6310.2800 REGISTRATION RENEWAL REQUIREMENTS.

Subpart 1. **Renewal application.** A licensee shall submit an application for renewal by the deadline for renewal of registration. Failure to receive the registration renewal application mailed by the board does not relieve the licensee of the obligation to renew registration by the deadline.

Subp. 2. **Fee.** The licensee shall pay the fee specified in part 6310.3600, subpart 1.

Subp. 3. [Repealed, 12 SR 102]

Subp. 3. **Continuing education.** Continuing education requirements for the licensed practical nurse begin for registration periods that begin on or after November 1, 1993. The report of continuing education is due by the application deadline for subsequent renewals of registration. A registered nurse shall participate in the ratio of at least one contact hour of acceptable continuing education for each month of registration. A licensed practical nurse shall participate in the ratio of at least one contact hour of acceptable continuing education for each two months of registration.

For a continuing education activity to be acceptable for renewal of registration, the criteria in items A to G must be met.

A. The content must be designed to enhance the licensee's ability to practice nursing. The content may include such topics as those included in a nursing curriculum. For licensees who are not engaged in direct patient care but who are required to be licensed as

MINNESOTA RULES 2011

a nurse in their employment, the content may include topics that may assist the licensees in the performance of their responsibilities. Unacceptable content includes subject matter that is inaccurate, outdated, or not generally accepted within the health care community.

B. The activity must last at least one contact hour. Licensees may report an activity that lasts more than one contact hour but less than an additional contact hour. Licensees shall not claim contact hours in which they did not participate, for example, if they arrived late or left early.

C. There must be written objectives which describe what a licensee can expect to learn.

D. The activity must be completed during the licensee's continuing education participation period.

E. The activity must be taught by someone other than the licensee.

F. The instructor must be qualified to teach the content. Qualifications include education, preparation of information related to the objectives for the activity, or experience.

G. The following information regarding the continuing education activity must be obtainable by the licensee:

- (1) the written objectives;
- (2) the name and qualifications of the instructor;
- (3) the contact hours or their equivalent assigned to the activity;
- (4) the dates of the activity;
- (5) the title of the activity; and
- (6) an attendance statement that verifies that the licensee was present at or participated in the activity.

Subp. 4. **Exceptions.** If the continuing education activity has been approved by another health licensing board or association or if the licensee is currently certified by a national professional nursing organization, only the criteria for acceptability in item A or B must be met.

A. If the activity has been approved by another health licensing board or association, the criteria in subitems (1) to (5) must be met.

(1) The activity must last at least one contact hour. Licensees may report an activity that lasts more than one contact hour but less than an additional contact hour. Licensees shall not claim contact hours in which they did not participate, for example, if they arrived late or left early.

(2) The activity must be completed during the licensee's continuing education participation period.

(3) The activity must be taught by someone other than the licensee.

(4) The instructor must be qualified to teach the content. Qualifications include education, preparation of information related to the objectives for the activity, or experience.

(5) The following information regarding the continuing education activity must be obtainable by the licensee:

- (a) the name and qualifications of the instructor;
- (b) the contact hours or their equivalent assigned to the activity;
- (c) the dates of the activity;
- (d) the title of the activity; and
- (e) an attendance statement that verifies that the licensee was present at or participated in the activity.

B. If the licensee has a current certificate from a national professional nursing organization, the criteria in subitems (1) to (5) must be met.

(1) The initial certification must be based on predetermined standards for specialty certification assuring that the licensee has acquired knowledge and skill in the specialty.

(2) If the current specialty certificate is a recertification certificate, it must be based on meeting periodic continuing education or other current competency certification requirements.

(3) The certificate must be issued by a national nursing or medical organization.

(4) A copy of the certificate must be submitted and it must be current at the time of submission.

(5) The licensee shall not use the practice specialty certificate as a substitute for any previously deferred contact hours.

Subp. 5. **Other acceptable continuing education activities.** A licensee may do one of the following within the licensee's participation period and apply up to ten contact hours to the activity:

- A. publish an article or book on nursing or health care related issues;
- B. deliver a professional paper related to nursing or health care;
- C. participate on a professional panel that addresses nursing or health care related issues;
- D. participate in quality assurance or risk management studies; or
- E. engage in nursing or health care related research.

Subp. 6. [Repealed, 18 SR 468]

Subp. 6a. **Deadline for submission.** The registration renewal application, registration renewal fee, and continuing education report must be received in the board office on or before the last day of the month preceding the licensee's registration expiration. This receipt deadline is referred to as the application deadline. If the application deadline falls on a weekend or holiday, receipt by the board on the following business day constitutes timely submission.

If the licensee's registration renewal application, registration renewal fee, and continuing education report are received in the board office after the application deadline, a late application fee is required. If the application is received after the licensee's registration expires, the applicant is not eligible for renewal of registration. If the registration expiration date falls on a weekend or holiday, receipt by the board on the following business day constitutes timely submission. However, the licensee may not practice nursing after the registration expiration date until registration renewal requirements have been met as specified in this part.

Subp. 7. **True information.** The licensee shall submit true, complete, and accurate information. Falsification of any evidence for any registration period or falsification or omission of information provides grounds for disciplinary action.

Subp. 8. **Retention of information.** Each licensee shall keep information documenting each continuing education activity submitted to meet registration renewal requirements. The licensee shall retain the information for two years after the continuing education activities are reported to the board on the continuing education report form.

Subp. 9. **Variance.** On presentation of convincing evidence by a registration or reregistration applicant, the board shall grant a variance from the following requirements:

- A. for a receipt deadline, evidence of mail delay;
- B. for a fee, evidence of financial hardship;

MINNESOTA RULES 2011

1125

PROFESSIONAL AND PRACTICAL REGISTRATION 6310.2900

C. for document submission, evidence of loss of records through fire or other disaster; and

D. for the required number of continuing education contact hours, evidence of unexpected illness or personal tragedy.

Subp. 10. **Exemption from renewal of registration.** Pursuant to Minnesota Statutes, section 326.56, a licensee who is in the armed forces of the United States or is employed outside the United States in employment which is essential to the prosecution of any war or the national defense, and whose registration was in effect at the time of entry into the armed forces or engagement in employment outside the United States, is not obligated to renew registration. The board must be notified in writing by the licensee regarding the qualifications for this exemption. The exemption ceases six months after discharge from active duty or termination of the aforementioned employment. A registration renewal application shall be sent to the licensee who has applied for the exemption at the time that a registration renewal application would normally be sent to the licensee. The licensee may be requested to reconfirm exempt status. If the licensee no longer qualifies for the exemption, the requirements for registration renewal must be met. The required number of contact hours are calculated based on the number of months since the exemption ceased to the month of the registration renewal application deadline and according to the ratio specified in subpart 3.

6310.2900 REGISTRATION RENEWAL PROCEDURES.

Subpart 1. **Application.** The board shall mail a registration renewal application at least three full calendar months before a licensee's registration expiration date to the licensee's last known address. Placing the registration renewal application in first class United States mail, postage prepaid, and addressed to the licensee at the licensee's last known address constitutes valid service. Failure to receive the registration renewal application mailed by the board does not relieve the licensee of the obligation to renew registration by the deadline.

The licensee shall submit the completed, signed application, fee, and continuing education report to the board in time for the application to be received in the board office by the application deadline.

The board shall return an application that is received without a fee or an application that is incomplete. The licensee must resubmit the application and fee within 30 days or by the licensee's registration expiration date, whichever is later. The board shall record on the application the date mailed and calculate the 30 days from that date. The board shall determine timely submission by receipt date.

Subp. 2. **Fee.** The licensee shall submit the fee with the application for renewal by the application deadline. The fee must be made payable to the Minnesota Board of Nursing. The board shall return a fee that is received without an application or is made out incorrectly. The licensee shall resubmit the fee with an application within 30 days or by the licensee's registration expiration date, whichever is later. The board shall record on the notice the date mailed and calculate the 30 days from that date. The board shall determine timely submission by receipt date. If the requirements for renewal of registration are not met, the fee is not refundable.

Subp. 3. **Report of continuing education.** The report of continuing education shall be a part of the renewal of registration application. The board shall require the name of the activity, the date of the activity, and the number of contact hours for each of the activities.

Licensees shall report the required information on the continuing education report form. A professional nurse who has been certified in a nursing specialty may submit a

copy of the practice specialty certificate in lieu of reporting participation in the remaining required number of contact hours.

Each licensee shall verify that the continuing education activities met all the criteria in part 6310.2800 and that the information contained on the continuing education report form is true in every respect. The licensee shall sign and date the application and continuing education report form.

Subp. 4. **Application deadline.** The application and fee must be received in the board office by the last day of the month preceding the month in which the licensee's registration expires. If the last day of the month falls on a weekend or holiday, the application must be received in the board office by the next working day. If the application and fee are received after the deadline, the board shall return the application and fee to the licensee. The licensee shall pay the late application fee, the amount specified in part 6310.3600, subpart 1. If the application and fee are received after the expiration of registration, the board shall return the renewal application and fee. The board shall mail a reregistration application to the licensee. If the expiration date falls on a weekend or holiday, receipt by the board on the following business day constitutes timely submission. However, the licensee may not practice nursing after the expiration date until registration renewal requirements have been met.

Subp. 5. **Incomplete application; notice.** The board shall notify the licensee within 30 calendar days of receipt by the board of any deficiency. On the deficiency notice, the board shall note if the application, the continuing education report, or the fee submitted by a licensee is incomplete, incorrect, or not in compliance with part 6310.2800 and this part. The board shall record the mailing date on the deficiency notice. The licensee shall correct the deficiency within 30 calendar days of the date recorded on the notice or by the licensee's registration expiration date, whichever is later. The renewal application, fee, and other documents will be retained by the board whenever possible.

Subp. 6. **Insufficient hours.** If a licensee does not have enough contact hours of acceptable continuing education to report, the licensee has the following options listed in items A to C.

A. Complete the required number of contact hours during the month following the application deadline in which case this month shall not be used as part of the subsequent continuing education participation period.

B. Defer the number of contact hours that the licensee is lacking. The deferred hours shall be added to the contact hours required in the immediately succeeding continuing education participation period. Contact hours may be deferred if there are no current deferred contact hours required of the licensee. If the licensee is deferring a fraction of a contact hour, a whole contact hour must be deferred. If the licensee does not renew for the continuing education participation period that included the deferred hours, the deferred hours shall be required for reregistration.

C. Allow registration to expire and reregister.

Subp. 6a. [Repealed, 12 SR 102]

Subp. 7. **Noncompliance with continuing education requirement.** A licensee provides grounds for disciplinary action if the licensee cannot meet one of the options for insufficient hours or fails an audit and is not eligible to defer.

Subp. 8. **Nullification of incomplete registration renewal.** The board shall return a renewal application and fee received after the licensee's registration expiration date unless the expiration date falls on a weekend or holiday. The board shall mail a reregistration application to the licensee. The board shall nullify incomplete registration renewal applications that are not completed, returned, and received by the board within 30 days following notification of the deficiency or by the licensee's expiration date, whichever is later. For a nullified application, the fee shall be forfeited and the application and other documents may be destroyed according to Minnesota Statutes, section 138.17, subdivision 7.

Subp. 9. **Removal of name from list.** The names of licensees who do not return the complete renewal application, renewal fees, and late application fees by the registration expiration date shall be removed from the list of individuals authorized to practice professional or practical nursing.

Subp. 10. **Initial registration.** An individual who is issued a license by the board shall also be registered by the board. The licensure fee shall serve as payment for the initial registration period.

6310.3000 SUBSTANTIATION OF PARTICIPATION IN CONTINUING EDUCATION.

Subpart 1. **Substantiation of continuing education activity.** At the time of renewal, the board shall randomly select a sample of licensees and require substantiation of participation in the activities that the licensees reported on their continuing education report form. The licensee shall submit documents or written statements that verify the following:

- A. the name of the activity;
- B. the date of the activity;
- C. the number of contact hours or hours equivalent to contact hours;
- D. the objectives;
- E. the name and qualifications of the instructor; and
- F. presence at or participation in the activity.

Licensees who participated in other acceptable continuing education listed in part 6310.2800, subpart 5, shall submit all or a portion of the article, book, paper, study, research, or brochure that verifies participation as a panel member.

Failure to substantiate the hours with the required information shall result in the hours being automatically deferred to the next participation period unless the licensee is not eligible to do so. At the next renewal or reregistration, the licensee shall substantiate participation in all the hours of continuing education required for that reporting period including the automatically deferred hours. Failure to substantiate the hours at this time shall provide grounds for disciplinary action.

Subp. 2. **Substantiation after deferment.** For licensees who have deferred continuing education hours on record, except those automatically deferred as indicated in subpart 1, the board shall randomly select a sample of licensees and require substantiation of participation in the activities that the licensees must report. The licensee shall submit substantiation of participation in all of the continuing education hours required for that participation period, the deferred hours, and the regular hours. The licensee shall submit documents or written statements that verify the information listed in subpart 1.

The licensee shall submit true information. Falsification or omission of information provides grounds for disciplinary action. The board may require further information of the licensee to determine whether the licensee has engaged in conduct warranting disciplinary action listed in Minnesota Statutes, section 148.261.

Subp. 2. Fees.

A. The fee for reregistration is the current registration renewal fee.

B. The late application fee is applicable if the licensee's registration expired within the two years preceding submission of the reregistration application unless the licensee has been licensed and is practicing nursing in another jurisdiction or country.

C. In addition to the fee in item A and when applicable the fee in item B, the penalty fee for practicing nursing without current registration is also applicable if the licensee practiced nursing in Minnesota after expiration of the licensee's registration.

D. For purposes of calculating the penalty fee for practicing nursing without current registration, the number of calendar months, or parts of months, of practice shall be calculated from the first day the licensee does not have current registration to the date of last nursing practice.

Subp. 2a. Continuing education. Licensees whose registrations expired within the two years preceding application for reregistration shall report participation in the required number of acceptable continuing education hours. To fulfill this requirement, the criteria in items A to C must be met.

A. The number of contact hours required are the number of hours the licensee was responsible for at the time registration expired, including any deferred hours.

B. To be acceptable, the continuing education must meet the requirements specified in part 6310.2800, subpart 3, with the exception of item D, or part 6310.2800, subpart 4 or 5.

C. Participation must have occurred during the 24 months immediately preceding board action on the application for reregistration.

Subp. 2b. Deferred contact hours. A licensee who has deferred continuing education contact hours on record shall make up the deferred contact hours before board action on the application for reregistration. The licensee shall submit a report of participation in the required number of contact hours and submit the substantiating documents required in part 6310.3000, subpart 1. The board shall audit the substantiating documents to be certain that the requirements in part 6310.3000, subpart 1, have been met.

B. A licensee must submit a verification of acceptable nursing practice.

C. A licensee must participate in and report participation in acceptable continuing education as specified in part 6310.2800, subpart 3, items A, B, C, E, and F, 4, or 5. An affidavit of successful completion must be signed by the person responsible for the refresher course or the refresher course equivalent. If the length of the refresher course or its equivalent is less than the hours required in item D, other acceptable continuing education must be completed to meet the hour requirement. The licensee shall participate in the continuing

education or complete the refresher course or the refresher course equivalent within the 24 months immediately preceding board action on the application for reregistration.

D. A licensee must complete the required number of contact hours. The registered nurse shall complete one contact hour of acceptable continuing education for each month that the licensee was not engaged in acceptable nursing practice. The maximum hours required are 150 hours for a registered nurse and 75 hours for a licensed practical nurse.

Subp. 7. **Permit to practice.** The licensee shall have a permit to practice to participate in the clinical component of a refresher course or its equivalent with the exception of degree granting programs. For the latter, a permit may be issued if the degree granting program requires it.

Subp. 8. **Licensees residing outside Minnesota.** If a licensee residing outside of Minnesota applies for reregistration for the purpose of obtaining verification of current registration status to another country or United States jurisdiction, the requirements for reregistration are the reregistration application, applicable fee, request for verification of licensure, and verification fee.

The licensee shall submit the completed and signed reregistration application which includes questions that relate to the grounds for disciplinary action listed in Minnesota Statutes, section 148.261. The licensee shall submit true information. Falsification or omission of information provides grounds for disciplinary action. The board may require further information of the licensee to determine whether the licensee has engaged in conduct warranting disciplinary action listed in Minnesota Statutes, section 148.261.

The board shall return an application that is received without a fee or an application that is incomplete.

Subp. 2. **Fees.** The licensee shall submit the registration renewal fee, the late application fee when applicable and any penalty fee for practicing without current registration, with the application for reregistration. The fee or fees must be payable to the Minnesota Board of Nursing. The board shall return the fee or fees if they are received without an application or if they are made out incorrectly. If the requirements for reregistration are not met, the fees are not refundable.

Subp. 3. **Report of continuing education.** The board shall provide a form for reporting continuing education. In the report of continuing education, the board shall require the name of the activity, the date of the activity, and the number of contact hours for each of the activities. The licensee shall report participation in the required acceptable continuing education including the refresher course. A professional nurse who has been certified in a nursing specialty may submit a copy of the practice specialty certificate in lieu of reporting

participation in the continuing education contact hours. The copy of the current certificate must be attached to the report of continuing education. Each licensee shall verify that the continuing education activities met all the criteria specified in part 6310.2800, subpart 3, with the exception of item D, or part 6310.2800, subpart 4 or 5, and that the information contained on the continuing education report form is true in every respect. The licensee shall sign and date the continuing education report form.

Subp. 4. Acceptable nursing practice requirement. Verification of acceptable nursing practice must be reported on a form provided by the board or in a statement submitted in writing which includes the information required by the board on the verification of practice form. It must be completed by the individual best able to verify the licensee's practice. If the licensee was employed by an institution or agency, an employer shall complete the verification. In lieu of an employer, a patient, volunteer supervisor, patient's family or physician, or peer may verify acceptable practice. If the applicant supplies a written statement that verification cannot be obtained because the institution or agency no longer has the relevant records or went out of business, the last date of employment shall be accepted from the applicant.

Subp. 5. Permit to practice. To obtain a permit to complete the clinical portion of a refresher course or its equivalent if being taken in Minnesota, a licensee shall submit the completed reregistration application, fee, and a statement of intent to participate in a refresher course or its equivalent. The statement of intent must be signed by the refresher course provider, the preceptor, the instructor, an official of the nursing program, or the employer. The statement of intent must contain the request for a permit. The board shall issue a permit after the application, fee, and statement of intent have been received and evaluated for compliance with this chapter. The board shall issue the permit for no more than 90 days. The permit is valid only for practice as a part of the refresher course or its equivalent. While the permit is in effect, the registered nurse may use the title registered nurse, abbreviated "RN," and a licensed practical nurse may use the title licensed practical nurse, abbreviated "LPN." If there is a delay in the completion of the clinical portion of the refresher course or its equivalent, the licensee shall return the expired permit and complete another statement of intent. The board shall issue another permit for no more than 90 days.

Subp. 6. Affidavit of successful completion of a refresher course or refresher course equivalent. The licensee who must successfully complete a refresher course or its equivalent shall submit the affidavit of successful completion of a refresher course or refresher course equivalent. The affidavit must be signed by the refresher course provider, the preceptor, the instructor, an official of the nursing program, or the employer.

Subp. 7. Out-of-state address. A licensee residing outside Minnesota who applies for reregistration for the purpose of obtaining verification of current registration status to another country or United States jurisdiction must have an out-of-state address and submit a verification of licensure request from another jurisdiction. The verification of licensure request must be submitted with the reregistration application. The fee for verification must be separate from the fee for reregistration.

Subp. 8. Nullification and reapplication. The board shall nullify an incomplete reregistration application if the licensee fails to complete the application process within one year after submission of the application.

For a nullified application, the registration renewal fee and the late application fee when applicable shall be forfeited and the application and other documents may be destroyed according to Minnesota Statutes, section 138.17, subdivision 7. If a licensee fails to submit an application and fee within six months after the board received any other documents relating to the application, the board may destroy the documents.

If a licensee whose application has been nullified wants to be reregistered, a new reregistration application must be submitted and all applicable reregistration requirements must be met.
