6232.2900 BEAR PERMIT PROCEDURES.

[For text of subpart 1, see M.R.]

Subp. 2. Drawings. Drawings will be conducted by the department to determine those eligible to purchase a bear license within the bear quota areas. Preference in the drawings will be given to applicants based upon the number of times they have correctly applied for a license in a quota area in previous years but have not been selected or the number of times they have correctly applied in the preference only area in previous years but have not been selected. Upon issuance of a quota area license, all accumulated preference will be lost. Obtaining a no-quota bear license will have no effect upon eligibility or preference in the drawings. In quota areas with fewer applicants than available licenses, the remaining available licenses may be first offered to unsuccessful applicants for other quota areas on a first-come, first-served basis beginning at 12.00 p.m. on the first Monday in August. To obtain a remaining available license, an eligible person must apply individually and in person at an electronic license system agent location or individually through the ELS-Internet or ELS-Telephone system. Any remaining available licenses not purchased by unsuccessful applicants may then be issued to any eligible person as prescribed by the commissioner on a first-come, first-served basis beginning at 12:00 p.m. on the second Monday in August. Individuals who purchase these remaining available licenses will retain their accumulated preference.
