

**7011.1110 STANDARDS OF PERFORMANCE FOR EXISTING OUTSTATE COAL HANDLING FACILITIES.**

The owner or operator of an existing coal handling facility which is located outside the Minneapolis-Saint Paul Air Quality Control Region and outside the boundaries of the city of Duluth shall comply with part 7011.0150 for the control of fugitive particulate emissions. For the purposes of this part, "existing coal handling facility" means a coal handling facility on which construction, modification, or reconstruction did not commence after November 17, 1980.
