LICENSING OF DATA SERVICE ORGANIZATIONS**2705.1000 APPLICATION INFORMATION.**

A data service organization shall apply to the commissioner for a license. The rating association shall submit an application to be licensed as a data service organization by July 1, 1983. An application to be a data service organization shall include all information required by Minnesota Statutes, section 79.62. In addition, the application shall include:

A. the organization's plan of operation including:

(1) a description of the applicant's operating premises and computer capabilities;

(2) a description of the management and operation of the organization, including a description of major staff positions and necessary qualifications for the positions;

(3) a list of members and their responsibilities; and

(4) a procedure by which insureds and any other interested party may challenge the action of the data service organization; and

B. a plan for data collection and analysis, and other activities of the data service organization, including:

(1) A statistical plan for the collection and reporting of exposure base and loss data of individual insureds from each member;

(2) A system for the classification of risks to be used for reporting by member insurers, and for calculating pure premium relativities, and all other rate-related or data analytic activities it proposes to undertake;

(3) Manual rules reasonably related to the recording and reporting of data pursuant to the statistical plan and the classification system;

(4) Data reporting requirements for members and monitoring procedures. A data service organization may not collect or report expense or profit data from its members but may collect loss adjustment costs. Premium data may be reported to the extent needed to monitor the quality and integrity of the data bases. Following the approval of a pure premium base rate schedule, the data service organization may require premium data to be reported at that level, provided that reporting need not be required of companies writing a small volume of Minnesota workers' compensation premiums. The criteria for being excused from reporting will be determined by the data service organization;

(5) a plan for the collection of any other data not prohibited in subitem (4) and a description of these data;

(6) A plan for and description of the ratemaking report required by Minnesota Statutes, section 79.61;

(7) Plans for disseminating information to members of the organization and to the commissioner;

(8) Plans for audit procedures to ensure that data reporting requirements are met by organization members;

(9) A plan for compiling expense data reported to the commissioner for development of advisory rates, rating plan values, and discount factors; and

(10) A description of any changes from the uniform statistical plan, classification system, and related rules which are in effect at the time the application is made.

2705.1100 MANUALS.

A. There are five manuals currently filed by the rating association and in force in Minnesota. The rating association must file similar manuals as part of their application to become a data service organization. The application must include a list of any changes in the current manuals.

B. The commissioner shall approve a uniform classification system and a uniform statistical plan and manual rules related to the classification system and the statistical plan.

C. The commissioner shall disapprove changes in the manuals which would substantially lessen competition or which would lead to premiums which are unfairly discriminatory.

D. Every workers' compensation insurer shall report its data in accordance with the classification code manual, and the unit statistical plan manual, and the related rules in the basic manual. In the current basic manual these rules consist of the following:

(1) in part one, rules I, II, III, IV, V, VIII (A.1, A.2a, A.2.b.1, A.2.c-e, B.1, B.2, B.6, C.1, C.2, C.4), IX, XI (A, B), XII, XIII, XIV (A-D), XV (A and C);

(2) all of part two on classifications; and

(3) in part three, pages 9–17 on classifications; pages 18–19, special rules (IV, V, IX); and pages 20–23.

E. Insurers may use the premium factors, the experience rating plan, or the retrospective rating plans developed by the rating association. They may also develop and use their own factors and plans. In the current basic manual, the rules which insurers will not be required to use consist of the following:

(1) in part one, rules VI, VII, VIII (A.2.b.2–4, B.3–5, C.3) X, XI (C–H), XIV (E–G), XV (B); and

(2) in part three, pages 1–8; pages 18–19, special rules VI and VII; and appendix B.

Any amendment to a document filed under this paragraph is effective 30 days after filing unless disapproved by the commissioner.

Subp. 2. **Changes filed.** A data service organization must file with the commissioner every proposed change in the uniform classification system, the uniform statistical plan, or associated manual rules. Any change must be approved by the commissioner who shall also establish an effective date for the change. 2705.1800 USE OF RATEMAKING REPORT.

A. After the ratemaking report has been filed with the commissioner, insurers may develop and use rates based upon the pure premium base rates contained in the report. Effective January 1, 1984, insurers may also develop and use rates based upon any reasonable factors which are not inconsistent with Minnesota Statutes, sections 79.50 to 79.62.

B. If an insurer uses the pure premium base rates contained in the ratemaking report, then the insurer may calculate rates by:

(1) application of trend factors based on the analysis provided by the data service organization or on the insurer's own interpretations of underlying data;

(2) application of loss development factors reflecting expected development beyond that in the pure premium base rate schedule to the ultimate loss level;

(3) application of a factor to reflect the insurer's expected expense requirements;

(4) application of any other factor based on the analysis provided by the data service organization or on the insurer's own interpretation of underlying data.

C. Insurers may adjust premiums by application of discount factors as defined in Minnesota Statutes, section 79.52, subdivision 8 and merit rating as defined in Minnesota Statutes, section 79.52, subdivision 9. Insurers may use their own plans or plans developed by a data service organization in which they maintain membership.

D. An insurer shall not refuse to write insurance for an employer solely because:

(1) the employer was denied coverage by another insurer, whether by cancellation or nonrenewal or refusal to offer coverage; or

(2) the employer was insured through the assigned risk plan.

E. All data and calculations used to calculate rates from the pure premium base rate schedule shall be clearly documented.
