

9215.0780 SOLID WASTE FACILITY SITING PROGRAM.

Plans that indicate the development of new or expanded waste facilities must contain a detailed siting procedure and development program to ensure the orderly location, permitting, development, and financing of new or expanded solid waste facilities and services sufficient for the ten-year planning period. The procedure and program must be consistent with applicable rules of the agency, the Department of Natural Resources, the Environmental Quality Board, and other state agencies. The procedure and program must include siting criteria and a program for public participation.
