

9530.6500 [Repealed, 18 SR 2748]

9530.6500 PROGRAMS SERVING INTRAVENOUS DRUG ABUSERS.

Subpart 1. **Additional requirements.** In addition to the requirements of parts 9530.6405 to 9530.6505, programs serving intravenous drug abusers must comply with the requirements of this part.

Subp. 2. **Capacity management and waiting list system compliance.** A program serving intravenous drug abusers must notify the department within seven days of when the program reaches both 90 and 100 percent of the program's capacity to care for clients. Each week, the program must report its capacity, current enrolled dosing clients, and any waiting list. A program reporting 90 percent of capacity must also notify the department when its census has increased or decreased from the 90 percent level.

Subp. 3. **Waiting list.** A program serving intravenous drug abusers must have a waiting list system. Each person seeking admission must be placed on the waiting list if the person cannot be admitted within 14 days of the date of application, unless the applicant is assessed by the program and found not to be eligible for admission according to parts 9530.6405 to 9530.6505, and Code of Federal Regulations, title 42, part 1, subchapter A, section 8.12(e), and Code of Federal Regulations, title 45, parts 160 to 164. The waiting list must assign a unique patient identifier for each intravenous drug abuser seeking treatment while awaiting admission. An applicant on a waiting list who receives no services under part 9530.6430, subpart 1, must not be considered a "client" as defined in part 9530.6405, subpart 8.

Subp. 4. **Client referral.** Programs serving intravenous drug abusers must consult the capacity management system so that persons on waiting lists are admitted at the earliest time to a program providing appropriate treatment within a reasonable geographic area. If the patient has been referred through a public payment system and if the program is not able to serve the client within 14 days of the date of application for admission, the program must contact and inform the referring agency of any available treatment capacity listed in the state capacity management system.

Subp. 5. **Outreach.** Programs serving intravenous drug abusers must carry out activities to encourage individuals in need of treatment to undergo treatment. The program's outreach model must:

- A. select, train, and supervise outreach workers;
- B. contact, communicate, and follow up with high risk substance abusers, their associates, and neighborhood residents within the constraints of federal and state confidentiality requirements, including Code of Federal Regulations, title 42, sections 2.1 to 2.67, and Code of Federal Regulations, title 45, parts 160 to 164;

C. promote awareness among injecting drug abusers about the relationship between injecting drug abuse and communicable diseases such as HIV; and

D. recommend steps that can be taken to ensure that HIV transmission does not occur.

Subp. 6. **Central registry.** Programs serving intravenous drug abusers must comply with requirements to submit information and necessary consents to the state central registry for each client admitted, as specified by the commissioner. The client's failure to provide the information will prohibit involvement in an opiate treatment program. The information submitted must include the client's:

- A. full name and all aliases;
- B. date of admission;
- C. date of birth;
- D. Social Security number or INS number, if any;
- E. enrollment status in other current or last known opiate treatment programs;
- F. government-issued photo-identification card number; and
- G. driver's license number, if any.

The information in items A to G must be submitted in a format prescribed by the commissioner, with the original kept in the client's chart, whenever a client is accepted for treatment, the client's type or dosage of a drug is changed, or the client's treatment is interrupted, resumed, or terminated.
