

**4658.0805 PERSONS PROVIDING SERVICES.**

All persons providing services, including volunteers, with a communicable disease as listed in part 4605.7040 or with infected skin lesions must not be permitted to work in the nursing home unless it is determined that the person's condition will permit the person to work without endangering the health and safety of residents and other staff. The employee health policies required in part 4658.0800, subpart 4, item F, must address grounds for excluding persons from work and for reinstating persons to work due to a communicable disease or infected skin lesions.
