Any person otherwise qualified but not registered to vote in the precinct in which the person resides may register to vote on election day at the polling place of the precinct in which the person resides in areas with voter registration. To register on election day a person must complete and sign the original card, sign the duplicate card, and provide proof of residence. A person may prove residence on election day only (1) by presenting (i) a valid Minnesota driver's license, learner's permit, or a receipt for either that contains the voter's valid address in the precinct; (ii) a valid Minnesota identification card issued by the Minnesota Department of Public Safety or a receipt for the identification card that contains the voter's valid address in the precinct; or (iii) a current student identification card that contains the student's valid address in the precinct, a current student fee statement that contains the student's valid address in the precinct, or a copy of a current student registration card that contains the student's valid address in the precinct; (2) by having a valid registration in the same precinct under a different address; (3) by presenting an "ineffective registration notice" mailed by the county auditor or municipal clerk; or (4) by having a person who is registered to vote in the precinct and knows the applicant is a resident of the precinct sign the oath in part 8200.9939.

The oath in (4) must be attached to the voter registration card until the address of the applicant is verified by the county auditor. The oath must be printed on a four-inch by six-inch card by the county auditor. After every election day the county auditor shall file the oaths and maintain them for one year.

Subp. 2. Additional proof of residence allowed. An eligible voter may prove residence by presenting a current valid photo identification issued by a postsecondary educational institution in Minnesota if the voter's name, student identification number (if available), and address within the precinct appear on a current list of persons residing in the institution's housing certified to the county auditor by the educational institution.

This additional proof of residence must not be allowed unless the educational institution submits to the county auditor no later than 60 days prior to the election a written agreement that the educational institution will certify for use at the election accurate updated lists of persons residing in housing owned, operated, leased, or otherwise controlled by the institution. A written agreement is effective for the election and all subsequent elections held in that calendar year.

The additional proof of residence must be allowed on an equal basis for voters resident in housing of any postsecondary education institution within the county, if lists certified by the institution meet the requirements of this part.

An updated list must be certified to the county auditor no earlier than 20 days prior to each election. The certification must be dated and signed by the chief officer or designee of the institution and must state that the list is current and accurate and includes only the names of persons residing as of the date of the certification in housing controlled by the institution.

The auditor shall instruct the election judges of the precinct in procedures for use of the list in conjunction with photo identification. The auditor shall supply a list to the election judges with the election supplies for the precinct.

8200.9300 MAINTAINING DUPLICATE VOTER REGISTRATION RECORDS.

Subpart 1. Notification. The auditor of the county or clerk of a city electing to use an electronic or automatic data processing system in place of duplicate voter registration cards shall notify the secretary of state of that election no later than 90 days before the first election at which the system will be used.

Notification may be made simultaneously with a request for approval, pursuant to part 8200.9100, of an electronic or automatic data processing system for maintaining voter registration records, but no system shall be used in place of duplicate voter registration cards unless the system has been approved for maintenance of voter registration records.

The notification shall be in writing and shall include:

A. a sample of no less than three pages of the form of the duplicate registration file to be used at the polling place;

B. a sample of no less than three pages of the duplicate registration list to be made available for examination or purchase;

C. a plan to be implemented for obtaining day and month of birth for previously registered voters;

D. a copy of a plan providing for backup records and emergency service; and

E. a certification that the system conforms to all requirements of Minnesota Statutes, sections 201.071; 201.221, subdivision 3; 204C.10, subdivision 2; and this rule.

The county auditor or city clerk shall file amendments with the secretary of state whenever alterations to the original notification are made.

Subp. 2. Backup records and emergency service. A county or city using an electronic or automatic data processing system in place of duplicate voter registration cards shall make arrangements for backup and emergency service. Prior to each election, the county or city shall deposit a duplicate program and all necessary data records in a secure location separate from the location where the originals are maintained.

Subp. 3. Voting records. When a county or city elects to use an electronic or automatic data processing system in place of duplicate voter registration cards, information required to be kept on duplicate cards shall be retrievable from the equipment. The address of previous registration may be deleted from the duplicate file after proper notification of registration has been made to the county or city of previous registration. Each voter's voting history for all elections in the previous four years shall be retrievable and shall indicate whether the voter voted in person or by absentee ballot.

Subp. 4. Duplicate registration file. The duplicate registration file to be used on election day in the polling place must be in the form of a precinct election list. The list must be arranged alphabetically by voter's last name or in order of street address. Whichever arrangement is used must be used consistently in all the precincts of the political subdivision.

Subp. 5. Election list oath and information. Conspicuously at the top of each page of the precinct election list must be printed precinct-identifying information and the words:

***OATH**

I certify that I am at least 18 years of age, and a citizen of the United

States; that I reside at the address shown and have resided in Minnesota for 20 days immediately preceding this election; that I am not under guardianship of the person, have not been found by a court to be legally incompetent to vote, or been convicted of a felony without having my civil rights restored; and that I am registered and will be voting only in this precinct.

The precinct election list must contain the following information for each registered voter: registrant's name as it appears on the original registration card; registrant's address; month, day, and year of registrant's birth; and notations about challenges, notices of guardianship, or other special information required to be affixed to the original or duplicate voter registration card.

Directly underneath or next to the voter's name must be printed *OATH and a line indicating the place for the voter to sign the list. Sufficient space must be provided so that the voter's signature will not obscure any voter's name. In no case may the space be smaller than one-half by 3-1/2 inches.

If any computer identification numbers or other information not required by this subpart is printed on the precinct election list, it may not obscure required information or be printed in a manner to cause confusion for voters or election judges.

A separate precinct list in the same format must be prepared for use by voters who register on election day. The newly registered voter shall print on the list the voter's name, address, and month, day, and year of birth and shall sign the precinct election list.

In a split precinct, separate lists must be prepared for each part of the precinct with specific information differentiating the split printed at the top of each list.

The precinct election list must be ready no later than three days prior to any election.

The election jurisdiction may choose to attach forms required by part 8200.3800 for emergency voting as part of the precinct election list. If separate cards are used, the election judges must return the cards with the list.

Subp. 6. Request for birthdate. Prior to the first election at which electronic or automatic data processing equipment is used in place of the duplicate registration file, and prior to the subsequent statewide general election, the county or municipality must send a request for the voter's birthdate to each previously registered voter whose birthdate is not included in the duplicate registration file.

The request for a voter's birthdate must be in the form of a nonforwardable mailed notice with a postage-prepaid return form. The notice must include the following information:

A. At the next election in (name of political subdivision) the duplicate registration file for use at the polling place will be prepared by automatic data processing equipment. The birthdate of each registered voter will be used as an additional identifier and precaution against fraud.

B. Please fill in the month, day, and year of your birth on the enclosed return form, correct any information that is not printed properly on the form, sign the form, and mail it to (name of political subdivision). Return postage has been prepaid.

C. You will NOT lose your registration if you do not provide this information or return this form, but your cooperation will be appreciated and helpful to election officials.

The return form must include the following material:

The voter's name and address, preprinted as they appear in the duplicate registration file.

When a request for birthdate is returned as undeliverable by the post office, it must be treated as a returned verification notice pursuant to Minnesota Statutes, section 201.12.

Subp. 7. Challenges and other notices. A record of any challenge to a voter registration shall be made part of the duplicate registration file and remain until removed according to law. The word "challenged" shall appear on the same line as or directly above the name of a challenged voter on the precinct election list. A record of any notice affixed to an original voter registration card pursuant to Minnesota Statutes, section 201.15 shall be made part of the duplicate registration file and remain part of the file until removed according to law. The word "guardianship" shall appear on the same line as or directly above the name of the voter on the precinct election list. If any other special notice or information is affixed to a voter registration card, a record of that notice shall be part of the duplicate registration file and an indication of the notice shall be printed on the precinct election list.

Subp. 8. Absentee voting. When an absentee return envelope is marked "Accepted" pursuant to Minnesota Statutes, section 203B.12, subdivision 3, the election judge shall place the letters "A.B." in the space for the voter's signature on the precinct election list followed by the judge's initials.

When a return envelope is accepted from a voter who registers on election day by including a registration card with the absentee ballot, the election judge shall print the voter's name, address, and month, day, and year of birth and the letters "A.B." in the appropriate places on the precinct election list.

Subp. 9. Security. The auditor or clerk shall be responsible for maintaining the integrity of the duplicate registration file and for restricting access to the electronic or data processing equipment to properly authorized persons. The auditor or clerk may make available lists of registered voters in forms other than paper copies, but in whatever form, no list made available for examination or purchase shall include the birth dates of registered voters. The auditor or clerk shall provide for the transport and security of the precinct election lists in accordance with part 8200.0800.

Subp. 10. Voter's receipt. The election judges shall determine the number of ballots to be counted by adding the number of return envelopes from accepted absentee ballots to the number of voter's receipts issued pursuant to Minnesota Statutes, section 204C.10, subdivision 2 or to the number of names signed on the precinct election lists. The election jurisdiction may require that the election judges number or initial each voter's receipt as it is issued.

Subp. 11. Voter registration cards. Voter registration cards must conform to the specifications of parts 8200.1100 to 8200.1600 and parts 8200.9910, 8200.9916, 8200.9919, 8200.9922, and 8200.9925.
