Subp 3 **Operation and maintenance manual.** The owner or operator of a refuse-derived fuel processing facility must prepare an operation and maintenance manual and keep the manual at the facility. The manual must contain the information needed to operate the facility properly and meet the following requirements

A Access to the site must be controlled by a complete perimeter fence and gate. The gate must be locked when the facility is not open for business

B By-products, including residuals and metal fractions, must be stored to prevent vector problems and aesthetic degradation. The by-products must be removed or used at least once a week.
