Section 1. Minnesota Statutes 2022, section 35.155, subdivision 1, is amended to read:

Subdivision 1. **Running at large prohibited.** (a) An owner may not allow farmed Cervidae to run at large. The owner must make all reasonable efforts to return escaped farmed Cervidae to their enclosures as soon as possible. The owner must immediately notify the commissioner of natural resources of the escape of farmed Cervidae if the farmed Cervidae are not returned or captured by the owner within 24 hours of their escape.

(b) An owner is liable for expenses of another person in capturing, caring for, and returning farmed Cervidae that have left their enclosures if the person capturing the farmed Cervidae contacts the owner as soon as possible.

(c) If an owner is unwilling or unable to capture escaped farmed Cervidae, the commissioner of natural resources may destroy the escaped farmed Cervidae. The commissioner of natural resources must allow the owner to attempt to capture the escaped farmed Cervidae prior to destroying the farmed Cervidae. Farmed Cervidae that are not captured by 24 hours after escape may be destroyed.

(d) A hunter licensed by the commissioner of natural resources under chapter 97A may kill and possess escaped farmed Cervidae in a lawful manner and is not liable to the owner for the loss of the animal.

(e) Escaped farmed Cervidae killed by a hunter or destroyed by the commissioner of natural resources must be tested for chronic wasting disease.

(f) The owner is responsible for proper disposal, as determined by the board, of farmed Cervidae that are killed or destroyed under this subdivision and test positive for chronic wasting disease.

(g) An owner is liable for any additional costs associated with escaped farmed Cervidae that are infected with chronic wasting disease. This paragraph may be enforced by the attorney general on behalf of any state agency affected.

Sec. 2. Minnesota Statutes 2022, section 35.155, subdivision 4, is amended to read:

Subd. 4. **Fencing.** Farmed Cervidae must be confined in a manner designed to prevent escape. All perimeter fences for farmed Cervidae must be at least 96 inches in height and be constructed and maintained in a way that prevents the escape of farmed Cervidae or,

49.1 entry into the premises by free-roaming Cervidae, and physical contact between farmed
49.2 Cervidae and free-roaming Cervidae. The Board of Animal Health may determine whether
49.3 the construction and maintenance of fencing is adequate under this subdivision and may
49.4 compel corrective action where it determines fencing is inadequate. After July 1, 2019, All
49.5 new fencing installed and all fencing used to repair deficiencies must be high tensile. By

49.8 open gate. If a fence deficiency allows entry or exit by farmed or wild Cervidae, the owner
49.9 must immediately repair the deficiency. All other deficiencies must be repaired within a
49.10 reasonable time, as determined by the Board of Animal Health, not to exceed 45 14 days.
49.11 If a fence deficiency is detected during an inspection, the facility must be reinspected at
49.12 least once in the subsequent three months. The farmed Cervidae owner must pay a
49.13 reinspection fee equal to one-half the applicable annual inspection fee under subdivision
49.14 7a for each reinspection related to a fence violation. If the facility experiences more than
49.15 one escape incident in any six-month period or fails to correct a deficiency found during
49.16 an inspection, the board may revoke the facility's registration and order the owner to remove
49.17 or destroy the animals as directed by the board. If the board revokes a facility's registration,
49.18 the commissioner of natural resources may seize and destroy animals at the facility.

49.19 **EFFECTIVE DATE.** This section is effective September 1, 2024.

49.29 white-tailed deer. A valid registration may be sold or transferred only once under this
49.30 paragraph. Before the board approves a sale or transfer under this paragraph, the board must

 72.19 agriculture, health, and natural resources and the commissioner of the Pollution Control
 72.20 Agency must update the fish kill response guidance by developing a protocol. The protocol
 72.21 must consist of steps that state agencies responding to a report of a fish kill under section
 72.22 103G.216 must take to ascertain cause of or contributing factors to the fish kill based on
 72.23 scientific data and information gathered through investigation, as well as a communication
 72.24 plan to inform the public of potential hazards. The protocol must address:

72.25 (1) how to approach sampling for aquatic life in most fish kill situations;

72.26 (2) the types of locations from which samples described in clause (1) should be taken;

72.27 (3) the types of locations where water samples should be taken from the body of water
 72.28 in which the fish kill occurred, as well as tributary streams and private wells with landowner
 72.29 consent that should also be sampled;

72.30 (4) the types of locations from which soil and groundwater samples should be taken to
 72.31 ascertain whether contaminants traveled overland or underground to reach the body of water
 72.32 in which the fish kill occurred;

73.1 (5) where other sampling should occur to determine the presence of contaminants that
73.2 may have contributed to the fish kill;

73.3 (6) developing a comprehensive list of contaminants, including degradation products,
73.4 for which the materials sampled in clauses (3) to (5) should be tested;

73.5 (7) the appropriate concentration limits to be used in testing samples for the presence
73.6 of contaminants, allowing for the possibility that the fish kill may have resulted from the
73.7 interaction of two or more contaminants present at concentrations below the level associated
73.8 with toxic effects resulting from exposure to each individual chemical;

73.9 (8) proper handling, storage, and treatment necessary to preserve the integrity of the
73.10 samples described in this subdivision to maximize the information the samples can yield
73.11 regarding the cause of the fish kill;

73.12 (9) the organs and other parts of the fish and other aquatic creatures that should be
73.13 analyzed to maximize the information the samples can yield regarding the cause of the fish
73.14 kill;

73.15 (10) identifying a rapid response team of interagency staff or an independent contractor
73.16 with the necessary data collection equipment that can travel to the site of the fish kill to
73.17 collect samples within 24 to 48 hours of the incident;

73.18 (11) a communications plan with a health-risk assessment to notify potentially impacted
73.19 downstream users of the surface water of the potential hazards and those in the vicinity
73.20 whose public or private water supply, including surface water or groundwater, may be
73.21 impacted; and

73.22 (12) the proposed content and timing for investigation reports filed following fish kills.
73.23 Investigation reports should identify the probable causes and include recommendations to
73.24 prevent similar incidents in the future.

73.25 Subd. 2. **Review of protocol.** The Departments of Agriculture, Health, and Natural
73.26 Resources and the Pollution Control Agency must post the draft protocol to their websites
73.27 for a 60-day period for public review and comment. The Departments of Agriculture, Health,
73.28 and Natural Resources and the Pollution Control Agency must hold one or more public
73.29 informational meetings on the draft protocol. The Departments of Agriculture, Health, and
73.30 Natural Resources and the Pollution Control Agency must consider comments submitted
73.31 during the public comment period before posting the final protocol to their websites.

73.32 Subd. 3. **Implementation.** Once the protocol has been published, the relevant state
73.33 agencies must follow the protocol and must maintain data related to each fish kill response

74.1 documenting the extent to which the protocol was followed and any reasons why it was not.
 74.2 Once the protocol is in effect, investigation reports for fish kills must be posted to the *EQB*
 74.3 *Monitor*.

74.4 Subd. 4. **Updating protocol.** The updated protocol must be reviewed by the
 74.5 commissioners of agriculture, health, and natural resources, and the commissioner of the
 74.6 Pollution Control Agency at least every five years according to the procedures in this section.

74.7 Sec. 43. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to
 74.8 read:

74.9 Subd. 8a. **Microplastics.** "Microplastics" means particles of plastic less than 500
 74.10 micrometers in size.

74.11 Sec. 44. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to
 74.12 read:

74.13 Subd. 8b. **Nanoplastics.** "Nanoplastics" means plastic particles less than or equal to 100
 74.14 nanometers in size.

74.15 Sec. 45. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to
 74.16 read:

74.17 Subd. 10a. **Plastic.** "Plastic" means a synthetic material made from linking monomers
 74.18 through a chemical reaction to create a polymer chain that can be molded or extruded at
 74.19 high heat into various solid forms that retain their defined shapes during their life cycle and
 74.20 after disposal. Plastic does not mean natural polymers that have not been chemically
 74.21 modified.

74.22 Sec. 46. Minnesota Statutes 2022, section 115.03, subdivision 1, is amended to read:

74.23 Subdivision 1. **Generally.** (a) ~~The agency commissioner is hereby~~ given and charged
 74.24 with the following powers and duties:

74.25 ~~(a)~~ (1) to administer and enforce all laws relating to the pollution of any of the waters
 74.26 of the state;

74.27 ~~(b)~~ (2) to investigate the extent, character, and effect of the pollution of the waters of
 74.28 this state and to gather data and information necessary or desirable in the administration or
 74.29 enforcement of pollution laws, and to make such classification of the waters of the state as
 74.30 it may deem advisable;

75.1 ~~(e)~~ (3) to establish and alter such reasonable pollution standards for any waters of the
75.2 state in relation to the public use to which they are or may be put as it shall deem necessary
75.3 for the purposes of this chapter and, with respect to the pollution of waters of the state,
75.4 chapter 116;

75.5 ~~(d)~~ (4) to encourage waste treatment, including advanced waste treatment, instead of
75.6 stream low-flow augmentation for dilution purposes to control and prevent pollution;

75.7 ~~(e)~~ (5) to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable
75.8 orders, permits, variances, standards, rules, schedules of compliance, and stipulation
75.9 agreements, under such conditions as it may prescribe, in order to prevent, control or abate
75.10 water pollution, or for the installation or operation of disposal systems or parts thereof, or
75.11 for other equipment and facilities:

75.12 ~~(1)~~ (i) requiring the discontinuance of the discharge of sewage, industrial waste or other
75.13 wastes into any waters of the state resulting in pollution in excess of the applicable pollution
75.14 standard established under this chapter;

75.15 ~~(2)~~ (ii) prohibiting or directing the abatement of any discharge of sewage, industrial
75.16 waste, or other wastes, into any waters of the state or the deposit thereof or the discharge
75.17 into any municipal disposal system where the same is likely to get into any waters of the
75.18 state in violation of this chapter and, with respect to the pollution of waters of the state,
75.19 chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and
75.20 specifying the schedule of compliance within which such prohibition or abatement must be
75.21 accomplished;

75.22 ~~(3)~~ (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a
75.23 manner which does not reasonably assure proper retention against entry into any waters of
75.24 the state that would be likely to pollute any waters of the state;

75.25 ~~(4)~~ (iv) requiring the construction, installation, maintenance, and operation by any person
75.26 of any disposal system or any part thereof, or other equipment and facilities, or the
75.27 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,
75.28 or the adoption of other remedial measures to prevent, control or abate any discharge or
75.29 deposit of sewage, industrial waste or other wastes by any person;

75.30 ~~(5)~~ (v) establishing, and from time to time revising, standards of performance for new
75.31 sources taking into consideration, among other things, classes, types, sizes, and categories
75.32 of sources, processes, pollution control technology, cost of achieving such effluent reduction,
75.33 and any nonwater quality environmental impact and energy requirements. Said standards
75.34 of performance for new sources shall encompass those standards for the control of the

76.1 discharge of pollutants which reflect the greatest degree of effluent reduction which the
76.2 agency determines to be achievable through application of the best available demonstrated
76.3 control technology, processes, operating methods, or other alternatives, including, where
76.4 practicable, a standard permitting no discharge of pollutants. New sources shall encompass
76.5 buildings, structures, facilities, or installations from which there is or may be the discharge
76.6 of pollutants, the construction of which is commenced after the publication by the agency
76.7 of proposed rules prescribing a standard of performance which will be applicable to such
76.8 source. Notwithstanding any other provision of the law of this state, any point source the
76.9 construction of which is commenced after May 20, 1973, and which is so constructed as to
76.10 meet all applicable standards of performance for new sources shall, consistent with and
76.11 subject to the provisions of section 306(d) of the Amendments of 1972 to the Federal Water
76.12 Pollution Control Act, not be subject to any more stringent standard of performance for new
76.13 sources during a ten-year period beginning on the date of completion of such construction
76.14 or during the period of depreciation or amortization of such facility for the purposes of
76.15 section 167 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period
76.16 ends first. Construction shall encompass any placement, assembly, or installation of facilities
76.17 or equipment, including contractual obligations to purchase such facilities or equipment, at
76.18 the premises where such equipment will be used, including preparation work at such
76.19 premises;

76.20 ~~(6)~~ (vi) establishing and revising pretreatment standards to prevent or abate the discharge
76.21 of any pollutant into any publicly owned disposal system, which pollutant interferes with,
76.22 passes through, or otherwise is incompatible with such disposal system;

76.23 ~~(7)~~ (vii) requiring the owner or operator of any disposal system or any point source to
76.24 establish and maintain such records, make such reports, install, use, and maintain such
76.25 monitoring equipment or methods, including where appropriate biological monitoring
76.26 methods, sample such effluents in accordance with such methods, at such locations, at such
76.27 intervals, and in such a manner as the agency shall prescribe, and providing such other
76.28 information as the agency may reasonably require;

76.29 ~~(8)~~ (viii) notwithstanding any other provision of this chapter, and with respect to the
76.30 pollution of waters of the state, chapter 116, requiring the achievement of more stringent
76.31 limitations than otherwise imposed by effluent limitations in order to meet any applicable
76.32 water quality standard by establishing new effluent limitations, based upon section 115.01,
76.33 subdivision 13, clause (b), including alternative effluent control strategies for any point
76.34 source or group of point sources to insure the integrity of water quality classifications,
76.35 whenever the agency determines that discharges of pollutants from such point source or

77.1 sources, with the application of effluent limitations required to comply with any standard
77.2 of best available technology, would interfere with the attainment or maintenance of the
77.3 water quality classification in a specific portion of the waters of the state. Prior to
77.4 establishment of any such effluent limitation, the agency shall hold a public hearing to
77.5 determine the relationship of the economic and social costs of achieving such limitation or
77.6 limitations, including any economic or social dislocation in the affected community or
77.7 communities, to the social and economic benefits to be obtained and to determine whether
77.8 or not such effluent limitation can be implemented with available technology or other
77.9 alternative control strategies. If a person affected by such limitation demonstrates at such
77.10 hearing that, whether or not such technology or other alternative control strategies are
77.11 available, there is no reasonable relationship between the economic and social costs and
77.12 the benefits to be obtained, such limitation shall not become effective and shall be adjusted
77.13 as it applies to such person;

77.14 ~~(9)~~ (ix) modifying, in its discretion, any requirement or limitation based upon best
77.15 available technology with respect to any point source for which a permit application is filed
77.16 after July 1, 1977, upon a showing by the owner or operator of such point source satisfactory
77.17 to the agency that such modified requirements will represent the maximum use of technology
77.18 within the economic capability of the owner or operator and will result in reasonable further
77.19 progress toward the elimination of the discharge of pollutants; and

77.20 ~~(10)~~ (x) requiring that applicants for wastewater discharge permits evaluate in their
77.21 applications the potential reuses of the discharged wastewater;

77.22 ~~(f)~~ (6) to require to be submitted and to approve plans and specifications for disposal
77.23 systems or point sources, or any part thereof and to inspect the construction thereof for
77.24 compliance with the approved plans and specifications thereof;

77.25 ~~(g)~~ (7) to prescribe and alter rules, not inconsistent with law, for the conduct of the
77.26 agency and other matters within the scope of the powers granted to and imposed upon it by
77.27 this chapter and, with respect to pollution of waters of the state, in chapter 116, provided
77.28 that every rule affecting any other department or agency of the state or any person other
77.29 than a member or employee of the agency shall be filed with the secretary of state;

77.30 ~~(h)~~ (8) to conduct such investigations, issue such notices, public and otherwise, and hold
77.31 such hearings as are necessary or which it may deem advisable for the discharge of its duties
77.32 under this chapter and, with respect to the pollution of waters of the state, under chapter
77.33 116, including, but not limited to, the issuance of permits, and to authorize any member,

78.1 employee, or agent appointed by it to conduct such investigations or, issue such notices and
78.2 hold such hearings;

78.3 ~~(i)~~ (9) for the purpose of water pollution control planning by the state and pursuant to
78.4 the Federal Water Pollution Control Act, as amended, to establish and revise planning areas,
78.5 adopt plans and programs and continuing planning processes, including, but not limited to,
78.6 basin plans and areawide waste treatment management plans, and to provide for the
78.7 implementation of any such plans by means of, including, but not limited to, standards, plan
78.8 elements, procedures for revision, intergovernmental cooperation, residual treatment process
78.9 waste controls, and needs inventory and ranking for construction of disposal systems;

78.10 ~~(j)~~ (10) to train water pollution control personnel, and charge ~~such~~ training fees ~~therefor~~
78.11 as are necessary to cover the agency's costs. All such fees received ~~shall~~ must be paid into
78.12 the state treasury and credited to the Pollution Control Agency training account;

78.13 (11) to provide chloride reduction training and charge training fees as necessary to cover
78.14 the agency's costs not to exceed \$350. All training fees received must be paid into the state
78.15 treasury and credited to the Pollution Control Agency training account;

78.16 ~~(k)~~ (12) to impose as additional conditions in permits to publicly owned disposal systems
78.17 appropriate measures to insure compliance by industrial and other users with any pretreatment
78.18 standard, including, but not limited to, those related to toxic pollutants, and any system of
78.19 user charges ratably as is hereby required under state law or said Federal Water Pollution
78.20 Control Act, as amended, or any regulations or guidelines promulgated thereunder;

78.21 ~~(l)~~ (13) to set a period not to exceed five years for the duration of any national pollutant
78.22 discharge elimination system permit or not to exceed ten years for any permit issued as a
78.23 state disposal system permit only;

78.24 ~~(m)~~ (14) to require each governmental subdivision identified as a permittee for a
78.25 wastewater treatment works to evaluate in every odd-numbered year the condition of its
78.26 existing system and identify future capital improvements that will be needed to attain or
78.27 maintain compliance with a national pollutant discharge elimination system or state disposal
78.28 system permit; and

78.29 ~~(n)~~ (15) to train subsurface sewage treatment system personnel, including persons who
78.30 design, construct, install, inspect, service, and operate subsurface sewage treatment systems,
78.31 and charge fees as necessary to pay the agency's costs. All fees received must be paid into
78.32 the state treasury and credited to the agency's training account. Money in the account is
78.33 appropriated to the agency to pay expenses related to training.

79.1 (b) The information required in paragraph (a), clause ~~(m)~~ (14), must be submitted in
79.2 every odd-numbered year to the commissioner on a form provided by the commissioner.
79.3 The commissioner shall provide technical assistance if requested by the governmental
79.4 subdivision.

79.5 (c) The powers and duties given the agency in this subdivision also apply to permits
79.6 issued under chapter 114C.

79.7 Sec. 47. Minnesota Statutes 2022, section 115A.1415, is amended to read:

79.8 **115A.1415 ARCHITECTURAL PAINT; PRODUCT STEWARDSHIP PROGRAM;**

79.10 Subdivision 1. **Definitions.** For purposes of this section, the following terms have the
79.11 meanings given:

79.12 (1) "architectural paint" means interior and exterior architectural coatings sold in

79.14 original equipment coatings, or specialty coatings;

79.15 (2) "brand" means a name, symbol, word, or mark that identifies architectural paint,
79.16 rather than its components, and attributes the paint to the owner or licensee of the brand as
79.17 the producer;

79.18 (3) "discarded paint" means architectural paint that is no longer used for its manufactured
79.19 purpose;

79.20 (4) "producer" means a person that:

79.21 (i) has legal ownership of the brand, brand name, or cobrand of architectural paint sold
79.22 in the state;

79.23 (ii) imports architectural paint branded by a producer that meets item (i) when the
79.24 producer has no physical presence in the United States;

79.25 (iii) if items (i) and (ii) do not apply, makes unbranded architectural paint that is sold in
79.26 the state; or

79.27 (iv) sells architectural paint at wholesale or retail, does not have legal ownership of the
79.28 brand, and elects to fulfill the responsibilities of the producer for the architectural paint by
79.29 certifying that election in writing to the commissioner;

80.1 (5) "recycling" means the process of collecting and preparing recyclable materials and
80.2 reusing the materials in their original form or using them in manufacturing processes that
80.3 do not cause the destruction of recyclable materials in a manner that precludes further use;

80.4 (6) "retailer" means any person who offers architectural paint for sale at retail in the
80.5 state;

80.6 (7) "reuse" means donating or selling collected architectural paint back into the market
80.7 for its original intended use, when the architectural paint retains its original purpose and
80.8 performance characteristics;

80.9 (8) "sale" or "sell" means transfer of title of architectural paint for consideration, including
80.10 a remote sale conducted through a sales outlet, catalog, website, or similar electronic means.
80.11 Sale or sell includes a lease through which architectural paint is provided to a consumer by
80.12 a producer, wholesaler, or retailer;

80.13 (9) "stewardship assessment" means the amount added to the purchase price of
80.14 architectural paint sold in the state ~~that is necessary to cover the cost of collecting,~~
80.15 ~~transporting, and processing postconsumer architectural paint by the producer or stewardship~~
80.16 ~~organization pursuant to a product stewardship program~~ to implement a product stewardship
80.17 program according to an approved stewardship plan;

80.18 (10) "stewardship organization" means an organization appointed by one or more
80.19 producers to act as an agent on behalf of the producer to design, submit, and administer a

80.22 stewardship program under subdivision 2 will be implemented.

80.23 Subd. 2. **Product stewardship program.** For architectural paint sold in the state,
80.24 producers must, individually or through a stewardship organization, implement and finance
80.25 a statewide product stewardship program that manages the architectural paint by reducing
80.26 the paint's waste generation, promoting its reuse and recycling, and providing for negotiation
80.27 and execution of agreements to collect, transport, and process the architectural paint for
80.28 end-of-life recycling and reuse.

80.29 Subd. 3. **Participation required to sell.** (a) ~~On and after July 1, 2014, or three months~~
80.30 ~~after program plan approval, whichever is sooner,~~ No producer, wholesaler, or retailer may
80.31 sell or offer for sale in the state architectural paint unless the paint's producer participates
80.32 in an approved stewardship plan, either individually or through a stewardship organization.

81.1 (b) Each producer must operate a product stewardship program approved by the ~~agency~~
 81.2 commissioner or enter into an agreement with a stewardship organization to operate, on the
 81.3 producer's behalf, a product stewardship program approved by the ~~agency~~ commissioner.

81.4 Subd. 4. **Stewardship plan required.** (a) ~~On or before March 1, 2014, and~~ Before
 81.5 offering architectural paint for sale in the state, a producer must submit a stewardship plan
 81.6 to the ~~agency~~ commissioner and receive approval of the plan or must submit documentation
 81.7 to the ~~agency~~ commissioner that demonstrates the producer has entered into an agreement
 81.8 with a stewardship organization to be an active participant in an approved product
 81.9 stewardship program as described in subdivision 2. A stewardship plan must include all
 81.10 elements required under subdivision 5.

81.11 (b) ~~At~~ A proposed amendment to the plan, if determined necessary by the commissioner,
 81.12 must be submitted to the commissioner for review and approval or rejection every five
 81.13 years.

81.14 (c) ~~It is the responsibility of~~ The entities responsible for each stewardship plan ~~to~~ must
 81.15 notify the ~~agency~~ commissioner within 30 days of any significant proposed changes ~~or~~
 81.16 ~~modifications~~ to the plan or its implementation. Within 30 days of the notification, a written
 81.17 proposed plan revision amendment must be submitted to the ~~agency~~ commissioner for
 81.18 review and approval or rejection.

81.19 Subd. 5. **Plan content.** A stewardship plan must contain:

81.20 (1) certification that the product stewardship program will accept all discarded paint
 81.21 regardless of which producer produced the architectural paint and its individual components;

81.22 (2) contact information for the individual and the entity submitting the stewardship plan,
 81.23 a list of all producers participating in the product stewardship program, and the brands
 81.24 covered by the product stewardship program;

81.25 (3) a description of the methods by which the discarded paint will be collected in all
 81.26 areas in the state without relying on end-of-life fees, including an explanation of how the
 81.27 collection system will be convenient and adequate to serve the needs of small businesses
 81.28 and residents in both urban and rural areas on an ongoing basis and a discussion of how the
 81.29 existing household hazardous waste infrastructure will be considered when selecting
 81.30 collection sites;

81.31 (4) a description of how the adequacy of the collection program will be monitored and
 81.32 maintained;

82.1 (5) the names and locations of collectors, transporters, and recyclers that will manage
82.2 discarded paint;

82.3 (6) a description of how the discarded paint and the paint's components will be safely
82.4 and securely transported, tracked, and handled from collection through final recycling and
82.5 processing;

82.6 (7) a description of the method that will be used to reuse, deconstruct, or recycle the
82.7 discarded paint to ensure that the paint's components, to the extent feasible, are transformed
82.8 or remanufactured into finished products for use;

82.9 (8) a description of the promotion and outreach activities that will be used to encourage
82.10 participation in the collection and recycling programs and how the activities' effectiveness
82.11 will be evaluated and the program modified, if necessary;

82.12 (9) the proposed stewardship assessment. ~~The producer or stewardship organization~~
82.13 ~~shall propose a uniform stewardship assessment for any architectural paint sold in the state.~~
82.14 ~~The proposed stewardship assessment shall be reviewed by an independent auditor to ensure~~
82.15 ~~that the assessment does not exceed the costs of the product stewardship program and the~~
82.16 ~~independent auditor shall recommend an amount for the stewardship assessment. The agency~~
82.17 ~~must approve the stewardship assessment~~ established according to subdivision 5a;

82.18 (10) evidence of adequate insurance and financial assurance that may be required for
82.19 collection, handling, and disposal operations;

82.20 (11) five-year performance goals, including an estimate of the percentage of discarded
82.21 paint that will be collected, reused, and recycled during each of the first five years of the
82.22 stewardship plan. The performance goals must include a specific goal for the amount of
82.23 discarded paint that will be collected and recycled and reused during each year of the plan.
82.24 The performance goals must be based on:

82.25 (i) the most recent collection data available for the state;

82.26 (ii) the estimated amount of architectural paint disposed of annually;

82.27 (iii) the weight of the architectural paint that is expected to be available for collection
82.28 annually; and

82.29 (iv) actual collection data from other existing stewardship programs.

82.30 The stewardship plan must state the methodology used to determine these goals; and

82.31 (12) a discussion of the status of end markets for collected architectural paint and what,
82.32 if any, additional end markets are needed to improve the functioning of the program.

83.1 Subd. 5a. **Stewardship assessment.** The producer or stewardship organization must
 83.2 propose a uniform stewardship assessment for any architectural paint sold in the state that
 83.3 covers but does not exceed the costs of developing the stewardship plan, operating and
 83.4 administering the program in accordance with the stewardship plan and the requirements
 83.5 of this section, and maintaining a financial reserve. A stewardship organization or producer
 83.6 must not maintain a financial reserve in excess of 75 percent of the organization's annual
 83.7 operating expenses. The producer or stewardship organization must retain an independent
 83.8 auditor to review the proposed stewardship assessment to ensure that the assessment meets
 83.9 the requirements of this section. The independent auditor must recommend an amount for
 83.10 the stewardship assessment. If the financial reserve exceeds 75 percent of the producer or
 83.11 stewardship organization's annual operating expenses, the producer or stewardship
 83.12 organization must submit a proposed plan amendment according to subdivision 4, paragraph
 83.13 (c), to comply with this subdivision. The commissioner must review and approve or reject
 83.14 the stewardship assessment according to subdivision 7.

83.15 Subd. 6. **Consultation required.** Each stewardship organization or individual producer
 83.16 submitting a stewardship plan or plan amendment must consult with stakeholders including
 83.17 retailers, contractors, collectors, recyclers, local government, and customers during the
 83.18 development of the plan or plan amendment.

83.19 Subd. 7. **Agency Commissioner review and approval.** (a) Within 90 days after receipt
 83.20 of receiving a proposed stewardship plan, the ~~agency shall~~ commissioner must determine
 83.21 whether the plan complies with ~~subdivision 4~~ this section. If the ~~agency~~ commissioner
 83.22 approves a plan, the ~~agency shall~~ commissioner must notify the applicant of the plan approval
 83.23 in writing. If the ~~agency~~ commissioner rejects a plan, the ~~agency shall~~ commissioner must
 83.24 notify the applicant in writing of the reasons for rejecting the plan.

83.25 (b) An applicant whose plan is rejected by the ~~agency~~ commissioner must submit a
 83.26 revised stewardship plan to the ~~agency~~ commissioner within 60 days after receiving notice
 83.27 of rejection. A stewardship organization may submit a revised stewardship plan to the
 83.28 commissioner on not more than two consecutive occasions. If, after the second consecutive
 83.29 submission, the commissioner determines that the revised stewardship plan still does not
 83.30 meet the requirements of this section, the commissioner must modify the stewardship plan
 83.31 as necessary to meet the requirements of this section and approve the stewardship plan.

83.32 ~~(b)~~ (c) Any proposed ~~changes~~ amendment to a stewardship plan must be reviewed and
 83.33 approved or rejected by the ~~agency~~ commissioner in writing according to this subdivision.

84.1 Subd. 8. **Plan availability.** All ~~draft~~ proposed stewardship plans and amendments and
84.2 approved stewardship plans ~~shall~~ and amendments must be placed on the agency's website
84.3 for at least 30 days and made available at the agency's headquarters for public review and
84.4 comment.

84.5 Subd. 9. **Conduct authorized.** A producer or stewardship organization that organizes
84.6 collection, transport, and processing of architectural paint under this section is immune from
84.7 liability for the conduct under state laws relating to antitrust, restraint of trade, unfair trade
84.8 practices, and other regulation of trade or commerce only to the extent that the conduct is
84.9 necessary to plan and implement the producer's or organization's chosen organized collection
84.10 or recycling system.

84.11 Subd. 10. **Producer responsibilities.** (a) On and after the date of implementation of a
84.12 product stewardship program according to this section, a producer of architectural paint
84.13 must add the stewardship assessment, as established under subdivision 5, ~~clause (9)~~ 5a, to
84.14 the cost of architectural paint sold to retailers and distributors in the state by the producer.

84.15 (b) Producers of architectural paint or the stewardship organization ~~shall~~ must provide
84.16 consumers with educational materials regarding the stewardship assessment and product
84.17 stewardship program. The materials must include, but are not limited to, information
84.18 regarding available end-of-life management options for architectural paint offered through
84.19 the product stewardship program and information that notifies consumers that a charge for
84.20 the operation of the product stewardship program is included in the purchase price of
84.21 architectural paint sold in the state.

84.22 Subd. 11. **Retailer responsibilities.** (a) ~~On and after July 1, 2014, or three months after~~
84.23 ~~program plan approval, whichever is sooner,~~ No architectural paint may be sold in the state
84.24 unless the paint's producer is participating in an approved stewardship plan.

84.25 (b) On and after the implementation date of a product stewardship program according
84.26 to this section, each retailer or distributor, as applicable, must ensure that the full amount
84.27 of the stewardship assessment added to the cost of architectural paint by producers under
84.28 subdivision 10 is included in the purchase price of all architectural paint sold in the state.

84.29 (c) Any retailer may participate, on a voluntary basis, as a designated collection point
84.30 pursuant to a product stewardship program under this section and in accordance with
84.31 applicable law.

84.32 (d) No retailer or distributor shall be found to be in violation of this subdivision if, on
84.33 the date the architectural paint was ordered from the producer or its agent, the producer was
84.34 listed as compliant on the agency's website according to subdivision 14.

85.1 Subd. 12. **Stewardship reports.** ~~Beginning October 1, 2015,~~ By April 1 each year,
 85.2 producers of architectural paint sold in the state must individually or through a stewardship
 85.3 organization submit an annual report to the ~~agency~~ commissioner describing the product
 85.4 stewardship program for the preceding calendar year. At a minimum, the report must contain:

85.5 (1) a description of the methods used to collect, transport, and process architectural paint
 85.6 in all regions of the state;

85.7 (2) the weight of all architectural paint collected in all regions of the state and a
 85.8 comparison to the performance goals and recycling rates established in the stewardship
 85.9 plan;

85.10 (3) the amount of unwanted architectural paint collected in the state by method of
 85.11 disposition, including reuse, recycling, and other methods of processing;

85.12 (4) samples of educational materials provided to consumers and an evaluation of the
 85.13 effectiveness of the materials and the methods used to disseminate the materials; and

85.14 (5) an independent financial audit.

85.15 Subd. 13. **Data classification.** Trade secret and sales information, as defined under
 85.16 section 13.37, submitted to the ~~agency~~ commissioner under this section are private or
 85.17 nonpublic data under section 13.37.

85.18 Subd. 14. **Agency Commissioner responsibilities.** ~~The agency shall~~ commissioner must
 85.19 provide, on ~~its~~ the agency's website, a list of all compliant producers and brands participating
 85.20 in stewardship plans that the ~~agency~~ commissioner has approved and a list of all producers
 85.21 and brands the ~~agency~~ commissioner has identified as noncompliant with this section.

85.22 Subd. 15. **Local government responsibilities.** (a) A city, county, or other public agency
 85.23 may choose to participate voluntarily in a product stewardship program.

85.24 (b) Cities, counties, and other public agencies are encouraged to work with producers
 85.25 and stewardship organizations to assist in meeting product stewardship program reuse and
 85.26 recycling obligations, by providing education and outreach or using other strategies.

85.27 (c) A city, county, or other public agency that participates in a product stewardship
 85.28 program must report for the first year of the program to the ~~agency~~ commissioner using the
 85.29 reporting form provided by the ~~agency~~ commissioner on the cost savings as a result of
 85.30 participation and must describe how the savings were used.

85.31 Subd. 16. **Administrative fee.** (a) The stewardship organization or individual producer
 85.32 submitting a stewardship plan ~~shall~~ must pay an annual administrative fee to the

86.1 commissioner. The ~~agency~~ commissioner may establish a variable fee based on relevant
 86.2 factors, including, but not limited to, the portion of architectural paint sold in the state by
 86.3 members of the organization compared to the total amount of architectural paint sold in the
 86.4 state by all organizations submitting a stewardship plan.

86.5 (b) ~~Prior to July 1, 2014, and Before July 1 annually thereafter~~ each year, the ~~agency~~
 86.6 ~~shall~~ commissioner must identify the costs ~~at~~ the agency incurs under this section. The
 86.7 ~~agency shall~~ commissioner must set the fee at an amount that, when paid by every
 86.8 stewardship organization or individual producer that submits a stewardship plan, is adequate
 86.9 to reimburse the agency's full costs of administering this section. The total amount of annual
 86.10 fees collected under this subdivision must not exceed the amount necessary to reimburse
 86.11 costs incurred by the agency to administer this section.

86.12 (c) A stewardship organization or individual producer subject to this subdivision must
 86.13 pay the ~~agency's~~ commissioner's administrative fee under paragraph (a) on or before July
 86.14 ~~1, 2014, and annually thereafter~~ each year. Each year after the initial payment, the annual

 86.16 added to the cost of all architectural paint sold by producers in the state for the preceding
 86.17 calendar year.

86.18 (d) All fees received under this section ~~shall~~ must be deposited in the state treasury and
 86.19 credited to a product stewardship account in the special revenue fund. ~~For fiscal years 2014,~~
 86.20 ~~2015, 2016, and 2017,~~ The amount collected under this section is annually appropriated to
 86.21 the ~~agency~~ commissioner to implement and enforce this section.

86.22 Subd. 17. Duty to provide information. Upon request of the commissioner for purposes
 86.23 of determining compliance with this section, a person must furnish to the commissioner
 86.24 any information that the person has or may reasonably obtain.

86.25 Sec. 48. Minnesota Statutes 2022, section 115A.49, is amended to read:

86.26 **115A.49 SOLID WASTE MANAGEMENT PROJECTS CAPITAL ASSISTANCE**
 86.27 **PROGRAM.**

86.28 (a) There is established a program to encourage and assist cities, counties, solid waste
 86.29 management districts, and sanitary districts in the development and implementation of solid
 86.30 waste management projects and to transfer the knowledge and experience gained from such
 86.31 projects to other communities in the state.

86.32 (b) The program must be administered to encourage local communities to develop
 86.33 feasible and prudent alternatives to disposal, including:

87.1 (1) waste reduction;

87.2 (2) reuse;

87.3 (3) recycling;

87.4 (4) composting source-separated compostable materials or yard waste;

87.5 (5) resource recovery;

87.6 (6) waste separation by generators, collectors, and other persons; and

87.7 (7) waste processing.

87.8 (c) The commissioner shall administer the program in accordance with the requirements
 87.9 of according to sections 115A.49 to 115A.54 and rules ~~promulgated~~ adopted under chapter
 87.10 14. In administering the program, the commissioner shall give priority to projects in the
 87.11 order of preference of the waste management practices listed in section 115A.02. The
 87.12 commissioner shall give special consideration to areas where natural geologic and soil
 87.13 conditions are especially unsuitable for land disposal of solid waste; areas where the capacity
 87.14 of existing solid waste disposal facilities is determined by the commissioner to be less than
 87.15 five years; and projects serving more than one local government unit.

87.16 Sec. 49. Minnesota Statutes 2022, section 115A.51, is amended to read:

87.17 **115A.51 APPLICATION REQUIREMENTS.**

87.18 (a) Applications for assistance under the program must demonstrate:

87.19 (1) that the project is conceptually and technically feasible;

87.20 (2) that affected political subdivisions are committed to implement the project, to provide
 87.21 necessary local financing, and to accept and exercise the government powers necessary to
 87.22 the project;

87.23 (3) that operating revenues from the project, considering the availability and security of
 87.24 sources of solid waste and of markets for recovered resources or the availability of materials
 87.25 for waste reduction or reuse, together with any proposed federal, state, or local financial
 87.26 assistance, will be sufficient to pay all costs over the projected life of the project;

87.27 (4) that the applicant has evaluated the feasible and prudent alternatives to disposal,
 87.28 including using existing solid waste management facilities and facilities conducting waste
 87.29 reduction or reuse with reasonably available capacity sufficient to accomplish the goals of
 87.30 the proposed project, and has compared and evaluated the costs of the alternatives, including
 87.31 capital and operating costs, and the effects of the alternatives on the cost to generators;

88.1 (5) that the applicant has identified:

88.2 (i) waste management objectives in applicable county and regional solid waste
88.3 management plans consistent with section 115A.46, subdivision 2, paragraphs (e) and (f),
88.4 or 473.149, subdivision 1; and

88.5 (ii) other solid waste management facilities and facilities conducting waste reduction or
88.6 reuse identified in the county and regional plans; ~~and~~

88.7 (6) that the applicant has conducted a comparative analysis of the project against existing
88.8 public and private solid waste management facilities and facilities conducting waste reduction
88.9 or reuse, including an analysis of potential displacement of those facilities, to determine
88.10 whether the project is the most appropriate alternative to achieve the identified waste
88.11 management objectives that considers:

88.12 (i) conformity with approved county or regional solid waste management plans;

88.13 (ii) consistency with the state's solid waste hierarchy and section 115A.46, subdivision
88.14 2, paragraphs (e) and (f), or 473.149, subdivision 1; and

88.15 (iii) environmental standards related to public health, air, surface water, and groundwater;

88.16 (7) that the applicant has evaluated the project's environmental impact on climate change,
88.17 including greenhouse gas emissions; and

88.18 (8) that the applicant has reviewed the project's impact on overburdened areas, conducted
88.19 stakeholder engagement, and assessed community input.

88.20 (b) The commissioner ~~may~~ must require completion of a comprehensive solid waste
88.21 management plan conforming to the requirements of section 115A.46, before accepting an
88.22 application. Within five days of filing an application with the agency, the applicant must
88.23 submit a copy of the application to each solid waste management facility, including each
88.24 facility used for waste reduction or reuse, mentioned in the portion of the application
88.25 addressing the requirements of paragraph (a), clauses (5) and (6).

88.26 Sec. 50. Minnesota Statutes 2022, section 115A.54, subdivision 1, is amended to read:

88.27 Subdivision 1. **Purposes; public interest; declaration of policy.** The legislature finds
88.28 ~~that the establishment of waste processing~~ acquiring, establishing, and improving facilities
88.29 that conduct waste reduction, reuse, recycling, composting source-separated compostable
88.30 materials or yard waste, resource recovery, and waste processing and transfer stations serving
88.31 such facilities is needed to reduce and manage properly the solid waste generated in the
88.32 state and to conserve and protect the natural resources in the state and the health, safety,

89.1 and welfare of its citizens; that opportunities to acquire, establish, and improve the facilities
 89.2 and transfer stations are not being fully realized by individual political subdivisions or by
 89.3 agreements among subdivisions; and that therefore it is necessary to provide capital assistance
 89.4 to stimulate and encourage the acquisition, establishment, and betterment improvement of
 89.5 the facilities and transfer stations.

89.6 Sec. 51. Minnesota Statutes 2022, section 115A.54, subdivision 2, is amended to read:

89.7 Subd. 2. **Administration; assurance of funds.** The commissioner shall provide technical
 89.8 and financial assistance ~~for the acquisition and betterment of~~ to acquire, establish, and
 89.9 improve the facilities and transfer stations from revenues derived from ~~the issuance of~~
 89.10 issuing bonds authorized by section 115A.58. Facilities for ~~the incineration of~~ incinerating
 89.11 solid waste without resource recovery are not eligible for assistance. Money appropriated
 89.12 for the purposes of the ~~demonstration~~ program may be distributed as grants or loans. An
 89.13 individual project may receive assistance totaling up to 100 percent of the capital cost of
 89.14 the project and grants up to ~~50~~ 75 percent of the capital cost of the project. No grant or loan
 89.15 shall be disbursed to any recipient until the commissioner has determined the total estimated
 89.16 capital cost of the project and ascertained that financing of the cost is assured by funds
 89.17 provided by the state, by an agency of the federal government within the amount of funds
 89.18 then appropriated to that agency and allocated by it to projects within the state, by any
 89.19 person, or by the appropriation of proceeds of bonds or other funds of the recipient to a fund
 89.20 for ~~the construction of~~ constructing the project.

89.21 Sec. 52. Minnesota Statutes 2022, section 115A.54, subdivision 2a, is amended to read:

89.22 Subd. 2a. **Solid waste management projects.** (a) The commissioner shall provide
 89.23 technical and financial assistance ~~for the acquisition and betterment of~~ to acquire, establish,
 89.24 and improve solid waste management projects as provided in this subdivision and section
 89.25 115A.52. Money appropriated for the purposes of this subdivision must be distributed as
 89.26 grants.

89.27 (b) Except as provided in paragraph (c), a project may receive grant assistance up to 25
 89.28 percent of the capital cost of the project or ~~\$2,000,000~~ \$5,000,000, whichever is less, except
 89.29 that projects constructed as a result of intercounty cooperative agreements may receive the
 89.30 lesser of:

89.31 (1) grant assistance up to 25 percent of the capital cost of the project; or

89.32 (2) ~~\$2,000,000~~ \$5,000,000 times the number of participating counties, ~~whichever is less.~~

90.1 (c) A recycling project ~~or~~, a project to compost ~~or eecompost~~ source-separated
 90.2 compostable material or yard waste, or a project to manage household hazardous waste may
 90.3 receive grant assistance up to 50 percent of the capital cost of the project or ~~\$2,000,000~~
 90.4 \$5,000,000, whichever is less, except that projects completed as a result of intercounty
 90.5 cooperative agreements may receive the lesser of:

90.6 (1) grant assistance up to 50 percent of the capital cost of the project; or

90.7 (2) ~~\$2,000,000~~ \$5,000,000 times the number of participating counties, ~~whichever is less.~~

90.8 (d) The following projects may also receive grant assistance in the amounts specified
 90.9 in ~~this~~ paragraph (c):

90.10 (1) a project to improve control of or reduce air emissions at an existing resource recovery
 90.11 facility; and

90.12 (2) a project to substantially increase the recovery of materials or energy, substantially
 90.13 reduce the amount or toxicity of waste processing residuals, or expand the capacity of an
 90.14 existing resource recovery facility to meet the resource recovery needs of an expanded
 90.15 region if each county from which waste is or would be received has achieved a recycling
 90.16 rate in excess of the goals in section 115A.551, and is implementing aggressive waste
 90.17 reduction and household hazardous waste management programs.

90.18 (e) A waste reduction project or reuse project may receive grant assistance up to 75
 90.19 percent of the capital cost of the project or \$5,000,000, whichever is less, except that projects
 90.20 completed as a result of intercounty cooperative agreements may receive the lesser of:

90.21 (1) grant assistance up to 75 percent of the capital cost of the project; or

90.22 (2) \$5,000,000 times the number of participating counties.

90.23 ~~(d)~~ (f) Notwithstanding paragraph ~~(e)~~ (g), the commissioner may award grants for transfer
 90.24 stations that will initially transfer waste to landfills if the transfer stations are part of a
 90.25 planned resource recovery project, the county where the planned resource recovery facility
 90.26 will be located has a comprehensive solid waste management plan approved by the
 90.27 commissioner, and the solid waste management plan proposes the development of the
 90.28 resource recovery facility. If the proposed resource recovery facility is not in place and
 90.29 operating within 16 years of the date of the grant award, the recipient shall repay the grant
 90.30 amount to the state.

90.31 ~~(e)~~ (g) Projects without waste reduction, reuse, recycling, composting source-separated
 90.32 compostable material or yard waste, or resource recovery are not eligible for assistance.
 90.33 Solid waste disposal facilities and equipment are not eligible for assistance.

91.1 ~~(f)~~ (h) In addition to any assistance received under paragraph (b) ~~or~~, (c), (d), or (e), a
 91.2 project may receive grant assistance for the cost of tests necessary to determine the
 91.3 appropriate pollution control equipment for the project or the environmental effects of the
 91.4 use of any product or material produced by the project.

91.5 ~~(g)~~ (i) In addition to the application requirements of section 115A.51, an application for
 91.6 a project serving eligible jurisdictions in only a single county must demonstrate that
 91.7 cooperation with jurisdictions in other counties to develop the project is not needed or not
 91.8 feasible. Each application must also demonstrate that the project is not financially prudent
 91.9 without the state assistance, because of the applicant's financial capacity and the problems
 91.10 inherent in the waste management situation in the area, particularly transportation distances
 91.11 and limited waste supply and markets for resources recovered.

91.12 ~~(h)~~ (j) For the purposes of this subdivision, a "project" means acquisition, establishment,
 91.13 or improvement of a processing facility, that conducts waste reduction, reuse, recycling,
 91.14 composting source-separated compostable materials or yard waste, resource recovery, or
 91.15 waste processing, together with any transfer stations, transmission facilities, and other related
 91.16 and appurtenant facilities primarily serving the ~~processing~~ facility.

91.17 (k) The commissioner shall adopt rules for the program ~~by July 1, 1985.~~

91.18 ~~(i)~~ (l) Notwithstanding anything in this subdivision to the contrary, a project to construct
 91.19 a new ~~mixed municipal~~ solid waste transfer station that has an enforceable commitment of
 91.20 at least ten years, or of sufficient length to retire bonds sold for the facility, to serve an
 91.21 existing resource recovery facility may receive grant assistance up to 75 percent of the
 91.22 capital cost of the project if addition of the transfer station will increase substantially the
 91.23 geographical area served by the resource recovery facility and the ability of the resource
 91.24 recovery facility to operate more efficiently on a regional basis and the facility meets the
 91.25 criteria in paragraph ~~(e)~~ (d), ~~the second~~ clause (2). A transfer station eligible for assistance
 91.26 under this paragraph is not eligible for assistance under any other paragraph of this
 91.27 subdivision.

91.28 Sec. 53. Minnesota Statutes 2022, section 115A.565, subdivision 1, is amended to read:

91.29 Subdivision 1. **Grant program established.** The commissioner must make competitive
 91.30 grants to political subdivisions or federally recognized Tribes ~~to establish curbside recycling~~
 91.31 ~~or composting, increase~~ for waste reduction, reuse, recycling or, and composting, reduce
 91.32 ~~the amount of recyclable materials entering disposal facilities, or reduce the costs associated~~
 91.33 ~~with hauling waste by locating collection sites as close as possible to the site where the~~
 91.34 ~~waste is generated~~ of source-separated compostable materials or yard waste. To be eligible

92.1 for grants under this section, a political subdivision or federally recognized Tribe must be
 92.2 located outside the seven-county metropolitan area and a city must have a population of
 92.3 less than 45,000.

92.4 Sec. 54. Minnesota Statutes 2022, section 115A.565, subdivision 3, is amended to read:

92.5 Subd. 3. **Priorities; eligible projects.** (a) If applications for grants exceed the available
 92.6 appropriations, grants must be made for projects that, in the commissioner's judgment,
 92.7 provide the highest return in public benefits.

92.8 (b) To be eligible to receive a grant, a project must:

92.9 (1) be locally administered;

92.10 (2) have an educational component and measurable outcomes;

92.11 (3) request \$250,000 or less;

92.12 (4) demonstrate local direct and indirect matching support of at least a quarter amount
 92.13 of the grant request; ~~and~~

92.14 (5) include at least one of the following elements:

92.15 ~~(i) transition to residential recycling through curbside or centrally located collection~~
 92.16 ~~sites;~~

92.17 ~~(ii) development of local recycling systems to support curbside recycling; or~~

92.18 ~~(iii) development or expansion of local recycling systems to support recycling bulk~~
 92.19 ~~materials, including, but not limited to, electronic waste.~~

92.20 (i) waste reduction;

92.21 (ii) reuse;

92.22 (iii) recycling; or

92.23 (iv) composting of source-separated compostable materials or yard waste; and

92.24 (6) demonstrate that the project will reduce waste generation through waste reduction
 92.25 or reuse or that the project will increase the amount of recyclable materials or
 92.26 source-separated compostable materials diverted from a disposal facility.

93.1 Sec. 55. [116.065] CUMULATIVE IMPACTS ANALYSIS; PERMIT DECISIONS
93.2 IN ENVIRONMENTAL JUSTICE AREAS.

93.3 Subdivision 1. Definitions. (a) For the purposes of this section, the following terms have
93.4 the meanings given.

93.5 (b) "Commissioner" means the commissioner of the Minnesota Pollution Control Agency.

93.6 (c) "Cumulative impacts" means the impacts of aggregated levels of past and current
93.7 air, water, and land pollution in a defined geographic area to which current residents are
93.8 exposed.

93.9 (d) "Environmental justice" means:

93.10 (1) communities of color, Indigenous communities, and low-income communities have
93.11 a healthy environment and are treated fairly when environmental statutes, rules, and policies
93.12 are developed, adopted, implemented, and enforced; and

93.13 (2) in all decisions that have the potential to affect the environment of an environmental
93.14 justice area or the public health of its residents, due consideration is given to the history of
93.15 the area's and its residents' cumulative exposure to pollutants and to any current
93.16 socioeconomic conditions that increase the physical sensitivity of those residents to additional
93.17 exposure to pollutants.

93.18 (e) "Environmental justice area" means one or more census tracts in Minnesota:

93.19 (1) in which, based on the most recent data published by the United States Census Bureau:

93.20 (i) 40 percent or more of the population is nonwhite;

93.21 (ii) 35 percent or more of the households have an income at or below 200 percent of the
93.22 federal poverty level; or

93.23 (iii) 40 percent or more of the population over the age of five has limited English
93.24 proficiency; or

93.25 (2) located within Indian Country, as defined in United States Code, title 18, section
93.26 1151.

93.27 (f) "Environmental stressors" mean factors that may make residents of an environmental
93.28 justice area particularly sensitive to exposure to pollutants. Environmental stressors include
93.29 social and environmental factors, including but not limited to poverty, substandard housing,
93.30 food insecurity, elevated rates of disease, and poor access to health insurance and medical
93.31 care.

94.1 Subd. 2. Cumulative impacts analysis; when required. (a) Except as provided in
94.2 paragraph (b), this subdivision applies to the following permit applications for the
94.3 construction of a new facility or the expansion of an existing facility within the seven-county
94.4 metropolitan area or within Indian Country, as defined in United States Code, title 18,
94.5 section 1151:

94.6 (1) a major source air permit, as defined in Minnesota Rules, part 7007.0200, subpart
94.7 2;

94.8 (2) a state air permit required under Minnesota Rules, part 7007.0250, subpart 6;

94.9 (3) an individual permit for a solid waste disposal facility proposing to receive or increase
94.10 capacity by 100,000 cubic yards or more of waste annually; and

94.11 (4) a permit required for the treatment, storage, or disposal of hazardous waste.

94.12 (b) This section does not apply to the construction of a new facility or the expansion of
94.13 an existing facility by a person acting under a permit to mine iron, taconite, or nonferrous
94.14 metallic minerals, or to a permit application for the construction of a new facility or the
94.15 expansion of an existing facility in the Taconite Assistance Area, as defined in section
94.16 273.1341.

94.17 (c) The owner or operator of a facility subject to paragraph (a), clause (1), must conduct
94.18 a cumulative impacts analysis if the facility is located in or, as determined by the
94.19 commissioner, may affect the environment or health of residents in an environmental justice
94.20 area and:

94.21 (1) the proposed facility or expansion exceeds the benchmarks established in rules
94.22 adopted under subdivision 5 for requiring a cumulative impacts analysis; or

94.23 (2) a petition signed by at least 100 persons residing or owning property in the affected
94.24 environmental justice area is submitted to the commissioner and supported by material
94.25 evidence demonstrating, to the satisfaction of the commissioner, that a potential adverse
94.26 cumulative impact on the environment or health of the residents of the environmental justice
94.27 area may result if the permit is issued.

94.28 In making this determination, the commissioner may consider material evidence submitted
94.29 by the owner or operator of the facility seeking the permit that issuance of the permit will
94.30 not result in a potential adverse cumulative impact in the environmental justice area.

94.31 (d) The commissioner may require an owner or operator of a facility described in
94.32 paragraph (a), clauses (1) to (4), that is seeking reissuance of a permit to conduct a cumulative
94.33 impacts analysis if the commissioner has material evidence that demonstrates that a potential

95.1 adverse cumulative impact on the environment or health of the residents of the environmental
 95.2 justice area may result if the permit is issued and:

95.3 (1) the facility is located within one mile of the boundary of an environmental justice
 95.4 area within the seven-county metropolitan area;

95.5 (2) the facility is located within one mile of Indian Country, as defined in United States
 95.6 Code, title 18, section 1151; or

95.7 (3) the proposed facility does not exceed the benchmarks established in rules adopted
 95.8 under subdivision 5 for requiring a cumulative impacts analysis.

95.9 In making this determination, the commissioner may consider material evidence submitted
 95.10 by the owner or operator of the facility seeking the permit that reissuance of the permit will
 95.11 not result in a potential adverse cumulative effect in the environmental justice area.

95.12 Subd. 3. **Cumulative impacts analysis; public meeting requirements.** (a) Any owner
 95.13 or operator required to conduct a cumulative impacts analysis under subdivision 2 must
 95.14 hold at least two public meetings in the affected environmental justice area before the
 95.15 commissioner issues or denies a permit. The first public meeting must be held before
 95.16 conducting a cumulative impacts analysis, and the second must be held after conducting
 95.17 the analysis.

95.18 (b) The owner or operator must:

95.19 (1) publish notice containing the date, time, and location of the public meetings and a
 95.20 brief description of the permit or project in a newspaper of general circulation in the
 95.21 environmental justice area at least 30 days before the meetings;

95.22 (2) post physical signage in the environmental justice area impacted, as directed by the
 95.23 commissioner; and

95.24 (3) provide the commissioner with notice of the public meeting and a copy of the
 95.25 cumulative impacts analysis at least 45 days before the second public meeting.

95.26 (c) The commissioner must post the notice and cumulative impacts analysis on the

96.19 area, unless:

96.20 (1) the commissioner enters into a community benefit agreement with the facility owner
96.21 or operator, in consultation with community-based organizations representing the interests

96.24 commissioner, based on criteria established in rules adopted under subdivision 5.

97.9 public engagement, including public meetings, and Tribal consultation.

97.10 (c) Rules adopted under this section must:

97.11 (1) define conditions, criteria, or circumstances that qualify as a compelling public
97.12 interest, which:

97.13 (i) must consider whether the economic benefit considered will directly or substantially
97.14 benefit residents of the affected environmental justice area;

97.15 (ii) must include noneconomic considerations; and

97.16 (iii) must take into account public comments made at public meetings held under
97.17 subdivision 3;

97.18 (2) establish benchmarks to assist the commissioner's determination regarding the need
97.19 for a cumulative impacts analysis;

97.20 (3) establish the content of a community benefit agreement and procedures for entering
97.21 into community benefit agreements, which must include consultation with members of the
97.22 public and community-based organizations or coalitions representing the interests of residents
97.23 within the environmental justice area;

107.34 3; and

108.1 (3) the remainder to the general fund.

108.2 For purposes of this paragraph, the percentage of total sales and use tax revenue derived
 108.3 from the sale of items regulated under section 624.20, subdivision 1, that are allowed to be
 108.4 sold to persons 18 years old or older and are not prohibited from use by the general public
 108.5 under section 624.21, is a set percentage of the total sales and use tax revenues collected in
 108.6 the state, with the percentage determined under Laws 2017, First Special Session chapter
 108.7 1, article 3, section 39.

108.8 ~~(k)~~ (m) The revenues deposited under paragraphs (a) to ~~(j)~~ (l) do not include the revenues,

110.2 Subd. 3. **Prohibition of testing and training.** (a) ~~Beginning July 1, 2020,~~ No person,
 110.3 political subdivision, or state agency shall ~~discharge class B firefighting foam that contains~~
 110.4 ~~intentionally added~~ manufacture or knowingly sell, offer for sale, distribute for sale, or
 110.5 distribute for use in this state, and no person shall use in this state, class B firefighting foam
 110.6 containing PFAS chemicals:

110.7 ~~(1) for testing purposes, unless the testing facility has implemented appropriate~~
 110.8 ~~containment, treatment, and disposal measures to prevent releases of foam to the environment;~~
 110.9 ~~or~~

110.10 ~~(2) for training purposes, unless otherwise required by law, and with the condition that~~
 110.11 ~~the training event has implemented appropriate containment, treatment, and disposal measures~~
 110.12 ~~to prevent releases of foam to the environment. For training purposes, class B foam that~~
 110.13 ~~contains intentionally added PFAS chemicals shall not be used.~~

111.11 Sec. 63. Minnesota Statutes 2022, section 325F.072, is amended by adding a subdivision
 111.12 to read:

111.13 Subd. 3a. **Discharge for testing and training.** A person, political subdivision, or state
 111.14 agency exempted from the prohibitions under subdivision 3 may not discharge class B
 111.15 firefighting foam that contains intentionally added PFAS chemicals for:

111.16 (1) testing purposes, unless the testing facility has implemented appropriate containment,
 111.17 treatment, and disposal measures to prevent releases of foam to the environment; or

111.18 (2) training purposes, unless otherwise required by law, and with the condition that the
 111.19 training event has implemented appropriate containment, treatment, and disposal measures
 111.20 to prevent releases of foam to the environment.

111.21 **EFFECTIVE DATE.** This section is effective January 1, 2024.

111.22 Sec. 64. **50-YEAR CLEAN WATER PLAN SCOPE OF WORK.**

111.23 (a) The University of Minnesota Water Council is requested to develop a scope of work,
 111.24 timeline, and budget for a plan to promote and protect clean water in Minnesota for the next
 111.25 50 years. The 50-year clean water plan must:

111.26 (1) provide a literature-based assessment of the current status and trends regarding the
 111.27 quality and quantity of all Minnesota waters, both surface and subsurface;

111.28 (2) identify gaps in the data or understanding and provide recommended action steps to
 111.29 address gaps;

111.30 (3) identify existing and potential future threats to Minnesota's waters; and

112.1 (4) propose a road map of scenarios and policy recommendations to allow the state to
 112.2 proactively protect, remediate, and conserve clean water for human use and biodiversity
 112.3 for the next 50 years.

112.4 (b) The scope of work must outline the steps and resources necessary to develop the
 112.5 plan, including but not limited to:

112.6 (1) the data sets that are required and how the University of Minnesota will obtain access;

112.7 (2) the suite of proposed analysis methods;

112.8 (3) the roles and responsibilities of project leaders, key personnel, and stakeholders;

 112.12 requested to submit the scope of work to the chairs and ranking minority members of the
 112.13 house of representatives and senate committees and divisions with jurisdiction over
 112.14 environment and natural resources.

112.15 Sec. 65. **REPORT REQUIRED; RECYCLING AND REUSING SOLAR**
 112.16 **PHOTOVOLTAIC MODULES AND INSTALLATION COMPONENTS.**

112.17 (a) The commissioner of the Pollution Control Agency, in consultation with the
 112.18 commissioners of commerce and employment and economic development, must coordinate
 112.19 preparation of a report on developing a statewide system to reuse and recycle solar
 112.20 photovoltaic modules and installation components in the state.

112.21 (b) The report must include options for a system to collect, reuse, and recycle solar
 112.22 photovoltaic modules and installation components at end of life. Any system option included
 112.23 in the report must be convenient and accessible throughout the state, recover 100 percent
 112.24 of discarded components, and maximize value and materials recovery. Any system option
 112.25 developed must include analysis of:

112.26 (1) the reuse and recycling values of solar photovoltaic modules, installation components,
 112.27 and recovered materials;

112.28 (2) system infrastructure and technology needs;

112.29 (3) how to maximize in-state employment and economic development;

112.30 (4) net costs for the program; and

113.1 (5) potential benefits and negative impacts of the plan on environmental justice and
 113.2 Tribal communities.

113.3 (c) The report must include a survey of solar photovoltaic modules and installation
 113.4 components that are currently coming out of service and those projected to come out of
 113.5 service in the future in Minnesota. The report must include a description of how solar
 113.6 photovoltaic modules and installation components are currently being managed at end of
 113.7 life and how they would likely be managed in the future without the proposed reuse and
 113.8 recycling system.

113.9 (d) After completing the report, the commissioner must convene a working group to
 113.10 advise on developing policy recommendations for a statewide system to manage solar
 113.11 photovoltaic modules and installation components. The working group must include but is
 113.12 not limited to:

113.13 (1) the commissioners of commerce and employment and economic development or
 113.14 their designees;

113.15 (2) representatives of the solar industry and electric utilities;

113.16 (3) representatives of state, local, and Tribal governments; and

113.17 (4) other relevant stakeholders.

113.18 (e) By January 15, 2025, the commissioner must submit the report and the policy
 113.19 recommendations developed under this section to the chairs and ranking minority members
 113.20 of the legislative committees and divisions with jurisdiction over environment and natural
 113.21 resources policy and finance and energy policy and finance.

113.22 **Sec. 66. STATUTORY AND RULE REVISIONS TO PREVENT FISH KILLS IN**
 113.23 **DRIFTLESS AREA.**

113.24 By January 15, 2024, the commissioners of agriculture, health, and natural resources
 113.25 and the commissioner of the Pollution Control Agency must make recommendations to the
 113.26 legislature for statutes and rules that should be amended to prevent fish kills within the
 113.27 boundaries of the Department of Natural Resources Paleozoic Plateau ecological section.

113.28 **Sec. 67. TEMPORARY EXEMPTION FOR TERMINALS AND OIL REFINERIES.**

113.29 Subdivision 1. **Temporary exemption.** Minnesota Statutes, section 325F.072, subdivision
 113.30 3, does not apply to the manufacture, sale, distribution, or use of class B firefighting foam
 113.31 for the purposes of use at a terminal or oil refinery until January 1, 2026.

114.1 Subd. 2. Extension; waiver. (a) A person who operates a terminal or oil refinery may
114.2 apply to the state fire marshal for a waiver to extend the exemption under subdivision 1
114.3 beyond January 1, 2026, as provided in this subdivision.

114.4 (b) The state fire marshal may grant a waiver to extend the exemption under subdivision
114.5 1 for a specific use if the applicant provides all of the following:

114.6 (1) clear and convincing evidence that there is no commercially available replacement
114.7 that does not contain intentionally added PFAS chemicals and that is capable of suppressing
114.8 fire for that specific use;

114.9 (2) information on the amount of firefighting foam containing intentionally added PFAS
114.10 chemicals stored, used, or released on-site on an annual basis;

114.11 (3) a detailed plan, with timelines, for the operator of the terminal or oil refinery to
114.12 transition to firefighting foam that does not contain intentionally added PFAS chemicals
114.13 for that specific use; and

114.14 (4) a plan for meeting the requirements under subdivision 3.

114.15 (c) The state fire marshal must ensure there is an opportunity for public comment during
114.16 the waiver process. The state fire marshal must consider both information provided by the
114.17 applicant and information provided through public comment when making a decision on
114.18 whether to grant a waiver. The term of a waiver must not exceed two years. The state fire
114.19 marshal must not grant a waiver for a specific use if any other terminal or oil refinery is
114.20 known to have transitioned to commercially available class B firefighting foam that does
114.21 not contain intentionally added PFAS chemicals for that specific use. All waivers must
114.22 expire by January 1, 2028. A person that anticipates applying for a waiver for a terminal or
114.23 oil refinery must submit a notice of intent to the state fire marshal by January 1, 2025, in
114.24 order to be considered for a waiver beyond January 1, 2026. The state fire marshal must
114.25 notify the waiver applicant of a decision within six months of the waiver submission date.

114.26 (d) The state fire marshal must provide an applicant for a waiver under this subdivision
114.27 an opportunity to:

114.28 (1) correct deficiencies when applying for a waiver; and

114.29 (2) provide evidence to dispute a determination that another terminal or oil refinery is
114.30 known to have transitioned to commercially available class B firefighting foam that does
114.31 not contain intentionally added PFAS chemicals for that specific use, including evidence
114.32 that the specific use is different.

115.1 Subd. 3. Use requirements. (a) A person that uses class B firefighting foam containing
115.2 intentionally added PFAS chemicals under this section must:

115.3 (1) implement tactics that have been demonstrated to prevent release directly to the
115.4 environment, such as to unsealed ground, soakage pits, waterways, or uncontrolled drains;

115.5 (2) attempt to fully contain all firefighting foams with PFAS on-site using demonstrated
115.6 practices designed to contain all PFAS releases;

115.7 (3) implement containment measures such as bunds and ponds that are controlled, are
115.8 impervious to PFAS chemicals, and do not allow fire water, wastewater, runoff, and other
115.9 wastes to be released to the environment, such as to soils, groundwater, waterways, or
115.10 stormwater; and

115.11 (4) dispose of all fire water, wastewater, runoff, impacted soils, and other wastes in a
115.12 way that prevents releases to the environment.

115.13 (b) A terminal or oil refinery that has received a waiver under this section may provide
115.14 and use class B firefighting foam containing intentionally added PFAS chemicals in the
115.15 form of mutual aid to another terminal or oil refinery at the request of authorities only if
115.16 the other terminal or oil refinery also has a waiver.

115.17 **EFFECTIVE DATE.** This section is effective January 1, 2024.

115.18 Sec. 68. **TRANSFER OF DUTIES; FARMED WHITE-TAILED DEER.**

115.19 (a) Responsibility for administering and enforcing the statutes and rules listed in clauses
115.20 (1) and (2) for farmed white-tailed deer are, except as provided in paragraph (c), transferred
115.21 pursuant to Minnesota Statutes, section 15.039, from the Board of Animal Health to the
115.22 commissioner of natural resources:

115.23 (1) Minnesota Statutes, sections 35.153 to 35.156; and

115.24 (2) Minnesota Rules, parts 1721.0370 to 1721.0420.

115.25 (b) The Board of Animal Health retains responsibility for administering and enforcing
115.26 the statutes and rules listed in paragraph (a), clauses (1) and (2), for all other farmed Cervidae.

115.27 (c) Notwithstanding Minnesota Statutes, section 15.039, subdivision 7, the transfer of
115.28 personnel will not take place. The commissioner of natural resources may contract with the
115.29 Board of Animal Health for any veterinary services required to administer this program.

115.30 **EFFECTIVE DATE.** This section is effective July 1, 2025.

116.1 **Sec. 69. TURTLE SELLER'S LICENSES; TRANSFER AND RENEWAL.**

116.2 The commissioner of natural resources must not renew or transfer a turtle seller's license
116.3 after the effective date of this section.

116.4 **EFFECTIVE DATE.** This section is effective January 1, 2024.

116.5 **Sec. 70. UPPER SIOUX AGENCY STATE PARK; LAND TRANSFER.**

116.6 (a) The commissioner of natural resources must convey for no consideration all
116.7 state-owned land within the boundaries of Upper Sioux Agency State Park to the Upper
116.8 Sioux Community. By September 15, 2023, the commissioner must identify all state-owned
116.9 land within Upper Sioux Agency State Park and any funding restrictions or other legal
116.10 barriers to conveying the land. Lands without restrictions or barriers to being conveyed
116.11 must be conveyed to the Upper Sioux Community by December 1, 2023.

116.12 (b) By December 15, 2023, the commissioner must submit a report to the chairs and
116.13 ranking minority members of the legislative committees with jurisdiction over environment
116.14 and natural resources that identifies all barriers to conveying land within Upper Sioux
116.15 Agency State Park and recommendations for addressing those barriers, including any
116.16 legislation needed to eliminate those barriers.

116.17 **EFFECTIVE DATE.** This section is effective the day following final enactment.

116.18 **Sec. 71. WHITE BEAR LAKE AREA WATER-USE STAKEHOLDER GROUP.**

116.19 The commissioner of natural resources must convene a group of stakeholders to advise
116.20 the commissioner and the legislature on options for ensuring communities in the White Bear
116.21 Lake area have access to sufficient safe drinking water to allow for municipal growth while
116.22 simultaneously ensuring the sustainability of surface water and groundwater sources to
116.23 supply the needs of future generations. By March 1, 2024, the commissioner must report
116.24 any recommendations of the stakeholder group to the chairs and ranking minority members
116.25 of the house of representatives and senate committees and divisions with jurisdiction over
116.26 environment and natural resources.

116.27 **Sec. 72. REVISOR INSTRUCTION.**

116.29 35, and Minnesota Rules, chapter 1721, as necessary to conform with section 68. The revisor
116.30 must also change the responsible agency, remove obsolete language, and make necessary
116.31 cross-reference changes consistent with section 68 and the renumbering.

117.1 Sec. 73. **REPEALER.**

117.2 (a) Minnesota Statutes 2022, sections 103C.501, subdivisions 2 and 3; 115.44, subdivision

8400.0500 MAXIMUM COST-SHARE RATES.

The maximum cost-share rates established by the state board represent the maximum percent or amount of the total cost of a conservation practice that may be funded using state cost-share funds.

8400.0550 RECORDING CONSERVATION PRACTICES.

The state board may determine that long-term maintenance of a conservation practice is desirable and may require that maintenance be made a covenant upon the land for the effective life of the practice. A covenant under this part shall be construed in the same manner as a conservation restriction under Minnesota Statutes, section 84.65.

These additional funds may be incorporated with existing erosion control and water management program funds and their use may be governed by the program policy or may be subject to other policies or guidelines required to fully implement the intent for which these additional funds were appropriated.

8400.0900 DISTRICT ADMINISTRATION OF PROGRAM FUNDS.

All funds allocated to districts must be used for the purposes designated by the state board.

Subp. 2. **Maximum cost-share rate.** Prior to considering any applications from land occupiers for cost-share assistance, the district board shall establish cost-share rates for conservation practices to be installed under the program, up to the maximum rates established by the state board.

Subp. 4. **Criteria for district board review.** The district board shall use the factors in items A to D to determine practice eligibility and to review applications for conservation practice funding.

A. The application must be signed by the land occupier and the landowner, if different, indicating their agreement to:

(1) grant the district's representatives access to the parcel where the conservation practice will be located;

(2) obtain all permits required in conjunction with the installation and establishment of the practice prior to starting construction of the practice; and

(3) be responsible for operation and maintenance of conservation practices applied under this program according to an operation and maintenance plan prepared or approved by a district technical representative or the district's delegate.

B. Costs to repair damage to conservation practices installed with state cost-share dollars are eligible if the damage was caused by reasons beyond the control of the land occupier.

C. If the practice has fully met or exceeded its designed effective life, the cost to reconstruct the practice is eligible for cost-share assistance.

D. Conservation practices where construction has begun prior to district approval are ineligible for financial assistance. The board may waive this requirement for emergency needs.

Subp. 5. **Entering into contract.** After review of practice eligibility, the district board, or its delegate, shall approve or deny the application. If the application is approved, the district board, or its delegate, may enter into a contract with the land occupier.

The land occupier is not liable for cost-share assistance received if the failure was caused by reasons beyond the land occupier's control, or if conservation practices are applied at the land occupier's expense which provide equivalent protection of the soil and water resources.

Subp. 2. **Reapplication of conservation practices.** In no case shall a district provide cost-share assistance to a land occupier for the reapplication of conservation practices which were removed by the land occupier during their effective life or that failed due to improper maintenance.
