When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's membership in the baseline year compared to the measurement year, and work with the managed care or county-based purchasing plan to account for differences that they agree are significant.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a reduction in the utilization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(f) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner.
