6232.1900 FIREARMS DEER MANAGEMENT PERMITS.

Subpart 1 **Undersubscribed antlerless permit areas.** Firearms deer management permits are authorized in antlerless permit areas where the number of applications is less than the number of permits available. The number of deer management permits authorized is up to 1-1/2 times the difference between the number of available permits and the number of antlerless permits issued. A deer management permit for an undersubscribed antlerless permit area is valid only within the area designated on the management permit. The following procedures are used to select antlerless permit applicants for management permits.

A. A landowner-tenant drawing will be held in those antlerless permit areas where firearms deer management permits are available subject to the following restrictions.

(1) Owners and tenants who live on at least ten acres of agricultural land will be given preference for firearms management permits in those antlerless permit areas where management permits are available

(2) Agricultural land includes land that is plowed or tilled, that has standing crops or crop residues, that is within a maintained fence for enclosing domestic livestock, or that is enrolled in the federal Conservation Reserve Program (CRP) or the state RIM Reserve Program in the antlerless permit area or subpermit area applied for

(3) An applicant must be a landowner or tenant living on the qualifying property or a family member of a qualifying landowner or tenant who lives on the qualifying property and is part of the farming operation

(4) Eligible landowner-tenants or qualifying family members must fill out an application available from county auditors, the license bureau, and other authorized agents and submit the application in an envelope with their antlerless permit application by the first Thursday following Labor Day

(5) A random drawing will be held among eligible landowner-tenant applications for available firearms deer management permits in each antlerless permit area

(6) Landowner-tenants selected in the preference drawing will receive certification on their antlerless permit authorizing acquisition of a management permit. They may obtain a firearms deer management permit at no cost by submitting the certificate to any county auditor's office or the license bureau before or during the regular firearms season

Eligible landowner-tenants who apply for the orchard subpermit area may also obtain free management permits under this provision. Before receiving the management permit, the landowner-tenant must verify that they still qualify as a landowner-tenant for purposes of firearms deer management permits, and will allow public firearms deer hunting on their lands during the firearms deer season.

B If there are firearms deer management permits available after the landowner-tenant drawing, hunters randomly drawn from permittees in each undersubscribed area who have checked the bonus option on their antlerless permit application will be authorized to purchase a management permit. A deer management permit may be purchased by submitting the certificate and fee to the license bureau, a Minnesota county auditors' office, or other authorized agents. Deer management permits may be purchased throughout the regular firearms season.

Subp 2 **Special hunt areas.** Deer management permits may be issued for those special hunt areas listed in the annual hunting regulations. A deer management permit for a special hunt area is valid only within the area designated on that permit. The maximum number of deer management permits authorized is equal to the number of special permits issued for each special hunt area. Deer management permits must be purchased only at the headquarters for special hunt areas and prior to hunting in the special area, except as specifically authorized. Special hunt personnel are authorized to sell deer management permits.
