9530.6422 COMPREHENSIVE ASSESSMENT.

Subpart 1. Comprehensive assessment of substance use disorder. A comprehensive assessment of the client's substance use disorder must be coordinated by an alcohol and drug counselor and completed within three calendar days after service initiation for a residential program or three sessions of the client's initiation to services for all other programs. The alcohol and drug counselor may rely on current information provided by a referring agency or other sources as a supplement when information is available. The assessment must include sufficient information to complete the assessment summary according to subpart 2 and part 9530.6425. The comprehensive assessment must include information about the client's problems that relate to chemical use and personal strengths that support recovery, including:

- A. age, sex, cultural background, sexual orientation, living situation, economic status, and level of education;
- B. circumstances of service initiation;
- C. previous attempts at treatment for chemical use or dependency, compulsive gambling, or mental illness;
- D. chemical use history including amounts and types of chemicals used, frequency and duration of use, periods of abstinence, and circumstances of relapse, if any. For each chemical used within the previous 30 days, the information must include the date and time of the most recent use and any previous experience with withdrawal;

E. specific problem behaviors exhibited by the client when under the influence of chemicals;

F. current family status, family history, including history or presence of physical or sexual abuse, level of family support, and chemical use, abuse, or dependency among family members and significant others;

G. physical concerns or diagnoses, the severity of the concerns, and whether or not the concerns are being addressed by a health care professional;

H. mental health history and current psychiatric status, including symptoms, disability, current treatment supports, and psychotropic medication needed to maintain stability;

I. arrests and legal interventions related to chemical use;

J. ability to function appropriately in a work and educational setting;

K. ability to understand written treatment materials, including rules and client rights;

L. risk-taking behavior, including behavior that puts the client at risk of exposure to blood borne or sexually transmitted diseases;

M. social network in relation to expected support for recovery and leisure time activities that have been associated with chemical use;

N. whether the client is pregnant and if so, the health of the unborn child and current involvement in prenatal care; and

O. whether the client recognizes problems related to substance use and is willing to follow treatment recommendations.

Subp. 2. **Assessment summary.** An alcohol and drug counselor must prepare an assessment summary within three calendar days for a residential program or within three treatment sessions of service initiation. The narrative summary of the comprehensive assessment results must meet the requirements of items A and B:

A. An assessment summary must be prepared by an alcohol and drug counselor and include:

(1) a risk description according to part 9530.6622 for each dimension listed in item B;

(2) narrative supporting the risk descriptions; and

(3) a determination of whether the client meets the DSM criteria for a person with a substance use disorder.

B. Contain information relevant to treatment planning and recorded in the dimensions in subitems (1) to (6):

(1) Dimension 1, acute intoxication/withdrawal potential. The license holder must consider the client's ability to cope with withdrawal symptoms and current state of intoxication.

(2) Dimension 2, biomedical conditions and complications. The license holder must consider the degree to which any physical disorder would interfere with treatment for substance abuse, and the client's ability to tolerate any related discomfort. The license holder must determine the impact of continued chemical use on the unborn child if the client is pregnant.

(3) Dimension 3, emotional, behavioral, and cognitive conditions and complications. The license holder must determine the degree to which any condition or complications are likely to interfere with treatment for substance abuse or with functioning in significant life areas and the likelihood of risk of harm to self or others.

(4) Dimension 4, readiness for change. The license holder must also consider the amount of support and encouragement necessary to keep the client involved in treatment.

9530.6422 CHEMICAL DEPENDENCY PROGRAMS

(5) Dimension 5, relapse, continued use, and continued problem potential. The license holder must consider the degree to which the client recognizes relapse issues and has the skills to prevent relapse of either substance use or mental health problems.

(6) Dimension 6, recovery environment. The license holder must consider the degree to which key areas of the client's life are supportive of or antagonistic to treatment participation and recovery.

9530.6425 INDIVIDUAL TREATMENT PLANS.

Subpart 1. **General.** Individual treatment plans for clients in treatment must be completed within seven calendar days of completion of the assessment summary. Treatment plans must continually be updated, based on new information gathered about the client's condition and on whether planned treatment interventions have had the intended effect. Treatment planning must include ongoing assessment in each of the six dimensions according to part 9530.6422, subpart 2. The plan must provide for the involvement of the client's family and those people selected by the client as being important to the success of the treatment experience at the earliest opportunity, consistent with the client's treatment needs and written consent. The plan must be developed after completion of the comprehensive assessment and is subject to amendment until services to the client are terminated. The client must have an opportunity to have active, direct involvement in selecting the anticipated outcomes of the treatment process and in developing the individual treatment plan. The individual treatment plan must be signed by the client and the alcohol and drug counselor. The individual treatment plan may be a continuation of the initial services plan required in part 9530.6420.

Subp. 2. **Plan contents.** An individual treatment plan must be recorded in the six dimensions listed in part 9530.6422, subpart 2, item B, and address each problem identified in the assessment summary, and include:

- A. specific methods to be used to address identified problems, including amount, frequency, and anticipated duration of treatment service. The methods must be appropriate to the client's language, reading skills, cultural background, and strengths;
- B. resources to which the client is being referred for problems when problems are to be addressed concurrently by another provider; and
- C. goals the client must reach to complete treatment and have services terminated.

Subp. 3. **Progress notes and plan review.**

The assessment must be done in a language the client understands. The requirements in items A to C apply to the placing authority.

A. The county shall provide a chemical use assessment as provided in part 9530.6615 for all clients who do not have an assessment available to them from a tribal governing board or prepaid health plan. If the county of financial responsibility does not arrange for or provide the service, the county where the client requested the service must provide the service, and then follow the procedures in Minnesota Statutes, section 256G.09, to resolve any dispute between counties.

B. A tribal governing board that contracts with the department to provide chemical use assessments and that authorizes payment for chemical dependency treatment under Minnesota Statutes, chapter 254B, must provide a chemical use assessment for a person residing on a reservation who seeks assessment or treatment or for whom treatment is sought, as provided in part 9530.6615, if the person is:

B. provide documentation of the qualifications of assessors according to the standards established under part 9530.6615, subpart 2.

Subp. 3. **County designee.** The county may designate public, nonprofit, or proprietary agencies or individuals to provide assessments according to part 9530.6615 by a qualified assessor. An assessor designated by the county shall have no direct shared financial interest or referral relationship resulting in shared financial gain with a treatment provider, unless the county documents that either of the exceptions in item A or B exists:

A. the treatment provider is a culturally specific service provider or a service provider with a program designed to treat persons of a specific age, sex, or sexual orientation and is available in the county and the service provider employs a qualified assessor;

B. the county does not employ a sufficient number of qualified assessors and the only qualified assessors available in the county have a direct shared financial interest or a referral relationship resulting in shared financial gain with a treatment provider; or

C. the county social service agency has an existing relationship with an assessor or service provider and elects to enter into a contract with that assessor to provide both assessment and treatment under the circumstances specified in the county contract and the county retains responsibility for making placement decisions.

Documentation of the exceptions in items A and B must be maintained at the county's office and be current within the last two years. The placing authority's assessment designee shall provide assessments and required documentation to the placing authority according to parts 9530.6600 to 9530.6660.

time limits specified. The placing authority shall provide interpreters for the hearing impaired and foreign language interpretive services when necessary.

A. The placing authority must provide an assessment interview for the client within 20 calendar days from the date an appointment was requested for the client. The placing authority must interview clients who miss an appointment within 20 days of a subsequent request for an appointment.

B. Within ten calendar days after the initial assessment interview, the placing authority must complete the assessment, make determinations, and authorize services.

C. If the client is in jail or prison, the placing authority according to part 9530.6610, subpart 1, must complete the assessment and placement authorization. If the placing authority does not assess the client, the county where the client is held must assess the client and resolve disputes according to Minnesota Statutes, section 256G.09. The update in item D is not required if the client has been in jail or prison continuously from the time of the assessment interview until the initiation of service.

D. If 45 calendar days have elapsed between the interview and initiation of services, the placing authority must update the assessment to determine whether the risk description has changed and whether the change in risk description results in a change in planned services. An update does not require a face-to-face contact and may be based on information from the client, collateral source, or treatment provider.

E. The placing authority must provide a new assessment if six months have passed since the most recent assessment or assessment update.

F. A placing authority may accept an assessment completed according to parts 9530.6600 to 9530.6655 from any other placing authority or designee in order to meet the requirements of this part.

Subp. 2. Staff performing assessment. Chemical use assessments must be conducted by qualified staff. An individual is qualified to perform chemical use assessments if the individual meets the criteria in item A, B, or C:

A. The individual meets the exception in Minnesota Statutes, section 148C.11, and has successfully completed 30 hours of classroom instruction on chemical use assessments and has 2,000 hours of work experience in chemical use assessments, either as an intern or as an employee.

An individual qualified under this item must also annually complete a minimum of eight hours of in-service training or continuing education related to providing chemical use assessments.

B. The individual is:

(1) licensed under Minnesota Statutes, chapter 148C, and not excluded under Minnesota Statutes, section 148C.11;

(2) certified by the Upper Midwest Indian Council on Addictive Disorders;
or

C. The individual meets the exception in Minnesota Statutes, section 148C.11, has completed 30 hours of classroom instruction on chemical use assessment, and is receiving clinical supervision from an individual who meets the requirements in item A or B.

Subp. 3. Method of assessment. The assessor must gather the information necessary to determine the application of the criteria in parts 9530.6600 to 9530.6655 and record the information in a format prescribed by the commissioner. The assessor must complete an assessment summary as prescribed by the commissioner for each client assessed for treatment services. The assessment summary and information gathered shall be maintained

in the client's case record and submitted to the department using procedures specified by the commissioner. At a minimum, the assessment must include:

- A. a personal face-to-face interview with the client;
- B. a review of relevant records or reports regarding the client consistent with subpart 6; and
- C. contacts with two sources of collateral information that have relevant information and are reliable in the judgment of the assessor or documentation that the sources were not available. The following requirements apply to the gathering of collateral information:
 - (1) before the assessor determines that a collateral source is not available, the assessor must make at least two attempts to contact that source, one of which must be by mail;
 - (2) one source must be the individual or agency that referred the client;
 - (3) the assessor must get signed information releases from the client that allow the assessor to contact the collateral sources;
 - (4) if the client refuses to sign the information releases, and the refusal results in the assessor not having enough information to complete the determinations required by part 9530.6620, the assessor shall not authorize services for the client; and
 - (5) if the assessor has gathered sufficient information from the referral source and the client to apply the criteria in parts 9530.6620 and 9530.6622, it is not necessary to complete the second collateral contact.

Subp. 4. **Required documentation of assessment.** The client's record shall contain the following:

- A. applicable placement information gathered in compliance with part 9530.6620, subpart 1;

- C. information gathered about the client from collateral contacts, or documentation of why collateral contacts were not made;
- D. a copy of the forms completed by the assessor under subpart 3; and
- E. a record of referrals, if other than a placement under part 9530.6622.

Subp. 5. **Information provided.** The information gathered and assessment summary must be provided to the authorized treatment program.

Subp. 6. **Confidentiality requirements.** Placing authorities must meet the following confidentiality requirements:

- A. confidentiality of records as required under Minnesota Statutes, chapter 13, and section 254A.09;

9530.6620 PLACEMENT INFORMATION.

Subpart 1. **Placing authority determination of appropriate services.** Using the dimensions in part 9530.6622, the placing authority must determine appropriate services for clients. The placing authority must gather information about the client's age, sex, race, ethnicity, culture, religious preference, sexual orientation, disability, current pregnancy status,

and home address. The placing authority must consider the risk descriptions in items A to F.

A. Using the risk description in part 9530.6622, subpart 1, referred to as Dimension 1, the placing authority must determine the client's acute intoxication/withdrawal potential. The placing authority must consider information about the client's amount and frequency of use, duration of use, date and time of last use, ability to cope with withdrawal symptoms, previous experience with withdrawal, and current state of intoxication, and determine whether the client meets the DSM criteria for a person with substance use disorder.

B. Using the risk description in part 9530.6622, subpart 2, referred to as Dimension 2, the placing authority must determine the client's biomedical conditions and complications. The placing authority must consider the presence of physical disorders, severity of the disorder and degree to which the disorder would interfere with treatment and whether physical disorders are addressed by a health care professional, and the client's ability to tolerate the related discomfort.

C. Using the risk description in part 9530.6622, subpart 3, referred to as Dimension 3, the placing authority must determine the client's emotional, behavioral, or cognitive condition. The placing authority must consider the severity of client's problems and degree to which they are likely to interfere with treatment or with functioning in significant life areas and the likelihood of risk of harm to self or others.

D. Using the risk description in part 9530.6622, subpart 4, referred to as Dimension 4, the placing authority must determine the client's readiness for change. The placing authority must consider the degree to which the client is aware of the client's addictive or mental health issues or the need to make changes in substance use and the degree to which the client is cooperative and compliant with treatment recommendations. The placing authority must also consider the amount of support and encouragement necessary to keep the client involved in treatment.

E. Using the risk description in part 9530.6622, subpart 5, referred to as Dimension 5, the placing authority must determine the client's relapse, continued use, and continued problem potential. The placing authority must consider the degree to which the client recognizes relapse issues and has the skills to prevent relapse of either substance use or mental health problems.

F. Using the risk description in part 9530.6622, subpart 6, referred to as Dimension 6, the placing authority must determine the client's recovery environment. The placing authority must consider the degree to which key areas of the client's life are supportive of or antagonistic to treatment participation and recovery. Key areas include the client's work, school and home environment, significant others, friends, involvement in criminal activity, and whether there is a serious threat to the client's safety.

Subp. 2. **Immediate needs.** At the earliest opportunity during an assessment interview, the assessor shall determine if any of the conditions in items A to C exist. The client:

- A. is in severe withdrawal and likely to be a danger to self or others;
- B. has severe medical problems that require immediate attention; or

C. has severe emotional or behavioral symptoms that place the client or others at risk of harm.

If one of the conditions in item A, B, or C is present, the assessor will end the assessment interview and help the client obtain appropriate services. The assessment interview may resume when the conditions in item A, B, or C are resolved.

Subp. 3. **DSM criteria.** The placing authority must determine whether the client meets the criteria for substance use disorder in the current DSM publication during the most recent 12-month period, exclusive of periods of involuntary abstinence.

Subp. 4. **Risk description and treatment planning decision.** The placing authority must determine appropriate services for clients according to the dimensions in part

9530.6622, subparts 1 to 6. In each dimension the risk description corresponds to a similarly numbered treatment planning decision. The placing authority must arrange services according to the treatment planning decision which corresponds to the client's risk description.

Subp. 5. **Treatment service authorization.** The placing authority must authorize treatment services for clients who meet the criteria for substance use disorder according to the current DSM publication, and have a risk description of 2, 3, or 4 under part 9530.6622, subpart 4, 5, or 6.

Subp. 6. **Other services.** The placing authority must authorize appropriate services in part 9530.6622, subpart 1, 2, or 3, only in conjunction with treatment services in part 9530.6622, subpart 4, 5, or 6.

Subp. 7. **Highest risk.** The placing authority must coordinate, provide, or ensure services that first address the client's highest risk and then must authorize additional treatment services to the degree that other dimensions can be addressed simultaneously with services that address the client's highest risk.

Subp. 8. **Service coordination.** The placing authority must either provide or authorize coordination services for clients who have a risk description of 3 or 4 under part 9530.6622, subpart 4, 5, or 6, or a risk description of 3 in part 9530.6622, subpart 3. The coordination must be sufficient to help the client access each needed service. The placing authority must not duplicate service coordination activity that is already in place for the client.

Subp. 9. **Client choice.** The placing authority must authorize chemical dependency treatment services that are appropriate to the client's age, gender, culture, religious preference, race, ethnicity, sexual orientation, or disability according to the client's preference. The placing authority maintains the responsibility and right to choose the specific provider. The provider must meet the criteria in Minnesota Statutes, section 254B.05, and apply under part 9505.0195 to participate in the medical assistance program. The placing authority may deviate from the treatment planning decisions in part 9530.6622 if necessary to authorize appropriate services according to this subpart.

Subp. 10. **Distance exceptions.** The placing authority may authorize residential service although residential service is not indicated according to part 9530.6622, if the placing authority determines that a nonresidential service is not available within 30 miles of the client's home and the client accepts residential service.

Subp. 11. **Faith-based provider referral.** When the placing authority recommends services from a faith-based provider, the client must be allowed to object to the placement on the basis of the client's religious choice. If the client objects, the client must be given an alternate referral.

Subp. 12. **Adolescent exceptions.** An adolescent client assessed as having a substance use disorder may be placed in a program offering room and board when one of the criteria in item A or B can be documented.

A. The adolescent client has participated in a nonresidential treatment program within the past year, and nonresidential treatment proved to be insufficient to meet the client's needs.

B. The adolescent client has a mental disorder documented by a mental health professional as defined in Minnesota Statutes, sections 245.462, subdivision 18, and 245.4871, subdivision 27, that in combination with a substance use disorder present a serious health risk to the client.

Subp. 13. **Additional information.** If a treatment provider identifies additional information about a client that indicates that the placing authority has not authorized the most appropriate array of services, the provider must provide the placing authority the additional information to consider in determining whether a different authorization must be made. The treatment provider must comply with confidentiality and data privacy provisions in part 9530.6615, subpart 6.

Subp. 14. **Client request for a provider.** The placing authority must consider a client's request for a specific provider. If the placing authority does not place the client according to the client's request, the placing authority must provide written documentation that explains the reason for the deviation from the client's request, including but not limited to treatment cost, provider location, or the absence of client services that are identified as needed by the client according to part 9530.6622.

9530.6622 PLACEMENT CRITERIA.

Subpart 1. **Dimension 1: acute intoxication/withdrawal potential.** The placing authority must use the criteria in Dimension 1 to determine a client's acute intoxication and withdrawal potential.

RISK DESCRIPTION	TREATMENT PLANNING DECISION
0 The client displays full functioning with good ability to tolerate and cope with withdrawal discomfort. No signs or symptoms of intoxication or withdrawal or diminishing signs or symptoms.	0 The client's condition described in the risk description does not impact treatment planning decision.
1 The client can tolerate and cope with withdrawal discomfort. The client displays mild to moderate intoxication or signs and symptoms interfering with daily functioning but does not immediately endanger self or others. The client poses minimal risk of severe withdrawal.	1 The placing authority should arrange for or provide needed withdrawal monitoring that includes at least scheduled check-ins as determined by a health care professional.
2 The client has some difficulty tolerating and coping with withdrawal discomfort. The client's intoxication may be severe, but responds to support and treatment such that the client does not immediately endanger self or others. The client displays moderate signs and symptoms with moderate risk of severe withdrawal.	2 The placing authority must arrange for withdrawal monitoring services or pharmacological interventions for the client with on-site monitoring by specially trained staff for less than 24 hours. The placing authority may authorize withdrawal monitoring as a part of or preceding treatment.
3 The client tolerates and copes with withdrawal discomfort poorly. The client has severe intoxication, such that the client endangers self or others, or intoxication has not abated with less intensive services. The client displays severe signs and symptoms; or risk of severe, but manageable withdrawal; or withdrawal worsening despite detoxification at less intensive level.	3 The placing authority must arrange for detoxification services with 24-hour structure for the client. Unless a monitored pharmacological intervention is authorized, the detoxification must be provided in a facility that meets the requirements of parts 9530.6510 to 9530.6590 or in a hospital as a part of or preceding chemical dependency treatment.

9530.6655 APPEALS.

Subpart 1. **Client's right to a second assessment.** A client who has been assessed under part 9530.6615, and who disagrees with the treatment planning decision proposed by the assessor, shall have the right to request a second chemical use assessment. The placing authority shall inform the client in writing of the right to request a second assessment at the time the client is assessed. The placing authority shall also inform the client that the client's request must be in writing or on a form approved by the commissioner, and must be received by the placing authority within five working days of completion of the original assessment or before the client enters treatment, whichever occurs first.

The placing authority must authorize a second chemical use assessment by a different qualified assessor within five working days of receipt of a request for reassessment. If the client agrees with the outcome of the second assessment, the placing authority shall place the client in accordance with part 9530.6622 and the second assessment. If the client disagrees with the outcome of the second assessment, the placing authority must place the client according to the assessment that is most consistent with the client's collateral information.

Subp. 2. **Client's right to appeal.** A client has the right to a fair hearing under Minnesota Statutes, section 256.045, if the client:

A. is denied an initial assessment or denied an initial assessment within the timelines in part 9530.6615, subpart 1;

B. is denied a second assessment under subpart 1 or denied a second assessment within the timelines in part 9530.6655, subpart 1;

C. is denied placement or a placement within timelines in part 9530.6615, subpart 1;

D. disagrees before services begin with the services or the length of services that the placing authority proposes to authorize;

E. is receiving authorized services and is denied additional services that would extend the length of the current services beyond the end date specified in the service authorization;

F. is denied a placement that is appropriate to the client's race, color, creed, disability, national origin, religious preference, marital status, sexual orientation, or sex; or

G. objects under part 9530.6622, subpart 11, and is not given an alternate referral.

The placing authority must inform the client of the right to appeal under Minnesota Statutes, section 256.045. The placing authority must notify the client of these rights at the first in-person contact with the client. The notice must include a list of the issues in this part that entitle the client to a fair hearing. Clients who are enrolled in a prepaid health plan and clients who are not enrolled in a prepaid health plan have the same appeal rights.

Subp. 3. **Services during appeal of additional services.** Exercising the right to appeal under subpart 2, item E, does not entitle a client to continue receiving services beyond the end date specified in the service authorization while the appeal is being decided. A provider may continue services to the client beyond the end date specified in the service authorization pending a final commissioner's decision, but the conditions in items A and B govern payment for the continued services.

A. The provider shall be financially responsible for all hours or days of service in excess of the amount of service to which the final commissioner's decision finds the client is entitled.

B. The provider shall not charge the client for any services provided beyond the end date specified in the placement authorization.

Subp. 4. **Considerations in granting or denying additional services.** The placing authority shall take into consideration the following factors in determining whether to grant or deny additional services:

A. whether the client has achieved the objectives stated in the client's individual treatment plan;

B. whether the client is making satisfactory progress toward achieving the objectives stated in the client's individual treatment plan;

C. whether there is a plan that reasonably addresses the client's needs for continued service; and

D. whether the client's risk description in the dimensions being addressed by the service provider is 2 or greater according to part 9530.6622, subpart 4, 5, or 6.

B. The applicant must submit a plan for attracting an adequate number of clients to maintain its proposed program capacity, including:

- (1) a description of the geographic area to be served;
- (2) a description of the target population to be served;
- (3) documentation that the capacity or program designs of existing programs are not sufficient to meet the service needs of the chemically abusing or chemically dependent target population if that information is available to the applicant;
- (4) a list of referral sources, with an estimation as to the number of clients the referral source will refer to the applicant's program in the first year of operation; and
- (5) any other information available to the applicant that supports the need for new or expanded chemical dependency treatment capacity.
