

CHAPTER 4415
ENVIRONMENTAL QUALITY BOARD
PIPELINE ROUTING

GENERAL	CONTENTS OF APPLICATION
4415.0010 DEFINITIONS.	4415.0115 GENERAL INFORMATION.
4415.0015 AUTHORITY, SCOPE, PURPOSE, AND OBJECTIVES.	4415.0120 DESCRIPTION OF PROPOSED PIPELINE AND ASSOCIATED FACILITIES.
4415.0020 APPLICABILITY OF RULES.	4415.0125 LAND REQUIREMENTS.
EMERGENCY PROCEDURES	4415.0130 PROJECT EXPANSION.
4415.0025 PIPELINE EMERGENCY ACTION AND PROCEDURES.	4415.0135 RIGHT-OF-WAY PREPARATION PROCEDURES AND CONSTRUCTION ACTIVITY SEQUENCE.
CONDITIONAL EXCLUSION PROCEDURES	4415.0140 LOCATION OF PREFERRED ROUTE AND DESCRIPTION OF ENVIRONMENT.
4415.0030 CONDITIONAL EXCLUSION PROCEDURES AND DETERMINATION.	4415.0145 ENVIRONMENTAL IMPACT OF PREFERRED ROUTE.
EXEMPTION FROM ROUTE SELECTION PROCEDURE	4415.0150 RIGHT-OF-WAY PROTECTION AND RESTORATION MEASURES.
4415.0035 PARTIAL EXEMPTION FROM PIPELINE ROUTE SELECTION PROCEDURES.	4415.0160 OPERATION AND MAINTENANCE.
4415.0040 CRITERIA FOR PARTIAL EXEMPTION FROM PIPELINE ROUTE SELECTION PROCEDURES.	4415.0165 LIST OF GOVERNMENT AGENCIES AND PERMITS.
PIPELINE ROUTE SELECTION PROCEDURES	4415.0170 EVIDENCE OF CONSIDERATION OF ALTERNATIVE ROUTES.
4415.0045 APPLICATION PROCEDURES AND REQUIREMENTS.	PIPELINE ROUTING PERMIT
4415.0050 NOTICE OF APPLICATION ACCEPTANCE.	4415.0175 PERMIT ISSUANCE, DISTRIBUTION, AND EMINENT DOMAIN.
4415.0055 APPOINTMENT OF CITIZEN ADVISORY COMMITTEES.	4415.0180 DELAY IN ROUTE CONSTRUCTION.
4415.0060 CITIZEN ADVISORY COMMITTEE MEMBERSHIP.	4415.0185 PERMIT AMENDMENTS.
4415.0065 PUBLIC ADVISER.	4415.0190 REVIEW OF PLAN AND PROFILE AND RIGHT-OF-WAY CONSTRUCTION SPECIFICATIONS.
4415.0070 PUBLIC INFORMATION MEETINGS.	4415.0195 PERMIT CONDITIONS FOR RIGHT-OF-WAY PREPARATION, CONSTRUCTION, CLEANUP, AND RESTORATION.
4415.0075 ACCEPTANCE OF ROUTE PROPOSALS.	4415.0200 REPORT OF COMPLAINTS.
4415.0080 ANALYSIS OF ALTERNATIVE ROUTES.	4415.0205 PERMIT MODIFICATION OR SUSPENSION.
4415.0085 PUBLISHED NOTICE OF ROUTES ACCEPTED.	4415.0207 TERMINATION OF BOARD JURISDICTION OVER PIPELINE ROUTING PERMIT.
4415.0090 PUBLIC HEARINGS.	OTHER REQUIREMENTS
4415.0095 ROUTE SELECTION AND BOARD DECISION.	4415.0210 APPLICATION FEES.
4415.0100 CRITERIA FOR PIPELINE ROUTE SELECTION.	4415.0215 GENERAL RESPONSIBILITIES.
APPLICATION PROCEDURES	
4415.0105 PROCEDURAL REQUIREMENTS.	

GENERAL

4415.0010 DEFINITIONS.

Subpart 1. **Scope.** The definitions in Minnesota Statutes, section 116I.015, and subparts 2 to 35 apply to this chapter.

Subp. 2. **Act.** "Act" has the meaning given it in Minnesota Statutes, section 116I.015.

Subp. 3. **Affected landowner.** "Affected landowner" means an owner or lessee of record of real property, any part of which is within the proposed pipeline route.

Subp. 4. **Authorized representative or agent.** "Authorized representative" or "agent" means a person who is authorized to act as a contact person on behalf of the applicant or permittee.

Subp. 5. **Applicant.** "Applicant" means any person or persons who apply to the board for a conditional exclusion, partial exemption, pipeline route selection, or emergency.

Subp. 6. **Application.** "Application" means a document submitted by a person or persons to the board for conditional exclusion, partial exemption,

pipeline route selection, or emergency, the contents of which are described in this chapter.

Subp. 7. Associated facilities. "Associated facilities" means all parts of those physical facilities through which hazardous liquids or gas moves in transportation, including but not limited to pipe, valves, and other appurtenances connected or attached to pipe, pumping and compressor units, fabricated assemblies associated with pumping and compressor units, metering and delivery stations, regulation stations, holders, breakout tanks, fabricated assemblies, cathodic protection equipment, telemetering equipment, and communication instrumentation located on the right-of-way.

Subp. 8. Barrel. "Barrel" has the meaning given in part 7853.0100, subpart 5.

Subp. 9. Board. "Board" means the Minnesota Environmental Quality Board.

Subp. 10. Btu. "Btu" has the meaning given in part 7853.0100, subpart 6.

Subp. 11. Chair. "Chair" is the person defined in part 4405.0100, subpart 4, or in the absence of the chair, the vice-chair defined in part 4405.0100, subpart 21.

Subp. 12. Construction. "Construction" means any clearing of land, excavation, or other action for the purpose of constructing new pipeline that would adversely affect the natural environment of a pipeline route. Construction does not include changes needed for temporary use of a route for purposes of maintenance, repair, or replacement of an existing pipeline and associated facilities within existing rights-of-way, or for the minor relocation of less than three-quarters of a mile of an existing pipeline or for securing survey or geological data, including necessary borings to ascertain soil conditions.

Subp. 13. Design day. "Design day" has the meaning given in part 7851.0010, subpart 6.

Subp. 14. Environment. "Environment" means physical conditions existing in the area that may be affected by a proposed pipeline and associated facilities. It includes land, air, water, minerals, flora, fauna, ambient noise, energy resources, natural features, or man-made objects of historic, archaeological, geologic, or aesthetic significance.

Subp. 15. Equivalent Mcf. "Equivalent Mcf" has the meaning given in part 7851.0010, subpart 8.

Subp. 16. Filed. "Filed" means submitted to the board. A document is considered filed with the board when it is received by the board.

Subp. 17. Gas. "Gas" means natural gas, flammable gas, or gas which is toxic or corrosive.

Subp. 18. Gas volume. "Gas volume" has the meaning given in part 7851.0010, subpart 11.

Subp. 19. Hazardous liquid. "Hazardous liquid" means petroleum, petroleum products, or anhydrous ammonia.

Subp. 20. Liquefied gas. "Liquefied gas" has the meaning given in part 7851.0010, subpart 16.

Subp. 21. Liquefied petroleum gas; LPG. "Liquefied petroleum gas" or "LPG" has the meaning given in part 7853.0100, subpart 15.

Subp. 22. Mcf. "Mcf" has the meaning given in part 7855.0010, subpart 21.

Subp. 23. Permittee. "Permittee" means any person to whom a pipeline routing permit is issued.

Subp. 24. Person. "Person" means an individual, partnership, joint venture, private or public corporation, association, firm, public service company, cooperative, political subdivision, municipal corporation, government agency, public utility district, or any other entity, public or private, however organized.

Subp. 25. **Pipe.** "Pipe" means any pipe or tube through which hazardous liquids or gas flows or is conveyed from one point to another.

Subp. 26. **Pipeline.** "Pipeline" means:

A. pipe with a nominal diameter of six inches or more that is designed to transport hazardous liquids, but does not include pipe designed to transport a hazardous liquid by gravity, and pipe designed to transport or store a hazardous liquid within a refining, storage, or manufacturing facility; or

B. pipe designed to be operated at a pressure of more than 275 pounds per square inch and to carry gas.

Subp. 27. **Pipeline company.** "Pipeline company" means an entity that operates a pipeline.

Subp. 28. **Pipeline project or project.** "Pipeline project" or "project" means a pipeline and associated facilities that are planned or under construction.

Subp. 29. **Pipeline routing permit.** "Pipeline routing permit" means the written document issued by the board to the permittee that designates a route for a pipeline and associated facilities, conditions for right-of-way preparation, construction, clean-up, and restoration. The permit may not set safety standards for pipeline construction.

Subp. 30. **Public adviser.** "Public adviser" means a staff person designated by the board for the sole purpose of assisting and advising any person on how to effectively participate in the pipeline route selection procedures.

Subp. 31. **Right-of-way.** "Right-of-way" means the interest in real property used or proposed to be used within a route to accommodate a pipeline and associated facilities.

Subp. 32. **Route.** "Route" means the proposed location of a pipeline between two end points. A route may have a variable width from the minimum required for the pipeline right-of-way up to 1.25 miles.

Subp. 33. **Route segment.** "Route segment" means a portion of a route.

Subp. 34. **Shelterbelt.** "Shelterbelt" means the barrier zone of grasses, shrubs, and trees, or any combination of them, planted to protect crops, soil, and other sensitive areas against erosion.

Subp. 35. **Synthetic gas.** "Synthetic gas" has the meaning given in part 7851.0010, subpart 26.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0015 AUTHORITY, SCOPE, PURPOSE, AND OBJECTIVES.

Subpart 1. **Authority.** This chapter is adopted under authority granted in Minnesota Statutes, section 116I.015, to implement review procedures for the routing of pipelines that give effect to the purposes of the act.

Subp. 2. **Scope.** This chapter applies to pipelines defined in Minnesota Statutes, section 116I.015, unless excluded by statute or this chapter. This chapter does not set safety standards for the design or construction of pipelines. The issuance of a pipeline routing permit under Minnesota Statutes, section 116I.015, and this chapter for the subsequent purchase and use of a right-of-way with the route is the only site approval required to be obtained by the person owning or constructing the pipeline. The pipeline routing permit supersedes and preempts all zoning, building, or land use rules, regulations, or ordinances adopted by regional, county, local, or special purpose governments, as provided in Minnesota Statutes, section 116I.015, subdivision 4. The pipeline routing permit must not contravene applicable state or federal jurisdiction, rules, or regulations that govern safety standards for pipelines nor shall the permit set safety standards for the design or construction of pipelines.

Subp. 3. **Purpose.** Minnesota Statutes, section 116I.015, recognizes that

pipeline location and restoration of the affected area after construction is important to citizens and their welfare and that the presence or location of a pipeline may have a significant impact on humans and the environment.

To properly assess and determine the location of a pipeline, it is necessary to understand the impact that a proposed pipeline project will have on the environment. Pipeline route designation procedures, proper pipeline right-of-way preparation, construction practices, and restoration of the affected area will lessen or mitigate the impacts of the proposed pipeline project on humans and the environment. The purpose of this chapter is to aid in the selection of a pipeline route and to aid in the understanding of its impacts and how those impacts may be reduced or mitigated through the preparation and review of information contained in pipeline routing permit applications and environmental review documents.

Subp. 4. Objectives. The process created by this chapter is designed to:

A. locate proposed pipelines in an orderly manner that minimizes adverse human and environmental impact;

B. provide information to the project proposer, governmental decision makers, and the public concerning the primary human and environmental effects of a proposed pipeline project;

C. reduce delay, uncertainty, and duplication in the review process; and

D. ensure that pipeline routing permit needs are met and fulfilled in an orderly and timely manner.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0020 APPLICABILITY OF RULES.

Subpart 1. Exclusions. This chapter does not apply to:

A. temporary use of a route for purposes other than installation of a pipeline;

B. securing survey and geological data;

C. repair or replacement of an existing pipeline within an existing right-of-way;

D. minor relocation of less than three-quarters of a mile of an existing pipeline;

E. pipe designed to transport a hazardous liquid by gravity;

F. associated facilities and pipe designed to transport or store a hazardous liquid within a refining, storage, or manufacturing facility;

G. associated facilities when they are being constructed as an addition to an existing pipeline;

H. maintenance activities on existing pipeline rights-of-way;

I. natural gas pipelines occupying streets, highways, or other public property within a municipality under rights granted pursuant to a license, permit, right, or franchise that has been granted by the municipality under authority of Minnesota Statutes, section 216B.36; and

J. any person that proposes to construct or operate an interstate natural gas pipeline under the authority of the federal Natural Gas Act, United States Code, title 15, section 717, et. seq.

Subp. 2. Conditional exclusion. This chapter does not apply to construction of a new pipeline in a right-of-way in which a pipeline has been constructed before July 1, 1988, or in a right-of-way that has been approved by the board after July 1, 1988, except when the board determines that there is a significant chance of an adverse effect on the environment or that there has been a significant change in land use or population density in or near the right-of-way since the first

construction of a pipeline within the right-of-way, or since the board first approved the route within which the right-of-way is located. Part 4415.0030 addresses conditional exclusion procedures.

Subp. 3. Partial exemption. The board may exempt a proposed pipeline from part of the pipeline routing permit procedures in emergencies or if the board determines that the proposed pipeline will not have a significant impact on humans or the environment. Part 4415.0025 addresses emergency procedures and part 4415.0035 addresses partial exemption procedures.

Subp. 4. Pipeline route selection. If the board does not grant a partial exemption or if the pipeline company chooses not to apply for a partial exemption, the pipeline company may submit an application for pipeline route selection and a pipeline routing permit. Part 4415.0040 addresses pipeline route selection procedures.

Subp. 5. Denial of request. Application costs for a conditional exclusion, partial exemption, pipeline route selection, or emergency are borne by the applicant as determined in part 4415.0210. If the board denies an applicant's request for a conditional exclusion, partial exemption, or emergency, the applicant remains responsible for the actual costs and any additional time required for any other application procedures and requirements necessary for further action by the board.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

EMERGENCY PROCEDURES

4415.0025 PIPELINE EMERGENCY ACTION AND PROCEDURES.

Subpart 1. Pipeline emergency action. In the rare situation where immediate action by a pipeline company whose pipeline system requires the immediate construction of a pipeline is considered essential to avoid or eliminate an imminent threat, prevent injury, loss of life, property damage, or loss of essential public services, a pipeline project may be undertaken without the review that would otherwise be required by this chapter.

Subp. 2. Pipeline emergency procedures. The pipeline company shall notify and demonstrate to the chair, either orally or in writing, that immediate action is essential and must receive temporary authorization from the chair to proceed. All oral requests must be followed by a written request within three working days. Temporary authorization to proceed must be determined by the chair as soon as possible after the request is made and must be limited to only those aspects of the project necessary to control the immediate impacts of the emergency.

A. If temporary authorization to proceed is granted by the chair, the pipeline company must appear at the next board meeting to seek authorization from the board to continue activities necessary to remedy the emergency. Other aspects of the project remain subject to review under this chapter.

B. If temporary authorization to proceed is denied by the chair, the pipeline company may request and be granted an immediate special meeting of the board under part 4405.0600, subpart 4. The board shall then determine whether a pipeline emergency exists and whether temporary authorization for the pipeline company to proceed with immediate construction is appropriate.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

CONDITIONAL EXCLUSION PROCEDURES

4415.0030 CONDITIONAL EXCLUSION PROCEDURES AND DETERMINATION.

Subpart 1. Procedures. A pipeline company having a reasonable basis to

assert that a pipeline routing permit is not required to construct or operate a proposed pipeline under Minnesota Statutes, section 116I.015, shall so notify the board and the county board of each county through which the pipeline will be constructed. The board shall make a determination on whether to grant a conditional exclusion provided for in part 4415.0020, subpart 2, only when the pipeline company:

A. completes the environmental assessment worksheet (EAW) review procedures as provided in parts 4410.1000 to 4410.1700; and

B. provides information that will allow the board to determine if there has been a significant change in land use or population density in or near the right-of-way since the first construction of pipeline in the right-of-way, or since the board first approved the right-of-way. This information will be distributed with the EAW for comments.

Subp. 2. Determination. Based on the record of the EAW decision, including the information required by part 4415.0030, subpart 1, item B, the board shall grant a conditional exclusion unless it finds that:

A. there is a significant chance of an adverse effect on the environment;
or

B. there has been a significant change in land use or population density in or near the right-of-way since the first construction of the pipeline in the right-of-way, or since the board first approved the right-of-way.

Subp. 3. Granting of conditional exclusion. When an exclusion is granted, the applicant must comply with the requirements provided by Minnesota Statutes, sections 116I.02 and 117.49. No further review under Minnesota Statutes, section 116I.015, and this chapter is required.

Subp. 4. Denial of exclusion. If the board does not grant an exclusion, the pipeline company may submit an application for a pipeline routing permit under either the partial exemption procedures in parts 4415.0035 to 4415.0040 or the full pipeline route selection procedures in parts 4415.0045 to 4415.0100.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

EXEMPTION FROM ROUTE SELECTION PROCEDURE

4415.0035 PARTIAL EXEMPTION FROM PIPELINE ROUTE SELECTION PROCEDURES.

Subpart 1. Partial exemption procedures. A person may apply to the board for partial exemption from the pipeline route selection procedures for the issuance of a pipeline routing permit. To apply for a partial exemption, a person must comply with the application procedures of part 4415.0105 and submit an application that contains the information identified in parts 4415.0115 to 4415.0165. The board shall decide whether to grant or deny the partial exemption within 90 days after board acceptance of the partial exemption application.

Subp. 2. Notice of partial exemption application. Within 15 days of board acceptance of an application for partial exemption, the applicant shall:

A. provide published notice, including a description of the proposed project, including size and type, and a map of the proposed pipeline route in each county in which the route is proposed to be located;

B. comply with application distribution requirements of part 4415.0105, subpart 6; and

C. send by certified mail a copy of the partial exemption application and a clear description of the procedures that must be followed for commenting on the partial exemption to the chair or chief executive of any regional development commission, county, incorporated municipality, organized town, and to affected landowners.

Subp. 3. Comments on partial exemption. A person may file comments with the board within 30 days after giving notice under subpart 2, item C, stating reasons why the board should grant or deny the partial exemption.

Subp. 4. Public information meetings. The board shall conduct a public information meeting in each county in which the pipeline and associated facilities are proposed to be located. The purpose of the public information meetings is to assist the board in determining whether to grant or deny the partial exemption.

Subp. 5. Determination of partial exemption. In deciding whether to grant or deny the partial exemption, the board shall consider any comments that are filed, the record of the public information meetings, and the information contained in the application relevant to the criteria for partial exemption in part 4415.0040. If the board grants the partial exemption from the pipeline route selection procedures in parts 4415.0045 to 4415.0100, the board must state in writing its reasons for supporting the partial exemption and must issue a pipeline routing permit in accordance with part 4415.0175.

Subp. 6. Denial of partial exemption. When a partial exemption is denied, the applicant must be notified in writing of the reasons for denial. A denial is without prejudice to the applicant's right to an appearance before the board, filing information after revisions are made to meet objections specified as reasons for the denial, or to request that the board continue processing its application under full pipeline route selection procedures contained in parts 4415.0045 to 4415.0100 for a pipeline routing permit.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0040 CRITERIA FOR PARTIAL EXEMPTION FROM PIPELINE ROUTE SELECTION PROCEDURES.

Subpart 1. Scope and purpose of criteria. The scope and purpose of this part is to specify the criteria used by the board in determining whether to grant a partial exemption from the pipeline route selection procedures. The board shall make a specific written finding with respect to each of the criteria. Any new easements or right-of-way agreements obtained from potentially affected landowners before issuance of a pipeline routing permit are at the sole risk of the applicant. The fact that the agreements have been obtained shall not be considered by the board in selecting the route.

Subp. 2. Standard. In granting a partial exemption from the pipeline route selection procedures, the board must determine that the proposed pipeline and associated facilities will not have a significant impact on humans or the environment. The board shall evaluate the impacts that may be reasonably expected to occur from the proposed pipeline and associated facilities.

Subp. 3. Criteria. In determining whether a proposed pipeline and associated facilities qualify for partial exemption and issuance of a pipeline routing permit, the board shall consider the impact of the pipeline and associated facilities on the following:

A. human settlement, existence and density of populated areas, existing and planned future land use, and management plans;

B. the natural environment, public and designated lands, including but not limited to natural areas, wildlife habitat, water, and recreational lands;

C. lands of historical, archaeological, and cultural significance;

D. economies within the route, including agricultural, commercial or industrial, forestry, recreational, and mining operations;

E. pipeline cost and accessibility;

F. use of existing rights-of-way and right-of-way sharing or paralleling;

- G. natural resources and features;
- H. the extent to which human or environmental effects are subject to mitigation by regulatory control and by application of the permit conditions contained in part 4415.0185 for pipeline right-of-way preparation, construction, cleanup, and restoration practices;
- I. cumulative potential effect of related or anticipated future pipeline construction; and
- J. relevant policies, rules, and regulations of the state and federal agencies and local government land use laws including ordinances adopted under Minnesota Statutes, section 299J.05, relating to the location, design, construction, or operation of the proposed pipeline and associated facilities.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

PIPELINE ROUTE SELECTION PROCEDURES

4415.0045 APPLICATION PROCEDURES AND REQUIREMENTS.

A person submitting an application for a pipeline routing permit must comply with the application procedures of part 4415.0105 and submit an application that contains the information required in parts 4415.0115 to 4415.0170. Within nine months from board acceptance of an application for route selection, unless the board by resolution extends this deadline for cause, the board shall issue a pipeline routing permit for the proposed pipeline and associated facilities.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0050 NOTICE OF APPLICATION ACCEPTANCE.

Within 20 days of board acceptance of an application for a pipeline routing permit under part 4415.0105, subpart 4, the board shall provide published notice of acceptance of the application in a newspaper in each county in which a route is proposed by the applicant.

The notice must include:

- A. identification of the applicant;
- B. the date of the board's acceptance of the application;
- C. a brief description of the proposed facility including but not limited to size and type;
- D. a map showing the routes proposed in that county;
- E. the name and function of the public adviser and the address and telephone number where that person can be reached;
- F. locations where the pipeline routing permit application is available to the public;
- G. procedures for proposing alternate routes; and
- H. notice of public information meetings.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0055 APPOINTMENT OF CITIZEN ADVISORY COMMITTEES.

The board may establish citizen advisory committees to aid and advise the board in evaluating routes for pipelines. The board shall provide guidance to the advisory committee in the form of a charge to the committee and through specific requests to it.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0060 PIPELINE ROUTING

3602

4415.0060 CITIZEN ADVISORY COMMITTEE MEMBERSHIP.

Citizen advisory committees appointed to evaluate routes considered for designation shall be comprised of as many persons as may be designated by the board, but at least one representative from each of the following: a regional development commission, the county, a municipal corporation, and a town board from each county in which a route is proposed to be located. No officer, agent, or employee of the applicant shall serve on the citizen's advisory committee.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0065 PUBLIC ADVISER.

The public adviser shall be available to any person to advise that person how to effectively participate in route selection procedures. The public adviser is not authorized to give legal advice or advice that may affect the legal rights of the person being advised or to act as an advocate.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0070 PUBLIC INFORMATION MEETINGS.

Subpart 1. Requirements. The board shall hold public information meetings as provided in this subpart.

A. After acceptance of an application for pipeline route selection, the board shall hold at least one public information meeting in each county crossed by the applicant's preferred pipeline route to explain the route designation process and to respond to questions raised by the public.

B. Before public hearings held to consider the routes accepted for consideration by the board, the board shall hold a public information meeting in each county through which a route is proposed to explain the route designation process, present major issues, and respond to questions raised by the public.

Subp. 2. Notice of public information meetings. Published notice of the date, time, and location of public information meetings shall be placed in a newspaper in each county in which a route is proposed at least ten calendar days before the public information meeting.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0075 ACCEPTANCE OF ROUTE PROPOSALS.

Subpart 1. Acceptance for consideration. The board shall accept for consideration at the public hearing the routes and route segments proposed by the applicant and may accept for public hearing any other route or route segment it considers appropriate for further consideration. No route shall be considered at the public hearing unless accepted by the board before notice of the hearing. Routes accepted shall be identified by the board in accordance with part 4415.0085. A proposer of a route or route segment that the board has accepted for consideration at the hearing shall make an affirmative presentation of facts on the merits of the route proposal at the public hearing.

Subp. 2. Sources of route proposals. The board member agencies, board staff, and the citizen advisory committee may propose routes or route segments directly to the board. Route proposals made by the citizen advisory committee must be made no later than 70 days after appointment of the citizen advisory committee.

Subp. 3. Requirements for other route sources. A person other than one listed in subpart 2 may propose a route or a route segment according to items A. to C.

A. The proposed pipeline route or route segment must be set out specifically on appropriate maps or aerial photos specified in part 4415.0140, subpart 1.

B. The pipeline route or route segment proposal must contain the data and analysis required in parts 4415.0140, subpart 3, and 4415.0145, unless the information is substantially the same as provided by the applicant.

C. The route proposal must be presented to the chair within 70 days of acceptance by the board of the applicant's permit application.

Subp. 4. Preparation of route proposal. Within ten days of receipt of a route proposal from a source described in subpart 3, the chair shall determine if the route proposal contains the information required in subpart 3. If the chair determines that the route proposal contains the required information, the chair shall forward the route proposal to the board for a determination of acceptance for hearing. If the chair determines that the proposal does not contain the required information, the chair shall inform the proposer in writing of what additional information is required. Upon receipt of a request for additional information, the proposer has ten days to provide the additional information in writing to the chair. The chair shall determine within five working days whether the amended proposal contains the required information. If the chair then determines that the route proposal does not contain the required information, the route proposer may appeal to the board at its next regular meeting for consideration of acceptance. If the proposal contains the required information, the board must consider acceptance of the route proposal for public hearing.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0080 ANALYSIS OF ALTERNATIVE ROUTES.

A comparative environmental analysis of all of the pipeline routes accepted for consideration at public hearings shall be prepared by the board staff or by the applicant and reviewed by the board staff. This comparative environmental analysis must be submitted as prefiled testimony as required by part 1405.1900.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0085 PUBLISHED NOTICE OF ROUTES ACCEPTED.

Prior to public hearings, the board shall provide published notice of route location in each county in which a route is accepted for consideration at the public hearings according to the requirements of this chapter.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0090 PUBLIC HEARINGS.

The board shall hold a public hearing for the purposes of collecting and verifying data, and establishing a complete record upon which to base a decision for designation of a route and issuance of a pipeline routing permit. The board shall follow the hearing procedure prescribed in chapter 1405. The hearing will be conducted by an administrative law judge from the Office of Administrative Hearings.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0095 ROUTE SELECTION AND BOARD DECISION.

The board's route selection decision shall be based on the public hearing record and made in accordance with part 4415.0100. The board shall give the reasons for its decision in written findings of fact.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0100 CRITERIA FOR PIPELINE ROUTE SELECTION.

Subpart 1. Scope and purpose of criteria. The scope and purpose of this part is to specify the criteria used by the board in determining the route of a pipeline in parts 4415.0045 to 4415.0100. The board shall make a specific written finding with respect to each of the criteria. Any new easements or right-of-way agreements obtained from potentially affected landowners before issuance of a pipeline routing permit are obtained at the sole risk of the applicant. The fact that the agreements have been obtained shall not be considered by the board in selecting the route.

Subp. 2. Standard. In determining the route of a proposed pipeline, the board shall consider the characteristics, the potential impacts, and methods to minimize or mitigate the potential impacts of all proposed routes so that it may select a route that minimizes human and environmental impact.

Subp. 3. Criteria. In selecting a route for designation and issuance of a pipeline routing permit, the board shall consider the impact on the pipeline of the following:

A. human settlement, existence and density of populated areas, existing and planned future land use, and management plans;

B. the natural environment, public and designated lands, including but not limited to natural areas, wildlife habitat, water, and recreational lands;

C. lands of historical, archaeological, and cultural significance;

D. economies within the route, including agricultural, commercial or industrial, forestry, recreational, and mining operations;

E. pipeline cost and accessibility;

F. use of existing rights-of-way and right-of-way sharing or paralleling;

G. natural resources and features;

H. the extent to which human or environmental effects are subject to mitigation by regulatory control and by application of the permit conditions contained in part 4415.0185 for pipeline right-of-way preparation, construction, cleanup, and restoration practices;

I. cumulative potential effects of related or anticipated future pipeline construction; and

J. the relevant applicable policies, rules, and regulations of other state and federal agencies, and local government land use laws including ordinances adopted under Minnesota Statutes, section 299J.05, relating to the location, design, construction, or operation of the proposed pipeline and associated facilities.

History: *13 SR 2046*

APPLICATION PROCEDURES

4415.0105 PROCEDURAL REQUIREMENTS.

Subpart 1. Application filing. Each application for a pipeline routing permit must be filed in the format and manner prescribed by this chapter.

Subp. 2. Format. Applications must be filed on 8-1/2 by 11-inch paper except for drawings, illustrations, maps, and similar materials. The date of preparation and the applicant's name must appear on each document filed with the application.

Subp. 3. Subsequent filings. Any change or correction made to the application after filing must comply with subparts 2 and 6. In addition, each page of a

change or correction to a previously filed page must be marked with the word "REVISED" and with the date the revision was made. The applicant shall send copies of changed or corrected pages to all persons required by subpart 6 and part 4415.0035, subpart 2, item C.

Subp. 4. Application filing and acceptance. The board shall accept, conditionally accept, or reject an application at its first regularly scheduled meeting after the application is filed with the board, provided the application is filed at least 21 days before that meeting. The board may conditionally accept or reject an application, but in both instances the board shall inform the applicant which deficiencies, if corrected, will allow the application to be accepted. If an applicant has corrected the deficiencies or provided the board with the deficient information 14 days in advance of a regularly scheduled board meeting, the board must reconsider acceptance of the application at that meeting. If the board fails to act at the first scheduled meeting after the application is filed, the application is considered accepted. On acceptance or conditional acceptance of the application, the board and the applicant shall initiate the actions required by part 4415.0035, subpart 2, or 4415.0050, as applicable. After acceptance of an application, the applicant shall provide any additional relevant information the board considers necessary to process the application.

Subp. 5. Copies. The unbound original and 40 copies of the application must be filed with the board.

Subp. 6. Application distribution. The applicant shall provide copies of the application accepted by the board to other state agencies who are not board members, but have regulatory responsibilities for the proposed pipeline. The applicant shall send a copy of the accepted application to the Minnesota Historical Society, to the office of each regional development commission of a development region, soil and water conservation district, watershed district, watershed management district, auditor of each county, and to the clerk of each township and city, crossed by the proposed pipeline. Each county auditor, city clerk, or township clerk shall retain and file the application in a manner making it accessible to the public. The applicant shall also provide one copy of the application to any person upon written request made on or before the tenth day after the first day of the public hearing held in accordance with part 4415.0090. The applicant shall maintain a list of the persons to whom copies are sent.

History: *13 SR 2046*

CONTENTS OF APPLICATION

4415.0115 GENERAL INFORMATION.

Subpart 1. Cover letter. Each application must be accompanied by a cover letter signed by an authorized representative or agent of the applicant. The cover letter must specify the type, size, and general characteristics of the pipeline for which an application is submitted.

Subp. 2. Title page and table of contents. Each application must contain a title page and a complete table of contents.

Subp. 3. Statement of ownership. Each application must include a statement of proposed ownership of the pipeline as of the day of filing and an affidavit authorizing the applicant to act on behalf of those planning to participate in the pipeline project.

Subp. 4. Background information. Each application must contain the following information:

- A. the applicant's complete name, address, and telephone number;
- B. the complete name, title, address, and telephone number of the authorized representative or agent to be contacted concerning the applicant's filing;

C. the signatures and titles of persons authorized to sign the application, and the signature of the preparer of the application if prepared by an outside representative or agent; and

D. a brief description of the proposed project which includes:

- (1) general location;
- (2) planned use and purpose;
- (3) estimated cost;
- (4) planned in-service date; and
- (5) general design and operational specifications for the type of pipeline for which an application is submitted.

History: *13 SR 2046*

4415.0120 DESCRIPTION OF PROPOSED PIPELINE AND ASSOCIATED FACILITIES.

Subpart 1. Pipeline design specifications. The specifications for pipeline design and construction are assumed to be in compliance with all applicable state and federal rules or regulations unless determined otherwise by the state or federal agency having jurisdiction over the enforcement of such rules or regulations. For public information purposes, the anticipated pipeline design specifications must include but are not limited to:

- A. pipe size (outside diameter) in inches;
- B. pipe type;
- C. nominal wall thickness in inches;
- D. pipe design factor;
- E. longitudinal or seam joint factor;
- F. class location and requirements, where applicable;
- G. specified minimum yield strength in pounds per square inch; and
- H. tensile strength in pounds per square inch.

Subp. 2. Operating pressure. Operating pressure must include:

- A. operating pressure (psig); and
- B. maximum allowable operating pressure (psig).

Subp. 3. Description of associated facilities. For public information purposes, the applicant shall provide a general description of all pertinent associated facilities on the right-of-way.

Subp. 4. Product capacity information. The applicant shall provide information on planned minimum and maximum design capacity or throughput in the appropriate unit of measure for the types of products shipped as defined in part 4415.0010.

Subp. 5. Product description. The applicant shall provide a complete listing of products the pipeline is intended to ship and a list of products the pipeline is designed to transport, if different from those intended for shipping.

Subp. 6. Material safety data sheet. For each type of product that will be shipped through the pipeline, the applicant shall provide for public information purposes the material identification, ingredients, physical data, fire and explosive data, reactivity data, occupational exposure limits, health information, emergency and first aid procedures, transportation requirements, and other known regulatory controls.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0125 LAND REQUIREMENTS.

For the proposed pipeline, the applicant shall provide the following information:

- A. permanent right-of-way length, average width, and estimated acreage;
- B. temporary right-of-way (workspace) length, estimated width, and estimated acreage;
- C. estimated range of minimum trench or ditch dimensions including bottom width, top width, depth, and cubic yards of dirt excavated;
- D. minimum depth of cover for state and federal requirements; and
- E. rights-of-way sharing or paralleling: type of facility in the right-of-way, and the estimated length, width, and acreage of the right-of-way.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0130 PROJECT EXPANSION.

If the pipeline and associated facilities are designed for expansion in the future, the applicant shall provide a description of how the proposed pipeline and associated facilities may be expanded by looping, by additional compressor and pump stations, or by other available methods.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0135 RIGHT-OF-WAY PREPARATION PROCEDURES AND CONSTRUCTION ACTIVITY SEQUENCE.

Each applicant shall provide a description of the general right-of-way preparation procedures and construction activity sequence anticipated for the proposed pipeline and associated facilities.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0140 LOCATION OF PREFERRED ROUTE AND DESCRIPTION OF ENVIRONMENT.

Subpart 1. **Preferred route location.** The applicant must identify the preferred route for the proposed pipeline and associated facilities, on any of the following documents which must be submitted with the application:

- A. United States Geological Survey topographical maps to the scale of 1:24,000, if available;
- B. Minnesota Department of Transportation county highway maps; or
- C. aerial photos or other appropriate maps of equal or greater detail in items A and B. The maps or photos may be reduced for inclusion in the application. One full-sized set shall be provided to the board.

Subp. 2. **Other route locations.** All other route alternatives considered by the applicant must be identified on a separate map or aerial photos or set of maps and photos or identified in correspondence or other documents evidencing consideration of the route by the applicant.

Subp. 3. **Description of environment.** The applicant must provide a description of the existing environment along the preferred route.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0145 ENVIRONMENTAL IMPACT OF PREFERRED ROUTE.

The applicant must also submit to the board along with the application an analysis of the potential human and environmental impacts that may be expected

4415.0145 PIPELINE ROUTING

3608

from pipeline right-of-way preparation and construction practices and operation and maintenance procedures. These impacts include but are not limited to the impacts for which criteria are specified in part 4415.0040 or 4415.0100.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0150 RIGHT-OF-WAY PROTECTION AND RESTORATION MEASURES.

Subpart 1. Protection. The applicant must describe what measures will be taken to protect the right-of-way or mitigate the adverse impacts of right-of-way preparation, pipeline construction, and operation and maintenance on the human and natural environment.

Subp. 2. Restoration. The applicant must describe what measures will be taken to restore the right-of-way and other areas adversely affected by construction of the pipeline.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0160 OPERATION AND MAINTENANCE.

Pipeline operations and maintenance are assumed to be in compliance with all applicable state and federal rules or regulations, unless determined otherwise by the state or federal agency having jurisdiction over the enforcement of such rules or regulations. For public information purposes, the applicant must provide a general description of the anticipated operation and maintenance practices planned for the proposed pipeline.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0165 LIST OF GOVERNMENT AGENCIES AND PERMITS.

Each application must contain a list of all the known federal, state, and local agencies or authorities and titles of the permits they issue that are required for the proposed pipeline and associated facilities.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0170 EVIDENCE OF CONSIDERATION OF ALTERNATIVE ROUTES.

If the applicant is applying for a pipeline routing permit under parts 4415.0045 to 4415.0100, the applicant shall provide a summary discussion of the environmental impact of pipeline construction along the alternative routes consistent with the requirements of parts 4415.0140 to 4415.0145 and the rationale for rejection of the routing alternatives.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

PIPELINE ROUTING PERMIT**4415.0175 PERMIT ISSUANCE, DISTRIBUTION, AND EMINENT DOMAIN.**

Subpart 1. Permit issuance. When the board issues a pipeline routing permit for the construction of a pipeline and associated facilities, the board shall designate a route for the pipeline type and maximum size specified in the application, conditions for right-of-way preparation, construction, cleanup, and restoration contained in part 4415.0195, and any other appropriate conditions relevant to minimizing environmental and human impact. The board's decision shall be made in accordance with part 4415.0040 or 4415.0100.

Subp. 2. Permit distribution. The permittee shall, within ten days of receipt

of the pipeline routing permit from the board, send a copy of the permit to the office of each regional development commission of a development region, soil and water conservation district, watershed district, watershed management district, office of the auditor of each county, and to the clerk of each city and township, crossed by the designated route. The permittee shall provide a copy of the pipeline routing permit to affected landowners before construction on the affected landowners' property.

Subp. 3. **Eminent domain.** After an applicant is issued a pipeline routing permit as provided in Minnesota Statutes, section 116I.015, and parts 4415.0010 to 4415.0215, the permittee may exercise the right of eminent domain as provided by Minnesota Statutes, section 117.48. In addition, when a pipeline routing permit has been issued, the requirements of Minnesota Statutes, sections 116I.02 and 117.49, do not apply.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0180 DELAY IN ROUTE CONSTRUCTION.

When the board issues a pipeline routing permit, the permittee may begin construction or improvement of the route in accordance with the conditions of the permit and this chapter. However, if construction and improvement have not begun within four years after the pipeline routing permit has been issued by the board, the board shall suspend the permit. If at that time, or at a later time after suspension, the permittee decides to construct the proposed pipeline, it shall certify to the board that there have been no significant changes in any material aspects of the conditions or circumstances existing when the permit was issued. If the board determines that there are no significant changes, it shall reinstate the permit. If the board determines that there is a significant change, it may order public information meetings or a new hearing and consider the matter further, or it may require the permittee to submit a new application.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0185 PERMIT AMENDMENTS.

Following issuance of a pipeline routing permit, the permittee may apply to the board for amendments on route location and conditions specified in the permit. The permittee shall submit an application for amendment that contains sufficient information for the board to determine the following:

A. whether, in light of the criteria in parts 4415.0040 and 4415.0100, the requested changes are significant enough to warrant board study and approval;

B. whether to order public information meetings near the affected area;
and

C. whether additional fees shall be assessed.

The board shall make the determinations in items A to C within 45 days of receipt of the application.

If the board cannot make the determinations in items A to C in 45 days and decides to study the application further, the board shall make the determinations in items A to C within 70 days. The board shall grant or deny the permittee's application for permit amendment, as appropriate.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0190 REVIEW OF PLAN AND PROFILE AND RIGHT-OF-WAY CONSTRUCTION SPECIFICATIONS.

Following issuance of a pipeline routing permit, a permittee shall provide the board with a plan and profile of the right-of-way and the specifications and drawings for right-of-way preparation, construction, and restoration at least 14 days before right-of-way preparation of that segment of the pipeline. The board chair may shorten this time limit if it can be shown that earlier construction will not preclude proper review. If the permittee makes any significant change in its plan and profile and the specifications and drawings for right-of-way preparation, construction, and restoration, it shall notify the board in writing of the changes.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0195 PERMIT CONDITIONS FOR RIGHT-OF-WAY PREPARATION, CONSTRUCTION, CLEANUP, AND RESTORATION.

The following conditions apply to pipeline right-of-way preparation, construction, cleanup, and restoration.

A. The permittee shall comply with applicable state rules and regulations.

B. The permittee shall clear the right-of-way only to the extent necessary to assure suitable access for construction, safe operation, and maintenance of the pipeline.

C. Stream banks disturbed by pipeline construction must be stabilized with vegetation by the permittee using native plant species indigenous to the area or by other methods required by applicable state or federal permits or laws.

D. Precautions shall be taken by the permittee to protect and segregate topsoil in cultivated lands unless otherwise negotiated with the affected landowner.

E. Compaction of cultivated lands by the permittee must be kept to a minimum and confined to as small an area as practicable.

F. Precautions to protect livestock and crops must be taken by the permittee unless otherwise negotiated with the affected landowner.

G. All appropriate precautions to protect against pollution of the environment must be taken by the permittee.

H. All waste and scrap that is the product of the pipeline construction process must be removed or properly disposed of before construction ends.

I. Cleanup of personal litter, bottles, and paper deposited by right-of-way preparation and construction crews must be done on a daily basis.

J. The permittee shall repair or replace all drainage tiles broken or damaged during right-of-way preparation, construction, and maintenance activities, unless otherwise negotiated with the affected landowner.

K. The permittee shall repair private roads and lanes damaged when moving equipment or when obtaining access to the right-of-way, unless otherwise negotiated with the affected landowner.

L. The permittee shall replace or repair all fences and gates removed or damaged as a result of right-of-way preparation, construction, and restoration activities, unless otherwise negotiated with the affected landowner.

M. Shelterbelts and trees must be protected by the permittee to the extent possible in a manner compatible with the safe operation, maintenance, and inspection of the pipeline.

N. The permittee shall, to the extent possible, restore the area affected by the pipeline to the natural conditions that existed immediately before construction of the pipeline. Restoration must be compatible with the safe operation, maintenance, and inspection of the pipeline.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0200 REPORT OF COMPLAINTS.

The permittee must report to the board any substantial complaint received concerning part 4415.0195 that is not resolved within 30 days of the complaint.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0205 PERMIT MODIFICATION OR SUSPENSION.

Subpart 1. Initiation of action. The chair shall, upon a prima facie showing by affidavit or other documentation that a violation of the terms and conditions of a pipeline routing permit or parts 4415.0010 to 4415.0215 may have occurred or is likely to occur, notify the permittee in writing of the allegations. The chair shall then place the matter on the agenda of the next regular or special meeting of the board, in accordance with part 4405.0600, for consideration of an action to modify or suspend the pipeline routing permit. The permittee must be given at least ten but no more than 30 days from receipt of the notice to prepare a response to the alleged violation for presentation at the board meeting. However, the chair may determine that circumstances exist requiring immediate board action or the permittee may request or agree that the board meeting be held less than ten days after notification.

Subp. 2. Board action. The board may decline to act upon any complaint that is a dispute between a landowner or other injured party and the permittee, and for which the party has initiated or may initiate arbitration or court action for redress of the claim. Nothing in parts 4415.0010 to 4415.0215 is intended to expand the right of any party claiming damage or injury as a result of pipeline construction nor do parts 4415.0010 to 4415.0215 expand the liabilities at law of any permittee, contractor, or other person for injury or damage resulting from pipeline construction. The board shall make a determination as to whether action to suspend or modify a permit is appropriate based on parts 4415.0175, subpart 1, and 4415.0195.

If the board determines that substantial evidence supports a finding that a violation of the terms or conditions of a pipeline routing permit has occurred or is likely to occur, it may take action to modify or suspend the permit. The board may, at any time, consider suspension of that action to modify or suspend the permit if the permittee has undertaken effective corrective or ameliorative measures to correct the violations.

Subp. 3. Scope of suspension. If the board decides to suspend a pipeline routing permit, the suspension must be limited to the following:

A. the route segment that includes the right-of-way preparation, pipeline construction, or restoration activities giving rise to the violation of the permit;

B. requiring corrective or ameliorative measures necessary for the pipeline to comply with the pipeline routing permit; and

C. the time period necessary for the permittee to complete the required corrective or ameliorative measures.

Subp. 4. Scope of modification. If the board decides to modify the pipeline routing permit, the permit modifications must be in accordance with part 4415.0195 and be limited to:

A. the imposition of permit conditions that provide reasonable necessary additional mitigation or minimization of significant impacts on humans or the environment; or

B. the amendment of permit conditions regarding right-of-way preparations and pipeline construction activities.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0207 TERMINATION OF BOARD JURISDICTION OVER PIPELINE ROUTING PERMIT.

Permittees shall file with the board a written certification that the permitted pipeline construction has been completed in compliance with all permit conditions. The certification shall be considered by the board within 60 days of its filing. The board shall accept or reject the certification of completion and make a final determination regarding cost or reimbursements due. If the board rejects the certification, it shall inform the permittee in writing which deficiencies, if corrected, will allow the certification to be accepted. When corrections to the deficiencies are completed, the permittee shall notify the board, and the board shall reconsider the certification at its next regularly scheduled meeting, provided the notification is received at least 20 days before the meeting. After acceptance of the certification by the board, the board's jurisdiction over the permittee's pipeline routing permit shall be terminated.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

OTHER REQUIREMENTS

4415.0210 APPLICATION FEES.

Subpart 1. Requirement. Every applicant under Minnesota Statutes, section 116I.015, shall pay to the board an application fee.

Subp. 2. Purpose of application fee. The purpose of an application fee is to cover actual costs necessarily and reasonably incurred in processing an application for a conditional exclusion, partial exemption, pipeline route selection, or emergency, permit compliance activities, administrative overhead, and legal expenses. Actual costs associated with an emergency shall be determined and paid after the board has taken action and the emergency has passed.

Subp. 3. Method of fee approval and payment. For applications filed under Minnesota Statutes, section 116I.015, the estimated board project budget must be discussed with the applicant and be approved by the board when an application is accepted. The applicant must remit 25 percent of the approved board project budget within 14 days of acceptance of the application. The unpaid balance shall be billed in periodic installments, due upon receipt of an invoice from the board. Expenses in excess of the approved budget must be certified by the board and upon certification constitute prima facie evidence that the expenses are reasonable and necessary and shall be charged to the applicant. The applicant may review all actual costs associated with processing an application and present objections to the board. The application fees paid by the applicant under this part shall not exceed the sum of the costs incurred to process the application, construction permit compliance activities, administrative overhead, and legal expenses. All application fees received by the board must be paid to a special revenue fund.

Statutory Authority: *MS s 116I.015*

History: *13 SR 2046*

4415.0215 GENERAL RESPONSIBILITIES.

The board shall monitor the effectiveness of this chapter and shall take appropriate measures to modify and improve the effectiveness of this chapter. The board shall assist governmental units and interested persons in understanding the rules.
