Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Construction Codes and Licensing Division:

Withdrawn Rules

An agency may withdraw rules from review (*Minnesota Statutes* 1400.2240, Subp.8; 1400.2300, Subp 4; and 1400.2410, Subp.4) by submitting a notice of withdrawal to the chief judge signed by a person authorized to withdraw the rule. Withdrawing a rule is appropriate unless the withdrawal of the rule or a portion of the rules makes the remaining rules substantially different. The notice must explain the person's authority to withdraw the rule. The office must return the agency's filing promptly after receiving this notice.

Minnesota Department of Labor and Industry (DLI) Construction Codes and Licensing Division NOTICE OF WITHDRAWN RULES: Proposed Rules Governing Boiler, Steam Engine, or Turbine Operating Engineers, *Minnesota Rules*, Part 5225.0550

The Minnesota Department of Labor and Industry is withdrawing its possible rules that establish: 1) continuing education requirements for licensed operating engineers and 2) educational equivalencies that a current licensee may meet in lieu of a portion of operating experience in order to receive a higher grade operating engineer license.

A Request for comments was published in the *State Register* on December 6, 2010. (35 SR 867). The Department received the new statutory authority to adopt the proposed rule on May 16, 2008. This authority was extended by the legislature to August 1, 2010. The Department has 18 months from the effective date of the new statutory authority to publish the Notice of Intent to Adopt Rules in the *State Register* or the Department loses its authority to adopt the rules. The Department's authority expired on February 1, 2012. The Department did not publish its Notice of Intent to Adopt Rules in the *State Register* by that date.

As a result, the Department is withdrawing the proposed rules governing boiler, steam engine, or turbine operating engineers, *Minnesota Rules*, part 5225.0550.

Dated: 3 January 2013

Ken. B. Peterson, Commissioner
Department of Labor and Industry

Commissioners' Orders

Various agency commissioners are authorized to issue "commissioner's orders" on specified activities governed by their agency's enabling laws. See the *Minnesota Statutes* governing each agency to determine the specific applicable statutes. Commissioners' orders are approved by assistant attorneys general as to form and execution and published in the *State Register*. These commissioners orders are compiled in the year-end subject matter index for each volume of the *State Register*.

Minnesota Pollution Control Agency (MPCA) Watershed Division Notice of Availability of the Draft Ann River Watershed Total Maximum Daily Load (TMDL) Report and Request for Comment

Public comment period begins: January 14, 2013
Public comment period ends: February 13, 2013

The Minnesota Pollution Control Agency (MPCA) is requesting comments on the draft Report for the Draft Ann River Water Total Maximum Daily Load (TMDL). The draft TMDL Report for the Ann River Watershed is available for review at <http://www.pca.state.mn.us/aj0r9f3>.

Following the comments, the MPCA will revise the draft TMDL report and submit it to the U.S. Environmental Protection Agency (EPA) for approval. Comments must be received by the MPCA contact person by the public comment period end date shown above.

Required by the federal Clean Water Act, a TMDL is a scientific study that calculates the maximum amount of a pollutant that a waterbody can receive and still meet water quality standards for that pollutant. It is a process that identifies all the sources of the pollutant causing an impairment and allocates necessary reductions among them. This multi-year effort results in a pollution reduction plan and engages stakeholders and the general public. An approved TMDL is followed by implementation activities for achieving the necessary reductions.

Official Notices

The Ann River Watershed is located in east-central Minnesota, east of the St. Croix River. Portions of two counties (Kanabec and Mille Lacs) are included in the project area of approximately 55,430 acres. This report addresses five (5) impairments on one reach and two lakes in the Ann River Watershed. Impairments included in this report are two nutrient impaired lakes (Ann Lake and Fish Lake), one E. Coli reach, one fish and one macro-invertebrate impairment due to excess sediment.

Preliminary Determination on the Draft TMDL Report: The MPCA Commissioner has made a preliminary determination to submit this draft TMDL report to the EPA for final approval. A draft TMDL report and fact sheet are available for review at the MPCA office at the address listed below and at the MPCA website: <http://www.pca.state.mn.us/pyri9fd>

Written Comments: You may submit written comments on the draft TMDL report or on the MPCA Commissioner's preliminary determination. Written comments must include the following:

1. A statement of your interest in the draft TMDL report;
2. A statement of the action you wish the MPCA to take, including specific references to sections of the draft TMDL report that you believe should be changed; and
3. The reasons supporting your position, stated with sufficient specificity as to allow the MPCA Commissioner to investigate the merits of your position.

Written comments on the draft TMDL report must be sent to the MPCA contact person listed below and received by 4:30 p.m. on February 13, 2013. The MPCA will prepare responses to comments received, make any necessary revisions of the draft TMDL report and submit it to the EPA for approval.

In accordance with *Minnesota Rules* 7000.1900, the MPCA will grant a petition to hold a contested case hearing if it finds that: 1) there is a material issue of fact in dispute concerning the draft TMDL report; 2) the MPCA has the jurisdiction to make a determination on the disputed material issue of fact; and 3) there is a reasonable basis underlying the disputed material issue of fact or facts such that the holding of the contested case hearing would allow the introduction of information that would aid the MPCA in resolving the disputed facts in making a final decision on the draft TMDL report. A material issue of fact means a fact question, as distinguished from a policy question, whose resolution could have a direct bearing on a final MPCA decision.

A petition for a contested case hearing must include the following information:

1. A statement of reasons or proposed findings supporting an MPCA decision to hold a contested case hearing according to the criteria in *Minnesota Rules* 7000.1900, as discussed above; and

3. An estimate of time required for you to present the matter at a contested case hearing.

MPCA Decision: You may also submit a petition to the Commissioner requesting that the MPCA Citizen's Board consider the TMDL report approval. To be considered timely, the petition must be received by the MPCA by 4:30 p.m. on the date the public comment period ends, identified on page 1 of this notice. According to *Minnesota Statutes* § 116.02 subd 6(4), the decision whether to submit the TMDL report and, if so, under what terms, will be presented to the Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the Board; (2) one or more Board members request to hear the matter before the time the Commissioner makes a final decision on the TMDL report; or (3) a timely request for a contested case hearing is pending. You may participate in the activities of the MPCA Board as provided in *Minnesota Rules* 7000.0650.

The written comment, requests, and petitions submitted on or before the last day of the comment period will be considered in the final decision on this TMDL report. If the MPCA does not receive written comments, requests, or petitions during the public comment period, MPCA staff, as authorized by the Board, will make the final decision on the draft TMDL report.
