

2.1 (c) This section does not apply to an appropriation in a fiscal year if a law is enacted
2.2 appropriating money in that fiscal year for the purpose of the appropriation.

2.3 Subd. 3. **Exceptions and adjustments.** (a) An appropriation remaining in effect
2.4 under authority of subdivision 2 must be adjusted or discontinued as required by other
2.5 law, by general policies of the commissioner of management and budget, and in the
2.6 following circumstances:

2.7 (b) An appropriation for the fiscal year ending June 30 of the odd-numbered year
2.8 does not remain in effect for the fiscal year starting on July 1 if the legislature specifically
2.9 designated the appropriation as a onetime appropriation, if the commissioner of
2.10 management and budget determines that the legislature clearly intended the appropriation
2.11 to be onetime, or if the program for which the appropriation was made expires on or
2.12 before July 1.

2.13 (c) If an appropriation remains in effect under authority of subdivision 2, but the
2.14 program or activity that is the subject of the appropriation is scheduled to expire during a
2.15 fiscal year, the commissioner of management and budget must prorate the appropriation.

2.16 (d) The commissioner of management and budget may make technical adjustments
2.17 to the amount of an appropriation to the extent the commissioner determines the technical
2.18 adjustments are needed to accurately reflect the amount that constitutes the annual
2.19 base level of the appropriation. The commissioner may make an adjustment under this
2.20 paragraph only if one or more of the following conditions are met:

2.21 (1) the legislature previously appropriated money for a biennium, with the entire
2.22 appropriation being allocated to one year of the biennium, and the commissioner
2.23 determines an adjustment is necessary to accurately reflect the annual amount needed to
2.24 maintain program operations at the same level;

2.25 (2) laws or policies under which revenues and expenditures are accounted for
2.26 have changed to eliminate or consolidate certain funds or accounts, and adjustments in
2.27 appropriations are necessary to implement these changes;

2.28 (3) duties have been transferred between agency programs, or between agencies, and
2.29 adjustments in appropriations are needed to reflect these transfers; or

2.30 (4) a program, or changes to a program, were not fully operational in one fiscal year,
2.31 but will be fully operational in the following year, and an adjustment to the appropriation
2.32 is needed to accurately reflect the annual cost of the new or changed program.

2.33 The commissioner of management and budget must give the chairs of the senate
2.34 Finance Committee and the house of representatives Ways and Means Committee written
2.35 notice of any adjustments made under this subdivision.
