## TRANSPORTATION AND RENDERING OF CARCASSES OF ANIMALS, POULTRY, FISH, AND OTHER RENDERABLE PRODUCTS

### 1720.0010 DEFINITIONS.

Subpart 1. **Scope.** The following words and terms where used in these rules shall be defined as follows.

Subp. 2. **Board.** "Board" shall mean the Minnesota Board of Animal Health.

Subp. 3. **Carcass.** "Carcass" shall mean the body or any part thereof of any domestic animal or fowl that has died or has been killed otherwise than by being slaughtered for human or animal consumption. The term "domestic animal" does not include any species of domestic animal which in common practice is maintained in the home of the owner whether or not the particular domestic animal was so housed at any time prior to its death.

Subp. 4. **Collecting station.** "Collecting station" shall mean an establishment maintained and operated by a rendering plant to which a permit for the transportation of carcasses has been issued, where carcasses may be unloaded from trucks operating under permit, for temporary keeping. Such carcasses shall be reloaded only in trucks operated by the same plant which maintains and operates the collecting station.

Subp. 5. **Mink ranch.** "Mink ranch" shall mean a premises equipped and operated for the purpose of raising mink on which no other domestic animals are raised in conjunction with or proximal to the mink operation unless kept

## 1720.0010 MISCELLANEOUS

completely apart and separate from the mink so no intermingling of other domestic animals with mink nor access by other domestic animals to mink food can exist.

Subp. 6. **Mink rancher.** "Mink rancher" shall mean an owner or operator of a mink ranch.

Subp. 7. **Rendering.** "Rendering" shall mean the processing of carcasses, fish, poultry, and parts thereof, including scraps and grease, by cooking under steam pressure. It shall include the skinning and dismembering of carcasses.

Subp. 8. **Rendering plant.** "Rendering plant" shall mean an establishment where rendering is conducted and shall include the rooms or buildings where skinning and dismembering of carcasses is conducted, the tanks in which carcasses are cooked, the rooms or buildings used for storage of hides or tankage or other products from such processing, and the adjacent area utilized in the operation of collecting, hauling, skinning, dismembering, and cooking carcasses, and the packaging, storing, and loading the finished product of the rendering operation, and the area used for the disposal of waste material unsuitable for rendering, and the liquid waste disposal facilities of such plant.

Subp. 9. **Truck.** "Truck" shall mean and include all vehicles or conveyances used for the transportation of carcasses and fish or other renderable parts or by-products thereof.

**Statutory Authority:** *MS s 35.15*

## 1720.0020 PERMITS.

A rendering plant permit may be issued by the board to the owner or operator of a rendering plant upon submission of an application for a permit on a form furnished by the board. The application shall include: name of rendering plant and location by city, village or township, and county; description of each truck to be used in the transportation of carcasses, including the license number and truck body number (see part 1720.0110); location of each collecting station, if any, by city, village or township, and county; signature of owner or operator of the rendering plant or his authorized agent.

**Statutory Authority:** *MS s 35.15*

## 1720.0030 TRUCK OWNED BY PERSON OTHER THAN OWNER OR OPERATOR OF RENDERING PLANT.

If the application lists a truck owned by some person other than the owner or operator of the rendering plant, said owner or operator of the rendering plant shall be responsible for compliance with all laws and regulations pertaining to the transportation of carcasses by the owner or operator of the truck listed. The application shall indicate the name and address of the owner of the truck, and the application shall be accompanied by a copy of a contract between the owner or operator of the rendering plant and the owner or operator of the truck.

**Statutory Authority:** *MS s 35.15*

## 1720.0040 INSPECTION OF PLANT FACILITIES AND TRUCKS.

Before permits are issued, an inspection of the plant, collecting station, and trucks listed on the application shall be made by an agent of the board to determine if the facilities of the plant and the trucks meet the requirements set forth below. A report of said inspection shall be filed with the board.

**Statutory Authority:** *MS s 35.15*

**1720.0050 CARCASS OF ANIMAL WHICH HAS DIED FROM ANTHRAX OR RABIES.**

Permits shall not allow the removal, transportation, or rendering of any carcass of an animal which has died from anthrax or rabies. When circumstances exist which do not reasonably allow the proper disposal of a carcass of an animal which has died from rabies or is suspected to have died from rabies, such carcasses may be transported by a qualified rendering truck directly to a rendering plant for special handling under the direct supervision of a veterinarian.

**Statutory Authority:** *MS s 35.15*

**1720.0060 ENDANGERING HEALTH OF DOMESTIC ANIMALS OF STATE.**

Whenever the board shall determine that the removal, transportation, or rendering of a carcass of an animal or fowl which has died or has been killed on account of some specified disease will endanger the health of the domestic animals of the state, they shall notify all rendering plants holding permits from the board, and thereafter no such plant shall remove, transport, or render the carcass of any animal or fowl which has died from or been killed because affected with or exposed to such disease.

**Statutory Authority:** *MS s 35.15*

**1720.0070 PERMITS TO MINK RANCHERS.**

Permits may be issued to mink ranchers to pick up individual carcasses when a veterinarian, after his examination, certifies to the board that to the best of his knowledge and belief the animal was not affected with any infectious, contagious, or communicable disease. Such certification shall be made on forms furnished by the board. Such permits shall contain sufficient information to identify the carcass or carcasses for which the permit is granted and the mink rancher to whom it is issued. The permit shall authorize the permittee to transport the specific carcass or carcasses from the premises where the animal died over public highways directly to the mink ranch operated by the permittee, but not across state lines. The board may refuse to issue such permit if the mink rancher making application therefor has in the past failed to comply with provisions of a special permit or these rules.

**Statutory Authority:** *MS s 35.15*

**1720.0080 TRANSPORTATION OF CARCASSES, FISH, OR OTHER RENDERABLE PARTS OR BYPRODUCTS THEREOF.**

Trucks permitted for the transportation of carcasses, other than carcasses destined for mink food under special permit, shall be equipped with a truck body or tank that is watertight and so constructed that no drippings or seepings from such carcasses can escape. The truck body or tank shall have a permanent cover and be completely enclosed. Cover arrangements other than permanent may be used on trucks or trailers in special circumstances such as hauling carcasses from collecting stations directly to the main plant provided it passes inspection as being completely enclosed and prior approval is received from the board or its agent before it is used. The tailgate shall completely enclose the rear openings of the truck. Trucks used for hauling renderable products other than carcasses shall be adequately constructed to prevent dripping and equipped with a cover to prevent the transported product against undue exposure to the outside.

**Statutory Authority:** *MS s 35.15*

**1720.0090 MISCELLANEOUS**

1428

**1720.0090 HAULING CARCASSES FOR MINK FOOD.**

**Statutory Authority:** *MS s 35.15*

**1720.0110 TRUCK BODY NUMBER.**

Each truck used for the transportation of carcasses shall be assigned a number by the rendering plant. This number shall be known as the "body number." Both the number of the permit issued the rendering plant and the body number of the truck shall be printed in a conspicuous place and manner on the left side of the truck bed or body in figures at least four inches high. No numbers are required on trucks hauling renderable parts, byproducts, or fish other than carcasses, nor on trucks used to haul carcasses destined for mink food under special permit.

**Statutory Authority:** *MS s 35.15*

**1720.0120 CLEANING AND DISINFECTION.**

Whenever a truck or person in charge thereof or his agent has been upon premises for the purpose of removing a carcass, and before such truck can be taken upon a public highway or upon other premises, the wheels of such truck, and the shoes or boots of persons which have been upon such premises, shall be thoroughly cleaned and disinfected with a disinfectant of a prescribed strength approved by the Board of Animal Health. Such cleaning and disinfection shall also be conducted prior to each time the truck or persons in charge thereof leave the premises of the rendering plant.

**Statutory Authority:** *MS s 35.15*

**1720.0130 INSECTICIDE.**

Upon leaving any premises and prior to closing the permanent cover, a sufficient amount of insecticide shall be discharged into the truck body and cab to destroy and prevent accumulated flies from escaping at the next stop during the time from May 1 through September 30.

**Statutory Authority:** *MS s 35.15*

**1720.0140 REMOVAL OF CARCASSES.**

Any unrenderable article or thing which may be transported with a carcass or parts thereof shall be unloaded only at the rendering plant and be there disposed of by burning or burying, except metal containers which shall be thoroughly cleaned and disinfected before leaving the rendering plant.

**Statutory Authority:** *MS s 35.15*

**1720.0160 COLLECTING STATIONS.**

No permit shall be issued to the owner of a rendering plant for the operation of a collecting station unless the station includes a building or buildings adapted to the purpose intended, provided with concrete floors with good drainage, and so constructed that it may be maintained in a sanitary condition. There shall be provision to prevent entrance to said building of rodents or other animals. All windows, doors, and other openings shall be properly screened unless a program for insect extermination satisfactory to the board is followed in such buildings and on the premises where such buildings are located.

**Statutory Authority:** *MS s 35.15*

**Statutory Authority:** *MS s 35.15*

**1720.0190 CARCASSES UNLOADED AT COLLECTING STATION.**

Carcasses unloaded at a collecting station shall be unloaded within enclosures or a building provided therefor. No such carcass shall be allowed to remain in the collecting station for a period longer than 24 hours before reloading into another permitted truck operated by the same rendering plant for transportation directly to such plant.

**Statutory Authority:** *MS s 35.15*

**1720.0200 RENDERING PLANT.**

No permit shall be issued to the owner of a rendering plant unless the plant includes a building or buildings adapted to the purpose intended, provided with concrete floors, and provided with good drainage, and so constructed that it may be maintained in a sanitary condition. There shall be provision to prevent entrance to said buildings of any rodents or other animals. All windows, doors, and other openings shall be properly screened unless a program for insect extermination satisfactory to the board is followed in such buildings and on such premises.

**Statutory Authority:** *MS s 35.15*

**1720.0210 RENDERING CARCASSES.**

All skinning and dismembering of carcasses shall be done in buildings properly constructed and provided therefor. The cooking vats shall be airtight except for proper escapes or vents for the live steam used in cooking. All such vents shall be furnished with adequate closing facilities and necessary steam valve gauges to ensure that cooking shall be at the required steam pressure. All carcasses and parts thereof shall be disposed of by subjecting them to a recognized cooking and rendering procedure in vats or tanks under steam pressure.

1720.0230 SANITATION GUIDELINES.

Every attempt should be made to comply with the following sanitation guidelines which are designed to decrease bacterial contamination of the plant and the finished product:

A. Raw material room, processing room, and finished product room should be divided into completely separate areas by solid walls and ceilings.

B. Control work pattern of employees from one work area to another or supply equipment and space for scrubbing footwear, changing clothes, and washing hands between such work areas.

C. Avoid the transfer of equipment, tools, mechanical loaders, or scrapers, particularly from the raw material or processing area to the storage and blending areas.

D. Maintain a constant and active rodent, bird, and insect control program especially in areas where the finished product is stored.

E. Exclude visitors or provide good security measures such as disposable or washable footwear, and conduct tour from finished product to raw material area.

F. Avoid excess production, accumulation, and distribution of dust in the grinding area. Cover conveyor belts and whirling machinery to keep air movement at a minimum. Dust that settles on beams, shelves, window sills, and equipment should be removed by vacuuming.

G. Reprocess all spillage through the cookers.

H. Conduct a thorough daily cleanup of floors and equipment. Avoid the accumulation of pools of water. Keep floor and equipment as dry as possible.

I. Make adequate washing, showering, and dressing facilities available to all employees.

J. Cooperate with the salmonella monitoring system carried out by field veterinarians employed by the Minnesota Board of Animal Health and the Animal Health Division, U.S. Department of Agriculture.
