

5224.0320 GENERAL CRITERIA FOR NONSPECIFIED OCCUPATIONS.

Parts 5224.0330 and 5224.0340 shall be used to determine if an individual is an independent contractor or an employee where the occupation is not defined in parts 5224.0020 to 5224.0312. Additionally, these parts provide interpretative guidance where the occupation is defined but the safe harbor criteria for that occupation are not all substantially met. Where some but not all of the safe harbor criteria are substantially met, those criteria which are substantially met shall be considered evidence of that status, and shall control where a conflicting result for that criterion is indicated by parts 5224.0330 to 5224.0340.
