

USER'S GUIDE FOR RULES INDEX

The index to Minnesota Rules 1992 Supplement Number 2 includes references to rules adopted between February 4, 1991, and September 8, 1992. References are to rule part numbers.

For newly adopted rule parts the index coverage is complete. For amended parts a reference is included only if the existing references in the main volume index are inadequate to cover the amendments. Therefore, it is suggested that the user always begin an index search with the volume 11 index of Minnesota Rules 1991.

See the User's Guide on pages 199 and 200 of volume 11 of Minnesota Rules 1991 for more information about the use of this index.
