12.6 (2) receive federal pass-through funding equal to the value of premium tax credits and
12.7 cost-sharing reductions that MinnesotaCare public option enrollees with household incomes
12.8 greater than 200 percent of the federal poverty guidelines would otherwise have received.

13.17 in a qualified health plan with premium tax credits or cost-sharing reductions. An individual
13.18 must provide information needed to confirm the individual is not eligible for medical

19.16 data:

19.17 (1) takes reasonable measures to ensure that the data cannot be associated with a natural

20.6 on personal data or on sets of personal data, whether or not by automated means, including
20.7 but not limited to the collection, use, storage, disclosure, analysis, deletion, or modification
20.8 of personal data.

20.9 (r) "Processor" means a natural or legal person who processes personal data on behalf
20.10 of a controller.

20.11 (s) "Profiling" means any form of automated processing of personal data to evaluate,

20.30 completed or proposed merger, acquisition, bankruptcy, or other transaction in which the
20.31 third party assumes control of all or part of the controller's assets; or

21.1 (6) the exchange of personal data between the producer of a good or service and
21.2 authorized agents of the producer who sell and service the goods and services, to enable

21.14 mechanisms, that directly identifies the geographic coordinates of a consumer or a device
21.15 linked to a consumer with an accuracy of more than three decimal degrees of latitude and
21.16 longitude or the equivalent in an alternative geographic coordinate system, or a street address
21.17 derived from the coordinates. Specific geolocation data does not include the content of
21.18 communications, the contents of databases containing street address information which are
21.19 accessible to the public as authorized by law, or any data generated by or connected to
21.20 advanced utility metering infrastructure systems or other equipment for use by a public
21.21 utility.

24.1 processes, uses, or maintains in the same manner as required under the laws and regulations
24.2 specified in clause (9);

24.4 Code of Federal Regulations, title 45, part 164.512;

24.11 15, section 1681a(d), and by a user of a consumer report, as set forth in United States Code,
24.12 title 15, section 1681b, except that information is only excluded under this paragraph to the
24.13 extent that the activity involving the collection, maintenance, disclosure, sale, communication,
24.14 or use of the information by the agency, furnisher, or user is subject to regulation under the
24.15 federal Fair Credit Reporting Act, United States Code, title 15, sections 1681 to 1681x, and

24.29 processing, sale, or disclosure is in compliance with that law;

24.30 (13) data collected or maintained:

24.31 (i) in the course of an individual acting as a job applicant to or an employee, owner,
24.32 director, officer, medical staff member, or contractor of a business if the data is collected
24.33 and used solely within the context of the role;

25.1 (ii) as the emergency contact information of an individual under item (i) if used solely
25.2 for emergency contact purposes; or

25.3 (iii) that is necessary for the business to retain to administer benefits for another individual
25.4 relating to the individual under item (i) if used solely for the purposes of administering those
25.5 benefits;

25.6 (14) personal data collected, processed, sold, or disclosed pursuant to the Minnesota
25.7 Insurance Fair Information Reporting Act in sections 72A.49 to 72A.505;

25.8 (15) data collected, processed, sold, or disclosed as part of a payment-only credit, check,
25.9 or cash transaction where no data about consumers, as defined in section 325O.02, are
25.10 retained;

25.11 (16) a state or federally chartered bank or credit union, or an affiliate or subsidiary that
25.12 is principally engaged in financial activities, as described in United States Code, title 12,
25.13 section 1843(k);

25.14 (17) information that originates from, or is intermingled so as to be indistinguishable
25.15 from, information described in clause (8) and that a person licensed under chapter 56 collects,
25.16 processes, uses, or maintains in the same manner as is required under the laws and regulations
25.17 specified in clause (8);

25.18 (18) an insurance company, as defined in section 60A.02, subdivision 4, an insurance
25.19 producer, as defined in section 60K.31, subdivision 6, a third-party administrator of
25.20 self-insurance, or an affiliate or subsidiary of any entity identified in this clause that is
25.21 principally engaged in financial activities, as described in United States Code, title 12,
25.22 section 1843(k), except that this clause does not apply to a person that, alone or in
25.23 combination with another person, establishes and maintains a self-insurance program that
25.24 does not otherwise engage in the business of entering into policies of insurance;

25.25 (19) a small business, as defined by the United States Small Business Administration
25.26 under Code of Federal Regulations, title 13, part 121, except that a small business identified
25.27 in this clause is subject to section 325O.075;

25.28 (20) a nonprofit organization that is established to detect and prevent fraudulent acts in
25.29 connection with insurance; and

25.30 (21) an air carrier subject to the federal Airline Deregulation Act, Public Law 95-504,
25.31 only to the extent that an air carrier collects personal data related to prices, routes, or services
25.32 and only to the extent that the provisions of the Airline Deregulation Act preempt the
25.33 requirements of this chapter.

26.1 (b) Controllers that are in compliance with the Children's Online Privacy Protection Act,
26.2 United States Code, title 15, sections 6501 to 6506, and implementing regulations, shall be
26.3 deemed compliant with any obligation to obtain parental consent under this chapter.

26.4 **Sec. 5. [3250.04] RESPONSIBILITY ACCORDING TO ROLE.**

26.5 (a) Controllers and processors are responsible for meeting the respective obligations
26.6 established under this chapter.

26.7 (b) Processors are responsible under this chapter for adhering to the instructions of the
26.8 controller and assisting the controller to meet the controller's obligations under this chapter.
26.9 Assistance under this paragraph shall include the following:

26.10 (1) taking into account the nature of the processing, the processor shall assist the controller
26.11 by appropriate technical and organizational measures, insofar as this is possible, for the
26.12 fulfillment of the controller's obligation to respond to consumer requests to exercise their
26.13 rights pursuant to section 3250.05; and

26.14 (2) taking into account the nature of processing and the information available to the
26.15 processor, the processor shall assist the controller in meeting the controller's obligations in
26.16 relation to the security of processing the personal data and in relation to the notification of
26.17 a breach of the security of the system pursuant to section 325E.61, and shall provide
26.18 information to the controller necessary to enable the controller to conduct and document
26.19 any data privacy and protection assessments required by section 3250.08.

26.20 (c) A contract between a controller and a processor shall govern the processor's data
26.21 processing procedures with respect to processing performed on behalf of the controller. The
26.22 contract shall be binding and clearly set forth instructions for processing data, the nature
26.23 and purpose of processing, the type of data subject to processing, the duration of processing,
26.24 and the rights and obligations of both parties. The contract shall also require that the
26.25 processor:

26.26 (1) ensure that each person processing the personal data is subject to a duty of
26.27 confidentiality with respect to the data; and

26.28 (2) engage a subcontractor only (i) after providing the controller with an opportunity to
26.29 object, and (ii) pursuant to a written contract in accordance with paragraph (e) that requires
26.30 the subcontractor to meet the obligations of the processor with respect to the personal data.

26.31 (d) Taking into account the context of processing, the controller and the processor shall
26.32 implement appropriate technical and organizational measures to ensure a level of security

27.1 appropriate to the risk and establish a clear allocation of the responsibilities between the
27.2 controller and the processor to implement the technical and organizational measures.

27.3 (e) Processing by a processor shall be governed by a contract between the controller and
27.4 the processor that is binding on both parties and that sets out the processing instructions to
27.5 which the processor is bound, including the nature and purpose of the processing, the type
27.6 of personal data subject to the processing, the duration of the processing, and the obligations
27.7 and rights of both parties. The contract shall include the requirements imposed by this
27.8 paragraph, paragraphs (c) and (d), as well as the following requirements:

27.9 (1) at the choice of the controller, the processor shall delete or return all personal data
27.10 to the controller as requested at the end of the provision of services, unless retention of the
27.11 personal data is required by law;

27.12 (2) upon a reasonable request from the controller, the processor shall make available to
27.13 the controller all information necessary to demonstrate compliance with the obligations in
27.14 this chapter; and

27.15 (3) the processor shall allow for, and contribute to, reasonable assessments and inspections
27.16 by the controller or the controller's designated assessor. Alternatively, the processor may
27.17 arrange for a qualified and independent assessor to conduct, at least annually and at the
27.18 processor's expense, an assessment of the processor's policies and technical and organizational
27.19 measures in support of the obligations under this chapter. The assessor must use an
27.20 appropriate and accepted control standard or framework and assessment procedure for
27.21 assessments as applicable, and shall provide a report of an assessment to the controller upon
27.22 request.

27.23 (f) In no event shall any contract relieve a controller or a processor from the liabilities
27.24 imposed on a controller or processor by virtue of the controller's or processor's roles in the
27.25 processing relationship under this chapter.

27.26 (g) Determining whether a person is acting as a controller or processor with respect to
27.27 a specific processing of data is a fact-based determination that depends upon the context in
27.28 which personal data are to be processed. A person that is not limited in the person's processing
27.29 of personal data pursuant to a controller's instructions, or that fails to adhere to a controller's
27.30 instructions, is a controller and not a processor with respect to a specific processing of data.
27.31 A processor that continues to adhere to a controller's instructions with respect to a specific
27.32 processing of personal data remains a processor. If a processor begins, alone or jointly with
27.33 others, determining the purposes and means of the processing of personal data, the processor
27.34 is a controller with respect to the processing.

28.1 Sec. 6. **[3250.05] CONSUMER PERSONAL DATA RIGHTS.**

28.2 Subdivision 1. Consumer rights provided. (a) Except as provided in this chapter, a
28.3 controller must comply with a request to exercise the consumer rights provided in this
28.4 subdivision.

28.5 (b) A consumer has the right to confirm whether or not a controller is processing personal
28.6 data concerning the consumer and access the categories of personal data the controller is
28.7 processing.

28.8 (c) A consumer has the right to correct inaccurate personal data concerning the consumer,
28.9 taking into account the nature of the personal data and the purposes of the processing of the
28.10 personal data.

28.11 (d) A consumer has the right to delete personal data concerning the consumer.

28.12 (e) A consumer has the right to obtain personal data concerning the consumer, which
28.13 the consumer previously provided to the controller, in a portable and, to the extent technically
28.14 feasible, readily usable format that allows the consumer to transmit the data to another
28.15 controller without hindrance, where the processing is carried out by automated means.

28.16 (f) A consumer has the right to opt out of the processing of personal data concerning
28.17 the consumer for purposes of targeted advertising, the sale of personal data, or profiling in
28.18 furtherance of automated decisions that produce legal effects concerning a consumer or
28.19 similarly significant effects concerning a consumer.

28.20 (g) If a consumer's personal data is profiled in furtherance of decisions that produce
28.21 legal effects concerning a consumer or similarly significant effects concerning a consumer,
28.22 the consumer has the right to question the result of the profiling, to be informed of the reason
28.23 that the profiling resulted in the decision, and, if feasible, to be informed of what actions
28.24 the consumer might have taken to secure a different decision and the actions that the
28.25 consumer might take to secure a different decision in the future. The consumer has the right
28.26 to review the consumer's personal data used in the profiling. If the decision is determined
28.27 to have been based upon inaccurate personal data, taking into account the nature of the
28.28 personal data and the purposes of the processing of the personal data, the consumer has the
28.29 right to have the data corrected and the profiling decision reevaluated based upon the
28.30 corrected data.

28.31 (h) A consumer has a right to obtain a list of the specific third parties to which the
28.32 controller has disclosed the consumer's personal data. If the controller does not maintain

29.1 the information in a format specific to the consumer, a list of specific third parties to whom
29.2 the controller has disclosed any consumers' personal data may be provided instead.

29.3 Subd. 2. **Exercising consumer rights.** (a) A consumer may exercise the rights set forth
29.4 in this section by submitting a request, at any time, to a controller specifying which rights
29.5 the consumer wishes to exercise.

29.6 (b) In the case of processing personal data concerning a known child, the parent or legal
29.7 guardian of the known child may exercise the rights of this chapter on the child's behalf.

29.8 (c) In the case of processing personal data concerning a consumer legally subject to
29.9 guardianship or conservatorship under sections 524.5-101 to 524.5-502, the guardian or the
29.10 conservator of the consumer may exercise the rights of this chapter on the consumer's behalf.

29.11 (d) A consumer may designate another person as the consumer's authorized agent to
29.12 exercise the consumer's right to opt out of the processing of the consumer's personal data
29.13 for purposes of targeted advertising and sale under subdivision 1, paragraph (f), on the
29.14 consumer's behalf. A consumer may designate an authorized agent by way of, among other
29.15 things, a technology, including but not limited to an Internet link or a browser setting,
29.16 browser extension, or global device setting, indicating the consumer's intent to opt out of
29.17 the processing. A controller shall comply with an opt-out request received from an authorized
29.18 agent if the controller is able to verify, with commercially reasonable effort, the identity of
29.19 the consumer and the authorized agent's authority to act on the consumer's behalf.

29.20 Subd. 3. **Universal opt-out mechanisms.** (a) A controller must allow a consumer to opt
29.21 out of any processing of the consumer's personal data for the purposes of targeted advertising,
29.22 or any sale of the consumer's personal data through an opt-out preference signal sent, with
29.23 the consumer's consent, by a platform, technology, or mechanism to the controller indicating
29.24 the consumer's intent to opt out of the processing or sale. The platform, technology, or
29.25 mechanism must:

29.26 (1) not unfairly disadvantage another controller;

29.27 (2) not make use of a default setting, but require the consumer to make an affirmative,
29.28 freely given, and unambiguous choice to opt out of the processing of the consumer's personal
29.29 data;

29.30 (3) be consumer-friendly and easy to use by the average consumer;

29.31 (4) be as consistent as possible with any other similar platform, technology, or mechanism
29.32 required by any federal or state law or regulation; and

30.1 (5) enable the controller to accurately determine whether the consumer is a Minnesota
30.2 resident and whether the consumer has made a legitimate request to opt out of any sale of
30.3 the consumer's personal data or targeted advertising. For purposes of this paragraph, the
30.4 use of an Internet protocol address to estimate the consumer's location is sufficient to
30.5 determine the consumer's residence.

30.6 (b) If a consumer's opt-out request is exercised through the platform, technology, or
30.7 mechanism required under paragraph (a), and the request conflicts with the consumer's
30.8 existing controller-specific privacy setting or voluntary participation in a controller's bona
30.9 fide loyalty, rewards, premium features, discounts, or club card program, the controller
30.10 must comply with the consumer's opt-out preference signal but may also notify the consumer
30.11 of the conflict and provide the consumer a choice to confirm the controller-specific privacy
30.12 setting or participation in the controller's program.

30.13 (c) The platform, technology, or mechanism required under paragraph (a) is subject to
30.14 the requirements of subdivision 4.

30.15 (d) A controller that recognizes opt-out preference signals that have been approved by
30.16 other state laws or regulations is in compliance with this subdivision.

30.17 Subd. 4. **Controller response to consumer requests.** (a) Except as provided in this
30.18 chapter, a controller must comply with a request to exercise the rights pursuant to subdivision
30.19 1.

30.20 (b) A controller must provide one or more secure and reliable means for consumers to
30.21 submit a request to exercise the consumer's rights under this section. The means made
30.22 available must take into account the ways in which consumers interact with the controller
30.23 and the need for secure and reliable communication of the requests.

30.24 (c) A controller may not require a consumer to create a new account in order to exercise
30.25 a right, but a controller may require a consumer to use an existing account to exercise the
30.26 consumer's rights under this section.

30.27 (d) A controller must comply with a request to exercise the right in subdivision 1,
30.28 paragraph (f), as soon as feasibly possible, but no later than 45 days of receipt of the request.

30.29 (e) A controller must inform a consumer of any action taken on a request under
30.30 subdivision 1 without undue delay and in any event within 45 days of receipt of the request.
30.31 That period may be extended once by 45 additional days where reasonably necessary, taking
30.32 into account the complexity and number of the requests. The controller must inform the

31.1 consumer of any extension within 45 days of receipt of the request, together with the reasons
31.2 for the delay.

31.3 (f) If a controller does not take action on a consumer's request, the controller must inform
31.4 the consumer without undue delay and at the latest within 45 days of receipt of the request
31.5 of the reasons for not taking action and instructions for how to appeal the decision with the
31.6 controller as described in subdivision 5.

31.7 (g) Information provided under this section must be provided by the controller free of
31.8 charge up to twice annually to the consumer. Where requests from a consumer are manifestly
31.9 unfounded or excessive, in particular because of the repetitive character of the requests, the
31.10 controller may either charge a reasonable fee to cover the administrative costs of complying
31.11 with the request, or refuse to act on the request. The controller bears the burden of
31.12 demonstrating the manifestly unfounded or excessive character of the request.

31.13 (h) A controller is not required to comply with a request to exercise any of the rights
31.14 under subdivision 1, paragraphs (b) to (h), if the controller is unable to authenticate the
31.15 request using commercially reasonable efforts. In such cases, the controller may request
31.16 the provision of additional information reasonably necessary to authenticate the request. A
31.17 controller is not required to authenticate an opt-out request, but a controller may deny an
31.18 opt-out request if the controller has a good faith, reasonable, and documented belief that
31.19 the request is fraudulent. If a controller denies an opt-out request because the controller
31.20 believes a request is fraudulent, the controller must notify the person who made the request
31.21 that the request was denied due to the controller's belief that the request was fraudulent and
31.22 state the controller's basis for that belief.

31.23 (i) In response to a consumer request under subdivision 1, a controller must not disclose
31.24 the following information about a consumer, but must instead inform the consumer with
31.25 sufficient particularity that the controller has collected that type of information:

31.26 (1) Social Security number;

31.27 (2) driver's license number or other government-issued identification number;

31.28 (3) financial account number;

31.29 (4) health insurance account number or medical identification number;

31.30 (5) account password, security questions, or answers; or

31.31 (6) biometric data.

32.1 (j) In response to a consumer request under subdivision 1, a controller is not required
32.2 to reveal any trade secret.

32.3 (k) A controller that has obtained personal data about a consumer from a source other
32.4 than the consumer may comply with a consumer's request to delete the consumer's personal
32.5 data pursuant to subdivision 1, paragraph (d), by either:

32.6 (1) retaining a record of the deletion request, retaining the minimum data necessary for
32.7 the purpose of ensuring the consumer's personal data remains deleted from the business's
32.8 records, and not using the retained data for any other purpose pursuant to the provisions of
32.9 this chapter; or

32.10 (2) opting the consumer out of the processing of personal data for any purpose except
32.11 for the purposes exempted pursuant to the provisions of this chapter.

32.12 Subd. 5. **Appeal process required.** (a) A controller must establish an internal process
32.13 whereby a consumer may appeal a refusal to take action on a request to exercise any of the
32.14 rights under subdivision 1 within a reasonable period of time after the consumer's receipt
32.15 of the notice sent by the controller under subdivision 4, paragraph (f).

32.16 (b) The appeal process must be conspicuously available. The process must include the
32.17 ease of use provisions in subdivision 3 applicable to submitting requests.

32.18 (c) Within 45 days of receipt of an appeal, a controller must inform the consumer of any
32.19 action taken or not taken in response to the appeal, along with a written explanation of the
32.20 reasons in support thereof. That period may be extended by 60 additional days where
32.21 reasonably necessary, taking into account the complexity and number of the requests serving
32.22 as the basis for the appeal. The controller must inform the consumer of any extension within
32.23 45 days of receipt of the appeal, together with the reasons for the delay.

32.24 (d) When informing a consumer of any action taken or not taken in response to an appeal
32.25 pursuant to paragraph (c), the controller must provide a written explanation of the reasons
32.26 for the controller's decision and clearly and prominently provide the consumer with
32.27 information about how to file a complaint with the Office of the Attorney General. The
32.28 controller must maintain records of all appeals and the controller's responses for at least 24
32.29 months and shall, upon written request by the attorney general as part of an investigation,
32.30 compile and provide a copy of the records to the attorney general.

33.1 Sec. 7. **[325O.06] PROCESSING DEIDENTIFIED DATA OR PSEUDONYMOUS**
33.2 **DATA.**

33.3 (a) This chapter does not require a controller or processor to do any of the following
33.4 solely for purposes of complying with this chapter:

33.5 (1) reidentify deidentified data;

33.6 (2) maintain data in identifiable form, or collect, obtain, retain, or access any data or
33.7 technology, in order to be capable of associating an authenticated consumer request with
33.8 personal data; or

33.9 (3) comply with an authenticated consumer request to access, correct, delete, or port
33.10 personal data pursuant to section 325O.05, subdivision 1, if all of the following are true:

33.11 (i) the controller is not reasonably capable of associating the request with the personal
33.12 data, or it would be unreasonably burdensome for the controller to associate the request
33.13 with the personal data;

33.14 (ii) the controller does not use the personal data to recognize or respond to the specific
33.15 consumer who is the subject of the personal data, or associate the personal data with other
33.16 personal data about the same specific consumer; and

33.17 (iii) the controller does not sell the personal data to any third party or otherwise
33.18 voluntarily disclose the personal data to any third party other than a processor, except as
33.19 otherwise permitted in this section.

33.20 (b) The rights contained in section 325O.05, subdivision 1, paragraphs (b) to (h), do not
33.21 apply to pseudonymous data in cases where the controller is able to demonstrate any
33.22 information necessary to identify the consumer is kept separately and is subject to effective
33.23 technical and organizational controls that prevent the controller from accessing the
33.24 information.

33.25 (c) A controller that uses pseudonymous data or deidentified data must exercise reasonable
33.26 oversight to monitor compliance with any contractual commitments to which the
33.27 pseudonymous data or deidentified data are subject, and must take appropriate steps to
33.28 address any breaches of contractual commitments.

33.29 (d) A processor or third party must not attempt to identify the subjects of deidentified
33.30 or pseudonymous data without the express authority of the controller that caused the data
33.31 to be deidentified or pseudonymized.

34.1 (e) A controller, processor, or third party must not attempt to identify the subjects of
34.2 data that has been collected with only pseudonymous identifiers.

34.3 **Sec. 8. [325O.07] RESPONSIBILITIES OF CONTROLLERS.**

34.4 Subdivision 1. **Transparency obligations.** (a) Controllers must provide consumers with
34.5 a reasonably accessible, clear, and meaningful privacy notice that includes:

34.6 (1) the categories of personal data processed by the controller;

34.7 (2) the purposes for which the categories of personal data are processed;

34.8 (3) an explanation of the rights contained in section 325O.05 and how and where
34.9 consumers may exercise those rights, including how a consumer may appeal a controller's
34.10 action with regard to the consumer's request;

34.11 (4) the categories of personal data that the controller sells to or shares with third parties,
34.12 if any;

34.13 (5) the categories of third parties, if any, with whom the controller sells or shares personal
34.14 data;

34.15 (6) the controller's contact information, including an active email address or other online
34.16 mechanism that the consumer may use to contact the controller;

34.17 (7) a description of the controller's retention policies for personal data; and

34.18 (8) the date the privacy notice was last updated.

34.19 (b) If a controller sells personal data to third parties, processes personal data for targeted
34.20 advertising, or engages in profiling in furtherance of decisions that produce legal effects
34.21 concerning a consumer or similarly significant effects concerning a consumer, the controller
34.22 must disclose the processing in the privacy notice and provide access to a clear and
34.23 conspicuous method outside the privacy notice for a consumer to opt out of the sale,
34.24 processing, or profiling in furtherance of decisions that produce legal effects concerning a
34.25 consumer or similarly significant effects concerning a consumer. This method may include
34.26 but is not limited to an Internet hyperlink clearly labeled "Your Opt-Out Rights" or "Your
34.27 Privacy Rights" that directly effectuates the opt-out request or takes consumers to a web
34.28 page where the consumer can make the opt-out request.

34.29 (c) The privacy notice must be made available to the public in each language in which
34.30 the controller provides a product or service that is subject to the privacy notice or carries
34.31 out activities related to the product or service.

35.1 (d) The controller must provide the privacy notice in a manner that is reasonably
35.2 accessible to and usable by individuals with disabilities.

35.3 (e) Whenever a controller makes a material change to the controller's privacy notice or
35.4 practices, the controller must notify consumers affected by the material change with respect
35.5 to any prospectively collected personal data and provide a reasonable opportunity for
35.6 consumers to withdraw consent to any further materially different collection, processing,
35.7 or transfer of previously collected personal data under the changed policy. The controller
35.8 shall take all reasonable electronic measures to provide notification regarding material
35.9 changes to affected consumers, taking into account available technology and the nature of
35.10 the relationship.

35.11 (f) A controller is not required to provide a separate Minnesota-specific privacy notice
35.12 or section of a privacy notice if the controller's general privacy notice contains all the
35.13 information required by this section.

35.14 (g) The privacy notice must be posted online through a conspicuous hyperlink using the
35.15 word "privacy" on the controller's website home page or on a mobile application's app store
35.16 page or download page. A controller that maintains an application on a mobile or other
35.17 device shall also include a hyperlink to the privacy notice in the application's settings menu
35.18 or in a similarly conspicuous and accessible location. A controller that does not operate a
35.19 website shall make the privacy notice conspicuously available to consumers through a
35.20 medium regularly used by the controller to interact with consumers, including but not limited
35.21 to mail.

35.22 Subd. 2. **Use of data.** (a) A controller must limit the collection of personal data to what
35.23 is adequate, relevant, and reasonably necessary in relation to the purposes for which the
35.24 data are processed, which must be disclosed to the consumer.

35.25 (b) Except as provided in this chapter, a controller may not process personal data for
35.26 purposes that are not reasonably necessary to, or compatible with, the purposes for which
35.27 the personal data are processed, as disclosed to the consumer, unless the controller obtains
35.28 the consumer's consent.

35.29 (c) A controller shall establish, implement, and maintain reasonable administrative,
35.30 technical, and physical data security practices to protect the confidentiality, integrity, and
35.31 accessibility of personal data, including the maintenance of an inventory of the data that
35.32 must be managed to exercise these responsibilities. The data security practices shall be
35.33 appropriate to the volume and nature of the personal data at issue.

36.1 (d) Except as otherwise provided in this act, a controller may not process sensitive data
36.2 concerning a consumer without obtaining the consumer's consent, or, in the case of the
36.3 processing of personal data concerning a known child, without obtaining consent from the
36.4 child's parent or lawful guardian, in accordance with the requirement of the Children's
36.5 Online Privacy Protection Act, United States Code, title 15, sections 6501 to 6506, and its
36.6 implementing regulations, rules, and exemptions.

36.7 (e) A controller shall provide an effective mechanism for a consumer, or, in the case of
36.8 the processing of personal data concerning a known child, the child's parent or lawful
36.9 guardian, to revoke previously given consent under this subdivision. The mechanism provided
36.10 shall be at least as easy as the mechanism by which the consent was previously given. Upon
36.11 revocation of consent, a controller shall cease to process the applicable data as soon as
36.12 practicable, but not later than 15 days after the receipt of such request.

36.13 (f) A controller may not process the personal data of a consumer for purposes of targeted
36.14 advertising, or sell the consumer's personal data, without the consumer's consent, under
36.15 circumstances where the controller knows that the consumer is between the ages of 13 and
36.16 16.

36.17 (g) A controller may not retain personal data that is no longer relevant and reasonably
36.18 necessary in relation to the purposes for which the data were collected and processed, unless
36.19 retention of the data is otherwise required by law or permitted under section 325O.09.

36.20 Subd. 3. **Nondiscrimination.** (a) A controller shall not process personal data on the
36.21 basis of a consumer's or a class of consumers' actual or perceived race, color, ethnicity,
36.22 religion, national origin, sex, gender, gender identity, sexual orientation, familial status,
36.23 lawful source of income, or disability in a manner that unlawfully discriminates against the
36.24 consumer or class of consumers with respect to the offering or provision of: housing,
36.25 employment, credit, or education; or the goods, services, facilities, privileges, advantages,
36.26 or accommodations of any place of public accommodation.

36.27 (b) A controller may not discriminate against a consumer for exercising any of the rights
36.28 contained in this chapter, including denying goods or services to the consumer, charging
36.29 different prices or rates for goods or services, and providing a different level of quality of
36.30 goods and services to the consumer. This subdivision does not: (1) require a controller to
36.31 provide a good or service that requires the consumer's personal data that the controller does
36.32 not collect or maintain; or (2) prohibit a controller from offering a different price, rate, level,
36.33 quality, or selection of goods or services to a consumer, including offering goods or services

37.1 for no fee, if the offering is in connection with a consumer's voluntary participation in a
37.2 bona fide loyalty, rewards, premium features, discounts, or club card program.

37.3 (c) A controller may not sell personal data to a third-party controller as part of a bona
37.4 fide loyalty, rewards, premium features, discounts, or club card program under paragraph
37.5 (b) unless:

37.6 (1) the sale is reasonably necessary to enable the third party to provide a benefit to which
37.7 the consumer is entitled;

37.8 (2) the sale of personal data to third parties is clearly disclosed in the terms of the
37.9 program; and

37.10 (3) the third party uses the personal data only for purposes of facilitating a benefit to
37.11 which the consumer is entitled and does not retain or otherwise use or disclose the personal
37.12 data for any other purpose.

37.13 Subd. 4. **Waiver of rights unenforceable.** Any provision of a contract or agreement of
37.14 any kind that purports to waive or limit in any way a consumer's rights under this chapter
37.15 is contrary to public policy and is void and unenforceable.

37.16 **Sec. 9. [3250.075] REQUIREMENTS FOR SMALL BUSINESSES.**

37.17 (a) A small business, as defined by the United States Small Business Administration
37.18 under Code of Federal Regulations, title 13, part 121, that conducts business in Minnesota
37.19 or produces products or services that are targeted to residents of Minnesota, must not sell
37.20 a consumer's sensitive data without the consumer's prior consent.

37.21 (b) Penalties and attorney general enforcement procedures under section 3250.10 apply
37.22 to a small business that violates this section.

37.23 **Sec. 10. [3250.08] DATA PRIVACY POLICIES AND DATA PRIVACY AND**
37.24 **PROTECTION ASSESSMENTS.**

37.25 (a) A controller must document and maintain a description of the policies and procedures
37.26 the controller has adopted to comply with this chapter. The description must include, where
37.27 applicable:

37.28 (1) the name and contact information for the controller's chief privacy officer or other
37.29 individual with primary responsibility for directing the policies and procedures implemented
37.30 to comply with the provisions of this chapter; and

- 38.1 (2) a description of the controller's data privacy policies and procedures which reflect
38.2 the requirements in section 325O.07, and any policies and procedures designed to:
- 38.3 (i) reflect the requirements of this chapter in the design of the controller's systems;
38.4 (ii) identify and provide personal data to a consumer as required by this chapter;
38.5 (iii) establish, implement, and maintain reasonable administrative, technical, and physical
38.6 data security practices to protect the confidentiality, integrity, and accessibility of personal
38.7 data, including the maintenance of an inventory of the data that must be managed to exercise
38.8 the responsibilities under this item;
- 38.9 (iv) limit the collection of personal data to what is adequate, relevant, and reasonably
38.10 necessary in relation to the purposes for which the data are processed;
- 38.11 (v) prevent the retention of personal data that is no longer relevant and reasonably
38.12 necessary in relation to the purposes for which the data were collected and processed, unless
38.13 retention of the data is otherwise required by law or permitted under section 325O.09; and
- 38.14 (vi) identify and remediate violations of this chapter.
- 38.15 (b) A controller must conduct and document a data privacy and protection assessment
38.16 for each of the following processing activities involving personal data:
- 38.17 (1) the processing of personal data for purposes of targeted advertising;
38.18 (2) the sale of personal data;
38.19 (3) the processing of sensitive data;
38.20 (4) any processing activities involving personal data that present a heightened risk of
38.21 harm to consumers; and
- 38.22 (5) the processing of personal data for purposes of profiling, where the profiling presents
38.23 a reasonably foreseeable risk of:
- 38.24 (i) unfair or deceptive treatment of, or disparate impact on, consumers;
38.25 (ii) financial, physical, or reputational injury to consumers;
38.26 (iii) a physical or other intrusion upon the solitude or seclusion, or the private affairs or
38.27 concerns, of consumers, where the intrusion would be offensive to a reasonable person; or
38.28 (iv) other substantial injury to consumers.

39.1 (c) A data privacy and protection assessment must take into account the type of personal
39.2 data to be processed by the controller, including the extent to which the personal data are
39.3 sensitive data, and the context in which the personal data are to be processed.

39.4 (d) A data privacy and protection assessment must identify and weigh the benefits that
39.5 may flow directly and indirectly from the processing to the controller, consumer, other
39.6 stakeholders, and the public against the potential risks to the rights of the consumer associated
39.7 with the processing, as mitigated by safeguards that can be employed by the controller to
39.8 reduce the potential risks. The use of deidentified data and the reasonable expectations of
39.9 consumers, as well as the context of the processing and the relationship between the controller
39.10 and the consumer whose personal data will be processed, must be factored into this
39.11 assessment by the controller.

39.12 (e) A data privacy and protection assessment must include the description of policies
39.13 and procedures required by paragraph (a).

39.14 (f) As part of a civil investigative demand, the attorney general may request, in writing,
39.15 that a controller disclose any data privacy and protection assessment that is relevant to an
39.16 investigation conducted by the attorney general. The controller must make a data privacy
39.17 and protection assessment available to the attorney general upon a request made under this
39.18 paragraph. The attorney general may evaluate the data privacy and protection assessments
39.19 for compliance with this chapter. Data privacy and protection assessments are classified as
39.20 nonpublic data, as defined by section 13.02, subdivision 9. The disclosure of a data privacy
39.21 and protection assessment pursuant to a request from the attorney general under this
39.22 paragraph does not constitute a waiver of the attorney-client privilege or work product
39.23 protection with respect to the assessment and any information contained in the assessment.

39.24 (g) Data privacy and protection assessments or risk assessments conducted by a controller
39.25 for the purpose of compliance with other laws or regulations may qualify under this section
39.26 if the assessments have a similar scope and effect.

39.27 (h) A single data protection assessment may address multiple sets of comparable
39.28 processing operations that include similar activities.

39.29 **Sec. 11. [3250.09] LIMITATIONS AND APPLICABILITY.**

39.30 (a) The obligations imposed on controllers or processors under this chapter do not restrict
39.31 a controller's or a processor's ability to:

40.1 (1) comply with federal, state, or local laws, rules, or regulations, including but not
40.2 limited to data retention requirements in state or federal law notwithstanding a consumer's
40.3 request to delete personal data;

40.4 (2) comply with a civil, criminal, or regulatory inquiry, investigation, subpoena, or
40.5 summons by federal, state, local, or other governmental authorities;

40.6 (3) cooperate with law enforcement agencies concerning conduct or activity that the
40.7 controller or processor reasonably and in good faith believes may violate federal, state, or
40.8 local laws, rules, or regulations;

40.9 (4) investigate, establish, exercise, prepare for, or defend legal claims;

40.10 (5) provide a product or service specifically requested by a consumer; perform a contract
40.11 to which the consumer is a party, including fulfilling the terms of a written warranty; or
40.12 take steps at the request of the consumer prior to entering into a contract;

40.13 (6) take immediate steps to protect an interest that is essential for the life or physical
40.14 safety of the consumer or of another natural person, and where the processing cannot be
40.15 manifestly based on another legal basis;

40.16 (7) prevent, detect, protect against, or respond to security incidents, identity theft, fraud,
40.17 harassment, malicious or deceptive activities, or any illegal activity; preserve the integrity
40.18 or security of systems; or investigate, report, or prosecute those responsible for any such
40.19 action;

40.20 (8) assist another controller, processor, or third party with any of the obligations under
40.21 this paragraph;

40.22 (9) engage in public or peer-reviewed scientific, historical, or statistical research in the
40.23 public interest that adheres to all other applicable ethics and privacy laws and is approved,
40.24 monitored, and governed by an institutional review board, human subjects research ethics
40.25 review board, or a similar independent oversight entity that has determined:

40.26 (i) the research is likely to provide substantial benefits that do not exclusively accrue to
40.27 the controller;

40.28 (ii) the expected benefits of the research outweigh the privacy risks; and

40.29 (iii) the controller has implemented reasonable safeguards to mitigate privacy risks
40.30 associated with research, including any risks associated with reidentification; or

40.31 (10) process personal data for the benefit of the public in the areas of public health,
40.32 community health, or population health, but only to the extent that the processing is:

41.1 (i) subject to suitable and specific measures to safeguard the rights of the consumer
41.2 whose personal data is being processed; and

41.3 (ii) under the responsibility of a professional individual who is subject to confidentiality
41.4 obligations under federal, state, or local law.

41.5 (b) The obligations imposed on controllers or processors under this chapter do not restrict
41.6 a controller's or processor's ability to collect, use, or retain data to:

41.7 (1) effectuate a product recall or identify and repair technical errors that impair existing
41.8 or intended functionality;

41.9 (2) perform internal operations that are reasonably aligned with the expectations of the
41.10 consumer based on the consumer's existing relationship with the controller, or are otherwise
41.11 compatible with processing in furtherance of the provision of a product or service specifically
41.12 requested by a consumer or the performance of a contract to which the consumer is a party;

41.13 or

41.14 (3) conduct internal research to develop, improve, or repair products, services, or
41.15 technology.

41.16 (c) The obligations imposed on controllers or processors under this chapter do not apply
41.17 where compliance by the controller or processor with this chapter would violate an
41.18 evidentiary privilege under Minnesota law and do not prevent a controller or processor from
41.19 providing personal data concerning a consumer to a person covered by an evidentiary
41.20 privilege under Minnesota law as part of a privileged communication.

41.21 (d) A controller or processor that discloses personal data to a third-party controller or
41.22 processor in compliance with the requirements of this chapter is not in violation of this
41.23 chapter if the recipient processes the personal data in violation of this chapter, provided that
41.24 at the time of disclosing the personal data, the disclosing controller or processor did not
41.25 have actual knowledge that the recipient intended to commit a violation. A third-party
41.26 controller or processor receiving personal data from a controller or processor in compliance
41.27 with the requirements of this chapter is not in violation of this chapter for the obligations
41.28 of the controller or processor from which the third-party controller or processor receives
41.29 the personal data.

41.30 (e) Obligations imposed on controllers and processors under this chapter shall not:

41.31 (1) adversely affect the rights or freedoms of any persons, including exercising the right
41.32 of free speech pursuant to the First Amendment of the United States Constitution; or

42.1 (2) apply to the processing of personal data by a natural person in the course of a purely
42.2 personal or household activity.

42.3 (f) Personal data that are processed by a controller pursuant to this section may be
42.4 processed solely to the extent that the processing is:

42.5 (1) necessary, reasonable, and proportionate to the purposes listed in this section;

42.6 (2) adequate, relevant, and limited to what is necessary in relation to the specific purpose
42.7 or purposes listed in this section; and

42.8 (3) insofar as possible, taking into account the nature and purpose of processing the
42.9 personal data, subjected to reasonable administrative, technical, and physical measures to
42.10 protect the confidentiality, integrity, and accessibility of the personal data, and to reduce
42.11 reasonably foreseeable risks of harm to consumers.

42.12 (g) If a controller processes personal data pursuant to an exemption in this section, the
42.13 controller bears the burden of demonstrating that the processing qualifies for the exemption
42.14 and complies with the requirements in paragraph (f).

42.15 (h) Processing personal data solely for the purposes expressly identified in paragraph
42.16 (a), clauses (1) to (7), does not, by itself, make an entity a controller with respect to the
42.17 processing.

42.18 Sec. 12. **[3250.10] ATTORNEY GENERAL ENFORCEMENT.**

42.19 (a) In the event that a controller or processor violates this chapter, the attorney general,
42.20 prior to filing an enforcement action under paragraph (b), must provide the controller or
42.21 processor with a warning letter identifying the specific provisions of this chapter the attorney
42.22 general alleges have been or are being violated. If, after 30 days of issuance of the warning
42.23 letter, the attorney general believes the controller or processor has failed to cure any alleged
42.24 violation, the attorney general may bring an enforcement action under paragraph (b). This
42.25 paragraph expires January 31, 2026.

42.26 (b) The attorney general may bring a civil action against a controller or processor to
42.27 enforce a provision of this chapter in accordance with section 8.31. If the state prevails in
42.28 an action to enforce this chapter, the state may, in addition to penalties provided by paragraph
42.29 (c) or other remedies provided by law, be allowed an amount determined by the court to be
42.30 the reasonable value of all or part of the state's litigation expenses incurred.

42.31 (c) Any controller or processor that violates this chapter is subject to an injunction and
42.32 liable for a civil penalty of not more than \$7,500 for each violation.

43.1 (d) Nothing in this chapter establishes a private right of action, including under section
 43.2 8.31, subdivision 3a, for a violation of this chapter or any other law.

43.3 **Sec. 13. [3250.11] PREEMPTION OF LOCAL LAW; SEVERABILITY.**

43.4 (a) This chapter supersedes and preempts laws, ordinances, regulations, or the equivalent
 43.5 adopted by any local government regarding the processing of personal data by controllers
 43.6 or processors.

43.7 (b) If any provision of this chapter or the chapter's application to any person or
 43.8 circumstance is held invalid, the remainder of the chapter or the application of the provision
 43.9 to other persons or circumstances is not affected.

43.10 **Sec. 14. EFFECTIVE DATE.**

43.11 This article is effective July 31, 2025, except that postsecondary institutions regulated
 43.12 by the Office of Higher Education are not required to comply with this article until July 31,
 43.13 2029.

112.5 (1) results in a net reduction in statewide greenhouse gas emissions, as defined in section
112.6 216H.01, subdivision 2, over the life of the equipment when compared to the most efficient
112.7 commercially available natural gas alternative; and

112.8 (2) is installed and operated in a manner that improves the load factor of the customer's
112.9 electric utility.

112.10 Strategic electrification does not include investments that the commissioner determines

- 121.27 (12) if the applicant is proposing a nonrenewable generating plant, the applicant's
121.28 assessment of the risk of environmental costs and regulation on that proposed facility over
121.29 the expected useful life of the plant, including a proposed means of allocating costs associated
121.30 with that risk.
- 121.31 **EFFECTIVE DATE.** This section is effective the day following final enactment and
121.32 applies to dockets pending at the Public Utilities Commission on or after that date.

124.11 the commission, in writing, within ~~90~~ 30 days of approval, regarding its intent to construct,
124.12 own, and maintain the electric transmission line. If an incumbent electric transmission owner
124.13 gives notice of intent to build the electric transmission line then, unless exempt from the
124.14 requirements of section 216B.243, within ~~18~~ 12 months from the date of the notice described

126.12 and that information is not essential for notice and initial public meetings.

126.13 (b) The commission's designee must determine whether an application is complete and
126.14 advise the applicant of any deficiencies within ten days of the date an application is received.

126.15 (c) An application is not incomplete if:

126.16 (1) information that is not included in the application may be obtained from the applicant
126.17 prior to the initial public meeting; and

126.18 (2) the information that is not included in the application is not essential to provide
126.19 adequate notice.

126.21 ~~commission, the applicant shall provide notice to each local unit of government within~~
126.22 ~~which a route may be proposed. The notice must describe the proposed project and the~~
126.23 ~~opportunity for a preapplication consultation meeting with local units of government as~~
126.24 ~~provided in subdivision 3b.~~

126.25 ~~Subd. 3b. **Preapplication consultation meetings.** Within 30 days of receiving a project~~
126.26 ~~notice, local units of government may request the applicant to hold a consultation meeting~~
126.27 ~~with local units of government. Upon receiving notice from a local unit of government~~
126.28 ~~requesting a preapplication consultation meeting, the applicant shall arrange the meeting at~~
126.29 ~~a location chosen by the local units of government. A single public meeting for which each~~
126.30 ~~local government unit requesting a meeting is given notice satisfies the meeting requirement~~
126.31 ~~of this subdivision.~~

126.32 Subd. 4. **Application notice.** Within 15 days after submission of an application to the
126.33 commission, the applicant shall publish notice of the application in a legal newspaper of

127.1 general circulation in each county in which the site or route is proposed and send a copy of
127.2 the application by certified mail to any regional development commission, county,
127.3 incorporated municipality, and town in which any part of the site or route is proposed.
127.4 Within the same 15 days, the applicant shall also send a notice of the submission of the
127.5 application and description of the proposed project to each owner whose property is on or
127.6 adjacent to any of the proposed sites for the power plant or along any of the proposed routes
127.7 for the transmission line. The notice must identify a location where a copy of the application
127.8 can be reviewed. For the purpose of giving mailed notice under this subdivision, owners
127.9 are those shown on the records of the county auditor or, in any county where tax statements
127.10 are mailed by the county treasurer, on the records of the county treasurer; but other
127.11 appropriate records may be used for this purpose. The failure to give mailed notice to a
127.12 property owner, or defects in the notice, does not invalidate the proceedings, provided a
127.13 bona fide attempt to comply with this subdivision has been made. Within the same 15 days,
127.14 the applicant shall also send the same notice of the submission of the application and
127.15 description of the proposed project to those persons who have requested to be placed on a
127.16 list maintained by the commission for receiving notice of proposed large electric generating
127.17 power plants and high voltage transmission lines.

127.18 **Subd. 5. Environmental review.** ~~(a) The commissioner of the Department of Commerce~~
127.19 ~~shall prepare for the commission an environmental impact statement on each proposed large~~
127.20 ~~electric power facility for which a complete application has been submitted. The~~
127.21 ~~commissioner shall not consider whether or not the project is needed. No other state~~
127.22 ~~environmental review documents shall be required. The commissioner shall study and~~
127.23 ~~evaluate any site or route proposed by an applicant and any other site or route the commission~~
127.24 ~~deems necessary that was proposed in a manner consistent with rules concerning the form,~~
127.25 ~~content, and timeliness of proposals for alternate sites or routes, excluding any alternate~~
127.26 ~~site for a solar energy generating system that was not proposed by an applicant.~~

127.27 ~~(b) For a cogeneration facility as defined in section 216H.01, subdivision 1a, that is a~~
127.28 ~~large electric power generating plant and is not proposed by a utility, the commissioner~~
127.29 ~~must make a finding in the environmental impact statement whether the project is likely to~~
127.30 ~~result in a net reduction of carbon dioxide emissions, considering both the utility providing~~
127.31 ~~electric service to the proposed cogeneration facility and any reduction in carbon dioxide~~
127.32 ~~emissions as a result of increased efficiency from the production of thermal energy on the~~
127.33 ~~part of the customer operating or owning the proposed cogeneration facility.~~

127.34 **Subd. 6. Public hearing.** The commission shall hold a public hearing on an application
127.35 for a site or route permit for a large electric power facility. All hearings held for designating

128.1 ~~a site or route shall be conducted by an administrative law judge from the Office of~~
128.2 ~~Administrative Hearings pursuant to the contested case procedures of chapter 14. Notice~~
128.3 ~~of the hearing shall be given by the commission at least ten days in advance but no earlier~~
128.4 ~~than 45 days prior to the commencement of the hearing. Notice shall be by publication in~~
128.5 ~~a legal newspaper of general circulation in the county in which the public hearing is to be~~
128.6 ~~held and by certified mail to chief executives of the regional development commissions,~~
128.7 ~~counties, organized towns, townships, and the incorporated municipalities in which a site~~
128.8 ~~or route is proposed. Any person may appear at the hearings and offer testimony and exhibits~~
128.9 ~~without the necessity of intervening as a formal party to the proceedings. The administrative~~
128.10 ~~law judge may allow any person to ask questions of other witnesses. The administrative~~
128.11 ~~law judge shall hold a portion of the hearing in the area where the power plant or transmission~~
128.12 ~~line is proposed to be located.~~

128.13 Subd. 5a. **Public meeting.** (a) Within 20 days after the date the commission determines
128.14 an application is complete, to the extent practicable, the commission must hold at least one
128.15 public meeting in a location near the proposed project's location to explain the permitting
128.16 process, present major issues, and respond to questions raised by the public.

128.17 (b) At the public meeting and in written comments that the commission must accept for
128.18 at least ten days following the date of the public meeting, members of the public may submit
128.19 comments on potential impacts, permit conditions, and alternatives the commission should
128.20 evaluate when considering the application.

128.21 Subd. 6a. **Draft permit.** Within 30 days after the date the public comment period closes
128.22 following the public hearing in section 216.035, subdivision 2, or section 216E.04,
128.23 subdivision 6, to the extent practicable, the commission must:

128.24 (1) prepare a draft site or route permit for the proposed facility. The draft permit must
128.25 identify the person or persons who are the permittee, describe the proposed project, and
128.26 include proposed permit conditions. A draft site or route permit does not authorize a person
128.27 to construct a proposed facility. The commission may change the draft site permit in any
128.28 respect before final issuance or may deny the permit; and

128.29 (2) identify any issues or alternatives that must be evaluated in an addendum to an
128.30 environmental assessment prepared under section 216E.041 or an environmental impact
128.31 statement prepared under section 216E.035.

128.32 **Subd. 7. Considerations in designating sites and routes.** (a) The commission's site
128.33 and route permit determinations must be guided by the state's goals to conserve resources,
128.34 minimize environmental impacts, minimize human settlement and other land use conflicts,

129.1 and ensure the state's electric energy security through efficient, cost-effective power supply
129.2 and electric transmission infrastructure.

129.3 (b) To facilitate the study, research, evaluation, and designation of sites and routes, the
129.4 commission shall be guided by, but not limited to, the following considerations:

129.5 (1) evaluation of research and investigations relating to the effects on land, water and
129.6 air resources of large electric power facilities and the effects of water and air discharges
129.7 and electric and magnetic fields resulting from such facilities on public health and welfare,
129.8 vegetation, animals, materials and aesthetic values, including baseline studies, predictive
129.9 modeling, and evaluation of new or improved methods for minimizing adverse impacts of
129.10 water and air discharges and other matters pertaining to the effects of power plants on the
129.11 water and air environment;

129.12 (2) environmental evaluation of sites and routes proposed for future development and
129.13 expansion and their relationship to the land, water, air and human resources of the state;

129.14 (3) evaluation of the effects of new electric power generation and transmission
129.15 technologies and systems related to power plants designed to minimize adverse environmental
129.16 effects;

129.17 (4) evaluation of the potential for beneficial uses of waste energy from proposed large
129.18 electric power generating plants;

129.19 (5) analysis of the direct and indirect economic impact of proposed sites and routes
129.20 including, but not limited to, productive agricultural land lost or impaired;

129.21 (6) evaluation of adverse direct and indirect environmental effects that cannot be avoided
129.22 should the proposed site and route be accepted;

129.23 (7) evaluation of alternatives to the applicant's proposed site or route proposed pursuant
129.24 to subdivisions 1 and 2;

129.25 (8) evaluation of potential routes that would use or parallel existing railroad and highway
129.26 rights-of-way;

129.27 (9) evaluation of governmental survey lines and other natural division lines of agricultural
129.28 land so as to minimize interference with agricultural operations;

129.29 (10) evaluation of the future needs for additional high-voltage transmission lines in the
129.30 same general area as any proposed route, and the advisability of ordering the construction
129.31 of structures capable of expansion in transmission capacity through multiple circuiting or
129.32 design modifications;

130.1 (11) evaluation of irreversible and irretrievable commitments of resources should the
130.2 proposed site or route be approved;

130.3 (12) when appropriate, consideration of problems raised by other state and federal
130.4 agencies and local entities;

130.5 (13) evaluation of the benefits of the proposed facility with respect to (i) the protection
130.6 and enhancement of environmental quality, and (ii) the reliability of state and regional
130.7 energy supplies;

130.8 (14) evaluation of the proposed facility's impact on socioeconomic factors; and

130.9 (15) evaluation of the proposed facility's employment and economic impacts in the
130.10 vicinity of the facility site and throughout Minnesota, including the quantity and quality of
130.11 construction and permanent jobs and their compensation levels. The commission must
130.12 consider a facility's local employment and economic impacts, and may reject or place
130.13 conditions on a site or route permit based on the local employment and economic impacts.

130.14 (c) If the commission's rules are substantially similar to existing regulations of a federal
130.15 agency to which the utility in the state is subject, the federal regulations must be applied by
130.16 the commission.

130.17 (d) No site or route shall be designated which violates state agency rules.

130.18 (e) The commission must make specific findings that it has considered locating a route
130.19 for a high-voltage transmission line on an existing high-voltage transmission route and the
130.20 use of parallel existing highway right-of-way and, to the extent those are not used for the
130.21 route, the commission must state the reasons.

130.22 **Subd. 8. Recording of survey points.** The permanent location of monuments or markers
130.23 found or placed by a utility in a survey of right-of-way for a route shall be placed on record
130.24 in the office of the county recorder or registrar of titles. No fee shall be charged to the utility
130.25 for recording this information.

130.26 ~~Subd. 9. **Timing.** The commission shall make a final decision on an application within~~
130.27 ~~60 days after receipt of the report of the administrative law judge. A final decision on the~~
130.28 ~~request for a site permit or route permit shall be made within one year after the commission's~~
130.29 ~~determination that an application is complete. The commission may extend this time limit~~
130.30 ~~for up to three months for just cause or upon agreement of the applicant.~~

130.31 ~~Subd. 10. **Final decision.** (a) No site permit shall be issued in violation of the site~~
130.32 ~~selection standards and criteria established in this section and in rules adopted by the~~
130.33 ~~commission. When the commission designates a site, it shall issue a site permit to the~~

131.1 ~~applicant with any appropriate conditions. The commission shall publish a notice of its~~
131.2 ~~decision in the State Register within 30 days of issuance of the site permit.~~

131.3 ~~(b) No route permit shall be issued in violation of the route selection standards and~~
131.4 ~~criteria established in this section and in rules adopted by the commission. When the~~
131.5 ~~commission designates a route, it shall issue a permit for the construction of a high-voltage~~
131.6 ~~transmission line specifying the design, routing, right-of-way preparation, and facility~~
131.7 ~~construction it deems necessary, and with any other appropriate conditions. The commission~~
131.8 ~~may order the construction of high-voltage transmission line facilities that are capable of~~
131.9 ~~expansion in transmission capacity through multiple circuiting or design modifications. The~~
131.10 ~~commission shall publish a notice of its decision in the State Register within 30 days of~~
131.11 ~~issuance of the permit.~~

131.12 ~~(e) The commission must require as a condition of permit issuance, including issuance~~
131.13 ~~of a modified permit for a repowering project, as defined in section 216B.243, subdivision~~
131.14 ~~8, paragraph (b), that the recipient of a site permit to construct a large electric power~~
131.15 ~~generating plant, including all of the permit recipient's construction contractors and~~
131.16 ~~subcontractors on the project: (1) pay no less than the prevailing wage rate, as defined in~~
131.17 ~~section 177.42; and (2) be subject to the requirements and enforcement provisions under~~
131.18 ~~sections 177.27, 177.30, 177.32, 177.41 to 177.435, and 177.45.~~

131.19 **Subd. 11. Department of Commerce to provide technical expertise and other**
131.20 **assistance.** (a) The commissioner of the Department of Commerce shall consult with other
131.21 state agencies and provide technical expertise and other assistance to the commission or to
131.22 individual members of the commission for activities and proceedings under this chapter
131.23 ~~and chapters 216F~~ and chapter 216G. This assistance shall include the sharing of power
131.24 plant siting and routing staff and other resources as necessary. The commissioner shall
131.25 periodically report to the commission concerning the Department of Commerce's costs of
131.26 providing assistance. The report shall conform to the schedule and include the required
131.27 contents specified by the commission. The commission shall include the costs of the
131.28 assistance in assessments for activities and proceedings under those sections and reimburse
131.29 the special revenue fund for those costs. If either the commissioner or the commission deems
131.30 it necessary, the department and the commission shall enter into an interagency agreement
131.31 establishing terms and conditions for the provision of assistance and sharing of resources
131.32 under this subdivision.

131.33 (b) Notwithstanding the requirements of section 216B.33, the commissioner may take
131.34 any action required or requested by the commission related to the environmental review

132.1 requirements under chapter 216E ~~or 216F~~ immediately following a hearing and vote by the
132.2 commission, prior to issuing a written order, finding, authorization, or certificate.

132.3 Subd. 12. **Prevailing wage.** The commission must require as a condition of permit
132.4 issuance, including issuance of a modified permit for a repowering project, as defined in
132.5 section 216B.243, subdivision 8, paragraph (b), that the recipient of a site permit to construct
132.6 a large electric power generating plant, including all of the permit recipient's construction
132.7 contractors and subcontractors on the project:

132.8 (1) pay no less than the prevailing wage rate, as defined in section 177.42; and

132.9 (2) is subject to the requirements and enforcement provisions under sections 177.27,
132.10 177.30, 177.32, 177.41 to 177.435, and 177.45.

132.11 Subd. 13. **Application.** This section applies to applications for a site or route permit
132.12 filed under section 216E.035 or 216E.04.

132.13 **Sec. 10. [216E.031] APPLICABILITY DETERMINATION.**

132.14 Subdivision 1. **Generally.** This section may be used to determine:

132.15 (1) whether a proposal is subject to the commission's siting or routing jurisdiction under
132.16 this chapter; or

132.17 (2) which review process is applicable at the time of the initial application.

132.18 Subd. 2. **Size determination.** An applicant must follow the provisions of section
132.19 216E.021 or 216E.022, as applicable, to determine the size of a solar energy generating
132.20 system or a wind energy conversion system. In determining the size of an energy storage
132.21 system, an applicant must combine the alternating current nameplate capacity of any other
132.22 energy storage system that:

132.23 (1) is constructed within the same 12-month period as the energy storage system; and

132.24 (2) exhibits characteristics of being a single development, including but not limited to
132.25 ownership structure, an umbrella sales arrangement, shared interconnection, revenue sharing
132.26 arrangements, and common debt or equity financing.

132.27 Subd. 3. **Transmission lines.** For transmission lines, the applicant must describe the
132.28 applicability issue and provide sufficient facts to support the determination.

132.29 Subd. 4. **Forms; assistance; written determination.** (a) The commission must provide
132.30 forms and assistance to help applicants make a request for an applicability determination.

133.1 (b) Upon written request from an applicant, the commission must provide a written
133.2 determination regarding applicability under this section. To the extent practicable, the
133.3 commission must provide the written determination within 30 days of the date the request
133.4 was received or 30 days of the date information that the commission requested from the
133.5 applicant is received, whichever is later. This written determination constitutes a final
133.6 decision of the commission.

133.7 Sec. 11. **[216E.035] APPLICATIONS; MAJOR REVIEW.**

133.8 Subdivision 1. **Environmental review.** (a) The commissioner of commerce shall prepare
133.9 for the commission an environmental impact statement on each proposed large electric
133.10 power facility for which a complete application has been submitted. The commissioner shall
133.11 not consider whether or not the project is needed. No other state environmental review
133.12 documents are required. The commissioner shall study and evaluate any site or route proposed
133.13 by an applicant and any other site or route the commission deems necessary that was proposed
133.14 in a manner consistent with rules concerning the form, content, and timeliness of proposals
133.15 for alternate sites or routes, excluding any alternate site for a solar energy generating system
133.16 that was not proposed by an applicant.

133.17 (b) For a cogeneration facility as defined in section 216H.01, subdivision 1a, that is a
133.18 large electric power generating plant and is not proposed by a utility, the commissioner
133.19 must make a finding in the environmental impact statement whether the project is likely to
133.20 result in a net reduction of carbon dioxide emissions, considering both the utility providing
133.21 electric service to the proposed cogeneration facility and any reduction in carbon dioxide
133.22 emissions as a result of increased efficiency from the production of thermal energy on the
133.23 part of the customer operating or owning the proposed cogeneration facility.

133.24 Subd. 2. **Public hearing.** (a) In addition to the public meeting required under section
133.25 216E.03, subdivision 5a, the commission shall hold a public hearing on an application for
133.26 a site or route permit for a large electric power facility. A hearing held for designating a
133.27 site or route shall be conducted by an administrative law judge from the Office of
133.28 Administrative Hearings pursuant to the contested case procedures of chapter 14 only if
133.29 commission staff determines that a disputed matter exists that may require clarification
133.30 through expert testimony. Notice of the hearing shall be given by the commission at least
133.31 ten days in advance but no earlier than 45 days prior to the commencement of the hearing.
133.32 Notice shall be by publication in a legal newspaper of general circulation in the county in
133.33 which the public hearing is to be held and by certified mail to chief executives of the regional
133.34 development commissions, Tribal governments, counties, organized towns, townships, and

134.1 the incorporated municipalities in which a site or route is proposed. Any person may appear
134.2 at the hearings and offer testimony and exhibits without the necessity of intervening as a
134.3 formal party to the proceedings. The administrative law judge may allow any person to ask
134.4 questions of other witnesses. The administrative law judge shall hold a portion of the hearing
134.5 in the area where the power plant or transmission line is proposed to be located.

134.6 (b) The commission must accept written comments submitted for at least ten days
134.7 following the hearing regarding project impacts, permit conditions, and alternatives the
134.8 commission should evaluate when considering the application.

134.9 Subd. 3. **Timing.** (a) The commission shall make a final decision on an application
134.10 within 60 days after receipt of the report of the administrative law judge, if applicable. A
134.11 final decision on the request for a site permit or route permit shall be made within one year
134.12 after the commission's determination that an application is complete. The commission may
134.13 extend the time limit under this paragraph for up to three months for just cause or upon
134.14 agreement with the applicant.

134.15 (b) To ensure that a final decision complies with the requirements of this subdivision,
134.16 the commission shall establish deadlines for the submission of comments by state agencies
134.17 on applications and environmental review documents that expedite the siting and route
134.18 permitting process.

134.19 Subd. 4. **Final decision.** (a) No site permit shall be issued by the commission: (1) in
134.20 violation of the site selection standards and criteria established in this section and in rules
134.21 adopted by the commission; or (2) if the commission determines that the proposed project
134.22 is not in the public interest. When the commission designates a site, the commission shall
134.23 issue a site permit to the applicant with any appropriate conditions. The commission shall
134.24 publish a notice of the commission's decision in the State Register within 30 days of issuance
134.25 of the site permit.

134.26 (b) No route permit shall be issued by the commission: (1) in violation of the route
134.27 selection standards and criteria established in this section and in rules adopted by the
134.28 commission; or (2) if the commission determines that the proposed project is not in the
134.29 public interest. When the commission designates a route, the commission shall issue a permit
134.30 for the construction of a high-voltage transmission line specifying the design, routing,
134.31 right-of-way preparation, and facility construction the commission deems necessary, and
134.32 with any other appropriate conditions. The commission may order the construction of
134.33 high-voltage transmission line facilities that are capable of expansion in transmission capacity
134.34 through multiple circuiting or design modifications. The commission shall publish a notice

135.1 of the commission's decision in the State Register within 30 days of issuance of the permit,
 135.2 to the extent practicable.

135.3 (c) Immediately following the commission's vote granting an applicant a site or route
 135.4 permit, and prior to issuance of a written commission order embodying that decision, the
 135.5 applicant may submit to commission staff for review preconstruction compliance filings
 135.6 specifying details of the applicant's proposed site operations.

135.7 Sec. 12. Minnesota Statutes 2022, section 216E.04, as amended by Laws 2023, chapter
 135.8 7, section 29, and Laws 2023, chapter 60, article 12, section 55, is amended to read:

135.9 **216E.04 ALTERNATIVE APPLICATIONS; STANDARD REVIEW OF**
 135.10 **APPLICATIONS.**

135.11 Subdivision 1. **Alternative Standard review.** An applicant who seeks a site permit or
 135.12 route permit for one of the projects identified in this section shall have the option of following
 135.13 the procedures in this section rather than the procedures in section ~~216E.03~~ 216E.035. The
 135.14 applicant shall notify the commission at the time the application is submitted which procedure
 135.15 the applicant chooses to follow.

135.16 Subd. 2. **Applicable projects.** The requirements and procedures in this section apply to
 135.17 the following projects, as presented in the application submitted to the commission:

135.18 (1) large electric power generating plants with a capacity of less than 80 megawatts that
 135.19 are not fueled by natural gas;

135.20 ~~(2) large electric power generating plants that are fueled by natural gas;~~

135.21 ~~(3) (2) high-voltage transmission lines of between 100 and 200 kilovolts~~ below 345
 135.22 kilovolts and less than 30 miles of length in Minnesota;

135.23 (3) high-voltage transmission lines of between 100 and 300 kilovolts of any length;

135.24 ~~(4) high-voltage transmission lines in excess of 200 kilovolts and less than 30 miles in~~
 135.25 ~~length in Minnesota;~~

135.26 ~~(5) high-voltage transmission lines in excess of 200 kilovolts if at least 80 percent of~~
 135.27 ~~the distance of the line in Minnesota will be located along existing high-voltage transmission~~
 135.28 ~~line right-of-way;~~

135.29 ~~(6) a high-voltage transmission line service extension to a single customer between 200~~
 135.30 ~~and 300 kilovolts and less than ten miles in length;~~

136.1 ~~(7)~~ (4) a high-voltage transmission line rerouting to serve the demand of a single customer
136.2 when the rerouted line will be located at least 80 percent on property owned or controlled
136.3 by the customer or the owner of the transmission line;

136.4 ~~(8)~~ (5) large electric power generating plants that are powered by solar energy; ~~and~~

136.5 (6) a wind energy conversion system of five megawatts or greater alternating current
136.6 capacity; and

136.7 ~~(9)~~ (7) energy storage systems.

136.8 Subd. 3. **Application.** The applicant for a site or route permit for any of the projects
136.9 listed in subdivision 2 who chooses to follow these procedures shall submit information as
136.10 the commission may require, but the applicant shall not be required to propose a second
136.11 site or route for the project. The applicant shall identify in the application any other sites
136.12 or routes that were rejected by the applicant and the commission may identify additional
136.13 sites or routes to consider during the processing of the application. The commission shall
136.14 determine whether an application is complete and advise the applicant of any deficiencies.

136.15 Subd. 4. **Notice of application.** Upon submission of an application under this section,
136.16 the applicant shall provide the same notice as required ~~by~~ under section 216E.03, subdivision
136.17 4.

136.19 ~~following these procedures, the commissioner of the Department of Commerce~~ The applicant
136.20 shall prepare for the commission an environmental assessment for projects identified in
136.21 subdivision 2 that follows the procedures in section 216E.041. ~~The environmental assessment~~
136.22 ~~shall contain information on the human and environmental impacts of the proposed project~~
136.23 ~~and other sites or routes identified by the commission and shall address mitigating measures~~
136.24 ~~for all of the sites or routes considered. The environmental assessment shall be the only~~
136.25 ~~state environmental review document required to be prepared on the project.~~

136.26 Subd. 6. **Public hearing.** (a) In addition to the public meeting required under section
136.27 216E.03, subdivision 5a, the commission shall hold a public hearing in the area where the
136.28 facility is proposed to be located. The commission shall give notice of the public hearing
136.29 in the same manner as notice under section 216E.03, subdivision 6 216E.035, subdivision
136.30 2. The commission shall conduct the public hearing under procedures established by the
136.31 commission. The applicant shall be present at the hearing to present evidence and to answer
136.32 questions. The commission shall provide opportunity at the public hearing for any person
136.33 to present comments and to ask questions of the applicant and commission staff. The

137.1 commission shall also afford interested persons an opportunity to submit written comments
137.2 into the record.

137.3 (b) The commission must accept written comments submitted for at least ten days
137.4 following the hearing regarding project impact, permit conditions, and alternatives the
137.5 commission should evaluate when considering the application.

137.6 Subd. 7. **Timing.** (a) The commission shall make a final decision on an application
137.7 within 60 days after completion of the public hearing. A final decision on the request for a
137.8 site permit or route permit under this section shall be made within six months after the
137.9 commission's determination that an application is complete. The commission may extend
137.10 this time limit for up to three months for just cause or upon agreement of the applicant.

137.11 (b) To ensure that a final decision complies with the requirements of this subdivision,
137.12 the commission shall establish deadlines for the submission of comments by state agencies
137.13 on applications and environmental review documents that expedite the siting and route
137.14 permitting process.

137.15 ~~Subd. 8. **Considerations.** The considerations in section 216E.03, subdivision 7, shall~~
137.16 ~~apply to any projects subject to this section.~~

137.17 Subd. 9. **Final decision.** (a) No site permit shall be issued by the commission: (1) in
137.18 violation of the site selection standards and criteria established in this section and in rules
137.19 adopted by the commission; or (2) if the commission determines that the proposed project
137.20 is not in the public interest. When the commission designates a site, it shall issue a site
137.21 permit to the applicant with any appropriate conditions. The commission shall publish a
137.22 notice of its decision in the State Register within 30 days of issuance of the site permit.

137.23 (b) No route ~~designation shall be made~~ shall be issued: (1) in violation of the route
137.24 selection standards and criteria established in this section and in rules adopted by the
137.25 commission; or (2) if the commission determines that the proposed project is not in the
137.26 public interest. When the commission designates a route, it shall issue a permit for the
137.27 construction of a high-voltage transmission line specifying the design, routing, right-of-way
137.28 preparation, and facility construction it deems necessary and with any other appropriate
137.29 conditions. The commission may order the construction of high-voltage transmission line
137.30 facilities that are capable of expansion in transmission capacity through multiple circuiting
137.31 or design modifications. The commission shall publish a notice of its decision in the State
137.32 Register within 30 days of issuance of the permit.

137.33 (c) Immediately following the commission's vote granting an applicant a site or route
137.34 permit, and prior to issuance of a written commission order embodying the decision, the

138.1 applicant may submit to commission staff for review preconstruction compliance filings
138.2 specifying details of the applicant's proposed site operations.

138.3 **Sec. 13. [216E.041] ENVIRONMENTAL ASSESSMENT PREPARATION.**

138.4 **Subdivision 1. Definitions.** (a) For the purposes of this section, the following terms have
138.5 the meanings given.

138.6 (b) "Commissioner" means the commissioner of commerce.

138.7 (c) "General list" means a list maintained by the commission of persons who request to
138.8 be notified of the acceptance of applications for site permits or route permits.

138.9 (d) "Project contact list" means a list maintained by the commission of persons who
138.10 request to receive notices regarding a specific project for which a site permit or route permit
138.11 is sought.

138.12 **Subd. 2. Environmental assessment; content.** The applicant shall prepare and submit
138.13 with the permit application an environmental assessment on each proposed project being
138.14 reviewed under section 216E.04. The environmental assessment must contain, at a minimum:

138.15 (1) a general description of the proposed facility;

138.16 (2) a list of any alternative sites or routes that were considered and rejected by the
138.17 applicant;

138.18 (3) a discussion of the potential impacts of the proposed project and each alternative site
138.19 or route on the human and natural environment;

138.20 (4) a discussion of mitigative measures that could reasonably be implemented to eliminate
138.21 or minimize any adverse impacts identified for the proposed project and each alternative
138.22 site or route analyzed;

138.23 (5) an analysis of the feasibility of each alternative site or route considered; and

138.24 (6) a list of permits required for the project.

138.25 **Subd. 3. Environmental assessment; notification of availability.** Upon receipt of the
138.26 environmental assessment from the applicant, the commissioner shall publish notice in the
138.27 EQB Monitor of the availability of the environmental assessment and mail notice of the
138.28 availability of the document to those persons on the general list or the project contact list.
138.29 The commissioner shall provide a copy of the environmental assessment to any public
138.30 agency with authority to permit or approve the proposed project. The commissioner shall
138.31 post the environmental assessment on the agency's web page.

139.1 Subd. 4. **Environmental assessment; comments; addendum.** (a) The commissioner
139.2 shall provide the public with an opportunity to comment on the environmental assessment
139.3 by holding a public meeting and by soliciting public comments. The commissioner shall
139.4 mail notice of the meeting to those persons on either the general list or the project contact
139.5 list at least ten days before the meeting. The commissioner shall provide at least seven days
139.6 from the date of the public meeting for the public to submit comments on the environmental
139.7 assessment.

139.8 (b) Any person or any member agency of the Environmental Quality Board may, at the
139.9 public meeting or in written comments submitted to the commissioner, request that the
139.10 Department of Commerce analyze any of the following issues in an addendum to the
139.11 environmental assessment:

139.12 (1) one or more alternative sites or routes;

139.13 (2) additional mitigation measures for environmental impacts identified in the
139.14 environmental assessment; or

139.15 (3) specific human or environmental impacts that were not addressed or not addressed
139.16 adequately in the environmental assessment.

139.17 (c) A person requesting additional environmental analysis in an addendum under
139.18 paragraph (b) must submit to the commissioner (1) an explanation of why the request should
139.19 be accepted, and (2) all supporting information the person wants the commissioner to
139.20 consider. The commissioner shall provide the applicant with an opportunity to respond to
139.21 each request. The commissioner shall prepare an addendum in response to a request, or at
139.22 the commissioner's own discretion, only if the commissioner determines that the additional
139.23 analysis assists the commission's ultimate decision on the permit application, including the
139.24 establishment of permit conditions.

139.25 (d) In making the commission's final decision, the commission must consider the
139.26 environmental assessment, the addendum to the environmental assessment, if any, comments
139.27 received at or after the public meeting, and the entirety of the record on environmental and
139.28 human health impacts.

139.29 (e) The commissioner shall follow the notification procedures established for an
139.30 environmental assessment in subdivision 3 with respect to an addendum prepared under
139.31 subdivision 4.

139.32 Subd. 5. **Matters excluded.** If the commission has issued a certificate of need to an
139.33 applicant for a large electric power generating plant or high-voltage transmission line or

140.1 placed a high-voltage transmission line on the certified project list maintained by the
140.2 commission under section 216B.2425, subdivision 3, the environmental assessment of the
140.3 project shall not address (1) questions of need, including size, type, and timing; (2) questions
140.4 of alternative system configurations; or (3) questions of voltage.

140.5 Subd. 6. **No additional environmental review.** An environmental assessment and
140.6 addendum, if prepared, must be the only state environmental review documents required
140.7 to be prepared by the commissioner on a project qualifying for review under section 216E.04.
140.8 An environmental assessment worksheet or environmental impact statement is not required.
140.9 Environmental review at the certificate of need stage before the commission must be
140.10 performed in accordance with Minnesota Rules, parts 7849.1000 to 7849.2100.

140.11 Subd. 7. **Cost.** The commissioner shall assess the department's cost to prepare an
140.12 addendum to an environmental assessment to the applicant.

140.13 **Sec. 14. [216E.042] PERMIT AMENDMENTS.**

140.14 Subdivision 1. **Applicability.** (a) This section applies to a request by the owner of a
140.15 large electric power facility to modify any provision or condition of a site or route permit
140.16 issued by the commission, including permit amendments to:

140.17 (1) upgrade or rebuild an existing electric line and associated facilities to a voltage
140.18 capable of operating between 100 kilovolts and 300 kilovolts; or

140.19 (2) repower or refurbish a large electric power generating plant, a large wind energy
140.20 conversion system, a solar energy generating system, or an energy storage system that
140.21 increases the efficiency of the facility. For a large electric power generating plant, an increase
140.22 in efficiency means a reduction in the amount of British thermal units required to generate
140.23 a kilowatt hour of electricity at the facility.

140.24 (b) A permit amendment must not be approved under this section if the permit
140.25 amendment:

140.26 (1) results in significant changes in the environmental or human health impacts of the
140.27 facility;

140.28 (2) increases the developed area within the permitted site; or

140.29 (3) increases the facility's nameplate capacity above the nameplate capacity in the facility's
140.30 most recent interconnection agreement.

141.1 Subd. 2. **Application.** A person seeking a permit amendment under this section must
141.2 submit an application in writing to the commissioner on a form prescribed by the
141.3 commissioner. The application must describe:

141.4 (1) the permit modification sought;

141.5 (2) how the request meets the applicability criteria under subdivision 1; and

141.6 (3) any changes in environmental or health impacts that would result from implementation
141.7 of the amendment that were not addressed in the environmental document accompanying
141.8 the initial permit application.

141.9 Subd. 3. **Notice.** The commission must provide notice that the application was received
141.10 to persons on the general list and, if applicable, to persons on the project contact list.

141.11 Subd. 4. **Public comment.** The commission must accept written comments on the
141.12 application and requests to bring the amendment to the commission for consideration for
141.13 at least ten days following service of notice. The applicant must respond to comments within
141.14 seven days of the close of the comment period.

141.15 Subd. 5. **Timing.** Within 20 days of the date the public comment period closes, the
141.16 commission's designee must decide whether to authorize the permit amendment, bring the
141.17 matter to the commission for consideration, or determine that the application requires a
141.18 permitting decision under another section in this chapter.

141.19 Subd. 6. **Decision.** The commission may approve an amendment that places reasonable
141.20 conditions on the permittee. The commission must notify the applicant in writing of the
141.21 commission's decision and send a copy of the decision to any person who requested
141.22 notification or filed comments on the application.

141.23 Subd. 7. **Local review.** An owner or operator of a large electric power generating plant
141.24 or high-voltage transmission line that was not issued a permit by the commission may seek
141.25 approval to modify a project listed under subdivision 1, clause (1) or (2), from the local unit
141.26 of government if the facility qualifies for standard review under section 216E.04 or local
141.27 review under section 216E.05.

141.28 Sec. 15. **[216E.051] EXEMPT PROJECTS.**

141.29 Subdivision 1. **Permit not required.** A permit issued by the commission is not required
141.30 to construct:

141.31 (1) a small wind energy conversion system;

141.32 (2) a power plant or solar generating system with a capacity of less than 50 megawatts;

142.1 (3) an energy storage system with a capacity of less than ten megawatts;

142.2 (4) a transmission line that (i) has a capacity of 100 kilovolts or more, and (ii) is less
142.3 than 1,500 feet in length; or

142.4 (5) a transmission line that has a capacity of less than 100 kilovolts.

142.5 Subd. 2. **Other approval.** A person that proposes a facility listed in subdivision 1 must
142.6 (1) obtain any approval required by local, state, or federal units of government with
142.7 jurisdiction over the project, and (2) comply with the environmental review requirements
142.8 under chapter 116D and Minnesota Rules, chapter 4410.

142.9 Sec. 16. **[216E.055] COST AND ECONOMIC IMPACT REVIEW.**

142.10 Subdivision 1. **Applicability.** If a project proposed by a public utility applying for a site
142.11 or route permit under this chapter was not required to obtain a certificate of need under
142.12 section 216B.243, the commission must review the proposed cost of the project and the
142.13 project's estimated economic impact on Minnesota ratepayers. The commission may reject
142.14 a site or route permit application based solely on project costs that the commission determines
142.15 are not reasonable and prudent.

142.16 Subd. 2. **Review content.** In determining a proposed facility's cost and economic impact,
142.17 the commission must analyze and consider the following:

142.18 (1) the construction cost of the proposed facility and the cost of the energy the proposed
142.19 facility generates, compared to the costs of reasonable alternatives;

142.20 (2) the economic impact of the proposed facility, or a suitable modification of the
142.21 proposed facility, compared to:

142.22 (i) the impact of reasonable alternatives; and

142.23 (ii) not building the facility; and

142.24 (3) the cost and economic impact of the proposed facility compared with similar facilities
142.25 located elsewhere.

142.26 **EFFECTIVE DATE.** This section is effective the day following final enactment and
142.27 applies to any site or route permit filed by the commission on or after that date.

143.1 Sec. 17. Minnesota Statutes 2023 Supplement, section 216E.10, subdivision 3, is amended
143.2 to read:

143.3 Subd. 3. **State agency participation.** (a) State agencies authorized to issue permits
143.4 required for construction or operation of large electric power facilities shall participate
143.5 during routing and siting at public hearings and all other activities of the commission on
143.6 specific site or route designations and design considerations of the commission, and shall
143.7 clearly state whether the site or route being considered for designation or permit and other
143.8 design matters under consideration for approval will be in compliance with state agency
143.9 standards, rules, or policies.

143.10 (b) An applicant for a permit under this section or under chapter 216G shall notify the
143.11 commissioner of agriculture if the proposed project will impact cultivated agricultural land,
143.12 as that term is defined in section 216G.01, subdivision 4. The commissioner may participate
143.13 and advise the commission as to whether to grant a permit for the project and the best options
143.14 for mitigating adverse impacts to agricultural lands if the permit is granted. The Department
143.15 of Agriculture shall be the lead agency on the development of any agricultural mitigation
143.16 plan required for the project.

143.17 (c) The State Historic Preservation Office must comply with the requirements of this
143.18 section. The commission's consideration of the State Historic Preservation Office's comments
143.19 satisfies the requirements of section 138.665, when applicable.

143.20 Sec. 18. Minnesota Statutes 2022, section 216F.02, is amended to read:

143.21 **216F.02 EXEMPTIONS.**

143.22 ~~(a) The requirements of chapter 216E do not apply to the siting of LWECs, except for~~
143.23 ~~sections 216E.01; 216E.03, subdivision 7; 216E.08; 216E.11; 216E.12; 216E.14; 216E.15;~~
143.24 ~~216E.17; and 216E.18, subdivision 3, which do apply.~~

143.25 ~~(b)~~ (a) Any person may construct an SWECS without complying with chapter 216E or
143.26 this chapter.

143.27 ~~(c)~~ (b) Nothing in this chapter shall preclude a local governmental unit from establishing
143.28 requirements for the siting and construction of SWECS.

143.29 Sec. 19. **GRID ENHANCING TECHNOLOGIES REPORT; PUBLIC UTILITIES**
143.30 **COMMISSION ORDER.**

143.31 Subdivision 1. Definitions. (a) For the purposes of this section, the following terms have
143.32 the meanings given.

144.1 (b) "Capacity" means the maximum amount of electricity that can flow through a
144.2 transmission line while observing industry safety standards.

144.3 (c) "Congestion" means a condition in which a lack of transmission line capacity prevents
144.4 the delivery of the lowest-cost electricity dispatched to meet load at a specific location.

144.5 (d) "Dynamic line rating" means hardware or software used to calculate the thermal
144.6 limit of existing transmission lines at a specific point in time by incorporating information
144.7 on real-time and forecasted weather conditions.

144.8 (e) "Grid enhancing technology" means hardware or software that reduces congestion
144.9 or enhances the flexibility of the transmission system by increasing the capacity of a
144.10 high-voltage transmission line or rerouting electricity from overloaded to uncongested lines,
144.11 while maintaining industry safety standards. Grid enhancing technologies include but are
144.12 not limited to dynamic line rating, advanced power flow controllers, and topology
144.13 optimization.

144.14 (f) "Line rating methodology" means a methodology used to calculate the maximum
144.15 amount of electricity that can be carried by a transmission line without exceeding thermal
144.16 limits designed to ensure safety.

144.17 (g) "Power flow controller" means hardware and software used to reroute electricity
144.18 from overloaded transmission lines to underutilized transmission lines.

144.19 (h) "Thermal limit" means the temperature a transmission line reaches when heat from
144.20 the electric current flow within the transmission line causes excessive sagging of the
144.21 transmission line.

144.22 (i) "Topology optimization" means a software technology that uses mathematical models
144.23 to identify reconfigurations in the transmission grid in order to reroute electricity from
144.24 overloaded transmission lines to underutilized transmission lines.

144.25 (j) "Transmission line" has the meaning given to "high-voltage transmission line" in
144.26 section 216E.01, subdivision 4.

144.27 (k) "Transmission system" means a network of high-voltage transmission lines owned
144.28 or operated by an entity subject to this section that transports electricity to Minnesota
144.29 customers.

144.30 Subd. 2. **Report; content.** An entity that owns more than 750 miles of transmission
144.31 lines in Minnesota, as reported in the state transmission report submitted to the Public
144.32 Utilities Commission under Minnesota Statutes, section 216B.2425, by November 1, 2025,
144.33 must include in that report information that:

145.1 (1) identifies, during each of the last three years, locations that experienced 168 hours
145.2 or more of congestion, or the ten locations at which the most costly congestion occurred,
145.3 whichever measure produces the greater number of locations;

145.4 (2) estimates the frequency of congestion at each location and the increased cost to
145.5 ratepayers resulting from the substitution of higher-priced electricity;

145.6 (3) identifies locations on each transmission system that are likely to experience high
145.7 levels of congestion during the next five years;

145.8 (4) evaluates the technical feasibility and estimates the cost of installing one or more
145.9 grid enhancing technologies to address each instance of grid congestion identified in clause
145.10 (1), and projects the grid enhancing technology's efficacy in reducing congestion;

145.11 (5) analyzes the cost-effectiveness of installing grid enhancing technologies to address
145.12 each instance of congestion identified in clause (1) by using the information developed in
145.13 clause (2) to calculate the payback period of each installation, using a methodology developed
145.14 by the commission;

145.15 (6) proposes an implementation plan, including a schedule and cost estimate, to install
145.16 grid enhancing technologies at each congestion point identified in clause (1) at which the
145.17 payback period is less than or equal to a value determined by the commission, in order to
145.18 maximize transmission system capacity; and

145.19 (7) explains the transmission owner's current line rating methodology.

145.20 Subd. 3. **Commission review; order.** (a) The commission shall review the
145.21 implementation plans proposed by each reporting entity as required in subdivision 2, clause
145.22 (6), and must:

145.23 (1) review, and may approve, reject, or modify, the plan; and

145.24 (2) issue an order requiring implementation of an approved plan.

145.25 (b) Within 90 days of the commission's issuance of an order under this subdivision each
145.26 public utility shall file with the commission a plan containing a workplan, cost estimate,
145.27 and schedule for implementing the elements of the plan approved by the commission that
145.28 are located within the public utility's electric service area. For each entity required to report
145.29 under this section that is not a public utility, the commission's order is advisory.

145.30 Subd. 4. **Cost recovery.** Notwithstanding any other provision of this chapter, the
145.31 commission may approve cost recovery under Minnesota Statutes, section 216B.16, including
145.32 an appropriate rate of return, of any prudent and reasonable investments made or expenses

146.1 incurred by a public utility to administer and implement a grid enhancing technologies plan
 146.2 approved by the commission under this section.

146.3 **EFFECTIVE DATE.** This section is effective the day following final enactment.

146.4 Sec. 20. **REVISOR INSTRUCTION.**

146.5 The revisor of statutes shall renumber each section of Minnesota Statutes listed in column
 146.6 A with the number listed in column B. The revisor shall also make necessary cross-reference
 146.7 changes consistent with the renumbering.

146.29 Subd. 7b. **Transmission cost adjustment.** (a) Notwithstanding any other provision of
 146.30 this chapter, the commission may approve a tariff mechanism for the automatic annual
 146.31 adjustment of charges for the Minnesota jurisdictional costs net of associated revenues of:

147.1 (1) new transmission facilities that have been separately filed and reviewed and approved
147.2 by the commission under section 216B.243 or new transmission or distribution facilities
147.3 that are certified as a priority project or deemed to be a priority transmission project under
147.4 section 216B.2425;

147.5 (2) new transmission facilities approved by the regulatory commission of the state in
147.6 which the new transmission facilities are to be constructed, to the extent approval is required
147.7 by the laws of that state, and determined by the Midcontinent Independent System Operator
147.8 to benefit the utility or integrated transmission system; and

147.9 (3) charges incurred by a utility under a federally approved tariff that accrue from other
147.10 transmission owners' regionally planned transmission projects that have been determined
147.11 by the Midcontinent Independent System Operator to benefit the utility or integrated
147.12 transmission system.

147.13 (b) Upon filing by a public utility or utilities providing transmission service, the
147.14 commission may approve, reject, or modify, after notice and comment, a tariff that:

147.15 (1) allows the utility to recover on a timely basis the costs net of revenues of facilities
147.16 approved under section 216B.243 or certified or deemed to be certified under section
147.17 216B.2425 or exempt from the requirements of section 216B.243;

147.18 (2) allows the utility to recover charges incurred under a federally approved tariff that
147.19 accrue from other transmission owners' regionally planned transmission projects that have
147.20 been determined by the Midcontinent Independent System Operator to benefit the utility or
147.21 integrated transmission system. These charges must be reduced or offset by revenues received
147.22 by the utility and by amounts the utility charges to other regional transmission owners, to
147.23 the extent those revenues and charges have not been otherwise offset;

147.24 (3) allows the utility to recover on a timely basis the costs net of revenues of facilities
147.25 approved by the regulatory commission of the state in which the new transmission facilities
147.26 are to be constructed and determined by the Midcontinent Independent System Operator to
147.27 benefit the utility or integrated transmission system;

147.28 (4) allows the utility to recover costs associated with distribution planning required under
147.29 section 216B.2425;

147.30 (5) allows the utility to recover costs associated with investments in distribution facilities
147.31 to modernize the utility's grid that have been certified by the commission under section
147.32 216B.2425;

148.1 (6) allows the utility to recover on a timely basis the costs of upgrades to distribution
148.2 facilities that are not allocated to participating owners of distributed generation facilities
148.3 under the cost-sharing interconnection process established by the commission order required
148.4 under section 3 of this article;

148.5 (7) allows a return on investment at the level approved in the utility's last general rate
148.6 case, unless a different return is found to be consistent with the public interest;

148.7 ~~(7)~~ (8) provides a current return on construction work in progress, provided that recovery
148.8 from Minnesota retail customers for the allowance for funds used during construction is
148.9 not sought through any other mechanism;

148.10 ~~(8)~~ (9) allows for recovery of other expenses if shown to promote a least-cost project
148.11 option or is otherwise in the public interest;

148.12 ~~(9)~~ (10) allocates project costs appropriately between wholesale and retail customers;

148.13 ~~(10)~~ (11) provides a mechanism for recovery above cost, if necessary to improve the
148.14 overall economics of the project or projects or is otherwise in the public interest; and

148.15 ~~(11)~~ (12) terminates recovery once costs have been fully recovered or have otherwise
148.16 been reflected in the utility's general rates.

148.17 (c) A public utility may file annual rate adjustments to be applied to customer bills paid
148.18 under the tariff approved in paragraph (b). In its filing, the public utility shall provide:

148.19 (1) a description of and context for the facilities included for recovery;

148.20 (2) a schedule for implementation of applicable projects;

148.21 (3) the utility's costs for these projects;

148.22 (4) a description of the utility's efforts to ensure the lowest costs to ratepayers for the
148.23 project; and

148.24 (5) calculations to establish that the rate adjustment is consistent with the terms of the
148.25 tariff established in paragraph (b).

148.26 (d) Upon receiving a filing for a rate adjustment pursuant to the tariff established in
148.27 paragraph (b), the commission shall approve the annual rate adjustments provided that, after
148.28 notice and comment, the costs included for recovery through the tariff were or are expected
148.29 to be prudently incurred and achieve transmission system improvements at the lowest
148.30 feasible and prudent cost to ratepayers.

149.1 Sec. 2. [216C.48] STANDARDIZED SOLAR PLAN REVIEW SOFTWARE;
149.2 TECHNICAL ASSISTANCE; FINANCIAL INCENTIVE.

149.3 Subdivision 1. Definitions. (a) For the purposes of this section, the following terms have
149.4 the meanings given.

149.5 (b) "Energy storage system" has the meaning given in section 216B.2422, subdivision
149.6 1.

149.7 (c) "Permitting authority" means a unit of local government in Minnesota that has
149.8 authority to review and issue permits to install residential solar projects and solar plus energy
149.9 storage system projects within the unit of local government's jurisdiction.

149.10 (d) "Photovoltaic device" has the meaning given in section 216C.06, subdivision 16.

149.11 (e) "Residential solar project" means the installation of a photovoltaic device at a
149.12 residence located in Minnesota.

149.13 (f) "SolarAPP+" means the most recent version of the Solar Automated Permit Processing
149.14 Plus software, developed by the National Renewable Energy Laboratory and available free
149.15 to permitting authorities from the United States Department of Energy, that uses a web-based
149.16 portal to automate the solar project plan review and permit issuance processes for residential
149.17 solar projects that are compliant with applicable building and electrical codes.

149.18 (g) "Solar plus energy storage system project" means a residential solar project installed
149.19 in conjunction with an energy storage system at the same residence.

149.20 Subd. 2. Program establishment. A program is established in the department to provide
149.21 technical assistance and financial incentives to local units of government that issue permits
149.22 for residential solar projects and solar plus energy storage system projects in order to
149.23 incentivize a permitting authority to adopt the SolarAPP+ software to standardize, automate,
149.24 and streamline the review and permitting process.

149.25 Subd. 3. Eligibility. An incentive may be awarded under this section to a permitting
149.26 authority that has deployed SolarAPP+ and made SolarAPP+ available on the permitting
149.27 authority's website.

149.28 Subd. 4. Application. (a) A permitting authority must submit an application for a financial
149.29 incentive under this section to the commissioner on a form developed by the commissioner.

149.30 (b) An application may be submitted for a financial incentive under this section after
149.31 SolarAPP+ has become operational in the permitting authority's jurisdiction.

150.1 Subd. 5. **Review and grant award process.** The commissioner must develop
150.2 administrative procedures to govern the application review and incentive award process
150.3 under this section.

150.4 Subd. 6. **Incentive awards.** Beginning no later than March 1, 2025, the commissioner
150.5 may award a financial incentive to a permitting authority under this section only if the
150.6 commissioner has determined that the permitting authority meets verification requirements
150.7 established by the commissioner that ensure a permitting authority has made SolarAPP+
150.8 operational within the permitting authority's jurisdiction and that SolarAPP+ is available
150.9 on the permitting authority's website.

150.10 Subd. 7. **Incentive amount.** (a) An incentive awarded under this section must be no less
150.11 than \$5,000 and no greater than \$20,000.

150.12 (b) The commissioner may vary the amount of an incentive awarded under this section
150.13 by considering the following factors:

150.14 (1) the population of the permitting authority;

150.15 (2) the number of permits for solar projects issued by the permitting authority using
150.16 conventional review processes;

150.17 (3) whether the SolarAPP+ software has been adopted on a stand-alone basis or has been
150.18 integrated with other permit management software utilized by the permitting authority; and

150.19 (4) whether the permitting jurisdiction has participated in other sustainability programs,
150.20 including but not limited to GreenStep Cities and the United States Department of Energy's
150.21 SolSmart and Charging Smart programs.

150.22 Subd. 8. **Technical assistance.** The department must provide technical assistance to
150.23 eligible permitting authorities seeking to apply for an incentive under this section.

150.24 Subd. 9. **Program promotion.** The department must develop an education and outreach
150.25 program to make permitting authorities aware of the incentive offered under this section,
150.26 including by convening workshops, producing educational materials, and using other
150.27 mechanisms to promote the program, including but not limited to utilizing the efforts of the
150.28 League of Minnesota Cities, the Association of Minnesota Counties, the Community Energy
150.29 Resource Teams established under section 216C.385, and similar organizations to reach
150.30 permitting authorities.

150.31 Subd. 10. **Account established.** (a) The SolarAPP+ program account is established in
150.32 the special revenue account in the state treasury. The commissioner must credit to the account
150.33 appropriations and transfers to the account. Earnings, including interest, dividends, and any

151.1 other earnings arising from assets of the account, must be credited to the account. Money
151.2 remaining in the account at the end of a fiscal year does not cancel to the general fund but
151.3 remains in the account until June 30, 2028. The commissioner must manage the account.

151.4 (b) Money in the account is appropriated to the commissioner for the purposes of this
151.5 section and to reimburse the reasonable costs incurred by the department to administer this
151.6 section.

151.7 **Sec. 3. INTERCONNECTION DOCKET; PUBLIC UTILITIES COMMISSION.**

151.8 (a) No later than September 1, 2024, the commission must initiate a proceeding to
151.9 establish by order generic standards for the sharing of utility costs necessary to upgrade a
151.10 utility's distribution system by increasing hosting capacity or applying other necessary
151.11 distribution system upgrades at a congested or constrained location in order to allow for the
151.12 interconnection of distributed generation facilities at the congested or constrained location
151.13 and to advance the achievement of the state's renewable and carbon-free energy goals in
151.14 Minnesota Statutes, section 216B.1691 and greenhouse gas emissions reduction goals in
151.15 Minnesota Statutes, section 216H.02. The tariff standards must reflect an interconnection
151.16 process designed to, at a minimum:

151.17 (1) accelerate the expansion of hosting capacity at multiple points on a utility's distribution
151.18 system by ensuring that the cost of upgrades is shared fairly among owners of distributed
151.19 generation projects seeking interconnection on a pro rata basis according to the amount of
151.20 the expanded capacity utilized by each interconnected distributed generation facility;

151.21 (2) reduce the capital burden on owners of trigger projects seeking interconnection;

151.22 (3) establish a minimum level of upgrade costs an expansion of hosting capacity must
151.23 reach in order to be eligible to participate in the cost-share process and below which a trigger
151.24 project must bear the full cost of the upgrade;

151.25 (4) establish a distributed generation facility's pro rata cost-share amount as the utility's
151.26 total cost of the upgrade divided by the incremental capacity resulting from the upgrade,
151.27 and multiplying the result by the nameplate capacity of the distributed generation facility
151.28 seeking interconnection;

151.29 (5) establish a minimum proportion of the total upgrade cost that a utility must receive
151.30 from one or more distributed generation facilities before initiating constructing an upgrade;

151.31 (6) allow trigger projects and any other distributed generation facilities to pay a utility
151.32 more than the trigger project's or distributed generation facility's pro rata cost-share amount
151.33 only if needed to meet the minimum threshold established in clause (6) and to receive refunds

152.1 for amounts paid beyond the trigger project's or distributed generation facility's pro rata
152.2 share of expansion costs from distributed generation projects that subsequently interconnect
152.3 at the applicable location;

152.4 (7) prohibit owners of distributed generation facilities from using any unsubscribed
152.5 capacity at an interconnection that has undergone an upgrade without the distributed
152.6 generation owners paying the distributed generation owner's pro rata cost of the upgrade;
152.7 and

152.8 (8) establish an annual limit or a formula for determining an annual limit for the total
152.9 cost of upgrades that are not allocated to owners of participating generation facilities and
152.10 may be recovered from ratepayers under section 216B.16, subdivision 7b, clause (6).

152.11 (b) For the purposes of this section, the following terms have the meanings given:

152.12 (1) "distributed generation project" means an energy generating system with a capacity
152.13 no greater than ten megawatts;

152.14 (2) "hosting capacity" means the maximum capacity of a utility distribution system to
152.15 transport electricity at a specific location without compromising the safety or reliability of
152.16 the distribution system;

152.17 (3) "trigger project" means the initial distributed generation project whose application
152.18 for interconnection of a distributed generation project alerts a utility that an upgrade is
152.19 needed in order to accommodate the trigger project and any future interconnections at the
152.20 applicable location;

152.21 (4) "upgrade" means a modification of a utility's distribution system at a specific location
152.22 that is necessary to allow the interconnection of distributed generation projects by increasing
152.23 hosting capacity at the applicable location, including but not limited to installing or modifying
152.24 equipment at a substation or along a distribution line. Upgrade does not mean an expansion
152.25 of hosting capacity dedicated solely to the interconnection of a single distributed generation
152.26 project; and

152.27 (5) "utility" means a public utility, as defined in Minnesota Statutes, section 216B.02,
152.28 subdivision 4, that provides electric service.

152.29 **EFFECTIVE DATE.** This section is effective the day following final enactment.

152.30 Sec. 4. **POSITION ESTABLISHED; PUBLIC UTILITIES COMMISSION.**

152.31 Subdivision 1. **Position; duties.** (a) The Public Utilities Commission's Consumer Affairs
152.32 Office must establish a new full-time equivalent interconnection ombudsperson position to

153.1 assist applicants seeking to interconnect distributed generation projects to utility distribution
153.2 systems under the generic statewide standards developed by the commission under section
153.3 2. The Public Utilities Commission must (1) appoint a person to the position who possesses
153.4 mediation skills and technical expertise related to interconnection and interconnection
153.5 procedures, and (2) authorize the person to request and review all interconnection data from
153.6 utilities and applicants that are necessary to fulfill the duties of the position described in
153.7 this subdivision.

153.8 (b) The duties of the interconnection ombudsperson include but are not limited to:

153.9 (1) tracking interconnection disputes between applicants and utilities;

153.10 (2) facilitating the efficient and fair resolution of disputes between customers seeking
153.11 to interconnect and utilities;

153.12 (3) reviewing utility interconnection policies to assess opportunities to reduce
153.13 interconnection disputes, while considering the equitable distribution of distributed generation
153.14 facilities;

153.15 (4) convening stakeholder groups as necessary to facilitate effective communication
153.16 among interconnection stakeholders; and

153.17 (5) preparing reports that detail the number, type, resolution timelines, and outcome of
153.18 interconnection disputes.

153.19 (c) A utility must provide information requested under this section that the interconnection
153.20 ombudsperson determines is necessary to effectively carry out the duties of the position.

153.21 Subd. 2. **Definition.** For the purposes of this section, "utility" means a public utility, as
153.22 defined in Minnesota Statutes, section 216B.02, subdivision 4, that provides electric service.

153.23 Subd. 3. **Position; funding.** (a) A utility must assess and collect a surcharge of \$50 on
153.24 each application interconnection filed by an owner of a distributed generation facility located
153.25 in Minnesota. A utility must remit the full surcharge to the Public Utilities Commission
153.26 monthly, in a manner determined by the Public Utilities Commission, for each interconnection
153.27 application filed with the utility during the previous month.

153.28 (b) The interconnection ombudsperson account is established in the special revenue
153.29 account in the state treasury. The Public Utilities Commission must manage the account.
153.30 The Public Utilities Commission must deposit in the account all revenues received from
153.31 utilities from the surcharge on interconnection applications established under this section.
153.32 Money is appropriated from the account to the Public Utilities Commission for the sole
153.33 purpose of funding the ombudsperson position established in subdivision 1.

154.1 (c) The Public Utilities Commission must review the amount of revenues collected from
154.2 the surcharge each year and may adjust the level of the surcharge as necessary to ensure (1)
154.3 sufficient money is available to support the position, and (2) the reserve in the account does
154.4 not reach more than ten percent of the amount necessary to fully fund the position.

154.5 **EFFECTIVE DATE.** This section is effective the day following final enactment and
154.6 applies to applications for interconnections filed with a utility on or after that date.

154.7 **ARTICLE 14**
154.8 **MISCELLANEOUS ENERGY POLICY**

154.9 Section 1. Minnesota Statutes 2023 Supplement, section 116C.779, subdivision 1, is
154.10 amended to read:

154.11 Subdivision 1. **Renewable development account.** (a) The renewable development
154.12 account is established as a separate account in the special revenue fund in the state treasury.
154.13 Appropriations and transfers to the account shall be credited to the account. Earnings, such
154.14 as interest, dividends, and any other earnings arising from assets of the account, shall be
154.15 credited to the account. Funds remaining in the account at the end of a fiscal year are not
154.16 canceled to the general fund but remain in the account until expended. The account shall
154.17 be administered by the commissioner of management and budget as provided under this
154.18 section.

154.19 (b) On July 1, 2017, the public utility that owns the Prairie Island nuclear generating
154.20 plant must transfer all funds in the renewable development account previously established
154.21 under this subdivision and managed by the public utility to the renewable development
154.22 account established in paragraph (a). Funds awarded to grantees in previous grant cycles
154.23 that have not yet been expended and unencumbered funds required to be paid in calendar
154.24 year 2017 under paragraphs (f) and (g), and sections 116C.7792 and 216C.41, are not subject
154.25 to transfer under this paragraph.

154.26 (c) Except as provided in subdivision 1a, beginning January 15, 2018, and continuing
154.27 each January 15 thereafter, the public utility that owns the Prairie Island nuclear generating
154.28 plant must transfer to the renewable development account \$500,000 each year for each dry
154.29 cask containing spent fuel that is located at the Prairie Island power plant for each year the
154.30 plant is in operation, and \$7,500,000 each year the plant is not in operation if ordered by
154.31 the commission pursuant to paragraph (i). The fund transfer must be made if nuclear waste
154.32 is stored in a dry cask at the independent spent-fuel storage facility at Prairie Island for any

155.1 part of a year. The total amount transferred annually under this paragraph must be reduced
155.2 by \$3,750,000.

155.3 (d) Except as provided in subdivision 1a, beginning January 15, 2018, and continuing
155.4 each January 15 thereafter, the public utility that owns the Monticello nuclear generating
155.5 plant must transfer to the renewable development account \$350,000 each year for each dry
155.6 cask containing spent fuel that is located at the Monticello nuclear power plant for each
155.7 year the plant is in operation, and \$5,250,000 each year the plant is not in operation if ordered
155.8 by the commission pursuant to paragraph (i). The fund transfer must be made if nuclear
155.9 waste is stored in a dry cask at the independent spent-fuel storage facility at Monticello for
155.10 any part of a year.

155.11 (e) Each year, the public utility shall withhold from the funds transferred to the renewable
155.12 development account under paragraphs (c) and (d) the amount necessary to pay its obligations
155.13 under paragraphs (f) and (g), and sections 116C.7792 and 216C.41, for that calendar year.

155.14 (f) If the commission approves a new or amended power purchase agreement, the
155.15 termination of a power purchase agreement, or the purchase and closure of a facility under
155.16 section 216B.2424, subdivision 9, with an entity that uses poultry litter to generate electricity,
155.17 the public utility subject to this section shall enter into a contract with the city in which the
155.18 poultry litter plant is located to provide grants to the city for the purposes of economic
155.19 development on the following schedule: \$4,000,000 in fiscal year 2018; \$6,500,000 each
155.20 fiscal year in 2019 and 2020; and \$3,000,000 in fiscal year 2021. The grants shall be paid
155.21 by the public utility from funds withheld from the transfer to the renewable development
155.22 account, as provided in paragraphs (b) and (e).

155.23 (g) If the commission approves a new or amended power purchase agreement, or the
155.24 termination of a power purchase agreement under section 216B.2424, subdivision 9, with
155.25 an entity owned or controlled, directly or indirectly, by two municipal utilities located north
155.26 of Constitutional Route No. 8, that was previously used to meet the biomass mandate in
155.27 section 216B.2424, the public utility that owns a nuclear generating plant shall enter into a
155.28 grant contract with such entity to provide \$6,800,000 per year for five years, commencing
155.29 30 days after the commission approves the new or amended power purchase agreement, or
155.30 the termination of the power purchase agreement, and on each June 1 thereafter through
155.31 2021, to assist the transition required by the new, amended, or terminated power purchase
155.32 agreement. The grant shall be paid by the public utility from funds withheld from the transfer
155.33 to the renewable development account as provided in paragraphs (b) and (e).

156.1 (h) The collective amount paid under the grant contracts awarded under paragraphs (f)
156.2 and (g) is limited to the amount deposited into the renewable development account, and its
156.3 predecessor, the renewable development account, established under this section, that was
156.4 not required to be deposited into the account under Laws 1994, chapter 641, article 1, section
156.5 10.

156.6 (i) After discontinuation of operation of the Prairie Island nuclear plant or the Monticello
156.7 nuclear plant and each year spent nuclear fuel is stored in dry cask at the discontinued
156.8 facility, the commission shall require the public utility to pay \$7,500,000 for the discontinued
156.9 Prairie Island facility and \$5,250,000 for the discontinued Monticello facility for any year
156.10 in which the commission finds, by the preponderance of the evidence, that the public utility
156.11 did not make a good faith effort to remove the spent nuclear fuel stored at the facility to a
156.12 permanent or interim storage site out of the state. This determination shall be made at least
156.13 every two years.

156.14 (j) Funds in the account may be expended only for any of the following purposes:

156.15 (1) to stimulate research and development of renewable electric energy technologies;

156.16 (2) to encourage grid modernization, including, but not limited to, projects that implement
156.17 electricity storage, load control, and smart meter technology; and

156.18 (3) to stimulate other innovative energy projects that reduce demand and increase system
156.19 efficiency and flexibility.

156.20 Expenditures from the fund must benefit Minnesota ratepayers receiving electric service
156.21 from the utility that owns a nuclear-powered electric generating plant in this state or the
156.22 Prairie Island Indian community or its members.

156.23 The utility that owns a nuclear generating plant is eligible to apply for grants under this
156.24 subdivision.

156.25 (k) For the purposes of paragraph (j), the following terms have the meanings given:

156.26 (1) "renewable" has the meaning given in section 216B.2422, subdivision 1, paragraph
156.27 (c), clauses (1), (2), (4), and (5); and

156.28 (2) "grid modernization" means:

156.29 (i) enhancing the reliability of the electrical grid;

156.30 (ii) improving the security of the electrical grid against cyberthreats and physical threats;
156.31 and

157.1 (iii) increasing energy conservation opportunities by facilitating communication between
157.2 the utility and its customers through the use of two-way meters, control technologies, energy
157.3 storage and microgrids, technologies to enable demand response, and other innovative
157.4 technologies.

157.5 (l) A renewable development account advisory group that includes, among others,
157.6 representatives of the public utility and its ratepayers, and includes at least one representative
157.7 of the Prairie Island Indian community appointed by that community's tribal council, shall
157.8 develop recommendations on account expenditures. The advisory group must design a
157.9 request for proposal and evaluate projects submitted in response to a request for proposals.
157.10 The advisory group must utilize an independent third-party expert to evaluate proposals
157.11 submitted in response to a request for proposal, including all proposals made by the public
157.12 utility. A request for proposal for research and development under paragraph (j), clause (1),
157.13 may be limited to or include a request to higher education institutions located in Minnesota
157.14 for multiple projects authorized under paragraph (j), clause (1). The request for multiple
157.15 projects may include a provision that exempts the projects from the third-party expert review
157.16 and instead provides for project evaluation and selection by a merit peer review grant system.
157.17 In the process of determining request for proposal scope and subject and in evaluating
157.18 responses to request for proposals, the advisory group must strongly consider, where
157.19 reasonable:

157.20 (1) potential benefit to Minnesota citizens and businesses and the utility's ratepayers;
157.21 and

157.22 (2) the proposer's commitment to increasing the diversity of the proposer's workforce
157.23 and vendors.

157.24 (m) The advisory group shall submit funding recommendations to the public utility,
157.25 which has full and sole authority to determine which expenditures shall be submitted by
157.26 the advisory group to the legislature. The commission may approve proposed expenditures,
157.27 may disapprove proposed expenditures that it finds not to be in compliance with this
157.28 subdivision or otherwise not in the public interest, and may, if agreed to by the public utility,
157.29 modify proposed expenditures. The commission shall, by order, submit its funding
157.30 recommendations to the legislature as provided under paragraph (n).

157.31 (n) The commission shall present its recommended appropriations from the account to
157.32 the senate and house of representatives committees with jurisdiction over energy policy and
157.33 finance annually by February 15. Expenditures from the account must be appropriated by
157.34 law. In enacting appropriations from the account, the legislature:

158.1 (1) may approve or disapprove, but may not modify, the amount of an appropriation for
158.2 a project recommended by the commission; and

158.3 (2) may not appropriate money for a project the commission has not recommended
158.4 funding.

158.5 (o) A request for proposal for renewable energy generation projects must, when feasible
158.6 and reasonable, give preference to projects that are most cost-effective for a particular energy
158.7 source.

158.8 (p) The advisory group must annually, by February 15, report to the chairs and ranking
158.9 minority members of the legislative committees with jurisdiction over energy policy on
158.10 projects funded by the account for the prior year and all previous years. The report must,
158.11 to the extent possible and reasonable, itemize the actual and projected financial benefit to
158.12 the public utility's ratepayers of each project.

158.13 ~~(q) By February 1, 2018, and each February 1 thereafter, the commissioner of~~
158.14 ~~management and budget shall submit a written report regarding the availability of funds in~~
158.15 ~~and obligations of the account to the chairs and ranking minority members of the senate~~
158.16 ~~and house committees with jurisdiction over energy policy and finance, the public utility,~~
158.17 ~~and the advisory group.~~

158.18 ~~(+)~~ (q) A project receiving funds from the account must produce a written final report
158.19 that includes sufficient detail for technical readers and a clearly written summary for
158.20 nontechnical readers. The report must include an evaluation of the project's financial,
158.21 environmental, and other benefits to the state and the public utility's ratepayers. A project
158.22 receiving funds from the account must submit a report that meets the requirements of section
158.23 216C.51, subdivisions 3 and 4, each year the project funded by the account is in progress.

158.24 ~~(s)~~ (r) Final reports, any mid-project status reports, and renewable development account
158.25 financial reports must be posted online on a public website designated by the commissioner
158.26 of commerce.

158.27 ~~(+)~~ (s) All final reports must acknowledge that the project was made possible in whole
158.28 or part by the Minnesota renewable development account, noting that the account is financed
158.29 by the public utility's ratepayers.

158.30 ~~(+)~~ (t) Of the amount in the renewable development account, priority must be given to
158.31 making the payments required under section 216C.417.

158.32 ~~(+)~~ (u) Construction projects receiving funds from this account are subject to the
158.33 requirement to pay the prevailing wage rate, as defined in section 177.42 and the requirements

159.1 and enforcement provisions in sections 177.27, 177.30, 177.32, 177.41 to 177.435, and
159.2 177.45.

159.3 Sec. 2. Minnesota Statutes 2022, section 216B.16, subdivision 6c, is amended to read:

159.4 Subd. 6c. **Incentive plan for energy conservation and efficient fuel-switching**
159.5 **improvement.** (a) The commission may order public utilities to develop and submit for
159.6 commission approval incentive plans that describe the method of recovery and accounting
159.7 for utility conservation and efficient fuel-switching expenditures and savings. For public
159.8 utilities that provide electric service, the commission must develop and implement incentive
159.9 plans designed to promote energy conservation separately from plans designed to promote
159.10 efficient fuel-switching. In developing the incentive plans the commission shall ensure the
159.11 effective involvement of interested parties.

159.12 (b) In approving incentive plans, the commission shall consider:

159.13 (1) whether the plan is likely to increase utility investment in cost-effective energy
159.14 conservation or efficient fuel switching;

159.15 (2) whether the plan is compatible with the interest of utility ratepayers and other
159.16 interested parties;

159.17 (3) whether the plan links the incentive to the utility's performance in achieving
159.18 cost-effective conservation or efficient fuel switching; ~~and~~

159.19 (4) whether the plan is in conflict with other provisions of this chapter;

159.20 (5) whether the plan conflicts with other provisions of this chapter; and

159.21 (6) the likely financial impacts of the conservation and efficient fuel-switching on the
159.22 utility.

159.23 (c) The commission may set rates to encourage the vigorous and effective implementation
159.24 of utility conservation and efficient fuel-switching programs. The commission may:

159.25 (1) increase or decrease any otherwise allowed rate of return on net investment based
159.26 upon the utility's skill, efforts, and success in ~~conserving~~ improving the efficient use of
159.27 energy through energy conservation or efficient fuel switching;

159.28 (2) share between ratepayers and utilities the net savings resulting from energy
159.29 conservation and efficient fuel-switching programs to the extent justified by the utility's
159.30 skill, efforts, and success in ~~conserving~~ improving the efficient use of energy; and

160.1 (3) adopt any mechanism that satisfies the criteria of this subdivision, such that
160.2 implementation of cost-effective conservation or efficient fuel switching is a preferred
160.3 resource choice for the public utility considering the impact of conservation or efficient fuel
160.4 switching on earnings of the public utility.

160.5 (d) Any incentives offered to electric utilities under this subdivision for efficient-fuel
160.6 switching projects expire December 31, 2032.

160.7 Sec. 3. Minnesota Statutes 2022, section 216B.2402, is amended by adding a subdivision
160.8 to read:

160.9 Subd. 3a. **Data mining facility.** "Data mining facility" means all buildings, structures,
160.10 equipment, and installations at a single site where electricity is used primarily by computers
160.11 to process transactions involving digital currency that is not issued by a central authority.

160.12 Sec. 4. Minnesota Statutes 2022, section 216B.2402, subdivision 4, is amended to read:

160.13 Subd. 4. **Efficient fuel-switching improvement.** "Efficient fuel-switching improvement"
160.14 means a project that:

160.15 (1) replaces a fuel used by a customer with electricity or natural gas delivered at retail
160.16 by a utility subject to section 216B.2403 or 216B.241;

160.17 (2) results in a net increase in the use of electricity or natural gas and a net decrease in
160.18 source energy consumption on a fuel-neutral basis;

160.19 (3) otherwise meets the criteria established for consumer-owned utilities in section
160.20 216B.2403, subdivision 8, and for public utilities under section 216B.241, subdivisions 11
160.21 and 12; and

160.22 (4) requires the installation of equipment that utilizes electricity or natural gas, resulting
160.23 in a reduction or elimination of the previous fuel used.

160.24 An efficient fuel-switching improvement is not an energy conservation improvement or
160.25 energy efficiency even if the efficient fuel-switching improvement results in a net reduction
160.26 in electricity or natural gas use. ~~An efficient fuel-switching improvement does not include,~~
160.27 ~~and must not count toward any energy savings goal from, energy conservation improvements~~
160.28 ~~when fuel switching would result in an increase of greenhouse gas emissions into the~~
160.29 ~~atmosphere on an annual basis.~~

- 161.1 Sec. 5. Minnesota Statutes 2022, section 216B.2402, subdivision 10, is amended to read:
- 161.2 Subd. 10. **Gross annual retail energy sales.** "Gross annual retail energy sales" means
- 161.3 a utility's annual electric sales to all Minnesota retail customers, or natural gas throughput
- 161.4 to all retail customers, including natural gas transportation customers, on a utility's
- 161.5 distribution system in Minnesota. Gross annual retail energy sales does not include:
- 161.6 (1) gas sales to:
- 161.7 (i) a large energy facility;
- 161.8 (ii) a large customer facility whose natural gas utility has been exempted by the
- 161.9 commissioner under section 216B.241, subdivision 1a, paragraph (a), with respect to natural
- 161.10 gas sales made to the large customer facility; and
- 161.11 (iii) a commercial gas customer facility whose natural gas utility has been exempted by
- 161.12 the commissioner under section 216B.241, subdivision 1a, paragraph (b), with respect to
- 161.13 natural gas sales made to the commercial gas customer facility;
- 161.14 (2) electric sales to:
- 161.15 (i) a large customer facility whose electric utility has been exempted by the commissioner
- 161.16 under section 216B.241, subdivision 1a, paragraph (a), with respect to electric sales made
- 161.17 to the large customer facility; ~~or~~ and
- 161.18 (ii) a data mining facility, if the facility:
- 161.19 (A) has provided a signed letter to the utility verifying the facility meets the definition
- 161.20 of a data mining facility; and
- 161.21 (B) imposes a peak electrical demand on a consumer-owned utility's system equal to or
- 161.22 greater than 40 percent of the peak electrical demand of the system, measured in the same
- 161.23 manner as the utility that serves the customer facility measures electric demand for billing
- 161.24 purposes; or
- 161.25 (3) the amount of electric sales prior to December 31, 2032, that are associated with a
- 161.26 utility's program, rate, or tariff for electric vehicle charging based on a methodology and
- 161.27 assumptions developed by the department in consultation with interested stakeholders no
- 161.28 later than December 31, 2021. After December 31, 2032, incremental sales to electric
- 161.29 vehicles must be included in calculating a public utility's gross annual retail sales.

162.1 Sec. 6. Minnesota Statutes 2022, section 216B.2403, subdivision 2, is amended to read:

162.2 Subd. 2. **Consumer-owned utility; energy-savings goal.** (a) Each individual
162.3 consumer-owned electric utility subject to this section has an annual energy-savings goal
162.4 equivalent to 1.5 percent of gross annual retail energy sales and each individual
162.5 consumer-owned natural gas utility subject to this section has an annual energy-savings
162.6 goal equivalent to one percent of gross annual retail energy sales, to be met with a minimum
162.7 of energy savings from energy conservation improvements equivalent to at least ~~0.95~~ 0.90
162.8 percent of the consumer-owned utility's gross annual retail energy sales. The balance of
162.9 energy savings toward the annual energy-savings goal may be achieved only by the following
162.10 consumer-owned utility activities:

162.11 (1) energy savings from additional energy conservation improvements;

162.12 (2) electric utility infrastructure projects, as defined in section 216B.1636, subdivision
162.13 1, that result in increased efficiency greater than would have occurred through normal
162.14 maintenance activity;

162.15 (3) net energy savings from efficient fuel-switching improvements that meet the criteria
162.16 under subdivision 8, which may contribute up to ~~0.55~~ 0.60 percent of the goal; or

162.17 (4) subject to department approval, demand-side natural gas or electric energy displaced
162.18 by use of waste heat recovered and used as thermal energy, including the recovered thermal
162.19 energy from a cogeneration or combined heat and power facility.

162.20 (b) The energy-savings goals specified in this section must be calculated based on
162.21 weather-normalized sales averaged over the most recent three years. A consumer-owned
162.22 utility may elect to carry forward energy savings in excess of 1.5 percent for a year to the
162.23 next three years, except that energy savings from electric utility infrastructure projects may
162.24 be carried forward for five years. A particular energy savings can only be used to meet one
162.25 year's goal.

162.26 (c) A consumer-owned utility subject to this section is not required to make energy
162.27 conservation improvements that are not cost-effective, even if the improvement is necessary
162.28 to attain the energy-savings goal. A consumer-owned utility subject to this section must
162.29 make reasonable efforts to implement energy conservation improvements that exceed the
162.30 minimum level established under this subdivision if cost-effective opportunities and funding
162.31 are available, considering other potential investments the consumer-owned utility intends
162.32 to make to benefit customers during the term of the plan filed under subdivision 3.

163.1 ~~(d) Notwithstanding any provision to the contrary, until July 1, 2026, spending by a~~
163.2 ~~consumer-owned utility subject to this section on efficient fuel-switching improvements~~
163.3 ~~implemented to meet the annual energy savings goal under this section must not exceed~~
163.4 ~~0.55 percent per year, averaged over a three-year period, of the consumer-owned utility's~~
163.5 ~~gross annual retail energy sales.~~

163.6 Sec. 7. Minnesota Statutes 2022, section 216B.2403, subdivision 3, is amended to read:

163.7 Subd. 3. **Consumer-owned utility; energy conservation and optimization plans.** (a)
163.8 By June 1, 2022, and at least every three years thereafter, each consumer-owned utility must
163.9 file with the commissioner an energy conservation and optimization plan that describes the
163.10 programs for energy conservation, efficient fuel-switching, load management, and other
163.11 measures the consumer-owned utility intends to offer to achieve the utility's energy savings
163.12 goal.

163.13 (b) A plan's term may extend up to three years. A multiyear plan must identify the total
163.14 energy savings and energy savings resulting from energy conservation improvements that
163.15 are projected to be achieved in each year of the plan. A multiyear plan that does not, in each
163.16 year of the plan, meet both the minimum energy savings goal from energy conservation
163.17 improvements and the total energy savings goal of 1.5 percent, or lower goals adjusted by
163.18 the commissioner under paragraph (k), must:

163.19 (1) state why each goal is projected to be unmet; and

163.20 (2) demonstrate how the consumer-owned utility proposes to meet both goals on an
163.21 average basis over the duration of the plan.

163.22 (c) A plan filed under this subdivision must provide:

163.23 (1) for existing programs, an analysis of the cost-effectiveness of the consumer-owned
163.24 utility's programs offered under the plan, using a list of baseline energy- and capacity-savings
163.25 assumptions developed in consultation with the department; and

163.26 (2) for new programs, a preliminary analysis upon which the program will proceed, in
163.27 parallel with further development of assumptions and standards.

163.28 (d) The commissioner must evaluate a plan filed under this subdivision based on the
163.29 plan's likelihood to achieve the energy-savings goals established in subdivision 2. The
163.30 commissioner may make recommendations to a consumer-owned utility regarding ways to
163.31 increase the effectiveness of the consumer-owned utility's energy conservation activities
163.32 and programs under this subdivision. The commissioner may recommend that a
163.33 consumer-owned utility implement a cost-effective energy conservation or efficient

164.1 ~~fuel-switching program, including an energy conservation program~~ suggested by an outside
164.2 source such as a political subdivision, nonprofit corporation, or community organization.

164.3 (e) Beginning June 1, 2023, and every June 1 thereafter, each consumer-owned utility
164.4 must file: (1) an annual update identifying the status of the plan filed under this subdivision,
164.5 including: (i) total expenditures and investments made to date under the plan; and (ii) any
164.6 intended changes to the plan; and (2) a summary of the annual energy-savings achievements
164.7 under a plan. An annual filing made in the last year of a plan must contain a new plan that
164.8 complies with this section.

164.9 (f) When evaluating the cost-effectiveness of a consumer-owned utility's energy
164.10 conservation programs, the consumer-owned utility and the commissioner must consider
164.11 the costs and benefits to ratepayers, the utility, participants, and society. The commissioner
164.12 must also consider the rate at which the consumer-owned utility is increasing energy savings
164.13 and expenditures on energy conservation, and lifetime energy savings and cumulative energy
164.14 savings.

164.15 (g) A consumer-owned utility may annually spend and invest up to ten percent of the
164.16 total amount spent and invested on energy conservation, efficient fuel-switching, or load
164.17 management improvements on research and development projects that meet the applicable
164.18 definition of energy conservation, efficient fuel-switching, or load management improvement.

164.19 (h) A generation and transmission cooperative electric association or municipal power
164.20 agency that provides energy services to consumer-owned utilities may file a plan under this
164.21 subdivision on behalf of the consumer-owned utilities to which the association or agency
164.22 provides energy services and may make investments, offer conservation programs, and
164.23 otherwise fulfill the energy-savings goals and reporting requirements of this subdivision
164.24 for those consumer-owned utilities on an aggregate basis.

164.25 (i) A consumer-owned utility is prohibited from spending for or investing in energy
164.26 conservation improvements that directly benefit a large energy facility or a large electric
164.27 customer facility the commissioner has exempted under section 216B.241, subdivision 1a.

164.28 (j) The energy conservation and optimization plan of a consumer-owned utility may
164.29 include activities to improve energy efficiency in the public schools served by the utility.
164.30 These activities may include programs to:

164.31 (1) increase the efficiency of the school's lighting and heating and cooling systems;

164.32 (2) recommission buildings;

164.33 (3) train building operators; and

165.1 (4) provide opportunities to educate students, teachers, and staff regarding energy
165.2 efficiency measures implemented at the school.

165.3 (k) A consumer-owned utility may request that the commissioner adjust the
165.4 consumer-owned utility's minimum goal for energy savings from energy conservation
165.5 improvements under subdivision 2, paragraph (a), for the duration of the plan filed under
165.6 this subdivision. The request must be made by January 1 of the year when the
165.7 consumer-owned utility must file a plan under this subdivision. The request must be based
165.8 on:

165.9 (1) historical energy conservation improvement program achievements;

165.10 (2) customer class makeup;

165.11 (3) projected load growth;

165.12 (4) an energy conservation potential study that estimates the amount of cost-effective
165.13 energy conservation potential that exists in the consumer-owned utility's service territory;

165.14 (5) the cost-effectiveness and quality of the energy conservation programs offered by
165.15 the consumer-owned utility; and

165.16 (6) other factors the commissioner and consumer-owned utility determine warrant an
165.17 adjustment.

165.18 The commissioner must adjust the energy savings goal to a level the commissioner determines
165.19 is supported by the record, but must not approve a minimum energy savings goal from
165.20 energy conservation improvements that is less than an average of 0.95 percent per year over
165.21 the consecutive years of the plan's duration, including the year the minimum energy savings
165.22 goal is adjusted.

165.23 (l) A consumer-owned utility filing a conservation and optimization plan that includes
165.24 an efficient fuel-switching program to achieve the utility's energy savings goal must, as part
165.25 of the filing, demonstrate ~~by a comparison of greenhouse gas emissions between the fuels~~
165.26 that the requirements of subdivision 8 are met, ~~using a full fuel-cycle energy analysis.~~

165.27 Sec. 8. Minnesota Statutes 2022, section 216B.2403, subdivision 5, is amended to read:

165.28 **Subd. 5. Energy conservation programs for low-income households.** (a) A
165.29 consumer-owned utility subject to this section must provide energy conservation programs
165.30 to low-income households. The commissioner must evaluate a consumer-owned utility's
165.31 plans under this section by considering the consumer-owned utility's historic spending on
165.32 energy conservation programs directed to low-income households, the rate of customer

166.1 participation in and the energy savings resulting from those programs, and the number of
166.2 low-income persons residing in the consumer-owned utility's service territory. A municipal
166.3 utility that furnishes natural gas service must spend at least 0.2 percent of the municipal
166.4 utility's most recent three-year average gross operating revenue from residential customers
166.5 in Minnesota on energy conservation programs for low-income households. A
166.6 consumer-owned utility that furnishes electric service must spend at least 0.2 percent of the
166.7 consumer-owned utility's gross operating revenue from residential customers in Minnesota
166.8 on energy conservation programs for low-income households. The requirement under this
166.9 paragraph applies to each generation and transmission cooperative association's aggregate
166.10 gross operating revenue from the sale of electricity to residential customers in Minnesota
166.11 by all of the association's member distribution cooperatives.

166.12 (b) To meet all or part of the spending requirements of paragraph (a), a consumer-owned
166.13 utility may contribute money to the energy and conservation account established in section
166.14 216B.241, subdivision 2a. An energy conservation optimization plan must state the amount
166.15 of contributions the consumer-owned utility plans to make to the energy and conservation
166.16 account. Contributions to the account must be used for energy conservation programs serving
166.17 low-income households, including renters, located in the service area of the consumer-owned
166.18 utility making the contribution. Contributions must be remitted to the commissioner by
166.19 February 1 each year.

166.20 (c) The commissioner must establish energy conservation programs for low-income
166.21 households funded through contributions to the energy and conservation account under
166.22 paragraph (b). When establishing energy conservation programs for low-income households,
166.23 the commissioner must consult political subdivisions, utilities, and nonprofit and community
166.24 organizations, including organizations providing energy and weatherization assistance to
166.25 low-income households. The commissioner must record and report expenditures and energy
166.26 savings achieved as a result of energy conservation programs for low-income households
166.27 funded through the energy and conservation account in the report required under section
166.28 216B.241, subdivision 1c, paragraph (f). The commissioner may contract with a political
166.29 subdivision, nonprofit or community organization, public utility, municipality, or
166.30 consumer-owned utility to implement low-income programs funded through the energy and
166.31 conservation account.

166.32 (d) A consumer-owned utility may petition the commissioner to modify the required
166.33 spending under this subdivision if the consumer-owned utility and the commissioner were
166.34 unable to expend the amount required for three consecutive years.

167.1 (e) The commissioner must develop and establish guidelines for determining the eligibility
167.2 of multifamily buildings to participate in energy conservation programs provided to
167.3 low-income households. Notwithstanding the definition of low-income household in section
167.4 216B.2402, a consumer-owned utility or association may apply the most recent guidelines
167.5 published by the department for purposes of determining the eligibility of multifamily
167.6 buildings to participate in low-income programs. The commissioner must convene a
167.7 stakeholder group to review and update these guidelines by August 1, 2021, and at least
167.8 once every five years thereafter. The stakeholder group must include but is not limited to
167.9 representatives of public utilities; municipal electric or gas utilities; electric cooperative
167.10 associations; multifamily housing owners and developers; and low-income advocates.

167.11 (f) Up to 15 percent of a consumer-owned utility's spending on low-income energy
167.12 conservation programs may be spent on preweatherization measures. A consumer-owned
167.13 utility is prohibited from claiming energy savings from preweatherization measures toward
167.14 the consumer-owned utility's energy savings goal.

167.15 (g) The commissioner must, by order, establish a list of preweatherization measures
167.16 eligible for inclusion in low-income energy conservation programs no later than March 15,
167.17 2022.

167.18 (h) A Healthy AIR (Asbestos Insulation Removal) account is established as a separate
167.19 account in the special revenue fund in the state treasury. A consumer-owned utility may
167.20 elect to contribute money to the Healthy AIR account to provide preweatherization measures
167.21 for households eligible for weatherization assistance from the state weatherization assistance
167.22 program in section 216C.264. Remediation activities must be executed in conjunction with
167.23 federal weatherization assistance program services. Money contributed to the account by a
167.24 consumer-owned utility counts toward: (1) the minimum low-income spending requirement
167.25 under paragraph (a); and (2) the cap on preweatherization measures under paragraph (f).
167.26 Money in the account is annually appropriated to the commissioner of commerce to pay for
167.27 Healthy AIR-related activities.

167.28 (i) This paragraph applies to a consumer-owned utility that supplies electricity to a
167.29 low-income household whose primary heating fuel is supplied by an entity other than a
167.30 public utility. Any spending on space and water heating energy conservation improvements
167.31 and efficient fuel-switching by the consumer-owned utility on behalf of the low-income
167.32 household may be applied to the consumer owned utility's spending requirement in paragraph
167.33 (a). To the maximum extent possible, a consumer-owned utility providing services under
167.34 this paragraph must offer the services in conjunction with weatherization services provided
167.35 under section 216C.264.

168.1 Sec. 9. Minnesota Statutes 2022, section 216B.2403, subdivision 8, is amended to read:

168.2 Subd. 8. **Criteria for efficient fuel-switching improvements.** (a) A fuel-switching
168.3 improvement is deemed efficient if, applying the technical criteria established under section
168.4 216B.241, subdivision 1d, paragraph (e), the improvement, relative to the fuel being
168.5 displaced:

168.6 (1) results in a net reduction in the amount of source energy consumed for a particular
168.7 use, measured on a fuel-neutral basis, using (i) the consumer-owned utility's or the utility's
168.8 electricity supplier's annual system average efficiency, or (ii) if the utility elects, a seasonal,
168.9 monthly, or more granular level of analysis for the electric utility system over the measure's
168.10 life;

168.11 (2) results in a net reduction of statewide greenhouse gas emissions, as defined in section
168.12 216H.01, subdivision 2, over the lifetime of the improvement. For an efficient fuel-switching
168.13 improvement installed by an electric consumer-owned utility, the reduction in emissions
168.14 must be measured ~~based on the hourly emissions profile of the consumer-owned utility or~~
168.15 ~~the utility's electricity supplier, as reported in the most recent resource plan approved by~~
168.16 ~~the commission under section 216B.2422. If the hourly emissions profile is not available,~~
168.17 ~~the commissioner must develop a method consumer-owned utilities must use to estimate~~
168.18 ~~that value~~ using (i) the consumer-owned utility's or the utility's electricity supplier's annual
168.19 average emissions factor, or (ii) if the utility elects, a seasonal, monthly, or more granular
168.20 level of analysis for the electric utility system over the measure's life; and

168.21 (3) is cost-effective, considering the costs and benefits from the perspective of the
168.22 consumer-owned utility, participants, and society; ~~and.~~

168.23 ~~(4) is installed and operated in a manner that improves the consumer-owned utility's~~
168.24 ~~system load factor.~~

168.25 (b) For purposes of this subdivision, "source energy" means the total amount of primary
168.26 energy required to deliver energy services, adjusted for losses in generation, transmission,
168.27 and distribution, and expressed on a fuel-neutral basis.

168.28 Sec. 10. Minnesota Statutes 2022, section 216B.241, subdivision 1c, is amended to read:

168.29 Subd. 1c. **Public utility; energy-saving goals.** (a) The commissioner shall establish
168.30 energy-saving goals for energy conservation improvements and shall evaluate an energy
168.31 conservation improvement program on how well it meets the goals set.

168.32 (b) A public utility providing electric service has an annual energy-savings goal equivalent
168.33 to 1.75 percent of gross annual retail energy sales unless modified by the commissioner

169.1 under paragraph (c). A public utility providing natural gas service has an annual
169.2 energy-savings goal equivalent to one percent of gross annual retail energy sales, which
169.3 cannot be lowered by the commissioner. The savings goals must be calculated based on the
169.4 most recent three-year weather-normalized average. A public utility providing electric
169.5 service may elect to carry forward energy savings in excess of 1.75 percent for a year to
169.6 the succeeding three calendar years, except that savings from electric utility infrastructure
169.7 projects allowed under paragraph (d) may be carried forward for five years. A public utility
169.8 providing natural gas service may elect to carry forward energy savings in excess of one
169.9 percent for a year to the succeeding three calendar years. A particular energy savings can
169.10 only be used to meet one year's goal.

169.11 (c) In its energy conservation and optimization plan filing, a public utility may request
169.12 the commissioner to adjust its annual energy-savings percentage goal based on its historical
169.13 conservation investment experience, customer class makeup, load growth, a conservation
169.14 potential study, or other factors the commissioner determines warrants an adjustment.

169.15 (d) The commissioner may not approve a plan of a public utility that provides for an
169.16 annual energy-savings goal of less than one percent of gross annual retail energy sales from
169.17 energy conservation improvements.

169.18 The balance of the 1.75 percent annual energy savings goal may be achieved through
169.19 energy savings from:

169.20 (1) additional energy conservation improvements;

169.21 (2) electric utility infrastructure projects approved by the commission under section
169.22 216B.1636 that result in increased efficiency greater than would have occurred through
169.23 normal maintenance activity; or

169.24 (3) subject to department approval, demand-side natural gas or electric energy displaced
169.25 by use of waste heat recovered and used as thermal energy, including the recovered thermal
169.26 energy from a cogeneration or combined heat and power facility.

169.27 (e) A public utility is not required to make energy conservation investments to attain
169.28 the energy-savings goals of this subdivision that are not cost-effective even if the investment
169.29 is necessary to attain the energy-savings goals. For the purpose of this paragraph, in
169.30 determining cost-effectiveness, the commissioner shall consider: (1) the costs and benefits
169.31 to ratepayers, the utility, participants, and society; (2) the rate at which a public utility is
169.32 increasing both its energy savings and its expenditures on energy conservation; and (3) the
169.33 public utility's lifetime energy savings and cumulative energy savings.

170.1 (f) On an annual basis, the commissioner shall produce and make publicly available a
170.2 report on the annual energy and capacity savings and estimated carbon dioxide reductions
170.3 achieved by the programs under this section and section 216B.2403 for the two most recent
170.4 years for which data is available. The report must also include information regarding any
170.5 annual energy sales or generation capacity increases resulting from efficient fuel-switching
170.6 improvements. The commissioner shall report on program performance both in the aggregate
170.7 and for each entity filing an energy conservation improvement plan for approval or review
170.8 by the commissioner, and must estimate progress made toward the statewide energy-savings
170.9 goal under section 216B.2401.

170.10 ~~(g) Notwithstanding any provision to the contrary, until July 1, 2026, spending by a~~
170.11 ~~public utility subject to this section on efficient fuel-switching improvements to meet energy~~
170.12 ~~savings goals under this section must not exceed 0.35 percent per year, averaged over three~~
170.13 ~~years, of the public utility's gross annual retail energy sales.~~

170.14 Sec. 11. Minnesota Statutes 2022, section 216B.241, subdivision 2, is amended to read:

170.15 Subd. 2. **Public utility; energy conservation and optimization plans.** (a) The
170.16 commissioner may require a public utility to make investments and expenditures in energy
170.17 conservation improvements, explicitly setting forth the interest rates, prices, and terms under
170.18 which the improvements must be offered to the customers.

170.19 (b) A public utility shall file an energy conservation and optimization plan by June 1,
170.20 on a schedule determined by order of the commissioner, but at least every three years. As
170.21 provided in subdivisions 11 to 13, plans may include programs for efficient fuel-switching
170.22 improvements and load management. An individual utility program may combine elements
170.23 of energy conservation, load management, or efficient fuel-switching. The plan must estimate
170.24 the lifetime energy savings and cumulative lifetime energy savings projected to be achieved
170.25 under the plan. A plan filed by a public utility by June 1 must be approved or approved as
170.26 modified by the commissioner by December 1 of that same year.

170.27 (c) The commissioner shall evaluate the plan on the basis of cost-effectiveness and the
170.28 reliability of technologies employed. The commissioner's order must provide to the extent
170.29 practicable for a free choice, by consumers participating in an energy conservation program,
170.30 of the device, method, material, or project constituting the energy conservation improvement
170.31 and for a free choice of the seller, installer, or contractor of the energy conservation
170.32 improvement, provided that the device, method, material, or project seller, installer, or
170.33 contractor is duly licensed, certified, approved, or qualified, including under the residential
170.34 conservation services program, where applicable.

171.1 (d) The commissioner may require a utility subject to subdivision 1c to make an energy
171.2 conservation improvement investment or expenditure whenever the commissioner finds
171.3 that the improvement will result in energy savings at a total cost to the utility less than the
171.4 cost to the utility to produce or purchase an equivalent amount of new supply of energy.

171.5 (e) Each public utility subject to this subdivision may spend and invest annually up to
171.6 ten percent of the total amount ~~spent and invested~~ that the public utility spends and invests
171.7 on energy conservation, efficient fuel-switching, or load management improvements under
171.8 this section ~~by the public utility~~ on research and development projects that meet the applicable
171.9 definition of energy conservation, efficient fuel-switching, or load management improvement.

171.10 (f) The commissioner shall consider and may require a public utility to undertake an
171.11 energy conservation ~~program~~ or efficient fuel-switching program, subject to the requirements
171.12 of subdivisions 11 and 12, that is suggested by an outside source, including a political
171.13 subdivision, a nonprofit corporation, or community organization. In approving a proposal
171.14 under this paragraph, the commissioner must consider the qualifications and experience of
171.15 the entity proposing the program and any other criteria the commissioner deems relevant.

171.16 (g) A public utility, a political subdivision, or a nonprofit or community organization
171.17 that has suggested an energy conservation program, the attorney general acting on behalf
171.18 of consumers and small business interests, or a public utility customer that has suggested
171.19 an energy conservation program and is not represented by the attorney general under section
171.20 8.33 may petition the commission to modify or revoke a department decision under this
171.21 section, and the commission may do so if it determines that the energy conservation program
171.22 is not cost-effective, does not adequately address the residential conservation improvement
171.23 needs of low-income persons, has a long-range negative effect on one or more classes of
171.24 customers, or is otherwise not in the public interest. The commission shall reject a petition
171.25 that, on its face, fails to make a reasonable argument that an energy conservation program
171.26 is not in the public interest.

171.27 (h) The commissioner may order a public utility to include, with the filing of the public
171.28 utility's annual status report, the results of an independent audit of the public utility's
171.29 conservation improvement programs and expenditures performed by the department or an
171.30 auditor with experience in the provision of energy conservation and energy efficiency
171.31 services approved by the commissioner and chosen by the public utility. The audit must
171.32 specify the energy savings or increased efficiency in the use of energy within the service
171.33 territory of the public utility that is the result of the public utility's spending and investments.
171.34 The audit must evaluate the cost-effectiveness of the public utility's conservation programs.

172.1 (i) The energy conservation and optimization plan of each public utility subject to this
172.2 section must include activities to improve energy efficiency in public schools served by the
172.3 utility. As applicable to each public utility, at a minimum the activities must include programs
172.4 to increase the efficiency of the school's lighting and heating and cooling systems, and to
172.5 provide for building recommissioning, building operator training, and opportunities to
172.6 educate students, teachers, and staff regarding energy efficiency measures implemented at
172.7 the school.

172.8 (j) The commissioner may require investments or spending greater than the amounts
172.9 proposed in a plan filed under this subdivision or section 216C.17 for a public utility whose
172.10 most recent advanced forecast required under section 216B.2422 projects a peak demand
172.11 deficit of 100 megawatts or more within five years under midrange forecast assumptions.

172.12 (k) A public utility filing a conservation and optimization plan that includes an efficient
172.13 fuel-switching program ~~to achieve the utility's energy savings goal~~ must, as part of the filing,
172.14 ~~demonstrate by a comparison of greenhouse gas emissions between the fuels that the~~
172.15 ~~requirements of subdivisions 11 or 12 are met, as applicable, using a full fuel-cycle energy~~
172.16 ~~analysis.~~

172.17 Sec. 12. Minnesota Statutes 2022, section 216B.241, subdivision 11, is amended to read:

172.18 Subd. 11. **Programs for efficient fuel-switching improvements; electric utilities.** (a)
172.19 A public utility providing electric service at retail may include in the plan required under
172.20 subdivision 2 a proposed goal for efficient fuel-switching improvements that the utility
172.21 expects to achieve under the plan and the programs to implement efficient fuel-switching
172.22 improvements or combinations of energy conservation improvements, fuel-switching
172.23 improvements, and load management. For each program, the public utility must provide a
172.24 proposed budget, an analysis of the program's cost-effectiveness, and estimated net energy
172.25 and demand savings.

172.26 (b) The department may approve proposed programs for efficient fuel-switching
172.27 improvements if the department determines the improvements meet the requirements of
172.28 paragraph (d). ~~For fuel-switching improvements that require the deployment of electric~~
172.29 ~~technologies, the department must also consider whether the fuel-switching improvement~~
172.30 ~~can be operated in a manner that facilitates the integration of variable renewable energy~~
172.31 ~~into the electric system. The net benefits from an efficient fuel-switching improvement that~~
172.32 ~~is integrated with an energy efficiency program approved under this section may be counted~~
172.33 ~~toward the net benefits of the energy efficiency program, if the department determines the~~
172.34 ~~primary purpose and effect of the program is energy efficiency.~~

173.1 (c) A public utility may file a rate schedule with the commission that provides for annual
 173.2 cost recovery of reasonable and prudent costs to implement and promote efficient
 173.3 fuel-switching programs. The utility, department, or other entity may propose, and the
 173.4 commission may not approve, modify, or reject, a proposal for a financial incentive to
 173.5 encourage efficient fuel-switching programs operated by a public utility providing electric
 173.6 service approved under this subdivision. When making a decision on the financial incentive
 173.7 proposal, the commission must apply the considerations established in section 216B.16,
 173.8 subdivision 6c, paragraphs (b) and (c).

173.9 (d) A fuel-switching improvement is deemed efficient if, applying the technical criteria
 173.10 established under section 216B.241, subdivision 1d, paragraph (e), the improvement meets
 173.11 the following criteria, relative to the fuel that is being displaced:

173.12 (1) results in a net reduction in the amount of source energy consumed for a particular
 173.13 use, measured on a fuel-neutral basis, using (i) the utility's annual system average efficiency,
 173.14 or (ii) if the utility elects, a seasonal, monthly, or more granular level of analysis for the
 173.15 electric utility system over the measure's life;

173.16 (2) results in a net reduction of statewide greenhouse gas emissions as defined in section
 173.17 216H.01, subdivision 2, over the lifetime of the improvement. For an efficient fuel-switching
 173.18 improvement installed by an electric utility, the reduction in emissions must be measured
 173.19 ~~based on the hourly emission profile of the electric utility, using the hourly emissions profile~~
 173.20 ~~in the most recent resource plan approved by the commission under section 216B.2422~~
 173.21 using (i) the utility's annual average emissions factor, or (ii) if the utility elects, a seasonal,
 173.22 monthly or more granular level of analysis, for the electric utility system over the measure's
 173.23 life; and

173.24 (3) is cost-effective, considering the costs and benefits from the perspective of the utility,
 173.25 participants, and society; ~~and.~~

173.26 ~~(4) is installed and operated in a manner that improves the utility's system load factor.~~

173.27 (e) For purposes of this subdivision, "source energy" means the total amount of primary
 173.28 energy required to deliver energy services, adjusted for losses in generation, transmission,
 173.29 and distribution, and expressed on a fuel-neutral basis.

173.30 Sec. 13. Minnesota Statutes 2022, section 216B.241, subdivision 12, is amended to read:

173.31 Subd. 12. **Programs for efficient fuel-switching improvements; natural gas**
 173.32 **utilities.** (a) As part of a public utility's plan filed under subdivision 2, a public utility that
 173.33 provides natural gas service to Minnesota retail customers may propose one or more programs

174.1 to install electric technologies that reduce the consumption of natural gas by the utility's
174.2 retail customers as an energy conservation improvement. The commissioner may approve
174.3 a proposed program if the commissioner, applying the technical criteria developed under
174.4 section 216B.241, subdivision 1d, paragraph (e), determines that:

174.5 (1) the electric technology to be installed meets the criteria established under section
174.6 216B.241, subdivision 11, paragraph (d), clauses (1) and (2); and

174.7 (2) the program is cost-effective, considering the costs and benefits to ratepayers, the
174.8 utility, participants, and society.

174.9 (b) If a program is approved by the commission under this subdivision, the public utility
174.10 may count the program's energy savings toward its energy savings goal under section
174.11 216B.241, subdivision 1c. Notwithstanding section 216B.2402, subdivision 4, efficient
174.12 fuel-switching achieved through programs approved under this subdivision is energy
174.13 conservation.

174.14 (c) A public utility may file rate schedules with the commission that provide annual
174.15 cost-recovery for programs approved by the department under this subdivision, including
174.16 reasonable and prudent costs to implement and promote the programs.

174.17 (d) The commission may approve, modify, or reject a proposal made by the department
174.18 or a utility for an incentive plan to encourage efficient fuel-switching programs approved
174.19 under this subdivision, applying the considerations established under section 216B.16,
174.20 subdivision 6c, paragraphs (b) and (c). The commission may approve a financial incentive
174.21 mechanism that is calculated based on the combined energy savings and net benefits that
174.22 the commission has determined have been achieved by a program approved under this
174.23 subdivision, provided the commission determines that the financial incentive mechanism
174.24 is in the ratepayers' interest.

174.25 ~~(e) A public utility is not eligible for a financial incentive for an efficient fuel-switching~~
174.26 ~~program under this subdivision in any year in which the utility achieves energy savings~~
174.27 ~~below one percent of gross annual retail energy sales, excluding savings achieved through~~
174.28 ~~fuel-switching programs.~~

174.29 Sec. 14. Minnesota Statutes 2023 Supplement, section 216C.08, is amended to read:

174.30 **216C.08 JURISDICTION.**

174.31 (a) ~~The commissioner has sole authority and responsibility for the administration of~~
174.32 ~~sections 216C.05 to 216C.30 and 216C.375 to administer this chapter. Other laws~~
174.33 ~~notwithstanding, the authority granted to the commissioner shall supersede under this section~~

175.1 supersedes the authority given any other agency whenever overlapping, duplication, or
175.2 additional administrative or legal procedures might occur in ~~the administration of sections~~
175.3 ~~216C.05 to 216C.30 and 216C.375~~ administering this chapter. The commissioner shall
175.4 consult with other state departments or agencies in matters related to energy and shall
175.5 contract with ~~them~~ the other state departments or agencies to provide appropriate services
175.6 to effectuate the purposes of ~~sections 216C.05 to 216C.30 and 216C.375~~ this chapter. Any
175.7 other department, agency, or official of this state or political subdivision thereof which
175.8 would in any way affect the administration or enforcement of ~~sections 216C.05 to 216C.30~~
175.9 ~~and 216C.375~~ this chapter shall cooperate and coordinate all activities with the commissioner
175.10 to assure orderly and efficient administration and enforcement of ~~sections 216C.05 to~~
175.11 ~~216C.30 and 216C.375~~ this chapter.

175.12 (b) The commissioner shall designate a liaison officer whose duty shall be to insure the
175.13 maximum possible consistency in procedures and to eliminate duplication between the
175.14 commissioner and the other agencies that may be involved in energy.

175.15 Sec. 15. Minnesota Statutes 2023 Supplement, section 216C.09, is amended to read:

175.16 **216C.09 COMMISSIONER DUTIES.**

175.17 (a) The commissioner shall:

175.18 (1) manage the department as the central repository within the state government for the
175.19 collection of data on energy;

175.20 (2) prepare and adopt an emergency allocation plan specifying actions to be taken in the
175.21 event of an impending serious shortage of energy, or a threat to public health, safety, or
175.22 welfare;

175.23 (3) undertake a continuing assessment of trends in the consumption of all forms of energy
175.24 and analyze the social, economic, and environmental consequences of these trends;

175.25 (4) carry out energy ~~conservation~~ measures as specified by the legislature and recommend
175.26 to the governor and the legislature additional energy policies and conservation measures as
175.27 required to meet the objectives of ~~sections 216C.05 to 216C.30 and 216C.375~~ this chapter;

175.28 (5) collect and analyze data relating to present and future demands and resources for all
175.29 sources of energy;

175.30 (6) evaluate policies governing the establishment of rates and prices for energy as related
175.31 to energy conservation, and other goals and policies of ~~sections 216C.05 to 216C.30 and~~

176.1 ~~216C.375~~ this chapter, and make recommendations for changes in energy pricing policies
176.2 and rate schedules;

176.3 (7) study the impact and relationship of the state energy policies to international, national,
176.4 and regional energy policies;

176.5 (8) design and implement a state program for the conservation of energy; this program
176.6 shall include but not be limited to, general commercial, industrial, and residential, and
176.7 transportation areas; such program shall also provide for the evaluation of energy systems
176.8 as they relate to lighting, heating, refrigeration, air conditioning, building design and
176.9 operation, and appliance manufacturing and operation;

176.10 (9) inform and educate the public about the sources and uses of energy and the ways in
176.11 which persons can conserve energy;

176.12 (10) dispense funds made available for the purpose of research studies and projects of
176.13 professional and civic orientation, which are related to either energy conservation, resource
176.14 recovery, or the development of alternative energy technologies which conserve
176.15 nonrenewable energy resources while creating minimum environmental impact;

176.16 (11) charge other governmental departments and agencies involved in energy-related
176.17 activities with specific information gathering goals and require that those goals be met;

176.18 (12) design a comprehensive program for the development of indigenous energy
176.19 resources. The program shall include, but not be limited to, providing technical,
176.20 informational, educational, and financial services and materials to persons, businesses,
176.21 municipalities, and organizations involved in the development of solar, wind, hydropower,
176.22 peat, fiber fuels, biomass, and other alternative energy resources. The program shall be
176.23 evaluated by the alternative energy technical activity; and

176.24 (13) dispense loans, grants, or other financial aid from money received from litigation
176.25 or settlement of alleged violations of federal petroleum-pricing regulations made available
176.26 to the department for that purpose.

176.27 (b) Further, the commissioner may participate fully in hearings before the Public Utilities
176.28 Commission on matters pertaining to rate design, cost allocation, efficient resource utilization,
176.29 utility conservation investments, small power production, cogeneration, and other rate issues.
176.30 The commissioner shall support the policies stated in section 216C.05 and shall prepare
176.31 and defend testimony proposed to encourage energy conservation improvements as defined
176.32 in section 216B.241.

177.1 Sec. 16. Minnesota Statutes 2022, section 216C.10, is amended to read:

177.2 **216C.10 COMMISSIONER POWERS.**

177.3 (a) The commissioner may:

177.4 (1) adopt rules under chapter 14 as necessary to carry out the purposes of ~~sections~~
177.5 ~~216C.05 to 216C.30~~ this chapter;

177.6 (2) make all contracts under ~~sections 216C.05 to 216C.30~~ this chapter and do all things
177.7 necessary to cooperate with the United States government, and to qualify for, accept, and
177.8 disburse any grant intended ~~for the administration of sections 216C.05 to 216C.30~~ to
177.9 administer this chapter;

177.10 (3) provide on-site technical assistance to units of local government in order to enhance
177.11 local capabilities for dealing with energy problems;

177.12 (4) administer for the state, energy programs under federal law, regulations, or guidelines,
177.13 and coordinate the programs and activities with other state agencies, units of local
177.14 government, and educational institutions;

177.15 (5) develop a state energy investment plan with yearly energy conservation and alternative
177.16 energy development goals, investment targets, and marketing strategies;

177.17 (6) perform market analysis studies relating to conservation, alternative and renewable
177.18 energy resources, and energy recovery;

177.19 (7) assist with the preparation of proposals for innovative conservation, renewable,
177.20 alternative, or energy recovery projects;

177.22 demonstration projects related to energy conservation or other activities deemed appropriate
177.23 by the commissioner;

177.24 (9) intervene in certificate of need proceedings before the Public Utilities Commission;

177.25 (10) collect fees from recipients of loans, grants, or other financial aid from money
177.26 received from litigation or settlement of alleged violations of federal petroleum-pricing
177.27 regulations, which fees must be used to pay the department's costs in administering those
177.28 financial aids; and

177.29 (11) collect fees from proposers and operators of conservation and other energy-related
177.30 programs that are reviewed, evaluated, or approved by the department, other than proposers
177.31 that are political subdivisions or community or nonprofit organizations, to cover the

178.1 department's cost in making the reviewal, evaluation, or approval and in developing additional
