A. Blood and/or urine test samples shall be taken from at least two horses, one of which must be the winning horse in every race.

B. Blood and/or urine test samples may be taken from randomly selected horses during each racing program, from horses designated by the stewards or the commission veterinarian at any time upon suspicion that a violation of chapter 7890 has occurred, or for testing the quantitative levels of furosemide in the plasma or urine and the level of urine creatinine of treated horses.

C. The stewards or commission veterinarian may require that specimens of saliva or other body fluid or excretion may be taken from a tested horse as deemed necessary by the stewards or the commission veterinarian to determine whether a violation of chapter 7890 has occurred.

D. Any owner, trainer, or other person having care, custody, or control of a horse required to be tested must submit the horse immediately.

Subp. 2. **Samples taken.** All samples shall be taken in the detention barn unless the commission veterinarian determines it necessary to take a sample elsewhere. All samples shall be taken, sealed, identified, and delivered to the testing laboratory under the direction of the commission veterinarian or his or her designee.

Subp. 3. **Witnesses.** The taking and sealing of any test sample must be witnessed or acknowledged by the signature of the trainer of the horse or his or her designee. The owner and/or trainer of a horse, or their designees, may be present at all times during the taking and sealing of the test samples.

Subp. 4. **Identification.** An identification tag must be attached to each sealed sample. The commission veterinarian shall retain a stub from each tag. From this list, a person accused of a violation of chapter 7890 shall designate the laboratories in descending order of preference. The sample must be sent to the laboratory given the highest preference and that is capable of testing for the substance within 14 days. The commission veterinarian shall have overall responsibility for the storage, safeguarding, and shipment of the split sample and for the receipt of results from the drug testing laboratory to which the sample was sent.

B. A person making a request for split sample testing must do so in writing to the stewards within 72 hours of notice of the official laboratory's findings and must bear the cost of shipment and additional testing. The cost of additional testing shall be paid in the form of a check or money order payable to the Minnesota Racing Commission or in cash at the commission's administrative offices.

C. A person making a request for split sample testing must select from among the laboratories approved by the commission pursuant to item A, within 24 hours of receipt of the list.

D. Failure to comply with the provisions of items B and C shall render the request for split sample testing null and void.
