6305.0300 AUTHORIZATION TO PRACTICE NURSING.

Subpart 1. **Required authorization.** A Minnesota license and current registration certificate or a permit is required if an individual practices professional nursing as defined in Minnesota Statutes, section 148.171, clause (3), or practical nursing as defined in Minnesota Statutes, section 148.171, clause (5), whether for monetary compensation or as a volunteer, or if an individual is a faculty member for an out-of-state nursing or nursing assistant program and is supervising nursing students or nursing assistant students in Minnesota except as provided in Minnesota Statutes, section 148.271. If the permit is revoked or expires, whichever occurs first, an applicant must not practice nursing until a license has been issued.

Exceptions as identified in Minnesota Statutes, section 148.271, include the following:

A. Nursing assistance in an emergency as referenced in Minnesota Statutes, section 148.271, clause (1), is interpreted to include nursing service as follows:

(1) to patients during transport into, through, or out of Minnesota including during flights and while at airports or depots or during the period of stabilization in preparation for transport;

(2) for disaster relief during a period not to exceed seven days; and

(3) providing nursing services at the scene of an accident.

B. Formal, structured course of study as referenced in Minnesota Statutes, section 148.271, clause (6), is interpreted to mean that the course is sponsored by an educational institution or the educational department of a health care facility; has written, measurable objectives; has an organized plan of study which includes instructors and, when appropriate, clinical supervisors; uses a formalized method of evaluating student performance; and issues a document which verifies completion of the course.

C. Nursing program approved by the board as referenced in Minnesota Statutes, section 148.271, clause (7), is interpreted to include any nursing program in the United States

or Canada which is approved by the state or province in which the program is located. However, the supervising instructor must hold a Minnesota registered nurse license and current registration.

Subp. 1a. **Authorized abbreviations.** The categories of nursing personnel listed below may use abbreviations as follows:

A. Public health nurse, abbreviated "PHN."

B. Registered nurse, abbreviated "RN," may only be used by a registered nurse who is currently registered in Minnesota or an applicant for licensure in Minnesota who holds a permit as authorized in subpart 9.

C. Licensed practical nurse, abbreviated "LPN," may only be used by a licensed practical nurse who is currently registered in Minnesota or an applicant for licensure in Minnesota who holds a permit as authorized in subpart 9.

D. Registered nurses and licensed practical nurses who are licensed in Minnesota but who are not currently registered may use the abbreviation "RN" and "LPN" respectively for personal identification provided it is not used for monetary gain.

E. Nursing assistants who are on the long-term care registry are nursing assistants/registered, abbreviated "NA/R."

Subp. 2. **License.** The board shall license an applicant to practice when the applicant has met all requirements of applicable statutes and rules. The license must bear the seal of the board, date of issue, license number, and type of licensure.

Subp. 3. **Duplicate original license.** Duplicate original licenses are not issued for any reason.

Subp. 4. **Eligibility for permit to practice nursing with direct supervision.** The board shall grant an applicant who is not the subject of a pending investigation or disciplinary action a permit to practice nursing under the direct supervision of a registered nurse if the applicant:

A. has not been licensed by examination in another jurisdiction;

I. is taking the examination for the first time in a United States jurisdiction.

Subp. 5. **Required supervision.** An applicant who holds a permit to practice nursing with direct supervision must practice under the direct supervision of a registered nurse licensed and currently registered in Minnesota. There must be a registered nurse assigned to observe, direct, and evaluate the performance of the permit holder. A permit holder shall be able to identify at all times the registered nurse who is providing direct supervision. The registered nurse shall not be engaged in other activities that would prevent the registered nurse from providing direct supervision to the permit holder. The registered nurse providing the supervision shall be physically present on the unit or within the facility where the permit holder is practicing nursing. If the assigned responsibilities for a given shift require nursing abilities that have not been acquired by the permit holder and if the care to be provided involves a patient with severe or urgent conditions or a patient with an unstable condition, the registered nurse providing the supervision must be on the unit with the permit holder. If the assigned responsibilities for a given shift require nursing abilities that have been acquired by the permit holder and the care to be provided is simple and routine, the registered nurse providing the supervision must be in the facility with the permit holder. The permit holder shall not function in a position that requires supervision of other nursing personnel.

Subp. 6. **Permit to practice nursing without direct supervision.** The board shall grant an applicant who is not the subject of a pending investigation or disciplinary action a permit to practice nursing that does not require direct supervision if the applicant:

Subp. 7. **Length of permits.** The permit authorizing practice under the direct supervision of a registered nurse expires 60 days from the date of issue or upon the applicant's notification by the board of failure on the examination, whichever occurs first. The board may extend this permit if the applicant has come under investigation by the board after the issuance of the initial permit until the matter is resolved for the applicant.

The permit authorizing practice without direct supervision expires six months after the date of issue, but the board shall extend this permit if licensure cannot occur because of a processing delay by another nurse licensing agency. The board may extend the permit if the applicant has come under investigation by the board after the issuance of the initial permit until the matter is resolved for the applicant.

Subp. 8. **Revocation of permit.** The board shall revoke a permit in the following situations.

Proof of licensure must be obtained from the jurisdiction or Canadian province in which the applicant wrote an acceptable examination as well as the jurisdiction or Canadian province in which the applicant was most recently employed. Proof of licensure must be obtained from the jurisdiction in which the applicant was first licensed, if this is different from the jurisdiction in which the applicant was licensed based on an acceptable examination.

Subp. 2. **Licensure application.** An applicant shall obtain the application forms and instructions for filing from the board. An applicant shall respond to questions on the application that relate to the grounds for disciplinary action listed in Minnesota Statutes, section 148.261. An applicant shall submit true information. Falsification or omission of any information provides grounds for denial of a license. The application must be notarized. If an application is received without a fee, it shall be returned to the applicant. Application for licensure begins on the date when an application and fee are received by the board.

Subp. 3. Fee. The fee for licensure is \$80. This fee must be paid to the board and must be received before evaluation of an applicant's qualifications for licensure. Personal checks are not accepted. Remittance must be in the form of United States currency, cashier's check, or money order. If for any reason a license is not issued, the fee is not refundable.

Subp. 4. Further evidence. The board may require further information of the applicant in order to determine whether the applicant has engaged in conduct warranting disciplinary action as set forth in Minnesota Statutes, section 148.261.

Subp. 5. Graduation from approved nursing program. An applicant who has graduated from an approved nursing program is eligible for licensure provided that the applicant can present evidence of graduation.

Subp. 6. Waiver of graduation requirement. The board shall waive the requirement of graduation from an approved nursing program if:

A. an applicant has been licensed by another jurisdiction or Canadian province based on requirements equivalent to the qualifications required in Minnesota at the time of the applicant's original licensure; or

B. an applicant for licensed practical nurse licensure has been licensed by another jurisdiction and passed an acceptable examination as specified in subpart 12 and has had at least 4,000 clock hours of employment as a licensed practical nurse in the 60 calendar months preceding application for licensure in Minnesota.

An applicant who has engaged in acceptable nursing practice as defined in part 6310.2600, subpart 1a, who has graduated from an approved nursing program, or who has completed a degree program with a major in nursing during the two years immediately preceding application for licensure is exempt from the continuing education requirements in subpart 8. Verification of acceptable nursing practice must be submitted to verify practice dates. If the applicant was employed by an institution or agency, an employer shall complete the verification. In lieu of an employer, a patient, volunteer supervisor, patient's family or physician, instructor, or peer can verify acceptable nursing practice. An affidavit of graduation or evidence from the nurse licensing agency in another jurisdiction or Canadian province must be submitted to verify the graduation date.

Subp. 8. Continuing education. An applicant who has not engaged in acceptable nursing practice within the two years preceding receipt by the board of the application for licensure must comply with items A to D.

If the length of the refresher course or its equivalent is less than the hours required in item D, other acceptable continuing education must be completed to meet the hour requirement. The applicant shall participate in the continuing education or complete the refresher course or the refresher course equivalent within the 24 months immediately preceding board action on the application for licensure.

D. The applicant must complete the required number of contact hours of continuing education. The registered nurse must complete one contact hour of acceptable continuing education for each month that the applicant was not engaged in acceptable practice. The statement of intent must be signed by the refresher course provider, the preceptor, the instructor, an official of the nursing program, or the employer. While the permit is in effect, the registered nurse may use the title registered nurse, abbreviated "RN," and a licensed practical nurse may use the title licensed practical nurse, abbreviated "LPN." If there is a delay in the completion of the clinical portion of the refresher course or its equivalent, the applicant shall return the expired permit and complete another statement of intent. The board shall issue another permit for no more than 90 days.

Subp. 10. Affidavit of graduation. An applicant must submit an affidavit of graduation, signed by an official of the nursing program and bearing the seal or stamp of the program. If an official school transcript is submitted, it shall be accepted in lieu of an affidavit of graduation. An affidavit is not required if the licensing authority in another jurisdiction or Canadian province verifies graduation from an approved program. If a licensed practical nurse applicant has not graduated from an approved program, the applicant shall send his or her employer a form supplied by the board for documentation of 4,000 clock hours of employment. The form must be completed by the employer and returned to the board. The board shall determine if the employment fulfills the requirement of Minnesota Statutes, section 148.211, subdivision 4.
