EMERGENCY VEHICLE SIRENS 7420.0400

CHAPTER 7420 DEPARTMENT OF PUBLIC SAFETY STATE PATROL DIVISION EMERGENCY VEHICLE SIRENS

7420.0200 PURPOSE AND SCOPE.
7420.0300 APPROVED SIRENS.
7420.0400 APPROVAL OF OTHER SIRENS.

TABLES, FORMS, AND EXHIBITS
7420.9910 TABLE 1: MECHANICAL SIRENS.
7420.9920 TABLE 2: ELECTRONIC SIRENS.
7420.9930 TABLE 3: CONDITIONALLY
APPROVED SIRENS.

7420.0200 PURPOSE AND SCOPE.

Subpart 1. **Purpose.** The purpose of parts 7420.0200 to 7420.9930 is to carry out the mandate of the legislature and to effectuate that mandate as set forth in Minnesota Statutes 1957, section 169.68.

Subp. 2. **Scope.** The scope of parts 7420.0200 to 7420.9930 is confined within the framework of and consistent with Minnesota Statutes 1957, section 169.68.

Statutory Authority: *MS s 169.68*

7420.0300 APPROVED SIRENS.

Subpart 1. **Type of sirens.** The following types of sirens are established:

A. Type I: high performance siren approved for outside mounting or mounting behind a grill or under the hood of an emergency vehicle.

B. Type II: medium performance siren approved for outside mounting only.

Subp. 2. **Fully approved sirens.** The sirens listed in Table 1 and Table 2 are approved as to type. See Table 1, part 7420.9910, for mechanical sirens. See Table 2, part 7420.9920 for electronic sirens.

Subp. 3. **Conditionally approved sirens.** Any siren listed in Table 3, part 7420.9930, which is in good condition, which was installed on an authorized emergency vehicle prior to the date of adoption of parts 7420.0200 to 7420.9930, and which is currently in use on that vehicle is approved for use on such vehicle. Such sirens (except engine-driven sirens) must be mounted on the outside of the vehicle as required herein for Type II sirens. Such sirens shall not otherwise be installed on any other authorized emergency vehicle unless it is submitted for approval and is found to meet the test requirements set forth in part 7420.0400, subpart 8.

Statutory Authority: *MS s 169.68*

7420.0400 APPROVAL OF OTHER SIRENS.

Subpart 1. **Unlisted sirens.** Sirens not listed in parts 7420.0200 to 7420.9930 will be considered for approval as follows.

Subp. 2. **Letter of application.** A letter of application, including specifications or a description of the siren, shall be submitted to the Commissioner of Public Safety, Transportation Building, Saint Paul, Minnesota 55155. Applications for electronic sirens shall list the speaker manufacturer and manufacturer's model number for horn and driver unit.

Subp. 3. **Samples.** One siren of each type or model for which approval is desired, complete with cable, switch, and instruction sheets, shall be delivered, freight or express prepaid, to the address in subpart 2. The siren will be returned by railway express collect after the tests have been completed.

Subp. 4. **Identification.** The siren shall be marked with the trademark or

MINNESOTA RULES 1989

7420.0400 EMERGENCY VEHICLE SIRENS

7048

name and the model designation. Such markings shall be readily visible and legible from the outside of the siren when it is properly mounted on the vehicle.

Subp. 5. Waiver of sample. Submittal of a photostatic copy of a test report from the California Highway Patrol, or a test report from an independent testing laboratory approved by the department, showing compliance with the minimum sound level output requirements of subpart 8, may be considered in lieu of a sample.

Subp. 6. Fee. A check payable to the commissioner of public safety in the amount of \$25 shall be submitted for each siren to be tested.

Subp. 7. Supplements. Supplements to Table 1 and Table 2, parts 7420.9910 and 7420.9920, respectively, will be issued periodically listing sirens approved under this subpart.

Subp. 8. Test requirements. Sound level measuring equipment conforming to standards of the American Standards Association will be used to determine the sound level output of the siren. The siren will be mounted in the open, away from large reflecting objects, with due regard given to wind and background noises. The minimum sound level output measured at 100 feet from the siren shall be as follows:

A. Type I

- | | |
|---------------------------------|-------------|
| (1) In the axis | 95 Decibels |
| (2) At 45 degrees from the axis | 90 Decibels |
| (3) At 90 degrees from the axis | 85 Decibels |

B. Type II

- | | |
|---------------------------------|-------------|
| (1) In the axis | 85 Decibels |
| (2) At 45 degrees from the axis | 80 Decibels |
| (3) At 90 degrees from the axis | 80 Decibels |

The fundamental frequency should be in the range of 800 to 1000 cycles per second.

Statutory Authority: *MS s 169.68*
