for the period after June 30, 2012, through June 30, 2017, is 8 percent.~~

(2) single rate interest rate assumption

plan	interest rate assumption
<u>general state employees retirement plan</u>	<u>8%</u>

<u>correctional state employees retirement plan</u>	<u>8</u>
<u>State Patrol retirement plan</u>	<u>8</u>
<u>legislators retirement plan, and for the constitutional officers calculation of total plan liabilities</u>	<u>0</u>

<u>local government correctional service retirement plan</u>	<u>8</u>
<u>St. Paul teachers retirement plan</u>	<u>8</u>
Bloomington Fire Department Relief Association	6
local monthly benefit volunteer firefighters relief associations	5

(b)(1) If funding stability has been attained, the valuation must use a postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section 354A.27, subdivision 7; 354A.29, subdivision 9; or 356.415, subdivision 1, whichever applies.

(2) If funding stability has not been attained, the valuation must use a select postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section 354A.27, subdivision 6a; 354A.29, subdivision 8; or 356.415, subdivision 1a, 1b, 1c, 1d, 1e, or 1f, whichever applies, for a period ending when the approved actuary estimates that the plan will attain the defined funding stability measure, and thereafter an ultimate postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate under section 354A.27, subdivision 7; 354A.29, subdivision 9; or 356.415, subdivision 1, for the applicable period or periods beginning when funding stability is projected to be attained.

(c) The actuarial valuation must use the applicable following single rate future salary increase assumption, the applicable following modified single rate future salary increase assumption, or the applicable following graded rate future salary increase assumption:

- (1) single rate future salary increase assumption

plan	future salary increase assumption
legislators retirement plan	5%
judges retirement plan	3 <u>2.75</u>
Bloomington Fire Department Relief Association	4

(2) age-related future salary increase age-related select and ultimate future salary increase assumption or graded rate future salary increase assumption

plan	future salary increase assumption
local government correctional service retirement plan	assumption B
St. Paul teachers retirement plan	assumption A

For plans other than the St. Paul teachers retirement plan and the local government correctional service retirement plan, the select calculation is: during the designated select period, a designated percentage rate is multiplied by the result of the designated integer minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is ten years and the designated integer is ten for the local government correctional service retirement plan and 15 for the St. Paul Teachers Retirement Fund Association. The designated percentage rate is 0.2 percent for the St. Paul Teachers Retirement Fund Association.

The ultimate future salary increase assumption is:

(d) The actuarial valuation must use the applicable following payroll growth assumption for calculating the amortization requirement for the unfunded actuarial accrued liability where the amortization retirement is calculated as a level percentage of an increasing payroll:

plan	payroll growth assumption
general state employees retirement plan of the Minnesota State Retirement System	3.75% <u>3.5%</u>

(e) The assumptions set forth in paragraphs (c) and (d) continue to apply, unless a different salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;

(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214 does not apply; and

(3) has been approved or deemed approved under subdivision 18.

EFFECTIVE DATE. This section is effective June 30, 2015, and applies to actuarial valuations prepared for an actuarial valuation date after that date.

ARTICLE 2**CONFORMING CHANGES IN REFUND REPAYMENT
PROVISIONS RELATED TO INTEREST ASSUMPTION CHANGE**

Section 1. Minnesota Statutes 2014, section 3A.03, subdivision 2, is amended to read:

Subd. 2. **Refund.** (a) A former member who has made contributions under subdivision 1 and who is no longer a member of the legislature is entitled to receive, upon written application to the executive director on a form prescribed by the executive director, a refund from the general fund of all contributions credited to the member's account with interest computed as provided in section 352.22, subdivision 2.

(b) The refund of contributions as provided in paragraph (a) terminates all rights of a former member of the legislature and the survivors of the former member under this chapter.

(c) If the former member of the legislature again becomes a member of the legislature after having taken a refund as provided in paragraph (a), the member is a member of the unclassified employees retirement program of the Minnesota State Retirement System.

(d) However, the member may reinstate the rights and credit for service previously forfeited under this chapter if the member repays all refunds taken, plus interest at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the date on which the refund was taken to the date on which the refund is repaid.

(e) No person may be required to apply for or to accept a refund.

Sec. 2. Minnesota Statutes 2014, section 352.01, subdivision 13a, is amended to read:

Subd. 13a. **Reduced salary during period of workers' compensation.** An employee on leave of absence receiving temporary workers' compensation payments and a reduced salary or no salary from the employer who is entitled to allowable service credit for the period of absence, may make payment to the fund for the difference between salary received, if any, and the salary the employee would normally receive if not on leave of absence during the period. The employee shall pay an amount equal to the employee and employer contribution rate under section 352.04, subdivisions 2 and 3, on the differential salary amount for the period of the leave of absence.

The employing department, at its option, may pay the employer amount on behalf of its employees. Payment made under this subdivision must include interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter per year, and must be completed within one year of the return from leave of absence.

Sec. 3. Minnesota Statutes 2014, section 352.04, subdivision 8, is amended to read:

Subd. 8. **Department required to pay omitted salary deductions.** (a) If a department fails to take deductions past due for a period of 60 days or less from an employee's salary as provided in this section, those deductions must be taken on later payroll abstracts.

(b) If a department fails to take deductions past due for a period in excess of 60 days from an employee's salary as provided in this section, the department, and not the employee, must pay on later payroll abstracts the employee and employer contributions and an amount equivalent to 8.5 percent until June 30, 2015, and

eight percent thereafter of the total amount due in lieu of interest, or if the delay in payment exceeds one year, 8.5 percent until June 30, 2015, and eight percent thereafter compound annual interest.

(c) If a department fails to take deductions past due for a period of 60 days or less and the employee is no longer in state service so that the required deductions cannot be taken from the salary of the employee, the department must nevertheless pay the required employer contributions. If any department fails to take deductions past due for a period in excess of 60 days and the employee is no longer in state service, the omitted contributions must be recovered under paragraph (b).

(d) If an employee from whose salary required deductions were past due for a period of 60 days or less leaves state service before the payment of the omitted deductions and subsequently returns to state service, the unpaid amount is considered the equivalent of a refund. The employee accrues no right by reason of the unpaid amount, except that the employee may pay the amount of omitted deductions as provided in section 352.23.

Sec. 4. Minnesota Statutes 2014, section 352.04, subdivision 9, is amended to read:

Subd. 9. **Erroneous deductions, canceled warrants.** (a) Deductions taken from the salary of an employee for the retirement fund in excess of required amounts must, upon discovery and verification by the department making the deduction, be refunded to the employee.

(b) If a deduction for the retirement fund is taken from a salary warrant or check, and the check is canceled or the amount of the warrant or check returned to the funds of the department making the payment, the sum deducted, or the part of it required to adjust the deductions, must be refunded to the department or institution if the department applies for the refund on a form furnished by the director. The department's payments must likewise be refunded to the department.

(c) If erroneous employee deductions and employer contributions are caused by an error in plan coverage involving the plan and any other plans specified in section 356.99, that section applies. If the employee should have been covered by the plan governed by chapter 352D, 353D, 354B, or 354D, the employee deductions and employer contributions taken in error must be directly transferred to the applicable employee's account in the correct retirement plan, with interest at the rate of 0.71 percent per month until June 30, 2015, and 0.667 percent per month thereafter, compounded annually, from the first day of the month following the month in which coverage should have commenced in the correct defined contribution plan until the end of the month in which the transfer occurs.

Sec. 5. Minnesota Statutes 2014, section 352.23, is amended to read:

352.23 TERMINATION OF RIGHTS.

When any employee accepts a refund as provided in section 352.22, all existing service credits and all rights and benefits to which the employee was entitled before accepting the refund terminate. They must not again be restored until the former employee acquires at least six months of allowable service credit after taking the last refund. In that event, the employee may repay all refunds previously taken from the retirement fund. Repayment of refunds entitles the employee only to credit for service covered by (1) salary deductions; (2) payments made in lieu of salary deductions; (3) payments made to obtain credit for service as permitted by laws in effect when payment was made; and (4) allowable service once credited while receiving temporary workers' compensation as provided in section 352.01, subdivision 11, clause (5). Payments under this section for repayment of refunds are to be paid with interest at ~~an annual~~ the rate of 8.5 percent until

June 30, 2015, and eight percent thereafter compounded annually. They may be paid in a lump sum or by payroll deduction in the manner provided in section 352.04. Payment may be made in a lump sum up to six months after termination from service.

Sec. 6. Minnesota Statutes 2014, section 352B.11, subdivision 4, is amended to read:

Subd. 4. **Reentry into state service.** When a former member, who has become separated from state service that entitled the member to membership and has received a refund of retirement payments, reenters the state service in a position that entitles the member to membership, that member shall receive credit for the period of prior allowable state service if the member repays into the fund the amount of the refund, plus interest on it at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually, at any time before subsequent retirement. Repayment may be made in installments or in a lump sum.

Sec. 7. Minnesota Statutes 2014, section 352D.05, subdivision 4, is amended to read:

Subd. 4. **Repayment of refund.** (a) A participant in the unclassified program may repay regular refunds taken under section 352.22, as provided in section 352.23.

(b) A participant in the unclassified program or an employee covered by the general employees retirement plan who has withdrawn the value of the total shares may repay the refund taken and thereupon restore the service credit, rights and benefits forfeited by paying into the fund the amount refunded plus interest at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the date that the refund was taken until the date that the refund is repaid. If the participant had withdrawn only the employee shares as permitted under prior laws, repayment must be pro rata.

(c) Except as provided in section 356.441, the repayment of a refund under this section must be made in a lump sum.

Sec. 8. Minnesota Statutes 2014, section 352D.12, is amended to read:

352D.12 TRANSFER OF PRIOR SERVICE CONTRIBUTIONS.

(a) An employee who is a participant in the unclassified program and who has prior service credit in a covered plan under chapter 352, 353, 354, 354A, or 422A may, within the time limits specified in this section, elect to transfer to the unclassified program prior service contributions to one or more of those plans.

(b) For participants with prior service credit in a plan governed by chapter 352, 353, 354, 354A, or 422A, "prior service contributions" means the accumulated employee and equal employer contributions with interest at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually, based on fiscal year balances.

(c) If a participant has taken a refund from a retirement plan listed in this section, the participant may repay the refund to that plan, notwithstanding any restrictions on repayment to that plan, plus 8.5 percent interest until June 30, 2015, and eight percent interest thereafter compounded annually and have the accumulated employee and equal employer contributions transferred to the unclassified program with interest at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually based on fiscal year balances. If a person repays a refund and subsequently elects to have the money transferred to the unclassified program, the repayment amount, including interest, is added to the fiscal year balance in the year which the repayment was made.

(d) A participant electing to transfer prior service contributions credited to a retirement plan governed by chapter 352, 353, 354, 354A, or 422A as provided under this section must complete a written application for the transfer and repay any refund within one year of the commencement of the employee's participation in the unclassified program.

Sec. 9. Minnesota Statutes 2014, section 353.27, subdivision 7a, is amended to read:

Subd. 7a. **Deductions or contributions transmitted by error.** (a) If employee deductions and employer contributions under this section, section 353.50, 353.65, or 353E.03 were erroneously transmitted to the association, but should have been transmitted to a plan covered by chapter 352D, 353D, 354B, or 354D, the executive director shall transfer the erroneous employee deductions and employer contributions to the appropriate retirement fund or individual account, as applicable. The time limitations specified in subdivisions 7 and 12 do not apply. The transfer to the applicable defined contribution plan account must include interest at the rate of 0.71 percent per month until June 30, 2015, and 0.667 percent per month thereafter, compounded annually, from the first day of the month following the month in which coverage should have commenced in the defined contribution plan until the end of the month in which the transfer occurs.

(b) A potential transfer under paragraph (a) that is reasonably determined to cause the plan to fail to be a qualified plan under section 401(a) of the federal Internal Revenue Code, as amended, must not be made by the executive director of the association. Within 30 days after being notified by the Public Employees Retirement Association of an unmade potential transfer under this paragraph, the employer of the affected person must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the retirement fund of the appropriate Minnesota public pension plan, or to the applicable individual account if the proper coverage is by a defined contribution plan. The association must provide the employing unit a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from the employer. If the employing unit receives a credit under this paragraph, the employing unit is responsible for refunding to the applicable employee any amount that had been erroneously deducted from the person's salary.

(c) If erroneous employee deductions and employer contributions reflect a plan coverage error involving any Public Employees Retirement Association plan specified in section 356.99 and any other plan specified in that section, section 356.99 applies.

Sec. 10. Minnesota Statutes 2014, section 353.27, subdivision 12, is amended to read:

Subd. 12. **Omitted salary deductions; obligations.** (a) In the case of omission of required deductions for the general employees retirement plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan from the salary of an employee, the department head or designee shall immediately, upon discovery, report the employee for membership and deduct the employee deductions under subdivision 4 during the current pay period or during the pay period immediately following the discovery of the omission. Payment for the omitted obligations may only be made in accordance with reporting procedures and methods established by the executive director.

(b) When the entire omission period of an employee does not exceed 60 days, the governmental subdivision may report and submit payment of the omitted employee deductions and the omitted employer contributions through the reporting processes under subdivision 4.

(c) When the omission period of an employee exceeds 60 days, the governmental subdivision shall furnish to the association sufficient data and documentation upon which the obligation for omitted employee

and employer contributions can be calculated. The omitted employee deductions must be deducted from the employee's subsequent salary payment or payments and remitted to the association for deposit in the applicable retirement fund. The employee shall pay omitted employee deductions due for the 60 days prior to the end of the last pay period in the omission period during which salary was earned. The employer shall pay any remaining omitted employee deductions and any omitted employer contributions, plus cumulative interest at ~~an~~ the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually, from the date or dates each omitted employee contribution was first payable.

(d) An employer shall not hold an employee liable for omitted employee deductions beyond the pay period dates under paragraph (c), nor attempt to recover from the employee those employee deductions paid by the employer on behalf of the employee. Omitted deductions due under paragraph (c) which are not paid by the employee constitute a liability of the employer that failed to deduct the omitted deductions from the employee's salary. The employer shall make payment with interest at ~~an~~ the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually. Omitted employee deductions are no longer due if an employee terminates public service before making payment of omitted employee deductions to the association, but the employer remains liable to pay omitted employer contributions plus interest at ~~an~~ the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the date the contributions were first payable.

(e) The association may not commence action for the recovery of omitted employee deductions and employer contributions after the expiration of three calendar years after the calendar year in which the contributions and deductions were omitted. Except as provided under paragraph (b), no payment may be made or accepted unless the association has already commenced action for recovery of omitted deductions. An action for recovery commences on the date of the mailing of any written correspondence from the association requesting information from the governmental subdivision upon which to determine whether or not omitted deductions occurred.

Sec. 11. Minnesota Statutes 2014, section 353.27, subdivision 12a, is amended to read:

Subd. 12a. **Terminated employees: omitted deductions.** A terminated employee who was a member of the general employees retirement plan of the Public Employees Retirement Association, the public employees police and fire retirement plan, or the local government correctional employees retirement plan and who has a period of employment in which previously omitted employer contributions were made under subdivision 12 but for whom no, or only partial, omitted employee contributions have been made, or a member who had prior coverage in the association for which previously omitted employer contributions were made under subdivision 12 but who terminated service before required omitted employee deductions could be withheld from salary, may pay the omitted employee deductions for the period on which omitted employer contributions were previously paid plus interest at ~~an~~ the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually. A terminated employee may pay the omitted employee deductions plus interest within six months of an initial notification from the association of eligibility to pay those omitted deductions. If a terminated employee is reemployed in a position covered under a public pension fund under section 356.30, subdivision 3, and elects to pay omitted employee deductions, payment must be made no later than six months after a subsequent termination of public service.

Sec. 12. Minnesota Statutes 2014, section 353.28, subdivision 5, is amended to read:

Subd. 5. **Interest chargeable on amounts due.** Any amount due under this section or section 353.27, subdivision 4, is payable with interest at ~~an~~ the annual compound rate of 8.5 percent until June 30, 2015,

and eight percent thereafter from the date due until the date payment is received by the association, with a minimum interest charge of \$10.

Sec. 13. Minnesota Statutes 2014, section 353.35, subdivision 1, is amended to read:

Subdivision 1. **Refund rights.** (a) Except as provided in paragraph (b), when any former member accepts a refund, all existing service credits and all rights and benefits to which the person was entitled prior to the acceptance of the refund must terminate.

(b) A refund under section 353.651, subdivision 3, paragraph (c), does not result in a forfeiture of salary credit for the allowable service credit covered by the refund.

(c) The rights and benefits of a former member must not be restored until the person returns to active service and acquires at least six months of allowable service credit after taking the last refund and repays the refund or refunds taken and interest received under section 353.34, subdivisions 1 and 2, plus interest at an the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually. If the person elects to restore service credit in a particular fund from which the person has taken more than one refund, the person must repay all refunds to that fund. All refunds must be repaid within six months of the last date of termination of public service.

Sec. 14. Minnesota Statutes 2014, section 354A.093, subdivision 6, is amended to read:

Subd. 6. **Interest requirements.** The employer shall pay interest on all equivalent employee and employer contribution amounts payable under this section. Interest must be computed at a the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the end of each fiscal year of the leave or break in service to the end of the month in which payment is received.

Sec. 15. Minnesota Statutes 2014, section 354A.38, subdivision 3, is amended to read:

Subd. 3. **Computation of refund repayment amount.** If the coordinated member elects to repay a refund under subdivision 2, the repayment to the fund must be in an amount equal to refunds the member has accepted plus interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the date that the refund was accepted to the date that the refund is repaid.

Sec. 16. Minnesota Statutes 2014, section 356.44, is amended to read:

356.44 PARTIAL PAYMENT OF PENSION PLAN REFUND.

(a) Notwithstanding any provision of law to the contrary, a member of a pension plan listed in section 356.30, subdivision 3, with at least two years of forfeited service taken from a single pension plan, may repay a portion of all refunds. A partial refund repayment must comply with this section.

(b) The minimum portion of a refund repayment is one-third of the total service credit period of all refunds taken from a single plan.

(c) The cost of the partial refund repayment is the product of the cost of the total repayment multiplied by the ratio of the restored service credit to the total forfeited service credit. The total repayment amount includes interest at the annual rate of 8.5 percent for any period for the Teachers Retirement Association and is 8.5 percent until June 30, 2015, and 8 percent thereafter for any other retirement plan listed in section 356.30, subdivision 3, compounded annually, from the refund date to the date repayment is received.

(d) The restored service credit must be allocated based on the relationship the restored service bears to the total service credit period for all refunds taken from a single pension plan.

(e) This section does not authorize a public pension plan member to repay a refund if the law governing the plan does not authorize the repayment of a refund of member contributions.

Sec. 17. Minnesota Statutes 2014, section 490.124, subdivision 12, is amended to read:

Subd. 12. **Refund.** (a) A person who ceases to be a judge is entitled to a refund in an amount that is equal to all of the member's employee contributions to the judges' retirement fund plus interest computed under section 352.22, subdivision 2.

(b) A refund of contributions under paragraph (a) terminates all service credits and all rights and benefits of the judge and the judge's survivors under this chapter.

(c) A person who becomes a judge again after taking a refund under paragraph (a) may reinstate the previously terminated allowable service credit, rights, and benefits by repaying the total amount of the previously received refund. The refund repayment must include interest on the total amount previously received at an the annual rate of 8.5 percent, until June 30, 2015, and eight percent thereafter compounded annually, from the date on which the refund was received until the date on which the refund is repaid.

ARTICLE 3

CONFORMING CHANGES IN LEAVE AND PRIOR SERVICE CREDIT PURCHASE PROVISIONS RELATED TO INTEREST ASSUMPTION CHANGE

Section 1. Minnesota Statutes 2014, section 352.017, subdivision 2, is amended to read:

Subd. 2. **Purchase procedure.** (a) An employee covered by a plan specified in this chapter may purchase credit for allowable service in that plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the executive director within one year from the date the employee returned to work following the authorized leave, the payment amount is equal to the employee and employer contribution rates specified in law for the applicable plan at the end of the leave period multiplied by the employee's hourly rate of salary on the date of return from the leave of absence and by the days and months of the leave of absence for which the employee is eligible for allowable service credit. The payment must include compound interest at a the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter from the last day of the leave period until the last day of the month in which payment is received. If payment is received by the executive director after one year, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date of termination from public employment covered under this chapter.

(c) If the employee terminates employment covered by this chapter during the leave or following the leave rather than returning to covered employment, payment must be received by the executive director

within 30 days after the termination date. The payment amount is equal to the employee and employer contribution rates specified in law for the applicable plan on the day prior to the termination date, multiplied by the employee's hourly rate of salary on that date and by the days and months of the leave of absence prior to termination.

Sec. 2. Minnesota Statutes 2014, section 352.27, is amended to read:

352.27 CREDIT FOR BREAK IN SERVICE TO PROVIDE UNIFORMED SERVICE.

(a) An employee who is absent from employment by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), and who returns to state service upon discharge from service in the uniformed service within the time frames required in United States Code, title 38, section 4312(e), may obtain service credit for the period of the uniformed service as further specified in this section, provided that the employee did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions.

(b) The employee may obtain credit by paying into the fund an equivalent employee contribution based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the employee would have received if the employee had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the employee's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service.

(c) The equivalent employer contribution and, if applicable, the equivalent additional employer contribution provided in this chapter must be paid by the department employing the employee from funds available to the department at the time and in the manner provided in this chapter, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent employee contribution.

(d) If the employee equivalent contributions provided in this section are not paid in full, the employee's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total employee contribution received by the total employee contribution otherwise required under this section.

(e) To receive service credit under this section, the contributions specified in this section must be transmitted to the Minnesota State Retirement System during the period which begins with the date on which the individual returns to state service and which has a duration of three times the length of the uniformed service period, but not to exceed five years. If the determined payment period is less than one year, the contributions required under this section to receive service credit may be made within one year of the discharge date.

(f) The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312.

(g) The employing unit shall pay interest on all equivalent employee and employer contribution amounts payable under this section. Interest must be computed at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received.

Sec. 3. Minnesota Statutes 2014, section 352.955, subdivision 3, is amended to read:

Subd. 3. Payment of additional equivalent contributions. (a) An eligible employee who is transferred to plan coverage and who elects to transfer past service credit under this section must pay an additional member contribution for that prior service period. The additional member contribution is the amount computed under paragraph (b), plus the greater of the amount computed under paragraph (c), or 40 percent of the unfunded actuarial accrued liability attributable to the past service credit transfer.

(b) The executive director shall compute, for the most recent 12 months of service credit eligible for transfer, or for the entire period eligible for transfer if less than 12 months, the difference between the employee contribution rate or rates for the general state employees retirement plan and the employee contribution rate or rates for the correctional state employees retirement plan applied to the eligible employee's salary during that transfer period, plus compound interest at a the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter.

(c) The executive director shall compute, for any service credit being transferred on behalf of the eligible employee and not included under paragraph (b), the difference between the employee contribution rate or rates for the general state employees retirement plan and the employee contribution rate or rates for the correctional state employees retirement plan applied to the eligible employee's salary during that transfer period, plus compound interest at a the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter.

(d) The executive director shall compute an amount using the process specified in paragraph (b), but based on differences in employer contribution rates between the general state employees retirement plan and the correctional state employees retirement plan rather than employee contribution rates.

(e) The executive director shall compute an amount using the process specified in paragraph (c), but based on differences in employer contribution rates between the general state employees retirement plan and the correctional state employees retirement plan rather than employee contribution rates.

(f) The additional equivalent member contribution under this subdivision must be paid in a lump sum. Payment must accompany the election to transfer the prior service credit. No transfer election or additional equivalent member contribution payment may be made by a person or accepted by the executive director after the one year anniversary date of the effective date of the retirement coverage transfer, or the date on which the eligible employee terminates state employment, whichever is earlier.

(g) If an eligible employee elects to transfer past service credit under this section and pays the additional equivalent member contribution amount under paragraph (a), the applicable department shall pay an additional equivalent employer contribution amount. The additional employer contribution is the amount computed under paragraph (d), plus the greater of the amount computed under paragraph (e), or 60 percent of the unfunded actuarial accrued liability attributable to the past service credit transfer.

(h) The unfunded actuarial accrued liability attributable to the past service credit transfer is the present value of the benefit obtained by the transfer of the service credit to the correctional state employees retirement plan reduced by the amount of the asset transfer under subdivision 4, by the amount of the member contribution equivalent payment computed under paragraph (b), and by the amount of the employer contribution equivalent payment computed under paragraph (d).

(i) The additional equivalent employer contribution under this subdivision must be paid in a lump sum and must be paid within 30 days of the date on which the executive director of the Minnesota State Re-

tirement System certifies to the applicable department that the employee paid the additional equivalent member contribution.

Sec. 4. Minnesota Statutes 2014, section 352B.013, subdivision 2, is amended to read:

Subd. 2. **Purchase procedure.** (a) An employee covered by the plan specified in this chapter may purchase credit for allowable service in the plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the executive director within one year from the date the employee returned to work following the authorized leave, the payment amount is equal to the employee and employer contribution rates specified in section 352B.02 at the end of the leave period multiplied by the employee's hourly rate of salary on the date of return from the leave of absence and by the days and months of the leave of absence for which the employee is eligible for allowable service credit. The payment must include compound interest at a the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter from the last day of the leave period until the last day of the month in which payment is received. If payment is received by the executive director after one year from the date the employee returned to work following the authorized leave, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date of termination from public employment covered under this chapter.

(c) If the employee terminates employment covered by this chapter during the leave or following the leave rather than returning to covered employment, payment must be received by the executive director within 30 days after the termination date. The payment amount is equal to the employee and employer contribution rates specified in section 352B.02 on the day prior to the termination date, multiplied by the employee's hourly rate of salary on that date and by the days and months of the leave of absence prior to termination.

Sec. 5. Minnesota Statutes 2014, section 352B.085, is amended to read:

352B.085 SERVICE CREDIT FOR CERTAIN DISABILITY LEAVES OF ABSENCE.

A member on leave of absence receiving temporary workers' compensation payments and a reduced salary or no salary from the employer who is entitled to allowable service credit for the period of absence under section 352B.011, subdivision 3, paragraph (b), may make payment to the fund for the difference between salary received, if any, and the salary that the member would normally receive if the member was not on leave of absence during the period. The member shall pay an amount equal to the member and employer contribution rate under section 352B.02, subdivisions 1b and 1c, on the differential salary amount for the period of the leave of absence. The employing department, at its option, may pay the employer amount on behalf of the member. Payment made under this subdivision must include interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter per year, and must be completed within one year of the member's return from the leave of absence.

Sec. 6. Minnesota Statutes 2014, section 352B.086, is amended to read:

352B.086 SERVICE CREDIT FOR UNIFORMED SERVICE.

(a) A member who is absent from employment by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), and who returns to state employment in a position covered

by the plan upon discharge from service in the uniformed services within the time frame required in United States Code, title 38, section 4312(e), may obtain service credit for the period of the uniformed service, provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions.

(b) The member may obtain credit by paying into the fund an equivalent member contribution based on the member contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to provide employment services to the state rather than to provide uniformed service, or if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the purchase period.

(c) The equivalent employer contribution and, if applicable, the equivalent employer additional contribution, must be paid by the employing unit, using the employer and employer additional contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution.

(d) If the member equivalent contributions provided for in this section are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this section.

(e) To receive allowable service credit under this section, the contributions specified in this section must be transmitted to the fund during the period which begins with the date on which the individual returns to state employment covered by the plan and which has a duration of three times the length of the uniformed service period, but not to exceed five years. If the determined payment period is calculated to be less than one year, the contributions required under this section to receive service credit must be transmitted to the fund within one year from the discharge date.

(f) The amount of allowable service credit obtainable under this section may not exceed five years, unless a longer purchase period is required under United States Code, title 38, section 4312.

(g) The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this section. Interest must be computed at a the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the end of each fiscal year of the leave or break in service to the end of the month in which payment is received.

Sec. 7. Minnesota Statutes 2014, section 352D.11, subdivision 2, is amended to read:

Subd. 2. **Payments by employee.** An employee entitled to purchase service credit may make the purchase by paying to the state retirement system an amount equal to the current employee contribution rate in effect for the state retirement system applied to the current or final salary rate multiplied by the months and days of prior temporary, intermittent, or contract legislative service. Payment shall be made in one lump sum unless the executive director of the state retirement system agrees to accept payment in installments over a period of not more than three years from the date of the agreement. Installment payments shall be charged interest at ~~an annual~~ the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually.

Sec. 8. Minnesota Statutes 2014, section 353.01, subdivision 16, is amended to read:

Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

(1) service during years of actual membership in the course of which employee deductions were withheld from salary and contributions were made at the applicable rates under section 353.27, 353.65, or 353E.03;

(2) periods of service covered by payments in lieu of salary deductions under sections 353.27, subdivision 12, and 353.35;

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence with pay from which deductions for employee contributions are made, deposited, and credited to the fund;

(5) a period of authorized personal, parental, or medical leave of absence without pay, including a leave of absence covered under the federal Family Medical Leave Act, that does not exceed one year, and for which a member obtained service credit for each month in the leave period by payment under section 353.0161 to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent ~~a year~~ until June 30, 2015, and eight percent thereafter, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest until June 30, 2015, and eight percent interest thereafter, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if

the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under section 353.0162.

(b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for state officers and employees displaced by the Community Corrections Act, chapter 401, and transferred into county service under section 401.04, "allowable service" means the combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and section 352.01, subdivision 11.

(c) No member may receive more than 12 months of allowable service credit in a year either for vesting purposes or for benefit calculation purposes. For an active member who was an active member of the former Minneapolis Firefighters Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Firefighters Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011. For an active member who was an active member of the former Minneapolis Police Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police Relief Association as reflected in the transferred records of the association up to

December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011.

(d) MS 2002 [Expired]

Sec. 9. Minnesota Statutes 2014, section 353.0161, subdivision 2, is amended to read:

Subd. 2. **Purchase procedure.** (a) An employee covered by a plan specified in subdivision 1 may purchase credit for allowable service in that plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the executive director within one year from the date the member returned to work following the authorized leave, or within 30 days after the date of termination of public service if the member did not return to work, the payment amount is equal to the employee and employer contribution rates specified in law for the applicable plan at the end of the leave period, or at termination of public service, whichever is earlier, multiplied by the employee's average monthly salary, excluding overtime, upon which deductions were paid during the six months, or portion thereof, before the commencement of the leave of absence and by the number of months of the leave of absence for which the employee wants allowable service credit. Payments made under this paragraph must include compound interest at a the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent per month thereafter from the last day of the leave period until the last day of the month in which payment is received.

(c) If payment is received by the executive director after one year, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date the person terminates public service under section 353.01, subdivision 11a.

Sec. 10. Minnesota Statutes 2014, section 353.0162, is amended to read:

353.0162 REDUCED SALARY PERIODS SALARY CREDIT PURCHASE.

(a) A member may purchase additional salary credit for a period specified in this section.

(b) The applicable period is a period during which the member is receiving a reduced salary from the employer while the member is:

(1) receiving temporary workers' compensation payments related to the member's service to the public employer;

(2) on an authorized medical leave of absence; or

(3) on an authorized partial paid leave of absence as a result of a budgetary or salary savings program offered or mandated by a governmental subdivision.

(c) The differential salary amount is the difference between the average monthly salary received by the member during the period of reduced salary under this section and the average monthly salary of the member, excluding overtime, on which contributions to the applicable plan were made during the period of the last six months of covered employment occurring immediately before the period of reduced salary, applied to the member's normal employment period, measured in hours or otherwise, as applicable.

(d) To receive eligible salary credit, the member shall pay an amount equal to:

(1) the applicable employee contribution rate under section 353.27, subdivision 2; 353.65, subdivision 2; or 353E.03, subdivision 1, as applicable, multiplied by the differential salary amount;

(2) plus an employer equivalent payment equal to the applicable employer contribution rate in section 353.27, subdivision 3; 353.65, subdivision 3; or 353E.03, subdivision 2, as applicable, multiplied by the differential salary amount;

(3) plus, if applicable, an equivalent employer additional amount equal to the additional employer contribution rate in section 353.27, subdivision 3a, multiplied by the differential salary amount.

(e) The employer, by appropriate action of its governing body and documented in its official records, may pay the employer equivalent contributions and, as applicable, the equivalent employer additional contributions on behalf of the member.

(f) Payment under this section must include interest on the contribution amount or amounts, whichever applies, at an 8.5 percent annual rate until June 30, 2015, and at an eight percent annual rate thereafter, prorated for applicable months from the date on which the period of reduced salary specified under this section terminates to the date on which the payment or payments are received by the executive director. Payment under this section must be completed within the earlier of 30 days from termination of public service by the employee under section 353.01, subdivision 11a, or one year after the termination of the period specified in paragraph (b), as further restricted under this section.

(g) The period for which additional allowable salary credit may be purchased is limited to the period during which the person receives temporary workers' compensation payments or for those business years in which the governmental subdivision offers or mandates a budget or salary savings program, as certified to the executive director by a resolution of the governing body of the governmental subdivision. For an authorized medical leave of absence, the period for which allowable salary credit may be purchased may not exceed 12 consecutive months of authorized medical leave.

(h) To purchase salary credit for a subsequent period of temporary workers' compensation benefits or subsequent authorized medical leave of absence, the member must return to public service and render a minimum of three months of allowable service.

Sec. 11. Minnesota Statutes 2014, section 354A.096, is amended to read:

354A.096 MEDICAL LEAVE.

Any teacher in the coordinated program of the St. Paul Teachers Retirement Fund Association who is on an authorized medical leave of absence and subsequently returns to teaching service is entitled to receive allowable service credit, not to exceed one year, for the period of leave, upon making the prescribed payment to the fund. This payment must include the required employee and employer contributions at the rates specified in section 354A.12, subdivisions 1 and 2a, as applied to the member's average full-time monthly salary rate on the date the leave of absence commenced plus annual interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter per year from the end of the fiscal year during which the leave terminates to the end of the month during which payment is made. The member must pay the total amount required unless the employing unit, at its option, pays the employer contributions. The total amount required must be paid by the end of the fiscal year following the fiscal year in which the leave of absence terminated or before the member retires, whichever is earlier. Payment must be accompanied by a copy of

the resolution or action of the employing authority granting the leave and the employing authority, upon granting the leave, must certify the leave to the association in a manner specified by the executive director. A member may not receive more than one year of allowable service credit during any fiscal year by making payment under this section. A member may not receive disability benefits under section 354A.36 and receive allowable service credit under this section for the same period of time.

Sec. 12. Minnesota Statutes 2014, section 354A.108, is amended to read:

354A.108 PAYMENT BY TEACHERS COLLECTING WORKERS' COMPENSATION.

(a) A member of the Duluth Teachers Retirement Fund Association who is receiving temporary workers' compensation payments related to the member's teaching service and who either is receiving a reduced salary from the employer or is receiving no salary from the employer is entitled to receive allowable service credit for the period of time that the member is receiving the workers' compensation payments upon making the required payment amount.

(b) The required amount payable by the member must be calculated first by determining the differential salary amount, which is the difference between the salary received, if any, during the period of time that the member is collecting workers' compensation payments, and the salary that the member received for an identical length period immediately before collecting the workers' compensation payments. The member shall pay an amount equal to the employee contribution rate under section 354A.12, subdivision 1, multiplied by the differential salary amount.

(c) If the member makes the employee payment under this section, the employing unit shall make an employer payment to the Duluth Teachers Retirement Fund Association equal to the employer contribution rate under section 354A.12, subdivision 2a, multiplied by the differential salary amount.

(d) Payments made under this subdivision are payable without interest if paid by June 30 of the year during which the workers' compensation payments are received by the member. If paid after June 30, payments made under this subdivision must include interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter per year. Payment under this section must be completed within one year of the termination of the workers' compensation payments to the member.

Sec. 13. Minnesota Statutes 2014, section 356.195, subdivision 2, is amended to read:

Subd. 2. **Purchase procedure for strike periods.** (a) An employee covered by a plan specified in subdivision 1 may purchase allowable service credit in the applicable plan for any period of time during which the employee was on a public employee strike without pay, not to exceed a period of one year, if the employee makes a payment in lieu of salary deductions as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the applicable pension plan executive director within one year from the end of the strike, the payment amount is equal to the applicable employee and employer contribution rates specified in law for the applicable plan during the strike period, applied to the employee's rate of salary in effect at the conclusion of the strike for the period of the strike without pay, plus compound interest at a the monthly rate of 0.71 percent for any period for the Teachers Retirement Association and at the monthly rate of 0.71 percent until June 30, 2015, and 0.667 percent thereafter for any other retirement plan listed in section 356.30, subdivision 3 from the last day of the strike period until the date payment is received.

(c) If payment is received by the applicable pension fund director after one year and before five years from the end of the strike, the payment amount is the amount determined under section 356.551.

(d) Payments may not be made more than five years after the end of the strike.

Sec. 14. Minnesota Statutes 2014, section 356.50, subdivision 2, is amended to read:

Subd. 2. **Service credit procedure.** (a) To obtain the public pension plan allowable service credit, the eligible person under subdivision 1 shall pay the required member contribution amount. The required member contribution amount is the member contribution rate or rates in effect for the pension plan during the period of service covered by the back pay award, applied to the unpaid gross salary amounts of the back pay award including unemployment insurance, workers' compensation, or wages from other sources which reduced the back award. No contributions may be made under this clause for compensation covered by a public pension plan listed in section 356.30, subdivision 3, for employment during the removal period. The person shall pay the required member contribution amount within 60 days of the date of receipt of the back pay award or within 60 days of a billing from the retirement fund, whichever is later.

(b) The public employer who wrongfully discharged the public employee must pay an employer contribution on the back pay award. The employer contribution must be based on the employer contribution rate or rates in effect for the pension plan during the period of service covered by the back pay award, applied to the salary amount on which the member contribution amount was determined under paragraph (a). Interest on both the required member and employer contribution amount must be paid by the employer at the annual compound rate of 8.5 percent for any period for the Teachers Retirement Association and 8.5 percent until June 30, 2015, and 8 percent thereafter, for any other retirement plan listed in section 356.30, subdivision 3, per year, expressed monthly, between the date the contribution amount would have been paid to the date of actual payment. The employer payment must be made within 30 days of the payment under paragraph (a).

Sec. 15. Minnesota Statutes 2014, section 356.551, subdivision 2, is amended to read:

Subd. 2. **Determination.** (a) Unless the minimum purchase amount set forth in paragraph (c) applies, the prior service credit purchase amount is an amount equal to the actuarial present value, on the date of payment, as calculated by the chief administrative officer of the pension plan and reviewed by the actuary retained under section 356.214, of the amount of the additional retirement annuity obtained by the acquisition of the additional service credit in this section.

(b) Calculation of this amount must be made using the preretirement interest rate applicable to the public pension plan specified in section 356.215, subdivision 8, and the mortality table adopted for the public pension plan. The calculation must assume continuous future service in the public pension plan until, and retirement at, the age at which the minimum requirements of the fund for normal retirement or retirement with an annuity unreduced for retirement at an early age, including section 356.30, are met with the additional service credit purchased. The calculation must also assume a full-time equivalent salary, or actual salary, whichever is greater, and a future salary history that includes annual salary increases at the applicable salary increase rate for the plan specified in section 356.215, subdivision 4d.

(c) The prior service credit purchase amount may not be less than the amount determined by applying, for each year or fraction of a year being purchased, the sum of the employee contribution rate, the employer contribution rate, and the additional employer contribution rate, if any, applicable during that period, to the person's annual salary during that period, or fractional portion of a year's salary, if applicable, plus interest at the annual rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually

from the end of the year in which contributions would otherwise have been made to the date on which the payment is received.

(d) Unless otherwise provided by statutes governing a specific plan, payment must be made in one lump sum within one year of the prior service credit authorization or prior to the member's effective date of retirement, whichever is earlier. Payment of the amount calculated under this section must be made by the applicable eligible person.

(e) However, the current employer or the prior employer may, at its discretion, pay all or any portion of the payment amount that exceeds an amount equal to the employee contribution rates in effect during the period or periods of prior service applied to the actual salary rates in effect during the period or periods of prior service, plus interest at the rate of 8.5 percent a year compounded annually from the date on which the contributions would otherwise have been made to the date on which the payment is made. If the employer agrees to payments under this subdivision, the purchaser must make the employee payments required under this subdivision within 90 days of the prior service credit authorization. If that employee payment is made, the employer payment under this subdivision must be remitted to the chief administrative officer of the public pension plan within 60 days of receipt by the chief administrative officer of the employee payments specified under this subdivision.

Sec. 16. Minnesota Statutes 2014, section 490.121, subdivision 4, is amended to read:

Subd. 4. **Allowable service.** (a) "Allowable service" means any calendar month, subject to the service credit limit in subdivision 22, served as a judge at any time, during which the judge received compensation for that service from the state, municipality, or county, whichever applies, and for which the judge made any required member contribution. It also includes any month served as a referee in probate for all referees in probate who were in office before January 1, 1974.

(b) "Allowable service" also means a period of authorized leave of absence for which the judge has made a payment in lieu of contributions, not in an amount in excess of the service credit limit under subdivision 22. To obtain the service credit, the judge shall pay an amount equal to the normal cost of the judges retirement plan on the date of return from the leave of absence, as determined in the most recent actuarial report for the plan filed with the Legislative Commission on Pensions and Retirement, multiplied by the judge's average monthly salary rate during the authorized leave of absence and multiplied by the number of months of the authorized leave of absence, plus annual compound interest at the rate of 8.5 percent until June 30, 2015, and eight percent thereafter from the date of the termination of the leave to the date on which payment is made. The payment must be made within one year of the date on which the authorized leave of absence terminated. Service credit for an authorized leave of absence is in addition to a uniformed service leave under section 490.1211.

(c) "Allowable service" does not mean service as a retired judge.

Sec. 17. Minnesota Statutes 2014, section 490.1211, is amended to read:

490.1211 UNIFORMED SERVICE.

(a) A judge who is absent from employment by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), and who returns to state employment as a judge upon discharge from service in the uniformed service within the time frame required in United States Code, title 38, section 4312(e), may obtain service credit for the period of the uniformed service, provided that the

judge did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions.

(b) The judge may obtain credit by paying into the fund equivalent member contribution based on the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the judge would have received if the judge had continued to provide employment services to the state rather than to provide uniformed service, or if the determination of that rate is not reasonably certain, the annual salary rate is the judge's average salary rate during the 12-month period of judicial employment rendered immediately preceding the purchase period.

(c) The equivalent employer contribution and, if applicable, the equivalent employer additional contribution, must be paid by the employing unit, using the employer and employer additional contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution.

(d) If the member equivalent contributions provided for in this section are not paid in full, the judge's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this section.

(e) To receive allowable service credit under this section, the contributions specified in this section and section 490.121 must be transmitted to the fund during the period which begins with the date on which the individual returns to judicial employment and which has a duration of three times the length of the uniformed service period, but not to exceed five years. If the determined payment period is calculated to be less than one year, the contributions required under this section to receive service credit may be within one year from the discharge date.

(f) The amount of allowable service credit obtainable under this section and section 490.121 may not exceed five years, unless a longer purchase period is required under United States Code, title 38, section 4312.

(g) The state court administrator shall pay interest on all equivalent member and employer contribution amounts payable under this section. Interest must be computed at a the rate of 8.5 percent until June 30, 2015, and eight percent thereafter compounded annually from the end of each fiscal year of the leave or break in service to the end of the month in which payment is received.

Sec. 18. **EFFECTIVE DATE.**

Unless otherwise specified, this article is effective July 1, 2015.

(b) On January 1, each ~~eligible~~ person who has been receiving an annuity or benefit under the articles of incorporation, the bylaws, or this chapter ~~for at least three calendar months as of the end of the last day of the previous calendar year, whose effective date of benefit commencement occurred on or before July 1 of the calendar year immediately before the adjustment,~~ is eligible to receive a postretirement increase as specified in subdivision 8 or 9.

EFFECTIVE DATE. This section is effective June 30, 2015.

Sec. 2. Minnesota Statutes 2014, section 354A.29, subdivision 8, is amended to read:

Subd. 8. **Calculation of postretirement adjustments; ~~transitional provision percentage based.~~** (a) For purposes of computing postretirement adjustments for eligible benefit recipients of the St. Paul Teachers Retirement Fund Association, the accrued liability funding ratio based on the actuarial value of assets of the plan as determined by the two most recent actuarial valuations prepared under sections 356.214 and 356.215 determines the postretirement increase, as follows:

Funding ratio	Postretirement increase
Less than 80 percent	1 percent
At least 80 percent but less than 90 percent	2 percent

(b) The amount determined under paragraph (a) is the full postretirement increase to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred ~~during~~ after January 1 of the calendar year immediately before the postretirement increase is applied, the ~~full increase amount determined under paragraph (a) must be prorated on the basis of whole calendar quarters in benefit payment status in the calendar year prior to the January 1 on which the postretirement increase is applied, calculated to the third decimal place reduced by 50 percent.~~

(c) If the accrued liability funding ratio based on the actuarial value of assets is at least 90 percent in two consecutive actuarial valuations, ~~this subdivision expires and subsequent postretirement increases must be paid as specified in subdivision 9.~~

(d) If, following a postretirement increase under paragraph (a), the accrued liability funding ratio, based on the actuarial value of assets, falls below 80 percent for two consecutive actuarial valuations, the applicable postretirement increase must be reduced to one percent until January 1 of the calendar year next following the date on which the requirements for an increase under paragraph (a) are again satisfied.

EFFECTIVE DATE. This section is effective June 30, 2015.

~~States Department of Labor each year as part of the determination of annual cost-of-living adjustments to recipients of federal old-age, survivors, and disability insurance. For calculations of postretirement adjustments under paragraph (c), the term "average third quarter Consumer Price Index value" means the sum of the monthly index values as initially reported by the Bureau of Labor Statistics for the months of July, August, and September, divided by three.~~

~~(e) Before January 1 of each year, the executive director must calculate the amount of the postretirement adjustment by dividing the most recent average third quarter index value by the same average third quarter index value from the previous year, subtract one from the resulting quotient, and express the result as a percentage amount, which must be rounded to the nearest one-tenth of one percent.~~

~~(d) (c) The amount calculated under paragraph (e) of 2.5 percent is the full postretirement adjustment to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred during the after January 1 of the calendar year immediately before the postretirement adjustment is applied, the full increase postretirement adjustment amount must be prorated on the basis of whole calendar quarters in benefit payment status in the calendar year prior to the January 1 on which the postretirement adjustment is applied, calculated to the third decimal place reduced by 50 percent.~~

~~(e) The adjustment must not be less than zero nor greater than five percent.~~

~~(d) In the event the accrued liability funding ratio based on the actuarial value of assets falls below 90 percent for two consecutive actuarial valuations, the applicable postretirement increase must be determined under subdivision 8 until January 1 of the calendar year next following the date on which the requirements of subdivision 8, paragraph (c), are again satisfied.~~

EFFECTIVE DATE. This section is effective June 30, 2015.

Sec. 4. Minnesota Statutes 2014, section 356.415, subdivision 1, is amended to read:

(1) a postretirement increase of 2.5 percent must be applied each year, effective January 1, to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months ~~prior to the January 1 increase~~ as of the June 30 of the calendar year immediately before the adjustment; and

(2) for each annuitant or benefit recipient who has been receiving an annuity or a benefit amount for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of 2.5 percent for each month that the person has been receiving an annuity or benefit must be applied, ~~effective on January 1 following the calendar year in which the person has been retired for less than 12 months.~~

CONTRIBUTION STABILIZER PROVISION MODIFICATIONS

Section 1. Minnesota Statutes 2014, section 352.045, is amended to read:

352.045 PROCEDURE FOR REVISING EMPLOYEE AND EMPLOYER CONTRIBUTIONS IN CERTAIN INSTANCES.

Subdivision 1. **Application.** This section applies to the general state employees retirement plan ~~and to established under this chapter,~~ the correctional state employees retirement plan established under this chapter, and ~~to the state patrol retirement plan established under chapter 352B.~~

Subd. 2. **Determination.** For purposes of this section, a contribution sufficiency exists if, ~~for purposes of~~ the applicable plan, the total of the employee contributions, the employer contributions, and any additional employer contributions, if applicable, exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement. For purposes of this section, a contribution deficiency exists if, for the applicable plan, the total employee contributions, employer contributions, and any additional employer contributions are less than the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the approved actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

Subd. 3a. **Contribution rate revision; general state employees retirement plan.** (a) Notwithstanding the contribution rates ~~stated in plan law as specified in law governing the applicable retirement plan,~~ the board of directors of the Minnesota State Retirement System may adjust the employee and employer contribution rates for the general state employees retirement plan ~~must be adjusted:~~

~~(1) if the regular actuarial valuation of the plan prepared under section 356.215 indicates that there is a contribution sufficiency greater than one percent of covered payroll and that the sufficiency has existed for at least two consecutive years, the employee and employer contribution rates must be decreased as determined under paragraph (b) to a level such that the sufficiency is no greater than one percent of covered payroll based on the most recent actuarial valuation; or~~

~~(2) if the regular actuarial valuation of the plan under section 356.215 indicates that there is a contribution deficiency under subdivision 2 equal to or greater than 0.5 one-half of one percent of covered payroll and that the deficiency has existed for at least two consecutive years, the employee and employer contribution rates must be increased as determined under paragraph (c) to a level such that no deficiency exists based on the most recent actuarial valuation.~~

(b) If the actuarially ~~required~~ determined contribution of the plan is less than the total support provided by the combined employee and employer contribution rates by more than one percent of covered payroll, the plan employee and employer contribution rates ~~must~~ may be decreased incrementally over one or more years by ~~no more than 0.25 percent of pay each for employee and employer contribution rates to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. No contribution rate~~ Any decrease may be made until at least two years have elapsed since any adjustment under this paragraph has

been fully implemented in employee and employer contribution rates must not result in total contributions that are less than the sum of the normal cost and administrative expenses of the retirement plan.

(c) If the actuarially required contribution exceeds the total support provided by the employee and employer contribution rates, the board of directors may increase the employee and employer contribution rates must be increased equally to eliminate that contribution deficiency. If the contribution deficiency is:

~~(1) less than two percent, the incremental increase may be up to 0.25 percent each for the employee and employer contribution rates;~~

~~(2) greater than 1.99 percent and less than 4.01 percent, the incremental increase may be up to 0.5 percent each for the employee and employer contribution rates; or~~

~~(3) greater than four percent, the incremental increase may be up to 0.75 percent each for the employee and employer contribution.~~

(d) To determine if an adjustment is to be made, the board of directors shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors that include, but are not limited to, the contribution rates calculated based on the actuarial value of assets and calculated based on the market value of assets; the funded ratio calculated based on the actuarial value of assets; the funded ratio calculated based on the market value of assets; the remaining number of years to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contribution projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

(e) Any recommended adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following receipt of the most recent annual actuarial valuation prepared under section 356.215. The report must include draft legislation to revise the employee and employer contributions stated in plan law. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective on the first day of the first full payroll period in the fiscal year following receipt of the most recent actuarial valuation that gave rise to the adjustment.

~~(e) (f) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required determined contributions that are more than the total combined employee and employer contributions.~~

~~(f) (g) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended made, the executive director must review any need for a change in actuarial assumptions, as recommended by the approved actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially required determined contribution and must report to the Legislative Commission on Pensions and Retirement any recommendation decision by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.~~

~~(g) (h) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an automatic adjustment~~

to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the approved actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

Subd. 3b. **Contribution rate revision; correctional state employees retirement plan and State Patrol retirement plan.** (a) Subdivision 3a applies to the correctional state employees retirement plan under this chapter and to the State Patrol retirement plan established under chapter 352B, except as ~~stated in this subdivision~~ specified in paragraph (b) or (c).

(b) Any limitations on the amount of contribution rate changes stated in subdivision 3a apply only to the amount of the employee contribution revision. The employer contribution for the correctional state employees retirement plan or the State Patrol retirement plan, whichever is applicable, must be adjusted so that the employer contribution is equal to 60 percent of the sum of employee plus employer contributions.

(c) For the State Patrol retirement plan, a contribution sufficiency of up to two percent of covered payroll, rather than one percent, may be held in reserves without taking action to reduce employee and employer contributions.

Sec. 2. Minnesota Statutes 2014, section 353.27, subdivision 3b, is amended to read:

Subd. 3b. **Change in employee and employer contributions in certain instances.** (a) For purposes of this section:

(1) a contribution sufficiency exists if the total of the employee contribution under subdivision 2, the employer contribution under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement; and

(2) a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Notwithstanding the contribution rate provision specified under subdivisions 2, 3, and 3a, the board of trustees of the Public Employees Retirement Association may adjust the employee and employer contributions to the general employees retirement plan under subdivisions 2 and 3 ~~must be adjusted:~~

(~~1~~) if the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association prepared under section 356.215 indicates that there is a contribution sufficiency under paragraph (a) greater than one percent of covered payroll ~~and that the sufficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be decreased as determined under paragraph (c) to a level such that the sufficiency is no greater than one percent of covered payroll based on the most recent actuarial valuation; or~~

~~(2) if the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution deficiency under paragraph (a) equal to or greater than 0.5 one-half of one percent of covered payroll and that the deficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be increased as determined under paragraph (d) to a level such that no deficiency exists based on the most recent actuarial valuation.~~

(c) If the actuarially ~~required~~ determined contribution of the general employees retirement plan is less than the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, by more than one percent of covered payroll, the general employees retirement plan coordinated program employee and employer contribution rates under subdivisions 2 and 3 ~~must~~ may be decreased incrementally over one or more years by ~~no more than 0.25 percent of pay each for employee and employer matching contribution rates~~ to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. ~~No contribution rate decrease may be made until at least two years have elapsed since any adjustment under this subdivision has been fully implemented. Any decrease in employee and employer contribution rates must not result in total contributions that are less than the total of the normal cost of the retirement plan and the administrative expenses of the retirement plan.~~

(d) If the actuarially ~~required~~ determined contribution exceeds the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, the board of trustees may increase the employee and matching employer contribution rates ~~must be increased equally~~ to eliminate that contribution deficiency. ~~If the contribution deficiency is:~~

~~(1) less than two percent, the incremental increase may be up to 0.25 percent for the general employees retirement plan employee and matching employer contribution rates;~~

~~(2) greater than 1.99 percent and less than 4.01 percent, the incremental increase may be up to 0.5 percent for the employee and matching employer contribution rates; or~~

~~(3) greater than four percent, the incremental increase may be up to 0.75 percent for the employee and matching employer contribution.~~

~~(e) The general employees retirement plan contribution sufficiency or deficiency determination under paragraphs (a) to (d) must be made without the inclusion of the contributions to, the funded condition of, or the actuarial funding requirements of the MERF division. To determine if an adjustment is to be made, the board of trustees shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors that include, but are not limited to, the contribution rates based on actuarial value of assets and contribution rates based on the market value of assets; the funded ratio based on the actuarial value of assets and based on the market value of assets; the number of years remaining to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contributions projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.~~

(f) Any ~~recommended~~ adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following the receipt of the most recent annual actuarial valuation prepared under section 356.215. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective for any salary paid on or after the January 1 next following the legislative session in which the Legislative Commission on Pensions and Retirement

did not take any action to disapprove or modify the Public Employees Retirement Association Board of Trustees' ~~recommendation to adjust~~ adjustment to the employee and employer rates.

(g) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially ~~required~~ determined contributions that are more than the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

(h) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be ~~recommended~~ made, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially ~~required~~ determined contribution and must report to the Legislative Commission on Pensions and Retirement any ~~recommendation~~ decision by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(i) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an ~~automatic~~ adjustment to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the ~~approved~~ actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

(i) ~~0.25 percent if the deficiency is less than two percent of covered payroll;~~

(ii) ~~0.5 percent if the deficiency is equal to or greater than two percent of covered payroll and less than or equal to four percent; and~~

(iii) 0.75 percent if the deficiency is greater than four percent. Any decrease in employee and employer contribution rates must not result in the total of contribution rates that is less than the total of normal cost and administrative expenses.

(b) To determine if an adjustment is to be made, the board of trustees shall consult with the approved actuary retained under section 356.214 and shall take into consideration factors that include, but are not limited to, the contribution rates based on actuarial value of assets and contribution rates based on the market value of assets; the funded ratio based on the actuarial value of assets and based on the market value of assets; the number of years remaining to the amortization target date; the recent experience of the investment markets; and the results of the 30-year funding, disbursements, and contributions projections prepared every other year as required under the standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

If the retirement coverage change is approved by the applicable governing body, coverage by the voluntary statewide lump-sum volunteer firefighter retirement plan is effective on the next following January 1.~~

Subd. 3. Election of coverage; monthly benefit. (a) The process for electing coverage of volunteer firefighters by the monthly retirement division is initiated by a request to the executive director for an actuarial cost analysis of the prospective retirement coverage under the monthly benefit retirement division. This request must be made by the secretary of the volunteer firefighters relief association and the chief administrative officer of the entity associated with the relief association, both of which must first obtain approval of the request from their respective municipal governing body or independent nonprofit firefighting

corporation. The request must be made in writing and must be made on a form prescribed by the executive director.

(b) Coverage by the monthly benefit retirement division may only be elected if the volunteer firefighters are covered by a monthly benefit volunteer firefighters relief association governed by chapter 424A.

(c) The cost analysis under paragraph (a) must be prepared by the approved actuary retained by the Public Employees Retirement Association. The cost analysis must be based on:

(1) the service pension and other retirement benefit types and amounts in effect for the volunteer firefighters relief association as of the date of the request and any other amount or amounts designated by the requesters, as disclosed in a special actuarial valuation prepared under sections 356.215 and 356.216; and

(2) the standards for actuarial work, and the actuarial assumptions utilized in the most recent prior actuarial valuation, except that the applicable interest rate actuarial assumption is six percent.

(d) The secretary of the volunteer firefighters relief association making the request must supply the demographic and financial data necessary for the cost analysis to be prepared.

Subd. 4. Invested assets review. If a cost analysis is requested under subdivision 2 or 3, the executive director of the State Board of Investment shall review the investment portfolio of the relief association, if applicable, for compliance with the applicable provisions of chapter 11A and for appropriateness for retention under the established investment objectives and investment policies of the State Board of Investment. If the prospective retirement coverage change is approved under subdivision 5, the State Board of Investment may require that the relief association liquidate any investment security or other asset which the executive director of the State Board of Investment has determined to be an ineligible or inappropriate investment for retention by the State Board of Investment. The security or asset liquidation must occur before the effective date of the transfer of retirement plan coverage. If requested to do so by the chief administrative officer of the relief association, the executive director of the State Board of Investment shall provide advice about the best means to conduct the liquidation.

Subd. 5. Finalization; coverage transfer. Upon receipt of the cost analysis requested under subdivision 2 or 3, the governing body of the municipality or independent nonprofit firefighting corporation associated with the fire department shall either approve or disapprove the retirement coverage change within 120 days. If the retirement coverage change is not acted upon within 120 days, it is deemed to be disapproved. If the retirement coverage change is approved by the applicable governing body, coverage by the voluntary statewide volunteer firefighter retirement plan is effective on the January 1 next following the approval date.

Sec. 15. Minnesota Statutes 2014, section 353G.06, is amended to read:

353G.06 DISESTABLISHMENT OF PRIOR VOLUNTEER FIREFIGHTERS RELIEF ASSOCIATION SPECIAL FUND UPON RETIREMENT COVERAGE CHANGE.

Subdivision 1. **Special fund disestablishment.** On the date December 31 immediately prior to the effective date of the coverage change, the special fund of the applicable volunteer firefighters relief association, if one exists, ceases to exist as a pension fund of the association and legal title to the assets of the special fund transfers to the State Board of Investment, with the undivided beneficial title to the assets of the special fund remaining in the applicable volunteer firefighters as a group.

Subd. 2. **Other relief association changes.** In addition to the transfer and disestablishment of the special fund under subdivision 1, notwithstanding any provisions of chapter 424A or 424B to the contrary,

upon the effective date of the change in volunteer firefighter retirement coverage, if the relief association membership elects to retain the relief association as a fraternal organization after the benefit coverage election, the following changes must be implemented with respect to the applicable volunteer firefighters relief association:

(1) the relief association board of trustees membership is reduced to five, comprised of the fire chief of the fire department and four trustees elected by and from the relief association membership;

(2) the relief association may only maintain a general fund, which continues to be governed by section 424A.06;

(3) the relief association is not authorized to receive the proceeds of any state aid or to receive any municipal funds; and

(4) the relief association may not pay any service pension or benefit that was not authorized as a general fund disbursement under the articles of incorporation or bylaws of the relief association in effect immediately prior to the plan coverage election process.

Subd. 3. **Successor in interest.** Upon the disestablishment of the special fund of the volunteer firefighters relief association under this section, the voluntary statewide ~~lump-sum~~ volunteer firefighter retirement plan is the successor in interest of the special fund of the volunteer firefighters relief association for all claims against the special fund other than a claim against the special fund, the volunteer firefighters relief association, the municipality, the fire department, or any person connected with the volunteer firefighters relief association in a fiduciary capacity under chapter 356A or common law that was based on any act or acts which were not performed in good faith and which constituted a breach of a fiduciary obligation. As the successor in interest of the special fund of the volunteer firefighters relief association, the voluntary statewide ~~lump-sum~~ volunteer firefighter retirement plan may assert any applicable defense in any judicial proceeding which the board of trustees of the volunteer firefighters relief association or the municipality would have been entitled to assert.

Sec. 16. Minnesota Statutes 2014, section 353G.07, is amended to read:

353G.07 CERTIFICATION OF GOOD TIME SERVICE CREDIT.

(a) Annually, by March 31, the fire chief of the fire department with firefighters who are active members of either the lump-sum retirement plan division or the monthly benefit retirement division shall certify to the executive director the good time service credit for the previous calendar year of each firefighter rendering active service with the fire department.

(b) The fire chief shall provide to each firefighter rendering active service with the fire department notification of the amount of good time service credit rendered by the firefighter for the calendar year. The good time service credit notification must be provided to the firefighter 60 days before its certification to the executive director of the Public Employees Retirement Association, along with an indication of the process for the firefighter to challenge the fire chief's determination of good time service credit. If the good time service credit amount is challenged in a timely fashion, the fire chief shall hold a hearing on the challenge, accept and consider any additional pertinent information, and make a final determination of good time service credit. The final determination of good time service credit by the fire chief is not reviewable by the executive director of the Public Employees Retirement Association or by the board of trustees of the Public Employees Retirement Association.

(c) The good time service credit certification is an official public document. If a false good time service credit certification is filed or if false information regarding good time service credits is provided, section 353.19 applies.

(d) The good time service credit certification must be expressed as a percentage of a full year of service during which an active firefighter rendered at least the minimum level and quantity of fire suppression, emergency response, fire prevention, or fire education duties required by the fire department under the rules and regulations applicable to the fire department. No more than one year of good time service credit may be certified for a calendar year.

(e) If a firefighter covered by the retirement plan leaves active firefighting service to render active military service that is required to be ~~covered~~ governed by the federal Uniformed Services Employment and Reemployment Rights Act, as amended, the person must be certified as providing a full year of good time service credit in each year of the military service, up to the applicable limit of the federal Uniformed Services Employment and Reemployment Rights Act. If the firefighter does not return from the military service in compliance with the federal Uniformed Services Employment and Reemployment Rights Act, the good time service credits applicable to that military service credit period are forfeited and cancel at the end of the calendar year in which the federal law time limit occurs.

Sec. 17. Minnesota Statutes 2014, section 353G.08, is amended to read:

353G.08 RETIREMENT PLAN FUNDING; DISBURSEMENTS.

Subdivision 1. **Annual funding requirements; lump-sum retirement division.** (a) Annually, the executive director shall determine the funding requirements of each account in the lump-sum retirement division of the voluntary statewide ~~lump-sum~~ volunteer firefighter retirement plan on or before August 1. The funding requirements ~~as directed~~ computed under this section, subdivision must be determined using a mathematical procedure developed and certified as accurate by ~~an~~ the approved actuary retained by the Public Employees Retirement Association and must be based on present value factors using a six percent interest rate, without any decrement assumptions. The funding requirements must be certified to the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan.

(b) The overall funding balance of each lump-sum account for the current calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the current year must be calculated based on the good time service credit of active and deferred members as of that date.

(2) The total present assets of the account projected to December 31 of the current year, including receipts by and disbursements from the account anticipated to occur on or before December 31, must be calculated. To the extent possible, the market value of assets must be utilized in making this calculation.

(3) The amount of the total present assets calculated under clause (2) must be subtracted from the amount of the total accrued liability calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the account is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the account is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of each lump-sum account for the following calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the calendar year next following the current calendar year must be calculated based on the good time service used in the calculation under paragraph (b), clause (1), increased by one year.

(2) The increase in the total accrued liability of the account for the following calendar year over the total accrued liability of the account for the current year must be calculated.

(3) The amount of anticipated future administrative expenses of the account must be calculated by multiplying the dollar amount of the administrative expenses for the most recent prior calendar year by the factor of 1.035.

(4) If the account is fully funded, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3).

(5) If the account has a deficit from full funding, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the account.

(6) If the account has a surplus over full funding, the financial requirement of the account for the following calendar year is the financial requirement of the account calculated as though the account was fully funded under clause (4) and, if the account has also had a surplus over full funding during the prior two years, additionally reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the account.

(d) The required contribution of the entity or entities associated with the fire department whose active firefighters are covered by the lump-sum retirement ~~plan~~ division is the annual financial requirements of the lump-sum account of the retirement plan under paragraph (c) reduced by the amount of any fire state aid payable under sections 69.011 to 69.051 or police and firefighter retirement supplemental state aid payable under section 423A.022 that is reasonably anticipated to be received by the retirement plan attributable to the entity or entities during the following calendar year, and an amount of interest on the assets projected to be received during the following calendar year calculated at the rate of six percent per annum. The required contribution must be allocated between the entities if more than one entity is involved. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(e) The required contribution calculated in paragraph (d) must be paid to the retirement plan on or before December 31 of the year for which it was calculated. If the contribution is not received by the retirement plan by December 31, it is payable with interest at an annual compound rate of six percent from the date due until the date payment is received by the retirement plan. If the entity does not pay the full amount of the required contribution, the executive director shall collect the unpaid amount under section 353.28, subdivision 6.

Subd. 1a. Annual funding requirements; monthly benefit retirement division. (a) Annually, the executive director shall determine the funding requirements of each monthly benefit account in the voluntary statewide volunteer firefighter retirement plan on or before August 1.

(b) The executive director must determine the funding requirements of a monthly benefit account under this subdivision from:

(1) the most recent actuarial valuation normal cost, administrative expense, including the cost of a regular actuarial valuation, and amortization results for the account determined by the approved actuary retained by the retirement association under sections 356.215 and 356.216; and

(2) the standards for actuarial work, utilizing a six percent interest rate actuarial assumption and other actuarial assumptions approved under section 356.215, subdivision 18:

(i) with that portion of any unfunded actuarial accrued liability attributable to a benefit increase to be amortized over a period of 20 years from the date of the benefit change;

(ii) with that portion of any unfunded actuarial accrued liability attributable to an assumption change or an actuarial method change to be amortized over a period of 20 years from the date of the assumption or method change;

(iii) with that portion of any unfunded actuarial accrued liability attributable to an investment loss to be amortized over a period of ten years from the date of investment loss; and

(iv) with the balance of any net unfunded actuarial accrued liability to be amortized over a period of five years from the date of the actuarial valuation.

(c) The required contributions of the entity or entities associated with the fire department whose active firefighters are covered by the monthly benefit retirement division are the annual financial requirements of the monthly benefit account of the retirement plan under paragraph (b) reduced by the amount of any fire state aid payable under sections 69.011 to 69.051, or any police and firefighter retirement supplemental state aid payable under section 423A.022, that is reasonably anticipated to be received by the retirement plan attributable to the entity or entities during the following calendar year. The required contribution must be allocated between the entities if more than one entity is involved. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(d) The required contribution calculated in paragraph (c) must be paid to the retirement plan on or before December 31 of the year for which it was calculated. If the contribution is not received by the retirement plan by December 31, it is payable with interest at an annual compound rate of six percent from the date due until the date payment is received by the retirement plan. If the entity does not pay the full amount of the required contribution, the executive director shall collect the unpaid amount under section 353.28, subdivision 6.

Subd. 2. **Cash flow funding requirement.** If the executive director determines that ~~an~~ a lump-sum retirement or a monthly benefit retirement account in the voluntary statewide ~~lump-sum~~ volunteer firefighter retirement plan has insufficient assets to meet the service pensions ~~determined~~ expected to be payable from the account over the succeeding two years, the executive director shall certify the amount of the potential service pension shortfall to the municipality or municipalities and the municipality or municipalities shall make an additional employer contribution to the account within ten days of the certification. If more than one municipality is associated with the account, unless the municipalities agree to ~~and implement~~ a different allocation, the municipalities shall allocate the additional employer contribution one-half in proportion to the population of each municipality and one-half in proportion to the estimated market value of the property of each municipality.

Subd. 2a. **Additional municipal contributions authorized.** (a) At the discretion of the municipality or the independent nonprofit firefighting corporation associated with a fire department covered by a voluntary

statewide ~~lump-sum~~ volunteer firefighter retirement plan account, the municipality or the corporation may make additional contributions to the applicable account.

(b) The executive director of the Public Employees Retirement Association may specify requirements as to the form, timing, and accompanying information for contributions made under this subdivision.

(c) Any contributions made under this subdivision must be included as total present assets of the account for the calculation of any subsequent annual funding requirements for the account under subdivision 1 or 1a or for the calculation of any cash flow funding requirement under subdivision 2.

Subd. 3. **Authorized account disbursements.** The assets of a lump-sum retirement account or of a monthly benefit retirement account of the retirement fund may only be disbursed for:

- (1) the administrative expenses of the retirement plan;
- (2) the investment expenses of the retirement fund;
- (3) the service pensions payable under section 353G.10, 353G.11, 353G.14, or 353G.15;
- (4) the survivor benefits payable under section 353G.12; and
- (5) the disability benefit coverage insurance premiums under section 353G.115.

Sec. 18. Minnesota Statutes 2014, section 353G.09, is amended to read:

353G.09 RETIREMENT BENEFIT ELIGIBILITY.

Subdivision 1. **Entitlement.** Except as provided in subdivision 3, an active member of the retirement plan is entitled to a ~~lump-sum~~ service pension from the retirement plan if the person:

- (1) has separated from active service with the fire department for at least 30 days;
- (2) has attained the age of at least 50 years;

(3) has completed at least five years of good time service credit as a member of the retirement plan if the person is a member of the lump-sum retirement division or has completed at least the minimum number of years of good time service credit as a member of the retirement plan specified in the retirement benefit plan document attributable to the applicable fire department if the person is a member of the monthly benefit retirement division; and

- (4) applies in a manner prescribed by the executive director for the service pension.

Subd. 2. **Vesting schedule; nonforfeitable portion of service pension.** (a) If an active member of the lump-sum retirement division has completed less than 20 years of good time service credit as a member of the lump-sum retirement division of the plan, the person's entitlement to a service pension is equal to the nonforfeitable percentage of the applicable service pension amount, as follows:

5	40 percent

6	44 percent
7	48 percent
8	52 percent

(4) applies in a manner prescribed by the executive director for the service pension.

by the total number of years of service as a member of that volunteer firefighters relief association and as a member of the retirement plan. If retirement coverage ~~prior to~~ before statewide retirement plan coverage was provided by a defined contribution plan volunteer firefighters relief association, the alternative lump-sum service pension is an amount equal to the person's account balance as of the date immediately ~~prior to~~ before the date on which statewide retirement plan coverage was first provided to the person plus six percent annual compound interest from that date until the date immediately ~~prior to~~ before the date of retirement.

Subd. 8. **Interest and salary assumptions.** (a) The actuarial valuation must use the applicable following interest assumption:

(1) select and ultimate interest rate assumption

plan	ultimate interest rate assumption
general state employees retirement plan	8.5%
correctional state employees retirement plan	8.5
State Patrol retirement plan	8.5
legislators retirement plan, and for the constitutional officers calculation of total plan liabilities	0

general public employees retirement plan	8.5
public employees police and fire retirement plan	8.5
local government correctional service retirement plan	8.5

Except for the legislators retirement plan and the constitutional officers calculation of total plan liabilities, the select preretirement interest rate assumption for the period after June 30, 2012, through June 30, 2017, is 8 percent.

(b)(1) If funding stability has been attained, the valuation must use a postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section 354A.27, subdivision 7; 354A.29, subdivision 9; or 356.415, subdivision 1, whichever applies.

(2) If funding stability has not been attained, the valuation must use a select postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate specified in section 354A.27, subdivision 6a; 354A.29, subdivision 8; or 356.415, subdivision 1a, 1b, 1c, 1d, 1e, or 1f, whichever applies, for a period ending when the approved actuary estimates that the plan will attain the defined funding stability measure, and thereafter an ultimate postretirement adjustment rate actuarial assumption equal to the postretirement adjustment rate under section 354A.27, subdivision 7; 354A.29, subdivision 9; or 356.415, subdivision 1, for the applicable period or periods beginning when funding stability is projected to be attained.

(c) The actuarial valuation must use the applicable following single rate future salary increase assumption, the applicable following modified single rate future salary increase assumption, or the applicable following graded rate future salary increase assumption:

For plans other than the St. Paul teachers retirement plan and the local government correctional service retirement plan, the select calculation is: during the designated select period, a designated percentage rate is multiplied by the result of the designated integer minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is ten years and the designated integer is ten for the local government correctional service retirement plan and 15 for the St. Paul Teachers Retirement Fund Association. The designated percentage rate is 0.2 percent for the St. Paul Teachers Retirement Fund Association.

(6) all other items necessary to show accurately the revenues and expenditures and financial position of the relief association.

(b) The detailed financial statement of the special and general funds required under paragraph (a) must be certified by a certified public accountant or by the state auditor. ~~In addition to certifying the financial condition of the special and general funds of the relief association, the accountant or auditor conducting the examination shall give an opinion as to the condition of the special and general funds of the relief association, and shall comment upon any exceptions to the report in accordance with agreed-upon procedures and forms prescribed by the state auditor.~~ The accountant must have at least five years of public accounting, auditing, or similar experience, and must not be an active, inactive, or retired member of the relief association or the fire department.

(c) The detailed financial statement required under paragraph (a) must be countersigned by:

(d) The volunteer firefighters' relief association board must file the detailed financial statement required under paragraph (a) in the relief association office for public inspection and present it to the governing body of the municipality within 45 days after the close of the fiscal year, and must submit a copy of the certified detailed financial statement to the state auditor within 90 days of the close of the fiscal year.

(e) A certified public accountant or auditor who performs the agreed-upon procedures under paragraph (b) is subject to the reporting requirements of section 6.67.

EFFECTIVE DATE. This section is effective July 1, 2015, and applies to financial statements prepared for calendar year 2015 and thereafter.

Sec. 2. Minnesota Statutes 2014, section 69.80, is amended to read:

69.80 AUTHORIZED ADMINISTRATIVE EXPENSES.

(a) Notwithstanding any provision of law to the contrary, the payment of the following necessary, reasonable and direct expenses of maintaining, protecting and administering the special fund, when provided for in the bylaws of the association and approved by the board of trustees, constitutes authorized administrative expenses of a volunteer firefighters' relief association organized under any law of this state or the Bloomington Fire Department Relief Association:

(1) office expense, including, but not limited to, rent, utilities, equipment, supplies, postage, periodical subscriptions, furniture, fixtures, and salaries of administrative personnel;

(2) salaries of the officers of the association, or their designees, and salaries of the members of the board of trustees of the association if the salary amounts are approved by the governing body of the entity that is responsible for meeting any minimum obligation under section 424A.092 or 424A.093, or Laws 2013, chapter 111, article 5, sections 31 to 42, and the itemized expenses of relief association officers and board members that are incurred as a result of fulfilling their responsibilities as administrators of the special fund;

(3) tuition, registration fees, organizational dues, and other authorized expenses of the officers or members of the board of trustees incurred in attending educational conferences, seminars, or classes relating to the administration of the relief association;

(4) audit, and audit-related services, accounting and accounting-related services, and actuarial, medical, legal, and investment and performance evaluation expenses;

(5) filing and application fees payable by the relief association to federal or other governmental entities;

(6) reimbursement to the officers and members of the board of trustees, or their designees, for reasonable and necessary expenses actually paid and incurred in the performance of their duties as officers or members of the board; and

(7) premiums on fiduciary liability insurance and official bonds for the officers, members of the board of trustees, and employees of the relief association.

(b) Any other expenses of the relief association must be paid from the general fund of the association, if one exists. If a relief association has only one fund, that fund is the special fund for purposes of this section. If a relief association has a special fund and a general fund, and any expense of the relief association that is directly related to the purposes for which both funds were established, the payment of that expense must be apportioned between the two funds on the basis of the benefits derived by each fund.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2014, section 424A.001, is amended by adding a subdivision to read:

Subd. 12. **Membership start date.** Membership in a volunteer firefighters relief association begins upon the date of hire by a municipality, a joint powers board, or an independent nonprofit firefighting corporation with which the relief association is directly associated, unless otherwise specified in the relief association bylaws.

EFFECTIVE DATE. This section is effective January 1, 2016.

Sec. 4. Minnesota Statutes 2014, section 424A.002, subdivision 1, is amended to read:

Subdivision 1. **Authorization.** A municipal fire department or an independent nonprofit firefighting corporation, with approval by the applicable municipality or municipalities, may establish a new volunteer firefighters relief association or may retain an existing volunteer firefighters relief association. A municipal fire department or an independent nonprofit firefighting corporation may be associated with only one volunteer firefighters relief association at one time.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 5. Minnesota Statutes 2014, section 424A.016, subdivision 4, is amended to read:

Subd. 4. **Individual accounts.** (a) An individual account must be established for each firefighter who is a member of the relief association.

(b) To each individual active member account must be credited an equal share of:

(1) any amounts of fire state aid and police and firefighter retirement supplemental state aid received by the relief association;

(2) any amounts of municipal contributions to the relief association raised from levies on real estate or from other available municipal revenue sources exclusive of fire state aid; and

(3) any amounts equal to the share of the assets of the special fund to the credit of:

(i) any former member who terminated active service with the fire department to which the relief association is associated before meeting the minimum service requirement provided for in subdivision 2, paragraph (b), and has not returned to active service with the fire department for a period no shorter than five years; or

(ii) any retired member who retired before obtaining a full nonforfeitable interest in the amounts credited to the individual member account under subdivision 2, paragraph (b), and any applicable provision of the bylaws of the relief association. In addition, any investment return on the assets of the special fund must be credited in proportion to the share of the assets of the special fund to the credit of each individual active

member account. Administrative expenses of the relief association payable from the special fund may be deducted from individual accounts in a manner specified in the bylaws of the relief association.

(c) If the bylaws so permit and as the bylaws define, the relief association may credit any investment return on the assets of the special fund to the accounts of inactive members.

(d) Amounts to be credited to individual accounts must be allocated uniformly for all years of active service and allocations must be made for all years of service, except for caps on service credit if so provided in the bylaws of the relief association. Amounts forfeited under paragraph (b), clause (3), before a resumption of active service and membership under section 424A.01, subdivision 6, remain forfeited and may not be reinstated upon the resumption of active service and membership. The allocation method may utilize monthly proration for fractional years of service, as the bylaws or articles of incorporation of the relief association so provide. The bylaws or articles of incorporation may define a "month," but the definition must require a calendar month to have at least 16 days of active service. If the bylaws or articles of incorporation do not define a "month," a "month" is a completed calendar month of active service measured from the member's date of entry to the same date in the subsequent month.

(e) At the time of retirement under subdivision 2 and any applicable provision of the bylaws of the relief association, a retiring member is entitled to that portion of the assets of the special fund to the credit of the member in the individual member account which is nonforfeitable under subdivision 3 and any applicable provision of the bylaws of the relief association based on the number of years of service to the credit of the retiring member.

(f) Annually, the secretary of the relief association shall certify the individual account allocations to the state auditor at the same time that the annual financial statement or financial report and audit of the relief association, whichever applies, is due under section 69.051.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2014, section 424A.02, subdivision 3, is amended to read:

Subd. 3. **Flexible service pension maximums.** (a) Annually on or before August 1 as part of the certification of the financial requirements and minimum municipal obligation determined under section 424A.092, subdivision 4, or 424A.093, subdivision 5, as applicable, the secretary or some other official of the relief association designated in the bylaws of each defined benefit relief association shall calculate and certify to the governing body of the applicable municipality the average amount of available financing per active covered firefighter for the most recent three-year period. The amount of available financing includes any amounts of fire state aid and police and firefighter retirement supplemental state aid received or receivable by the relief association, any amounts of municipal contributions to the relief association raised from levies on real estate or from other available revenue sources exclusive of fire state aid, and one-tenth of the amount of assets in excess of the accrued liabilities of the relief association calculated under section 424A.092, subdivision 2; 424A.093, subdivisions 2 and 4; or 424A.094, subdivision 2, if any.

(b) The maximum service pension which the defined benefit relief association has authority to provide for in its bylaws for payment to a member retiring after the calculation date when the minimum age and service requirements specified in subdivision 1 are met must be determined using the table in paragraph (c) or (d), whichever applies.

(c) For a defined benefit relief association where the governing bylaws provide for a monthly service pension to a retiring member, the maximum monthly service pension amount per month for each year of

service credited that may be provided for in the bylaws is the greater of the service pension amount provided for in the bylaws on the date of the calculation of the average amount of the available financing per active covered firefighter or the maximum service pension figure corresponding to the average amount of available financing per active covered firefighter:

(e) For a defined benefit relief association in which the governing bylaws provide for a monthly benefit service pension as an alternative form of service pension payment to a lump-sum service pension, the maximum service pension amount for each pension payment type must be determined using the applicable table contained in this subdivision.

(f) If a defined benefit relief association establishes a service pension in compliance with the applicable maximum contained in paragraph (c) or (d) and the minimum average amount of available financing per active covered firefighter is subsequently reduced because of a reduction in fire state aid or because of an increase in the number of active firefighters, the relief association may continue to provide the prior service pension amount specified in its bylaws, but may not increase the service pension amount until the minimum average amount of available financing per firefighter under the table in paragraph (c) or (d), whichever applies, permits.

(g) No defined benefit relief association is authorized to provide a service pension in an amount greater than the largest applicable flexible service pension maximum amount even if the amount of available

financing per firefighter is greater than the financing amount associated with the largest applicable flexible service pension maximum.

(h) The method of calculating service pensions must be applied uniformly for all years of active service. Credit must be given for all years of active service except for caps on service credit if so provided in the bylaws of the relief association.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2014, section 424A.02, subdivision 3a, is amended to read:

Subd. 3a. **Penalty for paying pension greater than applicable maximum.** (a) If a defined benefit relief association pays a service pension greater than the maximum service pension associated with the applicable average amount of available financing per active covered firefighter under the table in subdivision 3, paragraph (c) or (d), whichever applies, the maximum service pension under subdivision 3, paragraph (f), or the applicable maximum service pension amount specified in subdivision 3, paragraph (g), whichever is less, the state auditor shall:

(1) disqualify the municipality or the nonprofit firefighting corporation associated with the relief association from receiving fire state aid by making the appropriate notification to the municipality and the commissioner of revenue, with the disqualification applicable for the next apportionment and payment of fire state aid; and

(2) order the treasurer of the applicable relief association to recover the amount of the overpaid service pension or pensions from any retired firefighter who received an overpayment.

(b) Fire state aid amounts from disqualified municipalities for the period of disqualifications under paragraph (a), clause (1), must be credited to the amount of fire insurance premium tax proceeds available for the next subsequent fire state aid apportionment.

(c) The amount of any overpaid service pension recovered under paragraph (a), clause (2), must be credited to the amount of fire insurance premium tax proceeds available for the next subsequent fire state aid apportionment.

(d) The determination of the state auditor that a relief association has paid a service pension greater than the applicable maximum must be made on the basis of the information filed by the relief association and the municipality with the state auditor under sections 69.011, subdivision 2, and 69.051, subdivision 1 or 1a, whichever applies, and any other relevant information that comes to the attention of the state auditor. The determination of the state auditor is final. An aggrieved municipality, relief association, or person may appeal the determination under section 480A.06.

(e) The state auditor may certify, upon learning that a relief association overpaid a service pension based on an error in the maximum service pension calculation, the municipality or nonprofit firefighting corporation associated with the relief association for fire state aid if (1) there is evidence that the error occurred in good faith, and (2) the relief association has initiated recovery of any overpayment amount. Notwithstanding paragraph (c), all overpayments recovered under this paragraph must be credited to the relief association's special fund.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2014, section 424A.02, subdivision 9a, is amended to read:

Subd. 9a. **Postretirement increases.** Notwithstanding any provision of general or special law to the contrary, a defined benefit relief association paying a monthly service pension may provide a postretirement increase to retired members and ancillary benefit recipients of the relief association if (1) the relief association adopts an appropriate bylaw amendment; and (2) the bylaw amendment is approved by the municipality pursuant to subdivision 10 and section 424A.093, subdivision 6. The postretirement increase is applicable only to retired members and ancillary benefit recipients receiving a monthly service pension or monthly ancillary benefit as of the effective date of the bylaw amendment. The authority to provide a postretirement increase to retired members and ancillary benefit recipients of a relief association contained in this subdivision supersedes any prior special law authorization relating to the provision of postretirement increases.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 9. Minnesota Statutes 2014, section 424A.05, subdivision 2, is amended to read:

Subd. 2. **Special fund assets and revenues.** The special fund must be credited with all fire state aid moneys and police and firefighter retirement supplemental state aid received under sections 69.011 to 69.051 and 423A.022, all taxes levied by or other revenues received from the municipality under sections 424A.091 to 424A.096 or any applicable special law requiring municipal support for the relief association, any ~~moneys-funds~~ or property donated, given, granted or devised by any person which is specified for use for the support of the special fund and any interest or investment return earned upon the assets of the special fund. The treasurer of the relief association is the custodian of the assets of the special fund and must be the recipient on behalf of the special fund of all revenues payable to the special fund. The treasurer shall maintain adequate records documenting any transaction involving the assets or the revenues of the special fund. These records and the bylaws of the relief association are public and must be open for inspection by any member of the relief association, any officer or employee of the state or of the municipality, or any member of the public, at reasonable times and places.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 10. Minnesota Statutes 2014, section 424A.05, subdivision 3, is amended to read:

Subd. 3. **Authorized disbursements from special fund.** (a) Disbursements from the special fund may not be made for any purpose other than one of the following:

(1) for the payment of service pensions to retired members of the relief association if authorized and paid under law and the bylaws governing the relief association;

(2) for the purchase of an annuity for the applicable person under section 424A.015, subdivision 3, for the transfer of service pension or benefit amounts to the applicable person's individual retirement account under section 424A.015, subdivision 4, or to the applicable person's account in the Minnesota deferred compensation plan under section 424A.015, subdivision 5;

(3) for the payment of temporary or permanent disability benefits to disabled members of the relief association if authorized and paid under law and specified in amount in the bylaws governing the relief association;

(4) for the payment of survivor benefits or for the payment of a death benefit to the estate of the deceased active or deferred firefighter, if authorized and paid under law and specified in amount in the bylaws governing the relief association;

(5) for the payment of the fees, dues and assessments to the Minnesota State Fire Department Association and to the Minnesota State Fire Chiefs Association in order to entitle relief association members to membership in and the benefits of these associations or organizations;

(6) for the payment of insurance premiums to the state Volunteer Firefighters Benefit Association, or an insurance company licensed by the state of Minnesota offering casualty insurance, in order to entitle relief association members to membership in and the benefits of the association or organization; and

(7) for the payment of administrative expenses of the relief association as authorized under section 69.80.

(b) Checks or authorizations for electronic fund transfers for disbursements authorized by this section must be signed by the relief association treasurer and at least one other elected trustee who has been designated by the board of trustees to sign the checks or authorizations. A relief association may make disbursements authorized by this subdivision by electronic funds transfers only if the specific method of payment and internal control policies and procedures regarding the method are approved by the board of trustees.

EFFECTIVE DATE. This section is effective July 1, 2015.

Sec. 11. Minnesota Statutes 2014, section 424A.092, subdivision 3, is amended to read:

Subd. 3. **Financial requirements of relief association; minimum obligation of municipality.** (a) During the month of July, the officers of the relief association shall determine the overall funding balance of the special fund for the current calendar year, the financial requirements of the special fund for the following calendar year and the minimum obligation of the municipality with respect to the special fund for the following calendar year in accordance with the requirements of this subdivision.

(b) The overall funding balance of the special fund for the current calendar year must be determined in the following manner:

(1) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the current year must be calculated under subdivisions 2 and 2a, if applicable.

(2) The total present assets of the special fund projected to December 31 of the current year, including receipts by and disbursements from the special fund anticipated to occur on or before December 31, must be calculated. To the extent possible, for those assets for which a market value is readily ascertainable, the current market value as of the date of the calculation for those assets must be utilized in making this calculation. For any asset for which no market value is readily ascertainable, the cost value or the book value, whichever is applicable, must be utilized in making this calculation.

(3) The amount of the total present assets of the special fund calculated under clause (2) must be subtracted from the amount of the total accrued liability of the special fund calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the special fund is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the special fund is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of the special fund for the following calendar year must be determined in the following manner:

(1) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the calendar year next following the current calendar year must be calculated under subdivisions 2 and 2a, if applicable.

(2) The increase in the total accrued liability of the special fund for the following calendar year over the total accrued liability of the special fund for the current year must be calculated.

(3) The amount of anticipated future administrative expenses of the special fund must be calculated by multiplying the dollar amount of the administrative expenses of the special fund for the most recent prior calendar year by the factor of 1.035.

(4) If the special fund is fully funded, the financial requirements of the special fund for the following calendar year are the total of the amounts calculated under clauses (2) and (3).

(5) If the special fund has a deficit from full funding, the financial requirements of the special fund for the following calendar year are the financial requirements of the special fund calculated as though the special fund were fully funded under clause (4) plus an amount equal to one-tenth of the original amount of the deficit from full funding of the special fund as determined under clause (2) resulting either from an increase in the amount of the service pension occurring in the last ten years or from a net annual investment loss occurring during the last ten years until each increase in the deficit from full funding is fully retired. The annual amortization contribution under this clause may not exceed the amount of the deficit from full funding.

(6) If the special fund has a surplus over full funding, the financial requirements of the special fund for the following calendar year are the financial requirements of the special fund calculated as though the special fund were fully funded under clause (4) reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the special fund.

(d) The minimum obligation of the municipality with respect to the special fund is the financial requirements of the special fund reduced by the amount of any fire state aid and police and firefighter retirement supplemental state aid payable under sections 69.011 to 69.051 and 423A.022 reasonably anticipated to be received by the municipality for transmittal to the special fund during the following calendar year, an amount of interest on the assets of the special fund projected to the beginning of the following calendar year calculated at the rate of five percent per annum, and the amount of any contributions to the special fund required by the relief association bylaws from the active members of the relief association reasonably anticipated to be received during the following calendar year. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 12. Minnesota Statutes 2014, section 424A.092, subdivision 6, is amended to read:

Subd. 6. **Municipal ratification for plan amendments.** If the special fund of the relief association does not have a surplus over full funding under subdivision 3, paragraph (c), clause (5), and if the municipality is required to provide financial support to the special fund of the relief association under this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association

which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies is not effective until it is ratified by the governing body of the municipality served by the fire department to which the relief association is directly associated or by the independent nonprofit firefighting corporation, as applicable, and the officers of a relief association shall not seek municipal ratification prior to preparing and certifying an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the amendment. If the special fund of the relief association has a surplus over full funding under subdivision 3, paragraph (c), clause (5), and if the municipality is not required to provide financial support to the special fund of the relief association under this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which are effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid and police and firefighter retirement supplemental state aid to be received by the relief association as determined by the board of trustees following the preparation of an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the change. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification under this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association under this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification and any service pensions or retirement benefits payable after that date may be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

Sec. 13. Minnesota Statutes 2014, section 424A.093, subdivision 5, is amended to read:

Subd. 5. **Minimum municipal obligation.** (a) The officers of the relief association shall determine the minimum obligation of the municipality with respect to the special fund of the relief association for the following calendar year on or before August 1 of each year in accordance with the requirements of this subdivision.

(b) The minimum obligation of the municipality with respect to the special fund is an amount equal to the financial requirements of the special fund of the relief association determined under subdivision 4, reduced by the estimated amount of any fire state aid and police and firefighter retirement supplemental state aid payable under sections 69.011 to 69.051 and 423A.022 reasonably anticipated to be received by the municipality for transmittal to the special fund of the relief association during the following year and the amount of any anticipated contributions to the special fund required by the relief association bylaws from the active members of the relief association reasonably anticipated to be received during the following calendar year. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(c) The officers of the relief association shall certify the financial requirements of the special fund of the relief association and the minimum obligation of the municipality with respect to the special fund of the relief association as determined under subdivision 4 and this subdivision by August 1 of each year. The certification must be made to the entity that is responsible for satisfying the minimum obligation with respect to the special fund of the relief association. If the responsible entity is a joint powers entity, the

certification must be made in the manner specified in the joint powers agreement, or if the joint powers agreement is silent on this point, the certification must be made to the chair of the joint powers board.

(d) The financial requirements of the relief association and the minimum municipal obligation must be included in the financial report or financial statement under section 69.051.

(e) The municipality shall provide for at least the minimum obligation of the municipality with respect to the special fund of the relief association by tax levy or from any other source of public revenue. The municipality may levy taxes for the payment of the minimum municipal obligation without any limitation as to rate or amount and irrespective of any limitations imposed by other provisions of law or charter upon the rate or amount of taxation until the balance of the special fund or any fund of the relief association has attained a specified level. In addition, any taxes levied under this section must not cause the amount or rate of any other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced.

(f) If the municipality does not include the full amount of the minimum municipal obligation in its levy for any year, the officers of the relief association shall certify that amount to the county auditor, who shall spread a levy in the amount of the minimum municipal obligation on the taxable property of the municipality.

(g) If the state auditor determines that a municipal contribution actually made in a plan year was insufficient under section 424A.091, subdivision 3, paragraph (c), clause (5), the state auditor may request from the relief association or from the city a copy of the certifications under this subdivision. The relief association or the city, whichever applies, must provide the certifications within 14 days of the date of the request from the state auditor.

Sec. 14. Minnesota Statutes 2014, section 424A.093, subdivision 6, is amended to read:

Subd. 6. **Municipal ratification for plan amendments.** If the special fund of the relief association does not have a surplus over full funding under subdivision 4, and if the municipality is required to provide financial support to the special fund of the relief association under this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies is not effective until it is ratified by the governing body of the municipality served by the fire department to which the relief association is directly associated or by the independent nonprofit firefighting corporation, as applicable. If the special fund of the relief association has a surplus over full funding under subdivision 4, and if the municipality is not required to provide financial support to the special fund of the relief association under this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which are effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid and police and firefighter retirement supplemental state aid to be received by the relief association as determined by the board of trustees following the preparation of an updated actuarial valuation including the proposed change or an estimate of the expected actuarial impact of the proposed change prepared by the actuary of the relief association. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification pursuant to this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association under

this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification and any service pensions or retirement benefits payable after that date may be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

EFFECTIVE DATE. This section is effective the day following final enactment.

Subd. 2. **Disposition of remaining assets when obligations are paid.** Upon the death of the last benefit recipient and the last potential surviving spouse of the last benefit recipient, the remaining assets of the RVFRA or the former RVFRA cancel to the city treasury of the city of Roseville.

Sec. 2. CENTENNIAL VOLUNTEER FIREFIGHTERS RELIEF ASSOCIATION; LINO LAKES FIREFIGHTER TRANSFERS.

(a) Notwithstanding any provisions of Minnesota Statutes, chapters 424A and 424B, to the contrary, if between May 1, 2015, and December 31, 2017, a Centennial Fire District firefighter elects to become an emergency on-call firefighter employed by a city or nonprofit firefighting corporation adjoining or within the service area of the Centennial Fire District as it existed on March 1, 2015, the firefighter may elect to transfer past retirement coverage for prior firefighting service with the Centennial Fire District as provided in paragraph (b) and to have prospective firefighting service treated as a continuation of past firefighting service for vesting and benefit computation purposes by the volunteer firefighter relief association of the applicable city or nonprofit firefighting corporation if the bylaws of that relief association so permit or by the voluntary statewide volunteer firefighter retirement plan if that plan provides retirement coverage to the applicable fire department.

(b) If a change in fire department service described in paragraph (a) is made in a timely fashion, upon notification by the fire chief of the fire department of the municipality or nonprofit firefighting corporation described in paragraph (a) to the secretary of the applicable volunteer firefighter relief association or to the executive director of the Public Employees Retirement Association, good time service credit, accrued liability associated with the good time service credit, a proportional share of relief association assets on an institution-to-institution basis, and a proportional share of any net accounts payable or receivable must be transferred from the Centennial Volunteer Firefighters Relief Association to the applicable account in the voluntary statewide volunteer firefighter retirement plan or to the applicable volunteer firefighter relief association retirement plan. The transferring good time service credit must be the years and months of credit indicated in the firefighter's records in the Centennial Volunteer Firefighters Relief Association on the date of transfer. The transferred accrued liability must be the liability for the transferred good time service credit at the service pension level under Minnesota Statutes, section 424A.092 or 424A.093, whichever applies, or under Minnesota Statutes, section 353G.11, subdivision 1, whatever is applicable to the fire department successively employing the firefighter. The transferred assets amount must be that portion of the market value of the assets of the Centennial Volunteer Firefighters Relief Association as of the December 31 preceding the transfer date determined by expressing the total length of good time service credit multiplied by the applicable multiple of the applicable liability table factor in Minnesota Statutes, section 424A.092, subdivision 2, of all active and deferred members of the Centennial Volunteer Firefighters Relief Association, adjusted for any deferred member deferral period interest, and applying that percentage to the asset market value. If there are any accounts payable or accounts receivable as of the December 31 preceding the transfer date, the same percentage as applicable to the asset transfer must be applied to the net accounts payable/receivable amount, with the result deducted from or added to the ultimate transfer amount. Any dispute about these transfer amounts must be referred for resolution by the volunteer firefighter relief association to the Office of Administrative Hearings for resolution under Minnesota Statutes, chapter 14.

(c) The transfer dates under this section are January 1, 2016, January 1, 2017, or January 1, 2018.

(d) The asset transfer under paragraph (b) must be made in cash unless the secretary of the successor of the volunteer firefighter relief association or the executive director of the State Board of Investment, whichever applies, determines that the transfer may be made on an investment security basis, and if so determined, must be in the investment security portfolio mix specified by the secretary of the successor of the volunteer firefighter relief association or the executive director of the State Board of Investment.

(e) The transfer of good time service credit and accrued liability constitutes a forfeiture of any claim by the transferring firefighter to any service pension or ancillary benefit payment from the Centennial Volunteer

Firefighters Relief Association as of the transfer date and must be so reflected in any financial reporting of the Centennial Volunteer Firefighters Relief Association as of the December 31 preceding the transfer date.

(f) With respect to any transferred firefighter under this section, the successor volunteer firefighter relief association or the account of the voluntary statewide volunteer firefighter retirement plan applicable to the successor fire department is the successor in interest to the Centennial Volunteer Firefighters Relief Association and has and may assert any applicable defense that the Centennial Volunteer Firefighters Relief Association could have asserted if the transfer did not occur unless the act or acts constituting the cause of action were not undertaken by the Centennial Volunteer Firefighters Relief Association in good faith and in compliance with applicable state law.

EFFECTIVE DATE; LOCAL APPROVAL REQUIREMENT. This section is effective the day after the latest date on which the governing bodies and the chief clerical officers of the cities of Centerville, Circle Pines, and Lino Lakes timely complete their compliance with Minnesota Statutes, section 645.021, subdivisions 2 and 3.

Sec. 5. Minnesota Statutes 2014, section 353.01, subdivision 11a, is amended to read:

Subd. 11a. **Termination of public service.** (a) "Termination of public service" occurs ~~(1)~~ when:

(1) a member resigns or is dismissed from public service by the employing governmental subdivision and the employee does not, within 30 days of the date the employment relationship ended, return to an employment position ~~in the same~~ with a governmental subdivision; or

(2) ~~when~~ the employer-employee relationship is severed due to the expiration of a layoff under subdivision 12 or 12c.

(b) The termination of public service must be recorded in the association records upon receipt of an appropriate notice from the governmental subdivision.

(c) A termination of public service does not occur if:

(1) prior to termination of service, the member has an agreement, verbal or written, to ~~return~~ provide service to a governmental subdivision as an employee, or to the same governmental subdivision as an independent contractor, or employee of an independent contractor; or

(2) within 30 days after the date the employment relationship ended, the member provides service to the same governmental subdivision as an independent contractor or employee of an independent contractor.

EFFECTIVE DATE. This section is effective July 1, 2015.

Sec. 6. Minnesota Statutes 2014, section 353.01, subdivision 16, is amended to read:

Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

(1) service during years of actual membership in the course of which employee deductions were withheld from salary and contributions were made at the applicable rates under section 353.27, 353.65, or 353E.03;

(2) periods of service covered by payments in lieu of salary deductions under sections 353.27, ~~subdivision~~ subdivisions 12 and 12a, and 353.35;

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence ~~with pay~~ during which the employee receives pay as specified in subdivision 10, paragraph (a), clause (4) or (5), from which deductions for employee contributions are made, deposited, and credited to the fund;

(5) a period of authorized ~~personal, parental, or medical~~ leave of absence without pay, ~~including a leave of absence covered under the federal Family Medical Leave Act, that does not exceed one year~~ or with pay

~~that is not included in the definition of salary under subdivision 10, paragraph (a), clause (4) or (5), for which salary deductions are not authorized, and for which a member obtained service credit for each month in up to 12 months of the authorized leave period by payment under section 353.0161 or 353.0162, to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;~~

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in

full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under section 353.0162.

~~(b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for state officers and employees displaced by the Community Corrections Act, chapter 401, and transferred into county service under section 401.04, "allowable service" means the combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and section 352.01, subdivision 11.~~

~~(e) (b) No member may receive more than 12 months of allowable service credit in a year either for vesting purposes or for benefit calculation purposes. For an active member who was an active member of the former Minneapolis Firefighters Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Firefighters Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011. For an active member who was an active member of the former Minneapolis Police Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011.~~

Subdivision 1. **Annual funding requirements.** (a) Annually, the executive director shall determine the funding requirements of each account in the voluntary statewide lump-sum volunteer firefighter retirement plan on or before August 1. The funding requirements as directed under this section, must be determined using a mathematical procedure developed and certified as accurate by an approved actuary retained by the Public Employees Retirement Association and based on present value factors using a six percent interest rate, without any decrement assumptions. The funding requirements must be certified to the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan.

(b) The overall funding balance of each account for the current calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the current year must be calculated based on the good time service credit of active and deferred members as of that date.

(2) The total present assets of the account projected to December 31 of the current year, including receipts by and disbursements from the account anticipated to occur on or before December 31, must be calculated. To the extent possible, the market value of assets must be utilized in making this calculation.

(3) The amount of the total present assets calculated under clause (2) must be subtracted from the amount of the total accrued liability calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the account is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the account is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of each account for the following calendar year must be determined in the following manner:

(1) The total accrued liability for all active and deferred members of the account as of December 31 of the calendar year next following the current calendar year must be calculated based on the good time service used in the calculation under paragraph (b), clause (1), increased by one year.

(2) The increase in the total accrued liability of the account for the following calendar year over the total accrued liability of the account for the current year must be calculated.

(3) The amount of ~~anticipated future~~ administrative expenses of the account must be calculated by multiplying the per person dollar amount of the administrative expenses for the most recent prior calendar year by the ~~factor of 1.035~~ number of active and deferred firefighters reported to PERA on the most recent good time service credit certification form for each account.

(4) If the account is fully funded, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3).

(5) If the account has a deficit from full funding, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the account.

(6) If the account has a surplus over full funding, the financial requirement of the account for the following calendar year is the financial requirement of the account calculated as though the account was fully funded under clause (4) and, if the account has also had a surplus over full funding during the prior two years, additionally reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the account.

(d) The required contribution of the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan is the annual financial requirements of the account of the retirement plan under paragraph (c) reduced by the amount of any fire state aid payable under sections 69.011 to 69.051 or supplemental state aid payable under section 423A.022 reasonably anticipated to be received by the retirement plan attributable to the entity or entities during the following calendar year, and an amount of interest on the assets projected to be received during the following calendar year calculated at the rate of six percent per annum. The required contribution must be allocated between the entities if more than one entity is involved. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(e) The required contribution calculated in paragraph (d) must be paid to the retirement plan on or before December 31 of the year for which it was calculated. If the contribution is not received by the retirement plan by December 31, it is payable with interest at an annual compound rate of six percent from the date due until the date payment is received by the retirement plan. If the entity does not pay the full amount of the required contribution, the executive director shall collect the unpaid amount under section 353.28, subdivision 6.

The cost of the referendum must be borne by the affected governmental subdivision or subdivisions, which are required to elect a voting method.

(d) If a retirement system is divided as described in paragraph (c), any member of the division of members that did not desire coverage may be transferred to the division of members who did desire coverage

as provided in section 218(d)(6)(f) of the Social Security Act so long as the individual files a written request for such a transfer with the director.

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence with pay from which deductions for employee contributions are made, deposited, and credited to the fund;

(5) a period of authorized personal, parental, or medical leave of absence without pay, including a leave of absence covered under the federal Family Medical Leave Act, that does not exceed one year, and for which a member obtained service credit for each month in the leave period by payment under section 353.0161 to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions

on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in

service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under section 353.0162.

(2) a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Employee and employer contributions to the general employees retirement plan under subdivisions 2 and 3 must be adjusted:

(1) if the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution sufficiency under paragraph (a) greater than one percent of covered payroll and that the sufficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be decreased as determined under paragraph (c) to a level such that the sufficiency is no greater than one percent of covered payroll based on the most recent actuarial valuation; or

(2) if the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution deficiency equal to or greater than 0.5 percent of covered payroll and that the deficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be increased as determined under paragraph (d) to a level such that no deficiency exists based on the most recent actuarial valuation.

(c) If the actuarially required contribution of the general employees retirement plan is less than the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, by more than one percent of covered payroll, the general employees retirement plan coordinated program employee and employer contribution rates under subdivisions 2 and 3 must be decreased incrementally over one or more years by no more than 0.25 percent of pay each for employee and employer matching contribution rates to a level such that there remains a contribution sufficiency of at least one percent of covered payroll. No contribution rate decrease may be made until at least two years have elapsed since any adjustment under this subdivision has been fully implemented.

(d) If the actuarially required contribution exceeds the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, the employee and matching employer contribution rates must be increased equally to eliminate that contribution deficiency. If the contribution deficiency is:

(1) less than two percent, the incremental increase may be up to 0.25 percent for the general employees retirement plan employee and matching employer contribution rates;

(2) greater than 1.99 percent and less than 4.01 percent, the incremental increase may be up to 0.5 percent for the employee and matching employer contribution rates; or

(3) greater than four percent, the incremental increase may be up to 0.75 percent for the employee and matching employer contribution.

(e) The general employees retirement plan contribution sufficiency or deficiency determination under paragraphs (a) to (d) must be made ~~without the inclusion of~~ including the contributions to, the funded condition of, or the actuarial funding requirements of the MERF division credited under section 353.27, subdivision 3c, and state aid under section 353.505.

(f) Any recommended adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following the receipt of the most recent annual actuarial valuation prepared under section 356.215. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective for any salary paid on or after the January 1 next following the legislative session in which the Legislative Commission on Pensions and Retirement did not take any action to disapprove or modify the Public Employees Retirement Association Board of Trustees' recommendation to adjust the employee and employer rates.

(g) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required contributions that are more than the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

(h) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for

actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially required contribution and must report to the Legislative Commission on Pensions and Retirement any recommendation by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(i) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an automatic adjustment to increase contributions under this subdivision. (iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable interest assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the interest assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

~~(d) For the MERF division of the Public Employees Retirement Association, the established date for full funding is June 30, 2031.~~

~~(k)~~ (j) For the general state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2040.

(h) (k) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.
