

CHAPTER 8002
DEPARTMENT OF REVENUE
INCOME AND FRANCHISE TAXES
INDIVIDUAL INCOME DETERMINATION

8002.0200 MINNESOTA GROSS INCOME FOR INDIVIDUALS WHO ARE PART-YEAR RESIDENTS OR NONRESIDENTS OF MINNESOTA (FEDERAL ADJUSTED GROSS INCOME).

8002.0300 SUBTRACTION FOR INTEREST ON U.S. GOVERNMENT OBLIGATIONS.

8002.0100 [Repealed, L 1987 c 268 art 1 s 128]

8002.0200 MINNESOTA GROSS INCOME FOR INDIVIDUALS WHO ARE PART-YEAR RESIDENTS OR NONRESIDENTS OF MINNESOTA (FEDERAL ADJUSTED GROSS INCOME).

Subpart 1. [Repealed, 25 SR 806]

Subp. 2. [Repealed, 27 SR 1664]

Subp. 3. **Distributive shares.** Income received by a nonresident, which is the distributive share of partnership income from personal or professional services which are performed in Minnesota, is assignable to Minnesota in the same proportion as the partnership income is assignable to Minnesota even though the nonresident partner performed no personal or professional services in Minnesota during that year.

Subp. 4. **Military service.** Minnesota gross income for a nonresident of Minnesota does not include income that is received as compensation for military or naval services performed within Minnesota.

Subp. 5. [Repealed, 27 SR 1664]

Subp. 6. **Reciprocity exclusion.** Minnesota gross income does not include personal or professional service income earned in Minnesota by a resident of Wisconsin, North Dakota, or Michigan. A resident of North Dakota or Michigan can use this provision only if the resident customarily returns at least once a month to their residence in that state. Wisconsin, North Dakota, and Michigan are the only three states that have reciprocity exclusion agreements with the state of Minnesota. The income subject to reciprocity exclusion is compensation for the performance of personal or professional services which the taxpayer personally renders. It is not enough to employ others to render these services.

A. The reciprocity exclusion does not apply where the personal or professional service income is earned as part of a business operated by the taxpayer which has employees that do more than incidental duties for the business or where there is the sale or delivery of goods which are more than an incidental part of the business. The reciprocity exclusion does apply to all the personal or professional income earned in the business where the sale of goods and the services of the employees are incidental. Where a partner is a member of a partnership where the selling of goods or the services of employees is more than incidental to the partnership business, reciprocity exclusion would apply only to the partner's salary (personal or professional service income) but not to the distributive shares of the partnership business. Salaries would be subject to a reasonableness test and a provision for salaries must be part of the partnership agreement. If there is no written partnership agreement, or if in the written agreement no salary or salary formula is specifically provided, the payment to the partners is a partnership distribution and is not subject to reciprocity exclusion. Partnership draw does not constitute a salary; it is a convenience to the partners in withdrawing a share of their business equity. If all partners are performing personal services and the sale of goods and the services of the employees are incidental, the reciprocity exclusion applies to the partner's salary and to the partner's distributive share. The imputed income of a shareholder of an electing small business corporation (Subchapter S) is not subject to reciprocity exclusion as this income is in the form of a partnership distribution.

B. The word "incidental" means the sale of goods or the services of employees which are only a minor or secondary contribution to the personal service income of the individual or partnership for whom performed. The sale of goods or the services of employees is incidental if for the sale of goods the gross profit (gross receipts less cost of goods sold) or for the services of employees the total compensation paid the employees is less than \$20,000 or ten percent of the gross profit of the business, whichever is greater. The total compensation paid the employees and the gross profit from the sale of goods must be totaled when determining if the goods and employees are incidental.

C. If an individual's total income assignable to Minnesota is subject to reciprocity exclusion, that individual need not file a Minnesota income tax return. However, if that individual has Minnesota income, some of which is subject to reciprocity exclusion and some of which is not subject to reciprocity exclusion and if the income which is not subject to reciprocity exclusion exceeds the filing requirements for filing a Minnesota income tax return, that individual must file a Minnesota income tax return. That individual should use the appropriate federal adjusted gross income for the taxable year. A subtraction would be allowed at a subsequent point on the return to remove income which is subject to reciprocity exclusion.

In order to claim the reciprocity exclusion, individuals should file form M-115, which is an affidavit claim for exemption of compensation received for services performed under the reciprocity exclusion. Although the exact form may change, the following information will be required:

- (1) name, address, and social security number of the individual;
- (2) year for which the affidavit is being submitted;
- (3) amount of income received for services performed in Minnesota subject to reciprocity exclusion;
- (4) a statement whether or not Minnesota income tax was withheld on that income;
- (5) the name and address of the employer;
- (6) type of services performed in Minnesota;
- (7) state in which the individual maintains residence;
- (8) the year in which the individual became a resident of the state;
- (9) a statement disclosing whether or not the individual customarily returns to the individual's residence in the other state at least once a month;
- (10) a statement whether or not the individual filed an income tax return with that state and whether the income subject to reciprocity exclusion was declared on that return; and
- (11) a statement declaring if the individual ever was a resident of Minnesota and, if so, when was the date of last residence.

An individual whose income is subject to reciprocity exclusion may also want to complete a withholding exemption certificate, form MW-6.

Subp. 7. Assignable income. The following items of income received by a nonresident are assignable to Minnesota regardless of the time or place received by the taxpayer if the underlying services giving rise to the payment were performed in Minnesota:

- A. a bonus;
- B. commissions; and
- C. vacation pay.

However, certain qualified pension payments are not assignable to Minnesota if they are received by a nonresident, even though the payments are attributable to services previously performed in Minnesota.

Subp. 8. Net operating loss carried back or forward. The amount of a net operating loss that may be carried back or carried forward shall be the same dollar amount allowed in the determination of federal adjusted gross income. Adjustments must be made in the net operating loss for income and losses which are not assignable to Minnesota and for any changes in the computation of federal adjusted gross income which have not been adopted by the

Minnesota Legislature in a law updating the reference to the Internal Revenue Code. A taxpayer may make an adjustment to federal adjusted gross income for the modifications that affect shareholders of a small business corporation which has made an election for federal purposes but not for Minnesota purposes as provided in Minnesota Statutes, section 290.01, subdivision 20c.

The net operating loss carryback or carryover applied as a deduction in the taxable year to which the net operating loss is carried back or carried over shall be equal to the net operating loss carryback or carryover applied in the taxable year in arriving at federal adjusted gross income subject to the following modifications:

A. Increase the amount of carryback or carryover applied in the taxable year by the amount of losses and expenses not assignable to Minnesota incurred in the taxable year.

B. Decrease the amount of carryback or carryover applied in the taxable year by the amount of income not assignable to Minnesota earned in the taxable year and the amount of federal jobs credit or WIN credit earned in the taxable year.

C. A taxpayer who is not a resident of Minnesota during any part of the taxable year and who has no income assignable to Minnesota during the taxable year shall apply no net operating loss carryback or carryover in the taxable year.

The net operating loss carryback or carryover to the next consecutive taxable year shall be the net operating loss carryback or carryover as calculated in this subpart less the amount applied in the taxable year(s) as above. No additional net operating loss carryback or carryover shall be allowed if the entire amount has been used to offset Minnesota income in a year earlier than was possible on the federal return. A net operating loss carryback or carryover that was allowed to offset federal income in a year earlier than was possible on the Minnesota return shall still be allowed to offset Minnesota income.

8002.0300 SUBTRACTION FOR INTEREST ON U.S. GOVERNMENT OBLIGATIONS.

Subpart 1. Conditions for qualification. Minnesota Statutes, section 290.01, subdivision 19b, clause (1), allows an individual taxpayer, an estate, or a trust to subtract the amount of interest earned on certain obligations of the United States government from federal taxable income. To qualify for this subtraction, the obligation must meet the following conditions:

A. For the purposes of these conditions, "interest" includes:

(1) income reported federally as ordinary income pursuant to sections 454 and 1271 through 1286 of the Internal Revenue Code of 1986, as amended through June 30, 2001; and

(2) dividends from regulated investment companies as defined by section 851(a) or (g) of the Internal Revenue Code of 1986, as amended through June 30, 2001, to the extent that the income of the regulated investment company is derived from interest on federal obligations and is reported federally as dividend income by shareholders.

B. The obligation must be an obligation of the United States of America, whether through an agency, authority, commission, or instrumentality of the United States, and must be exempt from state taxation under federal law.

C. The obligation must be in writing, bear interest, contain a binding promise by the United States to pay specified sums on specified dates, and be specifically authorized by Congress. Open accounts and other unsettled claims or demands are not obligations of the United States for the purposes of this part.

D. The obligation must be a direct and primary obligation of the United States. If the primary obligor is not the United States and the United States is merely an insurer or guarantor and has only a secondary or contingent liability, the interest income is not exempt. If the primary obligor is not the United States but the United States pays all or part of the interest on the obligation, the interest income is not exempt. If the obligation was originally a private obligation and if the obligee later gives up all rights against the original obligor as part of an

insurance endorsement or otherwise, and agrees to look only to the United States for payment of both principal and interest, then the obligation has become a primary obligation of the United States and the interest income from it is exempt from state taxation.

E. The interest income on the obligation must have been included in federal taxable income for the taxable year that subtraction is claimed. If only a portion of the interest income on an obligation has been included in federal taxable income, only the included portion may be subtracted. Where the interest is in the form of dividends from a regulated investment company and all of the regulated investment company's interest is derived from interest on obligations that are exempt from state taxation by federal law, the full amount of the dividends received by shareholders may be subtracted. Where less than the full amount is derived from interest on exempt obligations, the amount to be subtracted is determined as follows:

Regulated investment company's interest income on federal obligations less expenses attributable to such income	+	Regulated investment company's taxable income as defined by section 852(b)(2) of the Internal Revenue Code of 1986, as amended through March 15, 2002, before deduction for dividends paid	=	Percent of federally taxable ordinary income dividends received by shareholders that qualify as exempt
---	---	--	---	--

In the case of a series fund, as defined by the Internal Revenue Code, section 851 (g), the portion of the dividends paid that is exempt from Minnesota income tax must be determined on a fund-by-fund basis.

Subp. 2. **Exhibits.** Subpart 3 contains a list of securities that are exempt from Minnesota income tax and for which a subtraction is allowed. Subpart 4 contains a list of securities that are subject to Minnesota income tax and for which no subtraction is allowed. Subparts 5 and 6 contain lists of various federal agencies or related organizations that either generally issue exempt obligations or generally issue taxable obligations. These lists are not intended to be conclusive on the taxable status of any particular obligation issued by or in conjunction with a listed agency or organization. Even though a listed agency generally only issues either exempt obligations or taxable obligations, it does not follow that each and every obligation carrying the name of that particular agency is either exempt or taxable. An agency may issue its own obligations that are exempt and also may handle private obligations that are not exempt. For example, the agency may administer, purchase and sell, insure, or guarantee an otherwise private obligation. Such action by the agency does not convert a private obligation into a direct and primary obligation of the United States of America and, therefore, does not make the private obligation tax exempt. The taxable status of each obligation must be determined separately in accordance with subpart 1, items A to E.
