

CHAPTER 7019
MINNESOTA POLLUTION CONTROL AGENCY
EMISSION INVENTORY REQUIREMENTS

7019 3000 EMISSION INVENTORY

7019.3000 EMISSION INVENTORY.

[For text of subpart 1, see MR]

Subp. 2. **Owner or operator error in reporting data.** If an owner or operator discovers an error in the data after having submitted it to the agency, the owner or operator shall submit corrected data, with a written explanation of the mistake and why it occurred. If the commissioner agrees that the correction is appropriate, the commissioner shall correct the data in the inventory. However, for purposes of assessing the emission fee under part 7002.0025, the commissioner shall not accept any correction submitted by an owner or operator which would result in a reduction of tons emitted if the correction is submitted more than 45 days after the mailing date of the previous year's air emissions summary.
