GENERAL RESTRICTIONS**6262.0100 GENERAL RESTRICTIONS ON TAKING FISH.**

Subpart 1. **Angling hours.** Angling hours on all streams and rivers from Lake Superior upstream to posted boundaries, including Lake Superior tributaries with no posted boundaries, are from one hour before sunrise to one hour after sunset during the open season; provided that angling hours on the St. Louis River in St. Louis and Carlton Counties and the Pigeon River in Cook County are continuous during the open season except as provided by Minnesota Statutes, section 97C.415, subdivision 1.

Angling hours for all species on all inland waters are continuous during the open season, except as provided by Minnesota Statutes, section 97C.415, subdivision 1, and except for certain waters which are subject to experimental or special regulations.

Subp. 2. [Repealed, L 2003 c 28 art 1 s 20]

Subp. 3. [Repealed, 39 SR 822]

Subp. 4. **Importation, transportation, or stocking of live fish.** Except as provided in parts 6212.2600, subpart 3, and 6262.0600, subpart 4, and Minnesota Statutes, sections 17.4985, subdivision 3; 97C.505, subdivision 1; 97C.515, subdivision 3; 97C.525, subdivision 1; and 97C.821, a person may not import, transport, or stock in any waters of the state live fish eggs, fish spawn, or immature or adult fish of any species without a permit issued by the commissioner. An angling license does not authorize a person to import, transport, or stock live fish.

Subp. 5. **Possession of fish while on state waters.**

A. Fish that are taken by angling and not immediately released into the water after capture are considered to be in possession. Once a limit of fish has been reduced to possession, no culling or live well sorting (the act of replacing one fish with another one) of that species is allowed.

B. A person shall not angle for, including catch-and-release, or reduce to possession any species during its closed season.

C. Once a person or persons fishing as a party as provided in Minnesota Statutes, section 97C.317, retain a daily limit for a species, all fish of that species that are subsequently taken must be immediately released into the water after capture.

D. While on or fishing in state waters with size restrictions that differ from statewide regulations, including experimental waters, special management waters, boundary waters, or any other waters with size restrictions, all fish for which the different size restrictions apply must be undressed and measurable when in a person's possession, regardless of where taken, except under the following conditions:

(1) when a watercraft is docked or moored to shore or when on the ice and a person is in the act of preparing and using the fish for a meal; or

(2) when a person is on an experimental or special management water and the fish were lawfully taken, have been packaged and labeled by a licensed fish packer, are to be prepared for a meal while on the ice or shore of that water body, and do not otherwise exceed the statewide possession limits.

When fish are consumed under subitem (1), the angler must maintain the carcass of a fish with size limits in such a way that the carcass may be readily unpacked, unwrapped, and separated so that the carcass may be examined, measured, and counted to ensure compliance with size restrictions for that day, as defined under Minnesota Statutes, section 645.45.

E. It is unlawful for a person to have in possession, regardless of where taken, any fish in excess of or outside of the limits for that water body when fishing in that water. A person must immediately return to the water any fish that is taken by angling that is in excess of or outside the limits. This item does not apply to a person who is on an experimental or special management water and the fish were lawfully taken, have been packaged and labeled by a licensed fish packer, are to be prepared for a meal while on the ice or shore of that water body, and do not otherwise exceed the statewide possession limits.

F. A person who is in transit on the water, taking the most direct route back to the person's lodging or docking, and not fishing, may possess fish outside of or in excess of the limits for that water body, if the species were legally taken from connected waters.

Subp. 6. Angling tackle.

A. An angler may have up to three single or multiple hooks on a line used as a single tackle configuration attached to the end of a fishing line. The total configuration from the first hook to the last hook must be nine inches or less. Live, artificial, preserved, or dead bait is allowed. This configuration is not considered an artificial bait or fly.

B. An angler may have one additional single or multiple hook on a line as part of an artificial bait as long as it is within three inches of the artificial bait.

C. Except for a single artificial bait or three artificial flies, an angling rig with more than one hook is not allowed on designated trout streams and lakes.

Subp. 7. Spawn bags. Spawn bags may be bought or sold only if the bags are made with:

A. fish eggs from a licensed aquaculture facility; or

B. fish eggs that are:

(1) legally taken from a source outside Minnesota that has been certified disease-free; and

(2) preserved and labeled as required under a bait preservation permit. Records must be maintained as required for bait preservation permits.

6262.0200 FISHING REGULATIONS FOR INLAND WATERS.

Subpart 1. **General inland fishing regulations.** Fish may be taken in inland waters by angling during the time specified for each of the following species; however, certain waters of the state are subject to experimental or special regulations or are closed for taking and possessing fish. When the closing date of a season falls on a Saturday, the season extends through the following Sunday.

Species and Open Season	Daily and Possession Limits
A. Largemouth and smallmouth bass.	6 in aggregate.
(1) In all waters lying east and north of U.S. Highway 53 from Duluth to International Falls and Pelican and Ash Lakes, St. Louis County.	
	Saturday two weeks prior to the Saturday of Memorial Day weekend to the last Sunday in February.
(2) In all other waters.	
	From the Saturday two weeks prior to the Saturday of Memorial Day weekend to the Saturday of Memorial Day weekend, angling for bass is limited to catch and release only. Any bass must be immediately returned to the water. It is unlawful for anyone to have in possession, regardless of where taken, any bass while on or fishing in these waters. The Saturday of Memorial Day weekend to the last Sunday in February is the harvest season.
	From the second Monday in September to the end of the season, angling for smallmouth bass is limited to catch and release only. Any smallmouth bass must be immediately returned to the water and it is unlawful for anyone to have in possession, regardless of

where taken, any smallmouth bass while on or fishing in these waters.

B. Brown trout.

Except as provided in part 6264.0400, subparts 35, 36, 37, and 117, the following restrictions apply.

6262.0300 FISHING REGULATIONS FOR LAKE SUPERIOR AND TRIBUTARIES.

Subpart 1. **General Lake Superior fishing regulations.** Fish may not be taken in Lake Superior except as provided by this part or under permit.

Subp. 2. **Number of lines allowed.** No more than two lines with one bait attached to each line may be used to take fish on Lake Superior, except that only one line may be used within 100 yards of the mouth of any flowing stream.

Subp. 3. **Transportation restrictions.** While on any portion of the Minnesota waters of Lake Superior, a person licensed to take fish by angling or as otherwise authorized by Minnesota,

Wisconsin, Michigan, or the province of Ontario, may not possess or transport more than the daily limit of fish allowed under any one but not more than one of their licenses.

Subp. 4. **Taking smelt from Lake Superior.** Smelt may be taken by licensed anglers from Lake Superior and tributary streams subject to the following provisions:

A. smelt may be taken with the use of dip nets and minnow seines not more than 25 feet in length nor more than four feet in depth. Seines may not be used in any stream, except the St. Louis River, and seines may not be used in Lake Superior within 100 feet of the mouth of any stream;

B. live smelt may not be possessed or transported; and

C. taking of smelt at any time is prohibited in the following streams tributary to Lake Superior:

- (1) French River, St. Louis County;
- (2) Sucker River, St. Louis County;
- (3) Little Sucker River, St. Louis County;
- (4) Silver Creek, Lake County;
- (5) Encampment River, Lake County; and
- (6) Crow Creek, Lake County.

Subp. 5. **Prohibition on taking fish for bait purposes.**

A. Except as provided in this subpart, taking fish for bait purposes from all Minnesota waters of Lake Superior and all waters of the St. Louis River downstream of the Fond du Lac Dam in St. Louis and Carlton Counties, including any and all outflows, estuaries, streams, creeks, or waters adjacent to or flowing into these waters, is prohibited.

B. Notwithstanding Minnesota Statutes, sections 84D.03, subdivision 3, and 97C.341, paragraph (b), eggs from legally taken and possessed trout harvested from Lake Superior or its tributaries below the posted boundaries may be used to make spawn bags for bait as provided in this item and as authorized in Minnesota Statutes, section 97C.341, paragraph (a). Spawn bags may be used only in Lake Superior and its tributaries below the posted boundaries and may be transported to and from Lake Superior or its tributaries below the posted boundaries.

C. Notwithstanding Minnesota Statutes, section 84D.03, subdivision 3, and as provided in Minnesota Statutes, section 97C.341, paragraph (c), cisco or rainbow smelt may be taken for use as bait from Lake Superior or its tributaries below the posted boundaries, except those streams listed in subpart 4, item C. The cisco and rainbow smelt may be used only on Lake Superior or its tributaries below the posted boundaries, as fresh, dead, frozen, or preserved bait. Preserved cisco and smelt may be used as prescribed in part 6262.0576 on all waters of the state.

Subp. 6. **Lake Superior and tributaries open season, daily and possession limits.** Angling season and daily and possession limits for Lake Superior are as follows:

Species	Open Season	Daily and Possession Limits
A. Rainbow trout, including steelhead		
Lake Superior and all streams and rivers from Lake Superior upstream to the posted boundaries, including the St. Louis River upstream to the Highway 23 bridge, and Lake Superior tributaries with no posted boundaries.	Continuous	5 in aggregate with brown and brook trout and splake. No more than 3 may be clipped rainbow trout, including steelhead. The minimum size limit for clipped rainbow trout is 16 inches in length. Clipped rainbow trout have their adipose fin removed and must show a healed scar. No harvest of unclipped rainbow trout is allowed. All unclipped rainbow trout must be returned to the water immediately and it is unlawful for anyone to have in possession, regardless of where taken, any unclipped rainbow trout while on or fishing in Lake Superior.

Subp. 2a. **Waters closed to possession of fish.** The following waters have restrictions on the possession of fish:

A. Eagle Creek in Scott County: S.7,18, T.115N, R.21W, and S.13, T.115N, R.22 (south of State Highway 101 to the source of the east and west branches that are west of State Highway 13) is closed to the possession of trout.

B. Crawford Lake in Wright County: S.20, T.119N, R.25W, is closed to the possession of largemouth bass. The daily and possession limit for sunfish is five, for crappie is five, for walleye is two, and for yellow perch is ten.

D. [Repealed, 27 SR 1313]

Subp. 3. [Repealed, 19 SR 2222]

Subp. 4. **Waters with seasonal restrictions on taking fish and motorboat operations.**

A. Waters or portions of waters designated as spawning beds or fish preserves under chapter 6264 may be posted closed to the taking of fish or posted to restrict motorboat operations based on:

- (1) the abundance of spawning fish;
- (2) climatic conditions; or
- (3) anticipated angling activities.

B. Waters or portions of waters being used by the commissioner for research or management activities may be posted closed to the taking of fish or posted to restrict motorboat operations if necessary to prevent:

- (1) interference with research and management;
- (2) excess depletion of fish;
- (3) destruction of critical habitat; or
- (4) activities that compromise management or research efforts.

C. Notice of closures or restrictions under this subpart shall be posted at all public access sites and on the Department of Natural Resources website no less than 48 hours prior to the effective date. The posting shall include a description of the closure or restriction and associated dates.

6262.0576 BAIT RESTRICTIONS.

Subpart 1. **Definitions.** For purposes of this part:

- A. "cisco" means all *Coregonus*, including lake herring and tullibee;
- B. "restricted bait" means fresh, live, dead, frozen, or preserved cisco, smelt, or VHS susceptible species;
- C. "smelt" means all *Osmerus*, *Spirincus*, *Hypomesus*, and *Allosmerus*; and
- D. "VHS susceptible species" means all species on the official list of viral hemorrhagic septicemia (VHS) susceptible species published by the United States Department of Agriculture, Animal and Plant Health Inspection Services.

Subp. 2. **Possession and use.**

A. A person may take, possess, and use restricted bait on Lake Superior or its tributaries below the posted boundaries.

B. A person shall not take, possess, or use restricted bait in water bodies other than Lake Superior or its tributaries below the posted boundaries unless:

(1) the restricted bait is being used on the same body of water where caught and while still on that water body. The restricted bait must not be transported off the water body, alive or dead, for any purpose;

(2) the water body where the restricted bait originated is listed on the department's website as having no presence of VHS in all species in the last year or the person has in the person's immediate possession:

(a) a valid fish health certification for the source water body showing no presence of VHS in the last year; or

(b) labeling as specified in subpart 3, item B, for frozen restricted bait;

(3) the restricted bait is preserved and labeled according to part 6262.0577 or as further prescribed by the commissioner in a permit. The labeling must be in the person's immediate possession;

(4) the restricted bait was purchased from a licensed minnow dealer or minnow retailer;
or

(5) cisco or smelt are being transported dead or on ice for personal consumption only.

C. Item B does not apply to licensed minnow dealers, aquatic farms, or private fish hatcheries when taking, possessing, or transporting minnows in compliance with Minnesota Statutes, section 97C.342.

Subp. 3. Labeling requirements.

A. Restricted bait harvested for personal use does not require labeling until it leaves the source water body.

B. Restricted bait harvested by a person for personal use as dead or frozen bait must be labeled with:

(1) the name and Department of Natural Resources certified water body number for the source water body;

(2) the date of harvest from the source water body;

(3) the date of packaging and labeling; and

(4) the disease-free certification date for the source water body.

C. Restricted bait harvested under a minnow dealer license for use as dead or frozen bait must be labeled according to Minnesota Statutes, section 97C.342, subdivision 7.

D. Preserved restricted bait must be labeled according to part 6262.0577, subpart 4.

E. A person must retain the required labeling until the restricted bait is no longer in the person's possession.

Subp. 4. Permit required to preserve cisco and smelt. A person must obtain a bait preservation permit under part 6262.0577 to preserve cisco and smelt for use as bait in waters of the state.

Subp. 5. Cisco or smelt for consumption. Notwithstanding part 6262.0300, subpart 5, and Minnesota Statutes, sections 84D.03, subdivision 3, 84D.11, subdivision 2a, and 97C.341, cisco or smelt may be taken and transported dead for personal consumption.

6262.0577 BAIT PRESERVATION.**Subpart 1. Permit required to preserve bait.**

A. For purposes of this part, "bait" has the meaning given under Minnesota Statutes, section 97C.341, paragraph (b).

B. A person must obtain a bait preservation permit to preserve bait for use in waters of the state if the bait is:

(1) cisco or smelt that are from waters that have not been certified disease free according to Minnesota Statutes, section 97C.342, except those being used on Lake Superior or its tributaries below the posted boundaries;

(2) from known positive viral hemorrhagic septicemia waters, except cisco and smelt being used on Lake Superior or its tributaries below the posted boundaries;

(3) imported bait that does not have a valid fish health certification showing no presence of viral hemorrhagic septicemia; or

(4) a species on the viral hemorrhagic septicemia-susceptible species list published by the United States Department of Agriculture, Animal and Plant Health Inspection Service, and has not been harvested from certified disease-free sources.

C. Only persons with a minnow dealer, minnow retailer, aquatic farm, private fish hatchery, commercial netting of fish, fish packer, or Lake Superior fishing guide license issued by the commissioner are eligible for a bait preservation permit.

Subp. 2. Preservation methods. Preservation methods that are permitted include use of isopropyl alcohol, a salt and borax mixture, or other methods determined by the commissioner to effectively inactivate the viral hemorrhagic septicemia (VHS) virus. Freezing or refrigeration is not an approved preservation method. Methods may include a minimum processing time to ensure complete inactivation of the virus. A permittee, or out-of-state person working under a permittee under subpart 5, must follow all preservation procedures prescribed in the permit and may not distribute or sell preserved bait until all permit requirements are met.

Subp. 3. Reporting requirements. A holder of a bait preservation permit must maintain records within the state on forms provided by the commissioner for each lot of fish preserved. The records must include the method of preservation, the lot number for each batch of fish preserved, the source water body of the fish preserved, and other information as specified on the reporting form. A permittee must enter required records into forms within 24 hours of processing each lot of fish. A permittee must retain records for three years following the date of creation. All records required to be retained must be open to inspection by the commissioner at any reasonable time.

Subp. 4. Labeling requirements. A bait preservation permittee must label each container or package of preserved bait with the following information:

- A. Department of Natural Resources bait preservation permit number;
- B. lot number; and
- C. date of processing.

Subp. 5. Out-of-state preservation. Persons located outside the state may preserve bait for use in Minnesota waters only under a permit held by a Minnesota resident age 16 years or older. Complete preservation records must be created for each lot of fish preserved. The records must be transferred to the permit holder prior to or along with shipment of the product. The permit holder must retain the records as provided in subpart 3. A permittee is responsible for ensuring that all persons working under the permittee's permit preserve, report, and label as prescribed by the bait preservation permit.

ROUGH FISH

6262.0600 SEASONS AND METHODS FOR TAKING ROUGH FISH.

Subpart 1. **Generally.** Rough fish may be taken according to Minnesota Statutes, sections 97C.345, 97C.371, and 97C.375.

Subp. 1a. **Taking by harpooning or dip net.** Rough fish may be taken as described in items A and B from May 1 through the Sunday before the third Monday in February between sunrise and sunset in all inland waters, except where the taking of fish is otherwise prohibited by law or rule.

A. Rough fish may be taken by harpooning with a rubber powered gun, spring gun, or compressed air gun. Harpooning equipment may not be used within 1,000 feet of an established swimming beach. Harpooning equipment may be discharged only when both the equipment and operator are entirely beneath the surface of the water and may not be carried in a cocked position while out of the water.

B. Rough fish may be taken by means of hand-held dip nets having a diameter not exceeding 24 inches.

Subp. 1b. **Taking by spear.** Rough fish may be taken by hand-held spears in open water or through the ice. The season for taking rough fish by hand-held spears is from the last Saturday in April up to but not including the third Monday in February. The season is closed from the third Monday in February to the Friday before the last Saturday in April. A person may possess a spear on or near waters between sunrise and sunset during the open season.

Subp. 1c. **Taking suckers.** Suckers may be taken by spearing from the last Saturday in April through the last Sunday in February. The season is closed from the Monday following the last Sunday in February to the Friday before the last Saturday in April. A person may possess a spear on or near waters between sunrise and sunset during the open season.

Subp. 1d. **Taking by archery.** Rough fish may be taken by archery, provided that the arrows used have a barb and are tethered or controlled by an attached line. Use of crossbows is prohibited, except as provided under Minnesota Statutes, section 97B.106.

Subp. 2. [Repealed, 37 SR 1664]

Subp. 3. **Possession and use of bullheads 7.0 to 10.0 inches for bait.**

A. As described in this subpart, up to 100 bullheads greater than 7.0 inches and equal to or less than 10.0 inches may be taken, possessed, and held for use as live bait.

B. Bullheads taken under this subpart may be taken from the wild by:

(1) dip net;

(2) angling; or

(3) seines used as authorized for noncommercial taking of minnows as prescribed under part 6230.0250, subpart 6; chapter 6254; and Minnesota Statutes, sections 97C.505 and 97C.511, subdivision 1.

C. Bullheads taken under this subpart are considered part of the daily and possession limits in parts 6262.0200, subpart 1, item P, and 6262.0650, item C.

D. Bullheads taken under this subpart must be transported in a container with a locking lid or other device to prevent escape. Release of the live bullheads into the wild is not allowed.

E. A person transporting or holding bullheads under this subpart must allow inspection of the bullheads by the commissioner at any time.

F. A person may not transport live bullheads under this subpart across the borders into Minnesota without an appropriate commercial license and transportation permit.

Subp. 4. **Transportation restrictions.** Live bullheads, regardless of size, may not be transported north of State Highway 210.

Subp. 5. **Sale of fish over 12 inches.** White suckers that are over 12 inches and have been legally purchased from a licensed commercial vendor may be transported alive. The person transporting these fish must have the sales receipt on their person. The sales receipt must show the date and time of purchase.

6262.0800 OPEN SEASONS FOR NETTING WHITEFISH AND CISCOES.

Subpart 1. **Schedules designating open seasons for certain waters.** The waters listed in each of the following schedules will be open during the designated seasons to the netting of whitefish and ciscoes. Unless otherwise indicated, the names of the bodies of water refer to lakes.

Subp. 2. **Schedule I.** All bodies of water listed in this schedule may be opened and closed on a 48-hour notice posted at lake accesses and other public places based on a determination of the following:

- A. the abundance of game fish;
- B. climatic conditions that affect the vulnerability of game fish to accidental harvest; and
- C. the abundance of whitefish or ciscoes.

SPECIAL MANAGEMENT TAGS**6262.1000 SPECIAL FISH MANAGEMENT TAGS.**

Subpart 1. **Tag definition.** For purposes of this part, "tag" means a special fish management tag.

Subp. 2. **Special fish management species.** The following is a special fish management species and requires a tag:

Lake sturgeon (*Acipenser fulvescens*).

Subp. 3. **Tag requirements.** A person may not possess a special fish management species unless the person has a valid tag for that species. A tag is not required to angle for a special fish management species.

Subp. 4. **Eligibility.** A person applying for a tag must either possess a valid fishing license or be specifically exempt by law from the fishing license requirement. A person exempt by law from the fishing license requirement must still obtain a tag to legally possess a special fish management species.

Subp. 5. **Issuance.**

A. Upon application and payment of the required fee, the authorized licensing agent shall issue the appropriate number of tags and registration cards for the species requested. Each tag issued shall specify the species for which it is valid.

B. No more than one set of tags for each special fish management species may be purchased. A set is defined as the number of tags equal to the prescribed legal daily and possession limits for that species. Duplicate tags shall not be issued.

Subp. 6. **Tagging.**

A. Immediately after reducing a special fish management species to possession, a tag holder must validate and attach a tag to the fish. A tag holder may not affix any tag to the carcass of a special fish management species that the tag holder did not personally catch.

B. To validate a tag, the tag holder must use a sharp object to cut out or use a pen to indelibly mark the appropriate notch on the tag indicating:

- (1) the month the fish was taken;
- (2) the day of the month that the fish was taken; and
- (3) the time of day the fish was taken.

C. A tag must be attached to a special fish management species as described in this item and in such a manner that it cannot be readily removed before the fish is consumed or processed. For lake sturgeon, tag holders must attach the validated tag to the caudal peduncle (narrow portion of the body just in front of the tail fin) using string, twine, wire, or similar device.

Subp. 7. **Registration.** A tag holder must register a catch of a special fish management species within 48 hours of reducing it to possession by completing and mailing the registration card provided with the tag. The following registration information is required:

- A. tag holder information;
- B. date when reduced to possession;
- C. fish length;
- D. name of the water body where the fish was reduced to possession; and
- E. signature of permittee.

LAKE SUPERIOR FISHING GUIDES

6262.3000 LICENSE REQUIREMENTS FOR LAKE SUPERIOR FISHING GUIDES.

License applicants must be at least 18 years of age at the time the license is issued and possess a valid United States Coast Guard operator's license appropriate for the watercraft to be used. Applications are available from the License Bureau and must be submitted to the Lake Superior Area Fisheries Supervisor.

Statutory Authority: *MS s 97C.311; and others at 19 SR 6*

History: *19 SR 484*

Published Electronically: *June 11, 2008*

6262.3050 REQUIRED RECORD KEEPING.

Licensed Lake Superior fishing guides must keep accurate records on forms provided by the commissioner. Records must be kept on a monthly basis and must be submitted by the licensee so

that they are received by the Lake Superior area fisheries supervisor on or before the tenth day of each month for the preceding month. Records must be submitted whether or not the licensee engaged in guiding during the reporting month, except that records need not be submitted for the months of November through April unless the licensee has engaged in guiding during those months.

Failure to submit any required records three times or more in a two-year period will invalidate any subsequent application for licensure as a guide for up to a three-year period, upon determination by the commissioner.

MARKING FISH NETS

6262.3100 REQUIRED MARKING OF FISH NETS.

Fish nets, including minnow seines used by minnow dealers, must be marked, as provided by Minnesota Statutes, section 97C.351, as follows:

- A. pound nets must be marked on the top rope of the back side of the pound or crib;
- B. fyke nets must be marked on the top side of the end hoop opposite the lead;
- C. hoop nets must be marked on the top side of an end hoop;
- D. seines must be marked on one end of the float line near the first float; and
- E. gill nets must be marked on one end of the float line near the first float. One end of the gill net must have a pole, stake, or buoy projecting at least two feet above the surface of the water or ice.

6262.3200 PREPARATION AND PACKING OF FISH FOR TRANSPORTATION.

Subpart 1. **Restrictions on packing and wrapping fish.** All fish that are being transported or shipped by residents or nonresidents must be packed and wrapped in such a way that they may be readily unpacked, unwrapped, separated, examined, and counted.

Subp. 2. **Retention of patch of skin on dressed fish.** Except for bullheads, sunfish, and crappies, all dressed fish and fillets must retain, in a place other than the belly, a patch of skin, measuring at least one square inch, with scales intact. Dressed and filleted sauger will be counted as walleye.

Subp. 3. **Restriction on number of fillets per fish.** A fish may not be reduced to more than two fillets.

Subp. 4. **Restriction on fish with statewide length limits.** Fish having statewide length limits may only be possessed in the field, transported, or shipped undressed, except as provided by Minnesota Statutes, section 97A.551, subdivision 4.

Subp. 5. [Repealed, 28 SR 629]

Subp. 6. **Restrictions on special fish management species.**

A. A person may transport a tagged special fish management species during the open season and the two days following the season for that species.

B. A person other than the tag holder may transport a tagged special fish management species that the tag holder has registered if the fish has an additional informational tag attached to it, marked in indelible ink with the signature of the tag holder and the locations from which and to which the fish is being transported.

C. All tagged special fish management species must be transported in devices that readily allow for inspection.

D. Processing of a special fish management species may only be done at the tag holder's permanent residence, except:

- (1) as provided in part 6262.0100, subpart 5, item D;
- (2) when done for immediate consumption;
- (3) when at a temporary residence; or
- (4) when done by a licensed fish packer.

E. The validated special fish management species tag must be a part of the packaging and remain with the processed fish until all meat is consumed.

F. Special fish management species must be shipped undressed and must have the appropriate validated tag attached, except when packaged by a licensed fish packer.
