5224.0010 PURPOSE.

The purpose of this chapter is to establish standards for distinguishing between an employee and an independent contractor for purposes of workers' compensation coverage under Minnesota Statutes, section 176.012, paragraph (e). For those occupations specifically discussed in parts 5224.0020 to 5224.0312, this chapter establishes a "safe harbor" for assuring either independent contractor or employee status in those occupations. Where a worker is within the scope of the definition of a part, but does not meet the safe harbor criteria for either independent contractor or employee status, the determination shall be made as described in part 5224.0320.

"Employee" as used in this chapter means a worker who is not an independent contractor. The employee safe harbor criteria are not intended to define "employee" under Minnesota Statutes, section 176.011, subdivision 9 for any purpose other than distinguishing workers who are not independent contractors.

5224.0220 DOCTORS OF MEDICINE; PART-TIME SERVICES FOR INDUSTRIAL FIRMS.

Subpart 1. **Definition.** Doctors are persons whose work requires licensure pursuant to Minnesota Statutes, section 147.02.

Subp. 2. **Independent contractor.** Doctors who, in addition to their private practices, enter into arrangements with industrial firms to examine and treat the firm's employees on a part-time basis, are independent contractors if all of the following criteria are met.

A. The firm is interested in securing a medical service rather than the personal service of the doctor and an employment relationship is not contemplated under the terms of the agreement between the parties. The doctor, in effect, accepts the firm as an additional client in the doctor's private practice.

B. The doctor has the right to leave the firm's premises during working hours if an emergency arises in private practice.

C. The doctor has the right to send a substitute to perform the services.

D. The doctor does not have the right to terminate the relationship on short notice.

E. Direct supervision and control over the services were not contemplated by the parties to the agreement.

Subp. 3. **Employees.** Doctors described in subpart 1 are employees if all of the following criteria are substantially met.

A. The doctor's services are materially integrated into the operating organization of the firm.

B. The doctor performs services of a substantial nature for the firm on a regular and continuing basis.

C. The doctor is subject to supervision and control by the firm to the extent necessary to require compliance with its general policies and procedures.

D. The doctor is accorded the rights and privileges that the firm extends to its employees generally.

Subp. 4. **Definition of factors.** This subpart explains the factors listed in subpart 3.

A. Materially integrated is determined by factors such as:

(1) the payment of a salary or fixed rate of pay as compared to remuneration on a fee basis;

(2) a contract term indicating a mutual intention to create an employer and employee relationship;

(3) the firm engages the services of a substitute in the event of the doctor's absence;

(4) the remuneration is reported as wages for social security purposes; and

(5) the doctor, for income tax purposes, reported the remuneration as wages.

B. Regular and continuing basis means agreement to a schedule of definite and fixed hours of service and the requirement to follow the schedule without substantial deviation.

C. Compliance with policies and procedures exists where the methods, routines, and procedures followed by the doctor are subject to supervision. The supervision may be of varying degree and nature, for example, supervision exercised by a medical director may include somewhat detailed control over the physician's medical routines where the supervision exercised by a hospital administrator may lay less emphasis on this aspect. However, the factor of compliance is met where the physician is required to follow the employer's rules regarding the physician's methods of operation generally, including the obligation to treat assigned patients, the report the physician must submit, the priorities the physician must follow both medically and administratively, and the standards the physician must maintain regarding equipment and cleanliness.

D. Rights and privileges include vacation and sick leave with pay, holiday pay, severance pay, and pension and insurance plans.

5224.0270 TIMBER FELLERS, BUCKERS, SKIDDERS, AND PROCESSORS.

Subpart 1. **Definition.** Timber fellers employ chainsaws or other mechanical devices mounted on logging vehicles to fell trees. Trees so felled may either be delimbed at the site or subsequently at roadside landings.

Buckers cut trees into merchantable lengths, with either chainsaw or heavier machinery such as slashers, harvesters, and processors. These operations may also be conducted either at the felling site or at roadside. In either case the product is piled or otherwise accumulated to facilitate subsequent transportation.

Skidders or forwarders either drag logs or trees to roadside landings, or load and transport logs or shortwood (fuelwood or pulpwood) to similar destinations.

Timber harvesters and processors combine two or more of the operations described above.

Mechanical debarking and/or chipping may also be coordinated with skidding or forwarding operations.

Chips are usually blown into semitrailer vans for delivery to mills for remanufacture or to furnaces for fuel.

Subp. 2. **Neutral factors.** Due to the nature of the work and certain customs in the field, the following factors are neutral: lack of fixed hours of work, payment on a piecework basis, ownership of small tools, and requirements that the product of the work be within overall specifications.

Subp. 3. **Independent contractor.** A feller, buckler, skidder, or processor is an independent contractor if all of the following criteria are substantially met.

A. The worker is granted timber rights to tracts of land and legally binds himself or herself to remove all or certain parts of the timber within specified times at set prices.

B. The worker bargains for "package" jobs which he or she will do by methods of his or her own choice subject to production specifications required by the contracting company.

C. The worker is paid to obtain a result, which does not necessarily depend on his or her own personal services.

D. The worker is free to hire and direct others to do the work and the worker is responsible for expenses incurred in fulfilling the contract.

E. The worker supplies the necessary equipment and sometimes the tools used by the helpers.

F. The worker determines the working hours and rates of pay, and otherwise controls the helpers' working conditions.

G. The worker holds himself or herself out to the public as a contractor and sometimes holds several logging contracts at the same time.

H. The worker is in a position to make a profit or suffer a loss, depending on the management of helpers, the care of the tools and equipment, and the methods used for doing the work.

I. As long as the worker produces final results that measure up to specifications, there is no desire or legal right to interfere with the worker's methods.

Subp. 4. Employee. A feller, buckler, skidder, or processor is an employee if all of the following criteria are substantially met.

A. The feller, buckler, skidder, or processor is assigned specific portions of the area to be harvested, but the right to work in other portions is not given to him or her exclusively.

B. The company assigns a number of workers to each area. They are told the kind and size of trees to cut. Trees designated to be cut because of a conservation or sustained-yield program do not indicate employment.

C. The company foreman periodically inspects the work area to be harvested and, if not satisfied with the progress being made, replaces the workers with another crew.

D. The crews may be shifted from one work area to another to speed up operations and if a worker is ill or not doing satisfactory work the foreman may replace the worker.

E. The worker chooses his or her own hours of work, but is required to finish each work area within a certain time and to do so usually requires long and regular hours of work.

F. The worker may be paid on a piecework basis or by the cord, but generally the company will not pay for products that do not measure up to specifications. Keeping records of wages paid and hours worked is not indicative of employment if it is required only to ensure that the products may be shipped in interstate commerce.

Variety entertainers specialize in one or two types of acts. The more talented create and develop their own acts or routines and sometimes train others to help perform them. They often work in pairs or as members of troupes.

Subp. 2. Neutral factors. The status of a variety entertainer is not determined by the entertainer's entering into the form B contract of the American Federation of Musicians. This contract purports to establish an employer and employee relationship between the purchaser of the services and the entertainer. The actual relationship, rather than the terms of the contract, governs.

Subp. 3. Independent contractor. A variety entertainer is an independent contractor if all of the following criteria are substantially met.

A. The entertainer performs acts or routines as a series of short-term engagements for a number of different operators of theaters, night clubs, restaurants, and similar establishments.

C. The entertainer's performance becomes an integral part of another's business.

D. The entertainer is engaged on a long-term basis.

E. The entertainer may not work for others.

5224.0320 GENERAL CRITERIA FOR NONSPECIFIED OCCUPATIONS.

Parts 5224.0330 and 5224.0340 shall be used to determine if an individual is an independent contractor or an employee where the occupation is not defined in parts 5224.0020 to 5224.0312. Additionally, these parts provide interpretative guidance where the occupation is defined but the safe harbor criteria for that occupation are not all substantially met. Where some but not all of the safe harbor criteria are substantially met, those criteria which are substantially met shall be considered evidence of that status, and shall control where a conflicting result for that criterion is indicated by parts 5224.0330 to 5224.0340.

Statutory Authority: *MS s 176.041 subd 1; 176.83 subd 11*

History: *10 SR 1852*

5224.0330 CONTROL OF METHOD AND MANNER OF PERFORMANCE.

Subpart 1. **Generally.** The most important factor in determining whether a person is an independent contractor is the degree of control which the purported employer exerts over the manner and method of performing the work contracted. The more control there is the more likely the person is an employee and not an independent contractor. Subparts 2 to 14 describe criteria for determining if there is control over the method of performing or executing services. The total circumstances, including the practices and the customs of the industry, must be considered to determine if control is present.

Subp. 2. **Authority over individual's assistants.** Control over the individual is indicated when the employing unit hires and pays the individual's assistants and supervises the details of the assistants' work.

Subp. 3. **Compliance with instructions.** Control is indicated when an individual is required to comply with detailed instructions about when, where, and how he or she is to work including the order or sequence in which the service is to be performed. Mere suggestions as to detail, or necessary and usual cooperation where the work furnished is part of a larger undertaking, does not normally evince control. Some individuals may work without receiving instructions because they are highly proficient in their line of work; nevertheless, the control is present if the employing unit has the right to instruct or direct the methods for doing the work and the results achieved. Instructions may be oral or may be in the form of manuals or written procedures which show how the desired result is to be accomplished. However, instructions required by state or federal law or regulation or general instructions passed on by the employing unit from a client or customer, do not evince control.

Subp. 4. **Oral or written reports.** Control is indicated if regular oral or written reports relating to the method in which the services are performed must be submitted to the employing unit. Periodic reports relating to the accomplishment of a specific result may not be indicative of control if, for example, the reports

MINNESOTA RULES 1987

4823

INDEPENDENT CONTRACTOR 5224.0330

are used to establish entitlement to partial payment based upon percentage of completion of a job, or the reports are needed to determine compliance with the terms of a contract. Completion of receipts, invoices, and other forms customarily used in the particular type of business activity or required by law does not constitute written reports.

Subp. 5. Place of work. Control is indicated if work which could be done elsewhere is done on the employing units premises, especially when the work could be done elsewhere. When work is done off the premises, freedom from control is indicated except in occupations where the services are necessarily performed away from the premises of the employing unit.

Subp. 6. Personal performance. Control is indicated if the services must be personally rendered to the employing unit. Personal performance of a very specialized work, when the worker is hired on the basis of professional reputation, as in the case of a consultant known in the academic and professional circles to be an authority in the field, is a less reliable indicator of control. Lack of control is indicated when an individual has the right to hire a substitute without the employing unit's knowledge or consent.

Subp. 7. Existence of continuing relationship. The existence of a continuing relationship between an individual and the person for whom he or she performs services indicates the existence of an employment relationship. Continuing services may include work performed at frequently recurring, though somewhat irregular intervals, either on call of the employing unit or whenever work is available.

Subp. 8. Set hours of work. The establishment of set hours of work by the employing unit indicates control. Where fixed hours are not practical because of the nature of the occupation, a requirement that the worker work at certain times indicates control.

Subp. 9. Training. Training of an individual by an experienced employee, by required attendance at meetings, and by other methods, indicates control, especially if the training is given periodically or at frequent intervals.

Subp. 10. Amount of time. Control is indicated where the worker must devote full time to the activity. Full time does not necessarily mean an eight-hour day or a five- or six-day week. Its meaning may vary with the intent of the parties, the nature of the occupation, and customs in the locality. Full-time services may be required even though not specified in writing or orally. For example, a person may be required to produce a minimum volume of business which compels the person to devote all working time to that business, or the person may not be permitted to work for anyone else.

Subp. 11. Simultaneous contracts. If an individual works for a number of persons or firms at the same time, lack of control is indicated.

Subp. 12. Tools and materials. The furnishing of tools, materials, and supplies by the employing unit indicates control over the worker. When the worker furnishes these items, lack of control is indicated. Lack of control is not indicated if the individual provides tools or supplies customarily furnished by workers in the trade.

Subp. 13. Expense reimbursement. Payment by the employing unit of either the worker's approved business or traveling expenses, or both, indicates control over the worker. A lack of control is indicated when the worker is paid on a job basis and is responsible for all incidental expenses.

Subp. 14. Satisfying requirements of regulatory and licensing agencies. Control is not indicated where an employing unit is required to enforce standards or restrictions imposed by regulatory or licensing agencies.

5224.0340 INDEPENDENT CONTRACTOR OR EMPLOYEE, FACTORS TO CONSIDER.

Subpart 1. **Factors.** Among the factors to be considered, in addition to factors of control, when determining if services are those of an independent contractor or employee are those listed in subparts 2 to 9.

Subp. 2. **Right to discharge.** The right to discharge exists if the individual may be terminated with little notice, without cause, or for failure to follow specified rules or methods. There is no right to discharge if an independent worker produces an end result which measures up to contract specifications. Contracts which provide for termination upon notice or for specified acts of nonperformance or default are not solely determinative of the right to discharge. Restrictions on the right to discharge because of a contract with a labor union or with other entities are not relevant for purposes of this subpart.

Subp. 3. **Availability to public.** If an individual makes services available to the general public on a continuing basis, independent contractor status is indicated. An individual's services are offered to the public by, among other things:

- A. having an office and assistants;
- B. displaying a sign in front of a place of business;
- C. holding a business license;
- D. having a listing in a business directory or a business listing in a telephone directory; or
- E. advertising in a newspaper, trade journal, or magazine.

Subp. 4. **Compensation on job basis.** Independent contractor status is indicated by payment on a job basis rather than payment by the hour, week, or month. Payment on a job basis is customary where the worker is independent. Payment by the job may include a predetermined lump sum which is computed by the number of hours required to do the job at a fixed rate per hour or periodic partial payments based upon a percent of the total job price or the amount of the total job completed. The granting of a drawing account at stated intervals with no requirement for repayment of the excess drawn over commissions earned or the guarantee of a minimum salary indicates an employment relationship.

Subp. 5. **Realization of profit or loss.** Independent contractor status is indicated where an individual is in a position to realize a profit or suffer a loss as a result of his or her services. Opportunity for higher earnings from piecework or commissions does not indicate an opportunity for profit or loss. An opportunity for profit or loss is indicated by the following factors, among others:

- A. hire, direct, and pay assistants;
- B. provide own office, equipment, materials, or other facilities for doing the work;
- C. continuing and recurring financial liabilities or obligations, relating to the work;
- D. profit or loss in the work depends upon the relationship of receipts to expenditures;
- E. expenses incurred in connection with the work are paid by the individual;
- F. specific jobs are performed for prices agreed upon in advance; and
- G. performance of the services affects the individual's business reputation, and not the business reputation of those who purchase the services.

Subp. 6. **Termination.** The worker's right to terminate the working relationship with the purported employer at will and without incurring liability for noncompletion indicates employment. A requirement to provide notice of termination for some period in advance of the termination is not relevant for purposes of this subpart. Independent contractor status is indicated where the individual agrees to complete a specific job, is responsible for its satisfactory completion, and is liable for failure to complete the job.

MINNESOTA RULES 1987

4825

INDEPENDENT CONTRACTOR 5224.0340

Subp. 7. Substantial investment. A substantial investment by a person in facilities used in performing services for another indicates an independent contractor status. The furnishing of all necessary facilities by the employing unit indicates the absence of an independent contractor status. Facilities include equipment or premises necessary for the work, but not tools, instruments, clothing, and similar items that are provided by individuals working in employment as a common practice in their particular trade. Substantial investment means a monetary investment representing something of considerable worth, in relation to the overall requirements of the person's chosen profession, trade, occupation, or vocation. A substantial expenditure of time or money for an individual's education is not indicative of an independent contractor status.

Subp. 8. Responsibility. If an employing unit is responsible for the negligence, personal behavior, and work actions of an individual in contacts with customers and the general public during times that services are performed for the employing unit, an employment relationship is indicated.

Subp. 9. Services fundamental to business. Employment is indicated where the services provided are necessary to the fundamental business purpose for which the organization exists.
