Permits may be issued only upon written application made by individuals or institutions currently conducting research or educational programs in the fields of biology or natural history, and that have appropriate and adequate facilities for the care, exhibition, or storage of the specimens sought to be taken, acquired, or possessed. A permit may not be issued unless the commissioner has first determined that the permitted act will not be detrimental to the species.

Subp. 3. Permits for taking. Permits for the taking of protected wild animals or their parts may be issued only to named individuals. Permits for taking are valid only for the

named permittees and are not transferable. Permits solely for possession, transportation, propagation, or disposal may be issued in the name of an institution or individual.

Subp. 4. Sale or transfer of specimens. Specimens held under permit may not be sold or otherwise transferred from the custody of the permittee without the prior written approval of the commissioner, unless otherwise provided in the permit.

Subp. 5. Offspring. Offspring of any specimen possessed under a permit will be subject to parts 6212.1400 to 6212.1700 and to all the terms and conditions set forth in the permit.

Subp. 6. Reports. Before January 31 of each year, each permittee who has taken a protected wild animal, or parts during the preceding calendar year must file a report with the commissioner describing the specimens taken and their current disposition. Specimens consumed by use or otherwise destroyed must be so noted. Permittees must submit additional reports as may be required by the permit. A permit will not be renewed unless all required reports have been submitted.

The conservation officer or other agent of the commissioner must examine the deer and determine whether it is injured, disabled, or orphaned so that it cannot reasonably be expected to survive in the wild. If the applicant's competence and facilities are reasonably suited to caring for and restoring the deer, a permit for possession of the deer may be issued.

C. Permits may be issued for a duration of time anticipated by the conservation officer or agent of the commissioner to be sufficient to restore the deer to the point where it

can be released back into the wild in a healthy and able condition, except that no permit may be issued for a period exceeding one year. Upon expiration of the permit, the permittee must release the deer back into the wild in accordance with instructions provided by the permit. Permittees who believe that the deer is not yet able to survive in the wild may notify the conservation officer and apply for renewal of their permit in accordance with the procedure for original issuance.

D. Offspring of deer possessed under a permit must be returned to the wild as soon as feasible and may not be kept after the mother is released. Offspring are subject to all the terms and conditions of the permit that apply to the mother until release.
