9505.0070 THIRD-PARTY LIABILITY.

Subpart 1. **Definition.** For purposes of parts 9505.0070 and 9505.0071, “assignment” or “assignment of benefits” means the written authorization by a person, the person’s authorized representative, a policyholder, or other authorized representative, to transfer to another individual, entity, or agency his or her right or the rights of his or her dependents to medical care support or other third-party payments.

Subp. 2. **Third-party payer; primary coverage.** A third-party payer who is liable to pay all or part of the cost of a health service provided to a medical assistance applicant or recipient shall be the primary payer. The third party payer’s coverage of or liability

for a health service provided to a medical assistance applicant or recipient must be used to the fullest extent available before a medical assistance payment is made on the recipient's behalf.

Subp. 3. Provider responsibility to obtain information and assignment of benefits. The provider shall obtain information about the recipient's potential health service coverage by a third party payer from the recipient, from the recipient's responsible relative, or from the remittance advice provided by the department upon rejection of a claim because of the department's identification of a potential third-party payer. Further, the provider may obtain an assignment of benefits from the recipient, policyholder, or other authorized individual or representative. In the case of a dependent child insured under a policy held by a parent or other individual who does not have custody of the child, the provider may obtain the assignment from the individual who has custody of the child.

Subp. 4. Provider billing; third party. When a provider is informed by a recipient, the recipient's responsible relative or authorized representative, a local agency, or the department that the recipient has health service coverage by a third-party payer, the provider shall bill the third-party payer before seeking medical assistance payment for the health service.

Subp. 5. Provider billing; department. Except as in subpart 7, the provider shall not submit a claim for medical assistance payment until receiving from the third-party payer payment, partial payment, or notice that the claim has been denied. A provider may submit a claim for medical assistance payment for the difference between the amount paid by the third party and the amount payable by medical assistance in the absence of other coverage. However, no medical assistance payment will be made to a provider under contract with a private health coverage plan when the private health coverage plan calls for the provider to accept the plan's payment as payment in full. The provider who submits a claim for medical assistance payment by the department after a third-party payer has paid part of the claim or denied the claim shall submit with the claim the additional information or records required by the department to document the reason for the partial payment or denial.

Subp. 6. Time limit for submission of claims. A provider must submit claims to the department according to the 12-month billing requirement in part 9500.1080, subpart 2.

Subp. 7. Provider billing; third party failure to respond. A provider who has not received either a payment or denial notice from a third-party payer within 90 days after submitting the claim for payment may bill the medical assistance program. The provider shall submit to the department, no later than 12 months after the date of service to the recipient, a copy of the original claim to the third-party payer, documentation of two further attempts to contact the third-party payer, and any written communication the provider has received from the third-party payer.

Subp. 8. Recovery of payments to recipients. Notwithstanding part 9500.1080, subpart 1, a provider may bill a recipient to recover the amount of a payment received by a recipient from a third-party payer. The department is liable only to the extent that the amount payable by medical assistance exceeds the third-party liability.

9505.0071 ASSIGNMENT OF RIGHTS.

Subpart 1. Notification to local agency. A person or the person's authorized representative shall notify the local agency of the availability of third-party payer coverage at the time of application, at the time of an eligibility redetermination, and within ten days of a change in potential coverage.

Subp. 2. Assignment of benefits. All legally able medical assistance applicants and recipients shall assign to the department their rights and the rights of their dependent children to benefits from liable or potentially liable third-party payers. An applicant or

recipient who refuses to assign to the department his or her own rights or those of any other person for whom he or she can legally make an assignment is ineligible for medical assistance. A person who is otherwise eligible for medical assistance shall not have his or her eligibility denied or delayed because he or she can not legally assign his or her own rights and the individual legally able to make the assignment refuses to assign the rights.

Subp. 3. [Repealed, 26 SR 977]

Subp. 4. [Repealed, 26 SR 977]

Subp. 5. **Good cause exemption from the requirement to cooperate in obtaining medical care support or payments for other persons.** Before requiring an individual to cooperate in obtaining medical care support or payments for other persons not covered by subpart 4, a local agency shall notify the individual that he or she may claim a good cause exemption from the requirements of subpart 3 at the time of application or at any subsequent time. When an individual submits a good cause claim in writing, the individual shall submit corroborative evidence of the good cause claims to the local agency within 20 days of submitting the claim. The local agency must send the claim and the corroborative evidence to the department and must stop action related to obtaining medical care support and payments.

A. Good cause exists when cooperation is against the best interests of the individual or other person to whom medical assistance is being furnished because it is anticipated that cooperation will result in reprisal against and cause physical or emotional harm to the individual or other person.

B. The local agency shall provide reasonable assistance to an individual who has difficulty getting the evidence to support a good cause claim. When a local agency or the department requires additional evidence to make a determination on the claim for good cause, the local agency or department shall notify the individual that additional evidence is required, explain why the additional evidence is required, identify what form this evidence might take, and specify an additional period that will be allowed to obtain it.

C. The department shall determine whether good cause exists based on the weight of the evidence.

D. When the department determines that good cause exists, the exemption from cooperation under subpart 3, must remain in effect for the period the person remains eligible under that application. A good cause exemption must be allowed under subsequent applications without additional evidence when the factors which led to the exemption continue to exist. A good cause exemption allowed under this subpart must end when the factors which led to allowing the exemption have changed.

E. When the department denies a claim for a good cause exemption and enforcement action resumes, the individual must submit additional evidence in support of any later claim for a good cause exemption before the department or local agency can again stop action to obtain medical care support or payments under subpart 3.

F. Following a determination that an individual has good cause for refusing to cooperate, a local agency and the department shall take no further action to obtain medical care support or payments until the good cause exemption ends under item D.

9505.0080 COOPERATION WITH QUALITY CONTROL REVIEW.

Subpart 1. **Cooperation required.** A recipient, or the recipient's authorized representative or guardian, shall cooperate with the department's quality control review process by providing information necessary to verify the recipient's eligibility for medical assistance. In order to continue a recipient's eligibility, the recipient, representative, or guardian must:

A. agree to a personal interview with the quality control staff person at a mutually acceptable time and location; and

B. assist the quality control staff person in securing verifications necessary to establish eligibility for the month of review, provided verifications do not duplicate what is already in the case record and do not cause the recipient to incur an expense in securing those verifications.

Subp. 2. **Consequences of failure to cooperate.** Failure to cooperate with the quality control review process without good cause shall result in termination of assistance. A person has good cause under this subpart if the person's refusal to cooperate stems from a diagnosis of mental illness or a physical disability or illness long enough and severe enough to prevent the person from participating within the period the quality control unit has allotted to complete its review process.

9505.0085 RIGHT TO APPLY; MAKING APPLICATION.

Subpart 1. **Applying for medical assistance.** Any person or the person's authorized representative may apply for medical assistance at the local agency in the county of the person's residence, or in the county of the authorized representative's residence, or in the county of financial responsibility. The local agency that receives a request for medical assistance from an individual either by telephone or in person shall inform the individual of the eligibility factors and requirements and the procedure for making a written application. The local agency shall inform the individual that he or she has a right to apply for medical assistance, regardless of the agency's informal assessment as to the likely eligibility of the individual. The application must be completed by the applicant or the applicant's authorized representative, on the application form prescribed by the department. A local agency shall not require an individual to appear at the local agency for an interview or to submit verification of eligibility factors before the date when the individual submits the completed application form. The local agency shall accept the application and provide the applicant with information about the eligibility factors. The date of the application shall be as defined in part 9505.0015, subpart 5. An applicant may apply for eligibility consideration of up to three calendar months prior to the month of application.

Subp. 2. **Application by authorized representative.** A person who is incapable of completing the application or providing the information and verifications required for the determination of eligibility for the medical assistance program may authorize a representative. If the person is incapable of authorizing a representative, another individual may assume authorized representative status if the individual has access to needed information, is able to verify eligibility factors, and agrees in writing to assume the responsibilities of the applicant and recipient as set forth in parts 9505.0070 to 9505.0130 and Minnesota Statutes, section 256B.08. The local agency has the right to remove an authorized representative who does not perform the required duties. If no

qualified individual is available to act as authorized representative, the local agency shall appoint a social service professional to serve in that role.

In the case of application on behalf of a blind or disabled person, the local agency shall complete the eligibility determination no later than 60 days from the date of the application. The local agency shall not construe the 45- or 60-day period for determination as a waiting period. The local agency must not deny an application earlier than the end of the 45- or 60-day period because of the applicant's refusal to provide the required information.

Subp. 3. **Required notice in case of delay.** If the information and documentation required by parts 9505.0010 to 9505.0140 are not obtained within the time limit, the local agency shall notify the applicant, in writing, about the deficiencies of the application, the reason for the delay in determining the applicant's eligibility, and the applicant's right to appeal the agency's delay of a decision under part 9505.0130.

If the reason for the delay is the applicant's refusal to provide required information or documentation, the agency's written notice to the applicant must also state that eligibility will be denied unless the applicant provides the information within ten days of the date of the notice to the applicant.

If the reason for the delay is the applicant's inability to obtain or provide the information, the agency shall assist the applicant to obtain the information.

When a delay results because necessary information cannot be obtained within the time limit, the local agency shall notify the applicant of the reason for the delay in writing, and of the applicant's right to appeal the delay.

Subp. 4. **Withdrawal of application.** An applicant may withdraw his or her application at any time by giving written or oral notice to the local agency. The local agency shall issue a written notice confirming the withdrawal. The notice must inform the applicant of the local agency's understanding that the applicant has withdrawn the application and no longer wants to pursue it. When, within ten days of the date of the agency's notice, an applicant informs a local agency in writing that he or she does not want to withdraw the application, the local agency shall reinstate, and finish processing the application.

The trial period consists of consecutive days beginning with the date the hearing aid is provided to the recipient. The hearing aid services provider must tell the recipient of the beginning and ending dates of the trial period.

B. If the audiologist or otolaryngologist determines that the hearing aid does not meet the recipient's needs, the audiologist or otolaryngologist must tell the recipient of the availability of further audiologic services as set forth in part 9505.0390, subpart 4, and order any necessary changes during the trial period.

Subp. 3. **Payment limitation; general.** Medical assistance payments for home health services shall be limited according to items A to C.

A. Home health services to a recipient that began before and are continued without increase on or after October 12, 1987, shall be exempt from the payment limitations of this subpart.

B. Home health services to a recipient that begin or are increased in type, number, or frequency on or after October 12, 1987, are eligible for medical assistance payment without a screening team's determination of the recipient's eligibility if the total payment for each of two consecutive months of home health services does not exceed \$1,200. The limitation of \$1,200 shall be adjusted annually on July 1 to reflect the annual percentage increase reported in the most recent Consumer Price Index (Urban) for the Minneapolis-Saint Paul area new series index (1967=100) as published by the Bureau of Labor Statistics, United States Department of Labor. The Consumer Price Index (Urban) is incorporated by reference and is available from the Minitex interlibrary loan system. It is subject to frequent change.

C. If the total payment for each of two consecutive months of home health services exceeds \$1200, a screening team shall determine the recipient's eligibility for home health services based on the case mix classification established under Minnesota Statutes, section 256B.431, subdivision 1, that is most appropriate to the recipient's diagnosis, condition, and plan of care.

(1) Home health services may be provided for a recipient determined by the screening team to be eligible for placement in a residential program for the physically handicapped operated under parts 9570.2000 to 9570.3600, if the total payment for a month of home health services is less than the total monthly statewide average rate of the case mix classification most appropriate to the recipient if the recipient were placed in a residential program for the physically handicapped.

(2) Home health services may be provided for a recipient determined by the screening team to be eligible for placement in a long-term care facility other than a residential program for the physically handicapped operated under parts 9570.2000 to 9570.3600, if the total payment for a month of home health services is less than the total monthly statewide average rate for the case mix classification most appropriate to the recipient.

(3) Home health services may be provided for a ventilator dependent recipient if the screening team determines the recipient's health care needs can be provided in the recipient's residence and the cost of home health services is less than the projected monthly cost of services provided by the least expensive hospital in the recipient's local trade area that is staffed and equipped to provide the recipient's necessary care. The recipient's physician in consultation with the staff of the hospital shall determine whether the hospital is staffed and equipped to provide the recipient's necessary care. The hospital's projected monthly cost must be computed by multiplying the projected monthly charges that the hospital would bill to medical assistance for services to the recipient by the hospital's cost to charge ratio as determined by a medical assistance settlement made under title XIX of the Social Security Act.

Subp. 4. Review of screening team determinations of eligibility. The commissioner shall appoint a grievance committee comprised of persons familiar with the receipt or delivery of home health services. The committee shall have at least seven members, of whom a majority must be qualified recipients. At the request of the commissioner or a recipient, the committee shall review and advise the commissioner regarding the determination of the screening team under subpart 3.

Subp. 5. Payment limitation; screening team. Medical assistance payment for screening team services provided in subpart 3 is prohibited for a screening team that has a common financial interest, with the provider of home health services or for a provider of a personal care service listed in part 9505.0335, subparts 8 and 9, unless:

A. approval by the department is obtained before screening is done; or

Medical assistance payment is available for a diagnostic assessment, an explanation of findings, psychological testing, and one psychotherapy session before completion of the diagnostic assessment if the person is a recipient and the provider complies with the requirements of this part. Other mental health services to a recipient are eligible for medical assistance payment only if the recipient has a mental illness as determined through a diagnostic assessment.

Subp. 4. Eligibility for payment; diagnostic assessment. To be eligible for medical assistance payment, a diagnostic assessment must be conducted by a provider who is a mental health professional. Additionally, to be eligible for medical assistance payment, a diagnostic assessment must comply with the requirements in items A to L.

A. A provider may receive medical assistance reimbursement for only one diagnostic assessment per calendar year per recipient unless:

(1) the recipient's mental health status has changed markedly since the recipient's most recent diagnostic assessment by the same provider; or

(2) the provider conducting the diagnostic assessment who has referred the recipient to a psychiatrist for a psychiatric consultation needs to revise the recipient's diagnostic assessment as a result of the report of the psychiatric consultation. In the event of the recipient's referral to a psychiatrist, the provider referring the recipient shall document the reason for the referral in the recipient's record.

B. Medical assistance will not pay for more than four diagnostic assessments per recipient per calendar year.

C. Except as set forth in subparts 5 and 6, medical assistance payment for a diagnostic assessment is limited to two hours per assessment.

D. A recipient may choose another provider of a diagnostic assessment but the limit in item B shall apply.

E. The limits in this subpart apply whether all components of the diagnostic assessment are carried out by one mental health professional, by more than one mental health professional, or in a multiple provider setting. Examples of a multiple provider setting are outpatient hospitals, group practices, and community mental health centers.

F. The activities necessary to complete a recipient's diagnostic assessment may be spread out over more than one day but the billing for a diagnostic assessment must be dated as of the date the diagnostic assessment is completed.

G. A diagnostic assessment carried out by a mental health professional in a multiple provider setting must be available to other mental health professionals, or other providers in the same setting who need the diagnostic assessment to provide mental health services to the recipient. Additional diagnostic assessments of the recipient in the same multiple provider setting are subject to the limit specified in item A.

H. Medical assistance does not pay for a recipient's diagnostic assessment performed on a day during which a recipient participates in a psychotherapy session unless the psychotherapy session is necessary because of an emergency or unless the psychotherapy session occurs as specified in subpart 3.

I. The mental health professional conducting the diagnostic assessment must:

(1) address the components in subpart 1, item H;

(2) conduct a face-to-face interview with the recipient;

(3) conduct a mental status examination which describes the recipient's appearance, general behavior, motor activity, speech, alertness, mood, cognitive functioning, and attitude toward his or her symptoms;

(4) review pertinent records;

(5) consider the recipient's need for referral for psychological testing, psychiatric consultation, a neurological examination, a physical examination, a determination of the need for prescribed drugs, the evaluation of the effectiveness of prescribed drugs, and a chemical dependency assessment as specified in part 9530.6615. The mental health professional must refer the recipient to a psychiatrist for a psychiatric consultation or medication evaluation if:

(a) the recipient has not had a psychiatric consultation or medication evaluation within the 180 days before the current diagnostic assessment; and

(b) in the case of an adult, the recipient is given a diagnosis of schizophrenia, bipolar disorder, major depression, or borderline personality disorder as specified in the definition of serious and persistent mental illness in Minnesota Statutes, section 245.462, subdivision 20, paragraph (c), clause (3)(i); or

(c) in the case of a child, the recipient is given a diagnosis of mood disorder or obsessive compulsive disorder or, as specified in the definition of severe emotional disturbance in Minnesota Statutes, section 245.4871, subdivision 6, clause (3)(i) or (ii), a diagnosis of psychosis or clinical depression, risk of harming self or others as a result of emotional disturbance; or

(d) in the case of a child, the recipient's treatment plan may include the use of medication or residential treatment.

The mental health professional must refer the recipient who is a child and who is given a diagnosis of attention deficit hyperactivity disorder or undifferentiated attention deficit disorder as specified in the Diagnostic and Statistical Manual of Mental Disorders (DSM-IIIIR), current edition, to a psychiatrist or a physician who is competent to prescribe and monitor the effects of psychoactive medication for a pediatric population with attention deficit hyperactivity disorder or undifferentiated attention deficit disorder.

The mental health professional may complete the diagnostic assessment, initiate treatment, and bill medical assistance for the mental health services before the consultation or evaluation is completed. If, upon review of the report of the psychiatrist or, in the case of a child with attention deficit hyperactivity disorder or undifferentiated attention deficit disorder, the report of the psychiatrist or physician, the mental health professional believes the diagnostic assessment needs to be updated to include the recommendations of the psychiatrist or physician, the updating of the diagnostic assessment will be eligible for medical assistance payment. The mental health professional conducting the diagnostic assessment for an adult or a child must specify, in the recipient's record, the consideration of biological factors which may be contributing to the recipient's mental illness or emotional disturbance and the recipient's referral or the reason why the referral was not made.

The Diagnostic and Statistical Manual of Mental Disorders is published by the American Psychiatric Association, 1400 K Street N.W., Washington, D.C. 20005. The DSM-IIIIR is incorporated by reference, available through the Minitex interlibrary loan system, and is subject to frequent change.

(6) refer the recipient for medically necessary services that are outside the scope of practice of the mental health professional;

(7) if clinically appropriate and if authorized as specified in subpart 19 or 20, contact the recipient's family or primary caregiver or document the reason the contact was not made; and

(8) record the results of the diagnostic assessment in the recipient's record.

J. Medical assistance will only pay for a neurological examination, psychiatric consultation, physical examination, determination of the need for prescribed drugs, evaluation of the effectiveness of prescribed drugs, and psychological testing carried out in conjunction with a diagnostic assessment if they are billed as separate procedures, distinct from a diagnostic assessment under medical assistance.

K. If the mental health professional who conducts the diagnostic assessment is not the mental health professional who referred the recipient for the diagnostic assessment or the mental health professional providing psychotherapy, the mental health professional conducting the diagnostic assessment shall request the recipient to authorize release of the information of the diagnostic assessment to the mental health professional who referred the recipient for the diagnostic assessment and the mental health professional who provides the psychotherapy. The authorization must meet requirements in subpart 19 or 20. The mental health professional conducting the diagnostic assessment shall tell the recipient that any mental health professional who provides the recipient's mental health services will need access to the diagnostic assessment to develop an individual treatment plan related to the services recommended in the diagnostic assessment and to receive medical assistance payment for the recipient's mental health services.

L. The mental health professional conducting the diagnostic assessment must complete the diagnostic assessment no later than the second meeting between the recipient and the mental health professional providing the recipient's psychotherapy.

Subp. 5. **Extension of time available to complete a recipient's diagnostic assessment.** The two-hour time limit in subpart 4, item C, for completing the diagnostic assessment does not apply if the mental health professional conducting the diagnostic assessment documents in the recipient's record that the recipient has a condition specified in item A and a circumstance specified in item B, C, or D, is present. In this event, medical assistance will pay for the recipient's diagnostic assessment of up to eight hours in length and the mental health professional conducting the diagnostic assessment must develop the recipient's individual treatment plan. The mental health professional conducting the diagnostic assessment must document in the recipient's record the circumstances requiring the extended time. For purposes of this subpart, "initial diagnostic assessment" refers to the first time that a recipient receives a diagnostic assessment of a set of symptoms indicating a possible mental illness.

A. The recipient has a diagnosis of mental illness and is:

(1) A person with mental retardation as defined in part 9525.0016, subpart 2, or a related condition as defined in Minnesota Statutes, section 252.27, subdivision 1a.

(2) A hearing impaired person as defined in Minnesota Statutes, section 256C.23, subdivision 2.

(3) A person with a speech and language impairment. For purposes of this subitem, "speech and language impairment" means a speech behavior that deviates significantly from the normal or standard speech pattern and attracts attention to the process of speech or interferes with oral communication or adversely affects either the speaker or the listener. An impairment may affect:

(a) the way a sound is formed by persons with cleft palates, cerebral palsy, mental retardation, or related conditions;

(b) the time relationships between sounds, as in stuttering;

(c) the voice, as in a laryngectomy; and

(d) the ease in comprehending the speech of others or in orally projecting one's own ideas, as in cases of aphasia caused by strokes and other cerebral trauma.

(4) A child under 18 years of age who exhibits severe oppositional behavior during the diagnostic assessment, who has not had a previous diagnostic assessment, and whose case record documents the severe oppositional behavior.

(5) A child under 18 years of age whose mental illness results in behavior that unreasonably interferes with the mental health professional's ability to conduct the diagnostic assessment and whose case record documents the behavior.

(6) A person who meets the criteria in subpart 7, item B.

B. An extension of the time for an initial diagnostic assessment is necessary to develop the recipient's individual treatment plan.

C. An extension of the time for an initial diagnostic assessment has been authorized by the case manager according to parts 9525.0004 to 9525.0036.

D. An extension of the time to carry out the activities for a substantial revision of the client's individual treatment plan is necessary because of significant changes in the client's behavior or living arrangement.

Subp. 6. Prior authorization of additional time to complete a diagnostic assessment. A mental health professional must obtain prior authorization to exceed the time limits placed on a recipient's diagnostic assessment in subparts 4 and 5. Prior authorization of up to eight hours of diagnostic assessment in a calendar year in addition to the time limit of eight hours available under the circumstances specified in subpart 5 shall be approved if the mental health professional documents that the recipient meets the criteria in subpart 7. The additional hours of assessment must result in an individual treatment plan that has objectives designed to develop adaptive behavior and that specifies the anticipated behavioral change and the expected schedule for achieving the anticipated behavioral change.

Additionally, the request for prior authorization of additional hours to complete the diagnostic assessment must document that the additional hours are necessary and is limited to the additional observation and interviews needed to:

- A. establish the baseline measurement of the recipient's behavior;
- B. determine the cause of the recipient's behavior such as the recipient's attempts to communicate with others or control his or her environment; and
- C. determine the effects of the recipient's physical and social environments on the recipient's behavior.

Subp. 7. Criteria for prior authorization of additional time to complete a diagnostic assessment. A request for prior authorization of additional time to complete a recipient's diagnostic assessment shall be approved if the recipient meets the criteria in items A and B or the criteria in item C.

A. The recipient meets the criteria in subpart 5 for extended assessment activity.

B. The recipient has a severe behavior disorder that is manifested as:

(1) Self-injurious behavior that is a clear danger to the recipient. Examples of self-injurious behavior are ingesting inedibles; removing items of clothing; striking, biting, or scratching oneself; moving into dangerous situations that clearly threaten or endanger the recipient's life, sensory abilities, limb mobility, brain functioning, physical appearance, or major physical functions.

(2) Aggressive behavior that is a clear danger to others. Examples of aggressive behaviors are striking, scratching, or biting others; throwing objects at others; attempting inappropriate sexual activity with others; or pushing or placing others into dangerous situations that clearly threaten or endanger their life, sensory abilities, limb mobility, brain functioning, sexual integrity, physical appearance, or other major physical functions.

(3) Destructive behavior that results in extensive property damage.

C. The recipient experienced a significant change in behavior or living arrangement and the recipient meets the criteria in items A and B.

Subp. 8. Payment rate; diagnostic assessment. Medical assistance for a diagnostic assessment that meets the requirements in subparts 4 to 7 shall be paid according to the hourly payment rate for individual psychotherapy.

Subp. 9. Payment limitation; length of psychotherapy session. Medical assistance payment for a psychotherapy session is limited according to items A to D.

A. The length of an individual psychotherapy session, including hypnotherapy and biofeedback, may be either one-half hour or one hour.

B. The length of a family psychotherapy session shall be one hour or 1-1/2 hours.

MINNESOTA RULES 2005

439

HEALTH CARE PROGRAMS 9505.0323

C. The length of a group psychotherapy session shall be one hour, 1-1/2 hours, or two hours.

D. If the length of a psychotherapy session is less than an hour or a whole number multiple of an hour, payment will be prorated according to the lesser length of time.

Subp. 10. Limitations on medical assistance payment for psychotherapy sessions. There are limitations on medical assistance payment for psychotherapy sessions as specified in the list of health services published according to Minnesota Statutes, section 256B.0625, subdivision 25.

Subp. 11. Prior authorization of psychotherapy sessions beyond the limitations. The provider must obtain prior authorization to exceed the limits in subpart 10 unless the psychotherapy session is in response to an emergency as specified in part 9505.5015, subpart 2. In the event of an emergency, the provider must submit a request for prior authorization within five working days after the emergency psychotherapy session.

Subp. 12. Payment limitation; total payment for group psychotherapy. To be eligible for medical assistance payment, a group psychotherapy session conducted by one mental health professional shall not have more than eight persons, and a group psychotherapy session conducted by two mental health professionals shall have at least nine but not more than 12 persons. These limits shall apply regardless of the participants' eligibility for medical assistance. Medical assistance payment for each client who participates in a session of group psychotherapy shall be one quarter of the hourly payment rate for an hour of individual psychotherapy. However, in the case of a group psychotherapy session conducted by two mental health professionals, medical assistance payments shall be according to the number of participants attending the session. When a client participates in a session of group psychotherapy conducted by two mental health professionals, the client's record must document that the cotherapy is medically necessary.

Subp. 13. Payment limitation; family psychotherapy. Medical assistance payment for family psychotherapy shall be per psychotherapy session regardless of the medical assistance eligibility status or the number of family members who participate in the family psychotherapy session. Medical assistance payment for family psychotherapy is limited to face-to-face sessions at which the client is present throughout the family psychotherapy session unless the mental health professional believes the client's absence from the family psychotherapy session is necessary to carry out the client's individual treatment plan. If the client is excluded, the mental health professional must document the reason for and the length of the time of the exclusion. Furthermore, the mental health professional must document the reason or reasons why a member of the client's family is excluded.

Subp. 14. [Repealed, 27 SR 1714]

Subp. 15. Payment limitation; general provisions about day treatment services. Medical assistance payment for day treatment services to a client shall be limited to 390 hours of day treatment in a calendar year unless prior authorization is obtained for additional hours within the same calendar year. To be eligible for medical assistance payment, a day treatment program must be reviewed by and have received the approval of the department. The treatment must be provided to a group of clients by a multidisciplinary staff under the clinical supervision of a mental health professional. The program must be available at least one day a week for a minimum three-hour time block. The day treatment may be longer than three hours per day but medical assistance payment is limited to three hours per day. To be eligible for medical assistance payment, the three-hour time block must include at least one hour but no more than two hours of individual or group psychotherapy. The remainder of the three-hour time block must consist of any of the following: recreation therapy, socialization therapy, and independent living skills therapy. In addition, the remainder of the three-hour time block can include recreation therapy, socialization therapy, and independent living skills therapy only if they are included in the client's individual treatment plan as necessary and appropriate. Notwithstanding the documentation of each service re-

quired under subpart 26, documentation of day treatment may be provided on a daily basis by use of a checklist of available therapies in which the client participated and on a weekly basis by a summary of the information required under subpart 26.

Subp. 16. Payment limitation; noncovered services provided by day treatment program. The following services are not covered by medical assistance if they are provided by a day treatment program:

A. A service that is primarily recreation-oriented or that is provided in a setting that is not medically supervised. This includes sports activities, exercise groups, activities such as craft hours, leisure time, social hours, meal or snack time, trips to community activities, and tours.

B. A social or educational service that does not have or cannot reasonably be expected to have a therapeutic outcome related to the client's mental illness.

C. Consultation with other providers or service agency staff about the care or progress of a client.

D. Prevention or education programs provided to the community.

E. Day treatment for recipients with primary diagnoses of alcohol or other drug abuse.

F. Day treatment provided in the client's home.

G. Psychotherapy for more than two hours daily.

H. Recreation therapy and teaching socialization therapy and independent living skills therapy for more than one hour daily each unless the client's individual treatment plan prescribes more than one hour daily.

I. Participation in meal preparation and eating that is not medically supervised and included in the client's individual treatment plan as necessary and appropriate.

Subp. 17. Payment limitation; service to determine the need for or to evaluate the effectiveness of prescribed drugs. Payment for a physician service to a client to determine a client's need for a prescribed drug or to evaluate the effectiveness of a drug prescribed in a client's individual treatment plan is limited according to part 9505.0345, subpart 5. To be covered by medical assistance, the evaluation of the effectiveness of a drug prescribed in a client's individual treatment plan must be carried out face-to-face by a physician or by a mental health professional who is qualified in psychiatric nursing as specified in Minnesota Statutes, section 245.462, subdivision 18, clause (1), or a registered nurse who is qualified as a mental health practitioner as specified in Minnesota Statutes, section 245.462, subdivision 17. A nurse who evaluates a client's prescribed drugs must be employed by or under contract to a provider and must be under the supervision of a physician who is on site at least 50 percent of the time the service is being provided. For purposes of this subpart, "evaluation of the effectiveness of a drug prescribed in a client's individual treatment plan" or "evaluation of a client's prescribed drugs" means adjusting a client's medication to mitigate the client's symptoms, alleviate the client's distress, and determine the impact of the client's medication on the client's functioning at work and in daily living.

Subp. 18. Payment limitation; explanation of findings. Explanation of findings is a covered service under parts 9505.0170 to 9505.0475. Medical assistance payment for explanations of findings is limited to four hours per recipient per calendar year. Unless the recipient's diagnostic assessment meets the requirements of subparts 5 to 7, medical assistance payment will not pay for more than a one-hour explanation of findings after the mental health professional completes the recipient's diagnostic assessment. The mental health professional providing the explanation of findings may use the time available under this subpart for an explanation of findings in units of one-half hour or one hour but the total must not exceed the amount specified in this subpart. To be eligible for medical assistance payment, the mental health professional providing the explanation of findings must have obtained the authorization of the recipient or the recipient's representative to release the information as required in subpart 19 or 20. If the recipient's diagnostic assessment qualifies for an extension of or additional time as provided in subparts 5 to 7, the mental health professional providing the explanation of

findings may allocate the calendar year total of four hours in any manner necessary to explain the findings. Medical assistance only pays for the actual time spent or four hours, whichever amount of time is less.

Subp. 19. **Authorization to access or release information about a recipient.** To obtain medical assistance payment, in the case of a client who is an adult, a mental health professional providing a mental health service must ask a recipient or the recipient's legal representative to sign forms needed to authorize access or release of information about a recipient's health status. The form must contain the information in items A to H and room for the person's signature. If the recipient or the recipient's legal representative refuses to sign the authorization, the mental health professional must not access or release the information and must document the refusal to sign and the reason for the refusal in the recipient's record. The period of authorization must not exceed one year. The authorization form must state:

- A. the person's name;
- B. the date;
- C. the specific nature of the information authorized to be accessed or released;
- D. who is authorized to give information;
- E. to whom the information is to be given;
- F. the information's use;
- G. the date of expiration of the authorization; and
- H. that the recipient may revoke consent at any time.

For purposes of this subpart and subpart 20, "legal representative" means a guardian or conservator authorized by the court to make decisions about services for a person, or other individual authorized to consent to services for the person.

Subp. 20. **Authorization to provide service or to access or release information about a recipient who is a child.** To obtain medical assistance payment, in the case of a client who is a child, a mental health professional who wants to provide a mental health service to a child or who is required to access or release information related to the child's mental health status and services must obtain the authorization of the child's parent or legal representative unless a condition specified in item A, B, or C, applies.

The authorization of service must state the child's name, the service or services authorized, the person or persons authorized to provide the service, the amount, frequency, scope, and duration of each service, the goals of the service, the date of the authorization, and the relationship between the person giving the authorization and the child. The authorization to access or release information must comply with subpart 19, items A to H. An authorization of services under this subpart must not exceed one year. Authorization by the child's parent or legal representative is not required if:

A. The parent or legal representative is hindering or impeding the child's access to mental health services.

B. The child:

(1) has been married or has borne a child as specified in Minnesota Statutes, section 144.342;

(2) is living separate and apart from the child's parents or legal guardian and is managing the child's financial affairs as specified in Minnesota Statutes, section 144.341;

(3) is at least 16 but under 18 years old and has consented to treatment as specified in Minnesota Statutes, section 253B.03, subdivision 6; or

(4) is at least 16 but under 18 years old and for whom a county board has authorized independent living pursuant to a court order as specified in Minnesota Statutes, section 260C.201, subdivision 1, paragraph (a), clause (4).

C. A petition has been filed under Minnesota Statutes, chapter 260B or 260C, or a court order has been issued under Minnesota Statutes, section 260C.148 or 260C.151, and a guardian ad litem has been appointed.

If item A or B applies, the mental health professional shall request the child to complete the required forms.

If item C applies, the mental health professional shall request the guardian ad litem to complete the required forms.

Subp. 21. **Payment limitation; psychological testing.** Medical assistance payment for psychological testing of a recipient in a calendar year shall not exceed eight times the medical assistance payment rate for an hour of individual psychotherapy. Psychological testing shall be reimbursed according to the psychological test used. The psychological testing must be conducted by a psychologist with competence in the area of psychological testing as stated to the Board of Psychology. The psychological testing must be validated in a face-to-face interview between the recipient and a licensed psychologist or licensed consulting psychologist with competence in the area of psychological testing. The report resulting from the psychological testing must be signed by the psychologist conducting the face-to-face interview, must be placed in the recipient's record, and must be released to each person authorized by the recipient. The required components of psychological testing, which include face-to-face interview, interpretation, scoring of the psychological tests, and the required report of testing, are not eligible for a separate charge to medical assistance. Payment for these required components is included in the amount paid for the psychological testing. The administration, scoring, and interpretation of the psychological tests may be carried out, under the clinical supervision of a licensed psychologist or licensed consulting psychologist, by a psychometrist or psychological assistant or as part of a computer-assisted psychological testing program.

Subp. 22. [Repealed, 17 SR 1454]

Subp. 23. **Medical assistance payment for mental health services; required personnel.** A mental health service provided by a mental health professional or a mental health practitioner as specified in subpart 31 is a covered service. A mental health service other than day treatment; partial hospitalization; service provided by a mental health practitioner according to subpart 31; individual, family, or group skills training as a component of home-based mental health services; or a mental health case management service under part 9505.0322 that is provided by a mental health practitioner is not eligible for medical assistance payment. To be eligible for medical assistance payment, services provided by a mental health practitioner according to this subpart must be under the clinical supervision of a mental health professional who is a provider.

Subp. 24. **Payment limitation; person completing requirements for licensure or board certification as mental health professional.** Medical assistance payment is available for mental health services provided by a person who has completed all requirements for licensure or board certification as a mental health professional except the requirements for supervised experience in the delivery of mental health services in the treatment of mental illness under this subpart. Mental health services may also be provided by a person who is a student in a bona fide field placement or internship under a program leading to completion of the requirements for licensure as a mental health professional. The person providing the service must be under the clinical supervision of a fully qualified mental health professional who is a provider. The person must be employed by or placed in an outpatient hospital, a physician-directed clinic, a community mental health center, or a facility approved for insurance reimbursement according to parts 9520.0750 to 9520.0870. Medical assistance for services performed according to this subpart shall be paid at one-half the medical assistance payment rate for the same service provided by a fully qualified person.

Subp. 25. **Individual treatment plan.** Except as provided in subpart 3, medical assistance payment is available only for services in accordance with the client's individual treatment plan. The individual treatment plan must meet the standards of

this subpart. A client's individual treatment plan must be based on the information and outcome of the client's diagnostic assessment conducted as specified in subpart 4. Except as provided in subparts 5 and 6, the individual treatment plan must be developed by the mental health professional who provides the client's psychotherapy, or the mental health practitioner who is under the clinical supervision of a mental health professional who is a provider and must be developed no later than the end of the first psychotherapy session after the completion of the client's diagnostic assessment. The mental health professional or the mental health practitioner must involve the client in the development, review, and revision of a client's individual treatment plan. The plan must be reviewed at least once every 90 days, and if necessary revised. However, revisions of the initial individual treatment plan do not require a new diagnostic assessment unless the client's mental health status has changed markedly as provided in subpart 4, item A. The mental health professional shall request the client, or in the case of a child whose circumstances do not fall within subpart 21, the child's parent, primary caregiver, or other person authorized by statute to consent to mental health services for the child, to sign the client's individual treatment plan and revision of the plan unless the request is not appropriate to the client's mental health status. If the client refuses to sign the plan or a revision of the plan, the mental health professional or mental health practitioner shall note on the plan the client's refusal to sign the plan and the client's reason or reasons for the refusal. If the client's mental health status contraindicates the request, the mental health professional or mental health practitioner shall note on the plan the reason the client was not requested to sign the plan.

Subp. 26. Documentation of the provision of mental health service. To obtain medical assistance payment, a mental health professional or a mental health practitioner providing a mental health service must document in the client's record (1) each occurrence of the client's service including the date, type, length, and scope of the mental health service; (2) the name of the person who gave the service; (3) contact made with other persons interested in the recipient such as representatives of the courts, corrections systems, or schools including the name and date of the contact; (4) any contact made with the client's other mental health providers, case manager, family members, primary caregiver, legal representative, or, if applicable, the reason the client's family members, primary caregiver, or legal representative was not contacted; and (5) as appropriate, required clinical supervision. The documentation must be completed promptly after the provision of the service.

Subp. 27. Excluded services. The mental health services in items A to S are not eligible for medical assistance payment:

- A. a mental health service that is not medically necessary;
- B. a mental health service exceeding the limitations in subparts 6, 11, 14, and 15, that has not received prior authorization;
- C. a mental health service other than a diagnostic assessment, psychological testing, explanation of findings, or one hour of psychotherapy before completion of the diagnostic assessment to a recipient who has not been determined to have a mental illness;

M. staff training that is not related to a client's individual treatment plan or plan of care;

N. child and adult protection services provided directly or indirectly by a governmental entity;

O. mental health services other than psychological testing of a recipient who is an inpatient for the purposes of psychiatric treatment;

Q. psychological testing, diagnostic assessment, explanation of findings, and psychotherapy if the services are provided by an entity whose purpose is not health service related such as the Division of Vocational Rehabilitation of the Department of Economic Security;

R. fundraising activities; and

S. community planning.

Subp. 28. Multiple family group psychotherapy. A multiple family group psychotherapy session is eligible for medical assistance payment if the psychotherapy session is designed for at least three but not more than five families. Medical assistance payment for a multiple family group shall be limited to one session of up to two hours per week for no more than ten weeks.

Subp. 29. Required participation of psychiatrist in treatment of person with serious and persistent mental illness or child with severe emotional disturbance. A psychiatrist or, in the case of a child with severe emotional disturbance, a psychiatrist or a provider as specified in item B must participate in the diagnostic assessment, formulation of an individual treatment plan, and monitoring of the clinical progress of a client as specified in item A or B. The extent of the participation of the psychiatrist or, in the case of a child with severe emotional disturbance, a psychiatrist or a provider as specified in item B shall be according to the individual clinical needs of the client as mutually determined by the mental health professional who is conducting the assessment and by the psychiatrist or, in the case of a child with severe emotional disturbance, a psychiatrist or a provider as specified in item B who participates. At a minimum, the participation must consist of timely reviews of the activities specified in this subpart and verbal interaction between the psychiatrist or, in the case of a child with severe emotional disturbance, a psychiatrist or a provider as specified in item B and the mental health professional. The following cases require participation:

J. "Usual and customary charge" refers to the meaning in part 9505.0175, subpart 49, whether the drug is purchased by prescription or over the counter, in bulk, or unit dose packaging. However, if a provider's pharmacy is not accessible to, or frequented by, the general public, or if the over the counter drug is not on display for sale to the general public, then the usual and customary charge for the over the counter drug shall be the actual acquisition cost of the product plus a 50 percent markup based on the actual acquisition cost. In this event, this calculated amount must be used in billing the department for an over the counter drug.

Amounts paid in full or in part by third-party payers shall be included in the calculation of the usual and customary charge only if a third-party payer constitutes 51 percent or more of the pharmacy's business based on the number of prescriptions filled by the pharmacy on a quarterly basis.

Subp. 2. Eligible providers. The following providers are eligible for payment under the medical assistance program for dispensing prescribed drugs:

A. a pharmacy that is licensed by the Minnesota Board of Pharmacy;

B. an out-of-state vendor under part 9505.0195, subpart 9; and

Subp. 3. Payment limitations. Payments for pharmacy services under the medical assistance program are limited as follows.

A. The prescribed drug must be a drug or compounded prescription that is approved by the commissioner for inclusion in the department's drug formulary. The drug formulary committee established under Minnesota Statutes, sections 256B.02, subdivision 8 and 256B.0625, shall recommend to the commissioner the inclusion of a drug or compounded prescription in the drug formulary. The commissioner may add or delete a drug or compounded prescription from the drug formulary. A provider, recipient, or seller of prescription drugs or compounded prescriptions may apply to the department on the form specified in the drug formulary to add or delete a drug from the drug formulary.

B. A prescribed drug must be dispensed in the quantity specified on the prescription unless the pharmacy is using unit dose dispensing or the specified quantity is not available in the pharmacy when the prescription is dispensed. Only one dispensing fee is allowed for dispensing the quantity specified on the prescription.

C. The dispensed quantity of a prescribed drug must not exceed a three month supply unless prior authorization is obtained by the pharmacist or dispensing physician.

D. An initial or refill prescription for a maintenance drug shall be dispensed in not less than a 30 day supply unless the pharmacy is using unit dose dispensing. No additional dispensing fee shall be paid until that quantity is used by the recipient.

E. Except as in item F, the dispensing fee billed by or paid to a particular pharmacy or dispensing physician for a maintenance drug for a recipient is limited to one fee per 30 day supply.

F. More than one dispensing fee per calendar month for a maintenance drug for a recipient is allowed if the record kept by the pharmacist or dispensing physician documents that there is a significant chance of overdosage by the recipient if a larger quantity of drug is dispensed, and if the pharmacist or dispensing physician writes a statement of this reason on the prescription.

G. A refill of a prescription must be authorized by the practitioner. Refilled prescriptions must be documented in the prescription file, initialed by the pharmacist who refills the prescription, and approved by the practitioner as consistent with accepted pharmacy practice under Minnesota Statutes, chapters 151 and 152.

H. A generically equivalent drug as defined in Minnesota Statutes, section 151.21, subdivision 2, must be dispensed in place of the prescribed drug if:

(1) the generically equivalent drug is approved by the United States Food and Drug Administration and is also determined as therapeutically equivalent by the United States Food and Drug Administration; and

(2) in the professional judgment of the pharmacist, the substituted drug is therapeutically equivalent to the prescribed drug; and

(3) the charge for the substituted generically equivalent drug does not exceed the charge for the drug originally prescribed.

However, a substitution must not be made if the practitioner has written in his or her own handwriting "Dispense as Written" or "DAW" on the prescription, as provided in the Minnesota Drug Selection Act, Minnesota Statutes, section 151.21. The pharmacy must notify the recipient and the department when a generically equivalent drug is dispensed. The notice to the recipient may be given orally or by appropriate labeling on the prescription's container. The notice to the department must be by appropriate billing codes.

I. Unless otherwise established by the legislature, the amount of the dispensing fee shall be set by the commissioner. The fee shall be the lower of the average dispensing fee set by third-party payers in the state or the average fee determined by a cost of operation survey of pharmacy providers reduced by the yearly Consumer Price Index (urban) for the Minneapolis-Saint Paul area to the base year set by the legislature for other provider fees.

J. The cost of delivering a drug is not a covered service.

Subp. 4. Payment limitations; unit dose dispensing. Drugs dispensed under unit dose dispensing in accordance with part 6800.3750 shall be subject to the medical assistance payment limitations in items A to C.

Dispensing fees for drugs dispensed in unit dose packaging as specified in part 6800.3750 shall not be billed or paid more often than once per calendar month or when a minimum of 30 dosage units have been dispensed, whichever results in the lesser number of dispensing fees, regardless of the type of unit dose system used by the pharmacy or the number of times during the month that the pharmacist dispenses the drug. If the recipient's drug supply is dispensed in small increments during the calendar month, the pharmacy must keep a written record of each dispensing act that shows the date, National Drug Code, and the quantity of the drug dispensed.

B. Only one dispensing fee per calendar month shall be billed or paid for each maintenance drug regardless of the type of unit dose system used by the pharmacy or

the number of times during the month that the pharmacist dispenses the drug. If the recipient's drug supply is dispensed in small increments during the month, the pharmacy must keep a written record of each dispensing act that shows the date, National Drug Code, and the quantity of drug dispensed.

C. The date of dispensing must be reported as the date of service on the claim to the department except when the recipient's drug supply is dispensed in small increments during the month. For this exception, the last dispensing date of the calendar month must be reported on the claim to the department as the date of service. In the case of an exception, the quantity of drug dispensed must be reported as the cumulative total dispensed during the month or a minimum amount as required in item A, whichever results in the lesser number of dispensing fees.

Subp. 5. **Return of drugs.** Drugs dispensed in unit dose packaging under part 6800.3750, subpart 2, shall be returned to a pharmacy as specified in items A to C when the recipient no longer uses the drug.

A. A provider of pharmacy services using a unit dose system must comply with part 6800.2700.

B. A long-term care facility must return unused drugs dispensed in unit dose packaging to the provider that dispensed the drugs.

C. The provider that receives the returned drugs must repay medical assistance the amount billed to the department as the cost of the drug.

Subp. 6. **Billing procedure.** Providers of pharmacy services shall bill the department their usual and customary charge for the dispensed drug. All pharmacy claims submitted to the department must identify the National Drug Code printed on the container from which the prescription is actually filled. If a National Drug Code is not printed on the manufacturer's container from which the prescription is filled, the claim must name the code required by the department under the drug formulary, or identify either the generic or brand name of the drug. Except as provided in subpart 4, item C, the date reported as the date dispensed must be the date on which the quantity reported on the billing claim was dispensed.

Subp. 7. **Maximum payment for prescribed drugs.** The maximum payment for a prescribed drug or compounded prescription under the medical assistance program must be the lowest of the following rates:

A. The maximum allowable cost for a drug established by the department or the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services plus a dispensing fee.

B. The actual acquisition cost for a drug plus a dispensing fee.

C. The pharmacy's usual and customary charge.

For laboratory and x-ray services performed by a physician, independent laboratory, or outpatient hospital, the payment rate shall be the lowest of the provider's submitted charge, the provider's individual customary charge submitted during the calendar year specified in the legislation governing maximum payment rates, the 50th percentile of the usual and customary fees based on billings submitted by all providers of the service in the calendar year specified in legislation, or maximum Medicare fee schedules for outpatient clinical diagnostic laboratory services.

R. For medical transportation services, the rates shall be as specified in subitems (1) to (4).

(1) Payment for ambulance service must be the lowest of the medical assistance maximum allowable charge, the provider's usual and customary charge, the charge submitted by the provider, or the payment allowed by Medicare for a similar service. If a provider transports two or more persons simultaneously in one vehicle, the payment must be prorated according to the schedule in subitem (2). Payment for ancillary service to a recipient during ambulance service must be based on the type of ancillary service and is not subject to proration.

(2) Payment for special transportation must be the lowest of the actual charge for the service, the provider's usual and customary rate, or the medical assistance maximum allowable charge. If a provider transports two or more persons simultaneously in one vehicle from the same point of origin, the payment must be prorated according to the following schedule:

Number of Riders	Percent of Allowed Base Rate Per Person in Vehicle	Percent of Allowed Mileage Rate
1	100	100
2	80	50
3	70	34
4	60	25
5-9	50	20
10 or more	40	10

(3) The payment rate for bus, taxicab, and other commercial carriers must be the carrier's usual and customary fee for the service but must not exceed the department's maximum allowable payment for special transportation services.

(4) The payment rate for private automobile transportation must be the amount per mile allowed on the most recent federal income tax return for actual miles driven for business purposes.

(5) The payment rate for air ambulance transportation must be consistent with the level of medically necessary services provided during the recipient's transportation and must be the lowest of the medical assistance maximum allowable charge, the provider's usual and customary charge, the charge submitted by the provider, or the payment allowed by Medicare for a similar service. Payment for air ambulance transportation of a recipient not having a life threatening condition requiring air ambulance transportation shall be at the level of medically necessary services which would have been otherwise provided to the recipient at rates specified in subitems (1) to (4).

S. For medical supplies and equipment, the rates shall be the lowest of the provider's submitted charge, the Medicare fee schedule amount for medical supplies and equipment, or the amount determined as appropriate by use of the methodology set forth in this item. If Medicare has not established a reimbursement amount for an item of medical equipment or a medical supply, then the medical assistance payment shall be based upon the 50th percentile of the usual and customary charges submitted to the department for the item or medical supply for the previous calendar year minus 20 percent. For an item of medical equipment or a medical supply for which no information about usual and customary charges exists for a previous calendar year payments shall be based upon the manufacturer's suggested retail price minus 20 percent.

T. For prosthetics and orthotics, the rate shall be the lower of the Medicare fee schedule amount or the provider's submitted charge.

U. For health services for which items A to T do not provide a payment rate, the department may use competitive bidding, negotiate a rate, or establish a payment rate by other means consistent with statutes, federal regulations, and state rules.

9505.0446 HOSPICE CARE PAYMENT RATES AND PROCEDURES.

Subpart 1. **Rate categories.** Providers of hospice care as described in part 9505.0297 are paid at one of four fixed daily rates that apply to each of the four categories of services in subpart 3. The fixed daily rates apply to all services, except for certain physician services as described in subpart 5, and room and board in a long-term care facility as described in subparts 6 and 7.

Subp. 2. **Long-term care facility as residence.** For purposes of this part, a recipient who resides in a long-term care facility is considered to live at home.

Subp. 3. **Categories of service.** Except as otherwise provided by subparts 4 to 6, no payments shall be made for specific services provided by the hospice. Fixed daily rates are calculated under subpart 4 for each of the following categories of services:

A. Routine home care day, which is a day on which a recipient who has elected to receive hospice care is at home and is not receiving continuous care as defined in item B.

B. Continuous home care day, which is a day on which a recipient who has elected to receive hospice care has not been admitted to a facility that provides inpatient care, except when a long-term care facility is the recipient's residence under subpart 2, and the recipient receives hospice care consisting of nursing services, including home health aide or homemaker services, on a continuous basis at home, as provided by part 9505.0297, subpart 17. No fewer than eight hours a day of nursing care must be provided by a registered nurse or licensed practical nurse. Continuous home care may be furnished only during periods of crisis as described in part 9505.0297, subpart 17, and only as necessary to maintain the terminally ill recipient at home.

C. Inpatient respite care day, which is a day on which the recipient who has elected hospice care receives inpatient care in an inpatient facility certified for medical assistance on a short-term basis for respite. This item is subject to the limits provided by part 9505.0297, subpart 18. This item does not apply to a recipient whose residence is a long-term care facility under subpart 2.

D. General inpatient care day, which is a day on which a recipient who has elected hospice care receives general inpatient care in a hospital or skilled nursing facility that provides inpatient care for control of pain or management of acute or chronic symptoms that cannot be managed in other settings. This item does not apply to a recipient who receives inpatient care in a long-term care facility in which the recipient is a resident under subpart 2.

Subp. 4. **Payments and limitations.** Medical assistance will pay a hospice for each day a recipient is under the hospice's care. Payment is in the same amounts, uses the same methodology, and is subject to the same limits and cap amount used by Medicare under Code of Federal Regulations, title 42, sections 418.301 to 418.309, as amended through October 1, 1987, except that the inpatient day limit on both inpatient respite care days and general inpatient care days does not apply to recipients afflicted with acquired immunodeficiency syndrome (AIDS), as provided by United States Code, title 42, section 1396d(o)(1)(B). The rates are determined by the Centers for Medicare and Medicaid Services (CMS), United States Department of Health and Human Services, as provided by Code of Federal Regulations, title 42, section 418.306, as amended through October 1, 1987, and as adjusted by CMS for the Medicare copay amounts not allowed under medical assistance. Payments to long-term care facilities under subparts 6 and 7 are not included in the cap amount. Changes in rates are announced in the Federal Register. No payment will be made for bereavement counseling under part 9505.0297, subpart 19.

Subp. 5. **Payment for physician services.** Physician services are paid according to items A to C.

A. The services specified in subitems (1) and (2) are included in the rates provided by subpart 4:

(1) general supervisory services of the hospice's medical director; and

(2) participation in the establishment of plans of care, supervision of care and services, periodic review and updating of plans of care, and establishment of governing policies by the physician member of the hospice's interdisciplinary group.

B. Other than for services described in item A, medical assistance shall pay the hospice for physician services furnished by physicians who are employees of the hospice or who provide services under arrangements with the hospice, at the rate provided by part 9505.0445, item E. Payment for these physician services is included in the amount subject to the cap amount in subpart 4. No payment will be made to the hospice for services donated by physicians who are employees of the hospice or who provide services under arrangements with the hospice.

C. Services of the recipient's attending physician, if the physician is not an employee of the hospice or is not providing services under arrangements with the hospice, are not considered hospice services and are not included in the amount subject to the cap amount in subpart 4. These services are reimbursed according to parts 9505.0345 and 9505.0445, item E.

Subp. 6. **Payment for room and board in long-term care facilities.** If a recipient resides in a long-term care facility under subpart 2 that is certified as a medical assistance provider and the recipient has elected medical assistance coverage of hospice services, the long-term care facility shall not be paid by medical assistance under parts 9549.0010 to 9549.0080, but shall be paid by the hospice at a rate negotiated by the long-term care facility and the hospice.

Subp. 7. **Payment to hospice for residents of long-term care facilities.** The commissioner shall establish the payments to hospices for the room and board of medical assistance recipients who reside in long-term care facilities certified by medical assistance, as provided by items A and B.

A. The daily room and board payment rate shall be either:

(1) 83 percent of the long-term care facility's daily payment rate for the recipient's resident class, as determined under parts 9549.0010 to 9549.0080; or

(2) 83 percent of the long-term care facility's daily payment rate for the recipient's certification level, if the long-term care facility is not subject to parts 9549.0010 to 9549.0080.

B. The payment to the hospice is the product of the hospice's daily room and board payment rate determined in item A and the number of days for which the

recipient resides in the long-term care facility in the month, less the recipient's spend down amount for that month under part 9505.0065, subpart 11, item F.

9505.0450 BILLING PROCEDURES; GENERAL.

Subpart 1. Billing for usual and customary fee. A provider shall bill the department for the provider's usual and customary fee only after the provider has provided the health service to the recipient.

Subp. 2. Time requirements for claim submission. Except as in subpart 4, a provider shall submit a claim for payment no later than 12 months after the date of service to the recipient and shall submit a request for an adjustment to a payment no later than six months after the payment date. The department has no obligation to pay a claim or make an adjustment to a payment if the provider does not submit the claim within the required time.

Subp. 3. Retroactive billing. If the recipient is retroactively eligible for medical assistance and notifies the provider of the retroactive eligibility, the provider may bill the department the provider's usual and customary charge. If the recipient paid any portion of the provider's usual and customary charge during this period, the provider must reimburse the recipient the actual amount paid by the recipient but not more than the amount paid to the provider by medical assistance. Failure of the provider to comply with this part shall not be appealable by the recipient under Minnesota Statutes, section 256.045.

Subp. 4. Exceptions to time requirements. A provider may submit a claim for payment more than 12 months after the date of service to the recipient if one of the circumstances in items A to D exists. The department shall pay the claim if it satisfies the other requirements of a claim for a covered service.

A. The medical assistance claim was preceded by a claim for payment under Medicare which was filed according to Medicare time limits. To be eligible for payment, the claim must be presented to the department within six months of the Medicare determination.

B. Medical assistance payment of the claim is ordered by the court and a copy of the court order accompanies the claim or an appeal under Minnesota Statutes, section 256.045, is upheld. To be eligible for payment, the claim must be presented within six months of the court order.

C. The provider's claim for payment was rejected because the department received erroneous or incomplete information about the recipient's eligibility. To be eligible for payment, the provider must resubmit the claim to the department within six months of the erroneous determination, together with a copy of the original claim, a copy of the corresponding remittance advice, and any written communication the provider has received from the local agency about the claim. The local agency must verify to the department the recipient's eligibility at the time the recipient received the service.

D. The provider's claim for payment was erroneously rejected by the department. To be eligible for payment, the provider must resubmit the claim within six months of receipt of the notice of the erroneous determination by sending the department a copy of the original claim, a copy of the remittance advice, any written communication about the claim sent to the provider by the local agency or department, and documentation that the original claim was submitted within the 12-month limit in subpart 2.

Subp. 5. Format of claims. To be eligible for payment, a provider must enter on the claim the diagnosis and procedure codes required by the department and submit the claim on forms or in the format specified by the department. The provider must include with the claim information about a required prior authorization or second surgical opinion. Further, the provider shall submit with the claim additional records or

reports requested by the department as necessary to determine compliance with parts 9505.0170 to 9505.0475.

Subp. 6. Repeated submission of nonprocessable claims. A provider's repeated submission of claims that cannot be processed without obtaining additional information shall constitute abuse and shall be subject to the sanctions available under parts 9505.2160 to 9505.2245.

Subp. 7. Direct billing by provider. Except as in parts 9505.0070 and 9505.0440, a provider or the provider's business agent as in part 9505.0455 shall directly bill the department for a health service to a recipient.

9505.0520 INPATIENT ADMISSION CERTIFICATION.

Subpart 1. **Requirement for admission certification.** Except as provided in subpart 2, a hospital or admitting physician furnishing inpatient hospital services to a recipient must obtain admission certification in order for the admitting physician, the hospital, or other provider of an inpatient hospital service to receive medical assistance payment for the inpatient hospital services to the recipient.

A. Admission certification must be obtained when a recipient is admitted, readmitted, or transferred to a hospital unless the admission is combined under the readmission criteria of part 9505.0540.

B. An admission certification number is valid only for the hospital admission for which it is issued, except in circumstances specified in part 9505.0540.

C. Admission certification for the admission of a MinnesotaCare recipient must be requested within 30 days of the date of admission or be subject to penalties under Minnesota Statutes, section 256.9353, subdivision 3, paragraph (c).

Subp. 2. Exclusions from admission certification. Admissions for inpatient hospital services under items A to C shall be excluded from the requirement in subpart 1. The admissions are subject to retrospective review as stated in subpart 10.

A. The admission of a pregnant woman that results in the delivery of a newborn or a stillbirth, and the admission of a newborn resulting from birth.

B. The admission is for Medicare Part A covered inpatient hospital services which are provided to a recipient who is also eligible for medical assistance and for which medical assistance payment is requested for the coinsurance and deductible payments only.

C. An admission to a hospital that is not located in Minnesota or the local trade area for which a prior authorization has been obtained according to parts 9505.5000 to 9505.5030.

Subp. 3. Admitting physician and hospital responsibilities. The admitting physician or hospital that seeks medical assistance payment for inpatient hospital services provided to a recipient must follow the procedures in items A to C.

A. Request admission certification by contacting the medical review agent either by telephone or in writing and providing the information in subitems (1) to (8):

- (1) hospital's medical assistance provider number and name;
- (2) recipient's name, recipient ID number, sex, and date of birth;
- (3) admitting physician's name and medical assistance provider number;

(4) primary procedure, or principal procedure, when applicable, according to the most recent edition of Current Procedural Terminology published by the American Medical Association or the International Classification of Diseases -- Clinical Modification, published by the Practice Management Information Corporation, 4727 Wilshire Boulevard, Los Angeles, CA 90010 which are incorporated by reference. These books are available through the Minitex interlibrary loan system and are subject to change;

(5) date of admission, or expected date of admission;

(6) whether the admission is a readmission or a transfer;

(7) admitting diagnosis, or principal diagnosis, when applicable, according to the most recent edition of the International Classification of Diseases -- Clinical Modification; and

(8) information from the plan of care and the reason for admission as necessary for the medical review agent to determine if admission is or was medically necessary.

B. Inform all providers involved in the recipient's inpatient hospital services of the certification number.

C. For purposes of billing, enter the certification number on invoices submitted to the department for payment.

Subp. 5. [Repealed, 23 SR 298]

Subp. 6. [Repealed, 23 SR 298]

Subp. 7. Ineligibility to serve as physician or physician adviser. A physician shall not be eligible to determine the medical necessity of an admission under parts 9505.0501 to 9505.0545 if:

A. the physician is the admitting physician for the admission for which certification is being requested;

B. during the previous 12 months, the physician issued treatment orders or participated in the formulation or execution of the treatment plan for the recipient for whom admission certification is requested;

C. the physician and the physician's family, which means the physician's spouse, child, grandchild, parent, or grandparent, has an ownership interest of five percent or more in the hospital for which admission certification is being requested; or

D. the physician can obtain a financial benefit from the admission of the recipient.

Subp. 8. **Procedure for admission certification.** The procedures for admission certification are listed in items A to I.

A. Upon receipt of the information requested in subpart 3, item A, the medical review agent shall review the information and determine whether the admission is medically necessary.

B. If the medical review agent determines that the admission is medically necessary, the medical review agent shall issue a certification number.

C. If the medical review agent is unable to determine that the admission is medically necessary, the medical review agent shall contact a physician.

D. If the physician determines that the admission is medically necessary, the medical review agent shall issue a certification number.

E. If the physician determines that the admission is not medically necessary or is unable to determine that the admission is medically necessary, the medical review agent shall notify the provider by telephone, and the provider may request within 24 hours of the medical review agent's notification, exclusive of weekends and holidays, a second physician's opinion.

F. If the provider requests a second physician's opinion, the medical review agent shall contact a second physician. If the second physician determines that the admission is medically necessary, the medical review agent shall issue a certification number.

G. If the second physician determines that the admission is not medically necessary, or is unable to determine that the admission is medically necessary, or if the provider does not request a second physician's opinion when the first physician determines that the admission is not medically necessary or is unable to determine that the admission is medically necessary, then the medical review agent shall deny the admission certification and shall not issue a certification number.

H. The medical review agent shall make the determination about medical necessity and inform the provider by telephone within 24 hours of the receipt of the information requested in subpart 3, item A, exclusive of weekends and holidays, unless the provider requests a second physician's opinion. If the provider requests a second physician's opinion, the medical review agent shall make the determination of medical necessity and notify the provider by telephone within 24 hours of the request, exclusive of weekends and holidays. The medical review agent shall send a written notice of the determination to the hospital and admitting physician within five working days of the determination. In the case of a denial, the written notices to the hospital and the admitting physician required under this item must be sent by certified mail. The denial notices to the admitting physician and hospital must state the reasons for the denial and inform the admitting physician or hospital that a reconsideration may be requested under subpart 9. In the case of a denial when the recipient has not received the inpatient hospital services, the medical review agent shall send a written notice of the denial to the recipient within five working days of the determination. The denial notice to the recipient must state the recipient's right of appeal under part 9505.0545 and Minnesota Statutes, section 256.045.

I. When there is a need to further substantiate the medical necessity of the admission, the department or medical review agent may request that the provider submit, at the provider's expense, a copy of the recipient's medical record or part of the medical record needed to make the determination. If the provider fails to submit a

requested record within 30 days of the date of the request, the department or the medical review agent shall make a determination based on the information available.

Subp. 9. **Reconsideration requested.** The admitting physician or the hospital may request reconsideration of a decision to deny or withdraw an admission certification if:

A. the medical review agent denies an admission certification number because the admission is not medically necessary;

B. the medical review agent withdraws an admission certification number for all or part of a recipient's stay because all or part of the stay was not medically necessary based on a concurrent or retrospective review; or

C. the medical review agent denies or withdraws an admission certification number or considers an admission and readmission to be a transfer under the readmission criteria in part 9505.0540 because the admission and readmission meet the criteria specified in part 9505.0540.

The admitting physician or the hospital shall submit a written request for reconsideration to the medical review agent within 30 days of the date of receipt of the certified letter from the medical review agent denying or withdrawing the admission certification number. The request must include the recipient's name and the recipient's ID number; the disputed admission; the reason for the dispute; the medical record or the part of the medical record needed to make a determination of the medical necessity of the admission or appropriateness of a readmission and any other information related to the admission and determination; and the name, address, and telephone number of the person to contact about the reconsideration.

Subp. 9a. [Repealed, 23 SR 298]

Subp. 9b. **Reconsideration; physician advisers appointed by medical review agent.** Upon receipt of a request for reconsideration under subpart 9, the medical review agent shall appoint at least three physician advisers who did not take part in the decision to deny or withdraw all or part of the admission certification. Each physician adviser shall determine the medical necessity of the admission or the continued stay or, in the case of a readmission, determine whether the admission and readmission meet the criteria in part 9505.0540. The reconsideration decision must be the majority opinion of the physician advisers. In making the decision, the three physician advisers shall use the criteria of medical necessity set out in part 9505.0530.

Subp. 9c. **Completion of reconsideration.** The medical review agent shall complete the reconsideration requested under subpart 9 within 60 days of receipt of the information required under subpart 9. The medical review agent shall notify the provider who requested the reconsideration, by telephone, of the decision within 24 hours of receipt of the physician adviser's determination, exclusive of weekends and holidays. A written notice of the decision must be sent by certified mail to the hospital and the admitting physician by the medical review agent within ten working days of the receipt of the physician adviser's determination. In the event a denial is upheld, the notice must inform the admitting physician and hospital of the right to request an appeal of the reconsideration decision within 30 days of receiving the notice according to Minnesota Statutes, section 256.9685, subdivisions 1b to 1d.

Subp. 10. **Medical record review and determination after admission.** The department or the medical review agent may conduct a concurrent, continued stay or retrospective review of a recipient's medical record to establish the recipient's diagnosis and procedure codes and to determine whether the recipient's admission and all the inpatient hospital services provided to the recipient were medically necessary, whether a continued stay was medically necessary or will be medically necessary, and whether all medically necessary inpatient hospital services were provided to the recipient. In making a determination under this subpart, the medical review agent must follow the procedure in items A to G.

A. The medical review agent shall review the medical record to establish the diagnosis and procedure codes for diagnostic category validation. Additionally, the

medical review agent may review the bills, invoices, and all supporting documentation pertaining to a request for medical assistance payment.

B. The medical review agent may request additional information from the admitting physician or the hospital as necessary to clarify the medical record if the medical review agent is unable to determine that the recipient's admission was medically necessary, that all inpatient hospital services provided to the recipient were medically necessary, that the recipient's continued stay was medically necessary or will be medically necessary, or that all medically necessary inpatient hospital services were provided. The additional information must be submitted at the expense of the admitting physician or hospital.

C. If, after additional information is submitted, the medical review agent is unable to determine that the recipient's admission was medically necessary, that the recipient's continued stay was medically necessary or will be medically necessary, or that all medically necessary inpatient hospital services were provided, the medical review agent must consult a physician.

D. If a physician determines that the recipient's admission was not medically necessary, or that all medically necessary inpatient hospital services were not provided, the medical review agent shall withdraw the previously issued certification number and shall notify the admitting physician and hospital of the determination by certified letter mailed within five working days. The notice shall state the right of the admitting physician and hospital to request a reconsideration under subpart 9.

E. If a physician determines that the recipient's continued stay was not medically necessary or will not be medically necessary, the portion of the stay determined not to be medically necessary will be denied. If the recipient is still an inpatient, the medical review agent shall notify the admitting physician and hospital of the determination by telephone within 24 hours of receipt of the determination, exclusive of weekends and holidays, and by certified letter mailed within five working days of receipt of the determination. If the recipient has been discharged, the medical review agent shall notify the admitting physician and hospital of the determination by certified letter mailed within five working days of receipt of the determination. The notice must state the right of the admitting physician and hospital to request a reconsideration under subpart 9.

F. If recertification of a recipient's need for inpatient hospital services was required but was not documented in the medical record, the medical review agent shall deny that portion of the admission that was not recertified.

G. If the medical review agent is unable to determine from the documentation in the recipient's medical records the reasons for the recipient's discharge and readmission according to criteria in part 9505.0540, the medical review agent shall submit the medical records of the recipient's admission and readmission to a physician. The physician shall review the records and determine the nature of the discharge and readmission according to the criteria in part 9505.0540, and if the determination of the medical review agent is different from that of the admitting physician or hospital, then the medical review agent shall notify the admitting physician and hospital by certified letter mailed within five working days. The notice must state the right of the admitting physician and hospital to request a reconsideration under subpart 9.

Subp. 11. Payment adjustments. The department may make payment adjustments according to the circumstances in items A to E.

A. For hospitals receiving payments under parts 9500.1090 to 9500.1140, and admitting physicians and other providers of inpatient hospital services receiving payments through medical assistance, if the admission was not medically necessary or the medical record does not adequately document that the admission was medically necessary, the entire payment shall be denied or recovered. If the hospital, admitting physician, and other providers of inpatient hospital services failed to provide inpatient hospital services that were medically necessary, the department may take action under parts 9505.2160 to 9505.2245.

B. For hospitals receiving payments under parts 9500.1090 to 9500.1140, and admitting physicians and other providers of inpatient hospital services receiving payments through medical assistance, if the admission was medically necessary but some or all of the additional inpatient hospital services were not or will not be medically necessary, or the medical record does not adequately document that the additional inpatient hospital services were or will be medically necessary, payment for the additional services shall be denied or recovered. If the hospital, admitting physician, and other providers of inpatient hospital services failed to provide inpatient hospital services that were medically necessary, the department may take action under parts 9505.2160 to 9505.2245.

C. If the diagnostic category validation indicates a discrepancy between the diagnostic category assigned to the claim and the diagnostic category established from the medical record, the department shall adjust the payment as applicable to the diagnostic category that is accurate for the recipient's condition according to the medical record.

D. If, within 30 days, the hospital failed to comply with the department's or the medical review agent's request to submit the medical record or other required information, all or part of the payment shall be denied or recovered as provided in items A to C.

E. The provider may not seek payment from the recipient for inpatient hospital services provided under parts 9505.0501 to 9505.0545 if the certification number is not issued or is withdrawn.

9505.0530 INCORPORATION BY REFERENCE OF CRITERIA TO DETERMINE MEDICAL NECESSITY.

Subpart 1. **Determinations using medical necessity criteria.** The medical review agent shall follow the medical necessity criteria specified in subparts 2 and 3 in determining the following:

A. whether a recipient's admission is medically necessary;

B. whether the inpatient hospital services provided to the recipient were medically necessary;

C. whether the recipient's continued stay was or will be medically necessary; and

D. whether all medically necessary inpatient hospital services were provided to the recipient.

9505.0540 CRITERIA FOR READMISSIONS.

Subpart 1. [Repealed, 23 SR 298]

Subp. 2. [Repealed, 23 SR 298]

Subp. 3. **Readmission considered as a second admission.** The medical review agent shall issue a certification number for a readmission that meets the criteria for medical necessity specified in part 9505.0530, whether the admitting and readmitting hospitals are the same or different. The medical record of the admission must state why the recipient was discharged from the hospital and what the recipient's medical status was upon discharge, and the medical record of the readmission must state why the recipient is being readmitted and what the recipient's medical status is at readmission. Both the admission and the readmission shall be subject to a retrospective review as provided in part 9505.0520, subpart 10. If the reason for the discharge and the reason for the readmission meet one set of circumstances specified in items A to D, the medical review agent shall determine that both the admission and the readmission shall retain the certification number subject to the hospitals' and admitting physicians' compliance with all requirements of parts 9505.0501 to 9505.0545.

A. The readmission results from the recipient leaving the hospital against medical advice.

B. The readmission results from the recipient being noncompliant with medical advice that is recorded on the recipient's medical record as being given to the recipient at the admitting hospital. For purposes of this part, "recipient being noncompliant with medical advice" means that the recipient, fully informed of his or her medical condition, and fully understanding the need for the treatment and the follow-up discharge instructions, if any, refuses to adhere to the treatment or to follow the discharge instructions.

C. The readmission results from a new episode of the same diagnosis of an episodic illness or condition.

D. The readmission results from the fact that the recipient's discharge from the admitting hospital and readmission are medically necessary according to prevailing medical standards, practice, and usage.

Subp. 4. **Readmission considered as continuous with admission.** The medical review agent shall determine that a readmission of a recipient is continuous with the recipient's admission whether the admitting and readmitting hospitals are the same or different if the circumstances requiring the recipient's readmission meet one set of the circumstances specified in items A to C. The medical review agent shall issue a certification number if the readmission meets the criteria for medical necessity specified in part 9505.0530. The medical record of the admission must state why the recipient was discharged from the hospital and what the recipient's medical status was upon discharge, and the medical record of the readmission must state why the recipient is being readmitted and what the recipient's medical status is at readmission. Both the admission and the readmission are subject to a retrospective review as provided in part 9505.0520, subpart 10. Upon completing the retrospective review and determining whether the readmission and admission are consistent with item A, B, or C, the medical review agent shall take the action specified in the item that applies. Medical assistance payment for the inpatient hospital services retaining the certification number after the determination resulting from the retrospective review must be paid according to parts 9500.1090 to 9500.1140 for the diagnostic category assigned to the recipient's principal diagnosis of the admission and readmission. In each circumstance, retention

of the certification number is subject to the hospital's and admitting physician's compliance with all requirements of parts 9505.0501 to 9505.0545.

A. The recipient was discharged from the admitting hospital without receiving the procedure or treatment of the condition diagnosed during the admission because of the hospital's or physician's preference or because of a scheduling conflict. If the admitting and readmitting hospitals are the same, the medical review agent shall withdraw the certification number of the readmission and determine the admission eligible to retain the certification number. If the admitting and readmitting hospitals are not the same, the medical review agent shall apply the requirements under subpart 5, item C, regarding admission and readmission eligible for a transfer payment.

B. The recipient's discharge was not appropriate according to prevailing medical standards, practice, and usage. If the admitting and readmitting hospitals are the same, the medical review agent shall determine the admission eligible to retain the certification number and withdraw the certification number of the readmission. If the admitting and readmitting hospitals are different, the medical review agent shall withdraw the certification number of the admission and shall determine the readmission eligible to retain a certification number.

C. The recipient's discharge and readmission to the same hospital results from the preference of the recipient or the recipient's family that the recipient's treatment be delayed, that the recipient be discharged without receiving the necessary procedure or treatment, and that the recipient be readmitted for the necessary procedure or treatment. If the admitting and readmitting hospitals are the same, the medical review agent shall determine the admission eligible to retain the certification number and withdraw the certification number of the readmission. If the admitting and readmitting hospitals are not the same, the medical review agent shall apply the requirements under subpart 5, item A, regarding admission and readmission eligible for a transfer payment. For purposes of this part, "preference of the recipient or the recipient's family" means that the recipient or the recipient's family makes a choice to delay or change the location of inpatient hospital services, and the choice is compatible with prevailing medical standards, practices, and usage.

Subp. 5. Admission and readmission eligible for transfer payment. The medical review agent shall issue a certification number for an admission and readmission that are eligible for a transfer payment if the admission and readmission meet the criteria for medical necessity specified in part 9505.0530, and a set of circumstances in item A, B, or C. The medical record of the admission must state why the recipient was discharged from the hospital and what the recipient's medical status was upon discharge, and the medical record of the readmission must state why the recipient is being readmitted and what the recipient's medical status is at readmission. The medical review agent shall conduct a retrospective review of the medical records, determine whether the admission and readmission are consistent with the circumstances in item A, B, or C, and take the action specified in the item. Retention of the certification number by the hospital is also subject to the admitting physician's and hospital's compliance with all requirements of parts 9505.0501 to 9505.0545.

A. The readmission results from the preference of the recipient or the recipient's family that the recipient be discharged from the admitting hospital without receiving the necessary procedure or treatment and that the recipient be readmitted to a different hospital to obtain the necessary procedure or treatment. In this case, both hospitals shall retain their certification numbers subject to the hospitals' and admitting physicians' compliance with all requirements of parts 9505.0501 to 9505.0545, and medical assistance payment to each hospital must be made according to the transfer payment established under part 9500.1128, subpart 2, item D, for the inpatient hospital services necessary for the recipient's diagnosis and treatment.

B. The readmission results from a referral from one hospital to a different hospital because the recipient's medically necessary treatment was outside the scope of the first hospital's available inpatient hospital services. In this case, both hospitals shall retain their certification numbers, and medical assistance payment to each hospital

must be made according to the transfer payment established under part 9500.1128, subpart 2, item D, for the inpatient hospital services necessary for the recipient's diagnosis and treatment. If, however, the admission to the first hospital is not due to an emergency and the first hospital knew or had reason to know at the time of admission that the inpatient hospital services that were medically necessary for the recipient's treatment or condition were outside the scope of the hospital's available inpatient hospital services and the readmission to another hospital resulted because of the recipient's need for those services, the first hospital's certification number will be withdrawn.

C. The readmission results from a physician's or hospital's scheduling conflict at the admitting hospital. The medical review agent shall determine both hospitals eligible to retain their certification numbers. In this case, medical assistance payment to each hospital shall be made according to the transfer payment established under part 9500.1128, subpart 2, item D, for the inpatient hospital services necessary for the recipient's diagnosis and treatment.

9505.0545 APPEALS.

Subpart 1. **Appeal by admitting physician or hospital.** The admitting physician or hospital may appeal the determination of the reconsideration under part 9505.0520, subparts 9, 9b, and 9c, according to Minnesota Statutes, section 256.9685, subdivisions 1b to 1d. The request for the appeal must be in writing and must be submitted to the commissioner within 30 days after receiving notice that the denial was upheld. An admitting physician or hospital that did not request a reconsideration under subpart 9 within 30 days of receiving the certified letter denying or withdrawing admission certification is not entitled to further appeal. The commissioner shall determine the medical necessity of the hospital admission based upon a review of the recipient's medical record and the information submitted by the provider during the reconsideration process and the medical review agent's basis for the determination that the services were not medically necessary for inpatient hospital services. The commissioner's decision under this subpart is the final agency decision.

Subp. 2. **Judicial review.** If the commissioner upholds the denial or withdrawal of admission certification, a hospital or admitting physician may appeal the commissioner's order to the district court of the county in which the hospital or physician is located. The appeal must be in writing and served upon the commissioner within 30 days after the date of the commissioner's order denying or withdrawing admission certification. The appeal must also be filed with the court administrator of the district court. The procedures to be followed by the court in processing the appeal are set out in Minnesota Statutes, section 256.9685, subdivisions 1c and 1d.

Subp. 3. **Appeal by recipient.** A recipient who is denied inpatient hospital services because of the medical review agent's determination that the inpatient hospital services are not medically necessary may appeal the medical review agent's determination according to Minnesota Statutes, section 256.045.

The history must include information on sexual development, lead and tuberculosis exposure, nutrition intake, chemical abuse, and social, emotional, and mental health status.

Subp. 3. **Assessment of physical growth.** The child's height or length and the child's weight must be measured and the results plotted on a growth grid based on data

from the National Center for Health Statistics (NCHS). The head circumference of a child up to 36 months of age or a child whose growth in head circumference appears to deviate from the expected circumference for that child must be measured and plotted on an NCHS-based growth grid.

Subp. 4. **Physical examination.** The following must be checked according to accepted medical procedures: pulse; respiration; blood pressure; head; eyes; ears; nose; mouth; pharynx; neck; chest; heart; lungs; abdomen; spine; genitals; extremities; joints; muscle tone; skin; and neurological condition.

The external parts of a child's eyes must be examined including the lids, conjunctiva, cornea, iris, and pupils. A child or parent of the child must be asked whether he or she has concerns about the child's vision.

A child or parent of the child must be asked whether he or she has any concerns regarding the child's hearing.

Subp. 8. **Hearing of a child age three or older.** In addition to the requirements of subpart 7, a child age three or older must receive a pure tone audiometric test or referral for the test if the examination under subpart 7 indicates the test is needed.

Standardized tests that are used in screening must be culturally sensitive and have norms for the age range tested, written procedures for administration and for scoring and interpretation that are statistically reliable and valid. The provider must use a combination of the child's health and developmental history and standardized test or clinical judgment to determine the child's developmental status or need for further assessment.

Subp. 10. **Sexual development.** A child must be evaluated to determine whether the child's sexual development is consistent with the child's chronological age. A female must receive a breast examination and pelvic examination when indicated. A male must receive a testicular examination when indicated. If it is in the best interest of a child, counseling on normal sexual development, information on birth control and sexually transmitted diseases, and prescriptions and tests must be offered to a child. If it is in the best interest of a child, a screening provider may refer the child to other resources for counseling or a pelvic examination.

Subp. 11. **Nutrition.** When the assessment of a child's physical growth performed according to subpart 3 indicates a nutritional risk condition, the child must be referred for further assessment, receive nutritional counseling, or be referred to a nutrition program such as the Special Supplemental Food Program for Women, Infants, and Children; food stamps or food support; Expanded Food and Nutrition Education Program; or Head Start.

Subp. 12. **Immunizations.** The immunization status of a child must be compared to the "Recommended Schedule for Active Immunization of Normal Infants and Children," current edition. Immunizations that the comparison shows are needed must be offered to the child and given to the child if the child or parent of the child accepts the offer. The "Recommended Schedule for Active Immunization of Normal Infants and

Children,” current edition, is developed and distributed by the Minnesota Department of Health, 717 Delaware Street Southeast, Minneapolis, Minnesota 55440. The “Recommended Schedule for Active Immunization of Normal Infants and Children,” current edition, is incorporated by reference and is available at the State Law Library, Judicial Center, 25 Rev. B. A child aged one to five years must initially be screened for lead through the use of either an erythrocyte protoporphyrin (EP) test or a direct blood lead screening test until December 31, 1992. Beginning January 1, 1993, a child age one to five must initially be screened using a direct blood lead screening test. Either capillary or venous blood may be used as the specimen for the direct blood lead test. Blood tests must be performed at a minimum of once at 12 months of age and once at 24 months of age or whenever the history indicates that there are risk factors for lead poisoning. When the result of the EP or capillary blood test is greater than the maximum allowable level set by the Centers for Disease Control of the United States Public Health Service, the child must be referred for a venous blood lead test. A child with a venous blood lead level greater than the maximum allowable level set by the Centers for Disease Control must be referred for diagnosis and treatment.

C. The urine of a child must be tested for the presence of glucose, ketones, protein, and other abnormalities. A female at or near the age of four and a female at or near the age of ten must be tested for bacteriuria.

D. Either a microhematocrit determination or a hemoglobin concentration test for anemia must be done.

E. A test for sickle cell or other hemoglobinopathy, or abnormal blood conditions must be offered to a child who is at risk of such abnormalities and who has not yet been tested. These tests must be provided if accepted or requested by the child or parent of the child. If the tests identify a hemoglobin abnormality or other abnormal blood condition, the child must be referred for genetic counseling.

F. Other laboratory tests such as those for cervical cancer, sexually transmitted diseases, pregnancy, and parasites must be performed when indicated by a child’s medical or family history.

Subp. 14. **Oral examination.** An oral examination of a child’s mouth must be performed to detect deterioration of hard tissue, and inflammation or swelling of soft tissue. Counseling about the systemic use of fluoride must be given to a child when fluoride is not available through the community water supply or school programs.

Subp. 14a. **Health education and health counseling.** Health education and health counseling concerning the child’s health must be offered to the child who is being screened and to the child’s parent or representative. The health education and health counseling are for the purposes of assisting the child or the parent or representative of the child to understand the expected growth and development of the child and of informing the child or the parent or representative of the child about the benefits of healthy lifestyles and about practices to promote accident and disease prevention.

Subp. 15. **Schedule of age related screening standards.** An early and periodic screening, diagnosis, and treatment screening for a child at a specific age must include, at a minimum, the screening requirements of subparts 2 to 14 as provided by the following schedule:

9505.2210 ADMINISTRATIVE SANCTIONS.

Subpart 1. **Authority to impose administrative sanction.** The commissioner shall impose administrative sanctions or issue a warning letter if the department's investigation under part 9505.2200 determines the presence of fraud, theft, or abuse in connection with a program or if the vendor or recipient refuses to grant the department access to records as required under part 9505.2185.

Subp. 2. **Nature of administrative sanction.** The actions specified in items A to C are administrative sanctions that the commissioner may impose for the conduct specified in subpart 1.

A. For any vendor, the actions are:

- (1) referral to the appropriate peer review mechanism or licensing board;
- (2) suspending or terminating the vendor's participation;
- (3) suspending or terminating the participation of any person or corporation with whom the vendor has any ownership or control interest;
- (4) requiring attendance at education sessions provided by the department;
- (5) requiring prior authorization of services; and
- (6) restricting the vendor's participation in a program.

B. For a provider, the actions in item A, and in addition:

9505.2215 MONETARY RECOVERY.

Subpart 1. **Authority to seek monetary recovery.** The commissioner shall seek monetary recovery:

A. from a vendor, if payment for a recipient's health service under a program was the result of fraud, theft, or abuse, or error on the part of the vendor, department, or local agency; or

B. from a recipient, if payment for a health service provided under a program was the result of fraud, theft, or abuse, or error on the part of the recipient absent a showing that recovery would, in that particular case, be unreasonable or unfair.

Subp. 2. **Methods of monetary recovery.** The commissioner shall recover money described in subpart 1 by the following means:

A. permitting voluntary repayment of money, either in lump sum payment or installment payments;

B. using any legal collection process;

C. deducting or withholding from program payments money described in subpart 1; and

D. withholding payments to a provider under Code of Federal Regulations, title 42, section 447.31.

Subp. 3. **Interest charges on monetary recovery.** If the department permits the use of installment payments to repay money described in subpart 1, the department may assess interest on the funds to be received at the rate established by the Department of Revenue under Minnesota Statutes, section 270.75. Interest may accrue from the effective date of recovery, as specified in part 9505.2230, subpart 2.

9505.2220 USE OF RANDOM SAMPLE EXTRAPOLATION IN MONETARY RECOVERY.

Subpart 1. **Authorization.** For the purpose of part 9505.2215, the commissioner shall be authorized to calculate the amount of monetary recovery from a vendor of money erroneously paid based upon extrapolation from systematic random samples of claims submitted by the provider and paid by the program or programs. The department's random sample extrapolation shall constitute a rebuttable presumption regarding the calculation of monetary recovery. If the presumption is not rebutted by the vendor in the appeal process, the department shall use the extrapolation as the monetary recovery figure specified in subpart 3.

Subp. 2. **Decision to use samples.** The department shall decide whether sampling and extrapolation are to be used in calculating a monetary recovery according to the following criteria:

A. the claims to be sampled represent services to 50 or more recipients; or

B. there are more than 1,000 claims to be sampled.

Subp. 3. **Sampling method.** The department shall use the methods in items A to D in calculating the amount of monetary recovery by random sample extrapolation.

A. Samples of a given size shall be selected in such a way that every sample of that size shall be equally likely to be selected.

B. Samples shall only be selected from claims for health services provided within the interval that coincides with the interval during which money allegedly was erroneously provided and for which recovery will be made.

C. The sampling method, including sample size, sample selections, and extrapolation from the results of the sample, shall be according to statistical procedures published in the following text: W. Cochran, Sampling Techniques, John Wiley and Sons, New York 3rd Ed. (1977). Sampling Techniques is incorporated by reference and is available through the Minitex interlibrary loan system.

D. The sample size will be sufficiently large so that the estimate of the amount which would be recovered by a full audit will be within five percent of that amount with 95 percent confidence. A two-sided 95 percent confidence interval for that amount will be computed. The department's calculated monetary recovery is the lower end of that confidence interval.

9505.2230 NOTICE OF AGENCY ACTION.

Subpart 1. **Required written notice.** The department shall give notice in writing to a vendor or recipient of a monetary recovery or administrative sanction that is to be imposed by the department. For vendors, the notice shall be sent by certified mail. For recipients, the notice shall be sent by first class mail. The department shall place an affidavit of the first class mailing in the recipient's file as an indication of the date of mailing and the address.

A. In all cases, the notice shall state:

- (1) the factual basis for the department's determination according to part 9505.2200, subpart 4;
- (2) the actions the department plans to take;
- (3) the dollar amount of the monetary recovery, if any;
- (4) how the dollar amount was computed;
- (5) the right to dispute the department's determinations and to provide evidence; and
- (6) the right to appeal the department's proposed action under part 9505.2245.

B. In cases of vendor suspension or termination under part 9505.2235, in addition to the requirements of item A, the notice shall state:

- (1) the length of the suspension or termination;
- (2) the effect of the suspension or termination;
- (3) the earliest date on which the department shall consider a request for reinstatement;
- (4) the requirements and procedures for reinstatement; and
- (5) the vendor's right to submit documents and written argument against the suspension for review by the commissioner before the effective date of suspension or termination.

The submission of documents and written argument for review by the commissioner under subitem (5) does not stay the deadline for filing a formal appeal under part 9505.2245.

Subp. 2. **Effective date of recovery or sanction.** For vendors, the effective date of the proposed monetary recovery or sanction shall be the first day after the last day for requesting an appeal as provided in part 9505.2245, subpart 1, item B. For recipients, the effective date of the proposed action shall be 30 days after the recipient's receipt of the notice required under subpart 1. If an appeal is made under part 9505.2245, the proposed action shall be delayed pending the final outcome of the appeal, except as provided by part 9505.2231. Implementation of a proposed action following the resolution of an appeal may be postponed if in the opinion of the commissioner the delay of action is necessary to protect the health or safety of the recipient or recipients.

Subp. 3. **Effect of department's administrative determination.** Unless a timely and proper appeal made under part 9505.2245 is received by the department, the administrative determination of the department shall be considered final and binding.

9505.2231 SUSPENSION OR WITHHOLDING OF PAYMENTS TO PROVIDERS BEFORE APPEAL.

Subpart 1. **Grounds for suspension or withholding.** The commissioner is authorized to suspend or withhold payments to a provider before an appeal provided in part 9505.2245, if:

A. there is substantial likelihood that the department will prevail in an action under parts 9505.2160 to 9505.2245;

B. there is a substantial likelihood that the provider's practice, which is the basis for the department's determination made under part 9505.2200, subpart 4, will continue in the future;

C. there is reasonable cause to doubt the provider's financial ability to repay the amount determined to be due; or

D. suspending participation or withholding payment is necessary to comply with Minnesota Statutes, section 256B.064, subdivision 2.

Subp. 2. **Exception to prehearing suspension or withholding.** The commissioner shall not order a prehearing suspension or withholding of payments to a nursing home or convalescent care facility.

Subp. 3. **Federal share.** When an overpayment has been made by the department, the commissioner is authorized to recover from a provider the federal share when it is due to the federal government under federal law and regulations.

9505.2235 SUSPENSION OR TERMINATION OF VENDOR PARTICIPATION.

Subpart 1. **Effect of suspension or termination.** The provider agreement of a vendor who is under suspension or terminated from participation shall be void from the date of the suspension or termination. A suspension or termination from medical assistance does not mean suspension or termination from another program unless the suspension or termination is extended to that program. The vendor who is under suspension or terminated from participation shall not submit a claim for payment under a program, either through a claim as an individual or through a claim submitted by a clinic, group, corporation, or professional association except in the case of claims for payment for health services provided before the suspension or termination from participation. No payments shall be made to a vendor, either directly or indirectly, for services provided under a program from which the vendor had been suspended or terminated.

Subp. 2. **Reinstatement of vendor.** A vendor who is under suspension or terminated from participation is eligible to apply for reinstatement as a provider or vendor at the end of the period of suspension or when the basis for termination no longer exists. The department shall review a vendor's application to determine whether the vendor is qualified to participate as specified by the participation requirements of part 9505.0195 and Code of Federal Regulations, title 42, section 1002.215.

Subp. 3. **Prohibited submission of vendor's claims.** A provider shall not submit a claim for a health service under a program provided by a vendor who is under suspension or terminated from participation unless the health service was provided before the vendor's suspension or termination. If a provider receives payment under a program for a health service provided by a vendor after the vendor's suspension or termination from participation, the department shall recover the amount of the payment and may impose administrative sanctions against the provider if the commissioner determines that the provider knew or had reason to know of the suspension or termination.

9505.2236 RESTRICTION OF PROVIDER OR VENDOR PARTICIPATION.

Subpart 1. **Effect of restriction on a provider or vendor.** The provider agreement of a vendor who is restricted from participation shall be amended by the restriction specified in the notice of action to the vendor provided under part 9505.2230. A vendor who is restricted from participation shall not submit a claim for payment under a program for services or charges specified in the notice of action, either through a claim as an individual or through a claim submitted by a clinic, group, corporation, or professional association, except in the case of claims for payment for health services otherwise eligible for payment and provided before the restriction. No payments shall be made to a vendor, either directly or indirectly, for restricted services or charges specified in the notice of action.

Subp. 2. **Reinstatement of restricted provider or vendor.** A vendor who is restricted from participation is eligible to apply for reinstatement as an unrestricted provider or vendor at the end of the period of restriction. The department shall review a vendor's application to determine whether the vendor is qualified to participate without restrictions as specified by the participation requirements of part 9505.0195 and Code of Federal Regulations, title 42, section 1002.215.

Subp. 3. **Prohibited submission of restricted vendor's claims.** A provider shall not submit a claim for a health service furnished under a program by a vendor who is restricted from furnishing the health service or submitting a charge or claim, unless the health service was provided before the vendor's restriction. If a provider receives payment for a health service furnished under a program by a vendor restricted from furnishing the health service or submitting a charge or claim, the department shall recover the amount of the payment and may impose administrative sanctions against the provider if the commissioner determines that the provider knew or had reason to know of the restriction.
