A. nitrogen oxides (NO<sub>x</sub>) or any volatile organic compound; and

B. PM-10, sulfur dioxide, lead, and any other pollutant for which a national ambient air quality standard has been promulgated, except carbon monoxide.

Subp. 2b. **Dollar per ton figure or \$X.** "Dollar per ton figure" or "\$X" means the dollar amount assessed for each ton of chargeable pollutant determined under part 7002.0045.

Subp. 3. **Emission inventory.** "Emission inventory" means the inventory of actual emissions required under part 7019.3000.

Subp. 3a. **Emission reporting facility.** "Emission reporting facility" means any facility for which the owner or operator of the facility must obtain an air emission permit under chapter 7007 except any facility permitted under part 7007.1120, registration permit option B.

**7002.0025 ANNUAL EMISSION FEE RATES.**

Subpart 1. **Calculation of fee.**

A. Owners or operators of emission reporting facilities shall be assessed an annual emission fee for each ton of a chargeable pollutant emitted to the air by the facility. Emission reporting facilities shall be assessed a fee of \$X for each ton of any chargeable pollutant as established in the most recently available emission inventory.

B. Notwithstanding item A, the owner or operator of any emission reporting facility or any facility issued an option B registration permit under part 7007.1120 that chooses to be assessed a fee under part 7002.0025, subpart 1, item C, subitem (1), with less than one ton of total actual emissions shall be assessed an annual fee of \$25.

C. As described in subitems (1) and (2), the owner or operator of a facility issued an option B registration permit under part 7007.1120 shall be assessed an annual emission fee based on either the reported quantity of VOC-containing materials purchased or used (whichever was stated in the facility's permit application) or the actual emissions from the use of VOC-containing materials.

(1) If the owner or operator chooses to be assessed the fee based on the actual emissions from the use of VOC-containing materials, the facility's actual emissions shall be determined in accordance with parts 7019.3000 to 7019.3090. The assessed fee shall be determined in accordance with item A.

(2) If the owner or operator chooses to be assessed the fee based on the quantity of VOC-containing materials purchased or used (whichever was stated in the facility's permit application), the fee shall be:

(a) \$50 if the quantity of VOC-containing materials is less than or equal to 1,000 gallons; or

(b) \$140 if the quantity of VOC-containing materials is more than 1,000 and less than 2,000 gallons.

Subp. 2. [Repealed, 21 SR 165]

Subp. 2a. **Newly permitted facilities.**

A. Newly permitted emission reporting facilities that have not submitted one or more emission inventories under part 7019.3000, subpart 1, shall be assessed a fee of \$X times the estimated actual emissions as stated in the facility's permit application. The fee assessed under this item shall not exceed \$10,000. The most recently determined \$X shall be used in determining the fee.

B. Newly permitted facilities issued an option B registration permit under part 7007.1120 shall be assessed a fee under subpart 1, item C, subitem (2), based on the estimated normal annual quantity of VOC-containing materials to be purchased or used (whichever was stated in the facility's permit application).

C. A bill for the newly permitted facility fee under item A or B shall be sent upon issuance of the permit. Newly permitted facilities that are issued permits in 1995 shall be assessed a fee according to the method described in this subpart.

Subp. 3. **Facilities failing to submit emissions inventories.** If an emission reporting facility fails to submit an emissions inventory as required by part 7019.3000, it shall be assessed an annual emission fee for that facility that is \$X times 1-1/2 times the estimated actual emissions as stated in the facility's permit application.

If the owner or operator of a facility that is required to obtain a permit under chapter 7007 has not submitted a permit application which includes an estimate of the actual emissions, it shall be assessed an annual fee that is \$X times 1-1/2 times the estimated potential to emit of that facility, as defined in part 7005.0100, subpart 35a.

If a facility issued an option B registration permit fails to submit an emission inventory, it shall be assessed an annual fee of \$210.

**7002.0035 AIR QUALITY ANNUAL FEE TARGET.**

The annual fee target shall be set as described in items A and B.

A. The unadjusted fee target shall be the greater of the following:

(1) the sum of:

(a) the amount directly appropriated to the Air Quality Division from the environmental fund for that fiscal year; and

106

(b) the Air Quality Division's portion of the appropriation from the environmental fund to the agency's general support program, as determined by using the indirect cost allocation plan approved by the Minnesota Department of Finance under Minnesota Statutes, section 16A.127, subdivision 4; or

(2) the amount calculated by multiplying \$25 per ton, adjusted for inflation since 1989, times the number of tons of each chargeable pollutant listed in the most recently available emission inventory. No pollutant shall be double counted. A maximum of 4,000 tons per pollutant per facility shall be used for this calculation. The adjustment for inflation shall be in accordance with the adjustment described in Minnesota Statutes, section 116.07, subdivision 4d, paragraph (d).

B. The amounts described in item A must be adjusted as follows:

(1) if the agency failed to collect its fee target the previous year, after making reasonable efforts to do so, the shortfall must be added to the next year's fee target;

(2) if the agency collected more than its fee target the previous year, the excess must be subtracted from the next year's fee target; and

(3) for any year, the commissioner may increase the fee target by up to five percent to reflect the anticipated fee nonpayment rate. This increase must not be considered for purposes of calculating a deficit under subitem (1).

T = Total number of tons of all chargeable pollutants listed in the most recently available annual emissions inventory emitted from emission reporting facilities and facilities issued option B registration permits that are assessed an annual emission fee based on actual emissions under part 7002.0025, subpart 1, item C, subitem (1). No pollutant shall be double counted.

L = Total number of tons of all chargeable pollutants listed in the most recently available annual emission inventory emitted from emission reporting facilities and facilities issued option B registration permits that are assessed an annual emission fee based on actual emissions under part 7002.0025, subpart 1, item C, subitem (1), that emit less than one ton of total actual emissions of chargeable pollutants.
