

8230.4355 BALLOT BOXES FOR PRECINCT COUNTING CENTERS.

Ballot boxes used with precinct count voting systems may be separate or part of the ballot counting equipment provided that the ballot is fed directly into a locked or sealed ballot box. At a general election, the ballot box must have two separate compartments into which the ballot counting equipment can feed ballots. One compartment must receive ballots on which all votes have been counted and recorded. The other compartment must receive ballots on which all votes have been counted except those for offices for which the write-in target has been completed. An auxiliary ballot box, that may be separate or an additional compartment, must be supplied to be used if the voting system fails to function or for ballots that cannot be read by the ballot counter.
