(2) provide a statement on the facility's letterhead that the individual is an employee of the facility that is signed and dated by a manager or equivalent officer of the facility. The statement must be in substantially the following form:

Let it be known and recorded that [insert employee name here] is an employee of [insert residential facility name here], a residential facility as defined in Minnesota Statutes, section 201.061, subdivision 3, paragraph (c), and by my signature I certify that this is true as of the date signed.

[signature]

[date]

Printed Name of Residential Facility Manager or Equivalent Officer

If the letterhead on which the document submitted under subitem (1) or (2) does not include the address of the residential facility in the precinct, the document must also include this address.

The oaths in items D and E must be attached to the voter registration application and retained for at least 22 months.

Subp. 2. **Additional proof of residence allowed.** An eligible voter may prove residence under this subpart by presenting one of the photo identification cards listed in item A and one of the additional proofs of residence listed in item B.

A. The following documents are acceptable photo identification cards under this subpart if they contain the voter's name and photograph:

- (1) a Minnesota driver's license or identification card;
- (2) a United States passport;
- (3) a United States military identification card;
- (4) a student identification card issued by a Minnesota postsecondary educational institution; or

(5) a tribal identification card issued by the tribal government of a tribe recognized by the Bureau of Indian Affairs, United States Department of the Interior, that contains the individual's signature.

B. An original bill for:

- (1) telephone, television, or Internet provider services, regardless of how those telephone, television, or Internet provider services are delivered; or

(2) gas, electric, solid waste, water, or sewer services,

is acceptable as an additional proof of residence under this subpart if:

- (a) the bill shows the voter's name and current address in the precinct; and
- (b) the due date on the bill is within 30 days before or after election day.

A rent statement from a landlord that itemizes utility expenses and meets the requirements of this item is a utility bill for purposes of providing proof of residence;

(3) a current student fee statement that contains the student's valid address in the precinct is also acceptable as proof of residence.

If the photo identification presented by the voter establishes the voter's identity and the additional proof of residence presented by the voter establishes the voter's current address in the precinct, the voter shall have proven residence under this subpart.

C. The secretary of state shall provide samples of utility bills acceptable as additional proof of residence under item B to local election officials for use in election judge training and in the polling place on election day.

Subp. 3. **Additional proof of residence allowed for students.** An eligible voter may prove residence by presenting a current valid photo identification issued by a postsecondary educational institution in Minnesota if the voter's name, student identification number (if available), and address within the precinct appear on a current list of persons residing in the postsecondary educational institution's housing certified to the county auditor by the postsecondary educational institution.

This additional proof of residence for students must not be allowed unless the postsecondary educational institution submits to the county auditor no later than 60 days prior to the election a written agreement that the postsecondary educational institution will certify for use at the election accurate updated lists of persons residing in housing owned, operated, leased, or otherwise controlled by the postsecondary educational institution. A written agreement is effective for the election and all subsequent elections held in that calendar year, including the November general election which is instead governed by subpart 4.

The additional proof of residence for students must be allowed on an equal basis for voters resident in housing of any postsecondary education institution within the county, if lists certified by the postsecondary educational institution meet the requirements of this part.

An updated list must be certified to the county auditor no earlier than 20 days prior to each election. The certification must be dated and signed by the chief officer or designee of the postsecondary educational institution and must state that the list is current and accurate and includes only the names of persons residing as of the date of the certification in housing controlled by the postsecondary educational institution.

The auditor shall instruct the election judges of the precinct in procedures for use of the list in conjunction with photo identification. The auditor shall supply a list to the election judges with the election supplies for the precinct.

The auditor shall notify all postsecondary educational institutions in the county of the provisions of this subpart and subpart 4.

Subp. 4. **Additional proof of residence allowed for students at November general elections.** An eligible voter may prove residence at the general election held in November of each year by presenting a current valid photo identification issued by a postsecondary educational institution in Minnesota if the

voter's name, student identification number (if available), and address within the precinct appear on a list of students certified to the secretary of state by the postsecondary educational institution.

This additional proof of residence for students must not be allowed unless the postsecondary educational institution submits to the secretary of state no later than 60 days prior to the November general election an agreement that the postsecondary educational institution will certify for use at the November general election an accurate updated list of persons residing in housing owned, operated, leased, or otherwise controlled by the postsecondary educational institution.

The agreement may also include a provision that the postsecondary educational institution will certify for use at the November general election an accurate updated list of currently enrolled students who are recorded with the postsecondary educational institution as residing in Minnesota.

The additional proof of residence must be allowed on an equal basis if lists certified by the postsecondary educational institution meet the requirements of this part.

An updated list must be certified to the secretary of state no earlier than 30 and no later than 25 days prior to the November general election, in an electronic format specified by the secretary of state. The certification must be dated and signed by the chief officer or designee of the postsecondary educational institution and must state that the list is current and accurate and includes only the names of persons residing in housing controlled by the postsecondary educational institution or, if the postsecondary educational institution agreed, currently enrolled students residing in Minnesota as of the date of certification.

The secretary of state must combine the data received from each postsecondary educational institution under this subpart and must process the data through the automated precinct-finder to determine the precinct in which the address provided for each student is located. If the data submitted by the postsecondary educational institution is insufficient for the secretary of state to determine the proper precinct, the associated student name must not appear in any list forwarded to a county auditor under this subpart. At least 14 days prior to the November general election, the secretary of state must forward to the appropriate county auditor lists of students containing the students' names and addresses for which precinct determinations have been made along with their postsecondary educational institutions. The lists provided by the secretary of state must be sorted by precinct and student last name and must be forwarded to the county auditors in an electronic format specified by the secretary of state. Alternatively, the list provided to the county auditors may be provided in another medium, if a written agreement specifying the medium is signed by the secretary of state and the county auditor at least 90 days before the November general election. A written agreement is effective for all elections until rescinded by either party.

The auditor shall instruct the election judges of the precinct in procedures for use of the list in conjunction with photo identification. The auditor shall forward to the election judges the portion of the list provided by the secretary of state corresponding to the precinct with the election supplies for that precinct.

When a voter's registration has been challenged pursuant to Minnesota Statutes, section 201.121, subdivision 2, an indicator noting the voter's challenged status must be printed on the line provided for the voter's signature. STATEWIDE REGISTRATION SYSTEM

8200.9305 ADMINISTRATION OF STATEWIDE REGISTRATION SYSTEM.

The secretary of state shall develop and operate a centralized database of all registered voters in the state of Minnesota. The database must be available to each county in the state through a statewide registration system provided by the secretary of state. The registration system must allow the secretary of state and the county auditors to add or modify information from the system in order to maintain an accurate database of registrants. The system must provide all county auditors and the secretary of state and, within a reasonable time after the system is initially implemented, municipal and school district clerks, with a method to view and search registration information.

A county auditor must use the statewide registration system to execute the duties of chief registrar of voters and chief custodian of registration records in the auditor's county.

8200.9310 TREATMENT OF VOTER REGISTRATION APPLICATIONS.

Subpart 1. **Transmission of voter registration applications.** A completed voter registration application may be submitted to any state agency or county auditor. The secretary of state shall provide training to state agencies on the proper forwarding of voter registration applications. Voter registration applications submitted to the secretary of state must be forwarded to the appropriate county auditor for entry into the statewide registration system. With the approval of the appropriate county auditor, the secretary of state shall enter the registration applications into the statewide registration system for that county.

The secretary of state may electronically transmit the information on the voter registration applications to the appropriate county auditor. The county auditor shall promptly enter the information into the statewide registration system. The original applications submitted to the secretary of state must be maintained either by the secretary of state or by the appropriate county auditor. Voter registration applications must be stored in either paper, microfilm, or electronic format.

The secretary of state shall have full access to all functions of the statewide registration system.

Subp. 2. Verification; defined; notification.

A. Verification means:

(1) that the information provided by the applicant on the voter registration application for all of the following categories matches the information in the same categories of the database maintained by the Department of Public Safety or in the database of the Social Security Administration if the applicant has no driver's license or identification card:

- (a) name;
- (b) date of birth;
- (c) Minnesota driver's license or Minnesota state identification card number; or
- (d) last four digits of Social Security number, if the applicant has not been issued a Minnesota driver's license or Minnesota state identification card.

If a voter has not been issued a Minnesota driver's license, a Minnesota state identification card, or a Social Security number, and the voter has so indicated on the voter's voter registration application, units (c) and (d) are inapplicable and the registration is verified; or

(2) that if after matching the information listed in subitem (1), even though the information may not be an exact match, the county auditor can still reasonably conclude that the information in the database of the Department of Public Safety, or in the database of the Social Security Administration if the applicant has no driver's license or identification card, and the information provided by the applicant on the voter registration application, relate to the same person, in which case the county auditor shall note in the statewide registration system the basis for the conclusion.

B. The secretary of state must attempt to verify information entered into the voter registration system as a result of new voter registration applications by comparing the information stored by the voter registration system with information contained in the database maintained by the Department of Public

Safety. The secretary of state must provide reports on attempted verifications that show the information of record in each database and that list:

(1) voter registration applications that match the information in the Department of Public Safety database or, in the case of an applicant who does not have a Minnesota driver's license or Minnesota identification card in the database of the Social Security Administration, and that are therefore verified;

(2) voter registration applications that cannot be verified with certainty against the information in the Department of Public Safety database or, in the case of an applicant who does not have a Minnesota driver's license or Minnesota identification card, in the database of the Social Security Administration. The report must match and contrast the information contained in the several databases; and

(3) voter registration applications with Minnesota drivers' license numbers, Minnesota identification card numbers, or if the applicant has no driver's license or identification card, the last four digits of the applicant's Social Security number that do not match the numbers of record in the Department of Public Safety database or, in the case of an applicant who does not have a Minnesota driver's license or Minnesota identification card, in the database of the Social Security Administration.

The reports prepared by the secretary of state must include a separate list of potential matches for incomplete mail-in registrations described in Minnesota Statutes, section 201.061, subdivision 1a.

C. The county auditor must review the reports provided by the secretary of state of records that have not been verified with certainty within ten days after the reports become available in the statewide voter registration system. The auditor must attempt to match the information on the voter registration application with the information in the database maintained by the Department of Public Safety or, in the case of an applicant who does not have a Minnesota driver's license or Minnesota identification card, in the database of the Social Security Administration, to permit the auditor to verify the information supplied on the voter registration application. The auditor shall attempt to obtain from the applicant any needed information by mail or, if a telephone number or an e-mail address was provided by the applicant, by telephone or e-mail. The auditor must record on the voter record in the statewide voter registration system each registration verified in this manner.

If the auditor cannot verify information for a registration, the auditor must record that the information supplied on the voter registration application could not be verified and is incomplete pursuant to Minnesota Statutes, section 201.121, subdivision 1.

Subp. 3. **Correction.** If a Minnesota driver's license number or Minnesota state identification card number supplied by the applicant cannot be verified because it does not exist in the Department of Public Safety database, the secretary of state or the county auditor shall correct the voter record to indicate that the number must not be used as the verification number on the voter record. In the case of an applicant who does not have a Minnesota driver's license number, Minnesota identification card number, or Social Security number that can be verified by comparison with the Department of Public Safety database, or in the database of the Social Security Administration, if the applicant has no Minnesota driver's license or Minnesota identification card, the unique voter record number generated by the statewide voter registration system must be used as the verification number for the record.

Subp. 4. [Repealed, 31 SR 350]

Subp. 5. **Updates.**

A. A voter with an active voter registration may change the information on record by submitting a voter registration application meeting all the requirements for a new voter registration application.

B. If, after matching the updated information with the information contained in the Department of Public Safety database or, in the case of an applicant who does not have a Minnesota driver's license or Minnesota identification card, in the database of the Social Security Administration, the accuracy of the updated information cannot be verified, the county auditor must send a notice to the voter whose information cannot be verified and request that the voter provide the information or contact the registration office.

If the discrepancy cannot be resolved, the county auditor must challenge the voter in the statewide voter registration system and may refer the matter to the county attorney. If during the verification process the Department of Public Safety provides information that indicates that the voter is ineligible to vote, the county auditor must challenge the voter in the statewide voter registration system and refer the matter to the county attorney.

When entering information from a voter registration application into the statewide registration system, the secretary of state or county auditor shall:

- A. conduct a statewide search of the registration database to determine if the applicant has previously registered in Minnesota;
- B. assign the applicant to the proper voting precinct for the address provided on the application;
- C. determine all election districts in which the applicant will be eligible to vote;
- D. assign the registration record a unique identification number, and date the record as to when the registration was entered into the registration database;
- E. maintain a record of voting history of the registrant for at least the previous six calendar years and a record of previous registrations and changes to voter status in the state for at least two years; and
- F. provide information on prior registrations in other states. At periodic intervals, the secretary of state shall notify the chief election officials of other states of persons who have registered to vote in Minnesota and who indicated a prior registration in their state.

The Secretary of State and the commissioner of public safety may access a common database of information entered from this application.

The information from the unified application for voter registration and a driver's license or state identification card must be transferred electronically from the commissioner of public safety to the Secretary of State.
