9525.0025 APPLICABILITY AND PURPOSE.

Subpart 1. Applicability. Parts 9525.0015 to 9525.0165 set forth the standards to be met by county boards in providing case management services to persons with or who might have mental retardation or related conditions, and govern the planning, development, and provision of other services to persons with mental retardation or related conditions.

Subp. 2. Purpose. The purpose of parts 9525.0015 to 9525.0165 is to ensure that each person with mental retardation or a related condition who applies for services, whose legal representative applies for services or is determined by the county to be in need of services receives a diagnosis and assessment of current condition, and that, based on the information gathered, services are designed, arranged, provided, and monitored so that the services meet the level of the person's need in the least restrictive environment and in a cost-effective manner.

County boards are authorized and required to determine the adequacy and

quality of services provided to meet the person's needs based on the cost and effectiveness of the services. Only services identified as needed in the individual service plan should be provided or paid for.

Money expended for case management and other services for persons with or who might have mental retardation or related conditions must be expended in accordance with parts 9525.0015 to 9525.0165.

9525.0035 COUNTY BOARD RESPONSIBILITIES.

The county board shall provide case management services in accordance with parts 9525.0015 to 9525.0165 to all persons with or who might have mental retardation or related conditions who reside in the county at the time they apply for services. Case management services may be provided directly by the county board or under a contract between the county board and another county board or between the county board and a provider of case management services.

Subp. 2. Designation of case manager. Within ten working days after receiving an application for services or a determination by the social service agency that a person needs services, the county board shall designate a case manager who meets the requirements in part 9525.0155. A written notice that includes the name, telephone number, and location of the designated case manager must be sent to the person requesting services, and to the person's legal representative and advocate, if any.

Subp. 3. Purchase of case management services. The county board shall not purchase case management services for a person with or who might have mental retardation or a related condition from a provider of other services for that person. This subpart does not apply when the county board provides the services or when the services are provided by another public agency, if the county board or other public agency providing case management and other services ensures that administration of the case management services is separate from the administration of any other service for the person with mental retardation or a related condition. The county board may apply to the commissioner in writing for a variance of this subpart. The commissioner shall grant the variance if the county board can demonstrate that:

A. separating the administration of case management and other services would result in an undue hardship for the county board;

B. an alternative method of preventing any conflict of interest has been established; and

C. the person providing case management services for the person with mental retardation or a related condition will not be involved in the provision of other services for the person with mental retardation or a related condition.

Subp. 4. Provision of services. The case manager, upon designation by the county board, shall immediately begin to provide case management services to the person who applied for services or for whom the legal representative applied for services, and shall continue to provide case management services until case management services are terminated under subpart 7. The county board shall not provide or arrange for services to be provided to a person with or who might have mental retardation or a related condition until a case manager has been designated, and services must not continue after case management services have been terminated under subpart 7.

Subp. 5. Procedures governing minimum standards for case management services. The county board shall establish written procedures to ensure that the

delivery of case management services to persons who have been diagnosed as having mental retardation or related conditions meets the standards established in items A to J.

A. Individual needs must be assessed in accordance with part 9525.0055, subpart 1.

B. Service needs must be reassessed in accordance with part 9525.0055, subparts 2 to 4.

C. A screening team meeting must be convened and held in accordance with part 9525.0065.

D. An individual service plan must be developed and reviewed in accordance with part 9525.0075.

E. An individual habilitation plan must be developed in accordance with part 9525.0105.

G. Services must be authorized in accordance with subpart 6 and part 9525.0085, subpart 2.

H. Services must be terminated in accordance with subpart 7.

I. Requests for reconsideration of the contents of the individual service plan are handled in accordance with part 9525.0075.

J. Requests for reconsideration of the contents of the individual habilitation plan are handled in accordance with part 9525.0105.

Copies of these procedures must be maintained on file at the county offices and must be available to persons employed by the county who work with persons with mental retardation or related conditions, persons with mental retardation or related conditions who are receiving services from the county and their legal representatives or advocates, and providers.

Subp. 6. Authorization of services. Before a service may be provided under an individual service plan, the county board must authorize the service in accordance with part 9525.0085, subpart 2. Authorization of a service or services must be based on the recommendation of the case manager and the needs identified in the individual service plan. The county board must provide for authorization of services when an emergency occurs and for a review of the individual service plan within ten working days of the emergency to determine whether the individual service plan should be modified as a result of the emergency. Modifications to the individual service plan must be made in accordance with part 9525.0075, subpart 6.

Subp. 7. Termination of case management duties. A case manager retains responsibility for providing case management services to the person with mental retardation or a related condition until the responsibility of the county board is terminated in accordance with items A to E, or until the county board designates another case manager under subpart 2. When another case manager is designated, the person with mental retardation or a related condition, the legal representative, and the advocate, if any, and all providers providing services to the person must be notified, in writing, within five working days of the designation of the name, telephone number, and location of the new case manager.

The county board may terminate case management services when:

"Significantly subaverage" means performance which is two or more standard deviations from the mean or average on an individual standardized test that measures intellectual functioning.

B. A psychiatrist, licensed psychologist, or licensed consulting psychologist must determine that the person has deficits in adaptive behavior. Deficits in adaptive behavior must be determined through the use of scales of adaptive behavior or by a combination of test data, observations, and the use of all available sources of information regarding the person's behavior which indicate the effectiveness or degree with which the person meets the norm of personal independence and social responsibilities of the person's chronological age group and cultural peer group.

C. A social worker or a public health nurse as defined in Minnesota Statutes, section 145A.02, subdivision 18, who is experienced in working with persons with mental retardation must prepare a written report on any social, familial, physical, health, functional, adaptational, or environmental factors that might have contributed to the person's mental retardation.

D. A licensed physician must conduct a medical examination of the person including an examination of vision, hearing, seizure disorders, and physical disabilities.

The documentation for items A to C must be dated no more than 90 days before the date when the initial individual service plan is written. The documentation for item D must be dated no more than 12 months before the date when the individual service plan is written and must accurately reflect the current condition of the person.

Subp. 2. Review of diagnosis. Except as provided in subpart 3, the case manager shall conduct a review of the diagnosis at least every three years. The review must include a review of the documentation of the initial diagnosis required in subpart 1, and any components in subpart 1, items A to D, that the case manager determines need to be reevaluated. The case manager shall provide or obtain any assessments required to complete a review of the diagnosis.

Subp. 3. Exception. If a person with mental retardation has an initial diagnosis of mental retardation which has been confirmed twice in accordance with subparts 1 and 2 since the person's 18th birthday, the review of the diagnosis required in subpart 2 must be conducted at least once every six years.

- C. intellectual functioning;
- D. social skills;

Upon completion of the waived services screening document, the case manager shall forward the completed document to the regional service specialist. The regional service specialist shall review the rates and shall authorize the payments for home and community-based services funded under the medical assistance program only if consistent with the criteria in parts 9525.1800 to 9525.1930. Payment for ICF/MR services shall not be made unless:

A. the person for whom the payment is requested is determined to be a person with mental retardation or a related condition;

B. an assessment of the person's individual service needs, conducted in accordance with part 9525.0065, documents that the person requires 24-hour supervision and treatment for medical, behavioral, or habilitation needs;

A. short-term objectives designed to result in the achievement of the annual goals of the individual service plan;

B. the specific method of providing the service that is expected to result in the achievement of the short-term objectives of the individual habilitation plan;

C. the name of the provider's employee responsible for ensuring that services are implemented as set forth in the individual habilitation plan and that the services result in achievement of the short-term objectives;

9525.0145 SERVICE DEVELOPMENT AND NEED DETERMINATION.

Subpart 1. Definition. As used in this part, "county board" means the county board of commissioners, a human services board established under Minnesota Statutes, chapter 402, or the county welfare board as defined in Minnesota Statutes, chapter 393.

Subp. 2. Information to be considered. Development of a new service, or modification or expansion of an existing service, must be based on the county's community social services plan, community health plan, and the service needs identified in individual service plans of persons with mental retardation or related conditions for whom the county board is financially responsible. The county board shall also consider the service needs of persons from other counties for whom the county board has agreed to be the host county.

Subp. 3. Need determination by county board. Based on the data referred to in subpart 2, the county board shall identify the need for new services, modification, expansion, or reduction of existing services, or services for which a change of ownership or location is proposed. Facilities licensed under parts 9525.0230 to 9525.0430 but not certified as an ICF/MR facility must apply to the county board for a new need determination if the facility proposes to be certified as an ICF/MR. This subpart shall apply to any service licensed by the commissioner, except foster care.

If the county board identifies that a new service or a service for which a change in ownership or location is proposed, needed, or that the existing services need to be modified, expanded, or reduced, the county board shall submit an application for a need determination to the commissioner. Applications must include the following information:

- J. the signature of the county board chairman.

Subp. 4. Review of county need determination. The county board shall establish written procedures for reviewing materials submitted by a provider under subpart 3.

Subp. 5. Need determination by commissioner. The commissioner shall make the determination of the need for and the location, program, type, and size of the service proposed in the county's application. The commissioner may determine need for the service on a local, regional, or statewide basis. In making a final need determination the commissioner shall consider the following factors:

- A. the need to protect persons with mental retardation or related conditions from violations of their human and civil rights;
- B. the need to assure that persons with mental retardation or related conditions receive the full range of social, financial, residential, and habilitative services specified as needed in their individual service plans;
- C. whether services will be carried out in the least restrictive environment, and whether the size of the service relates to the needs of the persons to be served;
- D. whether persons receiving the proposed service will use health, medical, psychological, therapeutic, and other support services that are used by the general public;
- E. whether cost projections for the service are within the fiscal limitations of the state;
- F. whether the application is consistent with the state's plans for service distribution and development; and
- G. the distribution of and access to the services throughout the state.

Subp. 6. Notice of decision and right to appeal. Within 30 days of receipt of the application for need determination from the county board, the commissioner shall notify the county board of the commissioner's decision. The notice of the commissioner's decision must include notification of the county board's right to appeal the decision under subpart 9.

Subp. 7. Biennial redetermination of need. Every two years the county board shall submit to the commissioner a recommendation on the redetermination of need for each service located in the county which is licensed by the commissioner, except foster care.

The county board's recommendations must state whether the county board recommends continuation, continuation with modifications, discontinuation of the service, or, if the service is certified, decertification of the service. The recom-

mendations of the county board must be based on the service needs of persons with mental retardation or related conditions for whom the county is financially responsible, and for the service needs of persons with mental retardation or related conditions from other counties for whom the county board has agreed to serve as host county.

The commissioner shall make the redetermination of need for the service after considering the factors in subpart 3, and the recommendations of the county board. The decision of the commissioner is final and may be appealed in accordance with subparts 8 and 9. The commissioner shall notify the county board of the decision following receipt of the county board's recommendations.

Subp. 8. Effect of need determination or redetermination. If the commissioner determines that the service, modification, or expansion is not needed, the service, modification, or expansion shall not be paid for or reimbursed from federal or state money for services to persons with mental retardation or related conditions. An application for licensure submitted to the department or submitted for approval by the county will not be considered complete unless the commissioner determines that the service modification or expansion is needed. If the determination or redetermination is appealed, the effect of this subpart may be stayed pending the outcome of the appeal.

Subp. 9. Appeal of commissioner's determination. The provider making the application or the county board may appeal:

C. the commissioner's redetermination of need.

All appeals must be handled in accordance with Minnesota Statutes, chapter 14. Notice of appeal must be received by the commissioner within 30 days after the notification of the commissioner's decision was sent to the county.

The county board shall comply with the order.

To be reconsidered, the request for review must be filed in writing with the commissioner within 30 calendar days of the date that the county board received the order. The request for review must state the reasons why the county board is requesting a reconsideration of the commissioner's order and present evidence explaining why the county board disagrees with the commissioner's order. For children under the age of six this must be determined by a performance of two standard deviations below the mean on a standardized developmental scale.

D. A substantial functional limitation in mobility is a long-term physical condition that impairs the person's ability to move from one place to another without the assistance of another person or mechanical aid or with such difficulty that an unusually protracted amount of time is required in a barrier free environment.

Subp. 2. Reimbursable costs. Costs of providing semi-independent living services for which a county board may be reimbursed by the state under parts 9525.0900 to 9525.1020 are costs of those services directed at maintaining and improving a client's functioning level. Services for which costs are reimbursable include supervision, assistance, counseling, or training in the areas listed in items A to L:

- A. meal planning and preparation;
- B. shopping;
- C. first aid training;
- D. money management and budgeting;

Subp. 3. Authorization for services. Costs of providing semi-independent living services are reimbursable only when the services provided have been authorized by the county board. The authorization must indicate the amount, types and cost of SILS to be provided, and the expected client outcome or outcomes. The written authorization for services to a client must be added to the client case record.

Subp. 4. Unapproved providers. Costs of semi-independent living services delivered by a provider who does not meet the provisions of part 9525.0930 must not be reimbursed under parts 9525.0900 to 9525.1020.

Subp. 5. Services to persons in an ICF/MR. Costs of semi-independent living services provided to a person with mental retardation or a related condition while he or she resides in an ICF/MR must be reimbursed only when the amount of service provided while the person resides in an ICF/MR does not exceed a total of 20 hours and when the services provided result in the person's moving directly from the ICF/MR into a semi-independent living arrangement.

Subp. 6. Relationship of SILS to day programs and employment activities. Costs of semi-independent living services provided on a schedule that precludes the client from participation in the day programs or employment activities specified in the client's individual service plan, or provided as a substitute for the specified day programs or employment activities, must not be reimbursed. This subpart does not prohibit reimbursement for SILS provided during the day to clients who are working on a part-time basis or seeking employment if SILS participation does not preclude the client's part-time work or employment seeking.

Subp. 7. No reimbursement for case management services costs and county administrative costs. Case management services costs and administrative costs incurred by counties or by SILS providers under contract with counties are not reimbursable as costs of semi-independent living services. When the county board provides SILS directly, the county must be reimbursed for costs of services provided according to the units of service defined in part 9525.0900 and must not be reimbursed for administrative costs. A county board may submit its SILS proposal as part of its community social service plan. To be considered for funding, the SILS proposal submitted as part of the grant application must:

- B. state measurable goals and objectives to be accomplished by providing the proposed SILS or by making the proposed changes in the SILS proposal from the previous year;
- C. specify the projected annual service cost, the SILS provider, the living arrangement, day occupation, projected number of service hours, hourly rate, and public assistance eligibility for each client to be served;
- D. specify clients who have, as a result of their participation in SILS for the previous grant year, acquired more independence which is reflected either by a decrease in number of SILS hours provided to the client or by the client's discharge from SILS because the client has acquired independent living skills; and
- E. include a budget for the state's fiscal year showing projected county income from all sources and projected total expenditures for the proposed SILS and explain the methods used by the county board to project expenditures.

Subp. 3. **Review of proposals submitted with grant applications.** The commissioner shall evaluate the SILS proposals submitted with applications for grants awarded under parts 9525.0900 to 9525.1020 for approval. C. The extent to which the proposed SILS budget is based on reasonable cost projections. A reasonable cost increase is an increase which does not exceed the projected change in the average value of the consumer price index (all urban) for the grant period. The consumer price index is incorporated by reference. The consumer price index is available through the Bureau of Labor Statistics Hotline, and is subject to frequent change. The local hotline number is (612)725-7865; the regional number is (312)353-1880.

Subp. 4. Approval of grant applications. The commissioner shall approve a grant application if the SILS proposal adheres to the criteria in subpart 3 and the proposal complies with Minnesota Statutes, section 252.275, subdivision 4, and parts 9525.0900 to 9525.1020. The commissioner shall adjust a proposal as necessary to ensure that the proposal and the proposal budget as approved:

9525.0970 STATE REIMBURSEMENT OF COUNTIES.

Subpart 1. Reimbursement amounts. State reimbursement payment to a county board must be made according to the schedule in subpart 4 and must be based on actual expenditures for providing SILS to eligible clients and the rate of state reimbursement which the commissioner has determined to be in effect for the grant period during which reimbursement is made. The amount of state reimbursement to a county board may not exceed the amount of the state grant award made to the county board for the grant period.

Subp. 2. Rate of state reimbursement. State reimbursement must not be more than 95 percent or less than 80 percent of a county board's cost of providing SILS as mandated by Minnesota Statutes, section 252.275, subdivision 4 and parts 9525.0900 to 9525.1020. Within the range set by statute, the commissioner shall determine the actual rate of reimbursement in effect for a given grant period by prorating the total SILS expenditures projected by county boards in SILS proposals and budgets approved by the commissioner against the total amount of state funding appropriated for SILS during the grant period.

Subp. 3. Application of other income. If a county board or a provider receives any income other than county money as reimbursement for SILS costs that are also reimbursable through local matching money or state funds provided under Minnesota Statutes, section 252.275, the income must be applied first to the local share to reduce the local matching money provided that the costs are reimbursable under part 9525.0950. If the income exceeds the local share of the service costs approved in the county's SILS grant application, the commissioner shall reduce the state grant payment by the amount that the income exceeds the local share.

MINNESOTA RULES 1991

9525.1600 PROGRAMS FOR MENTALLY RETARDED PERSONS 10186

C. whether the conditions described in subpart 7 exist and warrant additional staffing beyond the number determined to be needed under subpart 6.

The commissioner shall consider the factors in items A, B, and C in determining a provider's compliance with the staffing requirements in this part and shall further consider whether the staff ratio requirement established under subpart 2 for each person receiving services accurately reflects the person's need for staff time.

Subp. 2. Determining and documenting the staff ratio requirement for each person receiving services. The case manager in consultation with the interdisciplinary team shall determine at least once each year which of the ratios in subparts 3, 4, and 5 is appropriate for each person receiving services on the basis of the characteristics described in subparts 3, 4, and 5. The ratio assigned each person and documentation of how the ratio was arrived at must be kept in each person's individual habilitation plan file. Documentation must include an assessment of the person with respect to the characteristics in subparts 3, 4, and 5 recorded on a standard assessment form required by the commissioner and the contents of the individual habilitation plan file.

Subp. 3. Person requiring staff ratio of one to four. A person who has one or more of the characteristics described in items A and B must be assigned a staff ratio requirement of one to four.

Subp. 5. Person requiring staff ratio of one to six. A person who does not have the characteristics described in subpart 3 or 4 must be assigned a staff ratio requirement of one to six.

Subp. 6. Determining number of direct service staff required. The minimum number of direct service staff members required at any one time to meet the combined staff ratio requirements of the persons present at that time can be determined by following the steps in items A to D.

A. Assign each person in attendance the three digit decimal below that corresponds to the staff ratio requirement assigned to that person. A staff ratio requirement of one to four equals 0.250. A staff ratio requirement of one to eight equals 0.125. A staff ratio requirement of one to six equals 0.166.

B. Add all of the three digit decimals (one three digit decimal for every person in attendance) assigned in item A.

C. When the sum in item B falls between two whole numbers, round off the sum to the larger of the two whole numbers.

D. The larger of the two whole numbers in item C equals the number of direct service staff members needed to meet the staff ratio requirements of the persons in attendance.

F. Describe the steps the county board has taken to prepare to provide home and community-based services, including efforts to integrate home and community-based services into the county board's administrative services planning system.

Subp. 3. Review and approval of proposal. The commissioner shall review all proposals submitted in accordance with subparts 1 and 2. 9525.1890 ALLOCATION OF HOME AND COMMUNITY-BASED SERVICE MONEY.

Subpart 1. Allocation of diversions. To allocate home and community-based services money for diversions, the commissioner shall project the number of diversions for the county based on the average of the projected utilization of state-operated and community-based ICF/MR beds using historical utilization for the county; and the projected per capita utilization of state-operated and community-based ICF/MR beds for the county, both of which are adjusted to conform with the number of diversions projected in the waiver. The projection shall be adjusted based on the county board's actual use of allocated diversions during the previous fiscal year. If the county board uses less than the number of diversions allocated for the fiscal year, the commissioner may decrease the number of diversions projected by the commissioner for the county for the next fiscal year. The county board's allocation of money for diversions shall be based on the lesser of the number of diversions in the approved county proposal and the number of diversions projected for the county by the commissioner.

Subp. 2. Allocation of placements. The county board's allocation of money for placements shall be based on the number of placements in the approved county proposal and the extent to which the placements result in an overall reduction in the county board's historical utilization of state-operated and community-based ICF/MR beds.

Subp. 3. Notification of allocation. The commissioner shall notify all county boards, in writing, of the amount of home and community-based services money allocated to each county board or, if the proposal was submitted jointly, to the group of county boards.

Subp. 4. Review of allocation; reallocation. The commissioner shall review

MINNESOTA RULES 1991

10209 PROGRAMS FOR MENTALLY RETARDED PERSONS 9525.1900

the projected and actual use of home and community-based services by all county boards participating in the program on a quarterly basis, and report the findings to all the county boards in the state. The commissioner may reduce the allocation to a county board if the commissioner determines, in consultation with the county board, that the initial allocation to the county board will not be used during the allocation period. The commissioner may reallocate the unused portion of the county board's initial allocation to another county board, or other county boards, in the same geographic region that plan to expand home and community-based services or provide home and community-based services for the first time. If there is not a sufficient number of projections to use the unused allocation from county boards within the geographic region, the commissioner may reallocate the remainder to another county board or other county boards in other geographic regions that plan to expand home and community-based services or provide home and community-based services for the first time.

Subp. 5. Preference given. The commissioner may give preference during the reallocation process and in the allocation of money for subsequent fiscal years to proposals submitted by county boards that have not previously provided home and community-based services. In allocating money for each fiscal year, the commissioner shall give priority to the continued funding of home and community-based services for clients who received home and community-based services in the previous fiscal year and continue to be eligible for home and community-based services.

Subp. 6. Special projects. The commissioner may reallocate or reserve available home and community-based service money to fund special projects designed to serve very dependent persons with special needs who meet the criteria in parts 9525.1820 and 9510.1050, subpart 2, items C and D as proposed at State Register, Volume 10, Number 2, pages 57 to 65 (July 8, 1985). The reallocated or reserved money may be used to provide additional money to county boards that are unable to fund home and community-based services for very dependent persons with special needs within the statewide reimbursement rate as required in part 9525.1910, subpart 2.

Subp. 2. Distribution of money. The total amount of money allocated to a county board for home and community-based services in a fiscal year shall not exceed the statewide average daily reimbursement rate multiplied by the total number of days the home and community-based services will be provided to the clients.

Subp. 3. Rate setting. The host county shall determine the rates to be paid to providers for home and community-based services and retain documentation of the process and data used to determine the rate. The commissioner shall review rates to ensure that the criteria in subpart 4, item C are met.

Subp. 4. Cost limitations. There is no dollar limitation on the amount of home and community-based services money that may be used per client. In authorizing and billing for home and community-based services for individual clients, the county board must comply with items A to C. For county boards applying jointly, the total cost and total allocation in item A shall be the total cost and total allocation for all of the county boards represented in the proposal and the average cost in item B shall be the average cost for all clients included in the proposal.

A. The total cost of home and community-based services provided to all clients during the fiscal year must not exceed the total allocation approved for the county board, or county boards if applying jointly, for the fiscal year by the commissioner.

B. The county's average cost per day for all home and community-based services provided to all clients must not exceed the statewide average daily reimbursement rate.

C. The cost of each service must satisfy the following criteria:

(1) the cost is ordinary, necessary, and related to client care;

(2) the cost is for activities which are generally accepted in the field of mental retardation or related conditions and are scientifically proven to promote achievement of the goals and objectives contained in the client's individual service plan;

(3) the cost is what a prudent and cost conscious business person would pay for the specific good or service in the open market in an arm's length transaction; and

(4) the cost is for goods or services actually provided.

Subp. 5. Assessment for costs which exceed allocation. If the total expenditures by the state under parts 9525.1800 to 9525.1930 do not meet the federal

MINNESOTA RULES 1991

requirements under the waiver and as a result federal financial participation is denied, disallowed, or required to be returned, the commissioner shall assess a portion of the cost to each county board that incurred costs which exceeded the total allocation for that county. The portion assessed must be based on the costs that exceed or exceeded the county board's allocation.

USE OF AVERSIVE AND DEPRIVATION PROCEDURES IN LICENSED FACILITIES SERVING PERSONS WITH MENTAL RETARDATION AND RELATED CONDITIONS

9525.2700 PURPOSE AND APPLICABILITY.

Subpart 1. Purpose. Parts 9525.2700 to 9525.2810 implement Minnesota Statutes, section 245.825 by setting standards that govern the use of aversive and deprivation procedures with persons who have mental retardation or related conditions and who are served in or by a program licensed by the commissioner under Minnesota Statutes, chapter 245A and section 252.28, subdivision 2.

Parts 9525.2700 to 9525.2810 are not intended to encourage or require the use of aversive and deprivation procedures. Rather, parts 9525.2700 to 9525.2810 encourage the use of positive approaches as an alternative to aversive or deprivation procedures and require documentation that positive approaches have been tried and have been unsuccessful as a condition of implementing an aversive or deprivation procedure.

The standards and requirements set by parts 9525.2700 to 9525.2810:

A. exempt from the requirements of parts 9525.2700 to 9525.2810 any procedures that are positive in approach or are minimally intrusive;

B. prohibit the use of certain actions and procedures specified in part 9525.2730;

C. control the use of aversive and deprivation procedures permitted under parts 9525.2700 to 9525.2810 by requiring review by a facility committee, authorization by an expanded interdisciplinary team, informed consent from the person or the person's legal representative, and development of a detailed individual habilitation plan as conditions of implementation;

D. specify the procedures to be followed in obtaining informed consent;

E. establish criteria and procedures for emergency use of controlled aversive and deprivation procedures; and

F. assign a monitoring and technical assistance role to the regional review committees mandated by Minnesota Statutes, section 245.825.

Subp. 2. Applicability. Parts 9525.2700 to 9525.2810 govern the use of aversive and deprivation procedures with persons who have mental retardation and related conditions when those persons are being served in or by:

A. a facility licensed by the commissioner as a day care facility as defined in part 9525.2710, subpart 10. This category of licensure includes developmental achievement services provided to children and day training and habilitation services provided to adults with mental retardation and related conditions.

B. a facility licensed by the commissioner as a residential facility as defined in part 9525.2710, subpart 30. This category of licensure includes intermediate care facilities for persons with mental retardation and other residential programs and services for persons with mental retardation and related conditions licensed under parts 9525.0210 to 9525.0430. If there is an instance where these rule parts differ in their requirements from requirements in Code of Federal Regulations, title 42, sections 442.400 to 442.515, an intermediate care facility for persons with mental retardation and related conditions shall comply with the regulation that sets the more stringent standard.

C. a supported living arrangement for children or for adults or respite care as defined in part 9525.1860 when the service or care is provided in a service site requiring licensure by the commissioner.

Subp. 3. Exclusion. Parts 9525.2700 to 9525.2810 do not apply to:

A. any of the treatments defined in parts 9515.0200 to 9515.0800 gov-

erning the administration of specified therapies to committed patients residing at state hospitals; or

The term does apply to, and the rule parts do govern, mechanical restraint when it is used to prevent injury with persons who engage in behaviors such as head banging, gouging, or other actions resulting in tissue damage which have caused or could cause medical problems resulting from the self injury.

Subp. 24. Person with mental retardation or a related condition or person. "Person with mental retardation or a related condition" or "person" means:

A. a person who has been diagnosed under part 9525.0045 as having significantly subaverage intellectual functioning existing concurrently with demonstrated deficits in adaptive behavior and who manifests these conditions before the person's 22nd birthday;

B. a person under the age of five who demonstrates significantly subaverage intellectual functioning concurrently with severe deficits in adaptive behavior, but for whom a licensed psychologist or licensed consulting psychologist determines that a diagnosis may not be advisable because of the person's age; or

C. a person who has a related condition. A related condition is a severe chronic disability that:

(1) is attributable to cerebral palsy, epilepsy, autism, or any other condition other than mental illness that is found to be closely related to mental retardation because the condition results in impairment of general intellectual functioning or adaptive behavior similar to that of persons with mental retardation;

(2) is likely to continue indefinitely;

(3) results in substantial functional limitations in three or more of the following areas of major life activity: self care; understanding and use of language; learning; mobility; self direction; or capacity for independent living; and

(4) has been determined to be a related condition in accordance with rules adopted by the commissioner.

Subp. 25. Positive practice overcorrection. "Positive practice overcorrection" means a procedure that requires a person to demonstrate or practice a behavior at a rate or for a length of time that exceeds the typical frequency or duration of that behavior. The behaviors identified for positive practice are typically appropriate adaptive behaviors or are incompatible with a behavior identified for reduction or elimination in a person's individual habilitation plan.

Subp. 26. Positive reinforcement. "Positive reinforcement" means the presentation of an object, event, or situation following a behavior that increases the probability of the behavior recurring. Typically, the object, event, or situation presented is enjoyable, rewarding, or satisfying.

Subp. 27. Qualified mental retardation professional or QMRP. "Qualified mental retardation professional" or "QMRP" means an individual who meets the qualifications specified in Code of Federal Regulations, title 42, section 442.401, as amended through October 1, 1985.

Subp. 28. Regional center. "Regional center" has the meaning given it in Minnesota Statutes, section 253B.02, subdivision 18.

Subp. 29. Regional review committee. "Regional review committee" means a committee established by part 9525.2790 to monitor parts 9525.2700 to 9525.2810 as mandated by Minnesota Statutes, section 245.825. Review committee jurisdictions and responsibilities are defined in part 9525.2790.

Subp. 30. Residential program. "Residential program" means a residential program as defined in Minnesota Statutes, section 245A.02, subdivision 14.

Subp. 31. Restitutive overcorrection. "Restitutive overcorrection" means a procedure that requires a person to clean, repair, or correct an area or situation damaged or disrupted as a result of the person's behavior to a point where the area or situation is not only restored to but exceeds its original condition.

Subp. 32. Seclusion. "Seclusion" means the placement of a person alone in a room from which egress is:

MINNESOTA RULES 1991

9525.2710 PROGRAMS FOR MENTALLY RETARDED PERSONS 10232

A. noncontingent on the person's behavior; or

B. prohibited by a mechanism such as a lock or by a device or object positioned to hold the door closed or otherwise prevent the person from leaving the room.

Subp. 33. **Separation.** "Separation" has the same meaning given "room time out" in subpart 35.

Subp. 34. **Target behavior.** "Target behavior" means a behavior identified in a person's individual habilitation plan as the object of efforts intended to increase, reduce, or eliminate the behavior.

Subp. 35. **Time out.** "Time out" or "time out from positive reinforcement" means removing a person from the opportunity to gain positive reinforcement and is employed when a person demonstrates a behavior identified in the individual habilitation plan for reduction or elimination. Return of the person to normal activities from the time out situation is contingent upon the person's demonstrating more appropriate behavior. Time out procedures governed by parts 9525.2700 to 9525.2810 are:

A. exclusionary time out, which means removing a person from an ongoing activity to a location where the person cannot observe the ongoing activity; and

B. room time out or separation, which means removing a person from an ongoing activity to an unlocked room. The person may be prevented from leaving a time out room by staff members but not by mechanical restraint or by the use of devices or objects positioned to hold the door closed. Time out periods are usually brief, lasting only several minutes.

9525.2720 EXEMPTED ACTIONS AND PROCEDURES.

Use of the instructional techniques and intervention procedures listed in items A to G is not subject to the restrictions established by parts 9525.2700 to 9525.2810. Use of these techniques and interventions must be addressed in each person's individual habilitation plan as required by part 9525.0105.

A. The use of corrective feedback or prompts to assist a person in performing a task or exhibiting a response.

B. The use of physical assistance to facilitate a person's completion of a response in a situation where the person offers no physical resistance to the assistance.

C. The use of physical contact to redirect a person's behavior when the behavior:

(1) is infrequent, occurring no more than three times in a 30-day period;

(2) does not pose a serious threat to the person or others; and

(3) is effectively redirected with less than 60 seconds of physical contact by staff.

This exemption may not be used to circumvent the requirements for controlling use of manual restraint. It is included to allow caregivers to deal effectively and naturally with intermittent and infrequently occurring situations.

D. The use of positive reinforcement procedures alone or in combination with the procedures described in items A and B to develop new behaviors or increase the frequency of existing behaviors.

E. Temporary interruptions in instruction or ongoing activity in which a person is removed from an activity to a location where the person can observe the ongoing activity and see others receiving positive reinforcement for appropriate behavior. Return of the person to normal activities is contingent upon the per-

MINNESOTA RULES 1991

son's demonstrating more appropriate behavior. This procedure is often referred to as contingent observation.

F. Temporary withdrawal or withholding of goods, services, or activities to which a person would otherwise have access as a natural consequence of the person's inappropriate use of the good, service, or activity. Examples of situations in which the exemption would apply are briefly delaying the return of a person's beverage at mealtime after the person has thrown the beverage across the kitchen or temporarily removing an object the person is using to hit another individual. Temporary withdrawal or withholding is meant to be a brief time period lasting no more than several minutes until the person's behavior is redirected and normal activities can be resumed.

G. Use of token fines or response cost procedures such as removing objects or other rewards received by a person as part of a positive reinforcement program. Token fines or response cost procedures are typically implemented after the occurrence of a behavior identified in the individual habilitation plan for reduction or elimination. Removing the object or other reward shall not interfere with a person's access to the goods, services, and activities protected by part 9525.2730.

9525.2730 PROCEDURES AND ACTIONS RESTRICTED OR PROHIBITED.

Subpart 1. Restrictions required by Minnesota Statutes. An aversive or deprivation procedure shall not:

A. be implemented with a child in a manner that constitutes sexual abuse, neglect, or physical abuse as defined in Minnesota Statutes, section 626.556 governing the reporting of maltreatment of minors;

B. be implemented with an adult in a manner that constitutes abuse or neglect as defined in Minnesota Statutes, section 626.557 governing the reporting of maltreatment of vulnerable adults;

C. restrict a person's normal access to a nutritious diet, drinking water, adequate ventilation, necessary medical care, ordinary hygiene facilities, normal sleeping conditions, or necessary clothing as mandated by Minnesota Statutes, section 245.825, or to any protection required by state licensing standards and federal regulations governing the facility; or

D. deny the person ordinary access to legal counsel and next of kin as mandated by Minnesota Statutes, section 245.825.

Subp. 2. Procedures and actions prohibited. The actions or procedures listed in items A to H are prohibited.

A. Using corporal punishment such as hitting, pinching, or slapping.

B. Speaking to a person in a manner that ridicules, demeans, threatens, or is abusive.

C. Requiring a person to assume and maintain a specified physical position or posture as an aversive procedure. Examples include requiring persons to stand with their hands over their heads for long periods of time or to remain in a fixed position.

D. Placing a person in seclusion.

E. Totally or partially restricting a person's senses, except as expressly permitted in part 9525.2740, subpart 1.

F. Presentation of intense sounds, lights, or other sensory stimuli as an aversive stimulus.

G. Use of a noxious smell, taste, substance, or spray, including water mist, as an aversive stimulus.

MINNESOTA RULES 1991

9525.2730 PROGRAMS FOR MENTALLY RETARDED PERSONS 10234

H. Denying or restricting a person's access to equipment and devices such as hearing aids and communication boards that facilitate the person's functioning. If temporary removal of the equipment or device is necessary to prevent injury to the person or others, the equipment or device shall be returned to the person as soon as possible.

Subp. 3. Restrictions on use of faradic shock. Emergency use of faradic shock as an aversive stimulus is prohibited. Use of faradic shock as an aversive stimulus is permitted only when all the conditions in items A to D are met:

A. the target behavior is extreme self injury which threatens irreparable bodily harm;

B. it can be documented that other methods of treatment have been tried and were unsuccessful in controlling the behavior;

C. a state or federal court orders the use of faradic shock; and

D. use of faradic shock ordered by a court is implemented in accordance with parts 9525.2750 and 9525.2760.

9525.2740 PROCEDURES PERMITTED AND CONTROLLED.

Subpart 1. Controlled procedures. The procedures listed in items A to F are permitted when the procedures are implemented in compliance with parts 9525.2700 to 9525.2810. Permitted but controlled procedures, referred to as controlled procedures, are:

A. time out procedures;

B. positive practice overcorrection;

C. restitutional overcorrection;

D. partially restricting a person's senses at a level of intrusiveness that does not exceed placing a hand in front of a person's eyes as a visual screen or playing music through earphones worn by the person at a level of sound which does not cause the person discomfort;

E. manual restraint; or

F. mechanical restraint.

Subp. 2. Authorization for procedures not specified as exempted, restricted, prohibited, or controlled. If an expanded interdisciplinary team prepares a plan proposing the use of an aversive or deprivation procedure that is not specifically exempted by part 9525.2720, or specifically prohibited or restricted by part 9525.2730, or specifically permitted and controlled by subpart 1, the case manager shall request authorization for the use of that procedure from the regional review committee. If a procedure is authorized by a regional review committee, use of the procedure is subject to the controls established in parts 9525.2700 to 9525.2810.

9525.2750 STANDARDS GOVERNING USE OF CONTROLLED PROCEDURES IN AN INDIVIDUAL HABILITATION PLAN.

Subpart 1. Standards and conditions. Except in an emergency governed by part 9525.2770, use of a controlled procedure shall occur only when the controlled procedure is proposed, approved, and implemented as part of an individual habilitation plan. Use of a controlled procedure within an individual habilitation plan must comply with items A to L.

A. The controlled procedure is proposed or implemented only as a part of the total methodology specified in the person's individual habilitation plan.

MINNESOTA RULES 1991

10235 PROGRAMS FOR MENTALLY RETARDED PERSONS 9525.2750

The individual habilitation plan has as its primary focus the development of adaptive behaviors. The controlled procedure authorized represents the lowest level of intrusiveness required to influence the target behavior and is not excessively intrusive in relation to the behavior being addressed.

B. The proposed use of a controlled procedure is supported by documentation describing how intervention procedures incorporating positive approaches and less intrusive procedures have been tried, how long they were tried in each instance, and possible reasons why they were unsuccessful in controlling the behavior of concern.

C. The case manager obtains informed consent for the implementation of the procedure as specified in part 9525.2780 before the procedure is implemented except when faradic shock is ordered by a court under part 9525.2730, subpart 3.

D. The proposed use of the procedure is approved by a facility review committee that meets the requirements in subpart 2.

E. The proposed use of the procedure is authorized by the expanded interdisciplinary team required by subpart 3.

F. The procedure is implemented and monitored by staff members trained to implement the procedure. Facilities where staff members are employed are responsible for providing ongoing training to ensure that the competence necessary to implement the procedures is present within the staff currently employed and must demonstrate to members of the interdisciplinary team that staff are competent to implement the procedures. Controlled procedures shall not be implemented as part of the individual habilitation plan until staff who are involved in providing supervision or training of the person have been trained to implement all programs contained in the individual habilitation plan.

G. When a controlled procedure involves the use of mechanical or manual restraint, the person's primary care physician must be consulted to determine whether implementing the procedure is medically contraindicated.

H. When a controlled procedure involves removing a person from an ongoing activity, the person is returned to the activity when the procedure is completed.

I. Time out procedures are implemented in the person's own room or other area commonly used as living space whenever possible rather than in a room used specifically for time out. Persons in time out must be continuously monitored by staff. If a room is used specifically for time out, the room must:

- (1) provide a safe environment for the person;
- (2) have an observation window or other device to permit continuous monitoring of the person;
- (3) measure at least six feet by six feet and be large enough to allow the person to stand, to stretch his or her arms, and to lie down; and
- (4) be well lighted, well ventilated, and clean.

J. Time out procedures must meet the following standards:

(1) Release from time out is contingent on the person's stopping or bringing under control the behavior that precipitated the time out and shall occur as soon as the behavior that precipitated the time out abates or stops. If the precipitating behavior has not abated or stopped, staff members must attempt to return the person to an ongoing activity at least every 30 minutes.

(2) If time out is implemented contingent on repeated instances of the target behavior for longer than 30 minutes, the person must be offered access to a bathroom and drinking water.

K. Use of mechanical restraint which is so intrusive that it restricts three or more of a person's limbs or restricts the person's movement from one location to another must meet the standards in subitems (1) and (2) in addition to the other standards in parts 9525.2700 to 9525.2810.

MINNESOTA RULES 1991

9525.2750 PROGRAMS FOR MENTALLY RETARDED PERSONS 10236

(1) A person placed in mechanical restraint must be given an opportunity for motion and exercise for not less than ten minutes during each one hour of restraint. Efforts to lessen or discontinue the restraint must be made at least every 15 minutes. The time each effort was made and the person's response to the effort must be noted in the person's permanent record.

(2) A staff member must remain with a person placed in mechanical restraint during the time the person is in mechanical restraint and must take the action specified in subitem (1).

L. Use of manual restraint which is less intrusive than that described in item K must meet the requirements in subitems (1) and (2) in addition to the other standards in parts 9525.2700 to 9525.2810:

(1) staff must check on the person every 30 minutes and document that such checks were made; and

(2) a person must be given an opportunity for release from the mechanical restraint and for motion and exercise of the restricted body parts for at least ten minutes out of every 60 minutes that the restraints are used.

Subp. 2. Facility review committee. Each facility except for a licensed foster care facility shall have at least one committee that reviews all individual habilitation plans proposing the use of controlled procedures. The committee shall be appointed by the administrator with overall responsibility for the facility's policy and program. The committee shall determine if each plan as submitted meets the requirements of parts 9525.2700 to 9525.2810 and all other applicable requirements governing behavior management established by federal regulations or by order of a court before approving the plan. The committee membership must meet the criteria in items A and B.

A. The committee must include two individuals employed by the facility as staff members or consultants. One of the two individuals must be a qualified mental retardation professional.

B. At least one-third of the committee members shall be individuals who have no ownership or controlling interest in the facility and who are not employed by or under contract with the facility in any other capacity besides serving on the committee. This component of the committee membership must include at least one parent or guardian of a person with mental retardation or a related condition.

Subp. 3. Review and authorization by the interdisciplinary team. When an individual habilitation plan proposes the use of a controlled procedure, the plan must be reviewed by and use of the procedure must be authorized by an interdisciplinary team expanded beyond the membership specified in part 9525.2710, subpart 18, to include a qualified mental retardation professional with at least one year of experience in the development and implementation of behavior management programs.

Subp. 4. Report to regional review committee. When a controlled procedure in items A to D is authorized or reauthorized under subpart 3, the case manager shall send the regional review committee a copy of the individual habilitation plan that proposes the procedure and that includes the information required in part 9525.2760:

A. manual restraint;

B. mechanical restraint;

C. use of a time out procedure for 15 minutes or more at one time or for a cumulative total of 30 minutes or more in one day; or

D. faradic shock.

The case manager shall send the individual habilitation plan within ten calendar days after the controlled procedure is authorized by the interdisciplinary team. When use of a controlled procedure has been reauthorized, the case man-

9525.2760 REQUIREMENTS GOVERNING INDIVIDUAL HABILITATION PLANS THAT PROPOSE THE USE OF A CONTROLLED PROCEDURE.

Subpart 1. Requirements. An individual habilitation plan that includes the use of a controlled procedure must contain the information specified in subparts 2 to 6.

Subp. 2. Assessment information. When an interdisciplinary team is developing an individual habilitation plan that includes the use of a controlled procedure, the case manager must obtain assessment information that includes the elements specified in items A to F.

A. A physical and psychological description of the person.

B. A report completed by the person's primary care physician within 90 days prior to the initial development of the individual habilitation plan that includes the use of a controlled procedure. The report must indicate that the physician has reviewed whether there are existing medical conditions that (1) could result in the demonstration of behavior for which a controlled procedure might be proposed; or (2) should be considered in the development of a program for the person.

C. A baseline measurement of the behavior of concern that provides a clear description of the behavior and the degree to which it is being expressed. The description must be detailed enough to provide a basis for comparing the behavior before use of a procedure to control it with the behavior after use of a procedure to control it so that the effectiveness of the procedure can be evaluated.

D. A summary of what has been considered or attempted to change elements in the person's environment, including the physical and social environment, that could be influencing the person's behavior. This summary must include an analysis of the person's current residence and day program and must specifically address the question of whether a change in these services appears to be warranted.

E. An analysis of to what extent the behavior identified for reduction or elimination represents an attempt by the person to communicate with others or serves as a means to control the person's environment and recommendations for changes in the person's training program or environment that are designed to enhance communication.

F. A summary of previous interventions used to modify the target behavior and of the factors believed to have interfered with the effectiveness of those interventions.

The information in items A to F must be retained in the person's permanent record for at least five years after implementation of a controlled procedure.

Subp. 3. Review of service plan. The case manager shall ensure that any service needs identified by the assessment information in subpart 2 are included in the individual service plan required by part 9525.0085.

Subp. 4. Review and content standards. An individual habilitation plan that proposes the use of controlled procedures shall include the elements in items A to I.

A. Objectives designed to develop the adaptive behavior of the person for whom the plan is made. These objectives must include positive programs designed to increase aspects of the person's behavior that are incompatible with or that provide an alternative to the behavior identified for reduction or elimination.

MINNESOTA RULES 1991

9525.2760 PROGRAMS FOR MENTALLY RETARDED PERSONS 10238

B. The objective to be accomplished by implementing the procedure, including the change expected in the target behavior and the anticipated time frame for achieving the change.

C. A detailed description of the procedure, including where and under what circumstances the procedure will be used.

D. A detailed description of the ways in which implementation of the procedure will be monitored, by whom, and how frequently. This description must specify how staff implementing the procedure will be trained and supervised. Direct on-site supervision of the procedure's implementation must be provided by the professional staff responsible for developing the procedure.

E. A description of any discomforts, risks, or side effects that it is reasonable to expect.

F. A description of the method to be used and data to be collected in evaluating the effectiveness of the proposed procedures and in monitoring any expected side effects.

G. A description of the plan for maintaining and generalizing the positive changes in the person's behavior that may occur as a result of implementing the procedure.

H. The date when use of the controlled procedure will terminate unless, before that date, continued use of the procedure is authorized by the case manager and the member of the interdisciplinary team who is a qualified mental retardation professional with at least one year of experience in the development and implementation of behavior management programs. The projected termination date shall be no more than 90 days after the date on which use of the procedure was authorized. Reauthorization for use of the procedure can be given at 90-day intervals if evaluation data on the effectiveness of the procedure support continuation. Informed consent must be obtained every 90 days under part 9525.2780.

I. Any other information needed to comply with the requirements for an individual habilitation plan as specified in part 9525.0105.

Subp. 5. Monitoring the individual habilitation plan. Monitoring the proposed controlled procedure shall be completed as adopted in the individual habilitation plan and in accordance with part 9525.0115.

Subp. 6. Documentation of informed consent. Except in situations governed by part 9525.2770, by part 9525.2730, subpart 3, or by part 9525.2780, subpart 6, evidence that informed consent has been obtained from a person or individual authorized to give consent must be added to the person's individual habilitation plan before a controlled procedure is implemented.

9525.2770 EMERGENCY USE OF CONTROLLED PROCEDURES.

Subpart 1. Standards governing emergency use. Implementing a controlled procedure without first meeting the requirements of parts 9525.2750, 9525.2760, and 9525.2780 is permitted only when the criteria and requirements in subparts 2 to 5 are met.

Subp. 2. Criteria for emergency use. Emergency use must meet the conditions in items A to D.

A. Immediate intervention is needed to protect the person or others from physical injury or to prevent severe property damage which is an immediate threat to the physical safety of the person or others.

B. The individual habilitation plan of the person demonstrating the behavior does not include provisions for the use of the controlled procedure.

C. The procedure used is the least intrusive intervention possible to react effectively to the emergency situation.

MINNESOTA RULES 1991

10239 PROGRAMS FOR MENTALLY RETARDED PERSONS 9525.2770

D. The onset of the behavior resulting in the need for intervention has not been demonstrated by the person within the previous 90 days or the behavior has been dealt with as an exemption under part 9525.2720 up to the point when emergency use became necessary.

Subp. 3. Time limits on emergency use. Use of a controlled procedure initiated on an emergency basis in accordance with subpart 2 shall not continue for more than 15 days. Within 15 days of the emergency use, the interdisciplinary team must evaluate whether the individual habilitation plan requires modification to better meet the person's needs.

Subp. 4. Authorization of emergency use. The emergency use of a controlled procedure must be authorized by the individual identified in the facility's policy on emergency use in subpart 4. Emergency use of faradic shock is prohibited by part 9525.2730, subpart 3, and shall not be authorized by a facility.

Subp. 5. Written policy on emergency use. The facility must have a written policy on emergency use of controlled procedures that specifies:

A. any controlled procedures the facility does not allow to be used on an emergency basis;

B. the staff member or staff members who must authorize emergency use;

C. that the staff members responsible for authorizing emergency procedures must have at least one year of training and experience in the use of behavioral management, must be trained in the implementation of all controlled procedures allowed by the facility policy, and must be available on a 24 hour basis to give authorization;

D. the internal procedures that must be followed for emergency use;

E. how the facility will monitor and control emergency use;

F. the training a staff member must have completed before being assigned by the facility to implement a controlled procedure under emergency conditions; and

G. that the standards in part 9525.2750, subpart 1, items F, H, I, J, K, and L must be met when controlled procedures are used on an emergency basis.

Subp. 6. Reporting and review of emergency use. Any emergency use of a controlled procedure must be reported and reviewed as specified in items A to D.

A. Within three calendar days after an emergency use of a controlled procedure, the facility staff member in charge at the time of the emergency use shall report in writing to the person's interdisciplinary team the following information about the emergency use:

(1) a detailed description of the incident leading to the use of the procedure as an emergency intervention;

(2) the controlled procedure that was used;

(3) the time implementation began and the time it was completed;

(4) the behavioral outcome that resulted;

(5) why the procedure used was judged to be necessary to prevent injury or severe property damage;

(6) an assessment of the likelihood that the behavior necessitating emergency use will recur; and

(7) the names of the persons who authorized the procedure and approved the report.

B. Within seven calendar days after the date of the emergency use reported in item A, the case manager shall confer with members of the interdisciplinary team to:

(1) discuss the incident reported in item A and the person's subsequent behavior;

MINNESOTA RULES 1991

9525.2770 PROGRAMS FOR MENTALLY RETARDED PERSONS 10240

(2) determine whether the behavior necessitating emergency use of a controlled procedure should be identified in the individual habilitation plan for reduction or elimination; and

(3) schedule an expanded interdisciplinary team meeting within 15 calendar days after the emergency use if it is determined that the behavior should be identified in the individual habilitation plan for reduction or elimination.

C. A copy of the report in item A and a summary of the interdisciplinary team's decision under item B must be added to the person's permanent record.

D. If the emergency use involved manual restraint, mechanical restraint, or use of time out exceeding 15 minutes at one time or a cumulative total of 30 minutes or more in one day, the case manager shall send a copy of the report in item A to the regional review committee within five calendar days after the case manager receives it.

9525.2780 REQUIREMENTS FOR OBTAINING INFORMED CONSENT.

Subpart 1. **Definition.** For purposes of this part, "a substantial change" in the use of a controlled procedure for which informed consent is in effect means a change in the use of that procedure which:

A. intensifies the level of intrusiveness of the procedure; or

B. expands the behaviors with which the procedure is to be used beyond the behavior or behaviors specified when consent was originally given.

Subp. 2. **When informed consent is required.** Except in situations governed by subpart 6, by part 9525.2770, or by part 9525.2730, subpart 3, the case manager shall obtain or reobtain written informed consent before implementation of:

A. a controlled procedure for which consent has never been given;

B. a controlled procedure for which informed consent has expired. Informed consent must be obtained every 90 days in order to continue use of the controlled procedure; or

C. a substantial change in a controlled procedure for which consent is presently in effect.

If the case manager is unable to obtain written informed consent, the procedure shall not be implemented except as provided in subpart 6.

Subp. 3. **Authority to give consent.** Individuals authorized to give informed consent are specified in items A to E.

A. If the person has a legal guardian or conservator authorized by a court to give consent for the person, consent is required from the legal guardian or conservator.

B. If the person is a child, consent is required from at least one of the child's parents, unless the child has a legal guardian or conservator as specified in item A. If the parents are divorced or legally separated, the consent of the parent with legal custody is required, unless the separation or marriage dissolution decree otherwise delegates authority to give consent for the child.

C. If the commissioner is the legal guardian or conservator, consent is required from the county representative designated to act as guardian on the commissioner's behalf. Failure to consent or refuse consent within 30 days of the date on which the procedure requiring consent was authorized by the expanded interdisciplinary team shall be considered a refusal to consent. The county representative designated to act as guardian must not be the same individual who is serving as case manager.

D. If the person is an adult who is capable of understanding the information required in subpart 4 and of giving informed consent, informed consent is required from the person.

MINNESOTA RULES 1991

10241 PROGRAMS FOR MENTALLY RETARDED PERSONS 9525.2780

E. If the person is an adult who has no legal guardian or conservator and who is not capable of giving informed consent, the case manager shall petition a court of competent jurisdiction to appoint a legal representative with authority to give consent, and consent is required from the legal representative.

Subp. 4. Information required as a condition of obtaining informed consent. The case manager shall provide the information specified in items A to J to the individual authorized to give informed consent. Consent obtained without provision of the information required in items A to J is not considered to be informed consent. The case manager shall document that the information in items A to J was provided orally and in writing and that consent was given voluntarily. The information shall be provided in a nontechnical manner and in whatever form is necessary to communicate the information effectively, such as in the person's or the authorized individual's native language if the person or the authorized individual does not understand English or in sign language if that is the person's or the authorized individual's preferred mode of communication, and in a manner that does not suggest coercion.
