#### 7410.2400 VISION.

Subpart 1. **In general.** Every applicant shall submit to a vision screening or examination. The purpose of the vision screening is:

A. to screen applicants to ensure that those with insufficient vision take the steps required to achieve the best vision possible; and

B. to deny driving privileges to those whose vision is likely to interfere with the safe operation of motor vehicles.

Subp. 1a. **Definitions.** The terms used in this part have the following meanings:

A. "Visual acuity" means acuteness or sharpness of vision.

B. "Visual field" means the area within which an object may be seen when the eye is fixed.

Subp. 2. **Unrestricted/corrective lens restriction.** The applicant, if otherwise eligible, will be considered for an unrestricted driver's license or a driver's license with a corrective lens restriction if the applicant meets the following visual standards:

A. visual acuity of 20/40 or better, with either one usable eye or with both eyes, with or without corrective lenses; and

B. visual field of 105 degrees or greater in the horizontal diameter with either one usable eye or with both eyes.

If the applicant needs corrective lenses to meet the visual acuity standards or if a licensed physician or an optometrist recommends that the applicant wear corrective lenses, the applicant must wear the corrective lenses while operating a motor vehicle.

If a licensed physician or an optometrist recommends that corrective lenses not be worn, the commissioner shall impose suitable restrictions, if applicable, upon the applicant's driving privileges.

Subp. 3. [Repealed, 20 SR 2122]

Subp. 4. **Vision examinations.** An applicant shall submit a vision examination certificate from a licensed physician or an optometrist in a form as prescribed by the commissioner when:

D. the commissioner has good cause to believe that an examination is warranted;

E. the applicant has double vision;

F. the applicant's visual acuity is less than 20/40 with either one usable eye or with both eyes, with or without corrective lenses; or

G. the applicant's visual field is less than 105 degrees in the horizontal diameter with either one usable eye or with both eyes.

An applicant's vision examination must have been conducted within six months of completion of the vision examination certificate.

Subp. 5. **Restricted license; vision requirements.** If otherwise eligible, and subject to subpart 5a, an applicant will be issued a restricted license to drive if the applicant has:

A. visual acuity of 20/50 or less corrected vision with either one usable eye or with both eyes;

or

B. visual field of less than 105 degrees in the horizontal diameter with either one usable eye or with both eyes.

Subp. 5a. **Restricted license; driving restrictions.** An applicant eligible for a restricted license under subpart 5 shall comply with the applicable restrictions on driving described in items A to E.

A. Speed restrictions.

20/50	55 miles per hour
20/60	50 miles per hour
20/70	45 miles per hour

B. Restriction as to type of road. An applicant subject to speed restrictions under item A may also be restricted to those roads having a maximum speed limit equal to the maximum speed limit imposed upon the applicant, if the commissioner determines that the restriction is necessary for the safety of the applicant and the public. A person limited to a maximum speed of 45 m.p.h. or less is prohibited from driving on any freeway, expressway, or limited access highway that has a speed limit of more than 45 m.p.h.

C. Area restrictions. An applicant with visual acuity of 20/50 or less corrected vision may be restricted to driving within an area to be determined by the commissioner, if the commissioner determines that the restriction is necessary for the safety of the applicant and the public.

D. Daylight restriction. An applicant with visual acuity of 20/50 or less corrected vision may be restricted to daylight hours to be determined by the commissioner if the commissioner determines that the restriction is necessary for the safety of the applicant and the public.

E. Equipment restriction. An applicant with a visual field of less than 105 degrees in the horizontal diameter with either one usable eye or with both eyes must be restricted to driving with left and right outside rearview mirrors or restrictions in items A to E, if the commissioner determines that the restriction is necessary for the safety of the applicant and the public.

Subp. 6. **Other situations.** When the applicant's visual acuity is 20/80 or up to, but not including, 20/100 corrected vision, or when the applicant has any vision readings or problems not covered by the above general standards, the application will be referred to the driver evaluation unit, who shall determine whether a restricted license can be issued and the kinds of restrictions that are necessary to ensure that the applicant does not pose an unreasonable safety risk to the applicant personally or to others.

Subp. 7. **License denial/cancellation.** An applicant's driver's license will be denied or an existing driver's license will be canceled under the authority of Minnesota Statutes, sections 171.04, subdivision 1, clause (11), 171.14, and 171.32, when:

#### **7410.2500 LOSS OF CONSCIOUSNESS OR VOLUNTARY CONTROL.**

Subpart 1. **Scope.** This part applies to drivers and applicants for driving privileges who have experienced a periodic or episodic loss of consciousness or voluntary control. This part applies regardless of whether the driver or applicant has an aura or warning of imminent seizure or attack or whether the driver or applicant has only had nocturnal attacks.

Subp. 1a. **Definition.** In this part, "loss of consciousness or voluntary control" means inability to assume and retain upright posture without support or inability to respond rationally to external stimuli.

Subp. 2. **Reports required.** A person shall report an episode of loss of consciousness or voluntary control, in writing, to the department:

- A. at the time of applying for a driver's license, if an applicant has experienced an episode; or
- B. within 30 days after the episode, if a driver experiences an episode.

Each report must specify the date of the episode and must be accompanied by a physician's statement in a form prescribed by the commissioner.

Subp. 2a. **Failure to report; misrepresentation.** If a driver or applicant has reason to know the requirements of subpart 2 and fails to submit a report required under that subpart or willfully makes a material misrepresentation to the department concerning a loss of consciousness or voluntary control:

- A. the commissioner shall cancel or deny the person's driving privilege for six months from the date the failure to report or misrepresentation is discovered by the department; or
- B. if the loss of consciousness or voluntary control is due to the abuse of alcohol or a controlled substance, the commissioner shall cancel or deny the person's driving privilege for one year from the date the failure or misrepresentation is discovered by the department.

Subp. 3. **Cancellation.** If the commissioner has good cause to believe that a driver or applicant has experienced an episode of loss of consciousness or voluntary control as described in subpart 1, or if a physician's report required by subpart 2 indicates an unfavorable prognosis for control of the person's condition, the commissioner shall cancel or deny the person's driving privileges until three months have elapsed since the episode or diagnosis and until the person submits a physician's report that indicates a favorable prognosis for episode free control of the person's condition, indicates that the person is cooperating in the treatment of the condition, and indicates that the person is medically qualified to exercise reasonable and proper control over a motor vehicle on the public roads, except as provided in items A to D.

A. If the driver or applicant submits a physician's statement that indicates that the episode resulted from a change or removal of medication on physician's orders and the physician does not recommend cancellation or denial of the person's driving privileges, the commissioner shall not cancel or deny the person's driving privileges.

B. If the driver or applicant submits a physician's statement that the episode was the first episode experienced by the person and the physician does not recommend cancellation or denial of the person's driving privileges, the commissioner shall not cancel or deny the person's driving privileges.

C. The commissioner shall not cancel or deny the person's driving privileges if the driver or applicant submits a physician's statement indicating:

(1) that the episode was the first episode experienced by the driver or applicant in four or more years;

(2) that the episode was due to intervening and self-limiting temporary illness, treated by a physician, or to the driver or applicant forgetting to take the medication; and

(3) that the short and long term prognoses for episode free control of the person's condition are favorable.

D. If the loss of consciousness or voluntary control is reported and is due to alcohol or controlled substance abuse, and is not the first episode experienced by the driver or applicant, the commissioner shall cancel or deny the person's driving privileges for a year from the date of the episode.

Subp. 4. **Reinstatement.** For reinstatement, the commissioner shall require (1) a physician's statement that indicates a favorable prognosis for episode free control of the person's condition, indicates that the person is cooperating in the treatment of the condition, and that indicates the person is medically qualified to exercise reasonable and proper control over a motor vehicle on the public roads, and (2) a satisfactory statement from the driver or applicant stating the date of the last loss of consciousness or voluntary control.

Subp. 5. **Review of driver's condition.** Except as otherwise provided in items A to E, a driver who has experienced a loss of consciousness or voluntary control shall submit an annual physician's statement on a form prescribed by the commissioner, regarding the driver's medical history, present situation, and the prognosis with respect to the driver's ability to operate a motor vehicle with safety to the driver and others.

A. When a driver or applicant submits a physician's statement indicating that loss of consciousness or voluntary control resulted from a change or removal of medication on physician's orders and the physician does not recommend cancellation or denial of the person's driving privileges, the commissioner shall require a physician's statement every six months for a year, or at shorter intervals as recommended by the reporting physician.

B. When a driver submits a physician's statement indicating that the episode of loss of consciousness or voluntary control was the first episode experienced by the driver and the physician does not recommend cancellation or denial of the person's driving privileges, the commissioner shall require a physician's statement every six months for a year, or at shorter intervals as recommended by the reporting physician.

C. When the driver fulfills the requirements of subpart 3, item C, the commissioner shall require a physician's statement every six months for a year, or at shorter intervals as recommended by the reporting physician.

D. When the commissioner has good cause to believe that the driver's condition is not controlled, the commissioner shall require a physician's statement every six months, or at shorter intervals as recommended by the reporting physician.

E. If a driver has been free from episodes of loss of consciousness or voluntary control for four years, the commissioner shall require a physician's statement every four years, unless the physician recommends more frequent reports.
