GENERAL RESTRICTIONS

6262.0100 GENERAL RESTRICTIONS ON TAKING FISH.

Subpart 1. **Angling hours.** Angling hours on all streams and rivers from Lake Superior upstream to posted boundaries, including Lake Superior tributaries with no posted boundaries, are from one hour before sunrise to one hour after sunset during the open season; provided that angling hours on the St. Louis River in St. Louis and Carlton Counties and the Pigeon River in Cook County are continuous during the open season except as provided by Minnesota Statutes, section 97C.415, subdivision 1.

Angling hours for all species on all inland waters are continuous during the open season, except as provided by Minnesota Statutes, section 97C.415, subdivision 1, and except for certain waters which are subject to experimental or special regulations.

Subp. 2. [Repealed, L 2003 c 28 art 1 s 20]

Subp. 3. **Take A Kid Fishing Weekend.** Take A Kid Fishing Weekend is the first Friday, Saturday, and Sunday after the first Monday in June.

Subp. 4. **Importation, transportation, or stocking of live fish.** Except as provided in part 6212.2600, subpart 3, and Minnesota Statutes, sections 17.4985, subdivision 3; 97C.505, subdivision 1; 97C.515, subdivision 3; 97C.525, subdivision 1; and 97C.821, a person may not import, transport, or stock in any waters of the state live fish eggs, fish spawn, or immature or adult fish of any species without a permit issued by the commissioner. An angling license does not authorize a person to import, transport, or stock live fish.

Subp. 5. **Possession of fish while on state waters.**

A. Fish that are taken by angling and not immediately released into the water after capture are considered to be in possession. Once a limit of fish has been reduced to possession, no culling or live well sorting (the act of replacing one fish with another one) of that species is allowed.

B. A person shall not angle for, including catch-and-release, or reduce to possession any species during its closed season.

C. Once a person or persons fishing as a party as provided in Minnesota Statutes, section 97C.317, retain a daily limit for a species, all fish of that species that are subsequently taken must be immediately released into the water after capture.

D. While on or fishing in state waters with size restrictions that differ from state-wide regulations, including experimental waters, special management waters, boundary waters, or any other waters with size restrictions, all fish for which the different size restrictions

apply must be undressed and measurable when in a person's possession, regardless of where taken, except when a watercraft is docked or moored to shore and a person is in the act of preparing and using the fish for a meal.

E. It is unlawful for a person to have in possession, regardless of where taken, any fish in excess of or outside of the limits for that water body when fishing in that water. A person must immediately return to the water any fish that is taken by angling that is in excess of or outside the limits.

F. A person who is in transit on the water, taking the most direct route back to the person's lodging or docking, and not fishing, may possess fish outside of or in excess of the limits for that water body, if the species were legally taken from connected waters.

WHITEFISH AND CISCOES

6262.0800 OPEN SEASONS FOR TAKING WHITEFISH AND CISCOES.

Subpart 1. **Schedules designating open seasons for certain waters.** The waters listed in each of the following schedules will be open during the designated seasons to the netting of whitefish and ciscoes. Unless otherwise indicated, the names of the bodies of water refer to lakes.

Subp. 2. **Schedule I.** All bodies of water listed in this schedule may be opened and closed on a 48-hour notice posted at lake accesses and other public places based on a determination of the following:

- A. the abundance of game fish;
- B. climatic conditions that affect the vulnerability of game fish to accidental harvest; and
- C. the abundance of whitefish or ciscoes.

For Upper Red Lake only, it is permissible to set portions of gill nets in water deeper than six feet, provided that one end of the gill net is set in water no deeper than six feet, measured from the lake bottom to the top surface of the water or ice.
