6310.2800 REGISTRATION RENEWAL REQUIREMENTS.**Subpart 1. Registration renewal application.**

A. The board shall provide a registration renewal notice at least three full calendar months before a licensee's registration expiration date using the last contact information provided by the licensee which constitutes official notification. Failure to receive the registration renewal notice sent by the board does not relieve the licensee of the obligation to renew registration by the expiration date.

B. A licensee shall submit the completed registration renewal application, fee, and continuing education report to the board in time for the application to be received in the board office by the registration expiration date. The board shall return an application that is received without a fee or an application that is incomplete. The licensee must resubmit the application and fee by the licensee's registration expiration date.

C. A licensee shall respond to questions on the application that relate to the grounds for disciplinary action listed in Minnesota Statutes, section 148.261. The licensee shall submit true information. Falsification or omission of information provides grounds for disciplinary action. The board may require further information of the licensee to determine whether the licensee has engaged in conduct warranting disciplinary action listed in Minnesota Statutes, section 148.261.

Subp. 2. **Fee.** The licensee shall submit the fee with the application for renewal by the registration expiration date. The fee must be made payable to the Minnesota Board of Nursing. The board shall return a fee that is received without an application or is made out incorrectly. The licensee shall resubmit the fee with an application by the licensee's registration expiration date. The fee is not refundable.

Subp. 3. [Repealed, 12 SR 102]

Subp. 3. **Continuing education.** A registered nurse shall participate in the ratio of at least one contact hour of acceptable continuing education for each month of registration. A licensed practical nurse shall participate in the ratio of at least one contact hour of acceptable continuing education for each two months of registration.

For a continuing education activity to be acceptable for renewal of registration, the criteria in items A to F must be met.

A. The content must be designed to enhance the licensee's ability to practice nursing. The content may include provision of patient-centered care, development of enhanced technical skills, application of evidence-based practice, working in interdisciplinary teams, quality improvement, or informatics. For licensees who are not engaged in direct patient care but who are required to be licensed as a nurse in their employment, the content may include topics that may assist the licensees in the performance of their responsibilities. Unacceptable content includes subject matter that is inaccurate, outdated, or not generally accepted within the health care community.

B. There must be written objectives that describe what a licensee can expect to learn.

C. The activity must be completed during the licensee's continuing education participation period.

D. The activity must be taught by someone other than the licensee.

E. The instructor must be qualified by education or experience to teach the content.

F. The following information regarding the continuing education activity must be obtainable by the licensee:

- (1) the written objectives for the activity or cluster of continuing education activities;
- (2) the name and qualifications of the instructor;
- (3) the contact hours or their equivalent assigned to the activity;
- (4) the dates of the activity;
- (5) the title of the activity; and
- (6) a statement of participation or certificate of completion that verifies that the licensee was present at or participated in the activity.

Subp. 4. [Repealed, 42 SR 441]

Subp. 4a. Exceptions.

A. Exceptions to documentation of continuing education are listed in this subpart.

B. Evidence of written learning objectives is not required when the continuing education activity has been approved by another health licensing board or health-related professional association. All other requirements of subpart 3, item F, must be met.

C. Evidence of written learning objectives is not required when a licensee submits current certification from a national professional nursing organization consistent with nursing practice standards or a medical organization consistent with medical practice standards. The certificate must be based on meeting initial certification or recertification requirements that include meeting periodic continuing education requirements or other competency certification requirements. The licensee

shall not use the practice specialty certificate as a substitute for any previously deferred contact hours.

Subp. 5. **Other acceptable continuing education activities.** A licensee may do one of the following for continuing education within the licensee's participation period and apply contact hours to the activity:

A. publish an article in a peer-reviewed journal or book on nursing or health care related issues;

B. deliver a professional paper related to nursing or health care;

C. serve as a member of a national panel that addresses nursing or health care related issues;

or

D. serve as principal investigator or coinvestigator for a nursing or health care related research study.

Subp. 5a. **Continuing education report.** Confirmation of continuing education shall be a part of the renewal of registration application. Each licensee shall verify that the continuing education activities used to meet the licensee's renewal requirements meet all the criteria in subparts 3, 4a, and 5, and that the information is true in every respect.

Subp. 6. [Repealed, 18 SR 468]

Subp. 6a. **Application deadline.** The registration renewal application, registration renewal fee, and continuing education report must be received in the board office by the licensee's registration expiration date.

If the licensee's registration renewal application, registration renewal fee, and continuing education report are received in the board office after the registration expiration date, the applicant is not eligible for renewal of registration. The board shall return the application and fee to the licensee. The board shall provide a reregistration application to the licensee. The licensee may not practice nursing after the registration expiration date until reregistration requirements have been met as specified in part 6310.3100.

Subp. 6b. **Incomplete application notice.** If the board receives an incomplete renewal application and fee by the registration expiration date, the board shall notify the licensee of any deficiency. On the deficiency notice, the board shall note if the application, the continuing education report, or the fee submitted by a licensee is incomplete, incorrect, or not in compliance with this part. The licensee may not practice nursing after the registration expiration date until registration requirements have been met. The registration renewal application, fee, and other documents will be retained by the board whenever possible.

Subp. 6c. **Insufficient hours.** If a licensee does not have enough contact hours of acceptable continuing education, the licensee has the options listed in items A and B.

A. The licensee may defer the number of contact hours that the licensee is lacking. The deferred hours shall be added to the contact hours required in the immediately succeeding continuing

education participation period. Contact hours may be deferred if there are no current deferred contact hours required of the licensee. If the licensee is deferring a fraction of a contact hour, a whole contact hour must be deferred. If the licensee does not renew for the continuing education participation period that included the deferred hours, the deferred hours shall be required for reregistration.

B. The licensee may allow registration to expire and reregister.

Subp. 6d. **Noncompliance with continuing education requirement.** A licensee provides grounds for disciplinary action if the licensee does not meet one of the options for insufficient hours in subpart 6c or fails an audit and is not eligible to defer.

Subp. 7. **True information.** The licensee shall submit true, complete, and accurate information. Falsification of any evidence for any registration period or falsification or omission of information provides grounds for disciplinary action.

Subp. 8. **Retention of information.** Each licensee shall keep information documenting each continuing education activity submitted to meet registration renewal requirements. The licensee shall retain the information for two years after the continuing education activities are reported to the board.

Subp. 9. **Variance.** On presentation of convincing evidence by a registration or reregistration applicant, the board shall grant a variance from the following requirements:

- A. for a receipt deadline, evidence of mail delay;
- B. for a fee, evidence of financial hardship;
- C. for document submission, evidence of loss of records through fire or other disaster; and
- D. for the required number of continuing education contact hours, evidence of unexpected illness or personal tragedy.

Subp. 10. **Exemption from renewal of registration.** Pursuant to Minnesota Statutes, section 326.56, a licensee who is in the armed forces of the United States or is employed outside the United States in employment which is essential to the prosecution of any war or the national defense, and whose registration was in effect at the time of entry into the armed forces or engagement in employment outside the United States, is not obligated to renew registration. The board must be notified in writing by the licensee regarding the qualifications for this exemption. The exemption ceases six months after discharge from active duty or termination of the aforementioned employment. A registration renewal notice shall be sent to the licensee at the time that a registration renewal notice would normally be sent to the licensee. The licensee may be requested to reconfirm exempt status. If the licensee no longer qualifies for the exemption, the requirements for registration renewal must be met. The required number of contact hours are calculated based on the number of months since the exemption ceased to the month of the registration renewal expiration date and according to the ratio specified in subpart 3.

Subp. 11. **Nullification of incomplete registration renewal.** The board shall nullify incomplete registration renewal applications that are not completed, returned, and received by the board within 30 days following notification of the deficiency or by the licensee's registration expiration date, whichever is later. For a nullified application, the fee shall be forfeited and the application and other documents may be destroyed according to Minnesota Statutes, section 138.17, subdivision 7.

Subp. 12. **Removal of name from list.** The name of a licensee who does not return the complete renewal application and fees by the registration expiration date shall be removed from the list of individuals authorized to practice advanced practice, professional, or practical nursing.

6310.3000 SUBSTANTIATION OF PARTICIPATION IN CONTINUING EDUCATION.

Subpart 1. **Substantiation of continuing education activity.** At the time of renewal, the board shall randomly select a sample of licensees and require substantiation of participation in the activities that the licensees confirmed on their continuing education report. The licensee shall submit documents or written statements that verify the information in part 6310.2800, subpart 3, item F.

Licenses who participated in other acceptable continuing education listed in part 6310.2800, subpart 4a, with required documentation or subpart 5 with submission of all or a portion of the article, book, paper, study, research, or brochure that verifies participation as a panel member.

Failure to substantiate the hours with the required information shall result in the hours being automatically deferred to the next participation period unless the licensee is not eligible to do so. At the next renewal or reregistration, the licensee shall substantiate participation in all the hours of continuing education required for that reporting period including the automatically deferred hours. Failure to substantiate the hours at this time shall provide grounds for disciplinary action.

Subp. 2. **Substantiation after deferment.** For licensees who have deferred continuing education hours on record, except those automatically deferred as indicated in subpart 1, the board shall randomly select a sample of licensees and require substantiation of participation in the activities that the licensees must report. The licensee shall submit substantiation of participation in all of the continuing education hours required for that participation period, the deferred hours, and the regular hours. The licensee shall submit documents or written statements that verify the information listed in subpart 1.

6310.3100 PROFESSIONAL AND PRACTICAL NURSE REREGISTRATION REQUIREMENTS.

Subpart 1. **Reregistration application.** A licensee shall obtain a reregistration application from the board. A licensee shall submit an application for reregistration and respond to questions on the application that relate to the grounds for disciplinary action listed in Minnesota Statutes, section 148.261. The licensee shall submit true information. Falsification or omission of information provides grounds for disciplinary action. The board may require further information of the licensee to determine whether the licensee has engaged in conduct warranting disciplinary action listed in Minnesota Statutes, section 148.261. The board shall return an application that is received without a fee or an application that is incomplete.

Subp. 2. [Repealed, L 2012 c 197 art 2 s 45]

Subp. 2a. **Continuing education; report.** Licensees whose registrations expired within the two years preceding application for reregistration shall report participation in the required number of acceptable continuing education hours. To fulfill this requirement, the criteria in items A to D must be met.

A. The number of contact hours required are the number of hours the licensee was responsible for at the time registration expired, including any deferred hours.

B. To be acceptable, the continuing education must meet the requirements specified in part 6310.2800, subpart 3, with the exception of item C, or part 6310.2800, subpart 4a or 5.

C. Participation must have occurred during the 24 months immediately preceding board action on the application for reregistration.

D. The board shall provide a method for reporting continuing education. In the report of continuing education, the board shall require the name of the activity, the date of the activity, and the number of contact hours for each of the activities. The licensee shall report participation in the required acceptable continuing education. A professional nurse who has been certified in a nursing specialty may submit a copy of the practice specialty certificate in lieu of reporting participation in the continuing education contact hours. The copy of the current certificate must be attached to the report of continuing education. Each licensee shall verify that the continuing education activities met all the criteria specified in part 6310.2800, subpart 3, items A, B, and D to F; 4a; or 5, and that the information contained on the continuing education report is true in every respect.

Subp. 2b. **Deferred contact hours.** A licensee who has deferred continuing education contact hours on record shall make up the deferred contact hours before board action on the application for reregistration. The licensee shall submit a report of participation in the required number of contact hours and submit the substantiating documents required in part 6310.3000, subpart 1. The board shall audit the substantiating documents to be certain that the requirements in part 6310.3000, subpart 1, have been met.

Subp. 2c. **Acceptable nursing practice requirement.** A licensee shall submit proof of acceptable nursing practice that occurred within the two years immediately preceding receipt by the board of the application for reregistration. Verification of acceptable nursing practice must be reported on a form provided by the board. If the licensee was employed or contracted by an institution or agency, an employer or contractor shall complete the verification. If the licensee was employed by a patient, a patient's family or significant other shall complete the form. If the licensee volunteered, the volunteer supervisor shall complete the form. If the employer is no longer in business, the party responsible for providing employment verifications for that employer shall complete the form.

Subp. 3. [Repealed, 12 SR 102]

Subp. 4. [Repealed, 12 SR 102]

Subp. 5. [Repealed, 15 SR 838]

Subp. 6. **Additional continuing education in lieu of acceptable nursing practice.** A licensee who has not been engaged in acceptable nursing practice within the two years preceding receipt by the board of the application for reregistration must comply with items A to D:

A. A licensee must report the number of months since the licensee's last date of acceptable nursing practice.

B. A licensee must submit a verification of acceptable nursing practice.

C. A licensee must participate in and report participation in acceptable continuing education as specified in part 6310.2800, subparts 3, items A, B, D, and E; and 5. The licensee must complete the required number of contact hours of continuing education. The registered nurse must complete one contact hour of acceptable continuing education for each month that the licensee was not

engaged in acceptable practice. The licensed practical nurse must complete one contact hour for every two months that the licensee was not engaged in acceptable practice. The maximum hours required are 60 hours for a registered nurse and 30 hours for a licensed practical nurse. The continuing education must be reported on the form provided by the board.

D. If the licensee has not engaged in acceptable nursing practice for more than five years, the licensee must successfully complete a refresher course that meets board criteria. The licensee shall complete the refresher course within the 24 months immediately preceding board action on the application for licensure.

The licensee shall report the successful completion of the refresher course on an affidavit provided by the board. The affidavit must be signed by the person responsible for the refresher course. Successful completion of a refresher course will meet current and deferred continuing education requirements.

Subp. 7. **Temporary permit to practice.** The licensee shall have a temporary permit to practice prior to participating in the clinical component of a refresher course. A temporary permit may be issued if a degree granting program requires it.

Subp. 7a. **Clinical component temporary permit to practice.** To obtain a temporary permit to complete the clinical portion of a refresher course if being taken in Minnesota, a licensee shall submit the completed reregistration application, fee, and a statement of intent to participate in a refresher course. The statement of intent must be signed by the person responsible for the refresher course. The statement of intent must contain the request for a temporary permit. The board shall issue a temporary permit after the application, fee, and statement of intent have been received and evaluated for compliance with this chapter. The board shall issue the temporary permit for no more than 90 days. The temporary permit is valid only for practice as a part of the refresher course. While the temporary permit is in effect, the registered nurse may use the title registered nurse, abbreviated "RN," and a licensed practical nurse may use the title licensed practical nurse, abbreviated "LPN." If there is a delay in the completion of the clinical portion of the refresher course, the licensee shall complete another statement of intent. The board shall issue another temporary permit for no more than 90 days.

Subp. 7b. **Affidavit of successful completion of a refresher course.** The licensee who must successfully complete a refresher course shall submit the affidavit of successful completion of a refresher course. The affidavit of successful completion must be signed by the person responsible for the refresher course.

Subp. 8. **Licensees residing outside Minnesota.** A licensee residing outside of Minnesota applying for reregistration for the purpose of obtaining verification of current registration status to another country or United States jurisdiction must have an out-of-state address and submit a verification of licensure request from another jurisdiction. The verification of licensure request must be submitted with the reregistration application. The fee for verification must be separate from the fee for reregistration.

Subp. 10. [Repealed, 18 SR 468]

Subp. 11. [Repealed, 18 SR 468]

Subp. 12. [Repealed, 18 SR 468]

Subp. 13. **Disciplinary action.** Nothing in this part shall be construed as preventing the board from proceeding with disciplinary action pursuant to Minnesota Statutes, section 148.261. Grounds for the board to proceed with disciplinary action include, but are not limited to, practicing nursing without current registration for more than two years, repeated occurrences of practicing nursing without current registration, or knowingly practicing nursing without current registration.

Subp. 14. **Nullification and reapplication.** The board shall nullify an incomplete reregistration application if the licensee fails to complete the application process within one year after submission of the application. For a nullified application, the reregistration shall be forfeited and the application and other documents may be destroyed according to Minnesota Statutes, section 138.17, subdivision 7. If a licensee fails to submit an application and fee within six months after the board received any other documents relating to the application, the board may destroy the documents. Licensees shall participate in the number of contact hours of acceptable continuing education according to the number of full months in the initial registration period. For licensed practical nurses, the number of contact hours is one contact hour for every two months of registration. For registered nurses, the number of contact hours is one contact hour for every month of registration. The continuing education must meet the criteria in part 6310.2800.
