1.6 Section 1. **PUBLIC PURPOSE.**

1.7 The legislature makes the following findings:

1.8 (1) It is important for the economic, social, and environmental well-being of the
 1.9 state that the people of the state have adequate access to quality public buildings and
 1.10 public infrastructure. Providing for private sector entities to enter into traditional as
 1.11 well as innovative agreements with the public sector to undertake the study, planning,
 1.12 design, construction, reconstruction, renovation, improvement, financing, operation, and
 1.13 maintenance of public buildings and infrastructure, including but not limited to facilities
 1.14 and improvements related to transportation, water, wastewater, and appurtenances thereto,
 1.15 will enhance the ability of the state to achieve these objectives.

1.16 (2) The authorization of public-private agreements will:

1.17 (i) provide the public sector with increased access to private sector efficiencies
 1.18 and expertise;

1.19 (ii) facilitate collaboration and cooperation between the public and private sectors;

1.20 (iii) allow the sharing of costs and risks associated with public building and public
 1.21 infrastructure projects currently authorized by law;

1.22 (iv) bring the innovative strengths of the private sector to bear on public building
 1.23 and public infrastructure needs within the state;

- 2.1 (v) reduce the public costs of project design, delivery, operation, or maintenance
 2.2 for eligible facilities;
- 2.3 (vi) accelerate the delivery of eligible facilities already authorized for the public
 2.4 sector to design, build, operate, and maintain;
- 2.5 (vii) encourage life cycle efficiencies in public building and public infrastructure
 2.6 projects;
- 2.7 (viii) foster flexibility in procurement methods to ensure the best value to the public;
- 2.8 (ix) create jobs; and
- 2.9 (x) allow for better use and leverage of public resources, thereby increasing private
 2.10 investment in public buildings and public infrastructure and enhancing capital formation
 2.11 for large projects, ultimately providing savings to taxpayers.

4.29 similar charges from users of eligible facilities only as otherwise provided by law; and

4.30 (2) authorize a private partner or another public entity to impose, collect, increase,
4.31 and enforce fees, rents, and charges to the same extent available to the public sponsor. The

5.9 determines are appropriate to solicit private parties and award public-private agreements
5.10 pursuant to sections 446.11 to 446.19, including, but not limited to, any of the following
5.11 or combination of the following:

5.12 (1) calls for project proposals, whereby the public sponsor describes the eligible
5.13 facilities that private parties are invited to submit proposals to develop; and

5.14 (2) competitive solicitations using requests for qualifications, short-listing of
5.15 qualified proposers, requests for proposals, preproposal meetings with individual
5.16 short-listed proposers, and revised proposals.

5.17 Subd. 2. **Unsolicited proposals.** The public sponsor may also receive unsolicited
5.18 proposals; however, if the public sponsor determines there is sufficient merit to pursue

5.21 sponsor may negotiate with private proposers prior to award.

5.22 Subd. 3. **Factors.** For any procurement in which the public sponsor issues a request
5.23 for qualifications, request for proposals, or similar solicitation document, the request shall

5.31 proposers if the public sponsor cancels the procurement prior to the due date for proposals
5.32 in the request for proposals; (2) to one or more unsuccessful proposers that submit a

6.2 the project after selection of the proposer.

6.3 Subd. 5. **Work product in exchange for payment.** (a) In exchange for a stipend
6.4 or payment for work product under subdivision 4, the public sponsor may require the

6.21 Subd. 7. **Data practices.** Proposals, submissions, qualifications, and other

6.23 public-private agreement shall be treated as data submitted to a government entity
6.24 pursuant to section 13.591.

6.25 Subd. 8. **Other rights of public sponsor.** Notwithstanding any other provision of
6.26 law, the public sponsor may, in its requests for qualifications, requests for proposals, or
6.27 similar solicitation documents: (1) provide exclusive protest remedies; (2) limit the rights
6.28 of private parties responding to such solicitation documents to protest matters arising
6.29 in connection with the procurement; and (3) require that private parties responding to
6.30 such solicitation documents expressly waive all other rights and remedies that may be
6.31 available under applicable law.

6.32 **Sec. 7. [446.16] PUBLIC-PRIVATE AGREEMENT.**

7.15 public sponsor, in its discretion; and (4) the payments described in clauses (1) and (2)
7.16 may be subject to adjustments where the private partner fails to achieve performance
7.17 specifications or standards or otherwise fails to comply with its obligations under the
7.18 public-private agreement. Notwithstanding anything in this subdivision to the contrary,
