

7017.2050 PERFORMANCE TEST METHODS.

Subpart 1. **Test methods.** Unless a different method is given in an applicable requirement or compliance document, the owner or operator of an emission facility shall conduct performance tests using the methods incorporated by reference in part 7017.2010 and following the requirements in part 7017.2060, unless an alternative or equivalent method is approved or required by the commissioner in accordance with subpart 2. If the methods incorporated by reference include exemptions and exclusions that do not meet the requirements of parts 7017.2001 to 7017.2060, the exemptions and exclusions do not apply.

Subp. 2. **Alternative or equivalent test methods.** In lieu of the test method described in subpart 1, the commissioner may, if the performance test is not required for demonstration of compliance with a federal regulation:

A. specify or approve minor changes that will not adversely affect the precision or scope of the test method as applied to the conditions of the performance test;

B. approve the use of an equivalent method; or

C. approve the use of an alternative method.
