1540.0560 WATER SUPPLY.

The water supply shall be ample, clean, and potable, with adequate facilities for its distribution in the plant and its protection against contamination and pollution. Every establishment shall make known and, whenever required, shall afford opportunity for inspection of the source of its water supply, the storage facilities, and the distribution system. Equipment using potable water shall be so installed as to prevent back-siphonage into the potable water system. Nonpotable water is permitted only in those parts of the establishments where no edible product is handled or prepared, and then only for limited purposes such as on ammonia condensers not connected with the potable water supply, in vapor lines serving inedible product rendering tanks, in connection with equipment used for hashing and washing inedible products preparatory to tanking, and in sewer lines moving heavy solids in the sewage. Nonpotable water is not permitted for washing floors, areas, or equipment involved in trucking materials to and from edible products departments, nor is it permitted in hog scalding vats, dehairing machines, or vapor lines serving edible product rendering equipment, or for cleanup of shackling pens, bleeding areas, or runways within the slaughtering department. In

all cases, nonpotable water lines shall be clearly identified and shall not be cross-connected with the potable water supply unless this is necessary for fire protection and such connection is of a type with an adequate break to assure against accidental contamination, and is approved by the commissioner.

1540.0570 REUSE OF WATER.

Inspectors may permit the reuse of water in vapor lines leading from deodorizers used in the preparation of lard and similar edible products and in equipment used for the chilling of canned products after retorting, provided the reuse is for the identical original purpose and the following precautions are taken to protect the water that is reused:

A. All pipe lines, reservoirs, tanks, cooling towers, and like equipment employed in handling the reused water are so constructed and installed as to facilitate their cleaning inspection.

B. Complete draining and disposal of the reused water, effective cleaning of the equipment, and renewal with fresh, potable water is accomplished at such intervals as may be necessary to assure an acceptable supply of water for the purpose intended.

C. Effective chlorination (not less than approximately one part per million of residual chlorine at any point within the cooling system) of the reused water utilized for cooling canned product is maintained but with the understanding that chlorination alone is not to be relied upon entirely or to be accepted in lieu of the requirements listed in items A and B.

1540.1270 CONDEMNED CARCASSES AND PARTS.

Each carcass or part which is found on final inspection to be unsound, unhealthful, unwholesome, or otherwise unfit for human food shall be conspicuously marked on the surface tissues thereof by

a department employee at the time of inspection, "Minnesota inspected and condemned." Condemned detached organs and parts of such character that they cannot be so marked shall be placed immediately in trucks or receptacles which shall be kept plainly marked "Minnesota inspected and condemned" in letters not less than two inches high. All condemned carcasses, parts, and organs shall remain in the custody of a department employee and shall be tanked as required in this chapter at or before the close of the day on which they are condemned, or be locked in the "Minnesota condemned" room or compartment. Condemned articles shall not be allowed to accumulate unnecessarily in the condemned room or compartment.

1540.1480 DISPOSAL OF DISEASED CARCASSES AND PARTS.

The carcasses or parts of carcasses of all animals slaughtered at an official establishment and found at the time of slaughter or at any subsequent inspection to be affected with any of the diseases or conditions named in parts of this chapter shall be disposed of according to the parts of this chapter pertaining to the disease or condition. Owing to the fact that it is impracticable to formulate rules covering every case and to designate at just what stage a process becomes loathsome or a disease noxious, the decision as to the disposal of all carcasses, parts, or organs not specifically covered by parts 1540.0010 to 1540.4520 shall be left to the inspector. In cases of doubt as to a condition, a disease, or the cause of a condition, or to confirm a diagnosis, representative specimens of the affected tissues properly prepared and packaged should be sent to the department laboratories for examination.

1540.2040 SEPARATION OF TANKS, ROOMS, AND EQUIPMENT USED FOR INEDIBLE PRODUCTS FROM THOSE USED FOR EDIBLE PRODUCTS.

All tanks and equipment used for rendering, preparing, or storing inedible products shall be in rooms or compartments separate from those used for rendering, preparing, or storing edible products. There shall be no connection between rooms or compartments containing inedible products and those containing edible products, except that there may be one connecting doorway between the slaughtering or viscera separating department and the tank charging room of the inedible products rendering department. Pipes and chutes installed in accordance with the requirements of the commissioner may be used to convey inedible and condemned material from edible product departments to inedible product departments.

1540.2520 MARKING PRODUCT WITH THE LIST OF INGREDIENTS.

A product fabricated from two or more ingredients shall bear a list of the ingredients, giving the common or usual names of the ingredients arranged in the order of their predominance, except that spices may be designated as "spices" or "flavorings," and flavorings (including essential oils, oleoresins, and other spice extractives) may be designated as "flavorings" without naming each. The list of ingredients shall be applied legibly and securely to the product by means approved by the commissioner, such as stamping, printing, or the use of paper bands, tags, or tied-in paper or fabric flaps on stuffed sausage, or tissue strips on loaf-like articles; provided, that product for which a definition and standard of identity has been prescribed which conforms to such definition and standard, and which bears the name specified in the definition and standard, together with such declaration of optional ingredients and other labeling features as are required by the applicable definition and standard, need not bear a list of ingredients; provided further, that bockwurst and sausages of the smaller varieties, such as frankfurters and pork sausage, shall bear the list of ingredients at least once on each two pounds of product; provided further, that when such product is distributed from an official establishment in an immediate or true container of a type and size customarily sold at retail intact, the list of ingredients on the label of the package shall be sufficient; and provided further, that when sausages of the smaller varieties are shipped to another official establishment for further processing, the list of ingredients need appear only twice throughout the contents of containers and when so shipped may be omitted from the contents of containers of ten-pound size or less. When such products are shipped to another official establishment for further processing, the inspector at the point of origin shall identify the shipment to the inspector at destination.

1540.2680 NAME OF PRODUCT.

The name of a product shall be the common name, if any, and one which clearly and completely identifies the article. Product which has been prepared by salting, smoking, drying, cooking, chopping, and the like shall be so described on the label unless the name on the article implies, or the manner of packaging shows, that the product was subjected to such procedure or procedures. The unqualified terms "meat," "meat by-product," "meat food product," and terms common to the meat industry but not to consumers such as "picnic," "butt," "cala," "square," "loaf," "spread," "delight," "roll," "plate," "luncheon," and "daisy" shall not be used as names of articles unless accompanied with terms descriptive of the product or with a list of ingredients.

1540.2690 LIST OF INGREDIENTS.

The list of ingredients shall appear as part of or in addition to the true name of the product and shall show the common or usual name of the ingredients arranged in the order of their predominance, except that spices may be designated as "spices" or "flavorings," and flavorings including essential oils, oleoresins, and other spice extractives may be designated as "flavorings" without naming each. The name of an ingredient shall not be a collective name but shall be a specific name, as, for example, "beef," "pork," "beef tripe," "sheep livers," "pork snouts," "flour," "corn flour," "potato flour," "water," "nonfat dry milk," "tomato puree," and "beef broth"; provided, that when a product is coated with pork fat, gelatin, or other approved substance and a specific declaration of such

coating appears in connection with the name of the product, the ingredient statement need not make reference to the ingredients of such coating; and provided further, that when the label bears the designation "compound" or "shortening" the term "animal and vegetable fats" or "vegetable and animal fats" may be employed to designate the ingredients of mixtures of such edible fats. "Animal fats" as used herein means inspected and passed fat derived from cattle, sheep, swine, or goats.

1540.2710 STATEMENT OF QUANTITY.

The statement of quantity shall represent in terms of avoirdupois weight or liquid measure the quantity of product in the package exclusive of materials packed with it. When no general consumer usage to the contrary exists, the statement shall be in terms of liquid measure if the product is liquid or in terms of weight if the product is solid, semisolid, viscous, or a mixture of solid and liquid. Unless the statement is so qualified as to show that it expresses the minimum quantity, it shall be taken to express the actual quantity. When the statement expresses the minimum quantity, no variation below the stated minimum shall be permitted, and variations above the stated minimum shall be no greater than consistent with filling the container to the stated minimum in accordance with good commercial practice. When the statement expresses actual quantity, variations incident to packing in accordance with good commercial practice shall be allowed but the average shall not be less than the quantity stated; provided, that packages of product having a capacity of less than one-half avoirdupois or less than one-half fluid ounce shall not be required to be labeled with the statement of the quantity of contents.

1540.2880 TERMS HAVING GEOGRAPHICAL SIGNIFICANCE.

Terms having geographical significance with reference to a locality other than that in which the product is prepared may appear on the label only when qualified by the word "style," "type," or "brand," as the case may be, in the same size and style of lettering as in the geographical term and accompanied with a prominent qualifying statement identifying the country, state, territory, or locality in which the product is prepared, using terms appropriate to effect the qualification. When the word "style" or "type" is used, there must be a recognized style or type of product identified with and peculiar to the locality represented by the geographical term and the product must possess the characteristics of such style or type. The word "brand" shall not be used in such a way as to be false or deceptive; provided, that a geographical term which has come into general usage as a trade name and which has been approved by the commissioner as being a generic term may be used without the qualifications provided for in this part. The terms "frankfurter," "Vienna," "bologna," "Lebanon bologna," "braunschweiger," "thuringer," "Genoa," "Leona," "Berliner," "Holstein," "Goteborg," "Milan," "Polish," and their modifications, as applied to sausages, the terms "Brunswick," and "Irish" as applied to stews, and the term "Boston" as applied to pork shoulder butts, need not be accompanied with the word "style," "type," or "brand" or a statement identifying the locality in which the product is prepared.

1540.3520 TAGGING PRODUCTS "MINNESOTA RETAINED" ON REINSPECTION.

A "Minnesota retained" tag shall be placed by a department employee at the time of reinspection on all products or the containers thereof which are suspected on reinspection at an official

establishment or in the possession of such establishment of being unsound, unhealthful, unwholesome, or in any way unfit for human food. The employee who affixes the tag shall record the tag number and the kind and amount of the article retained. Such tag shall accompany such article to the retaining room or other special place for final inspection. When the final inspection is made, if the article is condemned, the original mark, stamp, or label thereon shall be removed or defaced and the inspector shall stamp on or write across the face of the retained tag the phrase "Minnesota inspected and condemned" and this tag shall accompany such article into the tank. The inspector shall make a complete record of the transaction and shall report the action to the commissioner. If, however, upon final inspection the article is passed for food, the inspector shall remove the retained tag, record the transaction, and report the action to the commissioner.

**PREPARATION OF DOG FOOD OR SIMILAR UNINSPECTED
ARTICLE AT OFFICIAL ESTABLISHMENTS**

1540.4050 PREPARATION IN EDIBLE PRODUCT DEPARTMENT.

When dog food or similar uninspected article is prepared in an edible product department, there shall be sufficient space allotted and adequate equipment provided so that the preparation of the uninspected article in no way interferes with the handling or preparation of products. Where necessary, separate equipment shall be provided for the uninspected article. To assure the maintenance of sanitary conditions in the edible product departments, the operations incident to the preparation of the uninspected article will be subject to the same sanitary requirements that apply to all operations in edible product departments. The preparation of the uninspected article shall be limited to those hours during which the establishment generally operates under inspectional

supervision. That is, there shall be no handling, other than receiving at the establishment, of any of the meat, meat by-products, or meat food product ingredient of the uninspected article, other than during the regular hours of inspection. The materials used in the preparation of the uninspected article shall not be such as would interfere with the inspection of product or the maintenance of sanitary conditions in the department. The uninspected article may be stored in, and distributed from, edible product department; provided, that adequate facilities are furnished, that there is no interference with the maintenance of sanitary conditions, and that it is properly identified.

1540.4060 PREPARATION IN OTHER THAN EDIBLE PRODUCT DEPARTMENT.

When dog food or similar uninspected article is prepared in a part of an official establishment other than an edible product department, the area in which the dog food is prepared shall be separated from edible product departments in a manner similar to that required for separation between edible product departments and inedible product departments. Sufficient space must be allotted and adequate equipment provided so that the preparation of the uninspected article does not interfere with the proper functioning of the other operations at the establishment. Nothing in this part shall be construed as permitting any deviation from the requirement that inedible materials, dead animals, and the like, of whatever origin, must be placed in the inedible product rendering equipment, and without undue delay. The preparation of the uninspected product must be such as not to interfere with the maintenance of general sanitary conditions on the premises, and it shall be subject to inspectional supervision similar to that exercised over inedible product departments. There shall be no return of any product to edible product departments. Trucks, barrels, and other equipment shall be cleaned before being returned to edible product departments from inedible product departments. Unoffensive material prepared outside edible product departments may be stored in, and distributed from, edible product departments only if packaged in clean, properly identified, sealed containers.

1540.4070 DISTINGUISHING DOG FOOD OR OTHER ANIMAL FOOD FROM HUMAN FOOD.

Dog food or other animal food prepared in whole or in part from materials derived from cattle, sheep, swine, goats, or horses, shall be distinguished from articles of human food so as to avoid the distribution of such animal food as human food. To accomplish this, labeling of hermetically sealed, retort processed, conventional retail size containers as, for example, "dog food" will be considered sufficient. If not in such containers, the product must not only be properly identified, but it must be of such character or so treated (denatured or decharacterized) as to be readily distinguishable from an article of human food. Dog food shall not be represented as being a human food.

1540.4100 CLEANSING.

After flood water has receded, the establishment shall, under the supervision of a department employee, thoroughly cleanse all walls, ceilings, posts, and floors of the rooms and compartments involved, including the equipment therein. An adequate supply of hot water, under pressure, is essential for effective cleansing of the rooms and equipment. After cleansing, a solution of sodium hypochlorite containing approximately one-half of one percent available chlorine (5,000 parts per million), or other disinfectant approved by the commissioner should be applied to the surface of the rooms. Where the solution has been applied to equipment which will afterwards contact meat, the equipment shall be rinsed with clean water before being used. All metal should be rinsed with clean water to prevent corrosion.

1540.4110 HERMETICALLY SEALED CONTAINERS OF PRODUCT.

Hermetically sealed containers of product which have been submerged or otherwise contaminated as in part 1540.4090 shall be rehandled promptly under supervision of a department employee as follows:

A. Separate and condemn all product, the containers of which show extensive rusting or corrosion, such as might materially weaken the container, as well as any swollen, leaky, or otherwise suspicious container.

B. Remove paper labels and wash the containers in warm soapy water, using a brush where necessary to remove rust or other foreign material, immerse in a solution of sodium hypochlorite containing not less than 100 parts per million of available chlorine or other disinfectant approved specifically for this purpose by the commissioner, and rinse in clean fresh water and dry thoroughly.

C. After handling as in item B, the containers may be relacquered, if necessary, and then relabeled with approved labels applicable to the product therein.

D. The identity of the canned product shall be maintained throughout all stages of the rehandling operations, to insure correct labeling of the containers.

GLANDS AND ORGANS FOR USE IN PREPARING PHARMACEUTICAL, ORGANOTHERAPEUTIC, OR TECHNICAL PRODUCTS

1540.4120 GLANDS AND ORGANS NOT USED AS FOOD PRODUCTS.

Glands and organs which are not used as food products, such as cotyledons, ovaries, prostate glands, tonsils, spinal cords, and detached lymphatic, pineal, pituitary, parathyroid, suprarenal, and thyroid glands, may be saved and prepared by establishments operating under inspection; provided, that the containers shall be plainly marked "for pharmaceutical purposes," "for organotherapeutic purposes," or "for technical purposes," without any reference to inspection. Organs in this category may be brought into and stored in edible product departments of inspected establishments or shipped with edible product if packaged in suitable containers which will in no way interfere with the maintenance of sanitary conditions or constitute an interference with inspection.

RETAINING CHEMICALS, CEREALS, SPICES, AND THE LIKE

1540.4140 "MINNESOTA RETAINED" TAG.

When any chemical, cereal, spice, or other substance is presented for use in an official establishment, it shall be examined by a department employee, and if found to be unfit or otherwise unacceptable for the use intended, or if final decision regarding acceptance is deferred pending laboratory or other examination, the employee shall attach a "Minnesota retained" tag to the substance or container thereof. The substance so tagged shall be kept separate from other substances as the inspector may require, shall not be used until the tag is removed, and such removal shall be only by a department employee after finding that the substance can be accepted, or, in the case of an unacceptable substance, when it is removed from the establishment.
