7873.0170 QUINELLA.

Subpart 1. **Scope.** The winning quinella combination shall be the first two horses of separate betting interests to finish the race. The order in which the horses finish is immaterial. All tickets on the quinella must be calculated in an entirely separate pool.

Subp. 2. **No winning combinations sold.** The following calculations shall be used when no winning quinella combinations are sold:

A. If there are no tickets sold on the winning combinations in a quinella race, all quinella tickets bearing the number of the individual win horse and all quinella tickets bearing the number of the individual place horse shall be deemed winning tickets and the payoff shall be calculated as a place pool.

B. If there are no tickets sold on the winning combination in a quinella race and if there are no quinella tickets sold with the number of the individual win horse, all quinella tickets bearing the number of the individual place horse shall be deemed winning tickets and the payoff shall be calculated as a win pool.

C. If there are no tickets sold on the winning combination in a quinella race and if there are no quinella tickets sold bearing the number of the individual place horse, all quinella tickets bearing the number of the individual win horse shall be deemed winning tickets and the payoff shall be calculated as a win pool.

D. If there are no tickets sold on the winning combinations in a quinella race and if there are no quinella tickets sold bearing the number of the individual win horse and if there are no quinella tickets sold bearing the number of the individual place horse, the quinella shall be deemed "no race" and all money in the quinella pool shall be promptly refunded.

Subp. 3. **If only one horse finishes, race declared "no race."** If only one horse finishes in a quinella race, the quinella shall be deemed "no race" and all money in the quinella pool shall be promptly refunded.

Subp. 4. **Dead heats.** The following calculations shall be used in the event of dead heats.

A. If there is a two horse dead heat for win in a quinella race, the two horses involved in the dead heat shall be the winning quinella combination.

B. If a multiple dead heat for win results, all horses involved in the dead heat shall be the winning combinations. Example: if numbers 1, 3, 5, and 7 dead heat for win, the winning quinella combinations would be 1-3, 1-5, 1-7, 3-5, 3-7, and 5-7. The net pool, after deducting the amounts wagered on the winning combinations will be equally distributed in payoff calculations on the winning combinations.

C. If there is a two horse dead heat for place in a quinella race, the total pool is calculated as a place pool.

D. If a multiple dead heat for place results in a quinella race, all combinations coupling the winning horse with the individual place horses shall be winners of the quinella race and payoffs calculated accordingly.
