7190.0101 HOUSEHOLD LABOR LOSSES ELIGIBLE FOR COMPENSATION.

Subpart 1. **Scope.** The Pollution Control Agency shall compensate a claimant for the value of past, current, and future household labor lost due to the claimant’s injury or disease.

Subp. 2. **Past years.** The agency shall calculate the number of eligible years of losses in the past beginning with the date on which the claimant’s injury was diagnosed by a physician.

7190.0102 FACTORS AFFECTING THE AMOUNT OF HOURS SPENT ON HOUSEHOLD LABOR.

In calculating the hours spent on household labor, the Pollution Control Agency shall consider whether the claimant:

- A. is in a living arrangement with other persons;
- B. is a primary, secondary, or teenage houseworker;
- C. resides in a household where the primary houseworker is employed outside the household 15 or more hours per week; or
- D. provides services and care for children, and, if so, the number and ages of the children.

7190.0103 CALCULATION OF THE AMOUNT OF HOURS SPENT ON HOUSEHOLD LABOR.

Subpart 1. **Base hours.** The Pollution Control Agency shall determine the number of household labor hours contributed by the claimant by using part 7190.0108, schedule A or B.

Subp. 2. **Schedule A.** Schedule A applies to a claimant who lives in a household where the primary houseworker is not employed outside the household or employed less than 15 hours per week outside the household.

Subp. 3. **Schedule B.** Schedule B applies to a claimant who lives in a household where the primary houseworker is employed 15 or more hours per week outside the household.

Subp. 4. **Applicable living arrangement.** The agency shall determine the hours eligible for compensation from the appropriate schedule as follows:

A. if the claimant is part of a married couple, or demonstrates the claimant is part of a married couple equivalent, the number of hours in the schedule for the claimant’s houseworker role (primary or secondary houseworker, with or without children) is the number of hours eligible for compensation;

B. if the claimant is a single parent, the only adult in a household with children, the total of the hours for a primary and secondary houseworker is the number of hours eligible for compensation;

MINNESOTA RULES 2007

1557

HARMFUL SUBSTANCE CLAIMS, COMPENSATION 7190.0105

C. if the claimant lives alone, the number of hours for a primary houseworker is the number of hours eligible for compensation;

D. if the claimant lives with one or more other adults, the number of hours for a secondary houseworker in part 7190.0108, subpart 2, is the number of hours eligible for compensation; and

E. if the claimant is a teenage houseworker, the number of hours for a teenage houseworker is the number of hours eligible for compensation. When a teenage houseworker becomes 18 years old, the number of hours for a secondary houseworker is the number of hours eligible for compensation.

The agency shall consider that children under the age of 12 produce no hours eligible for compensation.

Subp. 5. Exception to schedule. The agency may determine the number of hours eligible for compensation without using a schedule when:

A. the claimant's living arrangement is not covered by the schedule;

B. the claimant provides evidence that the division of household labor in the claimant's household significantly deviates from the schedule's division; or

C. the claimant demonstrates that special circumstances in the claimant's household such as a disabled spouse, child, or parent significantly increase the total amount of hours spent on household labor.

Subp. 6. Determination of yearly hours spent. The agency shall calculate the number of hours spent on household labor in any year by multiplying the schedule base value by 12. For partial years, the agency shall calculate the actual number of months where household labor was lost and multiply the schedule base value by that number.

Statutory Authority: *MS s 115B.34 subd 1 para (e)*

History: *12 SR 846; L 2002 c 379 art 2 s 23*

7190.0104 CALCULATION OF HOURLY WAGE FOR HOUSEHOLD LABOR.

Subpart 1. Salary determination. For each year in which the Pollution Control Agency calculates an adult claimant has hours eligible for compensation, the agency shall determine the hourly wage for household labor using the state median monthly salary for janitors as determined in the annual salary survey conducted by the Department of Employment and Economic Development. For each future year, the agency shall calculate the hourly wage using the current year's salary survey data.

Subp. 2. Formula. For each year in which a claimant has hours eligible for compensation, the agency shall calculate the hourly wage using the following formula:

$$W = \frac{S}{173.33}$$

Where:

W = hourly wage for that year

S = state median monthly salary for janitors for that year

173.33 = the number of hours in a work month

Subp. 3. Teenage houseworker. For each past year in which a teenage houseworker has eligible hours, the agency shall use the minimum wage in that year as the hourly wage for household labor; for the current year and future years until the year the teenage houseworker becomes 18 years old the agency shall use the current minimum wage.

Statutory Authority: *MS s 115B.34*

History: *12 SR 846; L 1994 c 483 s 1; L 2002 c 379 art 2 s 23; L 2005 c 112 art 2 s 41*

7190.0105 DISABILITY.

For each past year in which the Pollution Control Agency calculates a claimant has hours eligible for compensation, the agency shall determine to what extent the claimant's

MINNESOTA RULES 2007

7190.0105 HARMFUL SUBSTANCE CLAIMS, COMPENSATION

1558

injury or disease impaired the claimant's ability to perform household labor. For the current year and future years in which a claimant has hours eligible for compensation, the agency shall determine to what extent the claimant's injury or disease presently impairs the claimant's ability to perform household labor.

In making the determination of disability, the agency shall consider the quality and quantity of household labor services the claimant:

- A. can or could no longer perform;
- B. performs or performed with assistance;
- C. continues or continued to perform.

The agency shall set a claimant's disability for any year at 100 percent, 75 percent, 50 percent, 25 percent, or zero.

Statutory Authority: *MS s 115B.34 subd 1 para (e)*

History: *12 SR 846; L 2002 c 379 art 2 s 23*

7190.0106 CALCULATION OF LOSS IN HOUSEHOLD LABOR.

For each year in which the claimant has a loss in household labor, the Pollution Control Agency shall determine the claimant's loss using the following formula:

$$V = H \times W \times D$$

Where:

V = value of the household labor lost in that year

H = number of hours eligible for compensation in that year

W = hourly wage for household labor for that year

D = percent disabled in that year

7190.0107 PAYMENT OF COMPENSATION.

Subpart 1. Payment limit. The total compensation the Pollution Control Agency shall pay to a claimant for household labor lost shall not exceed the limits in Minnesota Statutes, sections 115B.34, subdivision 1, and 115B.36.

Subp. 2. Payment in lump sum. The agency will calculate the total lump sum amount of compensation to be paid to a claimant using the following formula:

$$A = P + C + F$$

Where:

A = award amount in current dollars

P = the sum of all past years' losses

C = the loss for the current year

F = the sum of all future years' losses, with each year discounted to current value according to Minnesota Statutes, section 604.07, subdivision 4, clauses (1) and (2)

Subp. 3. Payment in installments. When the agency chooses to pay the award in installments, it shall adjust future payments by the cost of living rate for the current year as described in Minnesota Statutes, section 604.07, subdivision 4, clause (2).
